

Dont mess 411

Chapter: 411

Everyone in the Bai family had actually invited a lot of famous doctors to see Mr. Bai, but most of the famous doctors came back in despair.

Bai Yutang is the biggest competitor of Magnolia's fight for the position of Patriarch, and his biggest competitor is Magnolia, so at this time he looked at Yu Sheng, his eyes were naturally a bit hostile. Magnolia frowned slightly and said, "Brother, Master Yu is really amazing. Some time ago, I had a bad fortune, and I almost lost my life. It was Master Yu who helped me reverse the fortune, and everything around me changed. It went smoothly. Master Yu's method is simply amazing."

Bai Yutang sneered and said with disdain: "Sister Magnolia, to treat grandpa, you need a genius doctor, not a genius stick. Those so-called feng shui masters are all sages, but in fact they don't have the skill to fart. Well, it can only deceive some unfamiliar fools."

What he said was a pun, which made Magnolia's face very unsightly.

On the one hand, Yu Sheng is said to be a liar, but on the other hand, she insinuates that Magnolia is unfamiliar and does not deserve to compete with him for the position of the heir of the family.

Of course, Magnolia could hear what he meant, and she immediately said displeased: "Brother, you can disbelieve some things, but you can't disrespect them."

Bai Yutang coldly snorted: "Respect? It depends on who it is? I only respect those who have real knowledge in Bai Yutang's life. He doesn't deserve my respect for those pretending things, and I don't dismiss it."

After all, he pointed to the old man beside him, and said with a proud face: "This is the famous genius Zhu Qingshan and his granddaughter Zhu Xiaoshu. They are the masters I respect."

Yu Sheng heard the words and looked at it, and the two people, one old and the other young, were indeed like a pair of grandparents.

However, the dressing of the two is somewhat different from that of ordinary people.

The old man is over sixty years old, wearing a green shirt and long gown, wearing a pair of reading glasses, and a long white beard.

And the girl next to him, 18 or 9 years old, wearing loose student cheongsam, short hair with bangs, bright eyes and bright teeth, exuding a cold and glamorous breath back to ancient times.

But the appearance of this girl made Yu Sheng take a few more glances.

Magnolia's appearance is also amazing, but the girl's appearance is not at all inferior to Magnolia.

Moreover, compared to the strong woman Bai Magnolia, the girl's eyes were a bit sharper and more arrogant than her, and it seemed that it was not easy to get close.

Seeing Yu Sheng looking over, Zhu Qingshan nodded slightly, but Zhu Xiaoshu looked at Yu Sheng without even looking at it, very cold and arrogant.

At this time, Bai Yutang glanced at Yu Sheng, and said: "Little Magnolia, the person you invited is only twenty-four or five years old. I guess he still doesn't fully recite theories such as the Five Elements, Eight Diagrams, Yin Yang, Wen Han, etc. To be a master, this is to let others know that our family has hired a magic stick to treat grandpa. It is estimated that the entire upper-class society in the capital will laugh at our Bai family. In their eyes, our family members have no eyes and are happy and generous. "

He used guns and sticks both inside and outside of his words, and the target was directly for the rest of his life, which made Yusheng also a little unhappy.

But he is not angry, Bai Yutang is ignorant, he will not learn Bai Yutang so mentally retarded.

Magnolia's angry complexion turned red, and it would happen when she wanted to. At this time, Bai Yutang pretended not to see the anger on Magnolia's face, turned to Zhu Qingshan and said, "Doctor Zhu, I'm sorry, this is my cousin. Sensible, I made you laugh."

Seeing that Yu Sheng had been calm, Zhu Qingshan couldn't help but glance at Yu Sheng and said:

"Being young does not mean that you are not capable. My granddaughter is only 18 years old, but she has already learned the old man's medical skills by 70% to 80%. With time, it must be blue, so I feel that Young Master Bai doesn't have to doubt this little brother Yu."

As soon as his voice fell, Yu Sheng and the rest of the people looked at him with admiration.

Chapter: 412

Especially Yu Sheng, in today's formation, because of the special relationship between Bai Yulan and Bai Yutang, it is obvious that he and Zhu Qingshan are on opposite sides.

But what surprised him was that this Zhu Qingshan helped him speak, but whether Zhu Qingshan is truly unparalleled in medicine is worthy of respect.

"I wish the genius doctor, you know something, my sister is young and ignorant, she is in a hurry to go to the doctor, and is always deceived by others." Bai Yutang said hurriedly.

"Brother, what do you mean by this?" Bai Yulan's face was very ugly, she was really angry.

Bai Yutang looked back at Bai Yulan and said with a smile: "Sister Yulan, you were just deceived by a Taoist priest from Dragon Tiger Mountain a few days ago. Brother, there is no nonsense."

"You..." Magnolia was suddenly speechless, her face a little uncontrollable.

The matter of 'Master Lai' was the biggest mistake and failure in her life. She didn't think of her wise life, but she was fooled by a big liar. If the rest of her life hadn't helped her, she would be in bad luck.

However, Bai Yutang obviously didn't know what Yu Sheng was capable of, so he dared to speak up in front of Yu Sheng.

"Boy, I don't know how you lied to my little sister, but you want to lie to my Bai family, but you are not.

This old Zhu, three generations of genius doctors, if you know, you'd better dare leave quickly, otherwise it will be revealed in a while, I'm afraid you won't be able to finish eating and walking around." Bai Yutang looked at Yu Sheng and threatened.

