

Divorce 2001

chapter 2001

Will someone come to

be Shang Qian?

Angie shook her head.

Su Nan's eyes paused: "Fu Yechuan?"

An Qi smiled and did not answer directly, but looked at her quietly:

"I really envy you, why does he always like you?

Even if you are married and have a baby Son, he still can't forget you."

Su Nan paused, and for a while, there was a lump of cotton in his throat, and he was speechless.

"Did you make a mistake, I have nothing to do with him, you arrested me for him?"

An Qi was silent for a moment:

"Not all."

Su Nan didn't understand anymore.

Without any hesitation, An Qi immediately changed the subject:

"I heard that you have given birth to a daughter, Shang Qian should be very happy, right?"

Su Nan glanced at her.

They are not familiar with each other, why did you greet Shang Qian specially?

An Qi smiled: "I'm a father, but my son is not liked by his father."

Su Nan paused, looked up at her, and realized that it was Fu Yechuan.

An Qi's voice was a bit hoarse and depressed:

"I can only use this method to get him to recognize my son.

My son can't be like me, he has to live in the sunshine with his father and grow up healthy. Annie ,

I don't want to hurt you, so don't hate me. When you go back, say sorry to Shang Qian for me."

Su Nan frowned.

She didn't want to forgive herself, let alone Shang Qian?

An Qi's eyes flashed and she smiled:

"However, I would like to know another answer."

She set her eyes on Su Nan and smiled strangely.

Su Nan's heart skipped a beat, and there was always a bad premonition.

She would never be grateful to Dade just because An Qi didn't beat her and scold her.

Until now, Su Nan's precautions were not much at all.

"What answer?"

An Qi didn't answer, but looked up at the distance, the sea was surging and sparkling.

Su Nan always felt that something was different about An Qi. Compared with the last time we met, she seemed to be more and more incomprehensible.

She didn't say anything, and Su Nan didn't continue to ask.

In her hands, at least it was much better than in the hands of Lili.

Another day passed.

An Qi and Qu Qing were still in harmony on the surface, Su Nan wanted to laugh.

She found that only An Qi could come and go freely here. She had a speedboat and would go out and come back every few days.

But others couldn't get close to the gate, because the ferocious Tibetan mastiff would only wag its tail at An Qi, and the others would roar desperately as soon as they approached.

There is no chance for Su Nan to get close.

In the evening, An Qi left as always.

Su Nan narrowed his eyes.

In this kind of sea, the distance that the speedboat can travel is limited, unless her next foothold is not far away, or there is someone to meet her.

Otherwise, thinking of the port in country E would be a bit of a struggle.

Thinking, a voice came from behind.

It's that maid.

She glanced at Su Nan, her voice was calm:

"Miss An Qi said, please don't sleep tonight, someone will come."

Su Nan was shocked.

In an instant, I was a little excited, and my hands tightly grasped the railing. Three days, after three days, did I finally start?

I can finally leave.

The maid left.

When Qu Qing heard the movement, she ran up excitedly:

“Someone is coming to pick you up?”

Su Nan raised her eyebrows.

Qu Qing changed her previous sternness, and looked at her with excitement and even pleading:

“Take me too, or you can go out and tell my son, let him pick me up.”

Su Nan pursed her lips, she thought Qu Qing was there Have fun here.

Dareqing is also always practicing?

But she didn't fall into the trap, she simply nodded:

“I don't know if I can take you out, but if I leave, I will definitely tell Fu Yechuan that you are here.”

Qu Qing breathed a sigh of relief, stood there, and followed Get excited.

“That's great, when I find Ye Chuan, I'll let him find Yingying, and we can reunite as a family.”

Su Nan twitched the corners of his mouth and looked at the direction on the balcony.

Finally saw hope.

Just Su Nan wait and wait.

Waited until midnight.

I heard a roar from the sea.

Angie is back.

Su Nan was awake the whole time, and just as he was about to run downstairs, he watched the servant at the door.

She has a meal.

In just a few minutes, there seemed to be a lot of footsteps.

Popped into this place in a hurry.

Don't know if it's an enemy or a friend?

For a moment.

There were many people in front of him, the bodyguards in black, Su Nan was slightly startled.

“Miss Su, please.”

Su Nan knew when the bodyguard in front took out a rope.

is the enemy.

But she didn't hesitate and stretched out her hand.

The bodyguard tied her hand upside down, very close, and the binding method on the road could not be easily loosened.

She sighed softly, hoping everything went well tonight.

She followed downstairs.

When I got downstairs, I saw that Qu Qing and An Qi were also there.

Qu Qing was treated more than her, dressed neatly and specially changed into a new dress.

When she saw Su Nan, Qu Qing looked away expressionlessly.

It's not like the person who begged her for help before.

An Qi glanced at Su Nan and smiled:

"Let's go." In the

evening, the sea breeze whistled and the salty sea breeze came over, and there was a gloomy feeling of falling.

Su Nan hated this feeling very much. When he fell into the Savage Island before, it was such a situation that Tian Tian should not be.

What she didn't expect was that Qu Qing actually followed.

The first time I left the gate of this villa, the Tibetan Mastiff disappeared.

After a long walk, we reached the seaside.

Not only a yacht, but also a medium-sized fishing boat.

Quietly, only the whistling of the wind can be heard.

Su Nan was pushed onto the boat, and Qu Qing sat there, very stable.

As if not nervous at all.

Angie stood on the deck and looked into the distance.

Gradually.

Looking at the distant direction, there is a yacht coming quickly.

Qu Qing stood up excitedly, as if realizing something.

"My son is here!"

Su Nan glanced at Qu Qing.

did not speak.

An Qi couldn't hand them over so easily.

In other words, it is impossible to hand over yourself like this.

Soon.

The other party is getting closer.

When Fu Yechuan's yacht approached, it was obvious that An Qi's people were more alert.

But An Qi was not nervous. She looked at Fu Yechuan with glittering eyes, smiled, and jumped over happily and hugged him.

Fu Yechuan's face was a little tired, and his stern features were covered with a distinct chill.

The moment he saw Qu Qing, Fu Yechuan's eyes froze for a moment, and the joy was suppressed before he could express it.

Because I saw Su Nan sitting not far from Qu Qing.

For a moment, his face darkened.

He stretched out his hand and shoved An Qi away from him, his face indifferent:

"What do you want to do? Did you capture my mother and my sister? And Su Nan?"

chapter 2002

You choose one

, Angie's happy expression disappeared on her face visibly.

Fu Yechuan's attitude was as cold and indifferent as ever.

As if water and fire do not enter.

An Qi stood on the opposite side, and smiled slowly again, with a bit of reluctance in the smile:

"Yechuan, I rescued them, you can't blame me like that."

Fu Yechuan snorted coldly.

Qu Qing paused, then stood up

and said, "Ye Chuan, what An Qi said is true, your sister and I were almost killed by that hawk in country M, if it weren't for An Qi, how could I be so safe?"

Fu Yechuan's eyes were cold and hard: "The person I sent to find you rushed to the air. If you are really safe, why didn't you contact me?" There was

a thin layer of anger between his eyebrows.

Qu Qing was speechless for a while.

An Qi explained in a gentle voice: "Because she is inconvenient, if she contacts you, my brother will definitely notice, how can I see you smoothly then?"

"Is it going smoothly now?"

Fu Yechuan asked An Qi's face was as dark as ink:

"Where's my sister?"

An Qi's eyes flashed, and she lowered her eyes to look at Qu Qing.

Fu Yechuan tilted his head to look at Qu Qing: "Where's Fu Yingying?"

He asked again.

Qu Qing took a deep breath:

"Yingying, she has to go to find that Zili, I persuaded her, but she doesn't listen, she doesn't want to go with us, she can only go to Zili."

Fu Yechuan His face instantly turned blue.

An Qi smiled: "Don't worry, my brother will take good care of her."

Fu Yechuan obviously didn't believe it, but he was speechless for a while.

He glanced back, and the people on Fu Yechuan's boat jumped straight onto An Qi's boat.

Ready to take people away.

But An Qi's people took a step forward and blocked both of them firmly.

"Angie, what are you doing?"

Fu Yechuan almost gritted his teeth.

An Qi smiled and tilted her head to look at him:

"Although I don't have any malice, I can't be a good person for nothing. I said before I came here that I have my conditions."

Fu Yechuan stared at her for a few seconds . , the eyes are deep and dark:

"Speak."

