

Divorce 2261

Chapter 2,261 I am very obedient Fu Yunche's

voice is soft and aggrieved.

Su Nan's heart trembled, and his heart softened.

Fu Yechuan looked at Fu Yunche with satisfaction, and finally knew to use his brain.

"That... Well, but only in this school, if Su Lin skips grades or changes schools in the future and cannot go to school together, this agreement will be annulled immediately?"

Su Nan looked at Fu Yechuan.

Fu Yechuan nodded: "Okay, one word is certain."

He seemed to be thinking about Fu Yunche, but in fact, this was just the first step to slowly approach her.

He was firmly walking towards her world, and no one would stop him this time.

Fu Yunche raised the corners of his mouth happily:

"Thank you, Auntie, I will be very well-behaved and will not cause trouble."

Su Nan smiled, she had no problem with a small child.

Fu Yunche's joyful change made people very infected.

"No hassle.

Su Nan said with a smile.

She raised her eyebrows and looked at Fu Yechuan, who pursed her lips and took out her mobile phone.

Then called George.

On George's side, the secretary answered the phone.

"Hello, Mr. Fu, is there anything going on?"

"I have something to talk to George about, is it convenient?" "

Mr. Fu, Mr. George is not in the company at the moment, and he said that if it is not a hundred thousand urgent things, he will take the initiative to call back in three or four days."

Fu Yechuan: "One hundred thousand is urgent, I must contact him immediately." "

The dialogue between the president and the president is simple and powerful.

100,000 is urgent, and this meaning needs to be weighed by each other.

The secretary paused, "Okay, I'll contact George right away, please wait." The

secretary hung up the phone, and then Fu Yechuan put the phone on the table.

Su Nan was slightly nervous.

Fu Yechuan looked at her the same: "Let's eat first." "

Su Nan has no appetite.

But there was no reason to come over and scold him, the temperature of the steak in front of him was just right, and Fu Yechuan had already picked up a knife and fork and slowly began to cut the steak.

Looking at his mood, it seems that he has not been affected in the slightest.

yes, he has something to influence.

Su Nan looked at the steak in front of him and suddenly said,

"Do you know Linda?"

Fu Yechuan looked up in confusion.

"It's Mike's aunt.

Fu Yechuan nodded clearly, and then handed the cut steak over.

Su Nan frowned slightly, she didn't want to take it because she had no appetite.

But the conversation is going fairly well so far, if you refuse...

She took it anyway.

Fu Yechuan said he was very satisfied.

"The name Linda is a bit familiar, and I'm familiar with one person in politics here, Mike's aunt.

She is now following that person, and my invitation was obtained from her. Fu

Yechuan didn't hide anything and said it all.

Su Nan: "..."

guessed.

Sure enough.

Fu Yechuan chuckled: "If you should have asked me at that time, I will tell you."

Su Nan: "I guess." "

You've always been smart. "

Next second.

Fu Yechuan's mobile phone rang.

He paused and picked up:

"George? "

Mr. Fu, do you have anything to do with me?"

"It's not me looking for you, it's a very important person looking for you."

Fu Yechuan glanced at Su Nan on the opposite side.

George's voice came: "If it's business, let's wait a week later, you know, I'm on vacation this week and don't want to be disturbed."

Fu Yechuan frowned slightly, and Su Nan stretched out his hand and gave him a look.

Fu Yechuan handed the phone over directly.

Su Nan took over: "George, I am Su Nan, we have met." "Oh

, Miss Su, I have the impression, do you have anything to do with me?"

George's voice was calm.

Su Nan: "Shengshi's project is stolen, it does not have clinical qualifications at all, George you need to carefully consider the matter of cooperation with him, the researcher of this project is my friend, they contacted me after I landed."

Believe me, if you really want to live, don't cooperate with Shengshi. George

was silent for a long time.

"If you said this, I wouldn't believe it, but Mr. Fu is by your side..."

George stopped talking: "Why should I believe you, you haven't seen that Miss Lu Yuning who came back from the dead."

"Lu Yuning could have lived longer, she has been picked up by my friend, her transplanted organ will not let her live a hundred years old, in less than three months, she will die, she has now begun to take medicine to relieve pain, because the side effects on her body have begun to highlight, but there is no specific medicine."

Su Nan said, silent for a few seconds, and hesitated to speak:

"George, you can not believe what I say, but I advise you not to be the first to eat crabs, Sheng Shi can't save you." "

For a long time.

George spoke again, his voice calm, as if everything would change without alarm:

"No one can save me, Miss Su, you are right, so you are in such a hurry to find me, you are not just to tell me this, right?"

Su Nan paused, "I think." Please help locate the location of the laboratory, my friends need to stop the prosperous and avoid the situation from getting worse.

George sighed as if he couldn't help it:

“Well, I’ll give you the position, and I’ll leave here too, thank you for telling me this.” “

He believes in Su Nan and Fu Yechuan.

I also believe that I have no cure.

There was a sense of despair in that calmness, even across the ocean, across the phone, she seemed to feel it.

“Also, is Ricket there too?”

George responded: “Originally, he was going to be one of the experiments, but I heard that his blood is precious and rare panda blood, and he can’t find a suitable blood source in the prosperous world, so he can only delay the test operation, how, is Miss Su looking for him?”

Su Nan opened his mouth, as if someone had choked his neck, and could not make any sound.

She blinked, and her eyes instantly moistened.

George’s words were still in my ears.

He is precious and rare panda blood.

Panda blood.

People with panda blood are not only her, but also Shang Qian.

How could there be such a coincidence?

She felt that he was familiar and felt that he was very similar to Shang Qian’s temperament, so she paid more attention.

Talk about the first time I saw him, I called him Daddy.

Why not someone else?

Why is he?

A series of coincidences are cleverly linked together at this moment.

She suddenly remembered that they were sitting on the deck.

The sea breeze blew, and his whole person was shrouded in despair, and when he heard her say that she also wanted to go with Shang Qian, the panic on Lijief’s face was flustered...

Perhaps since that time, things that were originally scheduled have begun to quietly change uncontrollably.

Su Nan’s heart tightened slightly, and it seemed that the current passed through her body, making her lips tremble unconsciously.

Seeing that she suddenly stopped talking, Fu Yechuan also felt strange, he glanced at her inexplicably, and her face turned slightly pale.

Listen to what George on the phone is still asking.

Chapter 2,262 Panda Blood

Fu Yechuan could only answer the phone.

“Okay, send me the positioning, you can go back as soon as possible.”

He hung up the phone and looked at her tentatively:

“Su Nan, are you alright, what’s wrong?”

Su Nan blinked, as if his brain had been hit hard, first numb, and then in severe pain.

This feeling, as if the lifeblood of the whole person was pinched in someone’s hand, teased and played, and she watched herself on the verge of suffocation.

Bleak and powerless.

Li Jeff, Shang Qian.

The appearance of these two people appeared in front of their eyes, but it was Shang Qian who remained in the end.

Is he?

If he wasn’t dead, why didn’t he go back to her?

Watching her heartbreak for him?

Wrong.

She had seen Li Jeff’s appearance, it was not Shang Qian.

Or did he make fine adjustments to avoid being recognized by her?

Within a few months, the technical fine-tuning was enough to recover.

Once the doubt in the heart is planted, it can no longer be controlled.

The flame in her heart grew bigger and bigger, as if it was going to burn her whole person.

Even Fu Yechuan called her on the other side, and she was absent-minded:

“Su Nan...”

She looked at him timidly.

Fu Yechuan said in a deep tone:

“The positioning has been sent, do you want to contact your friend?” “

Although the meal went well, it couldn’t go on anymore.

Su Nan’s mind was buzzing.

She didn’t even know what she was going to do.

