

## Doomsday 1131

Chapter 1131: Chariots play the Spider King

"Let's go! I want to go and see too, because the man just now is so powerful, he kicked so many big rocks away!"

Liu Changhe tried to stand up, his face surging with excitement.

"Really, even Brother Han doesn't have this strength!"

Yu Yuanhua also seemed to think of Di Ping's kick just now, a look of horror appeared on his face.

"Fart! What a great deal, City Lord Di is more powerful than you can imagine!"

Zhang Zheng, who had seen Di Ping's real power, pouted.

"Are you bragging? Isn't that great?"

Liu Changhe looked at Zhang Zheng suspiciously, distrusting his words.

"Don't believe it, you will see it in a while, let you see what is powerful, be careful not to scare you!"

Zhang Zheng seemed to be agitated by Liu Changhe's suspicion, and went up to grab Liu Changhe and walked out.

Liu Changhe's injury has healed a lot now, and the mutated drugs have greatly increased their medicinal properties. He can basically stand up, although he can't use much force, so Liu Changhe still needs to walk with him. Now the injury is not completely healed. There is no alternative but to be forced to step outward.

"Old Lu, are we really going to see it?"

Yu Yuanhua looked at Lu Fangdao with worry.

"Let's go! Go and see, waiting here is also anxious, go and see what might be of help!"

Lu Fang nodded solemnly, and then walked out, Yu Yuanhua also hurriedly followed.

"Liu Mingyuan, let's go! Let's go and see the excitement too!"

At this moment, Chen Fang also reacted, yelled to Liu Mingyuan who was still standing stupidly and ran out.

Liu Mingyuan finally recovered. He took a deep look at the locator that looked like a stone on the ground, then turned and ran out of the cave.

.....

Yang Linshan looked at the terrifying mutant Spider King that was attacking from the hill, and suddenly recovered, his expression finally changed, and suddenly shouted: "Howitzer will blow it up for me!"

"Hurry up and get on the howitzer and shoot!"

With a roar of anger and a flurry of jumps, the grenade team quickly took its place. The Spider King's speed was too fast to judge the distance, and the artillery chief could not directly fire the artillery.

Boom boom boom...

One after another, the shells smashed across the sky and hit the Spider King. The shells exploded one by one, but there was no alternative to the Spider King. It was too late for the shells to fall. The Spider King had already rushed through, and a round of volleys were completely missed.

"Damn! A bunch of pigs! Fight ahead!"

The artillery team commanded the shells to fall into the air, red eyes with anger, and shouted angrily.

The artillery team began to lower the muzzle and blast towards the mutant spider king's assault route. The shells fell like rain and exploded one by one. The powerful air wave set off a vortex on the position, but everyone was dumbfounded. , The powerful artillery fire fell on the mutant spider king, its body just shook, eight steel pillar-like pointed claws stuck in the ground, as if they were welded firmly, the air wave generated by the powerful explosion could not shake it at all. What shocked the soldiers even more was that the fragments of the cannonball exploded a little sparkle upon it, making a clanging sound, as if hitting a steel plate.

"Fire again!"

Yang Linshan's eyes were also red, and he roared.

"Head! No...no shells!"

Captain Grenade looked at Yang Linshan and cried!

"what?"

Yang Linshan's complexion changed and yelled in surprise, but after all, he calmed down in a panic after a long battle. He yelled: "Hit me with a rocket launcher!"

"Yes! Get on the bazooka!"

At this time the artillery team also reacted and quickly moved the rocket launchers, but unfortunately there were only five rocket launchers and only a dozen rockets. This was brought out in a panic.

Five rockets with long tails shoot at the Spider King. Everyone is watching the battlefield at this moment, and their eyes are full of expectation and hope. Even Yang Linshan has eyes nervously watching the five rockets connected together. One shot at the Spider King.

Chapter 1132: The poison plan escaped

"what!"

A scene that stunned everyone appeared. The mutant spider king seemed to also know the benefits of this rocket. Suddenly, his body jumped up and down five or six meters high, and then landed ten meters away.

However, five rockets passed under it, penetrated into the jungle, and exploded. The powerful explosive force blasted five or six big trees to life. The flames soared into the sky, and a strong wave of air was like a gale in the jungle. When crossing the border, leaves and branches flew all over the sky, and all the mutant spiders in this range were blown to pieces.

The mutant spider king continued to rush towards the position without even looking at it. It was less than two hundred meters away from the position.

No one thought that the mutant spider king would come to such a hand. For a while, everyone couldn't react, and they didn't believe that everything in front of them was true.

In this stunned, the mutant spiders swarmed again ten meters away. At this moment, Wei Sicheng finally reacted, and he shouted:

"Don't be stunned, hit it! All the machine guns focus on me!"