An Qi lowered her eyes, sorted out her mood, and said,

"I want you to announce to the public that A Che is your son, and then take him back to Fu's family, and take good care of him. Him!"

"Impossible."

Fu Yechuan refused with a grim expression.

He swept his eyes with a bit of coldness in his eyes:

"I can't recognize someone else's son. I don't care who the father of your child is, don't try to fall on me! I don't bear the blame!"

An Qi held back the emotion on her face, grieved and angry:

“He is your son, why don’t you believe it!”

Fu Yechuan’s eyes swept over her indifferently and mockingly. In his eyes, An Qi is not a one-and-done death at all. Or some simple good woman.

Fu Yechuan was not surprised that she was pregnant with someone else and fell on him.

This kind of humiliation, how could An Qi be calm?

Her eyes were flushed, and she had accumulated so much emotion and vented it all at once.

She pointed to Su Nan who was sitting there:

“I know, you don’t care whether my child is yours or not, do you care who the person who gave birth to you is?”

If it was her, you wouldn’t doubt it at all. Or, if you

knew it wasn’t yours, you would happily recognize it, wouldn’t you?”

Su Nan sat up straight, his body was extremely nervous.

She was quite worried that the two of them had collapsed, and if the conversation collapsed, could she go back?

This An Qi is a love brain, what does it matter if Fu Yechuan likes it or not?

Why did she have to hang herself from a tree?

Fu Yechuan was silent for a few seconds, his eyes sank like ink, staring at An Qi:

“It’s not you anyway.”

An Qi froze, knowing the answer, but when he heard him say it himself, he still felt like his heart was broken. uncomfortable.

Qu Qing saw something was wrong with the two of them, and she probably thought the same as Su Nan.

She couldn’t wait to stand up:

“Ye Chuan, An Qi is sincere to you, I have seen that child, he looks really like you, the one you have seen before is black because he is too young, in fact, he is already white now. More...”

Fu Yechuan obviously couldn’t listen to Xu.

An Qi took a deep breath and took a long time to calm down.

“Forget it, whether you believe it or not, whether you do a paternity test or endure acting, you must recognize A Che!”

Fu Yechuan’s brows were faintly irritated.

A bit of coldness flashed in his dark eyes.

“What if I don’t?”

An Qi smiled, and there was a bit of cruelty in the smile:

“Do you think you can take them away?”

Or, once I tell my brother, will he let you take them away smoothly?”

Fu Yechuan fell silent.

An Qi chuckled: “The news of my disappearance has delayed my brother, that’s a chance I deliberately left for you.”

She said the last sentence with a deep meaning.

Fu Yechuan’s brows trembled slightly, he looked up at her suddenly, and the sharpness in his eyes flashed past.

Then it becomes nothingness.

He narrowed his eyes, gauging how much An Qi knew.

She also looked at him.

Four eyes facing each other.

Silent battle.

Fu Yechuan gritted his teeth, his eyes were cold, and his voice was steady:

“Okay, I promise you.”

He loosened his neckline, his eyes were very light: “Let go.”

He didn’t care whether the child was his or not, but he knew it wasn’t what he expected. The child, even if it is, he will not like it.

An Qi forced the child to his side, who knows what the abacus was?

There was a moment of silence.

An Qi smiled and pointed to the two people behind:

“You can choose one.” The words fell.

The atmosphere was instantly stagnant and cold.

Fu Yechuan looked at her fiercely: “What did you say?”

An Qi was a little scared, but she couldn’t wait to see his choice.

“A child can only be replaced by another person. Unless you have another child with me, I will release both.

But it will take a long time!”

The atmosphere was vaguely wrong.

Quiet, only the whistling of the wind can be heard.

Su Nan felt that the blood all over his body was cold.

Unexpectedly, An Qi actually hit this idea!

She wanted to prove that the most important person in Fu Yechuan's heart was not Su Nan, and she wanted to force Fu Yechuan to admit that he didn't love Su Nan that much.

But why use this way?

Su Nan's heart kept sinking.

Is this still an option?

A mother, a divorced woman, which one do you choose?

The eternal topic really made them meet!

Fu Yechuan looked at An Qi indifferently, his face tense and ugly.

An Qi smiled and looked at Fu Yechuan:

"Don't worry, you made a choice, no matter who it is, I will give the other person to my brother, and I will not hurt them."

Su Nan glanced at her.

She didn't hurt herself, but handing it over to Lili, what's the difference between life and death?

Su Nan and Qu Qing's expressions changed slightly.

Qu Qing couldn't help but looked at Fu Yechuan eagerly:

"What are you hesitating about? Is it worth your hesitation when I gave birth to you?

Who is more important between me and that woman? If

she dies, she will die, she is a scourge in the first place. Refined!"

chapter 2003

Her Last Words

Fu Yechuan's face turned cold inch by inch.

Everyone was waiting for Fu Yechuan to make a choice.

In fact, what I want to see more is the expression on his choice.

Because everyone knows who he will choose.

It's just that Fu Yechuan, who is so strong and has no weaknesses, gives up the woman he loves again and again. That kind of hurt can make people feel happy.

The love he talks about is not worth speaking at all.

He gave up Su Nan again and again, wasn't it a form of self-torture?

But every time, he had to force himself to choose a correct answer.

Every time he hesitated, An Qi's face became more ugly.

"Do you still want to choose her? Since you've given up, why are you still hesitating this time?"

I'm much better than Xing Zhi at the beginning. He let her die, but I didn't."

"Is there a difference?"

Fu Yechuan asked coldly road.

"What's the difference between Xing Zhi and Zhan Li, and you?"

His eyes were cold, and his eyebrows were so gloomy that he could freeze to death.

An Qi pursed her lips, her eyes twinkling.

That sentence obviously hurt her.

No difference.

But if Su Nan can live in her hands, is he hesitant about even this difference?

Is Su Nan really that important?

An Qi smiled, with a twisted smile:

"There's no difference, so you'd better make a decision quickly. It's dark and the boat won't be able to get out."

Fu Yechuan's aura was extremely cold.

The wind-blown sails rattled.

He stood there, with the endless sea behind him, dark and deep.

Su Nan looked at him, the struggles and fears in his heart slowly disappeared.

Neither can he.

She hated Fu Yechuan.

Just like when he was on an uninhabited island, he brought someone over to rescue her, and he tried his best.

It doesn't seem to matter what the result is.

He hesitated and struggled, and she should be grateful.

Just when Qu Qing was so anxious that she started yelling at him for having no conscience.

Su Nan suddenly spoke, his voice calm and calm:

“Fu Yechuan, it’s okay, you should choose your family.

If it were me, I would do the same, you don’t owe me, even if I have an accident here, you You don’t have to blame yourself, because it has nothing to do with you.”

Su Nan knew that it was pure bad luck that he was caught.

But also very happy.

In the room on that boat, if Fu Yechuan hadn’t deliberately hidden her, she would be in the hands of Lili at this moment.

He hates her and will definitely not make her feel better.

A sudden accident had nothing to do with Fu Yechuan.

The entanglement between them is deep, but also very shallow.

So shallow that he shouldn’t hesitate.

An Qi glanced at Su Nan with a somewhat complicated look in her eyes.

Su Nan stood there with her hands tied behind her, but looked at Fu Yechuan with open eyes:

“There is a saying, you must bring it to me, and let my husband Shang Qian take care of himself... . and our daughter.”

The only thing she cared about was them.

Fu Yechuan looked at Su Nan with gloomy eyes, but he couldn’t see any expression, but his eyes were complicated and dark, even colder than the sea behind him.

He clenched his fists tightly.

There was always a bad premonition. He looked at such a calm Su Nan, as if he would disappear in front of his eyes in the next second.

Can the pain of the past be repeated?

There seemed to be two forces in his body tearing at each other, allowing him to choose.

He didn’t want to leave her.

What a great opportunity to make amends.

But isn’t it right and proper to choose your own mother?

a long time.

Fu Yechuan looked at Su Nan with dark eyes, and said in a dry, hoarse voice,

“I’m sorry.”

He owed her so much in his life.

It seems only sorry.

Sorry, An Qi breathed a sigh of relief.

Qu Qing also stopped scolding, and eagerly came out from behind An Qi and ran towards Fu Yechuan's boat.