Just out of instinct, she found Meng Chen's phone and called.

When leaving the hotel, she decisively refused Fu Yechuan's offer to send her.

She sat alone in the car, looking at the fleeting scenery outside the window, and her heart seemed to be fried by a small fire.

Vulnerability and despair hit, and she no longer seemed invincible.

She wasn't that strong either.

Li Jeff's panda blood further proves that he is Shang Qian?

But what if it's just a coincidence?

Although panda blood is precious, there are not a few people with panda blood.

Is it just a coincidence?

She thought so, as if she had been splashed with cold water, covered in cold sweat.

She resisted the coincidence in her heart.

Rather believe in Li Jeff, it is Shang Qian!

But how could he face her seamlessly?

From the beginning of the encounter at the playground, to what Fu Yechuan said, the "tracking" in Chinatown.

Perhaps, what Fu Yechuan said is true, and Li Jeff is really following them.

Otherwise, is this chance encounter all the time just a coincidence?

But under the sky, where do you get so many coincidences?

Su Nan's heart was beating extremely fast.

It was as if the blood was boiling.

Whether it was or not, she had to ask it herself.

He can have plastic surgery, he can change his identity, but he can't change his blood.

His parent-child relationship with Talk will not be fake.

As long as you do an appraisal, anything can be proved.

She thought so, as if there was a faint hope.

The sun is shining outside, and the air is soft.

It was as if a hand was stroking her face.

Her originally dark prospect seemed to have glimpsed a bright color.

Just the next second.

She suddenly felt a little panicked, because she almost left him there to fend for herself.

Why would he rather be an experimental specimen than come out?

She didn't want to speculate, but she could understand.

Shang Qian was proud, perfect, and he didn't even allow himself to have a single flaw.

He is close to demanding of himself.

If he was really seriously injured by that earthquake, it would be understandable that he could not accept it for a while.

Fortunately, it was still in time.

Meng Chen contacted her again:

"We contacted the coast guard, as well as the company's people, planning to act at night, taking advantage of Shengshi to relax their vigilance, no defense, directly take action, first bring Shengshi back." "

To put it bluntly, they want to use the fastest time to seize the prosperous world first.

Then slowly destroy the test chamber.

That laboratory shouldn't even exist in this world.

"Well, I want to go too.

Su Nan's heart lifted.

Giving her peace of mind at home and waiting for the results, that is impossible.

Meng Chen paused, a little hesitant: "The action at night is confidential, there are almost no people who have nothing to do with the project, and it will be somewhat dangerous, Sheng Shi has a gun in his hand, I am afraid that he really jumps off the wall, Li Qin will not let me go, I see you don't go, when I catch Sheng Shi, I will tell you." Meng

Chen simply felt that Su Nan was very enthusiastic and enthusiastically wanted to know the progress of things.

As a helper, Meng Chen would naturally tell her the content.

But in the face of danger, forget it.

Su Nan paused, "It's okay, I must go, I've been before, I'm more familiar, more familiar than you, let me go together, maybe I'll help."

Meng Chen: "But..."

The

words were not finished.

Chapter 2,263 The female patient who took the initiative to seek medical treatment was also as calm as Su Nan, laughing, greeting ordinary people, and shaking hands and greeting.

Put it in the crowd, there is not the slightest abnormality.

But her arms were full of traces of self-harm.

Shocking.

That's why he immediately made the call.

It's not that he hasn't seen such patients, but he is worried that some patients will beautify their state of mind and make them make wrong guidance.

Mistakenly thinking that they are moving in a good direction.

Actually, it couldn't be worse.

I didn't hear Su Nan's voice, and the psychologist was indeed panicked.

"Miss Su, you..."

Su Nan coughed and finally spoke.

It sounded like a nonchalant voice, with a bit of low and steady:

"Sorry, I just replied to an email, don't worry, I'm fine, I can control my body, I'm fine, when this matter is dealt with, I will go back to Congress and take the initiative to contact you, when the time comes, we will have a good talk again?" The

psychiatrist fell silent suspiciously.

He was doubting.

Is she pretending to be normal?

But her positive attitude of seeking medical treatment is a good aspect.

Or is he thinking too much?

"Okay, but before that, if something is wrong, you have to tell me in time.

Miss Su, I am a qualified doctor, I will keep it a secret for you, please trust my profession.

Su Nan replied solemnly, and his attitude just now changed slightly:

"I believe it." "

Hang up.

She looked out the window in amazement.

Green vines fill the walls and are full of life.

From here, you can see the sparkling lake not far away.

She thought about the doctor's words and subconsciously touched her arm.

Then, for fear of being noticed by someone, he let go of his hand in panic.

She went to the bathroom to wash up.

Then she went downstairs to accompany her and play with Xiaoyu'er for a while, waiting for Su Qi to come back before she went up to sleep.

Everything is methodically calm.

Nine o'clock in the evening.

It was dark.

The whole city fell into a dead silence.

Chang Li drove Su Nan to the dock.

Chang Li didn't ask anything, she said to come, and he came.

The marina is as quiet as ever.

The sea surface glows with a dark light, like a dormant beast, ready to devour everything at any time.

A sinister feeling.

But standing here, her heart was beating hard.

I don't know if it's the reason why I want to see Shang Qian soon.

The excitement in her chest could not be suppressed, surging and surging.

And a low-key car is also parked not far away.

There was no light in the car, as if it were an abandoned car.

But the moment Su Nan got out of the car, the people in the car came down.

It was Meng Liqin.

Chang Li stood there and looked at Su Nan.

Su Nan's voice was calm: "You wait here, don't tell any of our actions."

"Miss, there will be danger, I'll go with you." Chang

Li could vaguely sense that something was wrong tonight.

Su Nan was just about to refuse, but Meng Liqin had already arrived:

"There is danger, it is good that multiple people protect you, and our manpower will not pay attention to you."

Chang Li nodded with a cold face.

Su Nan pursed her lips, of course accepted.

I didn't see Meng Chen.

Sure enough, as she said, Meng Liqin did not allow her to come.

Meng Liqin glanced at Chang Li, then took out a pocket pistol from behind him and handed it over:

"Can it be used?"

Su Nan couldn't help but widen his eyes.

Originally, she thought the risk factor was at most 0.1, but now it has risen to 0.9.

Inexplicably cold.

Chang Li calmly took it and weighed it, knowing that there were several bullets in it.

"Yes.

He said dryly.

"Also, our eldest lady will also use it."

Meng Liqin looked at Su Nan.

Su Nan was instantly startled, and his expression was calm:

"I don't care, how can I use my own hands?" "

Next second.

Meng Liqin took out another identical handful and handed it over.

"Take it, in the past, it is not the best in case."

He didn't ask Su Nan why he would.

Very polite.

Su Nan took it and weighed it, well, the bullet is full.

She and Chang Li looked at each other, and the two could not see any fear in each other's eyes.

The scene of dealing with danger is not unfamiliar.

It's just that Su Nan doesn't think this trip is so dangerous.

But even if there is danger, she can't help but go.

She was going to bring people back herself.

Bring it back to validate your ideas!

Meng Liqin glanced at them, and then leaned on a ship in the port that no one noticed, and the lights flashed a few times.

Meng Liqin's eyes were cold:

"Let's go." He

lifted his foot and walked in the direction of the boat.

When Su Nan arrived, he found that the boat was very familiar.

It seems to be the same cruise ship?

It's just a lot more low-key.

Su Nan was a little surprised.

Meng Liqin paused, "Don't worry, this boat was not originally bought by Shengshi, I inquired, it was rented, he can rent, I can also rent, I also added twice the money, let's go, get on the boat."

Su Nan looked at him with admiration.

Such a risky behavior, Meng Liqin is really confident!

