

## Divorce 1771

### Chapter 1771, the enviable young Madam Qiu

The car was a BMW, a domestic BMW, the kind that cost hundreds of thousands of yuan. Fang Xiao had never thought that she would own a car, so when Qiu Yitang gave her the car keys this morning, she was obviously stunned.

Qiu Yitang was obviously dissatisfied with her stunned state. When he threw the car keys to her, he could not help but say, "don't you usually go to see Fang Chen? It's much more convenient if you have a car, isn't it? The West Mountain Villa is a little remote, there are very few buses and taxis.

Therefore, Fang Xiao did not need to delay any further. Moreover, she was not a complete fool. If she really had a car, she would not even need it. Moreover, Qiu Yitang gave her a car to drive, it was not because of his Qiu family's face.

If she went in and out by taking the bus or stopping a taxi, it would also be a loss of his Qiu Yitang's face. Therefore, rather than saying that Qiu Yitang was thinking for her, it was more appropriate to say that he was thinking for himself.

However, when she drove the BMW, her nose instinctively twitched because she clearly felt that there was a familiar smell in the car, and this smell came from Du Caiwei.

This car was not new, or at least it was not brand new. After driving for a while, this car must have belonged to Du Caiwei before this?

She rolled down the window and let the air outside dilute the smell completely. Fang Chen, on the other hand, sat in the front passenger seat. He looked particularly excited, acting like a four or five-year-old child.

Because they were both in Huicheng, the journey was not far. It was only a ten-minute drive. Fang Xiao quickly sent Fang Chen to the special school and handed him over to the Auntie and Luo Qili.

Luo Qili saw her driving over and heaved a long sigh of relief. She could not help but sigh. "The Qiu family finally has some conscience. Qiu Yitang is still a man. He did not truly abandon you, nor did he truly ignore your younger brother. This way, your parents can finally be at ease underground."

Fang Xiao smiled wryly when she heard this. Perhaps this was the best outcome. She only hoped that her younger brother, Fang Chen, would be able to succeed in the surgery after he was sent to the hospital next year. He would be able to develop his intelligence that had stopped developing, and he would be able to become a normal person.

As for her, she was no longer important, because her hopes were all on her younger brother, Fang Chen. Before Fang Chen had undergone the surgery, before Fang Chen had fully recovered his intelligence, she would not be able to make other plans.

Before she left, Fang Chen held her hand and asked when he would come to pick him up again. Fang Xiao quickly comforted him, saying that she would come to pick him up on Friday afternoon. Now that

her sister was living in Huicheng, she would only be separated from her younger brother for five days a week. They would be together for two days.

Fang Chen was naturally very happy, but he still did not believe it. That was because Fang Xiao had left him here a while ago and had been afraid of losing him for a long time. Therefore, he was very worried when he saw his sister leave.

In the end, Fang Xiao pulled his little finger and promised him that she would keep her word and would not go back on her word. She promised to pick him up on Friday. In the end, Fang Chen was willing to let her leave.

Fang Xiao had originally planned to go to work, but it was already December. It was close to the end of the year, and Qiu Yitang also did not let her go to work. He said that the young Madam of the Qiu family would be disgraced if she went out to work?

Those who knew said that she was a strong woman, but those who did not know thought that he, Qiu Yitang, could not afford to support his wife?

Therefore, Fang Xiao could only stay at home obediently and become the young Madam of Qiu that everyone in Quan Hui city envied.

#### **Chapter 1772 the responsibility of the daughter-in-law of the Qiu family**

After Fang Xiao Married Qiu Yitang, did her days settle down? She usually lived alone in the West Mountain Villa, and Qiu Yitang rarely came back. He was the CEO of the Qiu family, and he seemed to be very busy recently.

Fang Xiao had never paid attention to his whereabouts, so twenty days later, old Madam Qiu had a problem with her.

On this day, old Madam Qiu specially called her to the Qiu family's old house, and then threw a newspaper in front of her with a stern face She said very discontentedly, "look, how did you become a wife? Your husband has only been married for twenty days and he's already with another woman?"

Fang Xiao only felt that old Madam Qiu's words were a little funny. Could she stop Qiu Yitang from looking for a woman outside Moreover, when had Qiu Yitang ever treated her as a wife?

