

Doomsday 1091

Chapter 1091: Wei Siming on the attic

Everyone in Han Ming unexpectedly touched the nearest thirty or forty-high hill, which is only 500 meters away from the temple. Climbing on the top of the hill can overlook the entire temple.

This is a valley with an area of five or six hundred acres of land. The temple is built on a hill in Chuguang. The temple is not large. It enters the courtyard and the temple gate faces south. The one facing Han Ming is about three meters high. The red-topped yellow-faced wall is about seven or eighty meters long.

The hill where the entire temple is located is surrounded by a lake the size of one hundred acres, forming a lake on three sides, one facing the topography of the mountain, the lake is breezy, the water is rippling, it is extremely calm, if not for the end times, this is a good place for self-cultivation. .

This plot can be said to be a good defensive place. There is only one way to reach the temple, and due to the existence of the lake, only a passageway about 100 meters wide is left.

As long as the military guards this passage, even with thousands of troops and horses, don't even want to invade the temple. Therefore, this choice was chosen as a temporary rest place, which shows that there are experts in the military.

At this time, the passage connecting the temple to the outside world was already devastated. There were a lot of trees originally, but now they are all broken wood and leaves. The ground was blown into deep pits by fierce artillery fire. The battle is extremely fierce.

Seeing the situation on the battlefield, Han Ming was stunned. He didn't expect to delay the kung fu for a while. The form on the battlefield had changed. The military used this easy-to-defend and hard-to-attack place to stop the attack of mutant spiders. , This one hundred and ten-meter zone has saved the military too much defensively.

Relying on the temple, three lines of defense were set up. The first line was a line of defense that was piled up 30 meters away from the wall; the second line was to directly use the wall as a line of defense; the third line was set up on several houses in the temple. At the shooting point, the three lines of defense formed a crossfire, turning this into a desperate place for mutant spiders.

The mutant spider colony that used to be aggressive, now the offensive has become sparsely scattered, and the number of mutant spiders on the battlefield will not exceed 200 without counting, but they are no longer swarming, and from time to time there are three or five mutant spiders. The ditch and gully rushed to the temple, so that the military had to guard tightly, fearing the mutant spider rushed up.

Standing on the hill, Han Ming could clearly see the machine guns erected on the defensive line, especially on the fence. There were no fewer than 30 machine guns on the 70-80-meter courtyard wall, as well as a few machine guns and long guns. No fewer than a thousand, densely covered with walls, black hole muzzles pointed in this direction, from time to time, some muzzles shot out flames, tearing the mutant spiders that were sneaking into pieces.

Han Ming couldn't help his tongue. This military is indeed strong. With so many weapons, just looking at the fire snake sprayed by the machine gun makes people scalp numb, especially the artillery. Even the big tree hugged by one person becomes under the machine gun. A fragile piece of paper.

"It's not easy to advance! With such a strong firepower, we won't be screened if we suddenly pass!"

Lu Fang looked a little ugly as he watched the bullets rain outside the temple.

Needless to say, Han Ming is also aware of this problem. The biggest problem now is not the mutant spiders, but the guns of the military. Who knows if they will suddenly come on a bullet, they can't resist it. Live without seeing the powerful mutant spiders were instantly torn to pieces.

"If we don't lose the walkie-talkie, we can contact the inside and let the inside answer it!"

Liu Mingyuan stopped a big tree with a regretful look.

"Aren't you nonsense!"

Zhang Zheng glared at Liu Mingyuan with an angry look.

"you....."

Liu Mingyuan just wanted to say something, but in the end he endured it. After all, he owed his family love.

"How about living in the water!"

Liu Changhe, who was carried by Yu Yuanhua, suddenly said.

"Yeah! We have been in the water, it is not safe!"

Yu Yuanhua also brightened his eyes.

"Don't even think about it, the water is more dangerous than the ground!"

Before everyone was happy, Liu Mingyuan's words caused everyone to pour a basin of cold water on their heads, and extinguished the flame of excitement.

"What's the danger in the water?"

Lu Fang looked at Liu Mingyuan.

Liu Mingyuan smiled indifferently: "The ground animals have mutated, wouldn't the water in the water mutate?"

"Fish will also mutate?"

Liu Changhe looked disbelief.

"Of course, we didn't know it before. Just yesterday, when we just arrived here, some people ran into the river to clean, and as a result, more than a dozen people were carried into the water by a group of strange fish, and the lake was stained red with blood. No one dares to approach the water now!"

Liu Mingsheng now talked about what happened before, with horror on his face, as if tragedy happened right before his eyes!

