

Doomsday 1001

Chapter 1001: The defensive battle is in full swing

"What did you discuss just now?"

Di Ping no longer struggled with this issue. He walked up to the table and looked at a piece of paper on the table where the two of them had leaned together before.

"City Lord, this is a city defense plan. Staff Lu and I have just discussed whether there is anything unreasonable in the layout before the discussion!

Cheng Chao pushed the paper on the table to Di Ping Ping.

Di Ping looked at it and saw a picture of a city wall drawn on a piece of paper. The picture was marked with arrows and other figures, and there was also a text description. He glanced briefly and found that each paragraph was written on it. Information on the person in charge, the number of people allocated, and materials.

The markings on the map are obvious, the lines are uniform, and the various data are clear!

Di Ping was taken aback for a moment. The homework on this map was very beautiful. It seemed that it would not be possible to get it without professional military standards. This is not just a simple drawing of a map. This is already a professional military deployment map.

Di Ping sighed a little, that professional people would do nothing wrong, so that they could do it by themselves. They couldn't get these things at all, so they could only arrange them wholeheartedly.

It seems that this is the masterpiece of Cheng Chao and Lu Guoliang. Cheng Chao is not a simple soldier, and he is definitely not an ordinary soldier. If you don't have a certain level of knowledge in the work on the map, you don't know how to do it.

"City Lord, do you see any shortcomings that need to be changed?"

Cheng Chao looked at Di Ping for a long time before asking aloud.

"I have any comments, you two can see if there are any problems!"

Di Ping looked at the content on the map for a while and found that he couldn't see anything. The design of the plan was already very complete. He, a non-professional, could see what was going on, so he had to shake his head and smile.

"The City Lord, proceed according to this defensive plan first, and then be rational in time if there is any situation!"

Cheng Chao looked at Di Ping and asked.

"Okay! Just follow this plan. There is a foolproof plan to ensure that there are no omissions!"

Di Ping nodded.

Before Cheng Chao left the table and communicated with the captain of the five major teams, the five led the order to retreat to Di Ping and hurried to their respective guards.

Di Ping and Cheng Chao discussed with Lu Guoliang for a while, and the room gradually became brighter. Cheng Chao put the plan away and looked up at the audience with a heavy voice:

"It's going to dawn!"

When Di Ping heard the words, he walked towards the viewing platform, Cheng Chao and Lu Guoliang also followed. The three of them stood on the steps and looked to the east!

At this time, the original white line in the east gradually turned into a fish belly. It was this white, but it seemed to start the night, and the sky gradually lit up. I believe that in a dozen minutes, the sky should be all bright.

"Wow!"

It seemed that this ray of light seemed to wake up the forest as an alarm clock, and more mutant beasts in the jungle were awakened. The roars gradually increased, and they quickly joined together. I don't know how many mutant beasts there are.

"Are you going to start?"

Cheng Chao and Lu Guoliang showed dignity on their faces and walked quickly to the viewing platform, their eyes shot at the far forest outside the city.

Di Ping raised his hand to check the time. It was five to forty, and it was six o'clock in twenty minutes. The siege was about to begin.

"Notify everyone to prepare, take your place, mutant beast siege is about to begin!"

Di Ping also said solemnly.

Hearing that Chengchao and Lu Guoliang were shocked, and they were a little frightened. The battle is about to begin. Can the base survive this time?

But after all, both of them are people who have seen the world. There was only a trance in their hearts. They immediately calmed down. Cheng Chao walked to the table with a solemn expression and raised his left wrist while looking at the layout plan.

"Xiaozhi, connect Captain Five and Captain Owen, start the video conference mode!"

The pair of watches on their wrists said solemnly.

"Xiaozhi understands, connecting..."

The smart watch named Xiaozhi by Cheng Chao heard a cold female voice.

Chapter 1002: Insufficient background finally exposed

Di Ping has already handed over the commander-in-chief to Cheng Chao, and only Cheng Chao has the experience of commanding battles in the army. It is most suitable for him, and he does not have much time to command battles. He will do it as a maneuver. Power, to deal with emergencies, is used as a nuclear weapon.

Once there is a powerful mutation to attack the city, then he has to go to fight, and there is no time to direct the battle.

In just one or two seconds, Cheng Chao's watch shot a virtual image, and the figure of the captain of the Five Great Wars and the captain of the Santos' Guard Owen appeared on the screen.

Cheng Chao didn't talk nonsense. As soon as everyone's picture appeared, he asked in a deep voice: "Team Five report the current situation of each department!"

"Xu Sheng, report to the commander-in-chief. After the Leopard team has assembled, there are no missing personnel. All personnel have entered the designated defense zone, waiting for combat orders!"

