

Doomsday 1031

Chapter 1031: The general questioned

The fat man Chen Gang seemed to be crazy, always screaming, his fat body was a little slow, like a fat bear, brandishing a double-edged battle axe, killing right and left among the mutant beasts, as long as he rushed to the mutation of the city. The beasts were chopped in half by his battle axe.

At this time, the fat man no longer looked like the only one he used to be. His anger was full of anger, and his body was covered with blood. There were patches of red on his head, face, and body, and even his hair was congealed by blood.

Although this blood has mutant beasts as well as his own, he still doesn't care about it. In addition to killing or killing, his rush speed is too fast, causing the defending city guards to lose many mutant beasts, making them very resentful. .

Yun Mengsi stood at the head of the city, dressed in a fiery red leather coat, as if he was a witch, surrounded by fireballs, waving his staff, countless fireballs shot out, and burst into roars among the mutant beasts, and countless flames shot. The city she was defending turned into a sea of flames, burning the mutant beasts alive, and let out a scream, and she seemed very plain, everything was just watching with cold eyes, as if the blood in front of her was normal, completely Unmoved.

At this moment, the destructive power displayed by Yun Mengsi was not much worse than that of Gina, a first-level and third-level mage. The number of fireballs, strength, and flame coverage area faintly surpassed Gina.

Since joining the base, Yun Mengsi's strength has improved rapidly. Her talent has determined that she can improve faster than Gina. In a short period of time, she has used the skills of the mage so skillfully, and his mental power is stronger than Gina. , Caused her magic power to be close to Gina who is two levels higher than hers, and his endurance is even stronger than Gina, so she was so squandering, launching crazy attacks on the mutant beasts under the city, As a result, no mutant beast could rush up at her defense line, and she had burned to death with flames under the city.

The mutant beasts are not stupid either, knowing that death is still rising, many have already rushed from other defense stages, which gave her a chance to breathe, so she stood at the top of the city and defended nearly five hundred. Meters of defense.

The power of the mage is too dominant in this kind of group battle. It is simply a mobile fort. It is completely incomprehensible when the mental power is sufficient. Not to mention Di Ping's envy before, it is Yun Mengsi who looks at the chic and kills monsters. , I felt quite regretful in my heart.

I regretted not choosing a mage when choosing a career. I was almost talented. This mage is so handsome.

The little girl Luo Xinyi has fully adapted to the battle. Her short figure carrying a double-edged battle axe that is more than one meter long is very uncoordinated, but contrary to common sense, she is like a monster with great power. She waved The battle axe set off a **** slaughter on the head of the city, and no mutant beast could stop him.

At the same level and level three, her current strength is far stronger than the two people Yue Lie and Liu Han felt at the same time. Her A-level talent showed the momentum of crushing the two behind, and now she is simply a female violence. Long, the two of them couldn't beat her together, which made the two of Yue Lie very faceless.

But this Luo Xinyi quiet is just a simple and shy little girl who blushes when she talks to men. Except for food, she is no different from an ordinary pure college student, but as long as she gets a weapon and enters a fighting state, She seemed to change herself immediately, crazy and frightening, and she was called the female primacy.

Mork, Angela, and Zhang Zhengyi did not participate in the defense. They wandered around the city from time to time to treat the injured awakened. When the defensive pressure on that line of defense was high, the three would also participate in the battle. The combat power of the three is also quite strong, although they are responsible for the treatment, their combat power cannot be ignored.

Liu Han, who was rescued by Angela, had joined the battle vigorously. Although his injury was not completely healed, the pressure on the city's defense line was too great at this time, so he was willing to go to rest.

At this time, fighting broke out in every part of the city. With the awakening force, the reserve personnel pressed on the whole line, and the soldiers were brave and undaunted by the will to support. The mutant beast attack was suppressed by life and life. Security at the head of the city.

Chapter 1032: Tentative

The mutant beasts seem to be endless, and the battle has been going on fiercely. Tens of thousands of mutant beasts have been rushing to the sky. They have been fighting for an hour or two, but the number of mutant beasts in the city does not seem to decrease much. This is endless and endless. The battles made everyone not only tired, but also a kind of faint despair began to breed.

Although the awakened fighters are strong, they only have a limit. They can't reach Di Ping's abnormal physical strength. The fighting people at the limit are exhausted, their movements have gradually slowed down, and the injuries on their bodies have begun to increase.

The workload of Mok, Angela, and Zhang Zhengyi is also rapidly increasing, and the three of them have not stopped running to treat the wounded, and the three are also extremely exhausted and their magic power is almost exhausted.