No matter if Yu Sheng is really capable, he can't let Yu Sheng help Old Man Bai treat his illness, he can't and will not let Magnolia take even a trace of credit in this matter.

Bai Yulan's face was ugly to the extreme, she didn't think her cousin could be so unreasonable.

She finally invited Master Yu. If Master Yu was offended to death, it would be impossible to help her grandfather.

She already had a kind of almost adoring trust for the rest of her life.

Not to mention anything else, before Yu Sheng only said that he knew a little about Feng Shui Xuan Dan, but he was a hidden Feng Shui master, and Yu Sheng also told her that he knew a little about medicine.

She believed that this was just Yu Sheng's humble statement.

But she couldn't find words to refute Bai Yutang for a while.

What surprised her a little was that for the rest of her life, she didn't feel angry or angered because of it.

For the rest of his life at this time, he was very calm, and said with a smile: "Nothing, a small person like me, just watch and observe by the side, and will never disturb the genius doctor."

Hearing what Yu Sheng said, Bai Yutang finally snorted coldly and said, "Boy, count you as interesting."

Then I'm not embarrassed for the rest of my life.

Magnolia was very sorry.

She suddenly thought of the same situation that day. Zhang Shengquan repeatedly emphasized that Yu Sheng was a real master of Feng Shui metaphysics, but she was blinded by the villain and only believed in the villain. In the end, not only was the villain deceived, it was also a critical moment for Master Yu. Regardless of the premonitions, he did not fall into a dead end.

At this moment, what a resemblance to the beginning!

Although she felt sad, she was relieved to see that Bai Yutang was not targeting Yu Sheng.

It's a big deal to wait for this genius doctor to help his grandfather see it first.

"Yutang, Magnolia, come up soon, your grandfather is going to die soon!"

At this moment, a middle-aged man appeared at the top of the stairs on the second floor with a look of worry and shouted to the two downstairs.

"Where is the old man Bai, take me to see." Zhu Qingshan asked.

"On the second floor, please also wish the genius doctor come up." The middle-aged man said.

Upon hearing this, Bai Yutang hurriedly took Zhu Qingshan and Zhu Xiaoshu to the second floor.

Magnolia also called Yu Sheng together, and everyone went up the stairs one after another.

Chapter: 413

The second floor was also very spacious. When everyone came to a luxurious and classical room, they saw a dying old man lying on a big bed made of huanghuali wood.

The old man's face was haggard, his face was gray, his brows were tightly furrowed, and he seemed to be enduring great pain.

Zhu Qingshan inspected it and said, "Lao Bai is in serious condition. Please allow me and my granddaughter to treat Bai Lao."

Bai Yutang hurriedly said, "I wish you old man, please do it."

Zhu Qingshan nodded, checked Bai Lao's condition again, and instructed his granddaughter Zhu Xiaoshu to treat Bai Lao.

Zhu Xiaoshu took out a pair of silver needles from the medicine box, after sterilization, took the silver needles and inserted them in the acupuncture points pointed by her grandfather.

Everyone in the Bai family looked quietly at Zhu Xiaoshu's injection.

Yu Sheng also looked at Zhu Xiaoshu curiously, and he was a little surprised by the girl's methods.

Bai Xiaoshu's needle injection technique is very mature, even older than the traditional Chinese medicine technique that has been practiced for 20 or 30 years. It is no wonder that everyone in the Bai family rests assured that she can give the old man an injection at such a young age.

Zhu Xiaoshu understands the acupuncture technique, and his appearance is indeed good, not only the appearance is pure and beautiful, but also the heroic spirit is hidden between the eyebrows, and the temperament is extraordinary.

This comes from her inner self-confidence.

Yu Sheng looked at Zhu Xiaoshu's needle application technique and found that Zhu Xiaoshu had already learned to apply a trace of internal energy to needles, which is also very rare in Chinese medicine.

At least, most Chinese medicine practitioners will not.

Of course, this is also related to the fact that most Chinese medicine practitioners do not know martial arts.

In modern society, martial arts has long since fallen, and those who can still practice martial arts are either from the ancestors, or are true martial arts lovers, or a few people will learn martial arts.

Besides, as an ordinary person, there is no place to learn if you want to learn.

The big martial arts schools like Shaolin and Wudang are not accessible to ordinary people. Surprised to surprise, but Yu Sheng discovered that Zhu Xiaoshu had just mastered this trick, and could not even transfer the inner strength she gave the silver needle to the patient's body. This is the most critical step.

Only by successfully transferring the internal force endowed to the silver needle to the patient can there be a miraculous effect with half the effort.

Half an hour later, after the injection was completed, the Bai family hurriedly served tea and thanked them: "The two genius doctors have worked hard, let's have a cup of tea first."

As the middle-aged man said, a woman personally brought two cups of hot tea to Zhu Qingshan and Zhu Xiaoshu's grandparents.

As for the rest of his life, he was automatically ignored by the Bai family.

Both Zhu Qingshan and grandchildren are indeed a little tired. This method of applying acupuncture is extremely labor-intensive, but Zhu Xiaoshu's internal strength is average, so when a set of needles is applied, his forehead is also slightly sweaty.

The two picked up their tea cups and took a sip, and everyone saw that there was a rosy look on Bai Lao's originally dead gray face at this time, and his complexion improved a lot.

