

Doomsday 1011

Chapter 1011: Behemoth is coming and fighting is fierce

"I....."

Liu Zhenya's body was straight, and the flames in his eyes were also beating, but he stopped just after he called out a word, his body bent down slightly, shaking his head and murmured: "It's not time yet, not time!"

"grandfather!"

Liu Minsheng yelled again anxiously, but Liu Zhenya's eyes were a little erratic, and he didn't seem to hear his shouts. This made him very helpless and a little disappointed. He felt that Grandpa was not the brave and good fighter he used to be, and he was not afraid in the rain. The general is now old, he has too many worries, and takes too much of his interests. There is no longer a general who can fight for the country and the people without fear of death.

Liu Zhenya was also shaken by the scenes he saw before him. He also wanted to tune up the sergeant. He had powerful firepower and believed that it would definitely change the situation in front of him, but he hesitated. These five hundred sergeants are the elite combat power of his Liu family. , More than a hundred people have been lost, and if the loss is heavy here, it will be a huge blow to his Liu family.

Besides, he wants to wait for the asylum city to propose it so that he can maximize his benefits. Now he proposes to help. The asylum city must like it very much, but it is not profitable for himself. He is waiting...

Di Ping did not know about Liu Zhenya and Liu Minsheng, although he also knew that the two were watching the battle, because he had been monitoring all changes in the city from a systematic perspective of God, and he had seen every scene that happened on the city. .

His heart was also touched a lot. He didn't expect that these city guards under him had grown to such a degree that they had withstood the attack of mutant beasts all their lives, fighting with their lives, fighting forever, and had grown into fearless. The predators of life and death, watching one by one fall down, he is also heartbroken.

However, for now, the battle line is fairly stable. With the awakenings rushing in the front, the city guards at the back cooperated to stop the mutant beasts outside the city, and the mutant beast

corpses have fallen on the city. The blood had dyed the white city walls bright red, and it looked shocking.

Under Cheng Chao's order, the one hundred reserve team members came up with weapons in their hands. Hearing the roar of mutant beasts and stepping on the blood flowing down the city wall, the hundred people looked pale and their legs trembled a little. Under the leadership of the veterans of the city guard, they still climbed on the ***** water to reach the wall.

When seeing the mutant beast corpse, the blood all over the ground, and the strong ***** odor, many people have already vomited, and many people want to retreat, but the city guards are crushed behind. The soldiers stared at them with bloodthirsty eyes, they had to bite the bullet and moved up, their whole bodies trembling, some of the timid were already crying, and even more embarrassed, holding the battlements, closing their eyes, crying and crying, refusing to go up.

Di Ping looked at this scene with a little sadness in his eyes. These people are really unavailable. Lu Guoliang and Cheng Chao gritted their teeth when they saw this scene, wishing to slash these greedy and fearful people with a knife, but they also knew it. Such things cannot be done, it will make these people more afraid.

The head of the city that these people went to hide tightly at the inner wall, not daring to step forward. Only a few bold people dared to wave their weapons, but they still shouted from behind.

The ***** city guard sergeants, who had time to control them, looked back contemptuously, and ignored him, just killing the mutant beasts that rushed in.

These city guards seem to have adapted to this ***** battle. They roared and rushed, and their combat power was maximized for a time. They even cooperated with the awakened to push the mutant beasts back out of the battlements, finally gaining a trace. A chance to breathe.

Chapter 1012: Energy bombardment to destroy the behemoth

The busiest person in the audience is Owen. He walks through the city wall from time to time, where there are too many mutant beasts, so he rushes over to relieve the siege. Fortunately, the city wall is high enough, and mutant beasts without strong climbing ability can't get on. Come, the number of people rushing to the head of the city is not too much, and finally everyone has worked together to suppress the offensive of the mutant beast.

This has caused hundreds of casualties to the city guards, and many soldiers were wounded.

Man is a strange animal. One hundred reserve players. At the beginning, all of them were afraid to die, and some almost freaked out, but as the battle progressed, each one was affected by the fighting atmosphere, bold and bloody. I started to join the battle, and soon there will be a different look. Although some of the most timid still don't come forward, they are generally pretty good. Most people have eliminated their fear of mutant beasts and dare to go. Before fighting.