Xu Sheng first began to report with a military salute.

"Report to the commander-in-chief, all members of the Tigers are ready, waiting for combat orders!"

Zhang Liang didn't talk much, but his voice was loud and powerful, and he seemed to have the confidence to win in battle.

As soon as his voice fell, the fat man Chen Gang buzzed after another military salute:

"Report to the commander-in-chief, all members of the wolf team are here, please commander-in-chief to give combat orders!"

Seeing the fierce fighting state of the fat man, Di Ping nodded secretly. The fat man himself is a bit weak and timid, but after only a few incidents, he has matured, especially after awakening, the whole person seems to have changed. , Become self-confident, brave, fight will be the first, every fight must do his best, is a fighting madman.

"The report is always charged, the Eagles are assembled, please order!"

Li Sheng's words were still as few as before, without a hint of smile on his face.

"Report..... Report the general approval. All members of the Bears team are assembled. Please command the commander in chief!"

The new captain of the Bear team, Wei Zhongkai, was obviously a little excited, his eyes bursting with enthusiasm, and his voice excited!

After listening to Huihui, Cheng Chao nodded, suddenly standing upright with a serious expression, and said in a deep voice, "Okay, now I order!"

In the video, the five captains also immediately looked serious, standing upright and waiting for orders.

"The battle is about to begin. Each team must be vigilant and guard the defense zone. Once the mutant animals are close, try to fight with guns and arrows. When they get to the city, they use boulders and rolling logs. If there is an emergency, contact the headquarters as soon as possible!"

Cheng Chao looked at the five people with serious expressions and commanded.

"Yes!"

The five saluted and responded in unison.

"Captain Owen, how is the Guards now?"

Cheng Chao looked at Owen Dao.

"Report to the commander-in-chief, all members of the dragon team have been assembled, please order the commander-in-chief!"

Owen gave the same military salute and replied in a deep voice.

"Okay!" Cheng Chao nodded with satisfaction: "Captain Irving, all guards will enter the designated defense zone according to yesterday's defense. Captain Irving, you will act as a mobile force, and support in time if there is a problem with that defense stage!"

"Owen obeyed!"

Owen hammered his chest with a right fist and responded loudly.

After arranging everything, Cheng Chao turned his attention to Di Ping: "City Lord, do you see if there is anything missing that needs to be added!"

Di Ping saw that everyone was looking at him, he was silent for a while, and then he said slowly in a low voice:

"This time, it is the biggest crisis since the establishment of our sanctuary. It is a battle that concerns our survival. To overcome this difficulty, we must rely on all of us to work together and fight with the spirit and will to succeed in order to succeed. I want to know if you have any confidence!"

"Have!"

The six were excited and shouted in unison.

"Okay! I am waiting for your good news, I will invite you to drink celebration wine on the day of victory!"

Di Ping smiled and laughed loudly.

His laughter was loud, breaking through the attic and rippling on the top of the city, seeming to dilute the tension before the war.

Chapter 1003: Guards fight morale

The first ray of red light in the east was shining, and the hour hand pointed at six o'clock. Suddenly the whole world fell silent, and the roaring in the forest disappeared all at once. It seemed that the mutant animals had been banned.

But at this time no one thought so. People who had been waiting for half an hour and gradually became a little relaxed, stopped all their movements at this moment, and looked at the jungle together.

"coming!"

Di Ping's eyes were also condensed, he walked to the side of the fence with a serious expression and stared at the forest fifty meters outside the city.

Cheng Chao and Lu Guoliang also had tight faces, and at this moment, they had never experienced tension.

One, two, three...

Suddenly, everyone's eyes changed. They saw mutant animals walking out of the jungle silently, and more and more of them came out of the jungle with the passage of time. After a while, there were thousands of them and I don't know how many there are in the jungle.

Thousands of mutant beasts gathered a huge horror aura and swept across, the city guards at the head of the startled city retreated together, their faces were horrified, and even the hand holding the bow was trembling.

Seeing so many mutant beasts, Di Ping's face also changed, his expression became extremely solemn, he had heard the breathing sounds around him, he knew that these sergeants were also afraid, many people were worried about being so huge. Can the quantity base be kept?

Not all of them have fought against mutant beasts. They used to just follow the awakened to fight against the mutant beasts, but today they have to face the terrifying mutant beasts. They have a strong psychological quality for being able to hold back and run without turning around.

"Wow!"

Suddenly there was a terrifying roar from the forest. The roar resounded throughout the world, and the trembling leaves trembled along with them. The faces of the people in the trembling city were madly pale, their ears buzzed, and their heads felt like exploding pain. The body was shaking involuntarily.