Everyone in the Bai family was a little excited, I wish the genius doctor is indeed a genius doctor! Even the white Magnolia was a surprise on her face, and she couldn't admire Zhu Qingshan's grandfather and grandson.

But at this time, Zhu Xiaoshu gave Yu Sheng a provocative look, and said, let's take a look, this lady is the real genius doctor, so don't be embarrassed.

Seeing Zhu Xiaoshu's provocative eyes, Yu Sheng just smiled, and didn't make sense.

Zhu Xiaoshu has such an achievement at his age, which really surprised him, but in his eyes, it was just average.

The Jiu Xuan Tian Jing is a strange book of ancient times. The martial arts, Feng Shui Xuan Shui, and alchemy that it contains are beyond ordinary people's comprehension, so Zhu Xiaoshu or Zhu Qingshan's techniques are just like that in his eyes. .

In the eyes of ordinary people, it's really awesome, but in front of a real expert like him, it's not enough. The rest of his life couldn't be more serious with Zhu Xiaoshu, he turned his head to look at the old man, but his brows were slightly frowned.

After Zhu Xiaoshu's injection, Bai Lao's situation seemed to have improved, but that was only superficial. For the rest of his life, he only looked at his eyes more and found that Bai Lao had old wounds in his body, his muscles and veins had been destroyed, and there was blood deficiency, and many organs had begun to fail.

In other words, on the surface, Bai Lao's complexion is rosy and he is getting better, but in fact, he only suppressed the deficiency. After a day or two, he will have to relapse. Once the time comes, it will be the end, and the gods are also not. Way out.

The so-called genius doctor can only last for one or two days for Mr. Bai.

"Don't be happy. Bai Lao's disease is only temporarily relieved, and it will relapse tomorrow and the day after tomorrow, and once it recurs, it will be bloody, and there will be no recovery." Yu Sheng thought for a while and said.

As soon as his voice fell, everyone looked at him impressively, with dissatisfaction and even anger in their eyes.

“What the fuck are you talking about?”

Bai Yutang was the first to get into trouble and shouted angrily: “Boy, do you dare to curse my grandfather, I will kill you today!”

The middle-aged man and several other Bai family members also looked at Yu Sheng with an angry expression, only thinking that this kid didn’t know what was good or bad, and he was talking nonsense. Bai Yulan frowned and stopped Bai Yutang and said, “Brother, don’t be foolish, I believe Master Yu, you wait for Master Yu to finish speaking first.”

“Hu Hong?”

Bai Yutang was very angry, and said angrily: “Do you have any problems with your eyes? Did you see that Grandpa Zhu’s face was ruddy after seeing the doctor Zhu administered the injections to Grandpa?”

Bai Yulan still had to argue with Bai Yutang, but Yu Sheng reached out and stopped her.

Yu Sheng looked at Zhu Qingshan and said with a slight smile: “I wish the genius doctor, you can check on Mr. Bai again and see what is going on with Mr. Bai now.”

Zhu Qingshan frowned. He felt Yu Sheng’s contempt for him, and he suddenly felt a little unhappy.

“Smelly boy, do you dare to question the genius doctor? If you dare to speak wildly, don’t blame Lao Tzu for blasting you out!” Bai Yutang pointed to Yu Sheng and shouted angrily.

I wish the genius doctor, but he personally invited him, and he has to rely on this matter to perform well in front of grandpa, so that grandpa can finally change his mind and let him inherit the position of the head of the family.

This kid has been doing bad things over and over again, it’s just looking for death!

“Why, do you wish the genius doctor dare not check it?”

Yu Sheng smiled and said, “Then I’ll tell you the current situation of Mr. Bai. First of all, Mr. Bai has an old injury in his body, and his veins and veins have not recovered originally, but now he is almost broken.

Secondly, Bai Lao is now suffering from kidney failure, cirrhosis of the liver, and at least two-thirds of his lungs rotten. If his kidneys, liver, and lungs cannot be regenerated, he will die within two days.

Finally, under your rescue, his qi and blood have turned a bit, but it is only temporary. Your acupuncture method is normal, and the effect of the silver needle is only normal. After half an hour, the silver needle effect dissipates. , Bai Lao must reply as it is, even more serious. ”

“Nonsense!”

“Nonsense!”

It was Bai Yutang and Zhu Xiaoshu who were talking and scolding. Both of them looked at Yu Sheng with an angry expression, and both felt that Yu Sheng was talking nonsense and talking nonsense.

For the rest of his life, the two were unreasonable, and looked at Zhu Qingshan with the same smile on his face.

At this moment, Zhu Qingshan looked at Yu Sheng with horror, his eyes were full of disbelief, Yu Sheng was all right, and he could see it all.

As a well-known genius doctor in Shangjing, he certainly didn’t seem so unbearable on the surface.

Zhu Qingshan is still very strong. He knows what Yu Sheng said, but he has no way of doing it. He is injured now and can’t apply the needle himself, so this family-herited silver needle was applied in the hands of his granddaughter. The effect must be greatly reduced.

If he administered the needle himself, it would last at least one or two months for Master Bai.

But his granddaughter hadn’t learned Huohou after all, and it could only last for a day or two.

Zhu Qingshan looked at Yu Sheng and was very puzzled. A medical skill like Yu Sheng was at least at the

same level as him. It shouldn't be obscured.

But why haven't I heard of him?