However, she still patiently read through the report. In fact, it wasn't any breaking news. It was just that Qiu Yitang was having dinner with a woman in a high-class restaurant. From the angle of the camera, that woman's face was a little blurry She looked down on what she looked like.

However, Fang Xiao recognized her at a glance. This woman was none other than her good sister, Du Caiwei. Therefore, she could not help but feel a little surprised.

She remembered that on the morning of the wedding, Qiu Yitang came knocking on her door with an unpleasant smell of perfume Then, he said to her in great pain, "Caiwei left and went abroad. From now on, she will never appear in Huicheng again. She will never affect our marriage again."

This woman who went abroad would never appear in Hui city again. It was only a short 20 days, and she actually came back. Moreover, she even went out with Qiu Yitang in public?

Old Madam Qiu saw that Fang Xiao was silent. She could not help but sigh and said, "alright, Fang Xiao, I know you have a problem with Yitang, and you have always held a grudge against our Fang family. You even agreed to marry Yitang because Yitang would send your brother abroad for treatment."

Old Madam Qiu sighed. "Fang Xiao, to be honest, I am indeed a little calculative about the matter of your past sexual photos. However, since the matter has already passed and you were indeed a good child, I don't think that it was your own fault. I think that you were framed. In short — "

"In short, as the daughter-in-law of the Qiu family, you must carry on the family line for the Qiu family. As the daughter-in-law of the Qiu family, you must also act like the daughter-in-law of the Qiu family. For a husband who is looking for women outside, you must show your authority as the official wife. You must deal with the women outside as you should. DON'T BE SOFT-HEARTED!"

Fang Xiao bit the corner of her mouth as she listened to old Madam Qiu's teachings. She thought to herself, she really wanted to teach Qiu Yitang a lesson about the women outside. However, she was afraid that Qiu Yitang would teach her a lesson after she had just taught him a lesson, so why should she bother?

She might as well not care about Qiu Yitang's matters outside. As long as they did not provoke her, she would have nothing to do. She would spend two to three years with Qiu Yitang as if they were guests and wait until Fang Chen was completely recovered.

Therefore, when old Madam Qiu lectured her, she listened without saying a word. However, she had her own plans in her heart. Qiu Yitang's woman outside was Du Caiwei, and Du Caiwei was someone she could not afford to provoke. Moreover, Qiu Yitang would never allow her to provoke Du Caiwei.

### **Chapter 1773. She came back for Christmas**

She only wanted to live a peaceful life with Du Caiwei. She would be her young Madam Qiu and Du Caiwei would be her mistress Qiu Yitang. As long as Du Caiwei did not provoke her, she would not go and find trouble with Du Caiwei.

Fang Xiao wanted to live a peaceful life with Du Caiwei and did not want to provoke Du Caiwei. However, Du Caiwei not only did not appreciate her kindness, but also wanted to provoke her.

It was December 22nd, the winter solstice festival. In fact, very few young people nowadays celebrated the Winter Solstice Festival. However, the older generation of traditional people still regarded the winter solstice festival as very important. On such a day, it was inevitable that it would be lively.

The Qiu family was a wealthy family in Hui city. Any festival was very grand in their eyes. Even if this young man looked very plain, there were even some young people who did not remember this festival.

Because it was a festival, Fang Xiao naturally could not live alone in the West Mountain Villa. On the morning of December 22nd, she was called back by the Old Lady of the Qiu family, saying that she wanted to help prepare things for the winter solstice festival.

Actually, what did she need to prepare After all, the Qiu family was a wealthy family. They had servants and cooks at home. Moreover, what did a young girl like her know?

However, since Madam Qiu had spoken, it seemed that this so-called granddaughter-in-law of hers was not acting like the young Madam of the Qiu family. Therefore, she went back obediently and greeted Madam Qiu.

Since last week, Madam Qiu said that she did not care about Qiu Yitang's matters outside, she did not dare to come to see Madam Qiu this week. She only prayed that Qiu Yitang could be more discreet outside and not be exposed by the Paparazzi.

Fortunately, Qiu Yitang was still cautious this week. In short, he was not photographed by the Paparazzi again. Moreover, it seemed that he had returned to the West Mountain Villa for dinner three nights this week. It was really rare.

