

## Doomsday 1141

Chapter 1141: The giant tiger is here to help the sword

boom!

Wei Siming, who was closing his eyes, did not wait for great pain, but suddenly heard an explosion sound in his ears. He opened his eyes with some doubts. He didn't understand why the explosion sounded. According to the facts, the battle line had been breached, comrades in arms. We should be powerless to save ourselves.

As soon as he opened his eyes, he saw the Spider King retreating three or four meters away, a cloud of black smoke on his head was still blowing, and a little spark could be seen.

How is this going?

Could it really be a gun from the rear?

Wei Siming looked suspiciously in the direction of the position. As a result, what he saw was the mutated spider leaping over the fence like a tide, and he knew that it was definitely not shot from the rear.

boom!

When he was wondering, suddenly a fiery red fist was swept out of the corner of his eyes and a big ball of fire flew towards the Spider King, and then hit the Spider King's head with an explosion, and the flames exploded like fireworks, extremely gorgeous.

Wei Sicheng was taken aback for a moment, then reacted, and hurriedly looked in the direction where the fireball was flying. At this sight, he was stunned. A dozen people were quickly approaching here. The terrifying mutant spider was at this time. There seemed to be a fragile chicken in front of him, beheaded by them frantically.

These dozens of people were dressed in strange costumes. Some wielded knives, some wielded axes, some wielded wide swords, some shot, and one man held a strange bow and arrow in his hand. Every arrow shot, there were three or four mutant spiders. Was shot.

There were also two women wearing black robes. A staff in their hands waved fireballs from time to time. They fell into the mutant spiders and exploded like grenades. Each blow could blow up one or two mutant spiders. The fireball shot here should have been thrown by one of them.

The blood stains on each of these people, some of them have turned black, and the whole process is silent, as if the devil from \*\*\*\* only knows to kill, and Wei Sicheng's back is cold.

Especially the first person, like a killing machine, wielding a long knife, saw the sky flashing, and the mutant spider was not without broken limbs wherever it passed, setting off a rain of blood in the sky, the whole person was like a \*\*\*\* The devil, as if there is no power to stop him.

Is that human being!

Seeing this, his eyes suddenly burst. He is too powerful, and people can be so powerful!

When Wei Sicheng saw a huge tiger, dashing left and sharp in the mutant spider group, either biting or swiping its claws, the mutant spiders were swept all over the sky like small insects, but the giant tiger appeared Very casual, just playing!

At this moment, he was a little doubtful whether he was seriously injured and had a problem with his head. He saw a illusion. This was so strange that he almost made him doubt his eyes.

"Cousin!"

Suddenly, Wei Sicheng was taken aback. He realized how familiar the person was. When he recognized this person, he couldn't believe his eyes, so he wiped his eyes quickly, got out of the car roof and opened his eyes. Look at Di Ping.

It's too similar. Except for the hair grows a little bit, the face is a bit paler, and everything else is alike. For a while, Wei Siming once again wondered if he was really dreaming, or how could his cousin come here and become so powerful. .

"Ouch!"

Wei Siming pinched his leg, the real pain, let him know that this is not a dream, it is real.

"Cousin!"

Wei Sicheng decided to give it a try. He yelled first, but the noise was dry and didn't yell too loudly. The man didn't hear it and didn't look to the side. He moistened his throat and waved his hands again and shouted loudly: "Watch younger brother!"

As soon as Di Ping arrived on the battlefield, he found that the mutant spider had already attacked the temple. He panicked, and immediately rushed down the hill with a roar and wielded a knife. He wanted to rush in to rescue his parents as soon as possible.

And when he was on the rise of his charge, he suddenly heard a familiar voice calling him, but the hissing of the mutant spider was too noisy, he thought it was an illusion, and he was still rushing.

Then he heard a louder breath, and he heard it clearly. Someone was indeed calling him, so he quickly looked up.

Chapter 1142: The main pet works together to kill the spider queen

"Cousin!"

He saw Wei Sicheng leaning over from the top of the car and screaming at him desperately. He was taken aback at the time, and then he was ecstatic. He shouted in excitement, "Cousin! I'll come to rescue you right away." !" Then he rushed towards Wei Sicheng with his knife.

"What a cousin!"

Wei Sicheng got a response, he stopped suddenly and watched Di Ping rushing towards him in a daze.

This man is really his own cousin, he couldn't believe his eyes, and tears burst into his eyes for a moment. This is the first time he saw the tears of his relatives.