This roar seemed to be a command to initiate, the group of beasts roared together, how shocking the roar of the beasts was, everyone saw it today.

With the roar of the group, the sky and the earth echoed, and the wind and clouds changed color, like a violent wind blowing to the sky, even the black clouds were crushed, a violent momentum

rushed toward the sanctuary like a wave of air, the hair of the people flying, clothes hunting, one All the sergeants took three steps backwards, all of them were trembling with horror on their faces.

When Di Ping saw this, his heart was not good, and the fighting will that he inspired before going on like this might be shattered by this kind of aura. Once he loses his aura and feels timid in his heart, then this battle is dangerous and must break this group. The shock formed by the beast can restore some momentum.

"Prepare for a long-range attack!"

Just as Di Ping was thinking about how to re-energize his aura, he suddenly heard a loud shout from his side. His shout seemed to be a thunder, awakening everyone who was in panic.

"Far...ready for a long-range attack!"

The messenger was taken aback for a moment, then he woke up and hurriedly preached aloud.

"Prepare for a long-range attack!"

"Prepare for a long-range attack!"

.....

A shout was picked up and spread to the distance, and the originally nervous city guard sergeant raised the weapon in his hand like a reflex.

Maybe it's the determination to become determined after training, maybe it's inspiring courage to survive, maybe it's that their family members in the city want to protect and suddenly become brave, maybe it's because the city lord is watching behind it that inspires passion and fighting spirit.

After raising the weapon, the courage that had disappeared from the city guards unexpectedly returned miraculously, with solemn expressions. Although there was shock in the eyes of the mutant beast, it was more of a burning hatred.

Ooh...

The group of beasts roared again and finally launched an attack. Mutant rats, mutant dogs, mutant cats, mutant wolves, mutant cows, and other mutant beasts attacked the sanctuary city.

Chapter 1004: The battle escalated with casualties

The group of beasts mobilized, the momentum shook the sky, and for a while, the wolves were everywhere, and the real beasts rushed, rushing through the rainbow, falling like mountains and rivers, and rolling toward the city head like a tornado with fierce flames.

At fifty meters, forty meters, and thirty meters, the mutant beasts were quickly approaching the city wall.

"put!"

Cheng Chao's expression was serious, his eyes fixed on the mutant beast group, until the beast group entered the range of 30 meters, he held the city head with both hands and suddenly shouted together, his face changed a bit from hunting due to his full roar.

"put!"

The messenger also roared.

"Let...Let...Let..."

The messenger roared and roared to both sides of the city, and then the guns in the hands of the city guards who were waiting for battle began to roar, and bows and arrows were fired at the same time.

Bang bang bang.....

The sound of guns sounded like firecrackers, and bullets instantly crossed the space and exploded among the group of beasts. The mutant beasts bloomed with red flowers, and then each fell down. Quickly, the mutant beasts behind couldn't dodge, rushing together for a while, rolling to the ground like a gourd.

Choo Choo Choo.....

A sharp arrow screamed at the group of beasts, shooting each mutant beast to the ground, and let out a wailing. More mutant animals fell, but this amount is for the mutant beast army. It's not a big deal, this round only injured one or two hundred mutant beasts.

Although the momentum of the mutant beast group has slowed down, the impact is not great. A large number of mutant beasts surpassed the mutant beasts that fell in front, and still rushed towards the city wall.

"The second round!"

At this time, Cheng Chao shouted again, and his voice was full of burning fighting spirit.

"put!"

The messengers also shouted.

Bang bang bang...

In another round of volley, more than a hundred mutant beasts fell to the ground, losing their ability to move.

It is too little, only two rounds of volleys were completed, and only three or four hundred mutant beasts were shot, and for such a huge herd, it was like water falling into the ocean without wind and waves.

Boom boom boom

The mutant beast in such a short time, Di Ping only completed two rounds of volley and rushed to within ten meters of the city wall, at such a speed, the next second it touched the wall.

"Free shooting!"

At this time, Cheng Chao shouted again with his already somewhat broken voice.

"Free shooting..."

The messenger also yelled, and the gunshots and bows rang together, as if intertwined with a musical event. For a while, the sound of ping-pong continued, and a cloud of smoke rose on the wall.

At this time, the two machine guns showed their terrifying power. They were harvesting mutant beasts like a harvester. The first-order mutant beasts could not stop the bullet rain from the machine guns. The distance between the two machine guns was fifty meters. The damage caused is surpassing the total damage of hundreds of people.