Although casualties were inevitable, they were still in the normal range. It was the emergence of casualties that allowed these reserve personnel to grow rapidly. Seeing this, Di Ping's heart of burden gradually relaxed.

"Oh..."

While Di Ping was gratifying the growth of the soldiers, a terrifying roar came from the jungle again, and then the flock of birds that had been flying and landing in the jungle from time to time circling unexpectedly moved.

Thousands of mutated birds rolled toward the sanctuary like a black cloud, and the heads of people who were screaming sharp and noisy were painful.

"No, the mutant bird is about to attack!"

When Cheng Chao saw this face, he yelled in surprise.

For the refuge city, the threat of the mutant bird is far greater than the mutant beasts under the city. The refuge city lacks people and guns, and it is even more illegal to form an effective airspace blockade. Once the mutant bird comes over, the city becomes an undefended city. Who can block the attacks of these mutant birds, the number of them is too large to prevent accidental prevention.

Needless to say, everyone has seen this scene. The mutated bird's momentum is too great. Thousands of mutated birds fly into the sky and turn into a black cloud, constantly changing in shape like a black magic cloud. With a terrifying grimace, he rushed toward the sanctuary city, the flapping wings of the flapping sound became one piece, and there were bursts of roar, deafening.

Seeing the mutant birds coming over the sky, the city head was in turmoil, and everyone's faces showed a trace of fear and worry. Even Liu Zhenya, who had always been calm, also showed some horror on his face at this time, thinking about whether to go down. Hide in the city.

"Finally moved!"

Di Ping is calmer now than before. These mutant birds are like a huge boulder hanging above their heads. They can fall down at any time. In this state, it is the most uncomfortable. Now the mutant birds are activated. On the offensive, instead of the previous oppression, he breathed a sigh of relief in his heart.

The distance of fifty or sixty meters is not a space for the mutant beasts. Their speed is too fast, sweeping like a gust of wind, which makes the heart of the city guards who are fighting on the city a trace of despair, this mutation. Once the bird attacked, they simply couldn't take care of it, and the mutant beast that climbed the city had already caused them a headache.

"Zero, turn on the city defense and shoot down these mutant birds for me!"

Di Ping looked at the birds that were approaching, with two cold glows in his eyes, and his voice was cold and cruel, like a thousand years of ice, making people feel a bone-to-heart chill.

"Om!"

As soon as his voice fell, there was a sudden buzzing sound, and suddenly black guns rose up on the tower every 30 meters at the head of the city, and then in an instant, nearly two meters long black muzzle. Adjust the position of the mutant bird flock pointed.

Chapter 1013: Destroy the dead and show the hideous

More than two hundred guns pointed at the mutant birds in everyone's surprised eyes, and then saw a blue light flashing on the gun body, and the gun body shook and shot out a ball of blue light.

After more than two hundred light blue light ***** shot out from the pitch-black barrel, they were almost as fast as a meteor, as if they jumped across the space in an instant, drawing a blue light and shadow in the air.

Two or more blue ***** of light formed a beautiful image in the space, intertwined with a colorful starry sky, and a look of surprise appeared in everyone's eyes, but the surprise turned into fear in the next moment.

The blue ball of light met the birds, as if oil dripping into the water, bursts of dazzling light burst out instantly, shooting out thousands of sparks like fireworks, and then there was a roar, and the entire sky turned into a sea of fire.

The rumbling sound was deafening, and the whole earth was reverberating, as if the earth was wailing and the sky was crying bitterly, but at this moment everyone seemed to hear no sound. They all looked at the scene in the sky dully, with horror flashing in their eyes.

Those thousands of flying birds were the objects of fear, but at this time they looked like little chickens abandoned by their parents. In a group of explosions, there were countless of them being blown to pieces, and countless flames burst out from the explosion. The mutant birds surrounded and burned, and the mutant birds wailed in horror, flying around, and the cry was stern and sad, and it felt uncomfortable to pierce everyone's hearts like a needle.

Countless birds were blown into blood mist, but the next moment they were melted by the endless blue flames, and the wings were covered with flames, as if they were incarnations of fire crows, wailing and flapping their wings, seeming to want to escape this endless sea of fire.

