Chapter 1561: Dutiful Female Doctor 1

The examination was divided into two parts. The first part was to check whether there was sperm in the semen. Last year in Seoul, Cai Shaofen had brought Lei Zhensheng's semen to check on Yu Xin. At that time, there was indeed no sperm.

However, that was a year ago, and a year later, she still had to help him do the examination again. Yu Xin originally did not have much hope for his semen.

As expected, there was no need to have hope. His semen still did not have sperm. Yu Xin was a little speechless. She had no choice, so she gave him another examination to see if he had the ability to survive sperm.

This time, she was surprised to find that Lei Zhensheng did not have no sperm, but he did. It was just that his sperm was very weak and could not be discharged. Usually, he would die in there.

When she told Lei Zhensheng about this situation, Lei Zhensheng was completely stunned. Then, he was ecstatic. He did not care about being in the laboratory. He hugged her and kissed and chewed on her. "Wife, you really are a godly doctor."

Yu Xin immediately pushed him away with a cold face. She pointed at her white coat and the card on her chest and said, "this is a hospital. I am a doctor. You are now my patient. Please don't act uncivilized."

"You look really good in a white coat." He finally became honest, but he still couldn't help but praise her.

She rolled her eyes at him and said indifferently, "let's go to my consultation room."

"Oh," Lei Zhensheng replied and then followed her to her consultation room. She was right in front of him. She was wearing a white coat and walked elegantly. She suddenly looked like the white-clothed fairy in "the departed fairy."

No, it was not "the departed fairy." He immediately denied his earlier seriousness in his heart. He looked again and saw that she had already walked to the side of the consultation room. She slightly lowered her head and used the key to open the door of her office.

She was like the seven fairies from the seven fairies that descended to the mortal world. He could not help but think in his heart, no wonder people said that the one in the white coat was an angel. She was not an angel.

Yu Xin did not know that Lei Zhensheng was comparing her to an angel and a demoness in his heart. She just sat down on her doctor's chair very seriously and then pointed at the chair in front of her desk with a serious expression. She gestured for him to sit down.

Lei Zhensheng felt uncomfortable all over and sat down a little awkwardly. At this moment, he suddenly felt that Lin yuxin seemed to have climbed onto his head all of a sudden. At this moment, she was deciding his fate.

“When did you say that you were born without sperm?” Yu Xin sounded like a doctor, as if she didn’t know Lei Zhensheng before.

“It should be more than 20 years ago.” Lei Zhensheng thought for a moment and said, “it might have been 25 years ago. At that time, I was in a car accident and seemed to have been injured there. Then, I had a checkup. At that time, I didn’t know. It was my family doctor who told me that I was born without sperm.”

“The equipment from 25 years ago was still very outdated,” Yu Xin continued Lei Zhensheng’s words and then said indifferently, “at that time, the examination was not accurate. When Cai Shaofen knew that there was no sperm in your semen, why didn’t you go for a comprehensive examination again?”

Lei Zhensheng immediately fell silent. After hearing what the family doctor of the Lei family said, how could he still have the mood to go for a check-up? In any case, if there was no congenital sperm, it was equivalent to directly being unable to have children, right?

Chapter 1562: Dutiful Female Doctor 2

“Alright, it’s not that you don’t have sperm, but that you have sperm to survive. It’s just that you have congenital hypoplastic seminiferous tubules, which means that even if there’s sperm in there, it can’t be discharged,” Yu Xin said as if she was a doctor speaking to a patient. Then, as she recorded on the medical record, she said, “your current treatment steps are divided into two steps. First, take the medicine and slowly make the weak sperm in that place stronger...”

“Then, do I still have the hope of giving birth to my own child?” Lei Zhensheng was so excited that he almost jumped up. Never in his wildest dreams did he expect that the heavens had not completely blocked his path of having his own child.

“I’m not completely sure yet.” Yu Xin continued to carry out the duties of a doctor and told him, “first, the sperm that you are living with is relatively weak. Secondly, you are born with difficulty in ovulating. So, even if your weak sperm can become stronger after taking the medicine, then it is unlikely that you will be able to conceive naturally. Instead, you may have to undergo artificial insemination or do IVF.”