As the awakeners lost their physical strength and moved slowly, the mutant beasts that flowed from the defense line also increased, which caused the casualties of the city guards and reserve soldiers behind to increase.

This caused Cheng Chao, who was in charge of the command, to wring his brows out of the water. Even Lu Guoliang had already joined the battle. One of his scholars also carried a gun and shot at the mutant beast from time to time.

Di Ping's face was calm, but in fact he was very anxious. He watched the soldiers fall, but he was helpless. He also wanted to go up and help, but a strong pressure in the jungle has been locked on him. He can feel that as long as he is A move will definitely cause this terrifying mutant beast to join, which makes him afraid to move. He has to maintain his physical strength. This mutant beast puts considerable pressure on him, and he must maintain the best fighting condition.

However, what moved Di Ping was that groups of ordinary people continued to rush to the city with weapons. These were the people who did not join the city guards and reserve team. They still came at the most intense moment of the battle. Carrying all kinds of weapons, they rushed to the city to join the battle. Even Han Zhongguo and Luo Quanyou also went to the city.

Even Luo Hongyuan, who was in charge of ironing, and Shi Dexing and his sons went to the city to join the battle. All three of them had the time to do it, much better than ordinary fighters, and they were also very brave in fighting.

However, this does not change the situation of the battle. After all, these are ordinary people. Although none of the mutant beasts rushing to the top of the city are too powerful, a mutant beast also requires three or four of them to be able to draw. The price of two casualties can solve a mutant beast.

This kind of casualties made Di Ping heartbroken as if he was pinching a grasping hand, and he could no longer bear it.

"The mutant beast is offensive too fiercely, so the casualties are too great, the city lord, have to think of something, otherwise our people will all be burned?"

There was pain on Cheng Chao's face, and he looked at Di Ping anxiously, his voice a little hoarse.

"How about the collection of crystal nuclei?"

Di Ping did not answer his question, but suddenly asked.

Cheng Chao was stunned for a moment. He didn't know what Di Ping meant when he asked this sentence suddenly, but he hurriedly replied: "The order has been sent down, I believe it will be handed in soon!"

"Ok!"

Di Pingyuan nodded expressionlessly. If the crystal nucleus is not delivered, there will be no crystal coins, and the energy cannon cannot be launched without energy. He has no good way now, and can only rely on these people to fight to the death, but he looks willing to speak. Cheng Chao stopped again, his heart moved. He felt that Cheng Chao must have some thoughts when he asked this, so he asked, "Do you have any good suggestions?"

Cheng Chao heard this with joy, and approached Di Ping and whispered: "City Lord, are we looking for Liu Zhenya? He is an elite unit with three to four hundred people, if they can help us defend the city, We have to relax a lot, after all, they have advanced weapons!"

Di Ping's eyes were fluctuating when he heard this. After a while, he looked into a super low voice and said: "Do you think Liu Zhen Yaken used his troops to help us defend the city. This is not a playhouse, it is a death." Do you think he is willing?"

Chapter 1033: Favor is the most difficult to pay

"This....."

When Cheng Chao was asked by Di Ping, his complexion suddenly became stiff, and he couldn't speak.

This is indeed a problem. Liu Zhenya is different from Liu Minsheng. This is a character who can't be more refined after his hair is stuck. Will he be willing to push his hundreds of elite troops to coexist and die with the Sanctuary City?

Obviously, Liu Zhenya is not such a person. He is determined to get the most benefit from the city of refuge. If he doesn't squeeze enough benefit from Di Ping, he will not let it go easily.

"Our city is broken, and he can't take care of himself. This group of us is to help him!"

Cheng Chao seemed to suddenly think of the reason and said anxiously.

When Di Ping heard this, he shook his head faintly and said: "Liu Zhenya is not someone who can impress Liu Minsheng by righteousness. If the city is about to break, he will not come to fight. Once the city is broken, we have to retreat. In the inner city, by then he will have to rely on him to defend the inner city. His army is in a complete state and will become a force we have to rely on. Isn't this the bargaining chip he wants?"

"Oh!"

Cheng Chaomeng slapped his forehead and suddenly realized: "I have forgotten that we still have the inner city?" He said with joy on his face and asked: "The city lord, are you going to give up the outer city and defend the inner city?"

"No!" Di Ping shook his head firmly and said: "We can't lose the outer city, even if we sacrifice many people, we must defend the city!" As he said, he looked into the distance and slowly said with a solemn expression: "The city of refuge cannot be lost, and I am confident that I will be able to hold the city of refuge, and we will surely win!"