Chapter 1092: Take care of the overall situation in times of crisis

"My God! Is it even so dangerous in the water?"

Liu Changhe said with a look of surprise.

Everyone had lingering fears on their faces. If this is not for Liu Mingyuan, and everyone really gets into the water, it would be troublesome.

Even Han Ming was somewhat glad that he had saved Liu Mingyuan, otherwise he would have to suffer a big loss. It seems that sometimes saving a life is really rewarding.

"so what to do now?"

Can't get through the water, everyone turned their eyes to Han Ming again, and Lu Fang asked softly.

"We can only break through. We walked from the river, where the terrain is open, and the soldiers inside should be able to see us!"

Han Ming glanced at the battlefield for a while and finally pointed to the lake shore road on the far right.

Everyone saw that it was indeed a slope-shaped rock belt, about ten meters wide. There were no trees, but some weeds grew tenaciously in the cracks of the rocks. As long as they went to this area, they believed that the temple should be able to see. To theirs.

"Lu Fang, Yu Yuanhua, the three of us are side by side in front, you should not fight behind you, just follow us, be careful not to fall behind!"

Han Ming solemnly looked at several people and explained.

"Okay! Don't worry, Brother Han!"

Everyone responded in unison, but there was a nervous expression on their faces, and the hands holding the weapons were slowly tight. After all, they had to face the mutant spiders. If they wanted

to rush to the river bank, they would have to rush through the mutation 100 meters away. Although there are not many spiders here, there are more than a dozen spiders.

"Go! Keep up!"

Han Ming took the Golden Winged Bow from his back, held it in his hand, waved his hand and rushed down with it. Lu Fang and Yu Yuanhua followed closely, while Zhang Zheng and Chen Fang included Liu Mingyuan and He Gensheng. It was a stunned, and immediately followed.

They had just rushed down the hill and were only fifty meters away from the mutant spider. The mutant spider had already found a few people, and immediately five or six of them separated from the team and greeted them.

"Come on, take care to protect yourself!"

Seeing the mutant spider rushing over, Han Ming let out a low drink, waved his bow, and rushed towards the mutant spider again.

These mutant spiders just looked scary, and they were not as good as mutant dogs in fighting. If it weren't for the huge number of them, Han Ming wouldn't be afraid of them. He still couldn't see these few.

The speed of the two sides is very fast, and the speed of the mutant spider is not slow. Although it is not as good as some professional speed athletes, it is not much worse than ordinary adults. However, compared with Han Ming, it is too far behind. Han Ming left directly. As the team accelerated, he wanted to relieve Lu Fang and Yu Yuanhua's pressure. After all, the two did not have much combat experience.

"squeak!"

A sharp neighing sound rang, and the speed of the mutant spider also increased.

At a distance of fifty meters, after a second or two, Han Ming had already approached the mutant spider first. The golden bow in his hand swung abruptly, and the sharp golden wings flicked a few cold rays in the air.

At the touch of a touch, the two mutated spiders that came forward have been chopped in half by Han Ming's sharp golden wings, and their bodies fell into the grass.

Han Ming won't let people get in the way, and the speed will not decrease. He rushes toward the other three mutant spiders with the added force under his feet, and the speed is so fast that people are stunned.

The three mutant spiders behind did not expect that the enemy would kill their two companions so easily, the speed was slow, and this slowness determined their fate, and Han Ming arrived.

Han Mingna, who is extremely skilled in killing people, will let go of this opportunity, the bow in his hand has been quietly drawn, and the bowstring screams in the air at high speed.

The head of a mutant spider flew instantly under a cold light. Before the other mutant spider could react, the cold light flashed by, and the blade slashed across its back. Its body could not stop the blade. The body was on the blade. It split into two halves, and transparent blood gushed out.

Chapter 1093: When will the internal fighting cease

At this time, the last mutant spider suddenly jumped up and rushed towards Han Ming. Han Ming didn't panic. He turned his body and swung his right leg away. A dragon swayed its tail. With a sound, the mutant spider was caught by Han. Ming Ji flew more than ten meters away, "bang" and hit a big tree, his body suddenly shattered, and transparent blood splashed.

At this time, Lu Fang and others from behind arrived. They already knew Han Ming's interests, so they were not surprised, but Liu Mingyuan and He Gensheng were shocked at this time, their eyes shrank, and they couldn't help but marvel that this man is really powerful, better than their military. The awakened are even stronger.

The potential of this awakened person is high and low. For example, Han Ming's B-level potential level is already a very high talent. Most awakeners are at most D-level or C-level.