Moreover, at such a young age, with such advanced medical skills, I am afraid that his teacher is even more shocking?

"Smelly boy, I order you to apologize to my grandfather immediately, otherwise I will not forgive you!"

Zhu Xiaoshu was angry, pointing at Yu Sheng and yelling.

Yu Sheng looked at Zhu Xiaoshu with an angry look, and said that this chick was quite old, she was only eighteen years old, and she looked mature, but unfortunately, she was still a little tender.

Bai Yutang also yelled: "Xiao Yi San, I heard that there is no such thing, I hope the little genius doctor will make you apologize, otherwise don't blame Lao Tzu for being rude to you!"

"Idiot." Yu Sheng glanced at Bai Yutang, disdainfully said.

"You, what the hell did you say? There is a kind of you say it again?" Bai Yutang suddenly exploded, pointing to Yu Sheng to go crazy.

At this moment, Zhu Qingshan finally said: "Doctor Yu is right. The old man Bai is indeed in a serious condition, and his internal organs are exhausted, and he will not survive for two days."

"what?"

When the Bai family heard it, all their hearts trembled, like being struck by lightning!

Chapter: 415

"I wish the genius doctor, you have made some mistakes, you are the genius doctor!" Bai Yutang looked at Zhu Qingshan incredulously as he was shocked.

The rest of the Bai family also looked incredulous. ,

Zhu Qingshan has a great reputation in Shangjing, saying that he is a real genius doctor. If he said this, is it really bad for the old man?

Zhu Qingshan looked at Bai Yutang and said, "Lao Bai has a serious old illness, and he has not received effective treatment for a long time, which has caused the current situation of being unable to recover."

After a pause, he sighed and said: "If I don't have the injury, I can let Bai Lao live a few more months, but now I am also seriously injured, and I have not recovered. This set of Sanyang Acupuncture is not too proficient, so I can only extend his life for Old Bai for two days."

The middle-aged man was shocked and asked, "Good luck, how can I save my father?"

The middle-aged man is called Bai Xuehai, Bai Yutang's relatives, and Bai Yulan's second uncle.

"It's difficult."

Zhu Qingshan sighed and said, "If you want to cure Bai Lao's old disease, you will only have a chance if you want to cure Bai Lao's old disease, unless you have a panacea or a genius doctor who is better than the old man. The doctor's knowledge in Chinese medicine can surpass that of Zhu."

Everyone in the Bai family sighed, disappointed in their hearts.

They also know that Zhu Qingshan is bragging, especially in the Chinese medical field, let alone the entire China, there is no one better than Zhu Qingshan on the entire earth.

Western medicine can't cure it, and Zhu Qingshan, the leading Chinese medicine doctor, can't cure it either. It seems that the old lady is really saved.

"That's not necessarily." Yu Sheng smiled faintly.

Bai Yutang stared at Yu Sheng with horizontal eyebrows and vertical eyes, and said angrily: "Boy, don't interrupt, there is no place for you to interrupt here!"

Zhu Qingshan's eyes lit up, looking at Yu Sheng, and wondering if this young man really has a way?

He was able to see the symptoms of Bai Lao just now, which shows that his medical skills are indeed not weak, especially the attainments of this 'wang' word tactics are very high, much stronger than his granddaughter.

It's just that he really didn't believe it. Yu Sheng seemed to be in his twenties. At such a young age, it was really hard for him to imagine how his medical skills would be so high.

Especially Chinese medicine.

"Second Uncle, I decided to let Grandpa Yu show it to Grandpa." Bai Yulan looked at Bai Xuehai with a firm attitude.

Bai Xuehai glanced at Yu Sheng, and couldn't help but hesitate because he didn't believe that Yu Sheng was really a doctor.

"Dad, this kid looks like a liar. The little girl was lied to once. This time I was probably lied to. You can't let this liar blaspheme grandfather." Bai Yutang said hurriedly.

Bai Xuehai nodded, and when he was about to refuse, he heard Zhu Qingshan say: "Grandmaster Bai, I don't think there is anything for this little brother to try. Maybe, this little brother is a hidden doctor, but Bai Lao was saved because of it. ."

Bai Xuehai thought for a while, nodded and said, "Okay, I wish the genius doctor said something reasonable."

Anyway, that's the case with my father, so let's be a dead horse doctor.

At this moment, Bai Xuehai had this idea.

It would be great if Yu Sheng could surprise them. If Yu Sheng was really a liar, there would be no loss.

If his father's illness cannot be cured, don't even think about cheating a penny out of his family for the rest of his life.

Don't even think about a meal of tea.

"Master Yu, please save my grandpa!" Bai Yulan saluted Yu Sheng with a sincere attitude.

Yu Sheng nodded, walked to Elder Bai, made a move, and immediately waved with him. All the silver needles Zhu Xiaoshu had inserted into Elder Bai flew into his hands.

Seeing this scene, everyone present showed a touch of surprise.

Especially Zhu Qingshan's eyes are shining brightly.

Yu Sheng's technique of narrowing the needle is more skillful and clever than him!

Next, Yu Sheng quickly disinfected the silver needle, and then prescribed the injection to Old Bai.

Seeing Yu Sheng's method of inserting the silver needle, Zhu Qingshan and Zhu Xiaoshu were dumbfounded on the spot.

Especially Zhu Xiaoshu, was even more angry on the spot...

Chapter: 416

At this time Yu Sheng did not lift his head, and the silver needle in his hand was flying.

