Divorce billionaire heiress chapter 2627-The other side of the monitoring found that when the waiter was walking in front, he almost fell because of the instability of the wine glass. He moved the position of the wine glass, but Shen Jie didn't know his little move.

The test results came out overnight.

Poisoning by potassium cyanide.

The ingredients are the same as those in the small bottle that Shen Jie is carrying.

Shen Jie intentionally wanted to harm someone, but was killed instead.

She may not understand exactly which link has gone wrong.

Why was she the one who died?

The police checked the surveillance overnight and found that the small bottle fell from the eldest aunt of the Ning family.

He followed the clues and arrested him.

The eldest aunt confessed all this without omission, saying that she was threatened by someone, and she couldn't go if she didn't go.

But she didn't want to harm anyone, so she took the opportunity of falling and threw away the bottle of medicine.

Unexpectedly, Shen Jie did not give up and did it by herself.

The police frowned slightly, "Is there any evidence?"

"Yes."

The aunt called Ning Zhenzhen over, "Comrade police, tell the truth if you ask you, don't be afraid!"

Ning Zhenzhen nodded and took out the cell phone.

Released all the conversations she had with Shen Jie in the car.

“She forced me with my parents’ lives. I spent a lot of money to buy that ticket. Our family is related to Mrs. Fu. Although we don’t have much contact with each other, we don’t want to kill anyone!”

Ning Zhenzhen Crying hysterically, “Comrade policeman, I have said everything I need to say, and I have nothing to hide.”

The policeman heard other things from the conversation.

“Have you ever hurt Mrs. Fu before?”

“Hmph, didn’t you almost kill Ning Yue yourself? How did you forget so quickly?”

It was Shen Jie’s words.

The audio has not been edited to avoid suspicion.

Ning Zhenzhen took a deep breath, lowered her head and admitted, “Shen Jie forced me to do that, but I admitted it to my sister, and I was wrong. They have forgiven me.”

The policeman paused, nodded ” We will check this matter with Mr. Fu and Mrs. Fu.”

All the evidence pointed the finger at the deceased Shen Jie.

Moreover, from her consumption records, she found a consumption from abroad.

It should be the cost of buying this bottle of potassium cyanide.

It was from a chemical laboratory abroad.

From her chat records, I saw conversations where she asked how much medicine to use to make people die immediately.

This further proves the fact that Shen Jie bought medicine to kill people.

that night.

Fu Yechuan took Ning Yue back.

to the door.

Neither of them got out of the car.

Fu Yechuan looked at her quietly, “Are you scared?”

Ning Yue pursed her lips and nodded, "This is the first time I saw a person die in front of my eyes. Comfortable, there is a feeling of nausea and nausea."

Fu Yechuan touched her hair, and said softly, "It's all over, Ning Yue, no one will bother you or us in the future."

Ning Yue nodded with sore eyes

"It's her own fault. I have nothing to fear, but this method is too tragic and dangerous.

Fu Yechuan, don't take any more risks in the future, okay?"

Fu Yechuan lowered his eyes and nodded.

"Okay."

That's how he ended it all.

If she went through the normal channels, all Shen Jie did was to instigate crimes, and she would come out after staying for a few years, and she would still be ruthless.

In this way, he will definitely and forever eliminate future troubles.

He has no regrets.

It was Shen Jie's own fault.

From the very beginning, she was the one who instigated Su Yinian to find Ning Yue's troubles, and she was also the one who made full preparations for Su Yinian.

All of this was because she wanted to leave Su Yinian.

She raised a little boy, and she was really moved, and naively wanted to use Su Yinian's money to live with the boy.

But without getting rid of Su Yinian, how could his property fall into her hands?

And so it all started.

Now, life is on the line, and I can't spend a penny.

The police quickly closed the matter.

When Su Yinian knew about this, he just twitched his lips.

No extra expressions.

I'm afraid that for this wife, it's just a decoration that looks like a normal person.

As for feelings, how much can he have?

From then on, the Ning family became completely honest. Ning Zhenzhen left the country and never wanted to come back.

Fu Yechuan told her the plan at the beginning.

Warn her that if a word of the plan is revealed, she will end up like Shen Jie.

She saw how cruel this man was.

No more wishful thinking.

Fu Yechuan's plan was meticulous and detailed, and there was no mistake in any link.

Even if it's the person who got drunk and knocked down the Ning family's aunt, even if it's the young waiter who just joined the workplace.

They are the most precise and important link.

This is the last time he makes an exception. He wants to live a good life, like Shang Qian, to wash away the obscurity and difficulty of the first half of his life, and to be an upright person.

He really envied Shang Qian for a long time!

He also found the person who can be with him for a lifetime.

When Su Yinian was sentenced, Ning Yue also went.

As a result, when Ning Zhi was about to forcefully give birth, Su Qi burst into tears.

"It hurts to death, my wife is going to die from pain!"

The doctor looked at Su Qi helplessly, and helplessly asked the nurse to persuade him to go out, "Your presence here will affect the mood of the parturient, she is originally strong, I got angry at being patronized by you."

Su Qi stood beside him, holding Ning Zhi's hand, crying with tears streaming down his face, "No, I won't leave, I want to stay with my wife, I don't want that little bastard Now, I want my wife, woo woo woo..."

Ning Zhi took a deep breath, stared at him coldly, and shouted to him with all his strength, "Shut up!"

Su Qi took a deep breath Nose, his clear face was somewhat embarrassed.

Ning Zhi couldn't help but rolled his eyes, "Get out, you're crying louder than me, are you trying to scare my son?"

Su Qi paused, pouted, and looked at her with nostalgia, "Then Can't I stop crying?"

Ning Zhi turned his face away and said, "Go away!"

Su Qi couldn't help but shed tears beside him, crying uncontrollably and miserably.

Su Yifeng, who was outside, was upset when he heard it, and couldn't help but stood up and shouted, "You little bastard, get out of here, don't make such a noise, I know, you scared my grandson, crying worse than a ghost, Did you give birth to the child or did you give birth?"

Su Yifeng's words were still idiomatic.

Su Qi stopped crying after a while.

Shang Qian and Su Nan looked at each other, expressing helplessness.

She lowered her head and touched her protruding belly, her brows and eyes were tender and bright.

Spring is coming, and the future is bright.

She was the most fulfilled in her life.