There is a difference in strength. In addition, before the end of the world, Han Ming's strength is already considered a master, far from the average awakened. For example, Lu Fang and Yu Yuanhua are both awakened, but Han Ming One can beat him four or five.

Not to mention the surprise of the two, Han Ming killed five mutant spiders in a row without stopping. He waved to the others and rushed forward again. Now he is racing against time. A step slower is more dangerous. There are nearly two to three hundred around him. Only mutant spiders.

The mutant spiders didn't expect their companions to be exterminated in a short period of time. For a time, the spider group burst out with a scream, and then a dozen mutant spiders came to Han Ming's side.

After the neighing sound, the whole jungle became lively, and the mutant spiders neighed one after another, and a large group of mutant spiders rushed toward this side.

Han Ming heard the neighing sound in his ears, and his heart was shocked. These mutant spiders knew how to contact and cooperate, and knew to summon their companions. This was troublesome. The situation he was most afraid of had happened.

"Quickly keep up! The spider group is coming!"

With a violent shout, Han Ming suddenly drew an arrow from the quiver behind him, and then ran and shot with a bow while running like water. The "boom" bowstring snapped, and a sharp arrow screamed towards the mutated spider group.

He didn't dare to care about more than a dozen mutant spiders. He had the confidence to solve three or five spiders, but a dozen of them swarmed down, and he didn't get a grip. He couldn't solve it without getting hurt. Now he can't get hurt anyway. , Once injured, it was over, and a group of people followed!

"Tweet!"

The white feather arrow slid through the space of thirty meters in an instant, and the tip of the arrow unexpectedly carried a strange shock force. The weeds and leaves that it passed along the way were shattered, and it slammed into the head of a mutant spider.

The mutant spider didn't even scream, and was shot by a sharp arrow. The powerful arrow smashed the mutant spider and hit the two mutant spiders behind. On the spot, the white bodies of the three spiders turned into arrows. Fragments.

Han Ming's archery skills have reached a certain level of hand level. This hand shock arrow is extremely proficient. The sharp arrow carries strong shock and rotation. The mutant spider's not very strong body can't stop an arrow at all. Arrow kills three times, the end is strong.

Both Liu Mingyuan and He Gensheng were dumbfounded. Bows and arrows are better than guns. They can't take down three mutant spiders so easily with a machine gun. Otherwise, hundreds of mutant spiders can surround so many military people and hide in the temple. I dare not come out.

"You cooperate with me from left to right!"

After shooting an arrow, Han Ming yelled to Lu Fang and Yu Yuanhua, and then shook his bow and rushed towards the mutant spider. His arrows were limited, and he did not dare to waste too much. Now there are only nine arrows left. .

Chapter 1094: There has never been less conspiracy

Han Ming wanted to understand that as long as the dozen mutant spiders in front of them were killed before other mutant spiders came over, there would be no mutant spiders in front of them to stop them, and if they worked harder, they could surpass the remaining 300 meters. distance.

The distance of 30 meters is neither long nor short, but when the speed of the two sides is fast, they ran into each other in an instant. Han Ming waved the bow in his hand, golden light and shadow in front of him, two rushing over. The mutant spider was cut off by him.

And Lu Fang and Yu Yuanhua were not slow either. The two of them had lost their weapons in the river a long time ago. They replaced them with two mountain knives that were used by villagers found in the mountain village. The style of these knives was ugly. The front was wide and the back was narrow. It's only a meter long and it's not sharp, but it's thick and it feels good in the hand. It seems that the maker is not indiscriminately designed, it is in line with the mechanical design.

The four or five kilograms of mountain knives held in the hands of the two really exerted their power. With a single slash, the mutant spider's head was split in half. The two played against the mutant spider no longer once or twice. Although there are no more spiders than Han Mingduo, there are still more than a dozen spiders. They are already familiar with the fighting method of spiders, and they are not at all soft when they kill.

Liu Changhe had already handed it over to Chen Fang and Zhang Zheng. With no fetters, Yu Yuanhua let go of his hands and feet, killing the mutant spider was no slower than Lu Fang.

The two of them slashed through without looking at the result. They seemed to know the result, and they had already collapsed to meet the mutant spider rushing behind.

Han Ming was faster than them. After slaying two mutant spiders that rushed towards the finished glyph, he swept the two mutant spiders out with a sweep of the bow in his hand, and then another

jumped into the sky. The foot kicked the other out, and the powerful foot kicked the spider's head halfway.

In less than two seconds, he had already solved five mutant spiders plus the three previously dead under his arrow. He solved eight by himself, and there were only twelve mutant spiders in total.