As soon as he shot, the silver needle quickly inserted into Bai Lao Juque, Guan Yuan, Shaoyang and other large acupuncture points, and at the same time, supplemented with a little internal energy and zhenqi, it penetrated into Bai Lao's body through the silver needle.

And at this moment, Zhu Xiaoshu suddenly disdainfully said: "It's really shameless, I would like to steal the teacher and I would like to use the Sanyang Needle Method!"

In Zhu Xiaoshu's view, Yu Sheng just saw her giving the needle and learned it secretly, which made her very angry.

Zhu Xiaoshu became more angry the more he thought about it, and he would go up and pull the rest of

his life back and teach him a profound lesson.

However, Zhu Qingshan's expression changed, he grabbed her, and whispered: "Don't be foolish, let's take a look at his injection technique first."

Zhu Xiaoshu was not convinced: "Grandpa, I don't have any scams. This bastard thing is to secretly learn the Sanyang Acupuncture method from my family. It must have just been learned by seeing me applying acupuncture. I must teach him a lesson so that he won't go out and pretend. Broken the reputation of your Zhu Family!"

Zhu Qingshan sighed and said, "Xiaoshu, have you discovered that the technique is much better than yours? Also, the stitch he used looks like our Zhu's Sanyang Needle, but it is actually it is several times better than our Zhujia's Sanyang Acupuncture Method. Look carefully at the details of his acupuncture method and the sequence of acupuncture points..."

Zhu Xiaoshu frowned. Although she was still upset, she did not dare to violate her grandfather, so she had to put away her mind and watch the injection for the rest of her life.

Looking at it, Zhu Xiaoshu opened his mouth.

She has studied Chinese medicine with her grandfather for more than ten years, and has also studied the method of silver needles for five years, and she is quite familiar with silver needles.

Only then did she discover that Yu Sheng's needle method was indeed exactly what her grandfather said, like their family's Sanyang Needle Method, but she could feel that this needle method was much more advanced than their family's Sanyang Needle Method.

Even, a bold idea arose in her heart, Yu Sheng's set of needles is probably an upgraded version of her family's Sanyang needles!

But how is this possible, this is obviously so young, how can it be possible to have acupuncture methods that are more sophisticated than my own Sanyang Acupuncture Method!

"Grandpa, what's going on? How could he be your jerk!" Zhu Xiaoshu looked at Zhu Qingshan and asked in shock.

Zhu Qingshan nodded, then shook his head again, and said, "It was my grandfather before. I missed it. I didn't expect this little brother to be a doctor and martial artist. Look at the silver needle in his hand, there is still no acupuncture point inserted. , There is a buzzing resonance on the needle tip. This is the extreme application of the internal energy real qi. Only when the internal energy real qi is applied to the extreme on the needle tip can it be possible to transmit his own internal energy real qi to the patient. In the body, it has a multiplier effect with half the effort.

In addition, this little brother has a stable technique, even internal aspirations, continuous invigoration, and strong internal energy. Even if he is not a martial arts master, he is not far from the martial arts master. Grandpa is far inferior to him whether it is medical skills or martial arts! "

Hearing Zhu Qingshan's words, not only Zhu Xiaoshu's jaw almost fell off, but Bai Xuehai and others couldn't believe it.

As one of the big families in Shangjing, they certainly know what the martial arts master is talking about. He himself is a martial arts master.

That is to say, because he is the master of martial arts, the status of the Bai family has always been very high. Apart from those behemoths, there are almost no families who dare to oppose his Bai family. It's really surprising to think that this young man who looks inconspicuous in front of him is also a martial arts master!

Zhu Xiaoshu was very unconvinced and said, "Grandpa, you have to believe me. In time, I hope Xiaoshu must surpass him and defeat him!"

Zhu Qingshan smiled, his granddaughter is more temperamental and never admit defeat.

This is a good thing, but it is also a bad thing.

Gang is easy to break, my grandson is a bit too rigid, I hope I can find a real son who can really surrender her in the future.

However, he pretended to teach: "Xiao Shu, respect Master Yu a little. Master Yu's needlework is the second half of my Zhu Family's lost. I want Master Yu to teach you this second half of needlework. You It is best to worship him as a teacher."

"What, what?"

Zhu Xiaoshu's eyes widened, and he looked at Zhu Qingshan with some slurs: "Grandpa, you actually want me to worship him as a teacher?"

Chapter: 417

Zhu Xiaoshu looked at Yu Sheng and looked at his confident and relaxed look, making him even more unconvinced.

It is impossible for her to worship an arrogant boy who is not a few years older than herself as a teacher. Even if he is really powerful, it is impossible to worship him as a teacher!

How else can you beat him in the future?

At this moment, Yu Sheng finished inserting the last silver needle, got up and clapped his hands, and said, "In ten minutes, Old Bai will wake up."

Magnolia was happy and hurriedly asked, "Master Yu, is there anything going on after Grandpa wakes up this time?"

Yu Sheng shook his head and said, "How is it possible that this set of Sanyang Needle Method can only last him for a year. To cure his old disease and restore vitality to his internal organs, he also needs special medicine. But that medicine is not an elixir. After all, Bai Lao is old, and my medicine will only allow him to live another five years. After five years, his vitality will be extinct, and Daluo God will not be able to save him."