Such a person who does not change his face in the face of danger, is just a researcher?

She couldn't help but be a little curious.

But out of trust in Xiao Yu'er and Meng Zhiying, she didn't suspect anything.

Besides, if they are really bad people, they will not put their children by their side.

Su Nan followed, Chang Li stepped forward and helped her jump over.

At night, the salty sea breeze blows over, as if the air is moist.

She looked at it from the deck below, and it didn't feel like she had gone straight up another passage before.

The scenery below is also beautiful.

The distant mountains slope horizontally, like the shadows of fog, and only the shadows of shadows and birds passing across the sea can be seen.

In addition to Meng Liqin and the two of them, there were nearly forty or fifty people who boarded the boat.

They were dressed in black, looking cold and serious, with solemn expressions.

And they all wear weapons to the same extent.

Su Nan just glanced at it, and he unconsciously raised it in his heart.

If Meng Liqin took out the gun just now to let them defend themselves, she would have felt a little fussy.

The battle of these people in front of them is simply going to war!

She had also experienced war abroad, and she knew this feeling.

Danger can befall you at any time.

Meng Liqin went in and said a few words, and one of the people who was the leader walked out.

This person is tall, thin and strong, with deep eye sockets, with a bit of mixed blood, but his temperament is noble, his aura is also a little cold, his demeanor is calm, and he looks like a leader.

He looked at Su Nan, and then stretched out his hand:

“Miss Su, I am the person in charge of LJ Group, my name is Xu Chen, I heard Qin and Meng Chen say, thanks to you this time, we will find Shengshi’s whereabouts in such a timely manner, and I am very grateful for your help.” ”

Chapter 2,264 Looking for a needle

in a haystack Su Nan shook hands gently, smiled, listened to the accent, and his Z text was very sharp.

But it’s not like you’ve been in Country Z.

“You’re welcome, as it should be. “

I heard that Miss Su’s friend is still there, in order to thank you for your help, while we seize the prosperous world and destroy the laboratory, we will also help you bring your friend out, I don’t know what his name is?”

Su Nan lowered his eyes slightly, pursed his lips, and was silent for a few seconds:

“Lijief, he is not very convenient to move, he is a disabled person, please you must protect his safety.” “

Will do. The

other party agreed, glanced at Chang Li, and looked at him with a bit of scrutiny and consideration:

“It seems that Miss Su brings her own people, so I hope you can protect yourself for a while.”

“Mr. Xu doesn’t care about me, I just want to find my friends.”

Xu Chen nodded.

Meng Liqin came out and patted Xu Chen’s shoulder:

“Let’s start?”

“Okay, I’ll leave it to you here, Miss Su, you’ve been here before, why don’t you go in with us and talk about it?” “

Okay.

Su Nan simply nodded.

Since she is here, of course she will try her best to help.

Su Nan followed up and took a look, except for the room at the beginning, this is the dancing banquet hall, which is very large and luxurious.

However, the area upstairs is smaller and more delicate, and the specifications are several notches higher.

When she came before, it was all for pleasantries and did not observe carefully.

“What about the elevator that Miss Su mentioned earlier?”

Xu Chen asked.

Su Nan followed the place he remembered and walked over there.

But walking around, I couldn't see the shadow of the elevator.

After walking back and forth for two or three times, her face turned slightly white:

“What the hell?”

Xu Chen also noticed that something was wrong: “Miss Su, are you sure that you are not mistaken, isn't it somewhere else?”

Su Nan shook his head.

“No, it must be here.

She remembers that before leaving, she came down from the elevator to the side exit of the banquet hall.

But this place in front of you is a wall.

Meng Liqin brought people over, glanced at Su Nan, and shook his head at Xu Chen:

“I didn't find an elevator elsewhere.”

Su Nan paused, “Do you want to go upstairs?” “

The cruise was running smoothly.

They need to find the elevator before they reach that coordinate location to find the entrance to the lab.

It doesn't take much, but I didn't expect it to be so troublesome.

There are stairs on the sides.

They went straight up the stairs.

Su Nan looked at the familiar scene, but some of the ornaments that had been specially arranged before were removed.

But the overall look and feel is still luxurious and luxurious.

She stood at the door of the room where she had lived, then walked out in the direction she remembered.

The location of the elevator is still a wall.

She touched the wall, and there was no elevator switch.

I was really shocked.

Chang Li stepped forward and blocked her behind:

“Miss, are you sure you’re here?”

Su Nan nodded.

How could she be mistaken?

She was here before leaving, watching the man in the wheelchair wait here for the elevator.

They got into the elevator together, and although they didn’t say a word in the process, they were in a trance with each other.

Chang Li paused, reached out and knocked on the wall.

It’s solid, not a board’s obscuration.

Meng Liqin beckoned people over, everyone wanted to push, wanted to move, wanted to find out the evidence that this wall was fake.

But it didn’t work.

Suddenly.

Su Nan was thinking about the butler’s gesture every time he opened the elevator.

He didn’t seem to press it directly.

She shook suddenly, and suddenly remembered some detail.

“I see.

As soon as
she spoke, everyone moved out of the way.

The housekeeper was very kind to help them press the elevator.

On some occasions, this is not a very strange thing.

But every time he used his body to block the position of the elevator, it seemed that it was probably unintentional, and no one ever suspected it.

However, Su Nan suddenly thought that when he first came, he was a little afraid and dizzy because he was facing the deep sea.

At that time, the housekeeper immediately pressed a certain place and changed the scene in real time before letting her slow down.

And the position he pressed was not a certain button that suddenly appeared.

It seems to be a holographic projection.

She looked around and stood lightly in front of a half-man-tall vase on the opposite side of the elevator.

The pattern of the vase looks a bit like the medieval European classical style.

Xu Chen also found something wrong with this vase.

He stepped forward, and one hand had already touched the bulge in the middle of the vase.

As soon as he touched it, the light came on.

The red light shone straight on the opposite wall.

The original gray wall on the opposite side seemed to have been inducted, and then the outline of the elevator automatically appeared.

Immediately after, the red light on the outline gradually disappeared.

<b1153 > On the wall where there was nothing, a shape similar to an elevator door appeared.

The faces of those present were full of surprise.

Meng Liqin twisted his eyebrows slightly: "The prosperous world is hidden deep enough."

Xu Chen chuckled: "Indeed, if we didn't use Miss Su, we wouldn't be able to find the entrance at all, and even if we got to that place, it would be a needle in a haystack."

Su Nan walked over to look.

At this time, a holographic projection of up and down buttons has appeared on the wall.

Thinking about the butler's gesture, she touched it up in the position of the big A.

Soon.

The wall reacted.

The wall, which had no gaps, suddenly changed, opening up from both sides.

In front of you, it looks like an elevator.

Su Nan gasped and looked at the space inside, which was indeed familiar to him.

I just didn't expect that finding the elevator was so difficult, it was really unique.

Looking at the open elevator, no one used it.

Xu Chen glanced at Meng Liqin:

"The elevator has been found, how long will it take for our ship to arrive?"

Meng Liqin paused, "About half an hour."

"Then wait a little longer.

After

Xu Chen finished speaking, he looked at Su Nan and said, "Miss Su,

can you trouble you and draw us a road map according to your memory?"

Su Nan nodded.

"Of course, but there are not many places that Shengshi has taken us, and it may not be comprehensive enough.

"The general route is fine.

Su Nan nodded, and then led them through the corridor to the previous banquet hall.

The banquet hall is small and delicate, and the murals on the walls are extremely exquisite.

But no one cares about that now.

She found a seat and handed it over, and Meng Liqin handed it over with a pen and paper.

Su Nan drew it directly according to the route in his impression.

Including the shape of the laboratory on the seabed.