But everything was too late. In just a second or two, the firebirds turned into black carbon and fell from the sky, like volcanic ash falling endlessly, with a poignant beauty in the floating black ash.

In just over ten seconds, there were thousands of mutated flocks of mutated birds that threw the sky and the earth like dark clouds. Only a few hundred scattered around were hovering and wailing like a panic, and then they seemed to be frightened and flew fast. After leaving, until the sky was clear, everyone looked at this scene blankly and seemed to be unable to believe it.

Di Ping was stunned to watch the scene of this round of volleys. At this moment, he realized that he was too small for the energy cannon. This energy bomb could explode, and it could explode a terrifying flame. The flame temperature is scary.

The mutant birds will be burned as long as they stick to a star or a half, and there is nowhere to hide. These mutant beasts are too concentrated, and a large group of them are killed by the group. This is absolutely necessary if they separate and fly energy cannons to kill them. It's a big energy. Before, he added all the three hundred coins he had obtained to the control system. He was afraid that the energy was not enough. He didn't expect that the city defense system's attack selection was so good, it was almost as calculated by a computer. Extremely accurate, only one round of salvo solved the problem of mutant birds.

All the spectators were dumbfounded. They thought they were going to fight to the death, but the city lord resolved it easily. Then everyone reacted and burst into cheers. They raised their weapons and shouted with all their strength to vent their joy.

The entire city became a sea of cheers. The trembling people in the city heard the cheers coming from the city, thinking they had won, and they cheered. A loud roar broke through the sky, resounding in the clouds in the sky, and mutant beasts were here. The offensive was also slow in the roar, they were shocked by this astonishing aura and forgot to attack, and their hearts were scared, some timid mutant beasts actually began to retreat.

Chapter 1014: A long roar shakes the forest

"This is not a machine gun! What kind of weapon is this? This... is this powerful?"

The boss with staring eyes, Liu Zhenya clutched the wall, his face turned pale, even his lips trembled, and the tone of the screaming voice had changed.

"Grandpa! This is by no means a machine gun, the power of this explosion is comparable to the power of a 120mm caliber howitzer!

And its speed is too fast, it is not comparable to howitzers at all, I have never seen that country has such a weapon! "

Liu Minsheng's performance at this time was more shocking than his grandfather. Maybe it was due to too many shocks during this time that he resisted the earthquake, but his eyes were still terrified, and he was a little bit as he held his body. The shaking Liu Zhenya said solemnly.

"There are too many secrets in this sanctuary city, and there are even such hole cards that are useless. The blame has to be rescued. Maybe you are right for people's livelihood. You should help them earlier. They should be able to keep this city. Grandpa is old. Some have missed the opportunity after looking ahead!"

After all, Liu Zhenye is a veteran general who has experienced the baptism of war. After the initial shock, he quickly relieved himself. He let out a long, depressed breath and said in a low tone.

"Grandpa, it's not your fault. You are also considering the development of the family. You have too many responsibilities. You certainly can't do as much as I want!"

Although Liu Minsheng also sighed in his heart, what can he say! Had to comfort Liu Zhenya.

"People's livelihood, grandpa is indeed old, he has too many worries, he cares too much about gains and losses, but he is restrained everywhere, which has caused the family development to stagnate in recent years. It is true that your young people are not as courageous and aggressive!"

Liu Zhenya said with emotion.

"Grandpa, how young are you? That's a little bit old, you are getting stronger when you grow old!"

Liu Minsheng said.

"Okay, your kid is pouring grandpa into ecstasy again, grandpa is not too confused yet!"

Liu Zhenya gave Liu Minsheng angrily, but a smile appeared on his face.

"Oh!"

At this moment, there was another beast roar in the jungle. This roar came with anger, and the entire mountain forest trembled, and the leaves trembled.

This roar suppressed the cheers on the city head for an instant, and the violent aura swept across the city. After this roar, the mutant beast group suddenly became crazy again, and a new round of attacks began again.

Di Ping was staring blankly at the clusters of green soul energy clusters like bees returning to their nests, densely packed and throbbing the sky, forming a strip of green light. It seemed that there were too many to count, and he could not count it. What is the number?

Since the beginning of the battle, he has been receiving the soul energy group of mutant beasts, and just now, the death of ten thousand mutant birds was killed, creating such a spectacular image.