Cheng Chao looked at the heroic Di Ping, and his eyes flashed light for a while. As a high-level base, he also knew that the outer city could not be lost. Once mutant beasts invade the city, some powerful buildings in the city will definitely be affected by these. Mutant beasts can destroy all of them. This is too great a loss for the Sanctuary City, especially the most important tavern that Cheng Chao thinks, which is the place where the Awakened transfers.

"Okay! City Lord, even if I desperately, I will also guard this refuge city!"

Cheng Chao slapped his chest and said with a firm expression.

"Collect the crystal nuclei as soon as possible, this is the key to whether we can hold the city!"

Di Ping looked at Cheng Chao who was about to turn around and reminded again.

"Yes, Santo!"

Cheng Chao nodded, then solemnly turned and prepared to leave, but he just walked to the top of the stairs and suddenly stopped again with an unexpected expression.

Because two people walked in at the stairs of the viewing platform, and they were two people he was surprised.

These two are not others, they are Liu Zhenya and Liu Minsheng. Both of them have weapons in their hands. Liu Zhenya is carrying a gun, while Liu Minsheng is carrying a long knife. Both of them have blood on their bodies. , Shocked Cheng Chao, and hurriedly asked: "General Liu, what do you mean?"

He stood at the top of the stairs and blocked Liang's route, and the two messengers standing on the side also felt that Cheng Chao's expression was wrong, and hurriedly walked to Cheng Chao's side with his weapon, staring at Liu Zhenya vigilantly. , Looking at their nervous expressions, it seems that there is something wrong with the rhythm of the war immediately.

Liu Zhenya saw the vigilant expressions of the trio. He was taken aback for a moment, and he immediately understood. He grabbed the gun in his hand and said with a smile: "Commander Cheng, don't get me wrong, we just want to talk to City Lord Di. , But there are too many mutant beasts in the city, so I have to fight over with a weapon!" He glanced at Liu Minsheng, reinserted the gun in his hand into his belt, and Liu Minsheng threw the knife aside.

Chapter 1034: Collect crystal nuclei to kill

"Old General Liu, the city is too dangerous, why did you come up?"

Di Ping hurried over when he heard the voice, and saw the two of them say something unexpected.

"City Lord Di, I don't like to hear what you said. It's not a big talk. I have never seen someone like Liu in a big battle. There were gunfire on the battlefield and the bullets were raining. I didn't even frown. Danger, see, the blood on this body is all mutant beast!"

Liu Zhenya heard that his face was stubborn, and angrily pointed to the blood on his body and shouted.

"Haha! It's... it's mine. Old General Liu is still a tiger general in the army. What a mutant beast is, it's my gaffe..."

Di Ping looked at Liu Zhenya's angrily and was also amused at once, and hurriedly smiled and apologized.

"Of course, I am not a vegetarian!"

Liu Zhenya stared, patted the gun on his waist and said proudly.

Cheng Chao and Liu Minsheng also showed a faint smile. No one wants Liu Zhenya, who has always been serious, to have such an interesting side, like a proud child.

Di Ping invited the grandson of Liu's grandson to the viewing platform. On the second floor, you can see the battle situation of the entire southern city head. The battle on the city head is very fierce. The awakened people are constantly piercing the edge of the city head. Only the mutant beasts that rushed up slashed, and ordinary soldiers, some used bows and arrows, some used spears, and some used knives to fight the mutant beasts into a ball.

From time to time, someone was bitten or scratched by the mutant beast, and then the mutant beast was hacked to death by everyone. The battle was very fierce. The milky white city was full of blood stains, and the blood on the ground was too late to drain, and a layer was accumulated, like It was like stagnant water, and a foot of blood was stirred up, and it looked shocking, like being born in a **** ghost.

Standing here, Liu Zhenya really felt shocked. The battle was more fierce than he had imagined. How many people and mutant beasts had to die to accumulate such terrifying blood, the whole city was so angry that it made people nauseous. They didn't know it, which made him respect the lives of the Sanctuary City. Such a cruel battle, so many people spontaneously rushed to the city to participate in the battle, even if they knew it was death, they were not afraid.

You must know that these are all ordinary people. They are not soldiers who have experienced iron-and-blood wars, but they still have this belief. The fearlessness and courage in the hearts of the people in this city have been thoroughly aroused. They are not afraid of death for a belief. Fighting one after the other, even if you know it is death, you will never go forward. Isn't such an army and the people admirable?

This reminded him suddenly of the tragic years before. He also relied on his passion and faith in his chest, even if he knew it was death and he had no hesitation on embarking on this road of battle, his countless companions fell. He fell by his side and fell in a pool of blood, but countless people still joined in and continued to fight. This is the power of faith.