An Qi breathed a sigh of relief and looked at Fu Yechuan with a half-smiling smile: "You are doing well, I just want you to know that even if you don't love me, you can't

be with her anymore.

She sent it, keep your promise. By

the way, you better not tell this place, otherwise, maybe you will be invited as a guest next time!" When

Qu Qing heard what she said to her, she nodded immediately .

"Don't worry, I'll never say it, I'll just pretend I didn't see it, I didn't see anything, you can do whatever you want with that woman!"

heard.

Angie smiled.

As she said that, she glanced at the bodyguard behind her.

The bodyguard understood, and immediately dragged Su Nan away and sent him into the cabin.

Fu Yechuan held back his emotions:

"Where are you going to take her?"

An Qi raised her eyebrows:

"Of course it's for my brother." As

he was talking, he suddenly heard an exclamation from the back of the cabin.

"She jumped into the sea..." She was

shocked.

Fu Yechuan rushed over desperately.

An Qi did not expect this to happen, and her face changed slightly.

"Yechuan..."

"Su Nan—" the

man roared.

The sea is extremely unstable, and the waves are rolling, which can easily swallow a fresh life.

The sea breeze blows, and everyone's heart is cold.

Where is the shadow of Su Nan!

An Qi followed up in shock, looked at the bodyguard beside her and asked, "Has the rope been untied?" There is still a chance. If not... Fu Yechuan's heart sank completely. Seeing that he was about to jump off after taking off his clothes, An Qi hugged him tightly behind him: "Don't jump, Ye Chuan, this is the sea, no one can come up alive!" Fu Yechuan pushed her away.

An Qi stumbled and almost fell, but fortunately she was pulled by the bodyguard in time:

"Go away!"

He stared at her with scarlet eyes, his face was cold and terrifying:

"I don't need to be with her, I can watch her marry. To others, but I can't watch her die!" For the rest of his life, apart from giving up his beloved woman again and again, what else could he remember?

These will become his shame!

Just to prove to the world that he doesn't deserve to love her?

But what did he do wrong?

Repeated injuries are not from the heart!

Why can Shang Qian, a latecomer, stand by her side?

How much less is his love than Shang Qian?

But he unknowingly became a joke!

An Qi looked at Fu Yechuan with a pale face.

It seems that he has never seen Fu Yechuan lose control.

Heartbroken, hopeless.

All for another woman!

After Fu Yechuan shouted, he turned around and was about to jump down.

An Qi stopped him again, with crying and trembling in her voice:

"I was wrong, I shouldn't force you, I don't want to kill her, but don't jump, you will really die!

" Trying to fight with all his strength, the bodyguards around An Qi stubbornly stopped her.

Everyone knows how important this man is to An Qi.

An Qi cried and shouted:

"I was wrong, you can do whatever you want me to do, don't jump off, please..."

chapter 2004

Gao watched you

for a few minutes.

The longer the time, the less hope there is.

The waves beat the boat.

The hull swayed and floated unevenly.

Several large ships appeared quietly in the distance, with their sails raised high.

An Qi's bodyguard noticed, his expression changed:

"Miss, someone is coming, let's retreat!"

An Qi shook her head and pulled Fu Yechuan:

"Let's go together."

Fu Yechuan wished he could throw this dog-skin plaster into the sea, He really hates this woman to death!

He was clearly anxious, but he couldn't do anything.

This feeling, as if throwing him into the sea up and down, feeling the approach of death.

"Go away, I'll let you go!"

Fu Yechuan gritted his teeth.

Angie cried and shook her head.

The bodyguard hurriedly set fire to it.

Several large ships are getting closer.

It was for their ship.

In less than a minute, at full power, several large ships surrounded their ship.

Qu Qing, who was already on Fu Yechuan's boat, was driven to An Qi's boat.

His face was pale, and he didn't dare to say a word.

An Qi and the bodyguard looked at the people who got off the big boat in shock.

The person in the forefront is Shang Qian.

He approached with awe-inspiring aura, his eyes were cold and dark, and there was no emotion, and waves were brewing in his eyes.

Seeing An Qi and Fu Yechuan, but not seeing Su Nan, his aura instantly became extremely cold.

“What about people?”

He looked at An Qi with an ugly expression, wishing to eat people fiercely.

An Qi was so frightened that her face turned pale, and she did not dare to speak.

Shang Qian looked at Fu Yechuan, who was in a state of embarrassment:

“Where’s Su Nan?”

His voice was very calm, very quiet.

But it made me feel terrified.

Fu Yechuan stared at the surging sea in silence, his eyes were red.

late.

It’s too late.

Shang Qian stepped forward a few steps and pushed him to the railing, half of his body hanging outside.

With a little force, it can be pushed into the bottom of the sea and never come back to life.

Shang Qian’s voice was hoarse, threatening and low: “I ask you, where is Su Nan

?” The wind from the sea rattled their clothes. Everyone was shocked by this scene. Qu Qing’s face turned pale with fright, and passed out on the spot. The bodyguard brought by Fu Yechuan wanted to step forward to help, but was blocked by Shang Qian’s people. Airtight. An Qi screamed in fright, and was about to go forward and pull Shang Qian’s arm: “Don’t touch him, I did it, Su Nan just accidentally fell into the sea, I didn’t want to kill her, it was her Jump into the sea by yourself!” Her words entered Shang Qian’s ears along the sea breeze. His eyes sank, his face instantly cold. His deep eyes glanced at Fu Yechuan with a bit of shock.

The hand that suppressed Fu Yechuan was even harder, terribly ruthless!

An Qi cried so hard that she lost all the pride and capital she had just now:

“Shang Qian, she really jumped!”

Shang Qian slapped her with a slap, and An Qi was thrown to the ground with a very obvious expression on her face. Slap print.

He was full of anger, “Did it by yourself? You jump and I’ll see it!”

When he scolded, An Qi turned pale with fright.

speechless.

She looked at Shang Qian’s eyes with a bit of horror.

He’s not a gentleman, he’s always been a lunatic.

He does all kinds of evil and beats women, he is different from Fu Yechuan.

He will never be bound by morality.

The people behind her pulled An Qi up and controlled it.

Shang Qian's eyes were extremely indifferent, and he stared at Fu Yechuan:

"I really think highly of you, she died in your hands again, this is your deep affection, it's disgusting!"

Fu Yechuan's face was ugly, he could resist Yes, but he didn't.

Half of his body was almost thrown into the sea.

But there was no expression on his face.

He would rather be thrown by Shang Qian and die with Su Nan.

So he doesn't struggle, doesn't resist.

He lost utterly.

From the front deck, the bodyguards shouted:

"Mr. Shang, it's Mrs.!"

Everyone gave way in shock.

Shang Qian suddenly let go of his hand and ran to the deck desperately.

A bodyguard was still submerged in the water, but one hand held onto Su Nan tightly.

Su Nan's face was pale, and he was immersed in the water for nearly five minutes, and his life and death were unknown.

She closed her eyes and seemed breathless.

At that moment, Shang Qian's heart trembled.

He bent his knees abruptly, knelt down halfway, and went to pull Su Nan.

The people behind came to help.

Su Nan was pushed up, her eyes were tightly closed, and her face turned pale blue.

Shang Qian touched her face and looked calm, but there was an obvious trembling in his voice:

"Su Nan, baby..."

He choked for a moment, and without saying more, he started to give her chest compressions and artificial respiration.

Everyone watched nervously.

This is no drowning in an ordinary pool.

This is in the sea.

Haili has never let a person survive.

Four minutes is enough to drown a person.

He had never been so flustered, and extremely happy.

Hope it's a false alarm.

But no matter what he did, there was no reaction from the people below him.

His hands began to tremble.

I really hope it's me who is in danger.

He shouldn't have brought her out, he shouldn't have left her alone in the room.

"Don't scare me..."

He said in a low voice, pinched her face, and gave artificial respiration again.

He tasted the salty sea water in her mouth, and his heart ached to death.

How scared she must be!

How could you be so late!

He hated every minute he was late, and was tortured like being late.

Fu Yechuan stumbled over, with disbelief in his eyes:

"How could..."

How could she be here?

Just as he was about to touch her, Shang Qian waved him away:

"Go away!"

He protected his people like a wild beast.

No one wants to touch a finger!

Shang Qian picked up Su Nan and ran to his big boat:

"Go back and find a doctor!" The

captain heard the movement and paused, "I'm a doctor, put it down!"