She still remembered those three nights. When he came home, he always did not remember to call in advance. Moreover, she lived alone in the West Mountain Villa and did not have any servants. She always cleaned and cooked by herself.

It was to the extent that he always carried out surprise attacks. The last time she came back, she was almost done eating. In the end, he came in like an old man and said, "Fang Xiao, I'm hungry. Fill me up with food."

FILL UP WITH FOOD? She did not even prepare his food. What was she going to fill him up with Air The key was, could he eat his fill with air?

In the end, she felt a little helpless and could only get up to go to the kitchen to cook for him again. Because he said he was hungry, she thought it was too late to cook, so she fried eggs, Fried Ham, and a few lettuce leaves to cook a bowl of noodles for him.

Fortunately, Qiu Yitang's temper had improved recently, and for some reason, he could eat a bowl of home-cooked noodles. In the end, he even drank all the soup. He really gave her enough face.

Regarding the photo of him with a woman taken in the newspaper, she didn't ask him at all and pretended that she didn't know anything. She didn't expect that he would take the initiative to tell her.

"She came back for Christmas. After Christmas, she went abroad again," Qiu Yitang said to her while she was washing the dishes in the kitchen. She didn't know if he was telling her the truth.

He came back last night, too. Although he didn't rush back for dinner, he came back before eight o'clock in the evening. It was really early. It didn't fit his image as the president of the Qiu Corporation.

In fact, when he came back, she hadn't slept yet. She was sitting in the study reading a book. After her marriage, she had more free time, so she went to the bookstore to buy some books to read. She was ready to recharge herself in two years.

**Chapter 1774 responsibility of the daughter-in-law of the Qiu family**

Unexpectedly, Qiu Yitang came to the study. When he saw her reading, he even bent down and leaned close to her body. Then, he whispered in her ear, "Fang Xiao, how's your recovery?"

At that time, she really did not react, so she did not even raise her head and replied, "well, it's about time. I haven't felt uncomfortable recently."

She only raised her head after answering this sentence. When she noticed the ambiguous smile on Qiu Yitang's face, she felt that something was not right. And just when she was puzzled, he actually kissed her cheek excessively.

She immediately dodged, but of course, she still did not dodge. In the end, Qiu Yitang grabbed her with his hand and pulled her into his arms with a little force.

She was trembling and her entire body was trembling. At the same time, she pushed him hard and shouted randomly, "Qiu Yitang, I am a ruined woman. Qiu Yitang, let go of me. Qiu Yitang, Du Caiwei is here..."

When she shouted these words randomly, Qiu Yitang did not make any more excessive demands. He just stared at her. When she finally stopped shouting and arguing, he looked at her and said word by word,

"Fang Xiao, remember, you are my wife. Don't always find a bunch of excuses to avoid it. That matter will come sooner or later. Of course, I will try my best to give you time to prepare mentally. However, don't let me wait for too long. My patience is limited."

He let go of her after saying that last night, while she sat in the study until midnight. She did not know why Qiu Yitang, who hated her so much, suddenly became interested in her after they got married.

Because she slept too late last night, she still had two dark circles under her eyes when she came to the Qiu family's old house today. She used some concealer to cover up the dark circles under her eyes, but in the end, she did not succeed.

Old Madam Qiu didn't say anything when she saw the dark circles under her eyes, but the smile on her face clearly had a deeper meaning. She even asked meaningfully, "Fang Xiao, did Yitang come home often last week?"

"Yes," Fang Xiao answered casually and reported truthfully, "he still has a few nights to come home for dinner."

"Then did he come home early last night?" Old Madam Qiu asked indifferently again.

"early. He probably came back around eight o'clock," Fang Xiao answered truthfully. When she looked up and saw the deeper meaning in Old Madam Qiu's eyes, Meng ran suddenly felt that something wasn't right.

She had not been in the Qiu family for long when a servant brought her a bowl of black stuff to drink. She asked puzzledly, "what is this?"

"Chinese Medicine," The servant answered truthfully, then looked at her with a smile and said, "old madam found an old Chinese doctor to prescribe it for her health. Young Madam, hurry up and drink it. The heavy responsibility of having an extra child in the Qiu family is on you."

Extra Child Fang Xiao was stunned for a moment before she reacted. Her face froze in an instant. Old Madam Qiu meant to let her give birth to Qiu Yitang's child.