Then, he held the machine gun and fired at the mutant spider king, Li Shufu also reacted, the machine gun in his hand also roared, and the rest of the machine gunner also reacted, all started, and the fire snakes concentrated on the mutant spider. Wang shot away.

Jingle bells

The mutant spider king's body seemed to bloom like fireworks, and the bullet hit its crystal-like body to make the sound of steel, gold and stone. The terrifying bullet of the machine gun was also bounced out, and it could not be shot into its body.

Everyone was a little dumbfounded to see this scene, even Yang Linshan's face also showed despair, this mutant spider king is too terrifying!

"what!"

Wei Siming was crazy, roaring and hugging the machine cannon with all his strength. The bullets shot out like raindrops, and the machine barrel was red like a piece of iron pipe just taken out of the stove.

boom!

Suddenly a soldier's machine gun bombed the hall, and the soldier was bombarded by a strong explosion. The high-intensity shooting machine gun could no longer withstand such violent uninterrupted shooting.

However, Wei Siming seemed to be shaking like he didn't even see it. The mutant spider king was fired by the machine gun at this time. Although it could not be injured, the powerful impact of the bullet kept preventing it from moving forward, and its speed was also slow. Come down.

"Now let me launch the rocket!"

Yang Linshan saw a cold glow suddenly flashed in his eyes and shouted.

boom!

With a roar, five rockets shot out, drawing five lines of fire in the air and shooting at the mutant spider king.

At this moment, everything in front of Yang Linshan has disappeared, only five rockets. This is with everyone's hopes and his hopes. If this blow fails, he has no other means. He never believed it. God of God actually started praying in his heart.

Roar!

The mutant spider king also knew that the rocket was powerful, but it couldn't jump up at this time. Although the powerful firepower could not hurt it, it suppressed it, making it impossible to jump up at all.

The Spider King let out an angry roar, his body suddenly squatted, trying to jump up with elastic force, but it didn't expect the rocket to be so fast, it just squatted down before the rocket arrived.

A trace of panic flashed in the humanized eyes of Spider King's pair of white eyes. It suddenly buried its entire body on the ground, trying to resist the bombardment of rocket bombs.

boom!

With a roar, five rockets bombarded the mutant spider king together, bursting into a sky-high explosion. All mutant spiders within a radius of 50 meters were instantly blown up, and the strong explosion set off a violent air wave and swept towards the surroundings. Countless mutant spiders were blown up by strong air waves, and many more were directly crushed.

Only a few hundred mutant spiders were killed in one explosion, which shows how terrifying the explosion is.

The entire battlefield was shrouded in a cloud of smoke and dust, and the mutant spider swarm suddenly panicked and erupted with a hissing scream, the screaming with anxiety and fear.

Chapter 1133: Command error

"Of course I know something has happened, what else are you doing here? Don't leave soon!"

Fang Liancheng met Li Zhongtian and Sheng Liansheng head-on, a little angry, and didn't wait for the two of them to rush to the backyard with a gloomy expression!

"Eh! What's the matter with you? I can't leave anymore!"

Fang Liancheng just walked a few steps, suddenly felt something was wrong, there was no movement behind him, he looked back and saw that Li Zhongtian and Wang Liansheng were still standing there, sweating profusely, as if they were terrified, so he shouted angrily.

"Head! Go... Can't go!"

Li Zhongtian wiped the sweaty beads on his face, his voice trembling.

"Look at you like a bear! You are more timid than me, so I can't walk in fear, Wang Liansheng, help him go!"

Fang Liancheng almost crooked his nose, pointing at Li Zhongtian and cursing.

"No...no!"

Seeing that Fang Liancheng was about to leave again, Li Zhongtian had to shout in a hurry.

"Not what?"

Fang Liancheng was really angry this time, and shouted angrily on his face.

"Leader, there is an accident with the helicopter and can't come!"

At this time, Wang Liansheng on the side spoke out.

"what?"

Fang Liancheng was taken aback for a moment, and then jumped up with a scream like a cat whose tail was burnt to the tail, and shouted in horror, "How could something happen to a helicopter, just say it?"

His voice was already trembling, he couldn't imagine what he would do if something went wrong with the helicopter! For a while, he felt a cold air behind his back, but the beads of sweat on his forehead rolled down like oil. He stared at Li Zhongtian angrily, waiting for his explanation.

Seeing the anger in Liu Liancheng's eyes, Li Zhongtian slapped his spirits and said quickly:

"Tuan...long, the helicopter was attacked by mutant birds on the way, and both helicopters were shot down!"

"what?"