Di Ping watched secretly and smacked his tongue. He regretted that because of the relationship between the two parties, he didn't get the machine guns of Liu Zhenya. If more than a dozen machine guns were fired at the same time, the damage would be even more terrifying. He glanced at the top of the city. The gun position on the tower platform shook his head helplessly. There are too few coins in his hand and he dare not use the energy cannon now. If you want to use the energy cannon, it must be good. Can the system produce something bad?

The mutant beasts that came from the impact fell on the way of charging. Although they tripped a lot of mutant beasts that were not eager to dodge behind, there were too many mutant beasts, rushing toward the city wall like a tide.

At this time, Di realized that firearms can indeed play a pivotal role in the initial defense, which is more suitable than arrows, especially when facing a large area of herds. The fire net formed by bullets can still be used. Suppress the attack of mutant beasts.

He felt that he still had some shortcomings. He had overlooked the usefulness of firearms before and felt that the Awakened was powerful and the firearms were no longer useful, but now he has taught him a lesson.

Because he didn't pay much attention to firearms, the city guards did not specifically collect firearms. The Liu Minsheng Department bought more than one hundred guns last time, and some of them were obtained in pieces. It was less than two hundred, so few firearms could not form a dense firepower net, and could not stop so many mutant beasts at all.

Chapter 1005: The battlefield has never been more discrete

"boom!"

There was a roar, like the sound of a mountain crashing and the earth cracking, everyone's ears hummed, and then the ground shook under their feet. Everyone standing on the top of the city felt that they were shaking under their feet, and their faces were shocked, worried that the city wall would fall in the next moment.

What is the scene of nearly ten thousand mutant beasts crashing into the city wall, especially among them there are some mutant beasts like mutant cows with great strength.

It was Di Ping who felt the tremor under his feet, his eyes also showed horror, and he was worried about whether the city wall could hold it.

But then, everyone knew that they were worrying about it. The city wall seemed to be connected to the earth. It only shook a little and stood still, like a towering mountain.

This relieved everyone in Chengtou, and the tension and worry on their faces disappeared.

"This mutant beast attack is too terrible, what if the Bianzhou base also suffered such an attack?"

Liu Zhenya and Liu Minsheng's grandson also couldn't help running to the top of the city to watch the battle, and no one blocked them. This scene happened to be seen by two people, and both of them were shocked, especially Liu Zhenya's face was ugly, like Bianzhou. It's hard to say whether the city wall will be intact under such impact.

Now he is really more and more worried about the fate after the Bianzhou base, the status of this sanctuary in his heart is even more important, and the thoughts in his heart are more lively.

"too horrible?"

Liu Minsheng looked at the terrifying mutant beasts all over the world and felt that the whole body was cold, and there was a deep horror in his eyes. He changed his face and turned his head to look at Liu Zhenya, anxiously said: "Grandpa, this sanctuary city Can you hold it?"

Liu Zhenya's complexion was also uncertain, looking at the outside of the city silently, and after a long time he breathed out: "It's hard to say! It depends on whether Di Ping is really supernatural!"

"Should we prepare early, in case this city cannot be held..."

Liu Minsheng's eyes shrank upon hearing this, and he lowered his voice.

Liu Zhenya shook her head and said: "We don't need to move now, wait to see the situation before we talk?"

Liu Minsheng looked at Liu Zhenya and shook his head and solemnly said: "Grandpa, I mean, should we help them and let our sergeants help defend the city?"

"Uh!"

Liu Zhenya looked at Liu Minsheng closely with some surprises, and then slowly said, "Why do you have such an idea?"

"Grandpa, giving charcoal in the snow is better than icing on the cake. Now that we have support for the Sanctuary City, we will have a lot to talk about later!"

Liu Minsheng's eyes sparkled.

Liu Zhenya stared at Liu Minsheng in a daze. Only when Liu Minsheng became a little uneasy, then his serious face was closed, and he smiled slightly:

"It's great for you to think like this! It's just that it's not a good time for us to take action! What is easily obtained is not precious, nor can it be cherished!"

Liu Minsheng was stunned to savor what grandpa said. In the next moment, he seemed to understand something, nodded and said, "Oh, grandpa, I understand!"

"Throw a log!"

At this time, Chaochao's violent shout came from the top of the city again.

Boom boom boom...

The huge rolling log that was hugged by one person was carried by several people and threw it down, and suddenly there was a roar of roar, mixed with the scream of mutant beasts.

A round of huge rolling logs were thrown down from a twenty-high wall, and the impact force was still great. Many mutant beasts were wounded and killed. Now most of those rushing down the city are weak mutant beasts, like mutant rats, Mutant dogs, mutant cats, mutant wolves and the like, giant trees can still threaten them.

"Throw the boulder!"