At this time, the spider king also found the person attacking it. This is the fireball that Gina saw someone in the car. She threw it at will, hoping to save this person. It was also a random act, but the two fireballs turned the spider at once. Enraged, it roared and gave up attacking Wei Sicheng, and greeted everyone Di Ping.

"Ghost White Spider Queen: Bloodline Level: a, Talent Skills: Race Incubation, Strengthening Level: Tier Two and Tier Two (strength is reduced to Tier One and Tier Nine), Skills: Crystallization (Passive Defense), Impact, Spirit Puncture, a fierce beast on an ectopic face, the reason for its appearance is unknown!"

Di Ping had already threw an exploration technique in the first place, and when he saw the introduction, his eyes moved, and he discovered the alien beast for the second time. Could it be that there is also a void tunnel here?

However, it was too late to think about it. The ghost face white spider's strength was very strong. It turned out to be a second-tier and second-tier. Although it was attacked by space energy and dropped to a first-tier and ninth-tier, it was also higher than his strength. That steel armored tooth beast had abolished him a lot, even if his current strength had increased a lot than before, but he did not dare to take it lightly.

"You go in to save people, I will solve it!"

Di Ping gave a loud shout, and then left the team and rushed towards the spider queen with a quick shock to the mutation.

"Yes!"

A group of people responded in unison, and then speeded up again, rushing towards the temple.

When Wei Sicheng saw Di Ping rushing over, he hurried back into the car. After the chaos just now, the spider queen had forgotten him, but the ordinary spider did not forget, and quickly climbed into the car and attacked him. Of course he is unarmed now. Dare to fight the mutant spider.

He can only hope that his cousin, who has suddenly become so powerful, will come to rescue him.

"cut!"

Di Ping watched Wei Sicheng be besieged by the mutant spider again, he dared to keep his hand, shouted, the speed surged, and then made a leap, jumping five or six meters high and more than ten meters away, and the sword in his hand slashed towards the spider queen.

"when!"

A light and brittle sound of gold and stone sounded, screaming across the battlefield!

What Di Ping did not expect was that he leaped with all his strength and slashed on a forelimb that the spider queen greeted, and its forelimbs would be so hard, like steel, that the waves of the wave slashed on it. spark.

The sword was also bounced up, and Di Ping's arms numb with the force of the strong counter shock, and his mouth became sour. His whole body flew upside down five or six meters before he turned over and landed. The sword in his hand buzzed and tremble almost. Can't catch it.

And the spider queen is also uncomfortable. Di Ping's sword is only four or five kilograms of strength. The spider queen's strength is not a strong point. The entire body that was cut by Di Ping's sword was drawn more than two meters away on the ground. It still has eight points. The claw inserted into the ground to stop the body's momentum.

Di Ping's face changed. He didn't expect this spider queen's body to be so strong. This should be its passive ability, Crystallization, which is even stronger than King Kong's iron armor. He glanced at the Waved Blade and found that the blade was not damaged. Only then did he relax, shook his numb and sore arm, shook the blade again, and rushed towards the spider queen.

Chapter 1143: Brothers meet in tears

Di Ping was infinitely depressed, and he secretly cursed how the mutant beasts he had encountered were stronger than one, as if he had specially found them to torment them, which made him feel sullen and unwilling to accept defeat.

He didn't have time to entangle with the spider queen. He resolved it quickly so he could find his parents. If the trapped person is not his cousin, he might not even care about it.

"Crazy Wave Knife Technique·Breeze and fine waves!"

The sword fight in Di Ping's hand seemed to have disappeared. The blade was invisible. The blade light and cold shadow filled every inch of his body. The mutant spiders rushing from the surrounding area were unlucky, and were cut into pieces by the blade. , Flying all over the sky.

And his movements seem to be completely unaffected by these mutant spiders, and he rushes towards the mutant spider with a sky full of swords.

Roar!

The spider queen screamed, and rushed towards Di Ping with the same anger. It was not nothing at all. Di Ping's powerful sword strength just cut on its spider's legs, and left a trail on its thick forelegs. The cutting edge was deep and inch deep, and there were many small cracks around it, which seemed to break apart, and the strong pain went straight into the bones, making it extremely angry.

Just now, the military shelling didn't hurt it at all, but the bug in front of it actually hurt it.

The spider queen dashed towards Di Ping like a mountain. Its speed was very fast. The eight spider legs flashed quickly and brought its huge body, which was not lower than Di Ping's speed.