... The

captain and Shang Qian has known each other for a long time and has worked for him from the very beginning.

I still know Shang Qian well.

On the surface, they are gentle and gentle, but they eat people behind their backs without spitting out bones.

You can't win against such a person.

He has never seen a woman beside Shang Qian, and this woman is still his wife.

This time is the only time.

He always thought that Shang Qian was looking for a wife to hide from the public.

To be able to live a normal life.

But since Su Nan disappeared, he has changed like a different person.

He wasn't looking for a wife to become a normal person.

He became a normal person because of his wife.

How strange.

Shang Qian watched the captain save the man.

He has been drifting at sea all year round, and he has more experience than Shang Qian in dealing with such situations.

One minute, two minutes...

the longer.

The more cold sweat on Shang Qian's forehead.

He pursed his thin lips tightly, his eyes were deep, and he looked at Su Nan without blinking.

His face was as pale as paper.

His life was dark and half-life in disguise.

All his hopes are on this woman.

Never thought that if she died here, would he leave alive?

Chapter 2005

Someone pushed her

and the captain continued to do first aid without letting up for a moment.

finally.

Su Nan moved.

She coughed heavily, spitting out the fluid in her abdomen.

Saved.

The captain heaved a sigh of relief and fell to the side.

Shang Qian glanced at him, his eyes darkened:

“Thank you.”

He didn't say more, and put all his attention on Su Nan.

“Baby, wake up, it's fine, it's fine, I'm here...”

He said, gently pressing against her face.

As if touching some rare treasure.

That kind of cautious, let people see it is heartbreaking.

The captain turned his face away.

Having known him for so long, this “thank you” in front of me is the most sincere.

Shang Qian never regarded them as friends, just his subordinates.

For the first time, he received Shang Qian's heartfelt thanks.

Shang Qian lowered his head, leaned over, and lay on Su Nan's shoulder.

I did not notice.

Tears in his eyes fell into Su Nan's neck.

piping hot.

“Let me go in, let me go in and see...”

Fu Yechuan's movement came from outside.

It's a pity that Shang Qian's people stopped him.

The captain glanced at him.

The anger in Shang Qian's eyes rekindled, he glanced gloomily at the door:

“Those who are here today, don't even want to leave.” The

captain nodded, and then walked out with people.

Soon, the people outside stopped moving.

The captain turned back.

Looking at Shang Qian holding Su Nan and not letting go, he ordered:

“Go back to the shore immediately, you have to go to the hospital.” The

captain nodded, knowing that it was urgent.

The stagnant water spit out, but no one can guarantee that there will be sequelae.

return trip.

Su Nan fell into a coma again in the second half.

In less than half an hour, the boat docked.

They went to a nearby private hospital.

Go straight in for first aid.

Shang Qian was waiting outside, his face gloomy.

The captain sniffed the cigarette by the side.

A bodyguard came over with a change of clothes, "Mr. Shang."

Shang Qian slowly raised his head and recognized that this person was the water ghost who rescued Su Nan.

The corners of his lips moved:

"What's your name?"

"Lin Shen."

Shang Qian nodded: "Very good, thanks to you."

He clenched his fists.

Almost, he will lose her.

Lin Shen nodded slightly and pursed his lips:

"It was you who asked me to dive under Fu Yechuan's boat and followed me all the time. At first, I didn't expect Madam to fall into the sea. Fortunately, it was too late, but Madam was tied with her hands, and she didn't even have a chance to struggle in the sea... ."

Shang Qian's eyes flickered slightly, and there was a thick haze at the bottom of his eyes, and his eyebrows cooled:

"Yeah, she doesn't even have a chance to struggle, she can't even survive."

He almost said it through gritted teeth.

A monstrous anger ignited in his heart.

Can't wait to swallow all the emotions.

He couldn't imagine that picture.

When Su Nan came, she was still very happy to wear beautiful jewelry.

As soon as he turned his head, he was unable to struggle in the sea.

She must be in pain.

The light was dim, and the man's eyes were extremely sharp and dangerous.

He was like a wild beast that was off the reins, he just wanted to kill all those who bullied her.

a long time.

He looked up at Lin Shen again:

"Madam really jumped off by herself?"

Lin Shen paused, his eyes darkened:

"No."

Shang Qian narrowed his eyes and gritted his teeth, "Speak clearly."

Lin Shen: "At that time, Madam was on deck watching Fu Yechuan negotiating with An Qi, and I was below the deck.

As a result, An Qi took the person to the stern, and there were many people on the other side, so I didn't show up.

But when I looked over from the side, An Qi's subordinates did not show up. I'm not saving her, but pushing her on her back.

President Shang, I can be sure that Madam didn't jump off by herself." The voice fell.

The door to the emergency room was silent.

Deadly still.

Can't even hear breathing.

long time.

Shang Qian's inner darkness that had been suppressed for a long time seemed to be revealed and released with force.

His bloodthirsty numbness took over all his emotions again.

Anger shouted cruelty, and he wanted to kill those people cleanly.

She didn't jump off herself.

How could she have jumped on her own?

Su Nan was so afraid of death that she would complain for days if she was accidentally burned, and she would not die calmly.

She knew that she would never give up looking for him.

Even if it's just hope, she won't.

It turns out that someone really hurt her!

Shang Qian's silent look is like a dormant beast.

The captain patted Lin Shen's shoulder and looked back at Shang Qian:

"Mr. Shang, over there, we have already mixed half of his efforts, should we continue?"

Shang Qian raised his head with scarlet eyes and bloodthirsty:

"Continue."

"Then Fu Yechuan and An Qi..."

"Lock up."

He spat out a few words softly.

Extremely indifferent.

The captain understood what he meant, patted him on the shoulder, and said in a low voice:

"Don't forget the plan you participated in, Fu Yechuan can't die, once he dies, the military of country Z will soon follow you, the gain is

not worth the loss, fortunately Madam It's alright, just let it out."

Shang Qian did not respond indifferently.

The captain straightened up, glanced at him, and said nothing.

He turned to look at Lin Shen:

"Are you still feeling sick?"

Lin Shen pursed his lips and stood up straight: "No." The captain nodded and looked at Shang Qian:

"How about having him by your side?"

Shang Qian glanced at him: "Okay."

Lin Shen's face was obviously a little happy.

He is Chinese, his parents are Chinese, but he died in a foreign war.

He made a living abroad, and he had no success.

Just be a mercenary.

I followed Shang Qian at the military base a few years ago, but the people who can follow Shang Qian with him are all excellent people.

They are not qualified.

The military base was abandoned, and he drifted with the captain.

When he was young, he didn't want to be like this for the rest of his life.

He needs a chance, a chance to get ahead.

So when Shang Qian was looking for someone who was familiar with water, strong endurance and loyal, he did not hesitate to recommend himself.

Finally, he succeeded.

...

Su Nan was sent out and sent directly to the observation room.

The doctor took off the mask:

"Although her life is not in danger, she choked into a large amount of seawater, her lungs were infected, and her ribs were slightly fractured due to the pressure of gravity. Now she must be well cultivated and observed."

Shang Qian's eyes There was silence for a few seconds.

Only slowly nodded, with a bit of emotion on his face:

"Okay, thank you."

At least, his baby didn't leave.

Watching Su Nan was sent to the intensive care unit.

He stood outside, not daring to blink.

The captain brought his mobile phone, and it happened that a call came:

"A person surnamed Su? Is it your wife's family?"

Shang Qian glanced.

It's Su Jin.

He was silent and answered the phone.

"Big brother."

"Are you in country E?"

Needless to say, with Su Jin's ability, it was easy to find out their entry and exit records.

Shang Qian responded.

Su Jin: "Is there something wrong? I heard that several sites of Lianli were taken over for no reason. He is looking for revenge everywhere. You bring Su Nan, be careful." The

bottom line is.

Still worried about Su Nan.

chapter 2006

Did I hit you?

Shang Qian's hand tightened while holding the phone.

He answered in a low voice.

Su Jin heard something was wrong, and immediately said,

"Is she next to you? Let her answer the phone."

Shang Qian was silent for a second, his eyes surging fiercely.

Silent for a few seconds.

He pursed his lips and said,

"She can't answer the phone temporarily, brother, we are in the hospital."

He paused and took a deep breath.

Let's just say it briefly.

He wanted to hide it, but couldn't hide it.

Unless he takes Su Nan far away to a place that the Su family can't touch.

