Chapter 1121: Giant spider attack

"The military power!"

Li Zhongtian still asked without giving up.

"Haha! Military power?"

Fang Liancheng smiled coldly and said, "You think he can move those people. Whoever gives benefits these days will go with him. Yang Linshan still plays the same game in the army, eating and sleeping at the same table, that's out of date. , Otherwise you think why so many officers are going with us, that is because I know the human heart and humanity better than him, and now that these people's families are in my hands, he can rise to heaven!"

Li Zhongtian was taken aback when he heard the words, and then he gave a thumbs up flattery with a smile on his face: "Gao, it is really high, you are really a god, leader!"

"Okay, don't put on highs for me!" Fang Liancheng glanced at Li Zhongtian coldly, with a serious expression on his face suddenly said: "This is a very time, we have to use talented people like Yang Linshan, so don't move. Just work on it, that's the most detrimental!"

"Hey! Yes... Yes!" Li Zhongtian was numb when Fang Liancheng's scalp was staring, and he nodded in response.

"How is the connection with Daocheng? When will the helicopter arrive?"

Fang Liancheng ignored Li Zhongtian's embarrassment, staring at the screen for a while and suddenly asked.

"Oh!"

Li Zhongtian was taken aback for a moment, and then reacted anxiously: "The Battalion Commander Fang has set a time. We have issued instructions to ensure that the helicopter will arrive within five minutes. Let us be ready to board the plane!"

"Okay! This matter must be kept secret, no one can know, if we leak the wind, if nothing can be done, we won't be able to leave then!" Fang Liancheng suddenly stared at Li Zhongtian gloomily with cold eyes.

"Don't worry, the leader, all the people I arranged will never be spread by confidants!"

Li Zhongtian promised again and again.

"You are keeping an eye on this matter. Don't leave it to us immediately, don't be careless!"

Fang Liancheng nodded, and confessed with a serious expression.

"Okay, I'll stare at it soon!"

Li Zhongtian nodded solemnly.

At this time, if Yang Linshan heard it and didn't know what to think, this Fang Liancheng would have been ready to retreat long ago, no wonder he was not worried at all, he was calm when he heard the mutant spider army arrived.

Those who don't know thought he was not surprised by the general wind!

In fact, when he was besieged by mutant spiders, Fang Lian realized that he would retreat. He was the one who cherished his life the most. He was not good at fighting, but his eyesight was unique, otherwise he would not be able to sit in his current position. There is something wrong with the mutant spider group. These spiders are too smart. They know how to cooperate with each other, and they are very orderly. It is not like a group of beasts. It is like a group of animals with a clear division of labor and a command system that knows to cooperate. , Such as ants and wasps.

Originally, he had a glimmer of hope and waited for the mutant spiders to retreat, but in the end he felt that something was wrong. After these mutant spiders were defeated by the army for more than half of the battle, they did not attack, but harassed them from time to time. To stop them from breaking through in exchange for time.

Therefore, Fang Liancheng arranged for Li Zhongtian to secretly contact his younger brother and send a base helicopter to pick him up, but this response shouldn't be too straightforward. If he

comes now, he is sure that these soldiers will not do it. He doesn't want to leave at all, so timing is important.

He didn't want to go like this until the end. After all, there are nearly two thousand soldiers here. These are all forces in his hands. If these people are lost, the secret base will only be armed with less than one thousand people. He had no idea of force.

This is his calculation, he is worthy of a veteran who is good at planning, one move at a time, even Yang Linshan didn't understand his technique, so he ran to command the army.

Chapter 1122: The situation is fierce and the crisis is coming

Suddenly Fang Liancheng found that Li Zhongtian was pointing at the screen behind him with a look of horror, and his lips trembled and exclaimed: "Really...It's coming! Yang...Lin Shan didn't...lie... ..people!"

"What?" Fang Liancheng turned in a panic and turned his face to look at the screen behind him. When he saw the mutant spider army rushing from the hill like a flood, he screamed and shouted with horror: "Why... so many!"

Da da da.....

At this time, gunfire sounded from the position, as if firecrackers were set off, and bullets could be seen shooting like raindrops into the army of mutant spiders. Suddenly, the mutant spiders were broken into pieces by the bullets, and the bullets formed by the powerful firepower would mutate. The spider's momentum was stopped, like a meat grinder, swarms of mutant spiders were swallowed.

Boom boom boom...

This cannon also rang, and shells fell among the mutant spiders. A large swarm of mutant spiders was blown up to the sky and then shattered into pieces by the energy of the explosion.