Fang Liancheng seemed to be unable to believe his ears. He screamed and looked at Li Zhongtian in a daze. Then he felt that he was about to fall down when his eyes were dark.

"Head!"

Fortunately, Wang Liansheng reacted quickly. He rushed forward, holding Fang Liancheng who was about to faint, and then holding him in the middle.

"call!"

After a few seconds, Fang Lianchang let out a sigh of relief, and finally recovered. His face was pale, his eyes seemed to be out of focus, and he slapped his legs and cried out, "My helicopter!"

"Leader! What to do now, the base is only two helicopters, we have to find a way to leave it!"

Li Zhongtian hurried forward and pulled Liu Liancheng anxiously.

"How? How? What can I do!"

Fang Liancheng dropped his feet and his chest, with a grimly voice on his face.

Li Zhongtian looked as if he had given up, and Fang Liancheng's eyes turned quickly. After a while, his eyes suddenly lit up as if thinking of something. He lowered his voice and said in Fang Liancheng's ear:

"Head, now the only way is to concentrate your troops to break through!"

Fang Liancheng was taken aback when he heard the words, and then he reacted, his face was full of hope, and he exclaimed excitedly: "Yes, you are right! You are right! Now there is only a chance to break through, let us adjust. force!"

However, he hurriedly walked two steps and then stopped, turned his head to look at Li Zhongtian and asked: "Zhongtian, then we break through, what about the masses?"

Li Zhongtian was also taken aback when he heard the words, then he showed a trace of sullenness on his face, and looked at Fang Liancheng: "Head of the regiment, we can't control so much now. Only by concentrating the elite troops to break through with all their strength can we have a chance!"

"This?"

Fang Liancheng was stunned. He looked at Li Zhongtian, only to feel that his face was extremely terrifying at this time, as if it were a devil, making people chill.

Chapter 1134: Minister escapes and reorganizes the front

The gunshots stopped on the battlefield, and even the crazy Wei Sicheng stopped shooting. Everyone turned their eyes to the explosion, waiting for the result.

A gust of mountain wind blows, and the dust slowly dissipates, and the huge body of the mutant spider king appears in front of everyone. Its current appearance is very unsightly. The original crystal-like body is now covered with black burn marks. Lie on the ground motionless, as if dead.

Thinking that the terrifying mutant spider king might be dead, all of them were filled with joy, and the relaxed smile on their faces finally appeared. If it were not for military discipline, they would have liked to jump up and cheer.

"Still alive!"

Standing on the steps, Yang Linshan could see the most clearly. He saw the mutant spider king move. Although this movement was small and invisible, it seemed to him like a mountain collapse. When he got up, he still refused to believe that Yu raised his binoculars and looked over. Does he want to confirm that the mutant spider king is really moving?

"Ah! Goodness! This spider was not killed, it is still moving!"

Actually, he didn't need to look at it. At this moment, a sharp cry suddenly sounded on the battlefield. Everyone who frightened them was chilling, and everyone looked at the mutant spider king in unison.

Sure enough, the mutant spider king stood up, shaking his body, shaking his head violently as if he was drunk. Although it looked terribly dark and black, it did not seem to stand up. Suffered too badly, it may have been dizzy due to a strong explosion, and it is now trying to get rid of this dizziness.

"No way! Is it all right with such a big explosion?"

"It's horrible, how can it be so strong!"

"It's finished, it's finished! It's not dead yet, we're finished!"

Even the well-disciplined soldiers at this time, many people also shouted in despair.

At this time, even Yang Linshan began to despair. His hand holding the telescope dropped weakly. He had used up the last trace of his cards. He walked too hurriedly during the previous retreat, and he could not carry a lot of heavy weapons. He believed If you bring a few armor-piercing shells that are designed to deal with tanks, you can definitely take them down this time, but it's too late to regret it now.

"hiss!"

The king who seemed to be cheering them was safe and sound, and the mutant spiders neighed.

"Roar!"

The mutant spider king finally got used to the dizziness of the mind. It raised its head and roared in anger. A pair of white eyes looked towards the temple with crazy killing intent. Everyone could feel a strong killing intent. Suddenly, his body tightened, his hair standing on end, a chill radiated from the bottom of his heart, as if he was being stared at by a cruel monster.

Together with the roar, the mutant spider swarm seemed to have received instructions and then screamed and launched a charge towards the position. There were noisy calls, one after another, the eardrums of the stabbing people were painful, their minds were dizzy, and their mood was irritable.

The Spider King also moved again, and its speed accelerated. The eight giant claws moved in unison and rushed towards the position. Everyone's faces changed, and the front line suddenly became commotion.

"What are you doing in a daze, shoot!"