“Then how do we make the sperm stronger?” Lei Zhensheng didn’t pay much attention to the rest of her words. In his opinion, as long as he could give birth to his own child, it would be enough. As for the process of getting her pregnant, he could do whatever he wanted. After all, she was the one who was pregnant.. As long as he had the ability to provide her with sperm, it would be fine. The current him didn’t have the ability to provide her with sperm.

“first, you have to take medicine.” Yu Xin’s face was still expressionless. She didn’t even look at Lei Zhensheng before continuing, “second, you have to reduce your sex life. You’re already weak. If you have too much sex, it will aggravate your condition.”

Reduce your sex life Lei Zhensheng’s face immediately darkened. Then, he could not help but ask, “then how often do you have sex? Will there not be a weak condition?”

“It’s more reasonable and scientific for young people to have sex once a week. ” Yu Xin continued to speak in a serious manner, “but for a situation like Mr. Lei’s, I suggest that you have sex once every ten days or once every two weeks. ”

Lei Zhensheng was so angry that he stood up immediately. Then, he reached out his hand to grab Lin Yuxin. He really wanted to strangle her to death. Once every ten days or once every two weeks. To think that she would say that. Didn’t that mean that she wanted to starve him to death?

However, just as his hand reached out in front of Yu Xin, Yu Xin instinctively moved her body backward and said indifferently, “Mr. Lei, this is a doctor’s office. The hospital is equipped with video surveillance cameras. If you want to become a murderer, just do it. ”

Lei Zhensheng was slightly stunned. He immediately withdrew his hand and sat down on the stool in anger, continuing to listen to her nagging.

“You did it on purpose. ” When he returned home, Lei Zhensheng growled at Lin Yuxin, who was taking her clothes and preparing to take a shower in the bathroom. “Lin Yuxin, you are taking revenge. You are waiting for an opportunity to take revenge. Your motive is not good. ”

Lin yuxin looked at the enraged Lei Zhensheng She couldn’t help but say indifferently, “I’m just doing my job as a doctor to tell you that if you want to improve the quality of your sperm, you have to restrain yourself. Of course, it’s okay if you don’t restrain yourself, but in the end, the quality of your sperm won’t go up. If you can’t meet the basic requirements to have a child, don’t blame me for not reminding you. As a doctor, I have to take responsibility for my own patients. ”

Lei Zhensheng immediately didn’t say anything. Looking at her serious face, he finally kicked the foot of the bed in anger. Then he said fiercely, “then I’ll choose to do it once every ten days. Two weeks is too long. Don’t even think about it. ”

After he finished shouting, he walked out of Yu Xin’s room angrily. It seemed that his desire to have a child had gained the upper hand in his heart.

Chapter 1563: Dutiful Female Doctor 3

Yu Xin had always thought that it would take a long time for her to escape from Lei Zhensheng, but she had never expected that the heavens had not blocked all the roads. It turned out that Lei Zhensheng was not born with no sperm, but had sperm that could not be excreted.

Of course, Lei Zhensheng’s sperm was a little weak, so she flipped through a lot of books and went to the men’s hospital specifically to ask the infertility specialist there. Then, according to his condition, she prescribed Chinese and Western medicine to treat him.

It had been half a month since Li Weisheng came to look for her again. He said that he had gone to work at Yunshan restaurant and had a new job, so he invited her to celebrate with him.

She originally thought that it would be her and Li Weisheng the same as last time, but she did not expect to unexpectedly see Cai Lingfei, and Cai Lingfei obviously did not expect to see her at such an occasion.

The two of them hid the secret that no one knew. With a fake smile on their faces, they ate and said congratulations to Li Weisheng, as if they were still friends a few months ago.

During the meal, Cai Lingfei was saying that Li Qinghe had found a new husband. He seemed to be of the same age as her. It was said that he was the owner of the store and Li Qinghe might be getting married soon.

Yu Xin did not pay much attention to Li Qinghe's matter. She was the woman who used to be her friend but cheated a large sum of money from Lei Zhensheng.

The owner of the store Wasn't she going to marry a successful man The owner of the store could not be considered a successful man, right?