Otherwise, this matter will be known sooner or later.

If he deliberately concealed it, the fact that he was finally accepted by the Su family would be ruined.

Su Nan loves them, so he can't do it.

In any case, it was his fault.

Su Jin's voice was low and indifferent:

"So, she almost died there?"

Shang Qian was silent.

Su Jin: "I'll send someone to pick you up right away."

"Brother, we're staying here for the time being, it's very safe, and I can't touch it here."

Shang Qian rubbed his eyebrows and said in a deep tone.

"Besides, as long as things are not over, they will keep staring at Su Nan."

For a long time.

Su Jin probably knew what he meant, but neither of them broke it.

Su Jin: "Take care of my sister."

“Okay.”

Shang Qian replied.

A few seconds passed.

Su Jin spoke again, and he should have calmed down:

“Don’t ruin your future because of one person, Fu Yechuan’s identity is eye-catching, he can’t have an accident in your hands, otherwise you and Su Nan can’t escape the relationship.”

Shang Qian didn’t answer . .

It was only after a full minute that he responded.

Su Jin breathed a sigh of relief.

hang up the phone.

He could feel the gritted hatred of Shang Qian when he mentioned Fu Yechuan.

If he was more ruthless, maybe everyone would be dead now.

He also hated Fu Yechuan. Most of the things Fu Yechuan brought to Su Nan and the Su family were unfortunate.

But morally speaking, there was nothing terribly wrong with him.

He shouldn’t die in Shang Qian’s hands.

Emotions are immoral.

hang up the phone.

Su Jin called Bureau Zheng directly:

“Did you let Lili go on purpose?”

Bureau Zheng paused, “Mr. Su, let’s make an appointment to talk?”

Su Jin: “No, because Lili was let go, My sister is in danger, how will this account be calculated?”

People in the shopping malls have always been in awe of those in the officialdom.

The Su family is no exception.

The friendship that has been continued through the years of achievements is not shallow, but if it really threatens the interests of one party, they will not share weal and woe with each other.

Bureau Zheng was silent for a moment before speaking:

“We also only knew that the person who was sent to stare at Zheli didn’t meet Su Nan. We thought it was all right, but we didn’t expect this kind of accident to happen.”

Su Jin’s tone was extremely cold, and there was a bit of gloom in his eyes:

“Officer Zheng, give my sister a breath, no problem, right?”

“Of course no problem.”

A private hospital in country E.

The bodyguards have surrounded the place.

When Su Nan woke up, she only felt discomfort in her throat, as if something was itchy in her lungs. She just wanted to cough, but when she coughed, her chest hurt terribly.

Hear movement.

The person sitting next to him suddenly stood up, walked over, and asked her softly,

“Awake? What else is uncomfortable?”

Su Nan squinted, looking at the person in front of him, the warm and familiar face, Let her heart tremble slightly.

After all, it's not Angie's face.

Does this mean that she is saved?

Suddenly, she was excited to get up to see clearly, but there was a sharp pain in her chest.

His face turned pale.

The cold sweat on his forehead instantly came out.

Shang Qian's face was ugly, he immediately rang the bell to call the doctor, and slowly helped her to lie down:

“Don't move, lie down and don't move, the sea water is poured into the lungs, it must be very painful, two ribs are cracked, Luckily, I got my life back.”

Su Nan heard this, lay down and slowed down for a while before opening his eyes again.

Shang Qian's eyes looked at her without blinking, and she could clearly see the scarlet bloodshot in his eyes, which was tired and cold.

Suddenly, she raised her hand slightly.

Shang Qian grabbed it immediately and whispered softly, for fear of scaring her:

“What do you want, speak slowly.”

Su Nan paused, pursed his lips, and his voice was dry and hoarse:

“How long have you been asleep?”

Su Nan Lost for three days, he did not sleep for three days.

In the middle of it, I couldn't hold on for a while, but I was soon awakened by a nightmare.

In the dream, she was screaming for help.

Poor as hell.

How could he sleep?

But he couldn't tell the truth, so he pulled the corner of his mouth reluctantly and comforted her:

"I just didn't sleep well, how could I sleep without you?"

He was telling the truth, even when she was in a coma, he couldn't help but shut up. Eyes closed, but soon woke up.

She lowered her head, put her face in her palm, and rubbed lightly.

Su Nan's fragrance came over, which made him feel at ease instantly.

The panic that was almost lost, slowly settled down.

That feeling, as if it could grab his neck and choke his breath.

At the beginning, he survived under the threat of merchants, and he knew this feeling well.

Since he has the ability to break away from the threat of merchants.

For a long time, he didn't have this sense of crisis.

Su Nan was sluggish for a moment before he wanted to laugh:

"Fancy words."

Shang Qian smiled, and the two looked at each other without saying a word.

The doctor brought people in.

They were all foreign doctors, and Su Nan realized that he had not returned to China.

She was nervous for a moment.

But Shang Qian had been standing there looking at her all the time, and her gentle appearance made her relax slowly.

The doctor checked it again, and it took less than twenty minutes.

They watched Shang Qian talk about Su Nan's situation in E language.

Shang Qian just lowered his eyes and listened carefully, nodding from time to time.

But fortunately, there was no terrible sadness on his face.

This proves that her situation is not that bad.

Done.

Doctors filed out.

The room was quiet again.

Shang Qian sat back, looked at her, and smiled:

“eldest brother and third brother want to see you, I will tell them the address later.”

He thought that Su Nan had just woken up and must have wanted to see his family.

Su Nan shook her head, she pursed her lips:

“Don’t let them come, it’s dangerous here, the third brother is timid, and the eldest brother is very busy.”

Hearing what he said, Su Nan knew that she didn’t tell Su Yifeng that she was in danger.

She was still relieved.

Shang Qian’s face was tense for a moment, and he looked at her:

“Then let’s go back and make a video call with them?”

Su Nan nodded.

Quiet for a moment.

Only then did Shang Qian summon up the courage to ask her,

“Did that woman beat you?”

When he asked, his voice was hoarse and deep, and there was a bit of gloom in his eyes.

Although there was no trauma on her body, he knew very well that there were many ways for this kind of person to torture people.

If he dares to use it on Su Nan, even if it is one, he will not let it go easily!

chapter 2007

is all hard-earned money

Only then did Su Nan realize who “that woman” was referring to?

It was An Qi who took her away.

Su Nan pursed his lips and shook his head, “No.”

Shang Qian’s eyes finally relaxed a bit.

Hide quickly.

He touched Su Nan’s thinned wrist and felt distressed:

“That’s good, my baby has been wronged, I will definitely get it back for you.”

Su Nan looked at him with a bit of relief, perhaps because of a serious illness The reasons for the unhealed overflowed with strong attachment and grievances.

“She has a big Tibetan Mastiff, but it’s scary, no one can run away.”

Shang Qian’s eyes flashed, he smiled calmly, and comforted her softly:

“Really? Don’t be afraid, they’re all over there. Now , you won’t see that beast again.”

Su Nan nodded.

There are no surprises.

Anyway, she won’t go to that island again in the future.

She will not go to any island in the future.

Think about how hard it has been.

She looked at him with watery eyes:

“Sell my island!”

That small tropical private island near Naparte cost her 2 billion.

I haven’t seen it yet, but I’m not in the mood.

Who let her encounter danger many times, either at sea or on the island.

She doesn’t want to leave the mainland for the rest of her life!

No wonder Su Yifeng often said that facing the loess and turning away from the genius is the safest day!

Shang Qian frowned in confusion:

“Didn’t you always want to find a chance to see it?”

Su Nan shook his head decisively:

“I won’t go, I won’t go again, I won’t go to any island!”

After a while, I understood in an instant.

He didn’t know whether to laugh or cry, but he also understood her shadow.

“Okay, if you don’t go, don’t go. I’ll find an agent to sell it to you.”

Su Nan asked him:

“I bought it for two billion, don’t lose money, it’s all my third brother’s hard-earned money.”

Shang Qian only Can nod in agreement.

But it’s good for her that she has diverted her attention so quickly.

He then chatted a few words about buying the island.

“Actually, what you buy is expensive. This kind of small island with no mainland around it is the favorite of the rich, but generally the rich will use it to store prohibited items or do special purposes.

Because if tourism is developed, ordinary tourists will not I will go, and I can buy it for 30 million..."

The more he said, the paler Su Nan's face became.