For many years, he thought he had forgotten, knowing that these things are still hidden in his blood. Today, when they are activated again, his body is shaking slightly. This is excitement, and this is blood surging.

He no longer cares about gains and gains or losses. There is a raging flame in his chest. It seems that he is going back to the war years of the year. He wants to join the battle. He can't just watch the same kind fall under the claws of mutant beasts. .

He couldn't help but think of Liu Minsheng's words just now: "Grandpa, I think you have changed. You have become too concerned about your gains and losses. If this was your year, if there was a commoner in a **** battle, I believe you will rush to fight desperately!"

These words stung him deeply and activated the deepest memories hidden in his heart. These memories came like a tide, making him unprepared and unable to hold back, so he came to Di Ping.

Chapter 1035: Human weapon reveals hideous

"Please tell me what's the matter with General Liu!"

Di Ping watched Liu Zhenya ascended to the viewing platform and watched the battle in the city head in a daze. He was a little anxious. Now that the city head is in a ***** battle, how much time is there to spend with him, so he directly asked.

"City Lord Di, there is a saying that someone from Liu, I do not vomit, and I don't know if it should be said!"

When Liu Zhenya heard Di Ping's question, he calmed down his agitated mood and turned to look at Di Ping with a serious expression.

"Oh! Old General Liu has anything to say, you can just say it, what's wrong!"

Di Ping was a little wondering where Liu Zhenya's sudden sentence came from, and his expression was still so serious.

"Okay! Then I'll say it"

Liu Zhenya looked at Di Ping and nodded, "I feel that City Lord Di does not love your city people!"

What?

Hearing Liu Zhenya's words, everyone present was stunned, and they didn't understand where he started, even Di Ping was also stunned.

However, immediately, including Cheng Chao, their faces sank. The two soldiers looked at them and looked a little uncomfortable. Who doesn't know how much the city lord has done and suffered for these city people to live a good life, dare to dare Saying that their great city lord doesn't care about these city people, how can this not make them angry.

Cheng Chao looked at Liu Zhenya with a slightly unhappy expression:

"Oh! What does Old General Liu mean by this? You know it's not the city lord, these..."

However, before he finished speaking, Di Ping waved and interrupted him. He looked at Liu Zhenya indifferently and smiled lightly: "Old General Liu, please speak, Di Ping listens thoroughly!"

Liu Zhenya looked at Di Ping with an indifferent expression, and felt a trace of emotion in her heart. This young man is really not simple. He already possesses the temperament of the leader Tai Shanfeng and does not change his face. Facing the doubts raised by himself, ordinary people He would call to refute, even if he didn't refute, his face would show some displeasure, but this young man is so plain that you can't see his mood swings, and it seems that his heart is like still water and can't cause any ripples in his heart.

"City Lord Di, I want to ask, in today's battle, your personnel lost a lot, right?"

Liu Zhenya stared at Di Ping with his eyes half-squinted and asked softly.

"Yes, there are many casualties, more than half of the city guards have casualties, and there are also many casualties among ordinary people!"

Di Ping's face was dark when he heard this and his voice was slightly low.

So far, the casualties are indeed very high. Liu Zhenya's mentioning at this time is not to say that it is throwing salt in his heart, which makes him very uncomfortable. Although he is not happy, he can't guess Liu Zhenya suddenly asked what this meant, but he still No concealment, answer truthfully.

Liu Zhenya nodded. He knew that Di Ping hadn't lied, but he was not prepared to just ask about this. He still stared at Di Ping seriously and continued:

"Well, I would like to ask Di City Lord, since the casualties are so great, why refuse to contact me, why not let our troops participate in the war? These are all well-equipped elite fighters. I dare not say that they are invincible. It is much more useful than these ordinary people. Since City Lord Di loves the city people, please tell me why?"

At this moment, Liu Zhenya asked Di Ping loudly, and the general's power was undoubtedly revealed at this moment.

Di Ping was shocked when he heard the words. Liu Zhenya's words were neither light nor serious, but he did speak to his heart. First, he wanted to stimulate the potential of the city guard through this guardian warrior and prepare for awakening. I was really afraid of Liu Zhenya's lion's exaggeration, so he kept pressing down and did not ask Liu Zhenya for help. Even if Cheng Chao suggested that he also rejected it. Based on his observation of Liu Zhenya, this person would not be so easily impressed. I never thought I was not lighted by Liu Zhenya.

What Liu Zhenya just said is not wrong. I really think too much. If I don't think about it, I ask Liu Zhenya for help at the beginning. Once the army enters the war, his personnel will not lose too much. Is he too anxious? It's too much to talk about gains and losses.