The military used the strongest firepower as soon as it took over, and the mutant spiders were instantly stunned. In a few seconds, nearly a thousand mutant spiders were killed by bullet rain. The unfavorable group attack by the mutant spiders first failed. .

However, the mutant spider didn't seem to be afraid, and it still rushed towards the position frantically, as if it were endless, like a flood rushing from the jungle.

The number is increasing. From the initial thousands to several thousand, the mutant spider army is completely relying on the body to advance, leaving countless corpse fragments along the way, there are one or two thousand in less than a minute. Was killed.

However, the mutant spider moved forward more than a hundred meters for a long time, completely stepping on the body of its companion.

This caused Fang Liancheng and Li Zhongtian to see their scalp numb. Li Zhongtian pointed to another screen and tremblingly said: "The group is...long, this...the number is absolutely...right...just ten thousand.only!"

"Oh my God!"

Liu Liancheng glanced at the screen and suddenly his pupils shrank and exclaimed.

This screen shows the scene on the hill. At this time, you can clearly see the white figures that are constantly pouring over the hill. There are all over the mountains and the hills are two to three hundred meters away from the battlefield. There are so many mutant spiders in the jungle, and looking at the endless white monsters pouring over from the side of the mountain, you don't need to think about how amazing the number is.

At this time, if Han Ming was here, he would be surprised. This was more than double the number when he was in the mountain village last time.

"Quickly! In... God, you... come to the helicopter landing site immediately, and when I inform you, you will arrange for a helicopter to come over there!"

Fang Liancheng's face was pale and his eyes panicked and ordered to Li Zhongtian.

"Okay... I'm going now!"

Li Zhongtian was also very frightened, and the same pale face repeatedly nodded, and then stumbled out of the car as if he was drunk.

"stop!"

Suddenly Fang Liancheng yelled, and the scared Li Zhongtian hurriedly stopped and rushed too hard to stop his momentum. He slammed his teeth when he hit the goalpost, but he hurriedly turned his head and looked at Fang Liancheng.

"Don't panic, don't you go out in such a panic as if you don't confess yourself? Keep your breath, there will be Yang Lin on the top of the mountain for the time being, and nothing will happen!"

After the panic just now, Fang Liancheng has calmed down. This was the result he had thought of a long time ago. There is nothing to be frightening. So seeing Li Zhongtian panicking like a concubine, he shouted.

"Hey!" Li Zhongtian swallowed the strained and rapidly secreted saliva, then took a few deep breaths, straightened his uniform and nodded towards Fang Liancheng, then slowed down and walked out.

Chapter 1123: The battle will be broken

Boom boom boom...

At this time, dozens of rockets suddenly flew out of the position, bombarding the mutant spiders, and suddenly hundreds of mutant spiders were blown into the sky by the powerful explosive force, and the explosion range of each rocket was 10 meters. From left to right, as if a dozen large pits were dug in a piece of white cloth, the momentum of the mutant spider army was stagnant.

Yang Linshan stood on the high steps of the temple with a serious face, commanding the battle with a calm face, Li Shufu stood on his left, and Wei Sicheng also appeared on his right. Both of them were holding binoculars and staring at the changes on the battlefield.

Just now, this wave of rockets was released by Yang Linshan. This wave was directly exploded in the densest group of mutant spiders. The destructive power was extremely great. A large number of mutant spiders were blown to death, disrupting the irresistible momentum of mutant spiders. .

"The machine gun extended its firing and broke them up for me!"

Yang Linshan suddenly shouted in a deep voice.

"The gunner prepares, all have it, extend the shooting, prepare...to fight!" At this time, the messenger had received the order and issued the order.

Boom boom boom...

The five machine guns began to roar, and anger poured out toward the battlefield. The powerful impact of the machine gun bullets set off a death storm on the battlefield. The mutant spiders were shattered into pieces as soon as they hit the battlefield. The spider was swept into pieces and the transparent liquid splashed.

The army of mutant spiders that had advanced for a hundred meters was shot blank by the terrifying machine guns, as if a violent wind rolled back, crushing countless mutant spiders. The mutant spiders that were not afraid of death seemed to be finally afraid and began to flee backwards. In the face of an irresistible battle, mutant spiders did not dare to fight hard. In just two or three minutes, at least 3,000 mutant spiders were killed.

Modern firearms are so horrible, if there are ten or eight Vulcan cannons, many mutant spiders will be destroyed.

"Stop shooting, check the guns, and wait for orders!"

Yang Linshan saw that the mutant spider group finally returned to the jungle, and he gave his life.

"Wow!"