At this time, Cheng Chao's voice came again, and then he saw huge rocks falling from the sky, smashing to the ground, roaring, and each mutant beast was killed and wounded by the boulder.

Chapter 1006: How tragic a fierce battle is

After a round of attacks, only a few hundred mutant beasts were killed, but they couldn't prevent the mutant beasts from attacking the city. The effect of the boulders and rolling logs was too small, like some large mutant beasts. , Couldn't hurt them at all, only smashed some small mutant animals like mutant dogs.

Seeing all this, Di Ping's face remained silent, but he was already faintly disturbed. At this time, the shortage of personnel and insufficient weapons and equipment in the base had been truly exposed.

If there were tens of thousands of sergeants and tens of thousands of guns, these mutant beasts could wipe out half of them in one round of attack. At this time, he once again deeply felt the lack of the base, and he couldn't help thinking why the Bianzhou base could stand upright. This is not unrelated to his powerful military power and the elite soldiers of the Ten Thousand Army.

As a result, he didn't want to have a war with the Bianzhou base. He took it for granted before that the Bianzhou base was much stronger than he thought, and the war was not as simple as he thought.

This siege incident was a lesson for Di Ping, letting him truly understand that the advantage in numbers is not as simple as one plus one and two.

Di Ping was thinking, but the battle never stopped, and it was going on fiercely. Cheng Chao saw that the ancient defense methods such as boulders and rolling logs were of little use to the mutant beasts and left them out, and began to let the soldiers shoot freely. The effect of platooning at this time is too weak, this is not a human war after all, mutant beasts are too fast, and the effect of platooning is too poor.

Cheng Chao pressed his lips tightly, and Wei Wei was a little bit purple. He pressed the head of the city back and forth, the blue veins on his hands jumped, the mutant beasts under the city kept hitting the city wall, and the city wall trembled from time to time. Many mutant beasts with strong climbing ability are climbing up the city. Although the city walls are very smooth and smooth, there are still many mutant beasts whose super climbing ability has reached halfway.

There are more mutant beasts biting the city wall crazily and making bursts of creaking sounds, as if they are about to gnaw down the city wall. Although people know that mutant beasts will be helpless in this city for a while, but this kind of sound is heard. I can't help but feel sad in my ears.

The mutated beast's noisy roar, the shocking person's heart is irritable, and many soldiers have expressions of helplessness on their faces, gritting their teeth and shooting downward.

At this time, the bows and arrows created by Luo Hongyuan and the others are considered to be a great contributor. The damage of the bows and arrows to the mutant beasts below exceeds the damage of the firearms. The firearms are too small for some rough-skinned mutant beasts, and the iron bow The super elasticity and the penetrating power of the arrows, ordinary mutant beasts can't stop it at all. The only disadvantage is that there are too few bows, only more than 100, and the fighters have average shooting skills, and they cannot shoot every arrow , Wasted a lot.

The soldiers were desperate, each finger was cut by the bowstring, blood was flowing, but they still gritted their teeth and pulled the bow to shoot arrows.

"City Lord, the situation is not so good!"

Lu Guoliang looked at the scene in front of him, his face a little ugly, he approached Di Ping and whispered: "This is no way to continue, the soldiers will soon lose their combat effectiveness!"

Di Ping's expression was calm, but his heart was not really good. He couldn't see this scene, but the war was cruel. After a long silence, he slowly said his voice. His voice turned out to be hoarse. "Do you have any idea?"

Chapter 1007: The general is not moving forward

Lu Guoliang endured a few minutes and finally gritted his teeth and said, "City Lord, do you think you can ask Liu Zhenya to pull the army up to help us defend the city?"

Di Ping didn't even turn his head when he heard the words, and said indifferently: "It is not the time yet. Inviting him to take action at this time, the price we have to pay will not be less than now!"

He has never thought about this issue, but the two masters are in a tense negotiation stage. Once Liu Zhenya, an old fox, he will not let go of the opportunity to lower the price, he may be more passive at that time, so it is not absolutely necessary, Di Ping will not let Liu Zhenya take the shot, and it is not yet at this time.

Lu Guoliang also knew this. He also knew that he took it for granted, but he was a little worried about the battle. The mutant beasts seemed endless. The entire city was covered in black, and there were only 500 sergeants in the base. , The warriors who can pull bows are exhausted, and human power is exhausted after all.

He also nodded helplessly, and secretly let out a sulky breath to relieve the pressure in his heart.

Boom boom boom

The mutant beasts under the city were still hitting the city wall, and there were roars from time to time, but Di Ping's color remained unchanged, his eyes kept looking at the jungle outside the city.