"Who would want a successful man like her?" Li Weisheng commented indifferently on the side, "nowadays, successful men have to marry unmarried women in their 20s and 30s at the age of 60, let alone a second-hand woman like her?"

Yu Xin was silent. She thought to herself, Li Qinghe was clearly a second-hand woman. As for her, although she was an unmarried woman, she was still a second-hand woman in essence, because her current life was not much different from a married woman.

Cai Lingfei seemed to have something on and left early, while she and Li Weisheng ate a little later. On the way home, Li Weisheng asked her if she wanted to change her job, saying that he knew the director of a big hospital and could introduce her to the hospital.

Yu Xin shook her head and said, "it's not suitable for her to change jobs because she entered this hospital based on her connections. She doesn't have an ID so she must have an ID if she wants to change hospitals."

Li Weisheng heard that she didn't have an ID so he didn't say anything more. After all, this society was very realistic and without an ID, it was almost impossible to move an inch.

Ever since she gave Lei Zhensheng a checkup, Yu Xin's life suddenly became regular and she was no longer worried about someone torturing her at night Every night, after eating and taking a shower, she would crawl to the bed to read a magazine or watch some drama at eight o'clock.

In the first few days, she felt very comfortable. However, in less than a week, she felt that these days were actually very boring. Moreover, she felt that the night was particularly long, as if she could not wait until the morning.

"How despicable." She could not help but curse herself in her heart. She found that there was something strange in her body. Moreover, when she could not sleep, her mind would inexplicably think of Lei Zhensheng.

"I must be crazy." She could not help but curse herself in her heart. She thought that she must have eaten with Lei Zhensheng during dinner. However, that man had nothing better to do. He served her soup and vegetables, causing her to lose her mind.

Chapter 1564: Dutiful Female Doctor 4

On the same day, Li Lili came to work with a red and swollen face. She whispered to Yu Xin that her husband was not willing to come and see the doctor, saying that he was not sick and would only let her treat the patient alone.

Yu Xin did not find it strange after hearing Li Lili's words. Men Nowadays loved to save face. Even if there was a malfunction in that area, they were afraid that others would find out. Hence, they would avoid doctors because of illness.

"Your Fallopian Tube is not blocked anymore," Yu Xin said to Li Lili lightly. "Also, your ovulation function is still considered normal. It should not be particularly difficult to get pregnant at this age. After all, you are only 38 years old. If you still can't get pregnant this month, we can't rule out the possibility that your husband might also have a problem."

Yu Xin told Li Lili about it as a doctor. Li Lili quickly said that she knew, but her husband refused to come for a check-up. Therefore, she carefully asked Yu Xin if she could go to her house to help her husband check-up.

"This requires instruments." Yu Xin was really convinced by these people. Chinese medicine could be checked at home, and Chinese medicine relied on taking the pulse.

Of course, she didn't say that Chinese medicine was bad. It was just that some things could not be checked by taking the pulse. For example, whether the vasectomy was smooth or not, it had to be checked by instruments.

"Our family can borrow the equipment," Li Lili said carefully again, "as long as you say what equipment you want, we can lend it to you and put it back at home. Then, you can help him do the examination, okay?"

Yu Xin only felt that Li Lili's words were a little funny and could not help but remind her, "Miss Li, he is a man. If he is not willing to come to the women's hospital, he can totally go to see the male department. You can just take him to the male hospital."

"It's not the doctors, it's the men and women's issues," Li Lili quickly explained to Yu Xin. Then, she lowered her head and said, "it's my husband who is unwilling to go to the hospital to investigate this issue. He feels very embarrassed and is afraid that it will be disgraceful if it gets out."

Alright, another arrogant pig like Lei Zhensheng, so she finally nodded and said a little irritably, "then I can only go to the hospital after work, but this time after work..."

"I know, we will give you a few times more than overtime pay during the off-duty hours," Li Lili quickly expressed her stance. Then she said, "and we have a special car to pick you up when you make a house call. We won't owe you money for making house calls."

"actually, there are many experts in this field. You can go to the men's hospital to find one." Yu Xin was a little helpless. She didn't know what these people were thinking.

"But you've only been working in this hospital for more than three months, and there are already four infertile women who are pregnant." Li Lili's eyes flashed. "They all say that you're a mother-in-law. If you look at them, you'll definitely get pregnant."