All guns stopped firing and began to rush to check the condition of the guns.

Don't look at this round just now for only two or three minutes. Many barrels are already red, especially a dozen heavy machine guns. The muzzle is fiery red, but it cools down as soon as it stops.

The soldiers have only come here to wipe off the sweat on their foreheads. Just now, they were afraid to wipe the sweat after listening to the command to shoot. They were only afraid when the army of mutant spiders retreated. Just now, the army of mutant spiders was like a mountain torrent. The momentum billowing like an outbreak is really scary.

This is the importance of a good commander. As long as the commander is calm and commanding, these well-trained soldiers will only execute orders, even if the mutant spiders have already pounced in front of them, they will not move. This is discipline. If you command The officials panic first, and when that is over, the morale of the army will quickly collapse.

"Roar!"

Suddenly a terrifying roar sounded in the mountains. For a time, the mountains shook, the earth shook, and the lake shook and set off huge waves hitting the shore. A terrifying coercion rolled over, and everyone felt tingling in their ears. , As if the eardrum was pierced, I felt shocked for a while, as if something was about to happen.

"hiss!"

This roar seemed to be a signal to start a charge. The mutant spiders made sharp neighing noises, and rushed towards the position again, this time faster.

Looking at the mutant spider army that rushed frantically again, there was a commotion among the soldiers, and there was a look of horror in their eyes.

"All of them, ready to shoot!"

Yang Linshan saw it really, his face was cold, handsome and serious, and suddenly he shouted loudly and loudly on the battlefield. All the soldiers reflexively set up their guns and aimed.

"hit!"

With a loud shout, Yang Linshan seemed to want to vent his anxiety and anger.

The machine guns and automatic rifles began to roar, thousands of guns sounded at the same time, and the fiery red bullets formed a barrage to strangle the mutant spider army.

Chapter 1124: The spider king is shocked

The battle directly entered the most violent stage. At this time, the mutant spider swarm was even more frantic, attacking the military position at any cost. Although countless bullets were smashed, they still could not stop their footsteps, and the front line was advancing a little bit.

One meter, two meters, three meters, ten meters, twenty meters, one hundred meters...

Advancing to a distance of two hundred meters, no more than a hundred meters away from the front line, Yang Linshan's face was tense, his eyes were cold and scary, and he stared at the battlefield without making a sound. Li Shufu and Wei Sicheng had also reached the front line to command the battle. The offensive was too fierce.

Fang Liancheng sat in the command car in a cold sweat and never stopped. The star-eyed boss stared at the screen closely. Several times he couldn't help asking Li Zhongtian to notify the helicopter to come, but in the end he held back hard and secretly warned himself now. It's not time yet, it's useless to have power on hand.

Sure enough, Yang Linshan suddenly roared: "The grenade team beat me fiercely!"

As soon as his words fell, a hundred soldiers with grenadiers rushed to the front line, the muzzle pointed upwards at the mutant spider swarm, following the commander's "release!" The grenadier shook, and a hundred grenade shot Out of the cannon barrel, it went to the mutant spider colony.

Boom boom boom...

There was a series of roars, and even the mountains were shaking. The entire area of 200 meters exploded like countless fireworks. For a time, the flames blazed into the sky, and the entire position was enveloped in fire and smoke. The limbs were severed by the violent explosion, and the fragments and armor were flying all over the sky.

No one has counted how many mutant spiders there are in this area, but the number is definitely no less than 5,000. The smoke clears, and there are only more than 1,000 mutated spiders standing in the dust on the ground. It was the explosion of deep pits, fragmented and fragmented, to the scattered corpses of mutant spiders.

At this time, more than a thousand mutant spiders finally reacted, panicking everywhere, like frightened deer, which still looked terrifying before.

"Good! Great!"

Fang Liancheng got up from his chair excitedly, clapped his hands and shouted.

He knew that Yang Linshan could, and sure enough, did not disappoint him. Yang Linshan's attack was so beautiful that he pressed the mutant spiders on the front line, and then used the densest artillery fire to bombard them, killing three or four thousand at once. Variation spider.

It took two battles in this short period of time, and the mutant spiders had already left nearly ten thousand on the ground, and there were only a few mutant spiders in total.

Seeing the tide of mutant spiders being wiped out, the soldiers who had been panicked and timid once again recovered their morale, and the speed of courage in their eyes rose.

It seemed that the mutant spider was also stunned by the bombing, and unexpectedly stopped the attack, and the battlefield fell silent.

"No, is it because the military has been captured!"