Now he hasn't paid much attention to the soul energy. The soul energy in his body is getting more and more accumulated. There are already more than one hundred thousand, but he only consumes very little energy when upgrading, and he has only reached the first level. The seventh level is not very useful at all, so the more it accumulates, the more he doesn't know how to use it well, but he doesn't think too much. He believes that more and more energy will be needed to upgrade in the future. This is a pile of energy. It is always useful, and these energies are also used by his recruited heroes, so he is not afraid of much.

A beast roar awakened him, and he quickly recovered his senses, his eyes were looking in the direction of the sound through the forest, his eyes were half-squinted, his face was calm, but his heart was a little uneasy, in this jungle What kind of mutant beast was hiding? This strong pressure made him feel palpitations.

Chapter 1015: The Quartet is coming

"Ready to fight! Shoot!"

Cheng Chao reacted very quickly. Although it was also the power of the city's anti-cannon, but now the mutant beast that had retreated attacked again, he hurriedly commanded, but his aura became stronger. He had seen the power of the city's anti-cannon, and he was suddenly not afraid. Up.

If he knew that Di Ping didn't have many crystal coins to fire, he would not be so excited.

The gunfire sounded again, the bowstring snapped, and bullets and arrow feathers poured out toward the mutant beasts like raindrops. One mutant beast fell in a pool of blood. The corpses of the mutant beasts under the city piled up like a mountain, and the red blood of the fish on the ground quickly became strips. Creek.

However, with an angry and hasty roar from time to time in the jungle, the mutant beasts were extremely crazy, and each mutant beast rushed to the city to fight **** battles with the soldiers, and the battle entered a state of anxiety again.

Due to the madness of the mutant beasts, the casualties increased suddenly, and a large number of battles were reduced. This made the battle situation at the head of the city more and more dangerous, and it was impossible to become super. The reserve team was once again pulled into each team by a hundred people to withstand the baptism of war.

At this time, there are more things to teach in the battlefield than in any classroom, and the soldiers mature quickly. When the reserve personnel came up, they trembled slightly, and their faces were pale as if they were beheaded on the execution ground. They were all reluctant, but once they reached the top of the city. Above, I felt the tragic atmosphere and the fierce fighting spirit of the soldiers. They quickly integrated into it. From the initial fear to the crazy slashing of mutant animals with their weapons, it only took a few minutes.

The battle situation is getting more and more fierce. The 700 reserve team has been transferred to 500 people, but the casualties are also heartbreaking. The city army has been reduced to 300 people, and there are 200 people who are seriously injured or dead. They cannot retreat. .

So far, absolutely more than three thousand mutant beasts have fallen under the city, but the mutant beasts under the city have not been reduced, and the mutant beasts are still overwhelming. This makes both the soldiers and Di Ping feel a little worried. This has to be killed. How long is it?

"Master, the wall damage has reached 10%!"

At this time, Zhi Nao Ling's voice rang in Di Ping's ears, which caused his heart to shrink suddenly, and the city wall was actually damaged.

"Zero, how much damage the city wall defense will be broken!"

Di Ping quickly asked.

"Master, if the damage to the city wall reaches 90%, the energy defense will be lost, and then the mutant beast will be able to attack the city wall itself!"

Zero voice came.

After listening to the explanation, Di Ping's heart is tight, and now he has lost 10%, and the mutant beasts below are still attacking the city wall frantically, although every attack is blocked by a strange force on the wall, but The mutant beast showed no signs of relaxation at all, which caused him a very headache, and it would have to crash the city if it went on.

"Ka Ka..."

While Di Ping was paying attention to the defense of the city wall, there was a crackling of trees in the jungle outside the city. Although the sound was not loud, it sounded like thunder to him. He suddenly raised his head and looked at the forest outside the city.

The entire forest was calm and calm, and only one tree was swaying violently, like a monster walking through it. The crowded trees separated to the two sides, making the sound of tree breaking. The speed was fast, and it was approaching quickly, forming a wave in the forest.

"Boom..."

There was a heavy sound like a heavy object falling, and every sound of the ground trembled, as if a giant beast stepped on the ground. Di Ping stared at the direction of the sound, his complexion gradually becoming solemn.