Although Lu Fang Yu Yuanhua was a little slower, he quickly solved two of them.

The mutant spider is not small in size, looks a little scary, and has good body hardness, but it is difficult to break away from the limitations of mollusks. The carapace on the body may be a little harder for ordinary people. It is in the face of the awakened person's strength, as long as the weapon weighs. The hands are not enough to look at, but there are too many, and no one can do it when they come up. The pointed feet and sharp teeth of these mutant spiders are quite powerful, and no one can bear it.

"Hurry up, run, don't fall behind!"

Han Ming looked back and found that the two of them had already solved the mutant spider, and shouted.

In fact, there is no need for him to shout, everyone is already wishing that they have less legs, and Sa Yazhi runs away!

"Don't stop, run!"

Lu Fang took Liu Changhe from Chen Fang and Zhang Zheng, and urged them to run quickly.

Without the burden of Liu Changhe, the two ran wildly to chase Liu Mingyuan and He Gensheng, who had ran to the front. The physical fitness of these two soldiers was better than that of the two, and they ran very fast.

They had to run fast, the neighing sound from time to time in the jungle, and the crawling sound of countless bugs in the rustle, everyone did not need Han Ming to urge them to run faster than anyone else.

Han Ming and others all ran to the front before he followed. He opened the way before, and now there is no mutant spider ahead. He wants to guard the back road and **** everyone.

Chapter 1095: Powerful Arrow Shards

The movement in the jungle naturally attracted the attention of the guards in the temple. Three officers in the attic of the temple were standing in front of the window holding binoculars to observe the movement.

"Head, how come these mutant spiders have retreated, are they afraid of being beaten by us?"

Among the three, a middle-aged black and thin officer in his thirties raised his binoculars while watching and whispering.

"It's Sa Tui! They are all gathering to the south, listening to the movement, it seems that something has happened over there!"

Another handsome young officer in his twenties shook his head while watching with a telescope.

If Di Pingzai would definitely recognize it, this young officer was not someone else but his cousin Wei Siming, and the person who spoke just now was Li Shufu, the commander of the first battalion.

"Well, something must have happened that caused these mutant spiders to move south, but these mutant spiders are very cunning and have never stopped probing. We can't take it lightly!"

Standing in the middle of the two men was the deputy commander of the Jincheng Garrison, Yang Linshan, who was called the regiment leader. He was in his thirties, and he was strong and powerful.

"Look at that someone!"

With sharp eyes, Wei Sicheng suddenly pointed in one direction and exclaimed.

Yang Linshan and Li Shufu looked at the direction of Wei Sicheng's fingers, and the telescopes also turned, their faces changed on the spot.

At this time, it happened that Han Ming and others rushed out of the jungle and entered the open area. They could see clearly from the attic.

Surprised at first! However, the three of them were taken aback when they saw the officers in front.

"It's Liu Mingyuan, the third squad leader of the Reconnaissance Company!"

Wei Siming recognized Liu Mingyuan at a glance. A reconnaissance company had less than a hundred people, a class of ten people, and a few monitors. How could he not know Wei Siming?

"Why are there only two of them? They look like civilians from behind!"

Yang Linshan said solemnly.

Of course Wei Sicheng saw it too, and his face was a little ugly, and he said in a low voice: "It may be something wrong!"

Li Shufu also sighed: "If you encounter mutant spiders and others, you can't stop them!"

But before he finished speaking, his face suddenly changed in surprise and said: "No! There is a group of mutant spiders catching up behind!"

Wei Sicheng saw it too, and his face changed at the time. He put down his binoculars and said anxiously: "Head of the regiment, I will lead my troops to meet them!"

"Okay! Bring more people, take them over, and be careful not to let the mutant spider take the opportunity to get entangled!"

Yang Lin Shantou said in a deep voice without returning.

"It's the leader!"

Wei Sicheng was excited about a military salute and turned to go downstairs. Both of them were his soldiers. There were only two people left in the team. In any case, he couldn't let the two of them also have an accident.

"Bang bang bang..."

Suddenly, there was a fierce machine gun sound. Wei Siming was taken aback on the spot. He raised his eyes and looked over from the attic window. He was a little puzzled that he wouldn't be prepared to fire machine guns without a large number of mutant spiders attacking. Who shot this.

"Who shot it!"

At this moment, Yang Linshan suddenly roared violently.

Wei Siming was stunned on the spot, his eyes staring at the battlefield blankly, his eyes showing unconfident horror.

"Fuck! Who ordered the shot, I slammed him!"

Li Shufu just hit the wall with a punch, yelling angrily at the bottom.

"Wang Ba Dan!"