In fact, for Di Ping, these mutant beasts under this city are not the biggest threat to the Sanctuary City. The real threat is that there are powerful mutant beasts hiding in the jungle that have not yet appeared. He doesn't know if this is one or how many. In the roar of commanding the group of beasts before, he felt that this mutant beast would not be weak anymore, and he actually felt strong heart palpitations.

Therefore, he has been waiting for this real enemy to appear. Although the siege is crazy, it still does not cause damage to the base so far. Didn't the guards of the city lord on the front of the city have not attacked until now?

"A mutant beast is coming up!"

At this time, a horrified roar came, making everyone disgraced.

Di Ping retracted his gaze and looked at the city wall. Sure enough, dozens of four-legged snakes the size of a civet cat with a body length of two to three meters climbed up, stretched out blood-red snake letters and rushed towards the soldiers on the city head in excitement.

The soldiers hadn't fought close to the mutated animals. When they saw their four legs with weird colors and terrifying colors, their faces suddenly changed and retreated.

"not good!"

Seeing this scene, many people's expressions changed, and they were screaming.

Grandpa Liu Zhenya also saw this scene, both of them showed a faint look in their eyes. The mutant beast has already attacked the city. Can this city be defended?

Should they retreat first to find a way to reunite with the army, and make another plan once the city is broken.

Just when they were thinking, suddenly there was a violent shout from the top of the city.

"kill!"

This killing sounded like thunder in the spring, and even suppressed the roar of the beasts outside the city.

With a roar, the guards who had been guarding the city head moved at this time. When the city guards retreated, they rushed up and attacked in an instant. There was a sudden cold and more than 30 mutant four-legged snakes. The blood shot, and the corpse fell on the head of the city.

Looking at dozens of mutant four-legged snakes, they were beheaded in just a second or two. Many people hadn't turned it around yet, and they changed too quickly.

But it was just a meal. In an instant, people reacted and suddenly burst into thunderous cheers. The soldiers roared frantically, venting the fear in their hearts.

At this moment, they thought that there are powerful awakened people in the city, and even a powerful invincible city lord. What are they afraid of, the courage that had faded, suddenly exploded at this moment, and the whole body was immediately full of infinite power, they shouted

As he rushed to the top of the city again, shooting frantically, the casualties of mutant beasts increased suddenly.

Chapter 1008: Mutant flock of birds hit the city

The four-legged snakes that came up in the first wave were not strong. They were all mutant beasts of Tier 1 and Tier 1 and their heads were not big. They were also the size of an adult cat. This is already common in Tier 1, Tier 2, and Tier 3 awakenings. There is nothing in the hands.

However, following the four-legged snake, mutant beasts continued to climb up, mutant spiders, mutant mice, mutant snakes, and mutant cats, constantly rushing to the city. At this time, the guards of more than a dozen people were already too busy. , And the city guards had no choice but to wield their swords to fight in close quarters.

Casualties will inevitably appear. Although these mutant beasts are not powerful, they are also unmatched by ordinary people. If it weren't for these warriors who have gone through many battles, they might have turned around in the face of the constantly influx of mutant beasts. Ran.

Fortunately, most of the mutant beasts were blocked by the awakened people like Boogie. There were not many mutant beasts that rushed through the blockade. Three or five people rushed up and could still fight. After all, they were all smaller in size and had less combat power. It is not a strong mutant beast, and the current city guards are much stronger than ordinary people, even the weakest current strength is more than two hundred jin.

kill!

There was a sound of killing on the head of the city, and there were figures fighting with mutant beasts everywhere, and from time to time someone was injured and screamed.

As the commander-in-chief, Cheng Chao looked at the mutant beasts that were constantly coming up, and he had already squeezed the front step by step. His pressure was also increasing, and his complexion became more and more ugly. You must know that the circling birds in the jungle can be recovered. Without launching an attack, the mutant beasts on the ground were already in a hurry. If there was no such city wall?

He didn't dare to imagine the result, and he felt a chill in his back when he thought about it.

"Didi..."

His watch vibrates from time to time. This is the number of attrition and rescue information sent by the teams. Looking at the battle reports and the rescue content, he only feels that his scalp is numb.

In less than half an hour, nearly fifty people have been injured, and more than ten of them have been seriously injured and have been scattered from the battlefield. This kind of loss is not big, but it is a lot for the city guard with only five hundred people. The battle damage has reached 10%, and the number is still rising.

Cheng Chao finally couldn't wait any longer, he gritted his teeth and walked to Di Ping anxiously:

"City Lord, there are more and more mutant beasts, we have a lot of casualties, is it to transfer the reserve team up!"

"not the right time yet!"

Di Ping Pian shook his head as if water.