Wei Sicheng suddenly awakened with a joke and saw the mutant spider attacked again, and the soldiers were still shocked. He immediately shouted, and then the machine gun in his hand roared.

Warriors are warriors. Even if they panic again, they immediately enter the state when they are called by the master. They start shooting, forgetting fear and timidity. At this time, they only have fighting.

The gunfire on the ground became fierce again, smashing the mutant spiders into pieces.

Click...

Suddenly, Wei Sicheng's machine gun made a clicking noise. He knew that the bullets were over. He shouted, "Reload!" Then he waited for the soldiers to install the cartridges and shoot. But this time he Before coming, the soldiers didn't come to reload after a second or two. He turned angrily and prepared to scold him, but he was pale on the spot when he saw the scene in front of him.

Chapter 1135: The general died in battle

What makes Wei Sicheng so scared to see!

As soon as he looked back, he saw that the young soldier in charge of loading was standing in an empty bullet box with a look of frustration and helplessness, tears in his eyes, and he looked at Wei Sicheng: "Battainman, no bullets!"

Needless to say, Wei Sicheng also knew that there were no bullets. At this moment, he only felt infinite sadness in his heart. He turned his head and looked at the mutant spider that was pouring, his eyes darkened.

This is over!

Not only was Wei Sicheng thinking like this, Li Shufu also looked at the empty bullet box with despair on his face.

As one mechanism stopped spraying, almost everyone realized that the problem was serious!

Once the suppression of the cannon is lost, the mutant spider king will rush forward quickly, and the front line will undoubtedly be broken. Yang Linshan's face is cold at this time, and his brain is spinning fast, hoping to find a way out in desperate situation, is it just there?

Seeing the loss of the cannon to suppress the Spider King, who was rapidly advancing, everyone was desperate, but no one retreated at this moment. All the soldiers were still shooting seriously, although they were desperate in their hearts, they knew that they might soon be overwhelmed by the mutant spider army. , But no one escaped. They were soldiers, hard-core predators, and the gunfire never stopped.

boom!

When everyone was desperate, there was a loud bang, and a Dongfeng warrior assault infantry vehicle slammed down the courtyard wall and broke the front line, madly rushing towards the mutant Spider King who had been pressed fifty meters away from the front line.

boom!

The Dongfeng warrior was really a warrior at this time. It rushed into the sheep herd like a mad cow. All the mutant spiders along the road were crushed by it, and the car body was covered with transparent spider liquid.

Seeing that the Dongfeng warrior was about to collide with the Spider King, suddenly the car slid to the side and avoided the mutant Spider King, and then suddenly a person came up from the machine gun on the roof of the car. This was not someone else but Wei Sicheng. He grabbed it. Stopping the cannon and aiming at the mutant spider, he roared hideously:

"Die to me!"

Then "DaDa..."The machine gun spouted an angry rain of bullets and hit the mutant Spider King, making a clanging sound.

At such a close distance, the powerful impact force of the powerful machine gun bullet hit the spider king's head, splashing fragments, and splashing several transparent liquids.

"Useful, turn around and fight again!"

Wei Siming was overjoyed when he saw this. He guessed right. The mutant spider king is not completely invulnerable. Its head is its weakness. When shooting before, he discovered that the mutant spider always dodges and shoots at its head. The front of the bullet was very hard, but the

side was not visible. He had an idea and decided to give it a try. It hit Li Shufu right away. Li Shufu drove and he was in charge of shooting.

Li Shufu heard Wei Sicheng's roar and hit the steering wheel. The car made a circle on the ground and turned to the right of the mutant spider king.

"Roar!"

The mutant spider king was suddenly stunned by them. There were a few scars under the left eye, revealing the soft flesh inside. This is its weak underbelly. The machine gun sweeping at this position made it very injured. Waiting for it to react. With an angry roar, he turned his head and rushed towards Wei Siming and the others.

"dead!"

At this time, Wei Siming's cannon rang again, shooting Spider King's eyes, but this time the Spider King had already reacted. It turned its head, and the bullet hit it, splashing sparks.

The Spider King moved like the wind and hit the infantry vehicle. Li Shufu slid past it, wiping the side of the Spider King.

Not to mention, Li Shufu's driving skills are really not bad. It's like a combination of man and car. The car keeps rushing from left to right on the battlefield, avoiding the spider king's attacks again and again, while Wei Siming shoots from time to time. An angry frantic chase!

Chapter 1136: Despair

"Yang Linshan!"

While staring nervously at Wei Sicheng to entangle the Spider King, a cry came from behind him.

"Head!"