However, she did not want to be a real husband and wife with Qiu Yitang. She thought that Qiu Yitang was willing to marry her because Madam Qiu liked her. After all, in the past four years.. She had once treated Madam Qiu as her own grandmother.

Although she was extremely unwilling to drink this bowl of black soup, she still could not dissuade Madam Qiu. Therefore, she gritted her teeth and drank the black, bitter soup.

### **Chapter 1775 the mistress should not be seen in the light**

On the winter solstice festival, the North's custom was to eat dumplings, the south's custom was to eat glutinous rice dumplings, and the southwest's custom was to eat rice noodles. On the other hand, old Madam Qiu was particularly particular about it and actually wanted to get some.

The Qiu family's chef was omnipotent. He could cook dumplings, glutinous rice dumplings, and rice noodles, but when he was doing all this, he realized that the rice noodles were gone, so he had to go buy more.

Because there was a maid asking for leave on the afternoon of the winter solstice festival, the chef could not leave the kitchen alone, so the small matter of buying rice noodles fell to Fang Xiao.

Fang Xiao didn't like eating rice noodles, but since it was the winter solstice festival, and the most important thing was that old Mrs. Qiu needed this kind of thing, she couldn't refuse and say that she wasn't going.

The bridge-crossing rice noodles were sold in the supermarket nearby, so she didn't need to drive out at all. However, before she left the Qiu family's old house, Liu Yijun called her and said that she had come back from Binhai to celebrate the winter solstice festival and hadn't seen her for a long time She wanted to meet her.

Liu Yijun was Luo Qili's cousin. When she went to Binhai to look for a job, Liu Yijun helped her write a resume with ten carats of pink diamonds, so she immediately agreed to meet her at a Pizza Hut in the center of Huicheng.

When Fang Xiao drove to the Pizza Hut, Liu Yijun had already arrived Liu Yijun saw her and said jokingly, "actually, I personally don't like eating Pizza Hut, but my cousin likes it. She said he's already a pizza hut, and I'm moving toward the Pizza Hut's position. "

Fang Xiao said faintly as they walked toward the Pizza Hut, "actually, there's nothing wrong with being a pizza hut girl. If you can't find a suitable man to marry in your life, you might as well be a pizza hut girl. "

Liu Yijun already knew that she and Qiu Yitang were married. She originally wanted to ask her if her life after marriage was happy But when she thought back, Fang Xiao was the young madam of the Qiu family in Huicheng. How could she not be happy?

Thus, Liu Yijun could not help but sigh. This person's life was really different. Although the Fang family was bankrupt and the Fang family was in decline, Fang Xiao could still marry into a wealthy family The wife of the CEO that everyone envied.

Fang Xiao and Liu Yijun walked into the only Pizza Hut restaurant in Huicheng. They did not expect to meet someone they used to be familiar with just a few meters away when they were looking for a suitable place to chat.

As the saying goes, enemies have a narrow road. The two people who used to be like sisters actually met like enemies. When Fang Xiao saw her, she obviously turned her face away and pretended not to see her, wanting to walk away.

However, the other party was much more enthusiastic than her. When du Caiwei saw her, she took the initiative to greet her. She even came over and called her softly, "Xiao Xiao, we haven't seen each other for a long time."

When du Caiwei finished calling Fang Xiao, she realized that Liu Yijun was beside Fang Xiao, and Liu Yijun was actually a classmate of Du Caiwei in middle school Therefore, she was slightly stunned for a moment before quickly greeting Liu Yijun, "Yijun, what a coincidence. You Know Xiao Xiao too?"

"I met Fang Xiao only two years ago, but I've heard of her a long time ago." Liu Yijun's attitude was very indifferent She looked at Du Caiwei coldly and said, "CAIWEI, you've refreshed my understanding of mistresses. In the past, I always felt that people like mistresses should not be seen in the light. They should be hiding in a dark corner waiting for their husbands to earn more money to reward her with a few flowers. And smart mistresses would not show themselves in front of the main room. SMART mistresses are self-aware. They know that their identity is not honorable, but they also know how to be humble and know how to save face. But, Miss Du, you don't seem to be a smart mistress, but you actually showed up in front of the main room without any sense of shame. I think you're planning to be unconventional in mistresses?"