Of course, Di Ping also saw everything that happened. His heart was also very anxious. As long as one of the soldiers was injured, as long as they didn't fall down and were still supporting the battle, his heart was uncomfortable. It's just that the reserve personnel said it was a building. The two hundred people drawn by the team, as well as some newly selected young men who have joined the sanctuary city, total only 700 people.

Although these people are more numerous than the city guards, they don't have to think about their combat effectiveness. They are not like the city guards who are often taken out to fight. They have honed their fear of mutant beasts, and these newcomers have no such experience. Once he came up and couldn't stand the fear and turned around and ran away, it would affect morale.

Moreover, the city guards have cultivated violent apes for such a long time, each of them has long surpassed ordinary people in strength, and their combat power is already comparable to ordinary small mutant beasts, and they can also fight these mutant mice and spiders.

Of course Cheng Chao understood this, but he couldn't bear to see more and more soldiers fall down. He looked at Di Ping, who looked tense, and didn't know how to convince him for a while.

"City Lord, are you afraid that these people cannot bear the fear and affect morale!"

At this time, Lu Guoliang suddenly spoke.

"Not bad!"

Di Ping nodded slowly and said, "These are newcomers, who have not undergone training, nor have they experienced battle. They are instinctively afraid of mutant beasts. Once they come up, they can't form combat power at all. They are not beneficial to the battle, but harmful!"

Chapter 1009: Hundreds of cannons sing and kill birds

"The City Lord's worry is not unreasonable!"

After hearing Di Ping's words, Lu Guoliang nodded in agreement, but then he smiled indifferently: "However, there is a saying that it is good that a knife is not sharp or a person cannot sharpen a weapon. These people do not go to the battlefield without fighting. Baptism, they will never become real warriors, never dare to face these mutant beasts!"

"Yes! The blade is sharpened by itself, and the fragrance of plum blossoms comes from the bitter cold; the city lord let these reserve personnel go!"

When Cheng Chao heard this, his eyes lit up, and he said anxiously.

He is the most anxious. These city guards are all his subordinates. They often train together to fight together. He was born as a soldier and cares most about this kind of friendship. He watched his brothers fall down. My heart is cut like a knife, and I hate myself rushing to fight.

Di Ping was silent when he heard the words, but his eyes flashed and his complexion was a little loose. He couldn't bear to let these people die. Although Lu Guoliang said good things, but 700 people arrived on the battlefield. Get some elite fighters, but how many people can survive?

Cheng Chao looked at Di Ping anxiously, and a smile appeared in Lu Guoliang's eyes. He could see that Di Ping was a little loose. He decided to work harder. The current battlefield cannot tolerate Di Ping's wife. This city lord is good at everything, but the kindness is too heavy, not enough to cut off.

"City Lord, do you think this will work? I suggest that you first pull up a hundred people at a time and disperse them among the teams. They will be carried by the elderly. It is easy to adapt, and the small number of people will not cause chaos. Let these people go through the war. Sharpen!"

Lu Guoliang looked at Di Pingdao.

"Hey! The plan is good, so that it is not easy to get into trouble, and you can train and send troops!"

As soon as Cheng Chao heard this plan, his eyes lit up again, and his expression was surprised.

Di Ping's eyes also moved, so that he could train troops quickly. The Five Hundred City Guards were indeed somewhat scarce. The giant city covering nearly five or six kilometers was difficult to defend by hundreds of people. His 700 people already did it. For the purpose of selecting personnel for the city guards.

His heart was exactly as Lu Guoliang thought. He couldn't bear to watch these people die. These people were their children, husbands and fathers. Once something happened, it was a family that was destroyed.

"The city lord, give orders! There will always be necessary casualties in the battle. You can't be afraid of these casualties. Once the defense line is broken, many people will die. The city lord cannot hesitate. Our soldiers have too many casualties!"

Cheng Chao saw that Di Ping was not speaking, but he was still hesitating. He became anxious and didn't care about what he said, so he shouted in a hurry.

Indeed, during this time, his watch shook several times, and the number of casualties rose sharply, and the mutant beasts surged. The number of mutant beasts rushing out of the blockade of the Awakeners was increasing, and he couldn't wait.

Di Ping's mind was shocked, as if something broke through and broke in his heart, he wanted to understand a lot in an instant.

As Cheng Chao said, he was too concerned about the casualties. The last time the torrent swept away a car of people, the impact on him was a little big, and he cared a little too much. I remember before that he said that Zhang Hengcheng was not flexible and wanted to save everyone. , But as a result, no one can save it. Isn't it the same with all your own practices now?