After the painting.

Xu Chen's face was a little silent.

Even Meng Liqin was slightly surprised.

Meng Liqin glanced at it, "Sheng Shi this person is very nostalgic, even the laboratory is the same as our research institute." "

Chapter 2,265 Imitating and Plagiarizing

Xu Chen chuckled disdainfully, somewhat speechless.

"Stealing other people's work, stealing other people's connections, and now stealing other people's design studios?

Looking at Su Nan's confused gaze, Meng Liqin explained:

"This laboratory is almost exactly the same as our research institute, especially from the time you enter, all the way to the location of the dissection room and exhibition hall, and our research institute is the same."

Su Nan was stunned in shock:

"Then aren't you familiar with the inside?"

"Of course, you can turn around a few times with your eyes closed, and it seems that today's operation should go well."

Xu Chen raised his eyebrows and did not make a sound, but his expression was obviously much more relaxed.

Time passed not long ago.

Someone came over and said something to Meng Liqin, and Meng Liqin nodded and looked at Xu Chen:

“Arrived, let’s go in.”

Xu Chen glanced at Su Nan:

“Miss Su, please?”

Su Nan smiled, stood up, and glanced at Chang Li, who was also prepared.

Several people got on the elevator.

The interior of the elevator is spacious enough to accommodate nearly thirty people.

As soon as Xu Chen entered, he knew the mechanism structure inside this elevator.

He didn’t know where he pressed, and the monitoring direction in the elevator suddenly stopped working.

The elevator keeps going down, and you can feel weightless.

And the bottom of the sea outside is deep and dark, like a confined space that makes people breathless.

Su Nan closed his eyes slightly uncomfortably.

Chang Li looked around vigilantly.

The process went on for a long time.

When the elevator arrived, the others walked out first.

Meng Liqin, Xu Chen and Su Nan remained last.

Chang Li has been standing on Su Nan’s side, and he was relieved to see her face improve slightly below.

Xu Chen turned his head to glance at the elevator and the glass plank in front of him, and shook his head:

“This project, it can’t be built in ten or eight years, Shengshi left five years ago, it seems that he has long been prepared?”

Meng Liqin nodded: “And this place, it is difficult for outsiders to come in, it can be called a place outside the law, Sheng Shi really wants to do a big job here?” The

expressions of the two people were very calm.

But Su Nan faintly felt that something was not right.

“Mr. Meng, why do I feel a little quiet? “

Not the sound of the sea roaring outside, the silence is too much.

The entire research base is like a huge pearl on the bottom of the sea.

In the dark depths of the sea, a weak but persistent light is emitted.

Within ten meters of this laboratory, many fish gathered and the formation was raging.

But within ten meters, there were no large fish.

Su Nan was slightly surprised:

“Last time, it didn’t seem like this, those white sharks can swim around at will, why are they there now, like they can’t come over?”

Meng Liqin explained on the side:

“It should be the use of some kind of sound wave against large fish, in order to avoid fish attacks on the research base, the set range can prevent the fish from approaching.”

When they need the test specimen, they also emit some kind of sound wave that attracts them closer.

Shengshi knows these very well, and the secret experiments of many countries in the world attract creatures in this way.

Su Nan nodded abruptly.

She didn’t know anything about it, and she couldn’t use her intuitive feelings to determine whether it was cruel or not.

Scientific and technological progress requires constant experimentation.

It also takes countless failures and sacrifices.

Whether it’s a person, or an animal.

Walk through this section of the promenade.

Everyone looked at the door of the research room in front of them.

Meng Liqin smiled, and seemed to be in the mood to joke:

“You said that the password of our research room, can it be opened?”

Xu Chen glanced at him: “You try?” An error will alert you once.

“What then?”

“It doesn’t matter if it’s an alarm, unless there’s a second way here, we can catch him as soon as he comes out.” “

This is going to scare the snake.

Meng Liqin stepped forward and directly entered a password.

The door opened.

Meng Liqin’s face changed slightly.

“The password of our institute changes every two days, and I entered the latest password.

Xu Chen's face was also not good-looking, and he hooked his lips coldly:

"This means that there are inner ghosts in us." The

two looked at each other and put the matter aside for the time being.

When the prosperous world is cleaned up, it is not too late to catch the inner ghost.

Push the door in, there is a huge white space.

Su Nan didn't have much difference in the way he saw it last time.

It's just that so many people poured in, but there was still a lot of movement.

Someone in the dissection room poked his head out to look.

In the next second, one of the people brought by Xu Chen immediately stepped forward and dragged the person out.

Before the man could make a move, he was knocked unconscious.

When he came out, he threw the needle in the corner.

It turned out to be an anesthesia injection.

Meng Liqin and Xu Chen looked at each other.

"Let's move separately, contact at any time, Miss Su, can you find a safe place to wait?"

Su Nan smiled and said: <B1150>

"You guys are busy with yourself, don't worry, I won't be exposed."

Xu Chen nodded, thought of something, bowed his head and said something to her.

Then he took a dozen people and Meng Liqin and others and left.

It can be seen that these people's reflexes are sharp, their movements are steady and ruthless, and most importantly, they run without sound.

Not general security, I'm afraid it is trained special forces to reach this level.

"Miss, where are we going?"

Su Nan was slightly startled because of what he said just now.

She looked at the dissection room and remembered the last time she saw it.

Bloody, cruel.

But she ghostly walked over.

The man who fainted was lowered to the ground.

Su Nan directly untied his white clothes and put them on himself:

"You wait here."

She said, pushing the door without daring to look elsewhere, and directly pulled down another piece of clothing from the wall on the other side and handed it to Chang Li.

After Chang Li dressed, the two quietly went in.

Fortunately, there were no other people in this dissection room, probably at night, and their routine did not change much from that on the shore.

It's time to rest.

It's just that the white light overhead is shining, and those tragic and bloody scenes are seen again, perhaps with psychological preparation, she does not have the strong reaction before.

Chang Lirao was used to seeing bloody scenes, but when he saw inside, his face suddenly changed slightly.

"Miss..."

Su Nan stretched out his hand, put his index finger on his mouth, and made a "shh" gesture.

She vaguely felt that something was wrong in this room.

Except for the strange smell of the potion, she saw a direction blocked by the instrument table, as if it was a little reflective.

She ghostly walked in the direction of the inside.

Chang Li in the back followed guardedly and whispered:

"Aren't we going out to find someone?"

Su Nan paused, "It's too dangerous outside, Meng Liqin's people are obviously prepared, it's good to win, won't we give people away if we lose?" "

Chapter 2,266 turned out to be you

"Then what are we looking for here?" "

Find someone.

Su Nan was silent and said.

Whether the person she was looking for was here or not, what she could be sure of was that every road or room here should not be closed alone, but connected.

As long as it is through, there must be a road to access.

This is much safer than looking for it outside.

This is what Xu Chen said to her before leaving.

Otherwise, she wouldn't be so sure, start looking for it from here, maybe she will be able to meet Xu Chen and them soon.

Chang Li paused and did not continue to ask.

It's just that he looked around and became more vigilant.

Su Nan looked at the reflective position, it was a wall similar to glass, but it did not look like a wall in thickness.

She stood there, her heart beating faster.

She pushed directly, and sure enough, the wall was able to push away.

Quiet surrounding.

Even the muffled sound of the bottom of the sea outside seemed to be amplified countless times.

Inside it was like a lounge.

Empty.

She stood there, wringing her eyebrows.

Chang Li behind him asked: "Miss, are we looking in the wrong place?" Why not start looking for it in the office area?

She didn't answer.

I agree that Chang Li has a point, this is the place where the dissection was first started, and there is not even much technical content.

How could that person be here?