Finally, she couldn't help interrupting him:

"Enough!"

Seeing that her face was so pale, Shang Qian looked at her with concern:

"Where does it hurt?"

Su Nan looked at him faintly : "It hurts

."

Shang Qian immediately Shut up and tuck her in the quilt.

Su Nan fell asleep as soon as he closed his eyes because he was depressed.

When I woke up again, it seemed like it was already dark.

midnight.

Outside the stars twinkled.

There are only weak wall lamps in the ward, and the whole is dim.

She couldn't get used to it for a while, she couldn't see Shang Qian when she opened her eyes, and she felt uncomfortable.

Insecure.

She tried to sit up, but the pain in her ribs was terrible.

So lie down again.

calm down.

I heard the voices coming from outside, getting closer and closer.

It was Shang Qian's voice.

Cool and low.

"Of course she won't admit it. If she dared to admit that she had someone push Su Nan on purpose, she would have no choice but to die.

But it doesn't matter if she doesn't admit it. For me, there is no need to tell evidence."

Another person: "Mr. Shang After all, An Qi has a lot of power behind her, she has more prestige than Zili, if her people know that we have taken her, they may come to target us, then..."

Shang Qian chuckled With a sigh:

"Didn't she deliberately spread the news of her disappearance before?"

How would everyone know that she is in our hands? If I thought she didn't move Su Nan, would I let her go?"

Another person lowered his voice, He said ,

"Mr. Shang, is there any purpose for An Qi to take his wife away?

According to Fu Yechuan's mother, she wanted to threaten Fu Yechuan to make a choice and recognize his son.

But I always felt that it would not be so simple, and it would be a big deal. Fei Zhouzhang's, it's not like her style."

The voice outside was silent for a while.

Su Nan stared at the dark ceiling with his eyes open, a chill in his heart.

She clenched her fists tightly, the weightlessness and fear of falling into the deep sea suddenly flooded into her heart.

At the moment of drowning, she was able to swim, her hands were tied and she was powerless. The vast sea robbed her of her breath in an instant.

The kind of despair that goes deep into the bone marrow is really a nightmare-like existence.

Thinking about it now, the trembling fear in my bones has never disappeared.

Someone pushed the door in.

She shuddered violently, trembling.

The visitor eased his footsteps, and suddenly, she felt horrified.

"Who?"

Her lips were pale.

The visitor paused and said quickly,

"It's me, don't be afraid."

He stretched out his hand to turn on the light, the light filled the whole room, the warm light sprinkled on him, and he stood there with bright eyes, like a sculpture. The facial features are handsome and indifferent.

Seeing that it was Shang Qian, Su Nan breathed a sigh of relief.

Shang Qian stepped forward and touched her forehead, sweating.

He pursed his lips, "Did you have a nightmare?"

Su Nan didn't explain much, just nodded.

Shang Qian stroked her hair:

“Don’t be afraid, I won’t leave again.”

There was a deep sense of shame in his voice.

On the boat that day, it was very likely that he was trying to get away from the mountain, but An Qi took advantage of it.

He was fooled, so that people could take advantage of it.

That put Su Nan in danger.

Su Nan stretched out his hand, hugged his broad shoulders, and closed his eyes.

“husband.....”

She had a low, hoarse voice.

At this time, she was harmless like a child.

Shang Qian’s heart softened and he said “um”.

She only called him that when she was coquettish.

Every time he shouted like this, it made him feel a softness that had been pulled out of the bones.

No resistance.

He didn’t dare to hold her too tightly, but he used a little force.

“I’m sorry baby.”

His voice was very soft, floating lightly in her ear.

Su Nan opened his eyes slightly and saw her look reflected in his dark eyes.

She instantly understood his guilt.

She gently traced his facial features and smiled:

“What does it have to do with you? You didn’t hurt me.”

Shang Qian sneered, suppressing the sourness in his throat.

“I was careless. If I didn’t take you out, everything would be fine.”

Su Nan pinched his ear and chuckled:

“My father said that danger cannot be avoided, and it can only be solved.”

Shang Qian The sullen coldness dissipated a little, and in my heart I admired Su Yifeng, my old man again.

“Dad is right.”

He lowered his head and kissed her forehead:

“But don’t worry, there will be no next time. Even if something happens to me, I won’t let you be in danger again.”

His tone was very light , but every word of the guarantee smashed into her heart like a stone.

Of course she believed it.

“You can’t do anything,” Su Nan muttered. “If you have something to do, I’ll be sad too.”

Shang Qian responded and touched her face gently:

“Okay, how can I make you sad?”

That’s a cruel thing that only the most heinous people would do.

Shang Qian sat aside: “I’m hungry, I have someone prepare food for you, and I’ll bring it right away.”

“I’m not hungry.”

Shang Qian: “I’m hungry.”

Su Nan: “... ..”

Chapter 2008

I’m afraid

of your sudden death not long after.

The food is brought up.

They are all Chinese food that Su Nan likes to eat on weekdays.

But she couldn’t move, Shang Qian fed her little by little, and when the porridge reached her mouth and smelled the fragrance, she felt a great appetite.

She finally had enough to eat and drink, and Shang Qian smiled a little more.

Only then did Su Nan realize that he hadn’t eaten a single bite.

“Come down to eat...”

Wasn’t he the one who just called out to be hungry?

Why so inactive?

Shang Qian smiled, “You don’t need to be so troublesome.”

He swept away the rest of her meal without any dislike.

Just woke up, Su Nan was not sleepy at all.

She watched Shang Qian finish eating, packed up her things, and made herself another cup of coffee.

Only to realize that he was planning to stay up late with her?

Su Nan frowned and said,

“What kind of coffee do you drink at night?”

Shang Qian paused slightly, then smiled:

“Refreshing.”

“Don’t drink, I’m afraid you will die suddenly.”

Su Nan watched sincerely he.

She, who has always followed Su Yifeng’s health care, can’t stand the people around her who don’t pay attention to taking care of her body.

Shang Qian stiffened, sighed, and glanced at her helplessly.

Not so much, right?

But he didn’t hold his tongue and could only take the coffee.

“Okay, then don’t drink it, I’ll smell it.”

Su Nan didn’t stop and smiled:

“Then tell me what happened in the past few days, how did you find me?”

Shang Qian: “I found it with Fu Yechuan’s boat.”

Su Nan frowned, puzzled .

Shang Qian raised his eyebrows: “Someone arrests you, definitely not just for revenge, I know the movement of Lili, it’s not his words, it’s someone else.

Someone arrests you for a purpose. About you, I am here with Su. There is no news at home, that is Fu Yechuan.”

When he mentioned the name “Fu Yechuan”, his tone was a little cold.

But it was just a trance, his attitude was still warm and clear.

It was as if Su Nan had misunderstood.

“So, you let people stare at him?”

Shang Qian curled his lips, with a bit of disdain:

“Yes, when he received the news that he was sailing, I felt something was wrong, so I let people who are familiar with water hide under his boat. That

’s the person who rescued you after you fell into the sea.”

Su Nan was silent for a moment, then took a deep breath.

In other words, if it wasn't for Shang Qian's vigilance and alertness, she would have been buried in the belly of the fish long ago?

But she didn't understand how she fell into the sea.

She was clearly standing on the deck, but fell into the sea in the next second.

Didn't even have time to react.

The feeling of suffocation came instantly.

Seeing her face change, Shang Qian didn't say anything, and held her hand:

"Afraid?"

He stared at Su Nan's face tightly, for fear that something was wrong.

Su Nan paused, nodded, and clutched the quilt tightly with the other hand:

"How could I fall? There are railings on the deck..."

Shang Qian's face changed slightly, his eyes flashed a little cold. Meaning:

"Didn't you dance by yourself?"

"Am I stupid?"

Su Nan frowned, "Don't say I waited for three days, Fu Yechuan went, it means that I still have a chance to live, even if he doesn't care about me, he will definitely follow. There is a chance, and I know that you will come to me, why should I jump into the sea?"

Thinking that you can scare her with stinging?

A person who was almost abolished by her hands, does she need to be so afraid?

Su Nan was furious.

Shang Qian touched her shoulder to calm her down.

"I know, then confirm that it's An Qi's person."

"An Qi's person? I don't understand, she hasn't touched me for three days, and she keeps saying that it won't hurt me, why at that time... .."

Su Nan really didn't understand the more she thought about it.