When Yang Linshan turned around, he saw Fang Liancheng walking quickly with Li Zhongtian and Wang Liansheng. He looked anxious and hurried. He frowned and looked confused. How could he come to the front suddenly, but the next moment, he suddenly felt something bad in his heart. Feeling like, hurriedly said with a relaxed expression: "Head, you are here, the monster has been blocked by us!"

"blocked?"

Fang Lian's achievement was a stun, and then he rushed up the steps three steps in two excitedly, and looked towards the battlefield. After only one glance, his face changed abruptly, and he looked at Yang Linshan angrily: " This is also called blocking? How long can it be blocked, it's all nonsense, Yang Linshan, I gave you the command, not for you to fool me!"

"This... the leader!"

Yang Linshan looked embarrassed, and he also knew that he was indeed fooling Fang Liancheng. Everyone could tell that Wei Sicheng and Li Shufu were taking their lives for time.

"What the hell, take advantage of the spider monster being dragged down and organize a breakthrough!"

Fang Liancheng shouted with a cold face.

Yang Linshan froze for a moment, but felt that what Fang Liancheng said was right. Now is the best opportunity to break through, so he nodded and said, "Okay! Then I will arrange the transfer of the masses!"

"Yang Linshan, are you confused? How can we break through with a group of old, weak, sick and disabled under what circumstances?"

Li Zhongtian suddenly said coldly.

"Shut up! You can say this too!"

Yang Linshan was angry when he heard the words, staring at Li Zhongtian glaringly, looking like he couldn't wait to kill him with a shot.

"I see you shut up! Now when it is not the kindness of women, now take them with us and none of us will want to escape!"

Li Zhongtian didn't show weakness at all, and stared at Yang Linshan angrily.

"The soldiers are fighting in blood. You don't think about how to fight, but you want to run away, and you want to abandon the masses. How do you deserve to be a soldier! Believe it or not, I shot you bastard!"

Yang Linshan couldn't hold back the fire, gritted his teeth and stared at Li Zhongtian, reaching out to draw the gun on his waist.

Li Zhongtian was scared when he saw Yang Linshan really pulled out his gun, and hid back with a look of horror.

"Okay! Don't see when the trouble is still going on, Lin Shan will execute the order!"

Hearing what Yang Linshan said, Fang Liancheng also flashed a hint of shame on his face. He didn't mean to scold himself, so he shouted with a deep face.

"Head?"

Yang Linshan's hand holding a gun paused at his waist, and he looked at Fang Liancheng with an incredulous expression on his face and cried out anxiously.

He knew that Fang Liancheng was afraid of death, but this person was still somewhat responsible and had some ability, otherwise he would not be able to climb the position of the leader of a group, but in any case, he did not expect that he would think like Li Zhongtian at this time. This shocked him too much.

"Excusing an order!"

Fang Liancheng felt the doubt in his eyes, and he was even more ashamed, but in the end the study was occupied by a strong desire to survive, he looked at Yang Linshan and sternly scolded.

"No! Commander, I can let everything else, but this order can't work. If you want to retreat, you must bring the masses, otherwise I will be forgiven for not being obedient!"

Yang Linshan's expression changed drastically for a while, and finally his expression became stern, his expression changed extremely firmly, watching Fang Lian Chengdao.

"You...you dare to resist orders!"

Fang Liancheng didn't seem to expect Yang Linshan would resist his orders, he stared at Yang Linshan coldly.

Yang Linshan was unmoved, his eyes looked at Fang Liancheng steadfastly.

Chapter 1137: Cousin drove to save cousin

The two looked at each other for a full three or four seconds, and the atmosphere was extremely solemn. The surrounding soldiers all cast their gazes here, with tension in their eyes.

Suddenly a cold light flashed in Fang Liancheng's eyes, and he shouted sharply: "Wang Lian gave birth to his gun!"

"Yes!"

With a sound, a figure flashed out from behind Fang Liancheng, Yang Linshan just wanted to get a gun but it was too late, the hand was held down, and the gun was in the hands of others.

"Wang Liansheng, do you dare to shoot my gun?"

Yang Linshan stared angrily at Wang Liansheng who grabbed his shoulder and shouted.

Wang Liansheng looked at him coldly and didn't answer his words at all. There was only icy cold in his eyes. It seemed that Fang Liancheng wanted him to kill Yang Linshan and he would not hesitate to shoot!

A huge force came from his shoulders, as if pressing Yang Linshan tightly like a mountain, his body could not help but bend downwards. At this moment, he knew that Fang Liancheng was determined to escape, his eyes glanced. Full of despair.

"Send my order, the front will shrink, ready to break through at any time!"

Fang Liancheng looked at the messenger in the audience and shouted.

"Yes!"