Han Ming who was fighting has been paying attention to the movement here, and he was shocked when he heard the gunfire stopped.

Thinking of this, his heart was anxious, and his face was bitter: "City Lord! Why are you not yet? It will be too late if you don't come again!"

"Roar!"

At this moment, a terrifying roar sounded, the anger was full of anger, and there was a trace of panic.

Han Ming was taken aback on the spot, wondering if he was wrong?

Yang Linshan also heard this roar, and his eyes looked at the direction of the roar, and there was a sense of anxiety in his eyes.

There are not many grenades. I didn't bring too many grenades when I retired, and I consumed some along the way. Fang Liancheng and others would not command 300 mutant spiders. They used howitzers and consumed a batch. Now there are less than two copies left.

Seeing that the number of mutant spiders in the mountains is still astonishing, how to prevent it?

Chapter 1125: Di Ping Da Han Mingxi

With a roar, the mutated spider swarm rioted. The mutated spider swarm that had been frightened and scurrying like headless flies settled down again, and quickly re-looked in the direction of the position, making a hissing scream to connect with countless mutant spiders in the mountains. In one piece, the eardrum of the shocked person is in pain.

Kaka...

Suddenly there was a sound of tree breaking in the jungle, and huge trees in more than a dozen places were shaking violently, as if some terrifying monster walked through it, squeezing the trees down, Yang Linshan's eyes shrank when he saw it.

There was also a commotion among the fighters on the front line, their eyes staring at the movement in the jungle on the mountain.

Fang Liancheng also stared at the screen closely. He saw the trees on the mountain shaking and felt something was wrong. He also wanted to see what it was.

"hiss!"

At this time, the mutant spiders screamed in unison again, and countless mutant spiders emerged from the jungle, and the remaining one thousand of them rushed toward the position again.

"Ready to shoot!"

At this time, the commanders had already roared together, and the soldiers put their guns on the stand again and aimed at the mutant spiders.

"hit!"

With a roar, the machine gun roared again, and countless flaming bullets made red lines in the air and shot into the mutant spider group.

The mutant spider was blown up with a horrible roar, and the transparent blood was flying all over the sky. Although it did not have the **** horror of blood, it had a different kind of brutality.

This time the mutant spider is even more crazy, and it advances to the 100 meters in front of the formation again. Yang Linshan once again launched the grenades. Although three or four thousand have been eliminated again, the mutant spiders have not stopped, and they are still endless. Well out of the jungle.

Kakaka

The sound was getting closer, Yang Linshan pressed his lips tightly, staring at the front closely, forcing himself to calm down.

boom.....

Suddenly more than a dozen huge figures jumped out of the jungle and fell on the ground and the ground shook for a while.

"Ah! What is that?"

Everyone uttered an exclamation when they saw the dozens of huge figures, and the bosses with staring eyes were all in horror.

These are more than a dozen mutant spiders the size of an adult buffalo. Their bodies are no longer white, but they are crystal clear. They have a crystal-like feeling. They have long limbs and claws that are sharp and sharp. The mutant spider was pierced through, struggling on the ground.

Their pair of white eyeballs looked in the direction of the position, which made people shudder. They opened their huge mouth full of squalid teeth and let out a scream, suddenly rushing towards the direction of the position, at an amazing speed.

"what!"

Fang Liancheng on the chariot suddenly screamed in shock when he saw these terrifying behemoths. His face was pale and his lips were shaking. He couldn't sit still anymore. He wanted to escape now. He felt that he was absolutely unable to prevent it this time.

After the initial panic, Yang Linshan calmed down quickly. After seeing Komodo before, he didn't think these monsters were huge or terrifying anymore.

"hit!"

There was a roar on the ground, bullets shot at these dozen mutant giant spiders, but to everyone's horror, the bullets hit them and made a clinking sound of gold and stone, and a little spark sputtered, and they shot Don't go in.

The mutated giant spider still rushed towards the position, the soldiers' faces filled with fear, and the bullets began to scatter.

"The machine guns focused on bombarding me and smashed them to pieces!"

Yang Linshan saw that this was no longer silent, he let out an angry roar, this anger suppressed the fear in the soldiers' hearts a lot, the gun rang again, and the rain of bullets poured out toward the mutant spider group.

Boom boom boom

At this time, the machine gun also roared, and the terrifying bullets rushed to the mutant giant spider like a fire snake.

Chapter 1126: Dizzy

Everyone was nervously watching the results, even Yang Linshan's palms were sweating, and Fang Liancheng was sweating on his forehead, his hands tightly clutching the dashboard with a twisted expression.