Apart from Fu Yechuan, there was no other entanglement between them.

But she knew that she had nothing to do with Fu Yechuan, so why did she target her like this?

Shang Qian paused and leaned forward:

"Don't think about it if you can't figure it out, I'll ask it out."

"Ask it out? She's in your hands?"

Su Nan was surprised, and suddenly remembered what they heard just now, they vaguely Talking about An Qi, although I didn't hear it very clearly, it was not difficult to get in touch.

Shang Qian has now turned the tide.

Turn defeat into victory.

Shang Qian nodded calmly, raised his eyebrows, and approached her:

"Do you want revenge? I can let her jump into the sea for you, or keep her on that island that no one knows about forever..."

His voice sank suddenly.

Su Nan was slightly startled.

Four eyes facing each other.

Look at him seriously, not joking.

slowly.

The corners of his lips pursed into a straight line.

There was a strange coldness in the calm eyes.

Su Nan paused, his face changed slightly.

She stretched out his hand and took his big hand, a little cold, she exerted a little force:

"No, although I really want to do this, but you are a legitimate businessman, you are different from them, don't get your hands dirty."

She was a little eager , for fear that Shang Qian would do something irreversible because of her.

Angie harmed her, and she wanted revenge.

But she didn't want Shang Qian to retaliate in extreme ways.

Then what is the difference between him and An Qi and others?

Shang Qian looked at her fixedly, and after a few seconds, he smiled.

There was a slight smile in the warm eyes, as if the coldness just now was just a disguise.

"Of course, I'm just talking. Just teach her a lesson. When we ask the reason, I'll hand her over to the police."

Su Nan breathed a sigh of relief and nodded.

Shang Qian tucked the quilt for her: "Would you like to sleep?"

Su Nan shook his head.

"I want to watch a movie."

Shang Qian smiled: "No, you haven't recovered yet, your eyes will hurt. Do you want me to read to you?"

Every time she couldn't sleep before, he read to her.

No matter Chinese or English, you can fall asleep in less than a few minutes.

The sound is really nice.

But this time Su Nan felt sorry for him, the spirit on his face was strong, and he must have not had a good rest for a long time.

She yawned and patted the seat next to her:

"No, I'm going to sleep, you can sleep too, just sleep here..."

Anyway, the bed in the VIP room is really big, soft and comfortable .

Besides, she doesn't need injections now, she just needs to rest.

Shang Qian looked at her, smiled, and without any hesitation, he took off his jacket, lifted the quilt from the other side and went in, holding her in his arms.

Quietly, no other movement.

It didn't take long for her to feel her steady breathing, and she knew she was asleep.

There are sleeping ingredients in the medicines taken during the day.

He stared at her facial features through the light, looking at it inch by inch, as if to carve her into his heart.

He didn't dare to show those deep and heavy eyes at will.

He was afraid that too heavy feelings would make her feel stressed and burdened.

So it can only be revealed little by little and slowly penetrated into her life.

For a while.

When she was almost asleep, Shang Qian got up slowly, tucked her quilt, and then walked out quietly.

Several people were waiting outside.

The captain nodded slightly: "President Shang, Fu Yechuan is awake."

chapter 2009

What can I do to hear the

words.

Shang Qian frowned, nodded, and glanced at the bodyguard next to him with a grim expression:

"Lin Shen, take good care of Madam."

Lin Shen nodded solemnly:

“Yes, President Shang can rest assured.”

Shang Qian followed the captain down Walk.

Go down the steps, go up the elevator.

The elevator goes directly underground.

Due to historical reasons in country E, many hospitals have air-raid shelters under them, and some of them are secretly hidden.

Shang Qian took people directly over, and there were many men in black standing at the door.

When they saw Shang Qian, they were extremely respectful, and they all bowed their heads.

Shang Qian walked directly to the innermost dark room:

“Open the door.”

The bodyguard next to him did not hesitate and immediately opened the door.

Shang Qian entered, it was dark and damp, the light was shaking, and the vent was buzzing, which was due to years of disrepair.

The man inside was curled up on the ground, but there was still a fierceness in his eyes.

It’s just the blood that vaguely seeps out of his body, and it looks a little wild and decadent.

Shang Qian walked over, squatted down, looked down at him, his eyes looked at him coldly, and his voice was low:

“President Fu, are you okay?”

Fu Yechuan moved, his breathing was a little heavy, his thin lips were slightly pursed, and the outline on his face was tough and sharp. , looked at Shang Qian gloomily:

“I can’t die.”

Wen Yan.

Shang Qian smiled.

“That’s good.”

There was a hint of complexity in his eyes.

When Su Jin called, he deliberately mentioned his identity, just because he didn’t want him to be impatient.

This time it finally fell into his hands, but he couldn’t do anything, how could he be reconciled?

Shang Qian’s face was calm and undisturbed, and the coldness and sharpness in the bottom of his eyes were undisguised.

“Mr. Fu, do you regret it?”

Fu Yechuan paused, breathing heavily:

“Su Nan, are you awake?”

Even though Shang Qian found five or six bodyguards to fight with him on a break, but Fu Yechuan was a hard-bone, hard-hearted down.

He was not willing to be beaten without his hands.

Shang Qian deliberately drained his strength, and he kept fighting.

Fu Yechuan is just Fu Yechuan, and he is not weak anywhere.

But now, at this time.

He was really embarrassed.

He was exhausted and had bruises all over his body.

Shang Qian’s calmness and gentleness were in stark contrast to him.

Under the dim light, Shang Qian suddenly raised his eyes and stared at him coldly: “

Why do you deserve to mention her name?”

His tone was extremely cold: “When she was bullied, you stayed out of it, what are you pretending to be now?”

Fu Yechuan was silent for a while , clenched his fists.

Every word of Shang Qian poked at his pain point.

His throat moved, his whole body tense in pain:

“What can I do?”

He paused, and repeated it again, depressed and resentful:

“What can I do? That’s my mother. No matter how bad she is to me, she is also my relative. Compared with Su Nan, my mother has no use value.

They can kill this ordinary woman at will, but they will not do it at will. Die Su Nan.

So, so...”

He didn’t say the next words.

It took all his strength.

Shang Qian sneered and gritted his teeth:

“So you can let Su Nan die, do you think she is not ordinary, does she have nine lives?”

Fu Yechuan, in fact, the reason you lose is not because you gave up her countless times, but because You always have an out of time confidence.”

After he finished speaking, Fu Yechuan’s expression changed a bit.

Shang Qian lowered his eyes, his eyes fell on him, and he was extremely happy when he saw his expression of collapse in an instant.

This fact is crueler than killing him.

He stood up and tidied up his clothes:

“Mr. Fu, I will put you at the dock and let your people pick you up. In the future, don’t be wise enough to hang around in front of my wife.”

He didn’t move Fu Yechuan. It wasn’t that he didn’t dare. Afraid of getting into unnecessary trouble.

He can’t let Su Nan hear any negative news about himself outside.

The perfect husband in her heart, he will always be there.

Fu Yechuan moved his body, raised his head, and looked at him with deep eyes:

“Let me go?”

“Don’t believe me? I’m not like you, I have a family, I’m a serious businessman, I can’t get my hands dirty. .”

Shang Qian smiled, with a sly smile like a fox.

His eyes swept away, his eyes fell on Fu Yechuan, and he said meaningfully:

“Mr. Fu, you did everything possible to pull the Su family into the quagmire, do you want me to leak out?”

An inexplicable sentence.

But it made Fu Yechuan’s whole body stiff for a moment, and looked up at him coldly.

That moment.

The two looked at each other, the air was so cold that it could freeze the cold river.

What he said, Fu Yechuan understood.

But he didn’t expect, how could Shang Qian know about that plan?

He clearly hid so deeply!

Count yourself in.

Shang Qian smiled, as if watching a good show:

“I didn’t expect it, I knew it from the beginning, right?”

Fu Yechuan frowned, "How could you

?

"Yes, it's up to me to decide whether to give it or not.

You think that you are smart enough to involve the Su family and me, and you can take care of me along the way.?"

Fu Yechuan's eyes tightened and his breathing quickened.

"Who told you that?"

he said indifferently.

Shang Qian chuckled lightly: "Guess."

After he finished speaking, he turned around and walked out.

The light blurred and elongated his figure, but it made Fu Yechuan feel a chill in his heart.

He breathed hard, because he underestimated Shang Qian.