The sound of Dong Dong became clearer and heavier, and the sound of tree cracking became denser. Seeing that it had reached the edge of the forest, the true face of Mount Lu would be revealed in the next moment.

Chapter 1016: Lightning panther hits the head of the city

"boom!"

A huge gray shadow jumped out of the forest and crashed to the ground, like a mountain falling to the ground, a great earthquake trembled and roared, and even the city wall shook a few times.

"My God! What kind of monster is this? It's big!"

Everyone in the city screamed in exclamation, even Di Ping was also seen by eyes that the monster's eyelids jumped in surprise. This monster is too terrifying.

At this time, the two most leisurely people on the city are the grandson and grandson Liu. They have been constantly scanning everything on the battlefield. When we saw a huge monster rushing out of the forest, the two of them It was also shocked.

This is a giant beast that looks like a rhino but is five or six times bigger than it. The body is too big. It is four meters high and seven or eight meters long. There are two sharp horns above the nose, one big and one small, like two. The stone pillars, the longest huge horns will be more than two meters long, and the sharp horns will shimmer with metallic luster in the sun. You can see that they are absolutely hard at first glance.

Its legs are like pillars. Every time it falls, the earth trembles like an earthquake. He is walking towards the city wall step by step. The sound of dongdong seems to be stepping on the human heart, and the shaking people's heart tightens.

"Mutated Rhinoceros: Bloodline level: b, talent skills: thick armor; enhancement level: level five, skills: collision, trampling!"

Di Ping's detection skills swept away, and the information of this mutant beast was displayed in front of him.

"Wow!"

The mutant rhino glared its small eyes, raised the sky with a long scream, then kicked off its four hoofs, and suddenly accelerated towards the city wall. It moved like a mountain at a slow speed, but it gave people a feeling of irresistibility.

Rumbled, the earth roared, and even the wall was shaking, everyone's expressions changed drastically, and their eyes were full of fear.

Di Ping was shocked when he saw this. This mutant rhino is different from the mutant dogs, mutant cows and other mutant beasts below. This is a true terrorist killer. If it hits the city wall, how much damage will it lose?

How many times can the wall withstand his impact?

This monster, no one is an opponent except itself, not only has a huge body, but also has a thick skin. You can see that the defense is amazing when you look at it. Moreover, the rhinoceros itself has a huge power. It has the ability to lower the locomotive before it mutates, let alone mutated into such a terrifying behemoth. , That power must be even more terrifying.

This monster must not let it get close to the city wall, and the city wall definitely cannot withstand its several hits!

Thinking of this, Di Ping pressed his hand on the city wall and prepared to go down to solve this monster. Only he could deal with this monster. Even Owen should not be an opponent. The weapons in their hands could not break the defense of this monster.

"Om!"

Just as Di Ping was about to jump down, suddenly there was a hum of mechanical agitation from behind.

Everyone looked back and saw the four tall guard towers on the castle. The southernmost guard tower suddenly opened up, and a cannon larger than the energy cannon on the head of the city rose quickly.

As soon as the energy cannon was raised, it quickly adjusted its position and aimed at the fast-running mutant rhino. Then the cannon body lit up with a radiance, and then the cannon body shook, "booming" a blue cone the size of a teacup mouth, from the black paint. Shooting from the muzzle, the speed seems to have broken the limit, even the air is twisting, and a blue thread is drawn in the air.

"Crack!"

The energy ball just hit the top door of the mutant rhino, and it didn't have time to react quickly. The cone made a crisp sound like a steel cone, and it went in through the hard top door of the mutant rhino, leaving a dark teacup hole in the top door. , The entrance of the cave was scorched black, as if it had been burned by high temperature.

Chapter 1017: Liu Han's **** battle against the mutant leopard

The mutant rhinoceros's violent rush is stagnant, the whole body seems to be stiff, standing with four hoofs, the powerful speed slides its body on the ground for five or six meters, and the ground is plowed out for more than two meters. Long, half a meter deep trench.

"This....."

Everyone was shocked to watch this scene. The black hole in the top door of the mutant rhinoceros looked chilling. What kind of artillery fired, how could it not be a cannonball, but this sharpness that makes people tremble. cone.