At this moment, a strange thought arose in Di Ping's heart, but he suppressed it again in an instant. The defensive battle this time has a huge relationship. It does not arouse people's minds and force their potential. The number of awakened people in the base It hasn't been able to go up all the time. If human beings want to survive, it is definitely not enough to rely on him alone. He needs more colleagues to work hard together.

Chapter 1036: Realm gap and chasm

At the same time, Di Ping felt something wrong, why Liu Zhenya had such a sudden change before and after, which made him very puzzled.

Although Liu Zhenya's character is not very well understood, he judged the same after a conversation. This is an old man with a scheming and wit like a fox. He is very difficult to deal with. If he rescues him, he will definitely agree, but never Let Di Ping have a good time.

But now he has passed the responsibility to Di Ping, not mentioning the conditions and other issues. It seems that he is really thinking about the city of refuge, which makes Di Ping uncertain for a while what the old fox intends.

"General Liu misunderstood. After all, the visitor from your ministry is a guest. How can I dare to help us defend the city? This is not a joke after all, it will kill people. It will be bad if it will cause the loss of your ministry. !"

Although Di Ping did not understand what Liu Zhenya's move meant, he still explained with a smile.

"City Lord Di, you look down upon me, Liu. It's our duty to help each other as a human being. What kind of host and offense are we? What's more, we are soldiers. The duty of soldiers is to protect the general public. We really want us. Being a tortoise will shame the soldiers!"

Liu Zhenya stared and said angrily.

"Dare that dare!"

Di Ping smiled bitterly and waved his hand again and again: "Old General Liu, if you don't come to me, I'm going to beg you. Your troops are our killer. How dare you show this last card before the last moment? !"

In fact, Di Ping was very guilty of saying this, but he still had to say that he didn't expect Liu Zhenya to come suddenly. This caught him by surprise. There was a sense of wanting to participate in the war between the lines, so he went down to the donkey and watched this. What is the plan of the man?

However, standing next to Cheng Chao heard a smile on his face. He had long wanted to pull Liu Zhenya's army over to defend the city, but as Di Ping said, Liu Zhenya was not easy to impress, and

he didn't necessarily put his troops in. In this cruel battle to defend the city, but now Liu Zhenya suddenly proposed to participate in the war, which made him a little surprised. At the same time, he wondered how Liu Zhenya had such a sudden change. Although he didn't understand, he was happy. As soon as the soldier participated in the war, the anxious situation in the city might be broken, and he was so unhappy.

"I said that although Di City Lord is young, he has big ambitions and has a strategy. How could he be a small-minded person? I have said that there is an arrangement! You see... this is not wrong! Haha..."

Liu Zhenya's tight face loosened, then looked back at Liu Minsheng and laughed.

"I'll plug in!"

Di Ping almost didn't suffocate his old anger. This Liu Zhenya would really point to the monk and curse the bald donkey. The original cooperation has been discussed with Liu Minsheng. Once you have been disturbed, you feel that you have given less, completely a profiteer. He is the kind of master who doesn't see rabbits and scatters eagles. Now he suddenly becomes generous and says that he is narrow-minded. If it is not for his age, he would have to kick him.

Cheng Chao's smile also stagnated. He turned his gaze to Di Ping, wanting to see Di Ping's expression, but he was disappointed. Although Di Ping was not happy in his heart, his face remained calm, with a bright smile on his face, as if he did not hear the thorn in the words.

Even Liu Minsheng's mouth was twitching. He didn't understand what his grandfather was doing today. He had to twitch Di Ping like a craziness to stimulate Di Ping to do what he did. Would you still be grateful?

However, Liu Zhenya kept his eyes half-squinted, paying attention to Di's expression. His words today were of ulterior motives. As a temptation, he wanted to see how this young man's temperament was, but he was frightened. Go deep!

It's almost deeper than some old birds of the rivers and lakes. If it weren't dull and didn't catch the meaning of the words, then this person's mind was absolutely deep. If he didn't hear it, he could endure it, and it had to be shocking.

Chapter 1037: Ridiculous battle

Liu Zhenya still has the first consideration. Originally, he wanted to use the army to participate in the war, as a bargaining chip from Di Ping, in exchange for more good conditions, but because of

Liu Minsheng, he changed his mind to help defend the city, but he You can't help in vain, you have to get some benefits, but he can't ask for this benefit. He can only stimulate Di Ping so that he doesn't forget to give some benefits. Otherwise, isn't it too bad?

At this time, Di Ping was not as indifferent as Liu Zhenya thought. He knew suffering. Today, he felt the power of these high-level figures. Liu Zhenya came up with a gun and a stick, seemingly unintentional but intentional everywhere. Although he thought Smart and flexible mind, but can't think of it deeply.