“...”Yu Xin was speechless. She was even a mother-in-law. She was no different from other doctors, okay?

Moreover, among the four pregnant women, two of them had already been seen by other doctors in the past. She had only done some work in the later stages.

As for the other two, one of them was asked by her to go on their honeymoon. They naturally became pregnant during the second month, and the other one was the artificial insemination surgery that she had done. Now that they were pregnant, it was still unknown whether they would be able to have a stable pregnancy.

From the fact that Li Lili said that her family could borrow equipment from her, she knew that they must be rich people. Therefore, she wrote down the equipment, tools, and utensils that she needed to use to Li Lili and asked her to prepare them. She said that she could go to her family when they were ready.

Chapter 1565: Dutiful Female Doctor 5

Ever since she gave Lei Zhensheng a checkup, Lei Zhensheng’s life had gradually become more regular. He had quit smoking, drank less alcohol, and declined a lot of social engagements at night. Basically, he only had one or two social engagements a week at most.

Then, it was the medicine that Yu Xin gave him. He obediently took the medicine according to the rules, and he also strictly followed the rules that Yu Xin set once every ten days or half a month, even though he endured the pain.

Yu Xin still remembered that when the two of them were together after being separated for ten days for the first time, Lei Zhensheng was actually a little excited. His body that was hugging her was trembling. He kept shouting in her ear in a low voice, “honey, I miss you so much. I come to your room almost every night. Sometimes, I really want to kick the door open and barge in...”

Yu Xin did not show any reaction when she heard this, but she could not help but feel a little touched in her heart. Lei Zhensheng missed her. Did this mean that Lei Zhensheng still had some feelings for her? Even a little attached to her?

That night, the two of them were a little crazy. Yu Xin even forgot to resist. She actually cooperated with her unknowingly, accepted him, and even climbed to a certain peak with him.

Lei Zhensheng could clearly feel her reaction. After that, he did not return to his room. Instead, he continued to stay on his bed. He hugged her and kissed her on the forehead. He said in a low voice, “honey, can we just live like this for the rest of our lives?”

Live like this for the rest of our lives? Yu Xin instinctively shivered. Heavens, what was wrong with her? She was actually still pandering to him. Didn’t she know that he was a devil?

Cai Shaofen had already beaten up a man that she did not want. Would she, Lin Yuxin, still want him? Fuck. She was not a fool. Was Lei Zhensheng’s plan too clever?

“Don’t forget, you promised me that as long as I cure your infertility, you would let me go.” She pushed him away with her hand. Then, she lifted the air conditioner and got off the bed. Just like that, she walked straight to the bathroom.

Lei Zhensheng looked at the back of the figure that disappeared at the bathroom door and could not help but laugh. She had cured his illness, and he let her go. He was not a fool. Shouldn’t the mother of the child be looking for someone else to be the mother of his child?

Only Lin Yuxin was a fool. She would believe whatever he said. However, she was too lazy to remind her now. She had to wait for her to cure him first. Once she was cured, he would naturally make her pregnant and give birth to a child.

Of course, Yu Xin did not know what Lei Zhensheng was thinking. She only wanted to discuss it earlier, so she paid extra attention to his condition in the following time.

The second test found that the quality of the sperm did not improve quickly, so she said to Lei Zhensheng very calmly and decisively, “I suggest that you and your wife have sex once every half a month.”

Lei Zhensheng was so angry that he almost knocked her out on the spot. He had endured it very hard once every ten days, and now it was going to be once every half a month?

“Lin Yuxin, you did it on purpose!” Finally, when he returned to her room, he yelled hysterically, “Lin Yuxin, if you don’t want me to touch you, just say it. There are a lot of women out there. Do you need to set such a rule? Once every half a month?”

“If you think I did it on purpose, then you can go out and look for women every day,” Yu Xin said calmly, “Anyway, I’m not the one who wants to have a child. You can listen to the doctor’s words or not, and see who the person who will be harmed in the end is.”

Chapter 1566: Do you know Dr. Lin

The day Li Lili picked up Yu Xin was in the afternoon. In order to go to her home to check on her husband, Yu Xin actually took an hour’s leave of absence in advance.