But that inexplicably familiar feeling just flooded into her mind very strongly.

She walked in and walked around.

The inside is different from the outside, a wall and the top are transparent, and a lot of fish and algae swim on it.

That inky blue sense of emptiness, on the dark seabed, reflecting the weak light on the screen above, seems to be very cold.

Su Nan didn't look at any more rooms that could be pushed open.

Maybe this is the innermost part?

She swept her gaze, looking a little dazed, and gradually withdrew her gaze.

It's just that when I saw those fish swimming on it, my eyes suddenly suffocated.

She stepped forward and stood next to the transparent glass.

Suddenly stretched out his hand.

Chang Li looked at her puzzled from behind.

Next second.

She suddenly exerted force.

The transparent glass in front of him can be pushed open.

And there is a darker tunnel.

Chang Li gasped: "Miss? "

They thought they were already seeing the edge.

I didn't expect that what I saw was all an illusion?

Su Nan felt that his arms were trembling slightly.

That indescribable excitement seemed to herald something.

They walked in.

The dark tunnel seems to enter the dark night under the sea, without a trace of light.

Silence, dull sound, clamor eardrums, as if filled with all discomfort.

Su Nan walked forward with the light of the mobile phone that Chang Li swept over, his facial features were cold, and his face was slightly white.

The surrounding feeling of oppression is very strong, and it is completely different from the feeling of being outside.

The exterior is designed to create a land-like feel.

But now in this tunnel, it seems to be sinking constantly.

That feeling of weightlessness made her feel a lot less acute.

"Miss..."

Chang Li tugged her and dragged her violently behind him.

Next second.

An incomprehensible person came out from the side, appearing like a ghost.

The man was completely immersed in darkness, dangerous and cold.

And the cold weapon in that person's hand was in Su Nan's original direction just now, but it was completely blocked by Chang Li.

This is enough to escalate the danger of the environment to the very highest.

"Stop..."

A weaker voice came from even inside.

Su Nan's face changed slightly.

She could feel herself shaking all over.

The person in front of him heard the instruction, put down the weapon in his hand, and then turned sideways.

“Let them in. It

was Lijeff’s voice, and she heard it right.

Su Nan clenched his palms and tried hard to calm himself down.

Chang Li also put down the gun he had just raised, and then glanced at Su Nan.

Su Nan nodded, and Chang Licai walked in front and went in.

Beyond this dark tunnel, there is a hole in the sky.

Inside is a small lounge, simply decorated but not deserted.

A person in a wheelchair looked at the two people who walked in from the outside with a pale face.

His eyes were pitch black, wearing a mask and hat, and his whole person was curled up in the dark, like an old man dying.

He seemed to be slowly withering, there was almost no vitality on his body, and his eyes were numb.

It’s just that the moment he looked at Su Nan, there was a slight fluctuation in the depths of his eyes.

The emotions of that moment were out of control, and they were quickly hidden in the deepest place.

It never seems to have changed.

Everything at the bottom of the sea seems to be silent.

She watched him appear unharmed, and her heart suddenly breathed a sigh of relief.

It’s almost there, she has to confirm it herself.

There was a moment of silence around.

The man standing next to him suddenly spoke,

“How did you find this place?” Who are you?

Li Jeff stretched out his hand and paused:

“Miss Su, aren’t you not interested in this project?” How did it appear here again? His voice was low and rough, as if it had been scratched by a frost.

Su Nan paused, stepped forward, and his eyes were calm and cold on the surface:

“There is a problem with this project, Sheng Shi plagiarized other people’s results, applied immature trials to the clinic, someone wanted to expose him, I followed.”

Mr. Li, what are you staying here for? “

It is clear that the two people are not dangerous, but they are hiding from each other and being wary.

Li Jeff hung his head, his eyes darkened a little, and his voice was difficult to speak:

“I...”

Su Nan couldn't bear to see that he obviously didn't want to answer, but he forced his own unbearable appearance to show outsiders self-destruction.

She hurriedly interrupted: “I forgot, you know President Sheng, I'm afraid he will be in big trouble, I'll take you out of here, right?” She said, about to step forward.

But the man next to him seemed to be specially protecting Lijeff.

He blocked there, preventing Sunan from getting close to Lijief.

Li Jeff's eyes deepened slightly, and he took a deep breath:

“How do you know that I am not with him?” He was in trouble and I couldn't avoid it.

Su Nan's face was slightly dull, his eyes were cold, and he looked at him deeply:

“Mr. Li, if you are really with him, will he still use you as an experiment?”

Li Jeff's face stiffened slightly.

Even though he was now wearing a mask to cover his face.

However, he felt that in Su Nan's eyes, he had almost no ability to hide.

Even the last thing he wanted to admit could be easily seen through by her.

How would she know?

Lijeff breathed slightly.

Suddenly there was a very ridiculous idea, did she know her identity?

But as she knew, how could she stand here so calmly, so calmly?

Chapter 2267 Help me find a way

.

Jeff quickly calmed down.

Panic faded.

He could even raise his eyes to meet her cold gaze, and said calmly:

“I have already refused, because I don't want to die on the operating table.”

Su Nan suddenly felt like crying, and the sourness in his eyes seemed to have passed a subtle electric current, making her unbearable.

Immediately.

A cell phone rang.

Li Jeff paused, took out his mobile phone, and Sheng Shi's panicked voice came from inside:

"Brother, it's not good, someone ran in, it's Xu Chen's people, they're catching me everywhere, you quickly think of a way, I can't be arrested, my career is about to start, I'm the one who can change human history!"

Sheng Shi's voice sounded unstable, he should be running away.

It seems that Xu Chen and Meng Liqin have already started a comprehensive outflanking with people.
no way.

Shengshi designed the laboratory below to be exactly the same as the research institute above. Isn't this giving them great convenience?

Li Jiefu looked at Su Nan with dark eyes, but his voice was calm and said to the person on the phone:

"I have nothing to do, Mr. Sheng, ask yourself for more blessings!"

"Brother, how can you throw it away at this time? I, when you supported me, you clearly had confidence in me, I can shock the world right away, I will heal you, let you stand upright and stand in front of all mankind, we are the best Partner!"

At this time, Sheng Shidu had not forgotten to brainwash Li Jiefu.

Su Nan felt amused when he heard it.

For a while, the coldness in my heart eased a bit.

Li Jiefu looked at her smile with warm eyes.

"Mr. Sheng, why don't you admit defeat?"

"Brother, how can I admit defeat? With your ability, you can completely turn me over. As long as you help me, we can make a comeback after going out."

"Shengshi, but I didn't know in advance, the results of your project were stolen..."

Li Jiefu finished.

Sheng Shi was silent on the phone.

He was surprised that Jeff knew about it!

But soon.

There was a burst of noisy footsteps on the phone:

"So what? The only person who can save you now is me. I already know your identity. If you don't help me, I will tell you everything about you. , you're just a waste now, and you don't want everyone to know..."

Sheng Shi's words were not finished.

Li Geoff hung up the phone.

There was a dead silence in the air.

He seemed to have fallen into his own torment, the indifference and biting sadness that went deep into his bones, as if he was unbearable to live.

And Su Nan was also shocked by the hysterical words of Sheng Shi on the phone.

There was obviously no key point, but she clearly heard the word Shang Qian.

Li Jiefu suddenly raised his head and looked at the man on the side:

“Yang, if you want to go out to help Mr. Sheng, you should stay with me. I will not treat you badly, but you will surely die if you go out.

” After the man was shocked, he struggled again, and finally gritted his teeth:

“I’ll follow you, Mr. Li.”

Li Jiefu looked up at Su Nan and wanted to show a smile, but he realized that he was wearing a mask, and there was no difference between smiling and not smiling.