Seeing the arrogant spider queen, Di Ping didn't wrestle with it at all, but stepped on a snake to dodge, while the blade of the sword fell on the spider's body like the waves, making a crisp metal crash. It's like hitting iron in a forge, clanging.

Breeze and drizzle·For a fast attack, the knife came out like a breeze, like a thin wave, endlessly before and after, but also floating, there is no way to hide, there is no way to hide, the swords fall on the spider back, every knife It was heavy and heavy, and almost every time it was hit by a knife, the spider queen's body was shocked. In just one or two seconds, Di Ping cut out nearly a hundred swords, and the spider queen actually withdrew five or six meters away.

Di Ping's strength is not letting people, his sword is getting faster and faster, each knife is heavy and fierce, the knife is full of strength, the spider behind leaves a knife mark on the long crystal legs, and there are pieces of fragments. The pattern is like a piece of porcelain.

Roar!

The spider queen yelled angrily, but it was of no avail. Di Ping's body and sword skills were too fast to give it a chance to fight back.

"The Gale Knife Technique · Taking Advantage of the Waves"

Di Ping's sword technique changed from its dexterity and lightness to thick and violent. The sword strength became heavier and stronger, and faster and faster. Every second, three dozen knives fell, fast naked eyes. I couldn't see clearly, the whole surrounding was shrouded in light of swords.

Although the spider queen was also madly resisting, it was still turned around by Di Ping's nose. Whenever it was about to attack, Di Ping had changed the position, and the knife light cut from another position. If it wasn't for its crystallized defense enough Qiang was killed by Di Ping a long time ago.

With more and more cracks on his body, there are many places where the knife marks can reach two or three inches deep, and the crystallized defense gradually cannot stop Di Ping's blade.

At this time, the spider queen couldn't wait to pierce the little insect in front of him through a thousand windows and holes, thinking that it was a magnificent second-order creature but because of an injury, it fell into the Pingyang and was bullied by a small human.

Roar!

The spider queen roared more and more angry!

With the howling of the spider queen, the mutant spider army began to hiss in surprise, and the surroundings began to surround the spider queen, who wanted to save them.

The mutant spider besieging the temple also began to furious, screaming towards the front line of the troops, Yang Linshan's scalp numb, and he roared to stabilize the front line while shooting desperately.

Chapter 1144: The front will collapse to the crisis

Di Ping also noticed this change, but he didn't care. Ordinary mutant spiders couldn't get close to the combat range at all. As soon as they entered the attack range, they were smashed by the blades he swung. The broken body and limbs of the spider flew all over the sky. .

However, it still has an impact. Di Ping's sword is blocked by waves of mutant spiders. It is not as sharp as before when it falls on the spider queen. It gives the spider queen a chance to breathe. It unexpectedly dodges and moves quickly to pull away. At the distance from Di Ping, it had been frightened by Di Ping's crazy knife cut, and he dared not get close.

"There is no way to run!"

As soon as Di Ping saw this willingness to do it, his whole body was gushing with blood and blood, and his feet slammed on the ground. The whole person instantly rushed out and caught up with the spiders. The mutant spiders along the way were smashed into fragments by his powerful impact. It looks extremely refreshing.

"The Flame Knife slashed for me!"

Di Ping, who rushed past, instantly activated his talented flame enhancement and slash, using the speed of the rush to slash out his combination.

when!

With this attack, the power is stronger and more fierce with the speed bonus, far more than 50,000 catties. The hard and sharp wave-chasing blade slashed on one of the hind legs of the spider queen, making a crisp sound as if a knife broke metal. Di Pingsheng chopped in about one-third of the thick and thin hind legs of the Spider Queen Sea Bowl. The outer crystallized bone and armor shattered into pieces, and the blade was burnt black, which was burned by flames.

At this time, Di Ping finally knew why the spider queen was so strong. The crystal armor on its legs was about three inches or ten centimeters thick. It tightly protected the inner muscles and meridians like a stone without destroying this layer. Don't even want to hurt the crystal defense.

"Roar!"

The spider queen let out a terrible roar, turned around abruptly, and the sharp forefoot slammed toward the shovel with strong wind.

Di Ping kicked the ground, his body flashed back quickly, hiding behind the spider with a full blow, and then hit the ground with a knife to kill several mutant spiders that rushed forward, and shook his foot again and rushed towards the spider.

"hiss!"

Suddenly, the queen of the spider screamed at Di Ping in anger. The sharp voice pierced Di Ping's eardrums and his brain felt dizzy.

This surprised him very much. His current mental strength could not stand this scream, so he continued to rush over because of his discomfort.