The messengers glanced at the crushed Yang Linshan, and had to take orders and ran to the front to pass orders.

In fact, there is no need to pass it. At this time, the generals commanding the frontline companies saw this scene, but no one spoke at this time, because most of the generals now have taken refuge in Fang Liancheng, and most of their families have already arrived at the new base. , Now it's involuntary, even if Yang Linshan is a team they respect, but for the sake of their family, they dare not resist Fang Liancheng at this time, and now they are desperate. Such a battle is no longer possible. Saved withdraw.

Although Wei Sicheng and Li Shufu are still entangled with the Spider King, they still understand that it is useless. Only from the first shot to the Spider Queen, there is no shot that can hit him in the head, but the two have already It was a dangerous situation, a large number of mutant spiders were rushing to the chariot, and the spider king followed closely behind, almost dancing with the \*\*\*\* of death.

"Head! Don't shrink the line of defense. Once there is no resistance, the spiders will be fully pressed, and we are all over!"

When Yang Linshan heard Fang Liancheng's order, he exploded on the spot. He struggled desperately and shouted.

"Shut up, don't think you will fight!"

Fang Liancheng stared at Yang Linshan fiercely.

Of course he knows it too, but now it's impossible. He just wants to live now. His strong desire to survive makes him desperate. He just wants to concentrate his superior forces and tear a hole from the mutant spider army to highlight their ability to encircle them. Escape and ascend to heaven.

However, at the next moment, Fang Liancheng was dumbfounded. He miscalculated the speed of the spider, and even more miscalculated the mood of the soldiers at this time. As soon as the battle line shrank, the soldiers suddenly lost their fighting spirit. He was relying on his blood and military

discipline. In the support, as soon as they heard the order to retreat, they retreated, and the gunshots immediately disappeared. The mutant spider army quickly rushed up, like a tide, and it was more than 30 meters away in a blink of an eye. The five or six spiders in the front jumped directly from the gap in the wall that Wei Sicheng had hit before, and fell into the crowd with one jump.

"what!"

With a scream, the first casualty appeared on the battlefield, and then one after another, mutant spiders rushed in frantically, pounced on the soldiers, threw them to the ground, and the sharp fangs entered the soldiers' bodies. Immediately, blood poured out like a fountain, and the soldiers panicked even more and backed away.

"How could this be? How could this be?"

Fang Liancheng looked at the warriors harvested by the mutant spiders, and was shocked, he cried out in disbelief.

"Head, can't hesitate, we have to rush out, otherwise it will be late!"

Li Zhongtian was also stupid, he didn't expect things to turn out like this, but in an instant he slapped a spirit, like a cat with its tail stepped on and jumped in front of Fang Liancheng and grabbed him anxiously.

"Go! How to go! It's all over!"

Fang Liancheng said stupidly.

Chapter 1138: After the sword slashes the spider, no work returns

"No...There is no chance, I...Yes! We can drive out!"

Li Zhongtian yelled unwillingly. His eyes were turning like a spirit fox. In the blink of an eye, his eyes suddenly lit up on the battlefield. He saw the Dongfeng warriors colliding back and forth on the battlefield, which made him think of his idea. , So he looked at Fang Lian Chengdao anxiously.

"exactly!"

Fang Liancheng finally came back to his senses at this time, his eyes lit up, and he suddenly looked at Wang Liansheng anxiously and said, "Liansheng, let us rush out soon!"

Without a word, Wang Liansheng pushed Yang Linshan aside, jumped down the steps to a chariot, opened the chariot door and got into the driving position, while Fang Liancheng and Li Zhongtian had already gotten into the chariot quickly. Started, then roared and rushed out.

The soldiers along the way flashed one after another. Two of them flashed out and were hit by the chariot. At this time, Li Zhongtian and Fang Liancheng were red eyes and roared and accelerated, completely ignoring the soldiers in front. They would be crazy. Up.

With a loud noise, the chariot roared and rushed out of the gap where Li Shufu drove down. It was hitting the mutant spider group, and the mutant spiders were knocked out.

Yang Linshan was pushed out by Wang Liansheng as far as he fell to sit on the steps, but he also woke up, his eyes were red, watching his hard-to-maintain line collapse instantly, and his brothers who had been with him for many years were mutated. The spider slaughtered, and his heart was like a knife, and he was very distressed. He only felt that the blood in his heart was tumbling, and his eyes were dark for a while. If Fang Liancheng was still around at this time, he would really kill them, but he was already charged. He could no longer help but utter a mouthful of blood after the chariot was more than ten meters away.

He actually vomited blood from the breath, but after spitting out a mouthful of blood, he felt better. He saw a large number of mutant spiders being hit by Fang's chariot and prevented the influx of mutant spiders. He reacted instantly and hurriedly Shouted loudly.