Wei Siming seemed to react at this time. His eyes were blood red, and his face rose as if he was holding his breath. He roared and rushed downstairs.

Chapter 1096: It's hard for people without capacity

Han Ming held a bow and arrow behind him. A group of people had just rushed out of the edge of the jungle. A large number of mutant spiders also arrived. There were 70 or 80 mutated spiders. They roared and chased everyone. If they reached the open area, they would speed up. The crowd may be overtaken by more than half of them.

He has plans. He believes that if the military has people with higher military literacy, as long as they use firepower to cover, they will surely be able to break through smoothly.

Sure enough, they had just rushed out less than a hundred meters, when the machine gun rang, and Han Ming showed a hint of joy when he heard the gunshots.

However, his joy lasted for less than a second, and instantly turned into consternation, and then he was angry!

In any case, he never thought that the machine gun was not sweeping at the mutant spiders behind him, but at them. If Liu Mingyuan and He Gensheng hadn't reacted quickly to stop their bodies, the bullets would hit them.

The sudden change and the two were stunned on the spot, but the next moment, the two raised their hands high and shouted at the temple: "Don't shoot, it's your own person, I'm Liu Mingyuan from the Second Camp Reconnaissance Company!"

He thought that the military had misunderstood, so he declared himself aloud, but to make him even more shocked, he was answered by another bullet that hit them in front of them, and the agitated mud hit their faces. , They had forgotten to dodge in horror.

"Fuck! Why do they even beat themselves!"

Liu Changhe made a noise at the door, and when he saw this, he opened his mouth and cursed.

With this delay, the mutant spiders behind had chased up to 30 meters and were about to catch up with everyone in two or three seconds. At this time, they did not dare to move forward facing the muzzle of the black hole in front. Liu Mingyuan and He Gensheng had their faces exposed. despair.

"Wow!"

Suddenly there was a loud roar from far away, as the sky thunder rolled towards this side with infinite coercion.

Immediately afterwards, there was an amazing rustle in the distant forest, like the wind passing over the bamboo sea, like the waves of the sea.

Han Ming's face changed at the time. He was too familiar with this voice. It was the voice of a mutated spider army marching. They had been chased after listening to this voice several times

before. What shocked him even more was that the roar just now should be It's the roar of the spider king, even it is coming, now it's time to play!

Lu Fang and Yu Yuanhua also heard it. Their faces turned pale at the time. Chen Fang and Zhang Zheng were just like that. Liu Changhe was dizzy and didn't hear the horrible voice. He didn't understand what was going on.

"Hold him down!"

Yang Linshan was also angry at first, but when Wei Siming was about to rush down, his face changed and he shouted at the two guards standing at the top of the stairs.

When the two guards heard the sound, they rushed up immediately, sandwiching Wei Siming on the left and the right. Wei Siming struggled desperately, but the two of them were stronger than him, and the mighty force couldn't get rid of him at all. Lifting up his blood-red eyes and glaring at Yang Linshan, his eyes were full of incredible, his voice was hoarse and low, and he said, "Why?"

"Don't be impulsive, this order must be given by Captain Fang, what can you do if you rush down?"

Yang Linshan pressed his brows with some headache.

"No matter who he is, I will kill anyone who dares to kill my comrade-in-arms brother, and I can't do it too!"

Wei Siming gritted his teeth with flames in his eyes.

No one thought that this battalion commander, who usually looks weak and weak, had such a **** nature. This is the will that a soldier should have, and the righteousness of his comrades cannot be discarded.

"Naughty! What time is it now! Although Commander Fang's order is unfavorable, it is also helpless in this non-church period. His actions cannot be calculated wrong. We cannot ignore the safety of thousands of people for the sake of a few people. , Didn't you see a large number of mutant spiders following?"

Yang Linshan looked at Wei Siming and shouted.

Chapter 1097: Hate is overwhelming

In fact, Yang Linshan's heart was also burning with anger at this time. These people are all his own soldiers, but what can he do. Although he is the deputy commander, the commander Fang Liancheng basically does not care about the troops. Brought.

But he couldn't say anything now. Although Fang Liancheng didn't care about the army, as the chief officer of the army, he couldn't question his orders.

The military is different from other places. In some places, the subordinates dare to make trouble with their superiors, or refuse to obey orders, but this kind of thing is very rare in the military. Soldiers pay the most attention to the subordinate relationship. No one dared to disobey the execution on the spot, this is the survival of the army.

Even if the superior order is wrong, it must be executed. Otherwise, how to lead the army, such as Li Yunlong in Bright Sword, must be dismissed on the spot if he has done many battles and dared to resist on the battlefield. Shot!