His dark eyes were deep, and his heart kept sinking.

I hope that Sheng Shi’s words just now did not cause her any doubts!

“Miss Su, thank you for telling me this, I won’t stay here again, let’s go?”

Su Nan didn’t expect him to be so happy, but it was also expected.

She nodded, then turned and walked out.

A Yang stood behind Li Jeff, but did not push the wheelchair.

Li Jeff put his finger on the wheelchair and touched it lightly, and the touch screen button came out by itself.

Press it, and the wheelchair starts to move forward on its own.

Su Nan walked in front of him, and Chang Li walked in front.

He looked at her figure with a bit of reluctance and nostalgia in his eyes.

I really don’t want to let her disappear from my world!

There was a deep silence in the tunnel.

Su Nan’s voice suddenly sounded, with a bit of laziness and casualness in his voice:

“By the way, there is no surveillance here, how does Mr. Li know that we are not malicious?”

Just now, it was he who stopped A Yang’s sneak attack.

She asked, and looked back at him with a soft smile between her brows.

Like a well-intentioned question.

When Li Jiefu saw that smile, it seemed like a bright color in the darkness, which made his heart froze slightly.

subconsciously.

He blurted out, "I heard a voice..."

But the next second.

His face changed, and he shut his mouth tightly.

I hear a voice?

Whose voice did you hear?

At that time, it was not Su Nan who spoke.

Instead, Chang Li called out "Miss".

How could he recognize Chang Li's voice, and how could he think that Chang Li's voice was not dangerous?

His IQ seems to be going backwards, and he hates why he makes frequent mistakes in such details and shows his faults.

His rigid body was not obvious in the dark.

His mind was spinning quickly about how to make up for his mistakes.

And after she heard it, there was no change in her back, and she still followed Chang Li calmly, even as if she didn't care.

I don't care about his answer.

Li Jeff slowly let out a sigh of relief.

Of course he didn't see Su Nan at this time, his eyes were already red.

She is so sharp and intelligent, every word is not said at random, and Li Jiefu has already given her the answer.

At this time, in her heart, she already knew that some things were irrelevant.

It's just that he doesn't want to admit that she can't force him.

He's still alive, that's fine.

Finally returned to the outermost dissection room.

Under the refraction of the light, the icy tool glows with icy light.

Su Nan and Chang Li went out, hesitating whether to go out now.

She looks back.

A Yang walked behind him, and Li Jiefu was at the back, driving the wheelchair by himself.

This move made Su Nan frown slightly.

Subsequently.

I heard a lot of footsteps walking outside.

It should be from Meng Liqin.

Su Nan glanced at Chang Li, and Chang Li nodded:

“Miss, wait a moment, I’ll go take a look first.”

He said, leaning against the door, carefully watching the situation outside.

But the next second.

Suddenly hearing something behind her, Su Nan didn’t have time to turn around when something icy hit the back of her head.

Su Nan was shocked and shuddered instantly.

“Mr. Li, your people...”

Before she could finish her words, Li Jiefu’s eyes sank unexpectedly.

All this was beyond his expectations.

“A Yang...”

Li Jiefu gritted his teeth, and there was a chill in his voice.

A Yang’s face changed slightly:

“I am from President Sheng, and I will help him no matter what, Mr. Li, you have a good relationship with our President Sheng, but you betrayed him at this time, are you worthy of his trust in you?”

It’s because he did everything possible to cure you, to make you stand up again, is that how you repaid him?”

Chapter 2,268 The attitude of Ah Yang when he moved his hand was completely opposite to when he was inside.

Presumably, it was not a sincere defection to Lijeff in the first place.

Even if the prosperous world itself is difficult to protect.

Compared with Li Jeff, an unidentified cripple, it is still guaranteed to be prosperous!

Moreover, the situation is not clear now, and it is not known what the situation is outside.

Su Nan and Chang Li are like ruining the cause of Shengshi?

Ah Yang is not a fool.

If you don't make any moves at this time, how will you explain to Sheng Shi in a while?

Su Nan did not dare to move, for fear that this Ah Yang would go off the rails.

They carry weapons with them abroad and treat human life like grass, so Su Nan does not dare to test the courage of others.

Chang Li was just about to come over when Su Nan gave him a look.

Chang Li was stunned there, but stared at Ah Yang with cold eyes.

It seems to be on alert for something at all times.

And Lijief is the closest to AYang.

It's a pity that he can't even stand up, and he can't even think about saving people from Ah Yang, a professional killer.

Ah Yang also expected this, which is why he dared to be so unscrupulous.

Soon.

Listen to the sounds outside.

Someone is close to this room.

Ah Yang's face was delicate and complex, and the muzzle of the gun was against the back of Su Nan's head, and he did not dare to relax at any time.

Wait until someone opens the door to this room from the outside.

Ah Yang's eyes flashed, and he looked over excitedly.

But a muffled sound suddenly cut through the air.

He looked back in disbelief, and the person in the wheelchair didn't know when there was an extra gun in his hand.

There was also a silencer on that gun.

And on Ah Yang's own chest, there was an extra bloody wound.

His face suddenly changed and twisted as he looked at his wound, and the expression on his face was complicated and shocked.

Lijief's face was extremely cold and calm, and the chill permeating his eyes was like countless dangers at the unknown seabed, which made people feel a kind of creepy shudder.

The gun on the back of Su Nan's head fell to the ground, and Ah Yang's whole person suddenly knelt on the ground in a rejection, rushing in his direction, and blood slowly flowed from the corner of his mouth.

In his eyes, there was still a little unwillingness.

It's just that no longer reluctant, there is no chance.

He followed Lijeff for so long, treating him only like a waste.

Don't even know that he has a gun in his hand?

Chang Li came over a few steps, pulled Su Nan behind him, and pointed the gun in his hand at A Yang on the ground.

Be prepared for a sneak attack from his backhand.

Su Nan looked calm, and did not seem to be frightened by this accident.

From start to finish, it's not even two minutes.

The sounds outside are getting closer and closer, more and more messy.

The sea whimpered, as if it could swallow everything at any moment.

Su Nan looked at Li Jeff steadily, and was just about to say something, when suddenly someone pushed open the door.

It was Meng Liqin.

Meng Liqin squinted his eyes at the person who fell to the ground.

He pursed his lips and looked at Su Nan and Chang Li:

"Are you alright?"

Su Nan shook his head.

Meng Liqin looked at Li Jiefu: "This is the person Miss Su is looking for regardless of the danger?"

Lijief's face changed slightly.

His eyes instantly darkened a little.

The meaning of this man's words was that she had come to him on purpose.

Not by the way.

Lijeff's heart tightened.

It was like being pinched fiercely.

That emotion, with unspeakable bitterness.

He looked at Su Nan sharply.

Su Nan turned his head lightly and looked away:

"How are you doing there?"

"The people have been caught, the rest are almost under our control, we can go up first, leave some people here to search for the rest."

Meng Liqin said lightly, and Su Nan reacted lightly.

Then she looked at Li Jeff:

“Mr. Na Li, shall we go?”

Li Jeff’s face tensed, and he pursed his lips, his eyes flashing with a bit of emotion that wanted to talk and stop.

Does she know, or doesn’t she know?

Or does she already know, but pretends not to know?

Chang Li glanced at him, didn’t say anything, and walked out after Su Nan.

Lijeff withdrew his gaze, hiding the dim light in his eyes.

She didn’t know.

Otherwise, Chang Li’s face would also be exposed.

Meng Liqin looked at him and nodded, not too cordial, not hostile, faintly like looking at a stranger.

Then he also walked out.

Lijeff looked at the person lying in a pool of blood on the ground without the slightest guilt and fear.

He hid the gun back behind his waist.

Glanced calmly.