With a few simple words, Liu Zhenya slapped a snake with a stick, and pushed all the responsibility on Di Ping, and also made him owe personal love.

Di Ping was a little speechless. None of these veterans of the rivers and lakes are comparable. It is really tiring to communicate with these people. If you are not careful, you will suffer a dark loss. No wonder Liu Bingyu said that it is best not to negotiate directly with Liu Zhenya. It is most suitable for Lu Guoliang and Han Zhongguo.

Cheng Chao is worse in this respect. Sometimes the difference in level determines your horizons and insights. It is difficult for you to see through many things. If Lu Guoliang was present today, it might not be the case. Liu Zhenya just one Quoting the topic, Lu Guoliang might see something. These people are veterans in officialdom, and they are the most agile, but they are still too young to resist for a while.

However, Di Ping didn't care when he thought about it. He also understood what Liu Zhenya meant.

The meaning of today's sudden visit is very clear, that is, to show his favor, which shows that he has been willing to cooperate, but the original negotiation terms have now become owed.

The method has changed a bit, but the goal is the same, that is, to maximize the benefits. It is always uncomfortable to negotiate terms, but now it is owing to favors, and what I give to myself is not so uncomfortable. It's really a good calculation to be so petty.

But this calculation made Di Ping angry. Liu Zhen and Ya Di Ping, who had smiled again, shook his head indifferently. Once he fell in love with it, he liked to use it everywhere. It's really nothing to give him more benefits. , It's still a bit unhappy just being calculated like this.

"City Lord Di, our 362 sergeants are all assigned to you, you can order them!"

Liu Zhenya's goal has been achieved and he has directly handed over the command of the sergeants to Di Ping.

"Is this appropriate?"

Di Ping hesitated.

Liu Zhenya stared at the words: "What's wrong with this, just give the order!" He turned to look at Liu Minsheng and said solemnly: "Minsheng, go and gather the troops and hand them to City Lord Di. command!"

"Yes!"

Liu Minsheng saluted.

Di Ping smiled slightly and shook his head and said, "Old General Liu, don't do that. I don't have much experience in command. I don't know how to use these people!"

"What does City Lord Nadi mean?"

Liu Zhenya looked at Di Pingdao with a look of confusion.

Di Ping pondered for a moment, then pointed to Cheng Chao and said, "Old General Liu, I beg you to be tired. Commander Cheng, you also know him. He is now the head of our city guard and he was also the one who fought this time. Commander-in-chief, I would like to ask General Liu to cooperate with Cheng Jun to command the battle, and see how the troops can be transferred to the head of the city for defense! Do you think this is feasible?"

Chapter 1038: The main gun rises and waits for the roar

"This....."

Liu Zhenya was a little confused by Di Ping's hand. He handed over the army to him. He didn't want it, and let himself be responsible. What did this mean, he didn't know how to respond for a while.

"General Liu, please don't postpone it. On defense, we still need your experience and guidance!"

Di Ping said immediately.

"Well then! I'll be involved in the planning!"

Liu Zhenya didn't see Di Ping's expression as a fake, so he didn't postpone it. Besides, standing on this viewing platform can see the battle situation of the whole city more clearly, and there is not much danger, let alone blood in one place. Standing here is comfortable. Quite a lot, better than standing on top of the city.

What's more, he can also show off his strengths and show Di Ping how good his battlefield veteran is. He was not in vain in the iron-blooded war.

Cheng Chao was overjoyed and hurriedly asked Liu Zhenya to watch the deployment plan. The two discussed the defense, and Di Ping once again observed the fighting situation in the entire sanctuary.

Through the system interface, he can see the battle situation of the entire city owner. The battlefield situation is not optimistic. The mutant beast seems to be tired, and constantly attacks the city, which puts a lot of pressure on the defense of the city.

After all, manpower is not infinite, the constant fighting, the consumption of everyone is huge, even the awakened can not bear it.

In the time of talking to Liu Zhenya, many people were injured, and even the Awakened were also injured, which made Di Ping's heart faint.

Fortunately, Liu Zhenya has already participated in the war. Liu Minsheng has already recruited several soldiers under Cheng Chao's arrangement. These are all heavily armed soldiers. Once they join the battle, the balance of the battlefield may shift.

"City...Lord, this...is the nucleus of the collection!"

Just as Di Ping was sighing, a soldier ran over panting, panting while carrying a leather bag in his hand.

"How many?"

Di Ping immediately took it over excitedly.

"Come...too late...to count, there are...one...more than a thousand!"