Therefore, in the Bianzhou Military Region, Liu Zhenya also secretly beat Chu Dingbang in the ring, but in public and never dared to violate the military order, once Chu Dingbang really attacked him to take him down, he had no reason to refute it.

Like Wei Sicheng rushed to the theory, as long as Fang Liancheng ordered the law enforcement team to immediately take Wei Sicheng down, he also cherishes that this brother can't watch him make mistakes, let alone watch him have an accident.

"Head! Can't bear it! Our soldiers are almost defeated by them!"

Wei Sicheng shouted unwillingly.

"obey orders!"

A touch of pain appeared on Yang Linshan's face, but it quickly disappeared, and he shouted in a deep voice.

Wei Sicheng struggled a little bit, but still stared at Yang Linshan stubbornly, breathing heavily.

"Old Wei, let's put down the fire! This is for your own good, don't be loyal, you can't do anything if you go down now, you have to bear with everything, think about your family!"

Li Shufu, the commander of the first battalion, walked up to Wei Sicheng, patted him on the shoulder and said earnestly.

"Old Li, I feel aggrieved in my heart! Woo..."

Wei Sicheng's face changed for a while, and finally his eyes were gray, and two lines of tears gushed from the box of his eyes. The dignified five-foot man squatted on the ground and cried with his face. The sound of sobbing made people look sad.

Li Shufu and Yang Linshan breathed out a long breath when they saw him like this. Now the military atmosphere is not right. The regiment leader Fang Liancheng and the chief of staff Li Zhongtian hold the military power together. Although the two of them are chief officers, they actually don't have much military power.

If Wei Sicheng gets into trouble at this time, he really won't have a good fruit, Fang Liancheng doesn't look timid, but he is cruel to deal with his comrades.

"Take him a break first!"

Yang Linshan motioned to the two guards.

"It's the team!"

The two knew Wei Sicheng into the attic, and then they stood guard at the door, and Wei Siming's cry was heard from the room.

"His men and horses suffered the most casualties, no wonder Xiao Wei was uncomfortable!"

Li Shufu's face was also sad, and he looked at the back room and shook his head and sighed.

"Let him sober up! His state is too dangerous and it's easy to get into trouble. Fang Liancheng and the others have been looking for opportunities to clean up the three of us. Now that we are here, he

will constrain a little bit. If something happens to us, they will be even more unscrupulous. At that time, it was really hard for our soldiers!"

Yang Linshan only felt terribly bored in his heart, but he couldn't help but took a deep look at the back room and sighed helplessly.

Fang Liancheng and Li Zhongtian are not good at fighting, but they play tricks. They are opponents, the power of the army is controlled by them step by step. Now he is the regimental commander and he does not have much power to lead the troops.

Now the two are still afraid of his prestige in the army and dare not attack them at will, but the problem is that they did not catch any chance. Once they have a chance, the two will rush to kill them like mad dogs.

Chapter 1098: Exhausted means really helpless

If it weren't for these two people, they wouldn't have reached this point. Originally, after the troops discovered the mutant Komodo dragon, they proposed to Fang Chenglin to move the base.

At the beginning, he was chased by mutant animals in the urban area and had nowhere to go. Had Yang Linshan led the team into the city to rescue them, he would have become a pile of dog dung.

I don't know if Yang Linshan has regretted it, but I believe he must regret it!

Fang Lian's cost is from a civilian background. Because he is good at drilling camps, he ended up sitting in the position of chief officer of the army. He didn't have much ability in his hands, let alone leading soldiers to fight.

After being rescued by Yang Linshan, he might be frightened. When he returned to the base, he let the base enter a full defense. He refused to move a step even if he wanted to move to the new base. Finally, Yang Linshan and several battalions Chang tried his best to fight and finally he could not agree to send the third battalion to lead a group of people to open up the new base.

This may be this time. I feel that Yang Linshan and several battalion commanders did not obey his orders to confront him. After that, Fang Chenglin, Chief of Staff Li Zhongtian and Jincheng County Mayor Mei Huawen jointly took Yang Linshan's army direct control. In the past, their right to speak among the Jincheng base management was getting lower and lower.

Moreover, they have become more and more in the army to eliminate dissidents. As long as they don't obey their orders, they will find excuses to squeeze them out, and they have become a word in the base.

Jincheng is an old revolutionary zone and has a special status. Therefore, the Garrison Regiment is a strengthening regiment. The five battalions have 4,000 combat personnel, and they are also equipped with specialized logistics supply units, with a total strength of 5,000.