Bai Yutang disdainfully said: "You are just farting. The doctor Zhu just said that even if he takes action, my grandfather will not live for a few months, but you are not ashamed. Bragging in front of the doctor Zhu is tantamount to making an axe. Yi Xiao is generous."

As soon as his words fell, Zhu Qingshan got up and saluted Yu Sheng, and said politely: "In the next Zhu Qingshan, I was blind before, and I didn't even find that Yu's medical skills are so good. Zhu is really admired!"

He was sincere and didn't look like a fake, which made Bai Yutang's face hot, as if Zhu Qingshan had suddenly slapped a few times.

This face hit him loudly.

Yu Sheng smiled faintly, but Bai Yutang, who was slapped in the face, was very upset, and said coldly:

"Huh, don't be proud, you said my grandpa can wake up within ten minutes, if you can't wake up, Ben Shaowei is you ask!"

Yu Sheng gave Bai Yutang a faint look and said, "You want to target me, but you are still a little tender. I didn't want to care about you before. That's because in my eyes, you are a rubbish."

After being insulted by Bai Yutang many times, Yu Sheng was also a little angry.

"Boy, dare to scold me for rubbish, you are looking for death!" Bai Yutang yelled and slapped Yu Sheng over the face.

He has been learning martial arts since he was a child, and cultivated his internal strength at the age of

ten. He has extraordinary strength. For the rest of his life, a big liar, dare to call him rubbish. Isn't this looking for death?

"Yutang, don't be humiliated!" Bai Xuehai yelled when he saw this. From the process of administering the acupuncture for the rest of his life, he of course had seen that Yusheng was very strong, and he might even have reached the realm of the master, of course not. Bai Yutang is the enemy.

But he wanted to stop it, it was too late.

"I'm looking for death?"

Yu Sheng smiled, grabbed Bai Yutang's wrist, raised his other hand and slapped Bai Yutang's face with a slap, sneered: "Who is looking for death?"

"You, Lao Tzu is going to kill you!" Bai Yutang was extremely angry. Since childhood, no one had slapped him. Yu Sheng actually slapped him in public, which made him lose his face. If you don't kill Yu Sheng today, he Hard to calm the anger and shame in my heart!

"kill me?"

Yu Sheng raised his hand and slapped it again, and said with disdain: "You are a trash thing, you dare to threaten to kill me?"

Bai Yutang vomited blood, he used the force of feeding, but he couldn't get rid of the palm of his hand for the rest of his life. He was about to fight back, and a sharp pain in his wrist suddenly let his condensed internal strength vent. At this moment, he was in Yu Sheng's hands, weaker than a chicken. Bai Yutang breathed fire in his eyes and slapped his face for the rest of his life. His strength was not small. His eardrums rustled and the corners of his mouth were bleeding. If possible, he really wanted to kill him for the rest of his life!

"Master Yu, the child is ignorant, I don't know that Master Yu is a master of martial arts, and I also ask Master Yu to look at him as a waste and don't care about him."

Bai Xuehai gave Yu Sheng a deep fist. He was already convinced that Yu Sheng was the master of martial arts, otherwise he could not be so powerful.

The aura that radiated from Yu Sheng actually made him, the martial arts master, feel a little palpitating. But Bai Xuehai's words shocked everyone, and they couldn't believe it.

Especially Bai Yutang's eyes were dull and scared to the extreme.

Chapter: 418

How dare he insult a martial arts master?

Isn't this looking for death?

Bai Yutang didn't doubt his father's words at all. After all, his father was a martial arts master.

Moreover, at this moment, he finally understood why Yu Sheng just grabbed one of his wrists and didn't really hold his fate. He just couldn't afford even a trace of internal energy.

Apart from the martial arts master, who else has such magical methods?

At this moment, Zhu Xiaoshu, who was not convinced just now, also opened his mouth wide, regretting it in his heart.

Before her grandfather said that Yu Sheng might be a martial arts master, she still didn't believe it, but at this time, Bai Xuehai, the martial arts master, personally broke Yu Sheng's strength. If she didn't believe it anymore, she would be a fool!

And Yu Sheng has indeed broken through the realm of the martial arts master, this is also his confidence to come to Beijing.

In the past few days, he had eaten a lot of Xiao Pei Yuan Dan, coupled with his comprehension of a set of

exercises in the Nine Profound Heaven Scriptures, his internal strength has greatly increased, and he has broken through to a realm that countless martial artists can't break through in a lifetime.

"Master Yu, I'm sorry, I have no eyes, and I don't know the identity of the master, but the master should not care about me as a small person, and let me as a fart!" Bai Yutang is not stupid, and hastily bowed his head to apologize.

Now that he knows that Yu Sheng is the master of martial arts, he has to fight Yu Sheng to the end, that is really stupid.

Yu Sheng snorted coldly. With his current identity, there is no need to compete with Bai Yutang all the time.

He let go of Bai Yutang's hand, Bai Yutang felt the invisible pressure in his heart finally dissipated, and once again apologized to Yu Sheng.

For the rest of his life, he was too lazy to talk to him.

At this moment, Zhu Qingshan asked again: "Master Yu, dare to ask if the acupuncture method you just performed is the Sanyang Needle Method?"

"good."

Yu Sheng looked at Zhu Qingshan and knew what he wanted to ask, so he said, "The set of needles that your granddaughter just performed is also called Sanyang Needle, but she can only use the upper half, so it has no effect."