The result of this blow decided whether he should abandon the army and leave alone!

"Boom..."

The powerful impact of the machine gun bullets hit the giant mutant spider and burst out sparks, and the shattered carapace flew around. It was not like the previous bullets hit by the bullets. Several long legs were swept off by the bullets. He fell to the ground and howled.

Seeing that the cannon can break the body of the giant mutant spider, the soldiers finally breathed a sigh of relief, even Yang Linshan also loosened his aching fingers.

"it is good!"

Fang Liancheng slammed his fist on the dashboard and shouted in greeting.

As long as the machine cannon can break the defense, these giant spiders are not that scary!

Five giant mutant spiders only resisted for a while, and they were torn into pieces by the horrible torrent of bullets from the machine gun. Four others were broken and fell to the ground with their claws. They were also swept into pieces by the machine gun. Start chasing the remaining five giant spiders.

At this time, everyone was dumbfounded. These giant spiders seemed to have wisdom. Knowing the advantages of this weapon, they began to dodge back and forth on the battlefield. Their speed was so fast that the machine guns could not catch up with them, although there were mutant spiders along the way. They were all hit by them or died under the machine gun, but they were quickly approaching their positions.

"Head, the cannon is almost out of bullets!"

At this time, Li Shufu ran over, panting, and his face was extremely ugly, he leaned closer and whispered.

"I know!"

Yang Linshan nodded with a serious face, can he not know how many ammunition he is carrying?

"Then what to do?"

Li Shufu wiped the sweat from his head and asked anxiously.

"There is no other good way, use a howitzer to blast them to me!"

Yang Linshan pursed his lips and said sharply.

"it is good!"

Li Shufu nodded fiercely, then turned to arrange.

They all know that this is an axe sinking. There are not many howitzers and can't stand the consumption, but now there is no way to kill these giant mutant spiders. Once they are allowed to rush into the defense line, they will play. Once the rhythm is disrupted, the mutant spider will rush forward quickly, and the line will break.

Yang Linshan hit the wall with a bitter punch. He only hated that they were not tank troops. If there were a few tanks, they could definitely destroy these mutant spiders.

Boom boom boom

Not long after Li Shufu went down, the howitzer rang again. One after another, the shells slammed into the giant mutant spider. The powerful explosive force blew two giant spiders that could not be dodged into the sky. The limbs and claws broke, and the abdomen fell into a rotten piece. The ground wailed, but the other three were very clever, and their speed increased, and the speed of their eight-claws was even faster, as the wheels drew out a piece of afterimage, after avoiding bombing again and again, they had already rushed into fifty meters.

At this time, the 100-meter death line under the bomb rain cloth broke, and a swarm of mutant spiders passed up, and the fierce aura was overwhelmed like a dark cloud, and the soldiers' eyes were filled with fear like deep despair.

"Head, I can't stand it anymore, these spiders are too fast, and the grenades are almost consumed!"

At this time, Li Shufu ran over again, with panic and anxiety on his face.

"Why panic!"

Yang Linshan scolded in a deep voice, his face was also extremely ugly, his eyes were turning quickly, and now it was a very urgent moment. Once the mutant spider was pressed on, the defense line would definitely collapse.

At this time, the three or four thousand people settled in the rear hugged one by one, listening to the fierce gunfire, burying their heads tightly, trembling all over, their eyes full of fear and despair.

"Wang Liansheng!"

Fang Liancheng suddenly turned around, shouting in panic.

Chapter 1127: Useless shells on rockets

"in!"

At this time, a soldier popped out of the front cab.

This is a black and thin young short soldier, regardless of his size, he is very thin, but his eyes are particularly bright, shining with the cold light, like a cheetah who needs to choose the opportunity at any time.

This person is not someone else but Fang Liancheng's greatest support, the Awakened Wang Liansheng.

Wang Liansheng was originally a top soldier in the army. He won many honors for the Jincheng Army Division, so Fang Liancheng was highly regarded. Once he was awakened, Fang Lian arranged him to become a real confidant, and Wang Liansheng was only a soldier. A person who doesn't have too many complicated concerns is grateful for Fang Liancheng's importance, and since then only listens to Fang Liancheng's orders, and usually follows Fang Liancheng's personal protection.

"Liansheng, inform Li Zhongtian to let him arrange a helicopter, we will leave immediately!"

Fang Liancheng finally glanced at the screen before gritting his teeth.

"It's the leader!"

Wang Liancheng didn't ask anything at all. He only knew to give orders. He bowed the door and rushed out.