The two battalions in the city defense battle were directly maimed, and they were attacked by mutant animals during the post-spreading process. Several hundred people were killed in the battle. Now there are less than 1,300 soldiers remaining in the regiment, which can be described as heavy casualties.

The deaths and injuries of the people who followed Satu were even more serious. There were nearly 9,000 people, but now there are less than 5,000 left. The tragedy along the way cannot be described in words.

This is all the result of Fang Liancheng's unwillingness to retreat in advance, but he commanded indiscriminately in the post-spreading process. The normal approach should be to compress the line of defense, concentrate the troops, and march quickly to the new base, while Fang Liancheng did the opposite. It is said that to prevent unknown dangers, a large number of excellent scouts were sent to conduct reconnaissance, which caused heavy losses to the scouts.

The army led the lords, and when they hurried marching for more than ten kilometers, they groaned one by one, and rested a dozen times along the way, otherwise they would not be less than 50 kilometers of mountain roads, and the rush march would be able to reach the new base in one day instead of delay Two days.

They also had good reasons. They said that the army was tired and the people were tired. They had to rest. Originally, it was only five or six kilometers away from the new base, and they would be able to get there soon. They had to take a break, but they were blocked by mutant spiders.

Originally, Yang Linshan didn't think that mutant spiders wanted to break through the siege and wanted to save Fang Liancheng. He contacted Fang Lianhai, commander of the third battalion of the new base, and brought troops to rescue him.

The good name is that the people's safety must be taken into consideration, and the tortoise dared not show up in the army and missed the best opportunity.

Yang Linshan turned his head with a heavy heart and looked out the window again. The pain in his heart was not much less than that of Wei Sicheng. However, his family, including Wei Sicheng's family, are all in the new base. And who is the commander of the third battalion? Fang Lianhai, his brother of Fang Liancheng.

How poisonous is this scheme to work together!

On the grounds of the safety of relatives, the high-level family members of the base were brought to the new base first. Anyway, they wanted to retreat. The high-level members wanted to oppose, and almost fought to earn a spot!

But this is the dignified conspiracy, you can't take it!

It's just that the new base is completely controlled by Fang Lianhai, and his family members are in his hands, and the one who dares to resist, even Yang Linshan doesn't dare to him, his family is in the new base!

Chapter 1099: King Kong counterattack was seriously injured

Yang Linshan also heard the terrifying roar from the jungle. His expression changed on the spot and he sighed. He hurried to the window and raised his binoculars to look into the distance. Li Shufu followed closely behind him, holding the binoculars to watch.

Han Ming had already understood at this time that the guards in the temple obviously didn't want to wait for people to enter, and shot to stop them. The intention was already obvious. If they hit the bullet again, they would not hit the ground, but directly towards them. Shot on the body.

Looking at the muzzle of a black hole on the wall, Han Ming's anger was a little uncontrollable. He did not expect this result anyhow. The military did not allow them to approach. For a while, he felt a little cold. You must know that there are two soldiers of their own among them, and these people actually fired directly in disregard.

Liu Mingyuan and He Gensheng sat on the ground in despair, their eyes were dull, as if they could not believe it was true, their troops actually shot them.

"Don't be stunned and rush back!"

Han Ming finally reacted at this moment and made a decisive decision. He was never a dragger. He roared at the crowd, then turned around and rushed towards the mutant spiders. Now they can't go ahead. They can't rush to the machine gun's concentrated shooting. The chance to survive, once the mutant spider army arrives, they can't go if they want to go!

His roar, loud and loud, like thunder, finally awakened everyone. Lu Fang reacted quickly and ran back, while Liu Mingyuan and He Gensheng looked back blankly at this time, and then seemed to understand something, and the two turned over. He got up, turned around and ran back with the crowd. After two steps, the two of them also looked back at the temple, their eyes full of grievance and disappointment.

In this scene, many soldiers saw that although they had to shoot because of the military order, their belief in their hearts was shaken at this time. Seeing the two comrades who turned and left, there was a sense of despair that felt the same.

Han Ming was desperate. There were 70 or 80 mutant spiders in the jungle. If they couldn't break through, they would have no way of life.

"Three arrows volley!"

A fire burst out in Han Ming's eyes, and with a low growl, his left hand drew three sharp arrows from the quiver behind his back like a phantom, and used a bow to shoot the arrows. The finished front of the three sharp arrows shot towards the mutated spider group that leaped.

The powerful shock force of the three arrows distorted the air. The air gap formed in front of the arrow was visible to the naked eye. The weeds on the ground were churned into pieces by the air force, and the terrifying scream sounded like an eagle. .