The soldier answered quickly.

"Great!"

Di Ping's eyes burst with unconcealable excitement. He really fell asleep and came to the pillow. The energy cannon has been dumb for a long time. These crystal nuclei can be exchanged for crystal coins. This is the main energy of the energy cannon. There are more than 1,000 crystals. Nucleus, exchange a few thousand crystal coins, then let these mutant beasts taste the power of the energy cannon.

"Go, hand over the crystal core to the director of Treasure Building Dolo!"

Di Ping handed the crystal core to the soldier again, and ordered directly.

"It's the city owner!"

The soldier didn't care about breathing, and ran away after taking his command.

Although the buildings of the system are not open, everyone at these building bases has basically known that these system building managers have not appeared in the public view once, and it is difficult to keep people from paying attention. These unopened magical buildings have long caused many People are very curious, so although it is not open, it is no secret in the base.

Seeing the warrior go away, Di Ping feels a little relieved, everything has developed towards the best situation, as long as these mutant beasts are solved, what will happen to the mutant beast with hidden command in the jungle.

Now this mutant beast is staring at itself closely, except for its minions, to see how powerful he is.

If it weren't for this terrifying mutant beast staring at him in the dark, he would have rushed to the city's head to fight. With his strength, he could destroy tens of thousands of mutant beasts, but it would only reduce casualties. Doubtless, he is undoubtedly facing these low-level mutant beasts and massacres at this time.

Chapter 1039: The roar of artillery

Liu Minsheng moved quickly. Through the system interface, Di Ping had already seen that the troops of the Bianzhou Military Region had assembled quickly, at an amazing speed, one by one, fully armed, and the weapons that Di Ping had previously taken care of were also sent over. The soldiers are quickly assembling weapons.

From then on, Di Ping knew how many weapons Liu Zhenya brought, not counting more than a dozen tanks. The rockets alone were piled up in boxes and boxes, not to mention all kinds of ammunition and weapons.

Following the discussions between Cheng Chao and Liu Zhenya, the army was divided into four groups and quickly surged up on the walls of all parties. They moved quickly without a trace of mud and water, which made Di Ping look at him.

They are indeed elite fighters. They are banned one by one and acted swiftly, but within ten minutes, these people have rushed to the front of the city and rushed towards the planned defense.

The army was fully armed to open up the city wall, which brought great encouragement to the already extremely exhausted guards who sheltered the city, and each one of them suddenly revived strength, shouting and fighting excitedly.

Da da da

When the first gunshot sounded, a burst of fire broke out from the top of the city. One muzzle sprayed fire and rain towards the mutant beasts under the city. At this time, there was no need to aim, the overwhelming mutant beasts could be hit by an idiot. Blossoms of blood burst in the herd.

The most frightening thing is that a dozen or so machine guns also roared, and in the daytime, fire snakes were formed like greedy beasts. They were opening their mouths and devouring the mutant beasts. The mutant beasts were terrifying. Machine gun bullets shred their bodies and flew across. These low-level mutant beasts were also unprecedentedly vulnerable to human terror-killing machine guns. In the herd at this time, speed did not play a role, only some thick armor. A mutant beast with a shell can block a few cannons before being torn apart by the terrifying machine cannon.

Boom boom boom

Rockets flew from the top of the city to the group of animals, bursting into flames, and each rocket could explode within a range of forty to fifty meters. Countless mutant beasts were blown into fragments by a strong explosion, and countless limbs were broken. The remnant intestines were flying in the sky, looking shocking.

The dense clusters of mutant beasts that had originally piled up under the city became the best targets at this time. Every time the rockets fell into the beasts, dozens of mutant beasts could be blown into the sky, exploding a cloud of blood fog.

At this moment, the weapons of mankind showed unparalleled power to the mutant beasts. The fact that mankind can become the overlord of the earth is not due to luck, but the power of mankind in weapons.

Di Ping looked at the torrent of bullets leaning at the city head with some emotion, and a fire net was placed on the city head. Any mutant beast can only be torn into pieces when it enters the net.

This is just the result of more than 300 people. If this is tens of thousands?

Di Ping suddenly didn't dare to think. He hadn't been on the battlefield. Based on the battle scenes he saw in the movie, he thought he knew the strength of the military. Now it seems that he is too shallow, even if he is really real. In the face of such intensive shooting, it is difficult to retreat all over, he is not strong enough to ignore these bullets, not to mention these cannons and rockets.

From this, he knew that there was no reason why the Bianzhou Military Region could gather hundreds of thousands of people and still stand. There are nearly 20,000 soldiers in the Bianzhou Military Region. Weapons and equipment are more complete and richer than these soldiers. Rockets, artillery, and even missiles, it would be unimaginable if all the artillery fired together.