"boom"

When everyone was horrified, a roar sounded, the mutant rhino's head exploded, blood splattered, broken blood flying, the top of the head was like a pit of exploded dirt, scattered in all directions, red and white, watching It makes the scalp numb and the throat becomes dry.

The huge body of the mutant rhino shook, and fell to the ground with a "bang", arousing dust on the ground, and the blood slowly flowed out, quietly flowing to the distance like a stream.

The entire battlefield seemed to be silent suddenly, as if digesting this sudden change, the next moment, the entire city burst out louder cheers, and everyone was yelling to vent their excitement and excitement.

The terrifying mutant rhino was killed so easily. Many people were still worried that the city would be broken, but the result was unexpected and too sudden.

Di Ping, who was about to jump off the top of the city, also watched this scene in a daze. He didn't expect this energy cannon to be so powerful. It only took one shot to solve the mutant rhino, and he didn't need to do it himself. He knew, that I'm afraid that it would take a bit of effort to do it myself. It is hard to say with his strength if he wants to solve the mutant rhino with such a blow.

"People's livelihood! This asylum city is terrible!"

Liu Min Zhenya swallowed hard, with a shocked expression on his face, and said hoarsely: "It seems that we really have to reconsider our partnership with the Sanctuary City. This Sanctuary City has too many cards!"

"Yeah! Whenever you think he is exhausted, he always explodes unexpected means!"

Liu Minsheng smiled stiffly, but his smile was worse than crying.

"Yes!"

Liu Zhenya also nodded rarely, and the expression on his face was also a little stiff, he didn't know whether to laugh or cry.

During this trip to the Sanctuary City, he was shocked so much, and he felt that his heart was a little too much to bear. He now somewhat understood why Liu Minsheng wanted to promote cooperation with the Sanctuary City, even if it was himself, now It's not firm anymore. Such forces can really only cooperate. It is not at all arbitrarily chosen by themselves, or even integrating the strength of the Bianzhou Military Region.

The weapons displayed in the Sanctuary City have exceeded my imagination. Even the Bianzhou Military Region with strong military strength does not have such weapons. From his perspective, he really can't think of what kind of force or that country has such weapons. .

At this time, Di Ping certainly didn't know Liu Zhenya's thoughts. Although he was also pleasantly surprised by the power of this energy cannon, his surprise did not last long. He was staring at the jungle with a heavy expression.

A powerful power is slowly rising in the jungle, and the fierce aura is rushing toward him. He can feel the power of this momentum, and it is definitely not lower than his own strength. This makes him vigilant, and war is possible. It's about to break out.

The previous mutant beast attack is nothing to him, so he hasn't moved. In maintaining the strongest fighting state, the threat of being invisible in the jungle is the greatest, and that is the real enemy. .

Chapter 1018: Bloody Slaughter of Angry City Lord

"Wow!"

There was another beast roar in the jungle, and everyone could hear the strong anger from the beast roar.

But at this time, all those who participated in the battle in the sanctuary city burst out with waves of fighting enthusiasm, as if they were not afraid of life and death, even if the mutant beasts climbed the city again and again, they would still not have it. Horror, but it has been unable to deter these warriors who have experienced iron and blood.

"Oh oh..."

Before the roar fell, a roar also rose in the jungle around the sanctuary city, as if echoing, the roar rolled over with the incomparably powerful power and pressed against the sanctuary city, everyone's heart was one. Tight, even those mutant beasts also whimpered, trembling in shock, and many mutant beasts that had climbed halfway fell directly from the city wall and hit the ground.

Di Pian's color became more solemn. From these four roars, he could feel that these mutant beasts were not weak. The four strong blood qi fluctuations soared from the jungle like wolf smoke. This qi and blood fluctuation was stronger than himself. , He actually felt a trace of pressure, as if being affected, the qi and blood on his body accelerated, and his heart was beating even more, making his fighting spirit start to rise, and his heart was suddenly filled with raging Fighting spirit.

"Roar!"

Di Ping took a sudden step forward, stepped on the upper mouth of the battlement, and raised the sky with a long roar. This roar seemed to be not made by a human being. It was loud and passionate, deafening, and pierced through the golden cracked stone, like a tiger roaring and a dragon, unparalleled domineering, The long roar was endless, extremely long, and rushed straight to

the sky, even the dark clouds in the sky seemed to be shaken away by this domineering momentum, and the sky was clear.