"Bang bang bang..."

Three sharp arrows rushed towards the mutant spider with a violent tornado. When the mutant spider encountered this terrifying energy, its body was fragile like foam, and it was instantly stirred into fragments by the terrifying Qi Gang, and the place it passed seemed to be shattered. Opportunity, life and life passed by the mutant spider group, and more than a dozen mutant spiders disappeared without a trace under the violent energy.

After the three sharp arrows flew for fifty meters, they could no longer withstand this powerful force, and instantly shattered into fragments, when the horrible air dissipated.

The destructive power caused by this blow was so amazing, even if it was the first time that Lu Fang saw Han Ming's horrible arrow skills, they couldn't help but shrink their eyes.

In fact, Han Ming didn't expect such an effect. He stretched the bow and shot an arrow. He just wanted to kill a few more mutant spiders, but he didn't expect three concussion arrows to have such an effect, but he just startled, he immediately reacted. He shouted "Go!", and then rushed to the jungle from the gap.

Lu Fang Yu Yuanhua also rushed forward, and Liu Mingyuan and He Gensheng also ran wildly behind them.

Chapter 1100: Exhausted crazy hatred

Di Ping didn't see it. If he saw Han Ming's arrow, he would definitely exclaim! If Han Ming learns the professional skills, the damage their arrows can cause will be even more amazing.

"Oh my God! Is this still a bow and arrow? When is this powerful?"

Li Shufu's hand holding the binoculars couldn't help shaking a few times, and shouted with horror on his face.

"This man is the awakened!"

Yang Linshan was also shocked, and his hand holding the telescope shook. After a while, he moistened his dry voice and said in a low voice.

"Yes! Only the Awakened can have such a powerful destructive power!"

Li Shufu nodded in agreement, but before he finished speaking, the boss with his eyes staring again, exclaimed in surprise: "My God, so are the other two!" Li Shufu suddenly felt a little bored in his heart, he put down his binoculars and looked down. Looking at Yang Linshan in horror, he swallowed his saliva and said dryly, "Head, who are these people? How come there are three awakened?"

Han Ming took the lead to stand among the mutant spiders. The mutant spiders were also frightened by Han Ming's arrow. They were stunned for a moment. At this moment, Han Ming was halfway through, and they began to roar towards Han Ming.

Han Ming, Lu Fang, and Yu Yuanhua were in front, and the wheel raised their weapons to knock each mutant spider into the air. For a while, the mutant spiders could not penetrate the attack defense line formed by the three. Han Ming and everyone had already penetrated. After the mutant spider's defense line, he ran towards the jungle, the speed was unexpectedly fast to everyone.

Seeing Han Ming and others disappear into the jungle, Yang Linshan put down the telescope in his hand and exclaimed: "It's a pity, if these people can come in, our strength can be improved by one level. I think Fang Liancheng should already regret it now. Right?"

"Regret! I don't think so, he should be rejoicing now!"

A look of contempt appeared on Li Shufu's face.

Yang Linshan was taken aback when he heard the words, and then he said with a sense of helplessness: "Perhaps you are right, but he is really lucky with his personality!"

He was really accurate. Fang Liancheng sat on the command tank and watched Han Ming and others disappear into the jungle through the screen. His face was gloomy and he didn't know what he was thinking.

At this time, Chief of Staff Li Zhongtian seemed to see the gloom on Fang Liancheng's face. He immediately understood what Fang Liancheng was thinking, and immediately said with a smug smile: "Minister, look at me and say I can't let them in! If these people come in, Relying on strong strength is definitely not easy to manage, if we make trouble, it will be bad for us!"

Hearing that the gloominess on Liancheng's face was lost, he nodded and said, "Well! This is the truth. These people are not members of our military. There are no laws and regulations. They really don't necessarily obey. We are Wang Liansheng alone. If you can't beat them, if these people are really hard to come by, it will be too bad for us!"

Just now, he regretted it for a moment. He regretted listening to Li Zhongtian's opinions and blocked these people. He even thought that if these people were returned to his men, his safety would be guaranteed again, but now he heard what Li Zhongtian said. He was fortunate that he didn't let these people in. If these people seized power, he would be really difficult to handle. He knew the power of the Awakened, because he had a Wang Liansheng under his hand, who was powerful and acted like the wind. Taking one hundred as a hundred, these people are not easy to provoke, and Han Ming's powerful arrow made him feel terrified.

If such a person enters the base and gives himself an arrow, he will not die if he doesn't want to. He is the man who spares his life the most and will not allow anyone to challenge his life and authority.