"Stay steady, don't panic, rely on the platoons on the courtyard wall to organize a counterattack!"

When he shouted, the generals of each company platoon finally reacted, yelling to organize a counterattack. The first line of defense has been broken, and there is no defensive meaning.

Fortunately, there was only a gap of six or seven meters in the wall, and mutant spiders could not swarm too much at once, giving them time to fight back.

Moreover, Fang Liancheng's departure, although once again a heavy blow to morale, it knocked the large number of mutant spiders that came from the gap into flight, blocked the spider army, and killed a lot of people, earning everyone money. At the critical time, this may be the biggest contribution he has made so far as the minister.

Now these company platoon officers also saw Fang Liancheng's escape. For a while, Liushen had no master. Now that Yang Linshan was in his early days, they immediately found the backbone and quickly organized a counterattack. The gunfire roared again.

The most important thing is Yang Lin Shan Jing and the battle formation. He has formed three lines of defense. The first is built by mounds, the second is built by walls, and the third is three cross fires built by houses. The net just retreated was only the first line of defense, and the second and third line of defense played a role at the critical moment. Fierce fire fell from under the roof, and the hundreds of mutant spiders that rushed into the formation were biting. After nearly a hundred people were killed by the wounds, they were finally killed.

After all, there are nearly two thousand soldiers, and after the initial panic, they quickly stabilized. This is the difference between elite fighters and ordinary people. If ordinary people had already escaped, they would have escaped.

Relying on the courtyard wall, the soldiers lined up in several rows and re-formed two lines of defense. They all fired at the mutant spiders pouring from the gap. For a while, the gunfire became louder again.

The soldiers breathed a sigh of relief when they saw that mutant spiders were killed by the wall.

But before everyone was happy, the mutant spiders on the wall began to jump like dumplings, and the shadow of death once again enveloped everyone's heart. Even at this time, Yang Linshan's heart was also gloomy. He can only take a step and see. I really don't know how long it can last.

Wei Sicheng and Li Shufu are fighting with the Spider King. They have taken the Spider King away from the battle line. Although they have not been able to kill the Spider King as expected, they have also been relieved of the pressure on the front line.

The entire spirit of the two of them was focused on the battle with the Spider King. They did not notice the change of the battle line for a while. When they heard the guns were sparsely heard, and saw the spider army pouring into the temple through the gap in the wall, their faces changed on the spot, Li Shufu's expression turned pale, and he even forgot to use the direction.

Chapter 1139: Crazy hacking and killing the thrilling spiders

There was a slight negligence on the battlefield. When Li Shufu came back to his senses, his eyes were full of panic when he saw the scene in front of him.

He only felt that it was dark in front of him, and the huge body of Spider King hit the body like a train. He only felt that the body shook and a huge roar sounded. Then the whole car rolled out instantly, and the two felt like riding a roller coaster. .

The chariot drove three times and then hit the ground, rolled a few more times, and killed five or six mutant spiders before it came to a halt.

If it weren't for Wei Siming's quick reaction, he retracted his body in an instant, he might have been thrown out in the collision just now, and he would have been stunned and dizzy, and his face and head would be covered with scars.

Li Shufu was not much better than him. The glass in the driver's seat had all burst, and the blood stains on his face made him dizzy and still hadn't recovered.

"Lao Li! How are you Lao Li?"

Wei Siming wiped the blood from his face and hurriedly retracted into the car, shaking Li Shufu's shoulder and shouted anxiously.

"call!"

Li Shufu let out a sigh of relief. He seemed to come back to his senses. He checked his body up and down, then shook his head weakly and said: "No...it's okay, it's just a little dizzy!" There was a trace of misery on the blood-covered face. Smile.

"No, get down!"

Suddenly, Wei Siming let out a horrified cry, and then suddenly fell down and hugged the car seat tightly.

"Oh my God!"

Li Shufu only glanced to see the mutant spider king slamming into him again, his face turned pale in an instant, and he quickly screamed and hugged his head and hugged his body tightly.

"boom!"

The whole body shook again, and then it slid out five or six meters and turned over two somersaults, which also stopped.

The Dongfeng warrior, who is known for its solid skin, has completely deformed its body. The entire side seems to have been pressed by a road roller. It has been recessed in half. The rigid steel column of the middle beam has also been distorted. Only one of the four tires is still on it. A large number of parts on the body have been hit and scattered all over the place.

This means that if the Dongfeng Warrior was replaced by a car, it might have been broken into pieces.