At this moment, his eyes trembled suddenly. He saw a strange scene. Between him and the spider queen, he actually saw the air fluctuate, as if it was distorted. At this moment, the body of a mutant spider rushing over looked like it was smashed by a pulverizer, and broke instantly, making his scalp numb.

After many life and death experiences, he was already extremely sensitive. Seeing this, he didn't want to be stomped on his body and rushed towards the side. But at this moment, he suddenly felt a pain in his head, which was as unbearable as a needle stick. , His movements took a step slower.

boom! His body seemed to have been hit by an invisible force, and he flew more than ten meters, and then fell into the mutant spider group.

Two or three mutant spiders were smashed by this powerful collision. "Puff!" Di Ping fell on the ground, a mouthful of blood spurted out from one side of his body, and he looked at the spider queen with some horror.

Could it be that this is a mental piercing, which is a bit like the mutant queen bee he encountered before, can actually launch an invisible mental attack in the air, it seems that the mental power of this spider queen is much stronger than her own, only she is still Can't launch such a powerful attack, at most it will deter the next person.

But the spider queen launched this invisible attack, even if it was strong, he couldn't stand it, and he vomited blood for the first time. This means that his body is hard enough, which would be shattered by ordinary people.

On that, he also felt dizzy, his limbs ached, and his chest was suffocated, as if he was going to relax. After a breath, it hurt.

"hiss!"

At this time Zhou's mutant spiders reacted and quickly rushed towards Di Ping.

This made Di Ping angry. Even if he was injured, it was not because these little bugs dared to come. He endured the pain on his body and stood up with a touch of the ground. The sword in his hand waved, and a clear sound of the sword sounded. The sound sounded like a dragon chanting, like a phoenix crying.

I saw a dozen mutant spiders around him immediately stopped, and then their upper body slowly slipped down, and the whole was cut in half by Di Ping, the blades were as flat as a mirror.

Chapter 1145: So angry like a zombie

Di Ping looked sharply at the spider queen. Just now, he knew that the spider queen's defensive power was still worse than that of King Kong, who activated the iron armor in a violent state. However, it was not something that his general sword strength could kill. The ability to use the knife is superimposed, otherwise don't want to take it quickly.

The spider queen was also extremely angry. Its front foot was about to be cut off by Di Ping, leaving only half of it. At this time, it was no longer able to use it. It looked at Di Ping angrily and rushed over again.

boom!

At this moment, a huge white giant shadow fell from the sky and hit the spider queen, and the spider queen hit by the huge impact immediately crawled on the ground.

Di Ping didn't need to look at it to know that this was the big cat. It was playing with the spider just now. Maybe it was annoyed to see Di Ping being knocked down by the spider queen. She rushed over. The spider queen's full attention was on Di Ping. That noticed the sudden attack of the big cat.

As soon as the big cat fell on the spider's back, it pressed it to the ground, and began to madly bite the back of the spider's head. The carapace flew around for a while. The mutant giant tiger's teeth were sharper than steel. Although the head of the spider's back was hard, it was also Can not withstand the crazy bite of the giant tiger.

It can be said that the crystalline back of the spider's head and the lower abdomen dragged down on the ground are its only two weaknesses. Previously, Wei Si accomplished the head as a topic, but the upper part of the head was exposed. There are not many parts. It is difficult to hit, but the giant tiger is a little blocked on its back at this time, and it is not blocked by the giant tiger. It doesn't matter whether it is hard or not, it just gnaws hard. If there is no crystal armor on the upper half, it may be The giant tiger bit it through in one bite.

Roar.....

The spider queen reacted and began to scream and struggle frantically, trying to throw the giant tiger off, but the giant tiger stubbornly clung to the spider queen's body and kept biting. The spider's queen bite deep marks on its head. Pieces of armor flew down.

good chance!

Di Ping's heart suddenly moved. If he didn't take the opportunity to take down the spider queen, it would be a waste of the great opportunity that the giant tiger gave to create!

"Fold it for me!"

He suddenly waved the saber in his hand, the saber buzzed, and dashed sharp edges in the air.

"Fold again!"

Di Ping pushed his strength again, his arms danced with swords frantically, tweeted! The sword screamed through the air, showing how fast it was.

Hum! The five-layer sword is successful!

The buzzing of the saber grew stronger, and it began to shake violently, as if it was a bird ready to fly.

Di Ping's eyes widened and his arms vibrated again. Qi and blood spurted like a tide, and his ears kept cooing. The veins on his arms bulged like a dragon, as if the blood inside was about to spurt out.