He thought his plan was flawless.

But Shang Qian missed one, and there was another purpose, to clean up Shang Qian, when he left Su Nan and ran away, he succeeded.

This is also the only secret in his heart that he can't tell.

But it's a long way off.

The person who walked to the door stopped suddenly, clicked his tongue, turned back a few steps, and did not step forward:

"By the way, An Qi asked me to tell you something, you must do what you promised her."

Fu Yechuan's eyes turned cold . , pursed his lips:

"Where is she."

"You can't see it."

"What do you want?"

Shang Qian smiled and said recklessly:

"Whatever I want, I can do it."

There is still a mood Concerned about An Qi, he really couldn't understand Fu Yechuan.

Is it ruthless? Or soft-hearted?

Fu Yechuan didn't say much.

Just thinking about what he promised An Qi, his face sank ugly.

The pain on his body made him uncomfortable, but when Shang Qian came this time, he had to let him go, which meant that Su Nan had woken up.

And it's in good shape.

He breathed a sigh of relief.

She is alive.

He only deserves to watch from a distance.

early morning.

Shang Qian's bodyguard took Fu Yechuan out and sent it to the dock in secret.

Even his previous phone charged him.

The wind on the pier was very strong, and it roared.

His shirt was stained with blood, and he stood there in embarrassment.

Looking at the surging sea, the depths were bottomless, and the pain that flashed in his eyes was suppressed for life.

From behind a rock not far away, a man slowly walked over.

She kept crying, choked up, and approached him:

"Ye Chuan, we are finally safe."

chapter 2010

Can only be seen,

Fu Yechuan turned his head slowly, and remained silent after the phone call.

No matter how Qu Qing cried or complained, he kept silent.

Slowly, Qu Qing also saw his mood, lowered her voice and sobbed.

...

the next day.

The sun shines on Su Nan's face through the curtains.

slowly.

She opened her eyes.

A good night's dream.

She reached out her hand subconsciously and touched a hard arm next to her.

After a pause, she looked back.

It was Shang Qian who was still sleeping.

He slept soundly, and even her interruption did not wake him up.

It was obvious that he hadn't slept well for a long time.

Immediately.

Su Nan was heartbroken.

He frowned slightly, as if in a dream.

She reached out and touched his face, such a handsome face was a little thinner.

With a sigh, he consciously shrank into his arms.

But after a sleep, she suddenly felt less uncomfortable in her lungs, and she didn't cough as much.

Possibly using medicine.

Just a little pain in the ribs.

But not to the point of being unbearable.

The man wrapped her in his arms subconsciously, without any intention of waking up.

It just stayed like this for a while, when suddenly there was a slight and regular knock on the door.

Su Nan paused, unable to get out of bed.

Only coughed lightly.

The people outside quietly opened the door: "President Shang?"

Su Nan: "What's the matter?"

The man didn't come in, but replied respectfully from outside,

"Madam, Mr. Su from the Su family is calling, please answer the call. "

Su Jin's phone number should have been specially instructed by Shang Qian.

Otherwise, the following people can directly refuse.

Su Nan paused and glanced sideways at Shang Qian.

He seemed to be disturbed, frowning slightly.

A hand on his forehead, frowning, in the process of waking up.

It was too late for Su Nan to ask him to go out.

He simply touched Shang Qian's face lightly:

"Husband?"

Shang Qian responded, opened his eyes quickly, looked at her tenderly, and subconsciously kissed her lips.

“Good morning baby.”

Su Nan indulged in his good morning kiss, but did not forget that there was still someone standing at the door.

She doesn't have the strong psychology of being visited.

So when he wanted to continue the deep kiss, he pushed:

“Someone, your phone.”

Shang Qian finally stepped back, frowned, sat up, and leaned back lazily:

“Whose?”

The person at the door repeated it again:

“President Shang, it is Mr. Su's call.”

Shang Qian opened his eyes, lifted the quilt, got out of bed, and walked out.

He would not let anyone come in and see Su Nan disheveled.

He came in with the phone, the phone has been hung up, he can only call back.

Just use the video call.

Su Jin was also waiting, and in a few seconds, he picked up.

“Shang Qian?”

Shang Qian raised his eyebrows, cheered up, and smiled warmly:

“It's me, eldest brother.”

He smiled and handed the phone to Su Nan:

“Say hello?”

Su Nan hasn't washed his face yet, glared at Shang Qian reluctantly.

Fortunately, the other party was Su Jin, and he was a man, so he wouldn't notice this detail.

She smiled, “Brother, good morning?”

Su Jin stared at the screen for a few seconds, then backed slightly and nodded:

“Have you recovered?”

Su Nan nodded: “It feels better every day.”

She didn't lie, especially when it came to her own family.

Su Jin pursed his lips, "Come back when you can move, let me tell you about the video?"

Su Nan's eyes lit up: "Okay!"

Su Jin moved a bit to the other side, beckoned, and said It is said that the child is wearing a small pink cloak, and the pink and tender face is revealed.

We haven't seen each other for a few days. Su Nan thought desperately, but he didn't dare to say it clearly, for fear of Shang Qian's self-blame.

He spends more time with children than himself, and he will definitely think more about it.

So no one mentions it.

Su Nan's eyes were sore, and he forced a smile:

"Hey, talk about little baby, do you want Mommy?"

Talking looked at the person on the screen, as if he didn't know each other.

She looked back at Su Jin with a smile, and stretched out her hand:

"Uncle hug!"

Su Jin held her on his lap and pointed at the person on the screen:

"This is Mommy, don't you miss Mommy?"

He said softly Whisperingly, he explained in an instant:

"No wonder she doesn't know you when you go out to play without children."

Su Nan: "... " The

camera reversed, Shang Qian took the phone and looked at it with a smile Shot:

"Hey, talk about the kid?"

Talk about the kid waving his little hands excitedly:

"Daddy..."

Shang Qian showed his old father's gratified eyes with satisfaction.

Su Nan: "... "

What's the matter, she was jealous of her husband?

Shang Qian stroked Su Nan's hair and put the phone in front of her:

"It's called Mummy."

Talking about the child, he simply shouted, "Mummy."

She smiled and touched Su Nan's in the camera with her finger. Face.

Su Nan smiled, "You're good baby, Mommy will be back soon."

She could not wait to hold her in her arms and kiss her a hundred times.

Talking about children's face blindness probably started when they couldn't tell Su Jin and Su Qi apart.

Su Nan didn't expect that she couldn't even tell herself apart?

We have to rely on Shang Qian!

Said that the children said goodbye very unconsciously, and even ran and crawled to find Su Xiaohu.

Su Jin sat there, his face gradually serious:

"I'll come back as soon as the injury heals. It's been too long, and I can't hide it from my father."

Su Nan nodded.

Shang Qian agreed:

"Don't worry, brother, when she is better, we will go back and say that we will trouble the family in the past few days."

Su Jin nodded: "Don't worry, you can take care of Su Nan in peace, don't worry at home. "

Paused.

Shang Qian said, "Mr. Fu should have already gone back, brother, be careful about cooperation!"

Su Jin glanced at him before nodding.

Su Nan didn't want to listen to their business affairs, so he took the mobile phone and chatted with Su Jin.

Su Jin chatted for a while, feeling that it was a waste of time, and hung up the phone directly.

Su Nan: "..."

Shang Qian went to the bathroom to take a shower.

When I came out again, I was refreshed, wearing a white bathrobe, the whole person was warm and straight, and the figure was clear, like a picture of a beauty taking a bath.

Su Nan shook his head.

Unfortunately, I can't move, I can't do anything.

I can only watch, I can't eat, I can only endure it.

Shang Qian wouldn't know that in just a few seconds, Su Nan has sighed and regretted countless times.

If he knew, his tail could be lifted into the sky.

He wiped his hair and came out with drops of water.

Glancing at her, she closed her eyes and sighed.

Shang Qian thought she was still worried about her body, her eyes darkened, hiding a bit of coldness, so she smiled and found a topic of interest to her.

Before long, at Su Nan's whim, he massaged her to make a mask.

Shang Qian was very happy to do this. According to her instructions, he prepared a lot of tools and a special mask that she named.

Apply the ice-cold mask to the face.

Su Nan felt that he was alive again.

She sighed and touched Shang Qian:

"If our family goes bankrupt, you can make a face for those rich women to support me..."

Shang Qian: "..."

Shut up!