At this time, the situation on the battlefield is extremely dangerous. The giant mutant spiders have rushed to a range of 100 meters, and they can rush to the front of the battle at their speed in only four or five seconds. Once they rush into the battle, the mutant spiders swarm. The speed will be overwhelming, and the line of defense will be crushed, and then it will be really helpless.

"Come here!"

Seeing that the mutant spider was about to rush over, Wei Sicheng, who had been guarding the front knot, was anxious. He grabbed one of the machine gunners and jumped into the shooting position, holding the machine gun and snapped. Motive spring, the machine gun roared again, and he also screamed wildly and wildly: "Give me to die! Ah..."

His marksmanship is indeed much better than that of the sergeant just now, and his anticipation was accurate and accurate. A giant mutant spider was broken into pieces by the bullet rain he was crazy about, and he started to target another one.

"I come!"

Seeing this, Li Shufu also reacted. He grabbed the other gunner, jumped up, and started to turn the cannon. He was not as crazy as Wei Sicheng, but with a cold face, his eyes flashing like ice. mango.

Boom boom boom...

Two machine guns sprayed fire snakes outward, and two giant spiders could not react as well as being torn to pieces by the powerful impact of the bullets.

There are also two giant mutant spiders that feel the threat, their speed becomes more erratic, and they charge left and right, using the mutant spider swarms to resist the blast of the machine guns, but this time the mutant spiders are miserable, and the crazy output machine guns will become. The swarm of mutant spiders was swept into pieces, and the battlefield was in a mess.

For a time, the machine cannon can no longer help these two giant spiders. Wei Sicheng's eyes are spitting fire, and he keeps shooting. The strong aftershock of the machine cannon shakes his whole face, and his arms are shaking like chaff, but he still no matter what, it seems that there is no pain.

The two giant spiders have reached fifty meters, and the mutant spider army has also arrived. At this time, the barrels in the hands of all the soldiers are already red, especially the several machine guns. The red iron pipe from the stove.

Boom...

At this moment, two rockets flew out of the position suddenly. Although they didn't hit the giant spider, they exploded beside it. The powerful impact force still rushed the giant spider to the side.

But it was this meal that was caught by Wei Sicheng and Li Shufu, and the machine gun instantly focused on the two mutant spiders.

Chapter 1128: Rocket volley shoots the spider king

"hiss!"

The two giant mutant spiders only let out a panic hiss, and were torn into pieces by the cannon. Nearly a thousand bullets were poured on them, and their bodies were not enough to withstand the bombardment of the cannon.

"Wow!"

When the last giant spider was smashed, there was a fierce cheer on the battlefield, and the soldiers finally showed a glimmer of hope of victory.

The already trembling hands calmed down again, the bullet fire suddenly became more violent, and the mutated spiders were shattered. The mutated spiders that had been pushed to 30 meters could not stop the fierce firepower, and the front began to move back. .

Wei Sicheng and Li Shufu stopped shooting at this time. Their faces and backs were all wet with sweat. At that moment, he almost thought he was going to be unable to hold them, but he did not expect that the two rockets were at a critical moment. It worked and saved everyone's lives.

Yang Linshan also secretly let go of his painful hand. He ordered the two rockets to fire just now. The power of this rocket is more powerful than the grenade, and the explosion range is 30 meters. He hopes that this blow will be effective. It would be good to kill two mutant spiders. Although this result was not achieved, it was considered a success.

"Uh!"

Fang Liancheng, who was about to raise his leg and walked away, saw this scene, and put his raised foot down again. He leaned nervously in front of the screen and stared at it. He wanted to see if he really held it.

"Roar!"

At this time, the terrifying roar sounded again, the mountains echoed, and the voice was full of anger. It seemed to be annoyed at the death of his subordinates. The mighty power was pressed towards the battlefield. Everyone only felt the ringing in their ears, and the brain was dizzy. My chest feels tight, and there is a feeling of palpitations.

Kaka...

Suddenly a large swath of trees shook violently on the top of the mountain, and then a dozen tall trees broke and fell with a loud voice. When the trees broke and fell to the ground, a huge mutant spider with crystal-like light all over appeared, entrenched like a house. at the hilltop.

Everyone was petrified on the spot when they saw this scene. Even Yang Linshan, who had been shaken all the time, also showed despair on his face. Such a large mutant spider is absolutely terrifying without even thinking about it. The giant spiders before are enough. It was amazing, and it took a lot of effort to kill it. This will bring another more powerful one, which is bigger than the previous five or six giant spiders combined.

If Han Ming and the others would find out here, this Spider King was twice as big as they had seen last time, and his aura was even more amazing.