### **Chapter 1776: Who stopped whose happiness**

"You?" Du Caiwei was scolded by Liu Yijun, and her face immediately turned Pale with anger. Her body also trembled because of excitement, and the crystal clear liquid in her big eyes rolled, but she gritted her teeth and did not let the tears fall.

Du Caiwei's expression was completely aggrieved. It was as if Liu Yijun's criticism of her just now was something that happened in the middle of the afternoon, and she was completely wronged.

"Yijun, I know we had a conflict when we were in middle school, but we were so young then. How can you hold a grudge against me over a small conflict?" Du Caiwei looked at Liu Yijun She looked very wronged and sad. "Yijun, I don't remember what happened in the past. Why do you have to scold me because of some small fights we had in middle school?"

Liu Yijun was about to speak when Fang Xiao held her hand and gently advised her, "Yijun, forget it. This isn't a place for a fight. Let's not eat pizza hut. Let's go to the famous cafe across the street. It's all western food. It should be about the same."

Liu Yijun looked at the people around them who were looking at them. She nodded and turned around with Fang Xiao, preparing to walk out of this Pizza Hut restaurant and go to the famous cafe across the street.

However, they had only taken two steps when Du Caiwei caught up with them from behind. She was clearly crying, and she even cried out in a trembling voice, "Xiao Xiao."

Fang Xiao turned her head impatiently and looked at Du Caiwei, whose eyes were filled with tears. She asked impatiently, "Miss Du, is there anything else?"

"Xiao Xiao, that time, I really didn't know that you were pregnant. Moreover, that time, I was only..."

"enough, Miss Du!" Fang Xiao couldn't bear it any longer and growled. Her hands were already tightly clenched into fists. She said coldly, "Du Caiwei, don't go too far. You should at least have a sense of propriety. You and Qiu Yitang can roll around outside as much as you want. I won't disturb you. So, please behave yourself and don't find fault with me."

"Xiao Xiao, it was me and Yitang who fell in love first." Du Caiwei felt very wronged when she said this. She couldn't help sobbing and said, "Xiao Xiao, Yitang loved me. If you didn't come back from abroad to interfere with us..."

"Who interfered with WHO?" Fang Xiao quickly interrupted Du Caiwei's words. Her cold gaze landed on Du Caiwei. Her voice instantly became cold and without warmth. "Du Caiwei, when Qiu Yitang and I were engaged four years ago, why didn't you say that he was your boyfriend? And why didn't Qiu Yitang say that he was already in love with you and wasn't willing to get engaged to me? A few months ago, Qiu Yitang and I had already broken off completely. My family had already been destroyed, so why didn't Qiu Yitang marry you at that time? And at that time, you were already pregnant with Qiu Yitang's child, right? Why haven't you been able to rely on your mother to support your child?"

Fang Xiao's series of questions made Du Caiwei unable to answer a single word. When Fang Xiao saw that she wasn't going to answer, he and Liu Yijun turned around and wanted to leave again.

Unfortunately, just as the two of them took a step forward, Du Caiwei suddenly ran up and knelt down in front of her. She even reached out her hands and grabbed Fang Xiao's pants.

"Hey, Du Caiwei, let go of me!" Only then did Fang Xiao become nervous. She even instinctively stepped back. She didn't think that Du Caiwei, this woman, would actually kneel down with her for no reason. What was she up to?

### **Chapter 1777, news of his engagement**

However, no matter what tricks Du Caiwei had up her sleeves, this woman definitely had bad intentions when she came knocking on her door, and she did not want to fall into her trap again.

Fang Xiao tried her best to get rid of Du Caiwei, but Du Caiwei's hands were firmly holding on to her trousers, preventing her from leaving. Moreover, she kept shouting, "Xiao Xiao, please don't chase me out of the country. Xiao Xiao, I just want to stay by Yi Tang's side. I don't want to snatch your position. I just love Yi Tang very much and want to have a child with him, but you can't." "..."

“I’ve seen shameless people, but I’ve never seen anyone more shameless than you.” Liu Yijun couldn’t stand it anymore and quickly interrupted Du Caiwei’s words. Because du Caiwei was her high school classmate.. Therefore, she more or less knew some of this woman’s necessary means to be shameless.