His expression was gloomy, and his eyes were fierce.

What was he afraid of the moment he shot just now?

Afraid that he will start later than Ah Yang, afraid that Ah Yang will hurt her?

Fortunately.

He solved the problem.

Even if your hands are stained with blood, he doesn’t care either.

As soon as you go out.

Just watching Xu Chen walking in front, the people under him tied up Sheng Shi’s five flowers, Sheng Shi’s face was ugly and unwilling.

“Xu Chen, our well water does not violate the river water, you deliberately retaliate against me, how did you find here?”

Xu Chen looked in a good mood, “You guess? Sheng

Shiqi couldn’t wait to jump up and kill him.

It is a pity that he is already doomed.

When I walked to this room, I watched Su Nan and Chang Li come out.

Then I saw Lijeff.

His eyes changed slightly.

“You...”

Lijeff raised his eyes and gave him a dark look.

Sheng Shi was just about to blurt out the words, but instantly held back.

Just when I looked at him, there was an unconcealable anger in my expression.

As if deceived.

“We are friends, how can you betray me? Lijeff

was silent and said nothing.

What makes Sheng Shi more angry than Jeff’s betrayal is that his hard work is about to be ruined.

He knew what he was facing when he went ashore.

His hard work has not yet fully expanded to the whole world.

He hasn’t taken the first steps in his career yet.

George’s richest man agreed to invest in him.

Giving up at this critical time means that he really has nothing and becomes a beggar!

Sheng Shi gritted his teeth in a hurry.

He couldn’t help but scold everyone present.

Meng Liqin and Xu Chen looked at clowns like clowns.

There is not the slightest anger.

A victorious posture makes the prosperous world even more angry.

Xu Chen said in a playful tone:

“Okay, scold again, the sky will be bright, can it be that you will be watched when you want to go ashore?”

He gave his men a wink.

His subordinates immediately took the prosperous world forward.

Meng Liqin has begun preparations to re-search for fish that have slipped through the net.

Xu Chen glanced at Su Nan:

“Miss Su, since someone has found it, let’s go?”

Su Nan nodded.

Without any hesitation, she lifted her foot and walked forward.

The eyes of the person in the wheelchair followed her back deeply.

Suddenly.

Sheng Shi's eyes lit up, slammed away from the people around him, and ran in the direction of the dissection room.

Xu Chen was startled, and his eyes narrowed.

Immediately after, his eyes were shocked:

"Not good, he wants to activate the destruction device and stop him!" "

Chapter 2,269 Against the current

, even the research laboratory on the shore has a backup destruction device.

Just in case, it is better to destroy the laboratory than to be robbed of the results to do something more dangerous.

But they also have rules, if it is not for the start of a war, then this device can never be activated.

He didn't expect Sheng Shi to even steal this system at first.

The entire institute is almost a replica of the laboratory on the shore.

But this destruction device alone was not in a place familiar to him.

He immediately realized that Sheng Shi intended to destroy all evidence.

In this way, no one will be able to find here in the future and see the fact that he is bloody.

Everyone instantly became vigilant.

Xu Chen was a step late, and when he entered, he saw Sheng Shi standing there with a pale but distorted face, with a wanton cruel but resentful smile on his face.

"None of you want to leave, stay here and die with me!"

He also saw Ah Yang lying on the ground.

The wound on Ah Yang's chest was particularly shocking.

That moment.

He realized that once the device was activated, he couldn't run himself.

But to die here, it is good to be taken out by Xu Chen, judged, and insulted.

How could those idiots understand his contribution to all humanity?

He stared at them with a crazy look on his face:

“You are restrained by these experiments, even if it is another two hundred years, it will not really succeed.”

If I do it, you will come and hurt me, wait, I will not let you go!”

His voice fell.

Listen to the regular ticking sounds that don't know from there.

It's like a countdown.

The scarlet in his eyes became even more obvious.

Xu Chen's face changed drastically, once the device was started, it could not be turned off.

He was not in charge of Shengshi, and immediately shouted to the people outside:

“Quickly return to the ship, inform the people on the boat to prepare to leave, there is only a minute countdown, there will be an explosion here, run...”

After

Xu Chen shouted, everyone was instantly shocked.

Meng Liqin's eyes trembled fiercely, and he immediately called back the people who were still searching:

“Withdraw, everyone withdraw immediately...”

The

scene suddenly became chaotic.

Chang Li instantly grabbed Su Nan's hand: “Miss, go...”

Su Nan also began to panic.

She immediately looked back, and her eyes instantly turned red.

But she and Lijeff were scattered by the crowd.

It has been separated by a distance of more than ten meters.

Countless people in the middle are constantly running outside.

Lijeff's wheelchair was an obstacle for them.

People passing by feel that they are in the way, and they will push to the side fiercely.

So no matter how he drives the wheelchair, it is simply impossible to squeeze out of the running crowd.

There was a bit of helplessness and despair in his eyes.

Maybe that's his life?

Die before her eyes.

You can still look at her, it's already God's favor!

But the moment his eyes met, he watched her anxiously come against the crowd.

Li Jeff's face changed drastically:

"Run, don't look back..."

he shouted loudly, almost using all his strength.

The panic in his eyes really surfaced at this moment.

He is not afraid of death.

He was afraid of her death.

But she didn't go.

Her face was anxious and frightened, and Chang Li couldn't stop the crowding of so many people behind her.

Dozens of people soon poured in like a tidal wave.

Su Nan ran to him embarrassed and grabbed his wheelchair.

That moment.

Lijeff choked up speechless.

"Su Nan..."

he shouted in a low voice.

Su Nan pushed the wheelchair and ran forward, Chang Li on the side to help.

"Don't be afraid, I'm here to take you out..."

Su Nan was still comforting him.

But in her voice, there was already a trembling look.

She herself was so scared, but she was still reassuring him not to be afraid.

Lijeff's face was stiff, and his hands were tightly gripping the handle of his wheelchair.

Can't see the emotions on your face.

He hammered his leg a few times, and his eyes were blurred.

If it weren't for his uselessness, Su Nan wouldn't have to be in danger at all.

He didn't have to change his identity so secretly.

Su Nan didn't notice his movements.

It's just that the sound coming overhead is becoming more and more obvious.

It's like a rush.

She was nervous and just knew to run behind the crowd.

I didn't notice, and a person quickly ran out behind him.

Sheng Shi's eyes chased after them coldly.

One minute.

There are not many people who can run out.

But when he looked at Su Nan pushing the wheelchair, Sheng Shi's eyes moved.

He grabbed her arm fiercely:

"Su Nan, is it you?" Did he reveal the news to you, and then you brought Xu Chen and them over?

He asked through gritted teeth.

It's hard to hide the hatred.

Su Nan desperately wanted to break free, "Get out of the way..."

But Sheng Shi was like a bereaved dog, seeing who bit whom.

There is no reason anymore.

"Chang Li..." shouted

Su Nan.

Chang Li immediately turned around, took out the gun from his waist, and slammed it against his head:

"Get out..."

Su Nan quickly ran out.

The moment Chang Li took the gun, Sheng Shi froze for a moment.

But soon.

He reacted.

Sooner or later you will die.

Is he still afraid of shooting hard?

Sheng Shi was excited and twisted and wanted to take away the gun in Chang Li's hand, but he was kicked away by Chang Li.

He fell heavily on the ground and rolled a few times.

It hurt so much that I couldn't speak.

Sheng Shi's eyes were about to pop out, and his angry face turned blue:

"Don't think about leaving!"

When Su Nan heard the voice, he shouted loudly to Chang Li behind him:

“Chang Li, go quickly, if he dares to stop him, he will kill him!”