Li Lili’s husband had been waiting for her at home a long time ago. When he saw her coming, he looked embarrassed. After all, he was a man. Although, in addition to his wife, there were also women who occasionally appeared outside.

“In the eyes of a doctor, there is no gender,” Yu Xin said expressionlessly, wearing a mask and a white coat.

Damn, it was not like she had never seen a man before. Moreover, she had seen many men before she and Lei Zhensheng. After all, they were doctors. In the past, some infertile women would also bring their husbands for a check-up.

Li Lili’s husband saw that this woman did not have any expression at all, so he did not hesitate anymore. He quickly asked Yu Xin to check on him, and everything was under his command.

When Yu Xin was checking on him, she specifically asked Li Lili to stand aside and watch because this place was not a hospital, but her home. If this family was a little perverted, it would not be good if they made a mess out of it.

Li Lili was very satisfied with Lin Yuxin's professionalism and professionalism. To be honest, her husband was forty-five years old. He was not bad looking, mainly because he was rich. Therefore, many women would think of ways to hook up with him when they saw him.

However, Li Lili did not know that the man that Yu Xin was following was much better looking than her husband. Although he was three years older than Li Lili's husband, Li Lili's husband looked even older than Lei Zhensheng.

The results of the check-up came out very quickly. As expected, there was something wrong with Li Lili's husband. She said to Li Lili's husband calmly, "try to have sex as little as possible. Once a week between husband and wife is enough. In addition, you have to take some medicine to prevent pregnancy while taking the medicine. The medicine takes a course of treatment, which is a month. After stopping the medicine, observe for a month and then prepare to get pregnant. If you can't conceive naturally, you'll probably have to undergo artificial insemination."

When Li Lili heard Yu Xin's words, she couldn't help but say in puzzlement, "We don't have a lot of sex to begin with. Sometimes, we only have sex with each other during the two days when we ovulate for a month. We haven't been together at other times."

"..."Yu Xin was speechless. Everyone said that she was naive, but it turned out that Li Lili was even more naive than she was ...

When she saw Li Lili, she could not help but think of the former Cai Shaofen. She had been the wife of Lei Zhensheng for eighteen years, and Lei Zhensheng had been with a woman for a long time outside. She did not know how Cai Shaofen had survived. Eighteen years?

Li Lili said that she had been married to her husband for thirteen years. She had been looking at infertility for several years, but her husband had refused to have a check-up. It had dragged on for a year, and now it had dragged on until her husband's father was paralyzed in bed and forced to have a child. Only then was she willing to arrange for someone to come and have a check-up.

Yu Xin did not make any comments after hearing Li Lili's words. She only prescribed medicine for her husband and reminded him of the precautions before she got up and left.

Li Lili's husband was very eager to drive her back, but she rejected him flatly. Li Lili said that she would drive her back, but Yu Xin said that there was no need for trouble.

The three of them were pulling each other in the courtyard when the courtyard door was pushed open at this moment. Li Weisheng pushed the door open and walked in. When he saw Yu Xin here, he could not help but be stunned for a moment and blurted out, "why are you here?"

"I was the one who invited doctor Lin over," Li Lili answered for Yu Xin before asking again, "what's wrong? Weisheng, do you know Doctor Lin?"

Chapter 1567: WAS lying

In the end, it was Li Weisheng who sent her back. She lied that she had to go back to the hospital to work overtime, so she just asked Li Weisheng to send her back to the hospital.

“If you want to work in another hospital one day, I might be able to help you,” Li Weisheng said in a joking tone. Then, he looked at her meaningfully and said, “moreover, there are no men in your women’s Hospital, and there are very few male patients who come to see patients. Even if there are, it’s a husband brought by another woman. When can you find someone to marry?”

Yu Xin was stunned when she heard this, then she smiled and said, “I think so too. This women’s hospital is like the Emei sect. If I stay in there all the time, I don’t know whether I will eventually become empress dowager extermination or Zhou Zhiruo.”

“Hahaha,” Li Weisheng could not help but laugh when he heard her words, so he quickly said, “then hurry up and change to another hospital to work in, lest you end up becoming empress dowager extermination.”