At this moment, the whole world seemed to have only this long howl. At this moment, the group of beasts had their tails clamped, their heads buried on the ground, and they wailed, like a poor little beast that was abandoned, no longer the previous craziness, long howling. The sound reverberated in the heavens and the earth, and then slowly dissipated after a minute.

Everyone was stunned by the standing and howling figure, with shock and awe in their eyes. They could not imagine that a human being could have such a domineering aura, comparable to a terrifying behemoth.

"So strong!"

Liu Zhenya looked at Di Ping's upright figure, his eyes sparkling.

This exclamation was not only made by him. Everyone present made such exclamation in their hearts. This is no longer a human being, this is a god.

"Wow..."

As if provoked by Di Ping's long howl, the jungle suddenly screamed four more angry roars after a moment of silence.

Then I listened to the sound of "Ka Ka" bursting in the forest like firecrackers. The giant tree in the jungle shook violently and was shooting towards the city wall at a very fast speed.

At this time, the group of beasts had stopped attacking, and under the four horrible auras, they had already begun to be restless, anxiously spinning around and wailing.

The soldiers did the same, holding their weapons tightly a little nervously, looking at the four unknown monsters that were constantly approaching the wall.

咚咚咚咚

With four loud noises, four figures flew out of the jungle and landed on the ground. The ground was dusty, the earthquake trembled, and even the city walls trembled a few times.

The smoke was cleared, and four terrifying mutant beasts appeared in front of everyone!

"Ah!" An exclamation erupted from the crowd. Everyone looked at the four suddenly appearing giant beasts with horror, with horror in their eyes.

Even Di Ping's eyes narrowed. Through the perspective of God, he clearly saw a powerful mutant beast in one direction around the Sanctuary City, and he was only one person. How to deal with it made him a little nervous.

Chapter 1019: The name of the blade

To the south is a mutant black panther with a height of more than two meters. Its body is black and hair is shiny in the sun. Its body length is nearly five meters. It has a slender figure, a thin back and waist, and its muscles are uniform and well-defined. You can see that the explosive power is very strong, a pair of golden eyes, cold, ferocious, let people see the cold from the bottom of their heart, the soul seems to be frozen, it falls to the ground, and the body is tight and seems to attack at any time.

To the north is a mutated dog that looks like a tall horse. This mutated dog has slender limbs, thin and slender torso, and looks very tall. Its brown hair is shiny and shiny. Although it is very thin and tall, it will never look weak. , The muscles on its body are compact and powerful, and its dark eyes are shining with a cold gloom, which makes people's back chill.

To the east is a mutated giant wolf nearly two meters high with fiery red hair like a ball of fire. As soon as he rushed out of the forest, he stared at the city wall with his eyes half-squinted, with cold light flashing in his eyes.

To the west is a tan-brown mutant brown bear. Its body is bloated and its hair is plump, like a hill. It rushed out of the jungle and squeezed two two-foot thick trees. It fell to the ground. He straightened up, his height has been more than five meters, waving a pair of huge bear paws, opening his blood basin and big mouth and roaring to the sky, a pair of tusks that were more than 20 centimeters long and stubbornly cold.

"Om!"

The rotating sound of mechanical gears sounded, and four dark energy cannons rose on the four towers of the castle. The dark cannon body was shining with cold metal in the sun, and the muzzle of the black hole pointed directly at the four mutant beasts.

The four mutant beasts seemed to feel the danger, yelled at the city head, and then suddenly moved, rushing towards the city wall, very fast.

Especially the mutant black panther and the mutant dog, the speed is like lightning, and the body rushes more than ten meters when the limbs move. The mutant red wolf is not slow, just a bit behind, while the black bear is slower, but at this time it The movement is the biggest.

As soon as it runs, it is like a giant beast rushing, with great momentum and the ground roaring. The mutant beast blocking the road will be trampled to death if it does not dodge, and it will be crushed all the way like a road roller.

The warriors on the wall were all nervous. They held the weapons in their hands tightly, trying to reduce the anxiety in their hearts, but they did not back down. They thought all the time that the terrifying mutant rhinos in front had been cleaned up by the city lord. , Then these few should not be a problem, right?