Chang Li’s eyes were cold, looking at Sheng Shi who stood up and threw himself forward, and directly slammed.

Shot.

After cleaning up this, he turned directly to chase them.

But time passed minute by minute.

By the time they got there, the elevator had slowly risen.

Su Nan’s face turned white.

She was almost nervous and couldn’t stand still, her palms covered in cold sweat.

The surrounding swimming fish also seem to sense that danger is coming.

They hit the glass desperately.

Su Nan’s breathing couldn’t help but become rapid.

I saw that the voice was getting faster and faster.

The person in the wheelchair suddenly stretched out his hand and grabbed Su Nan’s palm.

It seemed to calm her uneasiness:

“Su Nan, don’t be afraid, you can swim, this is at the bottom of the sea, even if it really explodes, the shock wave will not be so fast and so violent.”

In a while, you have to remember, hold your breath, go up vertically, don’t care about whatever you touch, keep going upstream, and you will be safe.

He clenched Su Nan’s hand tightly.

His voice made her feel a little familiar.

She burst into tears and asked him,

“What about you?” Lijeff

opened his mouth and did not speak.

His face turned pale.

He knew he had no chance.

Chang Li behind him rushed over, his face a little silent.

He looked at Su Nan and then at Li Jeff.

Didn’t say anything, stood there.

He knew that the situation was not good.

Chapter 2, 270 Three months later

, the sound of the countdown finally stopped abruptly.

This minute is too long and too short.

In the last few seconds, the sound seemed to stretch infinitely.

Like the sound of air defense sirens, it looks dull and harsh in the melodious depths of the seabed.

Su Nan's originally nervous heart instantly calmed down.

The people she loves are all around.

Why can't you face the fear of death calmly?

How could she leave him alone and leave him?

Su Nan grabbed his hand with his other hand.

Before he could say anything, he heard a loud bang behind him.

Almost shattered the eardrums, from far and near, instantly wrapped in everything.

Hollow, indifferent.

At that moment, she seemed to be pushed by some force, and the whole person crashed out uncontrollably.

In this deep seabed, their three lives seem incomparably small.

Those fish outside the glass were quickly shaken by the strong wave, wrapped in the seawater, and were swept away and destroyed uncontrollably.

Everything around, the lights went out.

There was a moment of white light on the bottom of the sea, as fleeting as lightning.

Instantly fell into a dark color.

Accompanied by a roaring tearing sound, it was more like an earthquake on the seabed, a shattered glass boardwalk, and the remnants of debris violently slicing everything.

The sea water tumbled violently.

The air is taken away and the sea is raging.

The sound of crackling made a piercing movement, and everything in front of him collapsed and destroyed in an instant.

The suffocating feeling simply makes people have no time to adapt, and everyone loses consciousness.

But what Su Nan remembered was that the instinct of her body made her drag the man in the wheelchair.

Even if it kept sinking, suffocating, the severe pain made her unbearable.

She didn't dare to let go.

She was afraid that as soon as she let go, she would really lose the most important person.

Sheng Shi is right, in one minute, you can't run a few people.

Not even one person can run.

Because even if you leave the bottom of the sea, you can't get on the cruise.

The elevator will simply stop in the middle of the sea, torn apart and useless as the seabed explodes.

They will either drown or suffocate.

So, what's the use of running fast?

Even the cruise ship that stopped on it is not foolproof, the violent churning of the seawater, the cruise ship has long overturned ...

In the dark night.

The huge waves on the sea, the tumbling waves from the bottom of the sea to the surface of the sea, look as usual, as if nothing is different.

Not even the sound, almost nothing can be heard.

— —

Across the ocean, thousands of miles away.

Su Yifeng was sitting at home drinking tea, but suddenly his chest hurt, his face was pale, and he couldn't breathe.

Covered in cold sweat.

He suddenly had a bad idea, and immediately took the phone and called Su Nan.

As a result, no one answered.

Hit Su Qi, and Su Qi also did not answer...

Three months later.

In the research institute of the LJ Group.

Su Nan finally woke up.

Even the most advanced medical equipment and technology cannot resist the fragility of life in the face of devastating blows.

The great impact of the explosion injured her almost to the ground.

The most serious thing was that a sharp iron sheet pierced her shoulder blade and hit the back of her head hard.

As a result, she remained in a coma for three months.

As soon as she woke up, many people breathed a sigh of relief.

The main thing is that the pressure from country Z is too great.

Su Yifeng calls three times a day, and he can't wait to run over.

If it weren't for Su Jin blocking it, he would really have passed.

Su Qi stayed there to take care of him, keep abreast of Su Nan's dynamics, and take care of the children.

Hearing that she woke up, Su Qi couldn't wait to take the little friend and the little fish to LJ.

Fu Yechuan had already arrived.

In fact, it is all up to Fu Yechuan to find Su Nan.

Talk about the child excitedly holding the little fish's hand and running over.

"Third uncle, is Mommy really awake?"

Su Qi also closed his mouth happily:

"When I wake up, the third uncle can finally go home, and finally I don't have to be scolded every day."

He said excitedly.

Otherwise, Su Yifeng would call three things every day.

The first thing is to feel sorry for poor Su Nan.

The second thing scolded Su Nan when he had an accident, Su Qi was sleeping.

The third thing is to let him correct his mistakes, take care of Su Nan and talk about it there, otherwise he will not be allowed to come back.

Now that Su Nan is fine, he can be relieved immediately.

Thinking, he put the talking child on his shoulder, and then clamped the little fish under his arm and quickened his pace.

Arrived at the lounge.

Meng Liqin sat there, saying something to Meng Chen.

In this explosion, Meng Liqin was also injured, but it was a little better than Su Nan.

He doesn't have anything to burden on.

When Xiao Yuer saw Daddy and Mommy, she pounced happily.

Meng Chen went over to hug him and smile.

Su Qi walked over: "Brother Meng, sister-in-law, my sister is really awake?"

Meng Chen nodded and said with a smile:

"The third young master went in to take a look, and the doctors said that the recovery was good, since he was sober, it means that he is out of danger, and it is good to go back and take care of it."

Su Qi was overjoyed:

"Thank you, big brother and sister-in-law." "

Su Qi has been here for so long, especially if he can enter and exit freely in the LJ Group, it is completely dependent on sweetness.

Speaking of which, the children also happily learned Su Qi's words: "Thank you, big brother and sister-in-law..."

Su Qi sighed.

Xiao Yu'er immediately corrected her:

"You have to call Daddy and Mommy."

The child nodded blankly, and then showed a bright and cute smile unexpectedly:

"Thank you Daddy Mommy."

Meng Chen's heart softened, and he went over to take her off Su Qi's shoulders:

"It's so good to talk about it..."

As soon as she was put on the ground, no one could control her.

Talk about the child running straight into the ward.

Seeing Su Nan leaning against the wall, his face pale, and the strange uncle was standing there.

The room was emptied of medical equipment.

Talk about children who are not tall enough to see things in bed.

She couldn't get on her two small short legs, so she could only run to Fu Yechuan:

"Uncle hug..."

Fu Yechuan looked at this little thing helplessly, and usually ignored him, unless she asked him for it, will be pitiful to come and coquettish.

He pinched her face and held her next to Su Nan.

Talk about the child happily crawling over and hugging Su Nan:

"Mommy mommy..."

Su Nan smiled slightly, reached out and patted the child.

When you see familiar people again, there is always a wonderful feeling.

Surprise, shock, the rest of your life.

She has survived many times.

But only this time, it was close to death.

She was almost fighting the explosion in a self-inflicted way.

Yes, she wants to snatch someone back from the hands of death.

So she didn't let go until she died.

But looking at the people coming and going at the door, there was no him.

That bad feeling loomed over her, and she didn't even dare to ask.