“Who is shameless?” Du Caiwei’s cries became louder and louder, but her head became lower and lower. Her hands were still tightly holding on to Fang Xiao’s pants. People who didn’t know what was going on thought that she was kowtowing and begging for Fang Xiao’s mercy.. She had really brought the feeling of grievance and enduring humiliation to the extreme.

Fang Xiao only felt that du Caiwei’s acting skills were too deep, and she was not good at acting, so she lifted her leg in frustration, wanting to pull her leg out. She did not want to continue the stalemate with her.

However, du Caiwei’s hands were too tight, and she could not pull her leg out at all. Liu Yijun, who was watching from the side, could not stand it anymore. Therefore, out of the reason of helping Fang Xiao, she instinctively lifted her leg and aimed it at Du Caiwei’s fair.. Her fingers, which were painted with seductive red nail Polish, stomped down hard.

“ouch... it hurts so much...” du Caiwei screamed like a pig being slaughtered, and finally let go of Fang Xiao’s legs. Her face was twisted because of the pain, and she quickly took care of her fingers.

Fang Xiao and Liu Yijun were in no mood to care whether du Caiwei died from the pain. Besides, even if Liu Yijun stomped on her fingers and feet, it wasn’t enough to kill her.

The two of them quickly walked out of Pizza Hut. Of course, they couldn’t stay here any longer, not to mention that it was just a meal. In fact, they could eat anywhere.

“Fang Xiao, is this how you live the life of the young Madam of the Qiu Family?” Liu Yijun looked at her and shook her head. “This life of yours is better than working at the Oriental Group. Didn’t you say that it’s good to be an assistant secretary at the Oriental Group?”

Fang Xiao bit her lips lightly, and her nose couldn’t help but ache. It was good that she was Lin Shanshan’s assistant at the Oriental Group, but the key was that she was no longer wanted.

“Fang Xiao, the president of our group is about to get engaged.” Liu Yijun took a sip of coffee and said to Fang Xiao, “Dongfang Yunheng’s engagement has broken the hearts of countless women. Some of the women in our subsidiary companies are so upset that they are crying. It would be strange if the secretaries of the President of the main company didn’t hide under the covers and cry until their pillows were wet.”

Fang Xiao listened quietly. Dongfang Yunheng was about to get engaged. Of course, needless to say, the person he was engaged to was definitely Gu Chenchen, and the engagement was actually the prelude to marriage.

In a typical wealthy family, they would get married soon after getting engaged. Presumably, Dongfang Yunheng would get married soon as well, right?

Thinking of this, warm liquid welled up in her eyes for no reason. In fact, she knew that he was not the Xi Lingheng from five years ago. She knew that he was just high and mighty, that legendary young master, Dongfang Yunheng She knew that he and she were already strangers.

## Chapter 1778 blind

But why was she still so sad when she learned that he was going to be engaged? It was as if a silent force had struck her heart, so painful that she could not even scream.

On the winter solstice festival, Qiu Yitang was going back to the Qiu family compound for the Festival because his grandmother had called him in the afternoon and told him that Fang Xiao had already returned to the old house. She told him to go home early after work and stay at the old house for the night.

His grandmother was the head of the Qiu family. Although he and his father, Qiu Boyuan, were in charge of the Qiu family, it was still up to his grandmother to decide the family matters.

Therefore, he agreed without a second word and specially adjusted his work early. He decided to leave work half an hour earlier and return to the Qiu family's old residence earlier.

As for grandma leaving him in the old residence, he naturally understood what she meant. Grandma hoped to have a great-grandson as soon as possible, while he and Fang Xiao lived in the West Mountain Villa. Grandma was worried that they did not live together.

Of course, grandma had a reason for her worry. One was that he had once abandoned Fang Xiao, another was that Fang Xiao probably did not have a good impression of him towards the Qiu family, and another was.. Last week, the newspaper reported that he had gone to a private room to eat with another woman.

Of course, he knew that grandma really liked Fang Xiao, and he gradually felt that Fang Xiao was indeed suitable to be the daughter-in-law of the Qiu family. The natural and indifferent temperament she had was not something that ordinary women could have.

However, grandma definitely did not know that it was very difficult for Fang Xiao to get pregnant now. Of course, in today's society, it was very difficult not to be able to. Anyway, the technology was so advanced. If he really wanted to have a child with Fang Xiao, he believed that he could do it.