Zhu Qingshan was shocked and hurriedly said: "Yes, this three-yang needle method was originally the ancestral needle method of our Zhu family, but unfortunately there is only the upper half now, and the lower half has been lost a thousand years ago. It's a blessing to think of seeing it again in Master Yu's hands today!"

Yu Sheng glanced at Zhu Qingshan, and suddenly said, "You really want to get this set of needles, right?" Zhu Qingshan's face flushed, he really thought so in his heart.

This is the second half of the Sanyang Needle that has been lost for thousands of years in their family. Why doesn't he want to get it?

After getting this set of acupuncture methods, they wish the family's medical skills will go to a higher level, and his medical skills will also greatly increase.

But when he heard this from Yu Sheng, Zhu Qingshan's face was very embarrassed.

But since he asked for the rest of his life, it seemed too much for him not to admit it.

Zhu Qingshan smiled awkwardly, and said: "If Master Yu can pass this set of stitches to Zhu, I would like to give one hundred million as reward."

Zhu Xiaoshu also looked expectantly at Yu Sheng. If Yu Sheng could really pass the lower half of the Sanyang Needle Method to her grandfather, then the strength of their Zhu family would definitely have to take another step.

Yu Sheng smiled faintly, and said: "I don't want your money either. I only need you to promise me one request."

Zhu Qingshan was taken aback, and asked anxiously: "I wonder what Master Yu wants to do?"

Yu Sheng said: "I only want you to go to Qiancheng to open a medical clinic and stay there for a long time. At least five years in Qiancheng. There is no problem, right?"

He remembered that Du Fei had plans to open a medical clinic before. He saw that Zhu Xiaoshu's talent was good, and wanted their grandson to stay in Qiancheng for a few years. He also checked Zhu Xiaoshu. If Zhu Xiaoshu's character passed the test, he was going to teach Zhu Xiaoshu. The art of alchemy.

Zhu Qingshan breathed a sigh of relief and said with a smile: "Okay, no problem."

He often travels all over the country and rarely sits in his own medical clinic. This requirement for the rest of his life is not difficult at all.

Zhu Xiaoshu also breathed a sigh of relief. She thought she would let her grandfather do harsh things for the rest of her life.

"Grandpa is awake!"

At this moment, a young girl suddenly exclaimed, and everyone hurriedly turned their heads to look.

Chapter: 419

Seeing the old man waking up, everyone in the Bai family was very excited, and their eyes towards Yu Sheng were full of gratitude and admiration.

"Master Yu, I know that you have great medical skills, thank you for saving my grandfather!" Bai Yulan hurriedly saluted Yu Sheng in gratitude.

Yu Sheng smiled and said to Bai Xuehai and the others: "Don't disturb the old man. The old man has been in a coma for a while. Let him adjust to the changes in his body. It may take a few minutes to recover before getting out of bed."

"Thank you Master Yu, Master Yu's great kindness, the Bai family is unforgettable!" Bai Xuehai hurriedly bowed to Yu Sheng with a fist.

Whether it is Yu Sheng's status as a master of martial arts, or his amazing medical skills, Bai Xuehai, a master of martial arts, is admired.

The attitude of Bai Yutang and others toward Yu Sheng was also a turn of eighty degrees, and there was no more contempt in their hearts.

Seeing Yu Sheng being so respected and treated by the Bai family, this made Zhu Xiaoshu, who had always been arrogant, very unconvinced.

She snorted coldly and looked at Yu Sheng and said: "Old man Bai was obviously the one who gave me the injection first. I am not convinced. I want to try with you. If you can beat me, I will be convinced of you!"

Zhu Qingshan's expression changed, and he yelled: "Xiao Shu, Zhong Ke makes trouble. You must not be rude to genius doctor Yu. Why don't you apologize to genius doctor Yu quickly?"

Zhu Xiaoshu was even more dissatisfied and said, "Grandpa, unless he defeats me, I will not believe him, and it is impossible to apologize to him!"

"you!"

Zhu Qingshan was extremely angry and was about to get angry, but for the rest of his life he waved his hand and smiled: "What do you want to compare?"

He looked at Zhu Xiaoshu with a smile on his face. At this time, Zhu Xiaoshu's face was bulging, his apple-like face flushed red, and his unconvinced look was a bit cute.

"Of course it's better than medical skills."

Zhu Xiaoshu's eyes turned a few times, and suddenly he laughed and said: "The basis of Chinese medicine is to look, smell, ask, and cut, how can we compare to the simplest hope?"

"Little Shu, don't be foolish!" Zhu Qingshan yelled, why is this little girl so stupid? The genius doctor Yu had already shown the word 'wang' to the fullest, so why didn't she retreat without knowing the difficulties, but greeted her instead. Difficulties come up?

Yu Sheng waved his hand to stop Zhu Qingshan and said with a smile: "Okay, what do you think?"

Zhu Xiaoshu groaned, looked at the people in the Bai family and said: "Let's just look at the people in

this room, and see what is wrong with them, and see who can see them more clearly and judge them more accurately.”

Yu Sheng smiled faintly and said: “No problem, you come first.”

Everyone in the Bai family was a little happy, which was equivalent to letting the two great genius doctors give their family a physical examination for free.

This Wangzi Jue, although Zhu Xiaoshu is the simplest in Chinese medicine, it is actually the most difficult.

There is no need to take the pulse or ask the patient’s symptoms. It is actually quite difficult to observe the patient’s qi with one pair of eyes and then determine the patient’s specific condition.