He is not a god, he can't save everyone, people still have to save themselves. These people do not experience how to become talents. The base provides such good conditions, the supply of mutant meat is sufficient, and there must be good exercises to cultivate, but the awakened ones are. As Buji said, if the conditions in their tribe are so good, 80% of the people can be awakened, but so far there are only a few people. This is why he has protected too well, and he is afraid that these people will suffer a little. Hurt, but don't know that a child who is too caring cannot become a talent!

These people grow too slowly without the pressure of life and death!

Thinking of this, Di Ping's eyes flashed with cold light, and his heart slowly hardened. In the last days, women's benevolence is not tolerated. If these people become successful, they have to squeeze their potential.

"According to the advice of Chief of Staff Lu, the commander of the army dispatched reserve personnel in batches and dispersed them into the battle teams and went to the city to participate in the war!"

After Di Ping figured it out, he didn't hesitate anymore, his eyes were cold and he looked towards Chaochao and ordered in a deep voice.

"Yes! Cheng Chao leads his life!"

Cheng Chao was excited about a military salute, and then happily went down to arrange it.

Di Ping's face returned to calmness, his eyes looked far away at the jungle, silently, and no one knew what he was thinking.

Chapter 1010: The power of artillery is controversial

Lu Guoliang looked at Di Ping's upright back and nodded insignificantly. This young man was mature step by step. From the first time he saw him, he was still young. Although he was much more mature than many young people, In front of old fried dough sticks like him, he is still very immature.

However, along the way, he saw that this young man was maturing rapidly, both in conversation, and in his ability to do things, and the pattern was growing rapidly, his aura became more and more calm and dignified, and his eyes became more and more calm, sometimes deep. It makes people

palpitate, and the whole person lingers with a vague meaning, and it is getting harder and harder to grind.

In this case like today, he just explained the powerful relationship, he quickly figured it out, and made a decision, indicating that he listened to his suggestions and can quickly make judgments. This calmness and determination already has a leader. The true literacy of the person.

This made Lu Guoliang satisfied. He and Han Zhongguo stay here because of Di Ping's excellent quality and strong strength, as well as the development potential of the Sanctuary City. They are in the officialdom and they are most clearly seen as Bianzhou. A place like the base is not a paradise. Too many forces are intricate and cannot be as comfortable as the Sanctuary City. So they put the treasure on Di Ping, and Di Ping did not let them down. He has gradually become a qualified leader. Character, this is what he likes to see.

"Grandpa, it seems that I can't hold it anymore, do we want to retreat?"

Liu Minsheng stood in front of Liu Zhenya and said with a worried expression.

"What are you afraid of? There is no mutant beast rushing over yet!"

Liu Zhenya stood still, his body was straight and his eyes shot in all directions. It seemed that he was not afraid of the danger at all, revealing the temperament of a war-fighting general.

Liu Minsheng was a little helpless. He pulled a few pulls and didn't move the old man. He knew his grandfather's temper. Once he decided to change no one, he not only had the stubbornness of a soldier, but also the stubbornness of a scholar.

They have retreated again and again, and now they have retreated to the steps of the upper city. At this time, the three-meter-wide walkway at the top of the city has been reduced to a battlefield, and mutant beasts are constantly coming up, a group of city guards and the awakened Fighting desperately, they watched one soldier fall down injured. As long as these soldiers were not carried down, even if they were lying on the ground, they would also wield weapons to chop mutant beasts. They really had the spirit of a predator.

"team leader!"

Right in front of them, a large and tall middle-aged man was cut through his stomach by a mutant cat with a claw, and blood was gushing from a half-foot-long wound. Two of his comrades in arms yelled in panic when they saw this scene.

However, the captain did not seem to feel any pain. His eyes were bloodshot, and he rushed forward like crazy. A machete in his hand chopped the mutated cat that was unable to retreat in half, but he did not stop roaring and rushing again. At the other mutant spider, he slashed the mutant spider's head with a knife. Then he stood with the machete and shook his body, staring at the mutant beast outside the city and raised his head with a long laugh. Suddenly a mouthful of blood spurted out, and the human body Stiff, fell slowly.

"Ah! Captain!"

Several fighters immediately turned red when they saw this scene, and they roared angrily, then turned back and stared at the mutant beast with hatred, and rushed up like crazy.

Seeing this scene, the eyes of both grandpa and grandson, who are both soldiers, gushing with pain, a kind of raging flames rise from the bottom of their hearts, and they can't wait to rush up at this time to fight with these iron-boned soldiers.

"Grandpa, it's time to send our soldiers up. The city won't be able to defend it any longer!"

Liu Minsheng watched the fierce battle on the front of the city, and he couldn't help looking at Liu Zhenya anxiously.