Therefore, they are also nervous and uneasy, but they are not afraid. After all, the aura of these four mutant beasts is too terrible. There is no normal person who can face it calmly. If you are not nervous, it is fake, even Di Ping's eyes. He also squinted, and the cold light shone.

Liu Zhenya and Liu Minsheng were also staring at the four mutant beasts at this time. Their palms were already sweating. They were waiting to see if the terrible weapon just now could solve these four terrible beasts. Mutant beast.

Not letting everyone down, the energy cannons on the four guard towers lighted up, and then the cannon body shook, and the four blue cones rushed out of the muzzle and shot towards the four mutant beasts, as fast as lightning.

"puff....."

There was an explosion in the air, as if the air had been punctured, and the four blue cones were so fast that they could break through the sound barrier, so fast that the naked eye couldn't catch them. They jumped across the space in an instant and reached the four mutant beasts.

Chapter 1020: Only quick not to break the battle and lose

Di Ping was also staring at the system interface tensely at this time, and the levels of these four mutant beasts were clearly marked on the screen.

The weakest mutant dog is also Tier 1 and Tier 5. Mutant Red Wolf, Mutant Brown Bear and Mutant Leopard are even Tier 1 and Tier 6, which makes him a little worried. I wonder if the energy cannon can solve these mutant beasts in one blow. If you can't, he has to take action.

There was a feeling of stagnation in the air, everyone was breathing, as if they were afraid that the sound of breathing would affect the hit rate of the energy cannon, everyone was expecting a hit.

Even Liu Zhenya and Liu Minsheng are the same. Of course, they don't want this shelter to be broken. If the city is broken, they will also be in danger.

"Crack!"

There were a few crisp bones cracking sounds. Everyone felt relieved when they heard this sound. Knowing that it was a hit, they all hurriedly stared at the mutant beast, wanting to see the result.

I saw the mutant brown bear and the mutant red wolf. The body was stiff, the limbs were soft, and one head hit the ground. The huge body was carried by the inertia of the powerful body and slid more than ten meters away, and there were two traces on the ground, even more. A large swarm of mutant beasts flew, and blood splashed for a while, and the entire ground was stained red. A black lacquered hole was exposed on the top of the two giant beasts.

The mutant dog seems to be more sensitive to danger. At the last moment, its head hides, but the back half does not escape. The blue energy cone passes through its lower waist and shoots into the ground, but its entire spine is full. Being interrupted, lying half on the ground, blood-stained ground, it wailed miserably.

The mutant leopard is too fast. When the shell came, it had rushed out more than 20 meters, and it was only 30 meters away from the city wall. The energy cannon shook, and it seemed to sense it, and the body suddenly twisted and moved its body sideways. After a meter, the next moment the energy cannon rubbed its side and shot into the ground, shooting a deep pit from the ground.

"boom....."

With four roars, the mutant brown bear and the mutant red wolf exploded, and their entire heads were shattered. Blood splashed around. The shells shot through the mutant dog exploded on the ground, and the strong impact tore the mutant dog's back to pieces. The huge body was blown up and flew out, and then crashed to the ground without moving.

In one round of attacks, three of the four mutant beasts were killed, and the next moment they appeared on the stage, they received a box lunch. This sudden scene shocked everyone, but even more shocked was a fish that slipped through the net.

The mutant black panther dodges the energy cannon without reducing its speed. It shoots into the city like black lightning, and the explosion behind it has no effect on it at all. Its body is tight and suddenly jumps up, and its huge body has a terrible bounce. Jumped more than 20 meters high and rushed towards the city.

Faced with the mutant leopard, the soldiers standing at the head of the city were shocked. All this happened so quickly. Within a second or two, there was no reaction time. The mutant black leopard had already pounced. They thought that the mutant black panther not only dodges the energy cannon, but can also jump up to such a high, twenty-meter city head, it will jump up in one jump. This is terrible.

"what!"

As for the panther, someone finally reacted and let out a scream of horror. They could already see the flesh and blood on the sharp teeth in the open blood basin of the panther, as if the flesh and blood would change in the next moment. As their own, they have forgotten to dodge, and they have no time to dodge, they can only watch the huge bite.