“I want to change too,” Yu Xin still smiled and said, then she sighed and said, “the key is that I lost my certificate. It’s very troublesome to get a replacement certificate now, and I can’t go back without my certificate, so, in short...”

“It’s a small matter,” Li Weisheng said indifferently, “the hospital I’m talking about is a large general hospital, but it’s not in Taipei. It’s in Tainan, and it’s run by a relative of mine. Although it’s in Tainan, it’s still much bigger than this women’s hospital. As long as you’re willing to go, I’ll help you get a fake ID.”

“really?” Yu Xin’s heart couldn’t help but move when she heard this. If she got a fake ID, then she would escape from Lei Zhensheng’s side. In the future, if she called the name on the fake ID, Lei Zhensheng probably wouldn’t be able to find her.

“Of course it’s true. Don’t tell me I’m lying to you?” Li Weisheng drove the car into the front door of the women’s Hospital and then stopped at the outpatient department. He looked at her sideways and said, “If you want it, just call me and tell me.”

“Okay, let me think about it.” Yu Xin nodded, pushed open the car door and got out. When she closed the door, she waved at Li Weisheng. “thank you.”

Li Weisheng smiled and then drove away. In fact, Cai Lingfei had already told him about her. However, since Yu Xin didn’t tell him the truth, he didn’t expose her face to face to avoid embarrassing her.

Because she had told Lei Zhensheng in advance that she had to work overtime at night, and Lei Zhensheng had not come back yet when she went back at night, ah Ling said that Lei Zhensheng had called to say that he had an engagement in the evening and would not be coming back for dinner.

Lei Zhensheng had been having very few engagements recently, and his life was gradually becoming more regular. This kind of engagement where he would not come back for dinner occasionally was probably an engagement that he could not avoid.

Li Weisheng said that he would help her find a job, so she did not dare to trust him easily anymore. The last time when Li Qinghe lied to her, it had made her completely wake up. She should not have the heart to trust others, and the heart to guard against others should not be absent.

Therefore, she was not in a hurry to call Li Weisheng. Instead, when Li Lili came to prescribe medicine for her husband, she secretly asked her if she had a relative opening a hospital in Tainan.

Li Lili said that there was indeed a relative opening a hospital there, but it was not on her husband's side, but on her mother's side. However, that relative was not considered a close relative, it was just a distant relative. Moreover, Tainan was far away, so she felt that it was inconvenient to go back and forth. Therefore, she did not go to the relative's hospital to see him. Instead, she chose a hospital near Taipei to see him.

Li Lili thought that Lin Yuxin meant to ask her why she did not visit her relatives' hospital. In fact, Yu Xin just wanted to confirm whether Li Weisheng was lying.

Chapter 1568, I'm not a gentleman

Lei Zhensheng's fourth check-up was already in October. Yu Xin gave him a very serious check-up. This was her rule as a doctor. Even if the patient was Lei Zhensheng, she was not willing to lie to him.

"congratulations, Mr. Lei." Yu Xin held the results sheet and said to Lei Zhensheng, who had just come out of the shower, "your sperm survival rate has increased a lot. You have completely reached the standard of being able to impregnate a woman. Although you can't naturally impregnate a woman because of the Vasovagal obstruction, you can use artificial insemination or IVF with your wife to give birth to a child that belongs to you."

Lei Zhensheng looked at her and a smile gradually appeared on his face. Then, he reached out and pulled the result sheet from Yu Xin's hand. Then, he asked faintly, "then, when do you think we should get married?"

We should get married Were Lei Zhensheng's words directed at her?

Yu Xin thought that she had heard wrongly. She could not help but stare at Lei Zhensheng and asked in return, "what did you say just now?"

"I said, I'm going to marry you. Hurry up and pick out the date." Lei Zhensheng was convinced by her. Such a big woman. She was usually a doctor. Why did her hearing malfunction again.

"Who wants to marry you?" Yu Xin finally reacted So she couldn't help but shout back, "Lei Zhensheng, what do you mean by a word is worth nine? What do you mean by a gentleman's word is hard to keep? You said that I would leave you after I cured your infertility. How can you not keep your word now?"