Kaka...

Suddenly the mutant spider moved. Don't look at its huge body, but its speed is not slow. It moves like a mountain. The thick trees under its body are like tofu and burst into pieces. The momentum is huge, like a landslide. Charged down the mountain.

hiss! At this time, the mutant spider swarm saw that its king was dispatched, and Qi Qi made a neigh, and then launched a fierce attack towards the position.

"not good!"

Fang Liancheng saw this scene through the screen. He only felt that his scalp exploded. He dared to stay if he was timid. He turned and ran out of the car with a scream.

The appearance of the mutant spider king shattered the last trace of his luck. Just by relying on the strength of the mutant spider king's body, even the giant tree instantly shattered, you can know that shells and machine guns can't help it. The big tree surrounded by people exploded, and he still didn't understand that the situation was over, and the army could only abandon it.

As soon as he ran out of the car, he saw Li Zhongtian and Wang Liansheng rushing in. The two of them were pale and panicked. They saw Fang Liancheng panicked and shouted, "Head, the big business is not good!"

Chapter 1129: Be taken from behind

"What's the matter, how did the mutant spider run away?"

Lu Fang was holding the cleaver that had already rolled its blade, and watched with dissatisfaction and puzzled at the sudden neighing, then turned and rushed into the jungle. The mutant spider group that disappeared in the blink of an eye was a little at a loss for a while.

"What might have happened over there!"

Han Ming frowned as he watched the direction of the roar of the artillery, and deep worries appeared in his eyes.

He heard the horrible roar just now. Don't even think about it. He must know that the spider king must have been dispatched. Now watching the spider colony besieging them retreat, it has confirmed his idea. At this time, he is more worried about the military. The safety over there, but it's okay now, the gunfire and gunfire have not stopped, only that the military front has not been broken.

"Eh! Look, this thing is bright!"

Suddenly there was an exclamation of Liu Changhe from the cave. Han Ming was startled and turned to look away, only to see that the locator he had placed on the ground before was lit up, emitting a bright white light.

Seeing this, Han Ming showed surprise on his face, he knew that the city chief had arrived!

Lu Fang and Yu Yuanhua looked at the thing shiningly in surprise and asked, "Brother Han, what's the matter?"

"You'll know in a while!" Han Ming cast all his eyes on the locator. When he had time to answer their questions, he just said a little, staring at the locator with piercing eyes. He also wanted to see the city lord and them. How did it come?

Hum!

Suddenly there was a hum in the cave, it seemed that the air shook suddenly, and then the inside of the cave burst into light, and a ball of white light appeared on the locator, like a dark house. Suddenly the window opened a gap and the sun came in. The bright people's eyes were tingling, and they couldn't help closing their eyes.

When they opened their eyes again, everyone's eyes widened, and their faces were full of horror.

I saw a dozen people suddenly appeared out of thin air in the open space, and a huge white tiger. The giant tiger looked at them with dark black eyes. Everyone felt as if they were being stared at by a peerless beast, and suddenly their scalp exploded. , The hind thigh tingled, and his mind surged, trembling all over, trying to run but couldn't move his legs.

Even if Han Ming was swept away by the fierce eyes of the giant tiger, he felt his whole body tight. For a while, his body was numb and he did not dare to move.

It was the second time for Di Ping to sit in the teleportation formation. The world in front of him was full of whiteness, as if walking in the void, with a void on his feet. They were in a cloud of white membrane protection, shuttled in the void. , Time seemed to have passed by a second, or

more than ten minutes, he only felt that his eyes were dark, and immediately after the foot tremor came the sense of steadiness to step on the ground, blinked his eyes and adapted to the darkness in front of him, and found In the cave, Han Ming, who saw the hand-held war bow at a glance, hurriedly appeared in front of Han Ming. Han Ming was taken aback and reflexively took a step back. When he saw the visitor clearly, Surprise surged on his face:

"City Lord!"

"Han Ming, you have worked hard!"

Di Ping looked at Han Ming with a smile on his face, his eyes expressing praise without hesitation, and he stretched out his hand and pressed Han Ming's shoulder, with a gentle voice.

"No... hard work!"

There were rare bright smiles on Han Ming's face, and his tight heart finally relaxed.

Di Ping nodded, without saying more, with a solemn expression, he asked in a deep voice:

"What's the situation now? Where are my parents?"

At this time, Owen and the others had already adapted to the darkness, and they all walked over at once, and the mutant tiger from behind also followed up. Its two-meter-high body was about to bear against the top of the cave.