The impact was not light this time. Wei Sicheng was fainted by the impact. He felt as if his whole body was about to fall apart, and his arm was painful and unable to move. He seemed to have broken bones. Even though he was clinging tightly after the violent impact just now. The seat, but the hug, the strong force may have pulled his arm, and sweat bursts out of his head. He endured the pain and looked at Li Shufu in the driver's seat: "Old Li, it's pretty good. Live?"

However, Lao Li ignored him this time, lying on the steering wheel, blood flowing down the steering wheel.

Seeing this Wei Sicheng's face changed on the spot, he yelled in horror, "Lao Li!" Then, ignoring the pain on his body, he rushed forward and moved Li Shufu to his body with a trembling face.

With just one glance, the tears in Wei Sicheng's eyes instantly blurred his eyes!

The lower half of Li Shufu's body was squeezed into one by the completely deformed car body. It was not distorted like it was. The whole car was sprinkled with blood. A large angle iron was plunged into his chest, and the whole left chest was completely cut. The broken ribs all exposed the white stubble of the forest. He looked shocking. His eyes were closed, and his entire face was twisted into a piece, a bit hideous. One can imagine how much pain he suffered.

what!

Wei Sicheng felt that his chest was about to explode. He raised his head and screamed wildly to relieve the pain in his heart.

## Chapter 1140: Mental attack

Fang Liancheng's chariot is now in crisis. Although they rushed out of the wall, they were colliding with the spider army.

A large number of mutant spiders blocked their way forward, and swarms of mutant spiders swarmed toward the chariot. Although they killed a lot of them, the speed of the car dropped and dropped again, and there was no room for speeding up.

Wang Liansheng stepped the accelerator to the bottom, the engine roared, but the speed could not be lifted anyway. At this time, their car seemed to be a lone boat in the ocean, and a radius of 100 meters was densely packed with mutant spiders. They stuck their car tightly, as if struggling in the quagmire.

"What to do...what to do! We can't rush out!"

At this moment, Fang Liancheng's face was pale, anxiously stamped his feet in the car and screamed.

At this moment, Li Zhongtian was also dumbfounded. He didn't expect this to happen. He saw Wei Sicheng and the others easily smashing left and right among the mutant spiders in the car before, but how could it be their turn? There was still a way out. Now the real is on a dead end, the mutant spider is frantically attacking the car.

If it weren't for the Dongfeng warrior to be strong enough and the glass thick enough, it would have been broken long ago, but this situation would not last long. There have been cracks on the car glass, which might break in the next moment.

Yang Linshan watched more and more mutated spiders turning over from the fence. The line of defense was gradually unable to withstand, even if all the fighters had been transferred, but still could not see hope, his heart was getting lower and lower. Shen.

In particular, the wall is shaking more and more violently, and it may collapse in the next moment. Once the army of mutant spiders collapses, there will be no obstacles, and they will instantly pounce on them. By then, all the people here will be gone.

The large number of people gathered in the courtyard finally saw the real appearance of the mutant spider. Although they were hiding behind the soldiers, their faces were pale and trembling, their relatives hugged into a helpless stream. With tears.

Among them is a pair of old rural couples in their 50s and 60s. Their eyes are looking at each other. There is no fear at this time on the faces that have been ravaged by the years and life. They are only indifferent. The two old people seem to look up with their heads intently. In the north, deep longing and reluctance surged in his eyes.

These two old men are thinking of his son! Don't know if he is safe?

The battlefield situation has reached a very critical moment. It is possible that the front line will collapse in the next moment. Everyone is waiting in despair. Even the soldiers know that this is only the last struggle. The mutant spider once rushed to the front of the battlefield. At the two-meter position, if ordinary people turned around in fright and fled.

"Ah! Die to me!"

Bang bang bang.....

Holding Li Shufu, who was already breathless, Wei Sicheng drew his pistol and fired frantically at the mutant spider that came up, shouting. At this time, he had no fear, and just wanted to kill all the hateful mutant beasts in front of him.

Kaka Kaka.....

After nine gunshots, the bullet was finished, he was still pulling frantically, and the pistol made the sound of firing needles.

The power of the pistol is too small, not even a mutant spider was killed!

After shooting frantically, Wei Siming finally calmed down. He found that the mutant spider did not attack, but just surrounded him. When he did not understand what was going on, the mutant spider group suddenly separated, and the Spider King slowly walked over, cold and strange. With white eyes, condescendingly looked at Wei Sicheng as if looking at a small worm. It raised its sharp forefoot and plunged towards Wei Sicheng.

Wei Sicheng slowly closed his eyes, he knew it, he must have been tied into a skewers after this piercing, the spider king's sharp bowl-thick pointed feet are like steel vertebrae, but once they are pierced, they will not be spared.