"A word is worth nine. I'm not the emperor." Lei Zhensheng shrugged his shoulders and looked at Yu Xin He said indifferently, "a gentleman's word is hard to keep When did I tell you that I'm a gentleman If I were a gentleman, would I have used such a method to bring you to Taiwan Shouldn't a gentleman be reasonable in everything When have I ever been reasonable with you?"

Rumble. Yu Xin only felt three thunderclaps above her head immediately, directly hitting her on the spot, burning her inside and outside!

How could she be so confused? She was so confused that when Lei Zhensheng said this back then, he actually did not ask him to write a letter of commitment for her. She was so confused that she actually believed whatever he said?

She wasn't just confused. She was stupid. She was tricked by Li Qinghe in the beginning. Now, when she looked back, she was still tricked by Lei Zhensheng. Was she a 30-year-old professional woman? Was she a 13-year-old middle school student? How could she be deceived so easily?

Lei Zhensheng saw that she stood there for a long time without moving. So he patted her cheek and said, "wake up, don't be sad. Although I'm 18 years older than you, I'm not half older, am I? Just think about that 28-year-old who married 82-year-old, and then think about the age between them when Wendi Deng married Murdoch. Think about that diving star Fu Shixia who married Master Liang, who was even older than her father. Your heart immediately felt balanced. I'm not as old as your father, am I?"

Yu Xin gritted her teeth in anger. She also knew the stories of those people. Although the husbands of those people were indeed very old, those women were willing. They were willing, okay?

If she and Lei Zhensheng only met naturally, fell in love naturally, and had feelings for each other naturally, and then he proposed to her, she thought that she would probably agree.

Because although being 18 years older than her was a bit old, it was not to the extent of being ridiculously old.

Chapter 1569, two choices

However, this was not the case between her and Lei Zhensheng. From the very beginning, he had entered her life as a demon and invaded her body. She did not have the slightest bit of affection for him, and it was even more impossible for her to fall in love with him. So why would she agree to marry him?

Lei Zhensheng saw that she did not say anything, but he could not guess what she was thinking. So, he continued his topic, "besides, although I am 18 years older than you, don't look anymore. Women have always aged faster than men. Let alone in the future, even now, when we walk out together, can others see that I am 18 years older than you? At most, they would think that I'm less than 10 years older than you, right?"

Yu Xin was silent. She had to admit this point. Lei Zhensheng, this fellow, took good care of himself. Moreover, he loved to work out. Therefore, although he was 48 years old, he did not grow a big belly like other men. Instead, he was like a man in his thirties who was still elegant and handsome.

"Anyway, I'm not going to marry you." Yu Xin finally came back to her senses. She said angrily, "Lei Zhensheng, you said that I would cure your illness. Now that it's cured, so if you want to marry a woman outside, there are many women lining up to marry you. Why do you have to force a woman you hate?"

Lei Zhensheng was slightly stunned, and then he quickly reacted. He couldn't help but roar in anger, "Lin Yuxin, what right do you have to hate me? Ah! It's you who caused my marriage to break up. It's you who

drove my wife away. It's you who caused me to not be able to marry a wife. I haven't even hated you yet, and now you actually hate me Don't you have any sense?"

When Yu Xin heard his roar, she couldn't help but fly into a rage Then, she couldn't bear it anymore and shouted back, "Lei Zhensheng, are you F * Cking human What does it have to do with me if your wife wants to divorce you I'm just a doctor doing what a doctor should do When did I stop you from getting a wife You're the one who didn't go out and find a woman to marry, aren't you You're a scoundrel who doesn't count on her words. You B * Stard, you B * Stard... .."

Before Yu Xin could finish her words, Lei Zhensheng's mouth quickly covered her mouth. She tried hard to break free, but of course, it was impossible. When the antelope fell into the wolf's mouth, it would only end up being eaten clean.

This was the worst fight they had ever had with each other. Yu Xin's resentment was too deep, so she used all her strength. Lei Zhensheng was even angrier than usual because of her unwillingness to listen to him.

Even under such circumstances, Yu Xin was still pressed under his body. It was still difficult for her to escape the situation of being tortured by him. As she accepted his inhumane impact, she began to cry loudly.