"The city lord, they are in the temple below the mountain, guarded by the military, but the mutant spider army is attacking, I am afraid that it will soon be impossible to prevent it. The city lord should hurry to save people, otherwise it will be too late!"

Han Ming also reacted at this moment, and said anxiously.

"Okay, let's go back if you are thankful, you will lead the way, we will save people!"

When Di Ping heard this, his face changed and he raised his leg to leave, but when he saw the scars on Han Ming's body, he frowned and said, "How are you hurt, can you still go!"

Han Ming was touched when he heard the words, smiled and shook his head: "I...I'm fine, it's all skin injuries!"

"Moke will heal them!"

Di Ping didn't leave when he heard the words, but spoke to Mok.

"Yes!"

Mok, Angela and Zhang Zhengyi responded in unison.

Chapter 1130: The powerful spider king is invincible

Hum!

With a buzzing sound, a holy light suddenly condensed in the hands of Mok and others, and then fell on the three of them under the surprised eyes of Lu Fang and others.

Both Lu Fang and Yu Yuanhua showed horror on their faces, instinctively wanting to flash but still did not avoid them, but in the next instant, there was a lot of joy on their faces, and they could feel that their injuries were getting better.

Han Ming didn't move. It's not the first time he was healed. He stood still and allowed the healing energy to fall on him. His injuries were quickly returning and his physical energy was recovering. The healing energy was so overbearing, and the three of them instantly The injury is better.

"This....."

Lu Fang and Yu Yuanhua were speechless for a while with trembling lips and horrified faces.

"You wait here first, the city lord and I will save people and come back to find you!"

But before they could talk more, Han Ming had already patted Lu Fang on the shoulder and arranged.

He has no time to introduce the two brothers to Di Ping. It is important to save people now, and there are still Liu Changhe, Chen Fang, and Liu Mingyuan in the cave. If they all leave, there is no guarantee of safety.

"Uh! Good!"

The two of them hadn't recovered yet, they just looked at Han Ming blankly and nodded.

"You stay too!"

Owen shot Zhang Zheng, who was still fainting, and brought him out of the team.

boom!

Di Ping walked to the entrance of the cave and suddenly kicked it out with a loud bang. As if countless rocks were blown away by a bomb by karma, they shot towards the outside of the cave. The entrance of the cave was wide open, and light flooded in.

"go!"

Di Ping snorted and walked away, and then he shot out. Han Ming rushed out and shouted as he ran, "City Lord, in the direction of the gunfire!"

In fact, Di Ping knew it without him shouting. The roar of artillery and the sound of machine guns came from him. He didn't know where it was. He was too stupid. He walked through the jungle fast, with Han Ming, Owen and others, as well as big tigers are also quickly keeping up.

Until the group of people disappeared in the jungle, Lu Fang, Yu Yuanhua and others came to a halt, exhaling a long breath, wiping the sweat beads on their foreheads, and looking at the direction away, there was a thick horror in their eyes, they Unbelievable, all these ten people are awakened, and all of them are extremely powerful. The terrifying aura that emerges from them is like the sun, so hot that they dare not look directly, and the whole cave seems to be in a kind of terror. Under the air pressure, their hearts feel heavy and their bodies stiff.

"Zhang Zheng, who are they?"

After several seconds, all of them slowed down, and Liu Changhe swallowed his saliva and asked Zhang Zheng.

"No... I don't know!"

Zhang Zheng's voice was dry.

"Why don't you know, didn't you find it?"

Lu Fang turned his head and asked.

"I..... I only know that one of them called the city lord Di, the one that Brother Han asked me to find. He is the lord of a great city. I don't know anyone else!"

Zhang Zheng finally eased, and shook his head with a long sigh of relief.

He is still a little dizzy, as if in a dream, using some teleport scroll to teleport to a huge city, and then he was arrested by a group of people as a spy, and only when he explained his intentions was a leader. The people who looked like took them to find City Lord Di, and then they climbed up the huge and terrifying city wall and saw the terrifying battle.

A huge chimpanzee with a height of six or seven meters and an astonishing aura, like the terrifying beast in the movie, was killed by the man named Di City Lord. The earth-shattering battle still feels unreal to him. Could it be that he just went there? It was not the earth, but a different world, and he had such a problem in his heart.

He didn't have time to see anything or ask anything along the way, not to mention he didn't dare, let alone in the mood, so he was also confused about the origins of Di Ping's group, let alone answering everyone's questions.

"Let's go and see too!"

There was a moment of silence in the cave, and Lu Fang suddenly spoke.