However, before he got off work, he received a call from Du Caiwei. She said that Fang Xiao had stepped on her finger and she was in so much pain that she was dying.

Therefore, he had no choice but to quickly drive to his apartment outside. When du Caiwei came back, she was staying in his apartment.

Qiu Yitang stood in the room and looked at the woman who was sitting by the bed and crying so much that her eyes were red and swollen. His entire body immediately emitted a chill.

"Yitang, my finger... I don't know if it will break..." Du Caiwei raised her hands and brought them to Qiu Yitang. Out of ten fingers, six or seven were red and swollen like carrots. It looked very scary ...

Qiu Yitang reached out and gently lifted her hand. He looked at it carefully and blew at it with a heartache. Then, he asked with concern, "have you gone to the hospital? What did the doctor say?"

"I . . . Didn't dare to go to the hospital." Du Caiwei sobbed in a low voice. Then, she said in a low voice, "but I went to the pharmacy to buy some medicine to apply it. Now... it's much better."

Qiu Yitang looked at the carrot-like fingers. This was actually a much better scene after applying the medicine. Then, what would it look like before applying the medicine?

"Fang Xiao: I will definitely treat her in the same way." Qiu Yitang said through gritted teeth.

"Yitang: Don't be like this." Du Caiwei immediately became nervous when she heard him say this. She had a panicked look on her face. "Yitang, I beg you, don't stand up for me anymore and don't find trouble with Xiaoxiao. She and I have always been like sisters. Now that she is your wife and I am still with you, this is the behavior of a mistress."

Du Caiwei could not help but sob when she said this. Her voice was choked with sobs. "Yitang, I love you. I know that you are now Xiaoxiao's husband. Logically speaking, I shouldn't be with you anymore. But, Yitang, I have no choice. Who asked me to love you?"

### **Chapter 1779 I'm always waiting for you**

Du Caiwei wiped her tears with a tissue. Then she sobbed, "this is all my fault, not Xiaoxiao's fault. Xiaoxiao was right to cheat on you. But, Yitang, I can't control myself not to love you, and I can't leave you. Yitang, today is all my fault, not Xiaoxiao's fault. Please, Yitang, don't go looking for trouble with Xiaoxiao. She's right from her point of view. Yitang, I don't want Xiaoxiao to hate me. If you go looking for trouble with Xiaoxiao, I don't know if there will be a next time. ". "..."

"CAIWEI, there won't be a next time." Qiu Yitang immediately took over Du Caiwei's words and sat down by the bed. He stretched out his hand and pulled her into his embrace. He comforted her gently, "don't worry, I absolutely won't allow the next incident to happen."

"Yitang, don't go back... don't go looking for trouble with Fang Xiao." Du Caiwei secretly lifted her head from Qiu Yitang's embrace and looked at him carefully ...

"CAIWEI, you'll go back to the United States tomorrow." Qiu Yitang spoke a little tiredly. He hugged her body tightly and patted her back with one hand. He advised her softly, "Caiwei, don't come back to America in the future. As for her, I will not allow her to come to America."

Du Caiwei only knew that Qiu Yitang did not mean that there would be no next time. In the end, he wanted to drive her away. How could she be willing to be driven away just like that?

She wanted to stay, she had to stay. The position of the Young Madam of the Qiu family was hers. She was the mistress of the richest family in Hui city. She was determined to do it. She would not foolishly give it to Fang Xiao.

Thinking of this, she could not help but think of a plan. Thus, she reached out and caressed Qiu Yitang's lower abdomen. She said softly, "Yitang, I know. Isn't it to come back and spend Christmas with you? Once Christmas is over, I will immediately go to America, okay? There are only three days left. I will leave early on the 26th."

“Okay.” Qiu Yitang answered Du Caiwei’s words, but his hand quickly grabbed Du Caiwei’s hand that was about to undo her belt buckle. His thin lips pressed on her pink lips as a form of consolation. He said softly, “be good. I’ll come back tomorrow. I have to go back tonight.”

“Yitang.” Du Caiwei could not help but shout in disappointment. Her pair of big watery eyes looked at Qiu Yitang with a wronged look. She bit her lips and said softly, “Yitang, I only have three days to leave.”