She rarely cried because as a doctor, she had seen many life-and-death situations. Her tear ducts had always been high, so it was difficult for her to cry. However, this time, she cried uncontrollably. Her tears were like water bursting out of a dam.

Lei Zhensheng kissed her tears carefully and softly as he apologized. However, his movements did not stop. Instead, they became even more violent as if he wanted to merge himself into her.

In the end, the earth-shaking bed exercise ended with the sound of crying and crashing. Lin Yuxin was so weak from crying that she could not get up at all.

Lei Zhensheng elegantly got up from her body and looked at the woman whose face was covered in tears and scars He said calmly, "Lin Yuxin, I will give you two choices. First, marry me as your wife! Second, let me marry you as my wife! Choose one of the two. Don't say that I am overbearing and overbearing! I will only give you one way out! "

Chapter 1570 wait for me to come back and give birth to a child

Yu Xin had made up her mind to call Li Weisheng when Lei Zhensheng said that he would not let her go because Li Weisheng said that he could get her a set of fake documents.

Of course, Li Weisheng also said that the fake documents could only help her find a job in Taiwan. Moreover, it was a hospital run by his relatives and could not be used to go abroad for formalities, because after all, the fake documents were still fake He also did not have the ability to reach the sky with one hand.

Lei Zhensheng knew that he could give birth to a child through artificial insemination. He was so happy that the next day, he had to drag Yu Xin to the hospital for artificial insemination. He said that his child's mother had already decided on Lin Yuxin and there was no other choice.

Yu Xin was so angry that she almost vomited blood. She glared at Lei Zhensheng as if she wanted to swallow him whole. However, he did not care at all. Then, he said lightly, "if you did not chase Li Qinghe away, maybe I would have a second choice. Now, all of this is because of you."

This time, Yu Xin fainted immediately. She finally understood that reasoning with the devil was like talking to a cow. A cow could not understand the sound of the piano, and the devil could not understand the reason.

Therefore, she could only tell Lei Zhensheng based on the facts. It was not that he could have a baby whenever he wanted. He could have a baby anytime now, but she could not because her period would come to report tomorrow. Therefore.. It was impossible to do artificial insemination for the next half a month.

Only then did Lei Zhensheng recall that it was indeed the case. It seemed that artificial insemination required a woman to ovulate before her eggs could be released. Lin Yuxin's period was the day after tomorrow, so she could not ovulate until two weeks later.

Therefore.. He nodded and said, "alright, then let's plan to do it in two weeks. Coincidentally, I'm going to Hong Kong for a few days, and then I'll return to Seoul, Korea, for about ten days. You stay at home for these ten days and take care of your body. We'll try to succeed once."

Yu Xin helplessly nodded and agreed. There was no other way. Some people said that life was rape. If you couldn't resist, then you could only try to enjoy it.

The day Lei Zhensheng left was the first day of her menstrual visit. At that time, she was so painful that she curled up on the sofa. She didn't have any reaction when he came over to tell her that he had left, so she only focused on pressing her abdomen with her hand.

"I heard that women will naturally recover after giving birth to children with menstrual cramps." He patted her face with his hand, then gently planted a kiss on her forehead and said, "be good, wait for me to come back and give birth to children. No, wait for me to come back and help you with your menstrual cramps."

Yu Xin was so angry that she wanted to grab a kitchen knife and immediately cut him down. Of course, this was only in her heart, but what she asked was, "then when can you come back?"

"The original plan was two weeks. I will try my best to arrange my work more tightly and try to come back in ten days." Lei Zhensheng walked to the door and turned back to look at her. He said jokingly, "why, do you miss your husband?"

Yu Xin's face turned red and she didn't say anything. In her heart, she said, "do you miss your dead head?" "You'd better not come back this time. I can't be bothered to see you. "?"

Although she thought so in her heart, she didn't dare to say it out loud. But what she said was, "who asked you to give Ah Ling a holiday these two days? Let me tell you, I don't know how to take care of

that dog of yours. If you come back and find that the dog has starved to death, don't blame me. And don't blame the gorilla on your rooftop. "

"Your worry is unnecessary. I've already arranged for that. " Lei Zhensheng said this, then shook the car keys and walked towards his own car in the courtyard.