Even Zhu Qingshan couldn’t be sure that he would be able to judge accurately.

My granddaughter is really spoiled at ordinary times, so it’s okay to let her take measures.

Zhu Qingshan thought about it, but he didn’t stop it anymore.

Anyway, he could see that Yu Sheng was malicious towards his granddaughter. On the contrary, he could see that Yu Sheng had something to think about his granddaughter.

However, he suddenly had a look of expectation for his granddaughter in his heart.

His granddaughter has an amazing memory since she was a child, and she has never forgotten her ability.

He has been taking her to practice medicine for more than ten years. There are no more than 10,000 or 8,000 patients diagnosed. With so many cases, his granddaughter is almost all in his mind. Not to mention, she is better than this genius doctor today. Maybe.

Zhu Qingshan’s eyes lit up, and his heart suddenly became a little hot.

For the rest of his life, his medical skills were indeed brilliant, and he was a little bit inferior.

And just for the rest of his life, he stole the limelight from him and his granddaughter. If his granddaughter really wins over him, his image in the eyes of the Bai family will surely rise another step.

At this time, Zhu Xiaoshu was also not welcome. He looked at the people of the Bai family and walked towards them with great care. The Bai family did not want to miss this opportunity, and they all cooperated with Zhu Xiaoshu.

Ten minutes later, Zhu Xiaoshu suddenly smiled and said: “I am optimistic about it, and I will make a judgment now.”

Chapter: 420

Everyone looked at Zhu Xiaoshu, waiting for her to judge her’condition’.

Zhu Xiaoshu looked at Bai Xuehai and said, “Uncle Bai has redness in the heavens and wrinkles on his forehead. This is a sign of high blood pressure. Although Uncle Bai is a master of martial arts, he usually does not pay attention to his diet, so his blood is a little unstable. I suggest Don’t take it lightly, Uncle Bai. In the long run, even if you have a deep inner strength, you will not be able to suppress the problem of high blood pressure.”

Bai Xuehai was a little surprised when he heard this, and couldn’t help sighing: “I wish the little genius doctor is really good at medical skills. I do have some qi and blood instability recently, but the dietary factors are not the most important. The most important thing is that the exercises I have recently practiced are a bit violent. But the little genius doctor can see this and is already very clever.”

Bai Xuehai not only gave Zhu Xiaoshu a thumbs up secretly, although he did not know the real cause of his high blood pressure, he also admired him.

After all, Zhu Xiaoshu is less than twenty years old, and he has this medical skill, which is really rare.

Zhu Xiaoshu was a little embarrassed, but since she was wrong about hypertension, she was right, she didn't care too much, and continued to diagnose.

She looked at Bai Yutang again and said, "There is a faint red light between your eyebrows and a little turbidity under your eyes, indicating that you had lung fever before, but you have already recovered more than half. If you continue to take the medicine, you will fully recover within ten days."

Bai Yutang smiled bitterly and said, "I admire it. I went to the hospital after coughing for several days last week, and it caused a panic. This was all seen by the little genius. The little genius is really a god."

Zhu Xiaoshu looked at Magnolia again and said: "Miss Bai has irregular menstruation and is often accompanied by dysmenorrhea. It should be caused by work or staying up late. I suggest you pay more attention to rest and stay up late at night as much as possible. Coupled with some medications to regulate menstruation, the symptoms will be resolved by themselves."

Magnolia looked at Zhu Xiaoshu in surprise, her eyes full of admiration, and she smiled bitterly: "The little genius doctor is all right, thank you for your advice."

Then Zhu Xiaoshu pointed out the symptoms of other people one by one, and there was no one who missed it, and he actually said it all.

Although they are just minor problems, it is this kind of minor problems that are not usually paid attention to that can easily cause serious illnesses.

Like the old man Bai, he is a master of martial arts, and his martial arts is strong, so he doesn't care about some old diseases and old diseases in his body. When he finally gets old, his body's mechanism declines, he can no longer suppress the outbreak of old diseases.

Everyone in the Bai family was amazed, and they all praised the good teachings of the old man. The granddaughter is only eighteen years old. She is already so clever. In the future, she will definitely be a great goddess doctor in the capital.

I wish Qingshan's proud face and extremely comfortable mood.

But Zhu Xiaoshu looked at Yu Sheng and said with a smile: "Master Yu, I think your illness is the most serious. You must have a heart attack."

Yu Sheng laughed and said: "Your medical skills are indeed brilliant. You also have the essence of this Wangzi Jue. In time, you will be the number one goddess doctor in the world."

Hearing Yu Sheng's praise, Zhu Xiaoshu was very proud, and Qiao's face was covered with a triumphant smile.

But Yu Sheng said again: "Although you are doing very well, but there are still some flaws, I will add it to you."

Zhu Xiaoshu immediately aroused dissatisfaction, so he pouted a little mouth and gave a pose that I see how you can add.

Yu Sheng smiled, looked at Bai Xuehai, and said, "Mr. Bai, in addition to high blood pressure, you also have heart palpitations. Moreover, your third rib in the lower left has been broken. Jin is stronger than you. Although you are cured behind you, the opponent's opposition is extremely overbearing, and there is a trace of it remaining in your ribs. Every time the weather changes drastically, your ribs will be painful and serious. It's difficult for you to suppress this kind of pain."