“I know.” Qiu Yitang tidied up his clothes, which had been messed up by Du Caiwei, then reached out to pick up his coat, and then turned back to look at her. He said gently, “today is the winter solstice festival. Grandma told me to go back early. I can’t stay here. If grandma gets angry, I might not even have freedom in the future.”

Hearing Qiu Yitang’s words, Du Caiwei remembered that there was indeed such a festival. However, she had never cared about this festival, so she didn’t know what the date was.

Since it was old Madam Qiu who asked Qiu Yitang to go back early, she didn’t dare to force him to stay. She wanted to enter the Qiu family and marry Qiu Yitang. Old Madam Qiu was the key person.

Therefore, she took the initiative to come forward and help Qiu Yitang straighten his tie. Then, she patted his chest and said gently, “Yitang, remember that I am always waiting for you.”

The corner of Qiu Yitang’s mouth twitched. He did not say anything. He took his coat and turned to walk out of the door. He actually felt like returning home.

#### **Chapter 1780 wanted to have two women at the same time**

Because it was the winter solstice festival, people who valued traditional festivals would usually rush home today. Qiu Yitang had just come out of Du Caiwei’s apartment and happened to be in the rush hour, so there was some traffic on the road.

He lit a cigarette in slight annoyance and slowly caught up with the traffic in front of him. However, his heart was extremely troubled by the fact that he was now in the middle of two women.

In fact, after knowing that it was difficult for Fang Xiao to get pregnant after having a miscarriage, the hatred in his heart slowly lessened. What gradually surged into his heart was actually a trace of guilt, always wanting to make up for her.

Now, with great difficulty, he finally had an opportunity. With the help of the Gu family, not only did he marry Fang Xiao, but he could also enter a first-tier coastal city. For him, it could be said to be killing two birds with one stone.

In fact, he and Fang Xiao had been married for almost a month, even though they slept separately this month. She lived in the guest room on the second floor, while he lived in the master bedroom on the third floor.

Of course, he did not mean that he really did not want to touch her. Even if she was no longer an innocent woman, it was not her fault. He had to pay for what he had done.

Since last week, he had returned home more often. In fact, he did not want to do anything else. He just wanted to spend more time with her and develop a relationship with her. After all, he wanted her to be willing to do that kind of thing.

Also, he could completely imagine what kind of humiliation she had suffered when the three vagrants went to Fang Xiao's room that night a few months ago. She would be afraid and terrified of that kind of thing in her heart.

Therefore, he could not rush this matter. He had to take it slow. He needed her to accept him as a person first. Only then would she slowly accept his body.

Last night, when he returned home late, she had almost finished eating. She had not prepared his food, so she had cooked a bowl of noodles for him. However, he did not tell her that he actually did not like noodles.

When she helped him cook the noodles, he stood in the kitchen and watched her quietly. He watched her cut tomatoes and fry eggs. When her head was slightly lowered, he could clearly see the white whirlpool at the back of her neck.

At that time, he almost had an impulse to go up and hug her in his arms. He wanted to use his tongue to lick and kiss the whirlpool. He even wanted to be married to her for the rest of his life.

It was funny, wasn't it? He actually didn't pay much attention to Fang Xiao in the past. To be more precise, before that, he had always told her that he hated her, so he felt that she wasn't pleasing to the eye no matter how he looked at her.

Now that he had taken his revenge, the hatred in his heart had disappeared. He looked Fang Xiao up and down again. Only then did he suddenly feel that she was actually a beautiful and intelligent woman. She was a woman who was easy to look at. In fact, the more he looked at her, the more beautiful she became.

She didn't have a face that would cause people to be stunned for a moment. However, she had a face that people would never forget. And now, he was gradually falling in love with her face. He was falling in love with her.

When he thought about spending his life with Fang Xiao, he naturally thought of Du Caiwei. Of course, that woman who loved him wholeheartedly, it seemed that he could not let her down.

Of course, in China, it seemed impossible to maintain a normal relationship with two women at the same time. Moreover, the two women were likely to fight again.

Therefore, he still wanted Du Caiwei to go to the United States as soon as possible and never come back. Of course, he would go to the United States a few times a year, even if it was to give Du Caiwei a home in the United States.