Now he feels how ignorant he is to be able to compete with the Bianzhou base. Although the Bianzhou Military Region will not use the entire army to deal with himself, it is still okay to use one or two thousand people. Sanctuary City How will it resist?

Thinking about it, he felt scared, really ignorant and fearless!

Even if he is not afraid, but his subordinates are afraid, they don't have the strength of their own, facing this rain of bullets, a few people can stop them.

At this moment, he decided that before the asylum city had enough strength, he would not be able to turn his face with the Bianzhou Military Region in any way. Liu Zhenya's he would have to win it anyway, even if he would give more benefits. The strength to confront the Bianzhou Military Region.

Chapter 1040: Mysterious behemoth descended from the sky

Liu Zhenya and Cheng Chao also stood aside watching the battlefield situation. When the gunfire sounded, he looked at Di Ping calmly. Di Ping's flash of shock did not escape his sharp eyes. At this, the corner of his mouth lifted a slight smile.

He finally let go of his tense mind. This young man who has been putting a lot of pressure on him has finally changed color. It is not because of his impeccable performance. The previous Di Ping's performance was too indifferent, making him somewhat unable to speak. It's not like what a young person should have, it's like a person who has no desires, no desires, no emotions, and no one can figure it out.

The loss of the first confrontation made Liu Zhenya a little angry. Today, he finally moved back to the game, which made him feel a little more comfortable.

In fact, Liu Zhenya was bluffed by Di Ping. Di Ping was not as clever as he thought, but as the last days struggled to see more life and death on the line of life and death, his mind became tough and he felt immobile, and his mental power improved. His mastery of Xin Jing became stronger and stronger, and his mood fluctuations became smaller and smaller, making it difficult to perceive what he was thinking. This made Liu Zhenya feel as difficult to deal with as if facing a master game player.

Of course Di Ping didn't know that his flashing expression was seen by Liu Zhenya, who had been paying attention to him, but even if he knew that he might just smile and ignore it.

Of course he didn't know that he was also bluffed by Liu Zhenya. You must know that the five hundred soldiers he brought out were the elite of the elite. All the sophisticated weapons were fully automatic weapons, equipped with rockets, machine guns and tanks.

Although there are nearly 20,000 soldiers in the military area, most of them are only semi-automatic weapons, and there are not many machine guns. They are equipped with such a complete range as the 500 people. If the military area is all at this level, Liu Zhenya would use it to get angry Do you negotiate with Di Ping, a young man?

It is enough to bring the army directly to flatten here, there is no need to worry about what is wrong with the Bianzhou base.

Moreover, he knew that he had spared no effort today. He was fully supplied with ammunition, and Liu Zhenya's heart was dripping with blood as he watched the bullets leaning out like a torrent.

In today's battle, he may have consumed most of the ammunition he brought. You must know that the military area is not rich now. These are still his Liu family's wealth. Chu Dingbang would not be so generous to supply him with so many ammunition.

But in order to shock Di Ping, he had to spend his money, but the effect was wrong. It should have shocked the young man and demonstrated the strong military power of the military region. I want to come to the next negotiation to talk more!

When it comes to Liu Zhenya's position, there is someone who is simple, and even facts that don't sound good will bring echoes, and there will be a chance everywhere.

Di Ping is still relatively tender. Although he is now getting stronger and stronger, his brain is getting smarter, and he can understand many things as soon as he thinks about it, but after all, he still has too little experience, which limits his vision.

Sometimes it's not that you're not smart enough, but that you're not standing at a height enough. To put it bluntly, it means you don't have enough experience. He still needs to be tempered and has a long way to go.

However, Di Ping really didn't want to play with these nerve-wracking things. He didn't care whether Liu Zhenya could think through his mind or see through his expression. He had already embarked on an evolutionary path and his way of thinking was also changing.

Mankind is bound to enter a new stage of evolution. The world in the future will be the world of the awakened. This is no doubt a matter. For him, his own strength is the guarantee of survival in the last days. Without strong strength, all calculations are empty.

He doesn't care what Liu Zhenya calculates, and he doesn't care what he can give. As the strength of him and the Sanctuary City increases, Liu Zhenya's calculations will ultimately be meaningless. Cooperation is under equal strength, without equality. Some cooperation.

This is also a difference in realm. What Liu Zhenya is currently buying is dispensable for Di Ping, and if he gives it to him at will, what is the difference?

Before entering the world of the awakened, Liu Zhenya will never understand that the real problem is there!