Seven layers of sword strength!

Hum! The saber buzzed even more loudly, and the surrounding air was distorted. It seemed that it could not bear this terrible power. The buzzing sound seemed to tremble in people's hearts, making people palpitations.

Although the superposition of sword strength is strong, it means that the charging time is too long. It takes a full second for Di Ping to stack seven layers of sword strength. This second time may determine the victory or defeat of the battle, but his strength is not yet Achieve instant superimposition.

The spider queen seemed to feel the horror of the knife. It jumped in horror to get rid of the giant tiger, but the giant tiger clung to it like a gecko, with its sharp claws gripping its bones tightly. You can't get rid of it anyway.

"cut!"

Di Ping yelled violently, and his whole body shot out behind the spider like lightning. The sword was like a giant eagle that suddenly broke free from its restraints, and it fluttered out, quickly making people lose their illusion.

If someone is present at this time, it can be seen, Di Ping seems to have also turned into a knife, and the human knife becomes a giant sword light and slashes towards the spider. The horrible sword strength is cut through the void, and the air is distorted. Deformed, an air barrier was formed.

Chapter 1146: Crisis Relief Salute

The spider queen wanted to dodge in horror, but the giant tiger squeezed it down like a mountain, slowing its movements countless times, and could only see this awe-inspiring slash.

Cang!

A crisp sound of knives sounded!

The light of the knife flashed, and the giant knife with Di Ping flashed past the spider queen like a white horse. The blade light slashed on the spider's abdomen, and a string of sparks suddenly flashed, like a cutting machine cutting an iron piece, but It was just a flash of sparks, and then disappeared without a trace, and Di Ping had appeared on the other side of the spider queen.

puff!

At this moment, there was a soft sound, and a transparent liquid suddenly ejected from the back of the spider's abdomen. Then a huge wound opened in the abdomen, and a large amount of liquid leaked out like a dump.

Roar!

At this moment, the spider queen suddenly stiffened, and the eight spider legs were erected, supporting her body high, and she let out a stern roar with her hair high.

The mutant tiger was also shaken by this sudden change, it dexterously turned over and fell to the ground, turning around to look at the screaming spider queen.

Di Ping's knife was too cruel. The spider queen's entire abdomen was almost cut in half with his knife. If his sword was growing, it might really cut the spider queen in half.

The vitality of the spider queen is really terrifying. In this state, it turned around abruptly, a pair of ferocious eyes fixed on Di Ping, raised a pair of huge and sharp forefoot to face Di Ping and pierced it down.

Dipinnaken let it hit, dodged his body, and dodged! He was preparing to slay the severely injured spider queen with a knife.

Suddenly the big cat moved again. It suddenly jumped onto the spider's back again, and its huge body suddenly fell. The powerful impact force pressed the spider's queen down again, and the wound on its abdomen was immediately torn by the blow. It got bigger, and some internal organs started to fall.

Roar!

The spider queen roared again!

However, he screamed only halfway and was bitten by the giant tiger on the head. Then the giant tiger turned over and shook his head. He actually threw the giant spider queen up, turned his head, and slammed it to the ground. Suddenly killed five or six mutant spiders.

At this time, the spider queen looked like an octopus with its shell turned over, struggling desperately, but the giant tiger bit its head firmly and pressed it to the ground.

good chance!

Di Ping's eyes lit up, he bullied himself up, and raised the wave-by-wave knife in his hand, making a cut towards its lower abdomen.

puff! The light of the sword flashed, and Di Ping's softest lower abdomen was chopped open by Di Ping, like a torn skin pocket. A large number of fist-sized spider eggs rolled out like small balls, rolling all over the floor. .

Roar! The spider queen screamed desperately, and the sharp voice pierced Di Ping's mind like needles. Even the giant tiger had pain in his eyes, but at this time the giant tiger looked like a mad tiger, and the bite was even more violent. .

Click!

The weakness of the back of the spider's jaw that turned over was exposed. The giant tiger just bit it, and there was a crisp sound. The thin crystal armor instantly shattered under the giant tiger's teeth, and the entire lower forehead was directly given by the giant tiger. broken.

Di Ping also endured the pain, frantically brandishing the saber to chop the spider queen's abdomen to pieces, and his internal organs were chopped to pieces with the knife.

The spider queen struggled fiercely for a while, and then gradually stopped. The eight huge pointed legs trembled from time to time, but Di Ping still did not relax his vigilance until a huge group of green soul energy slowly rose. Just stopped hacking.

Roar!

The giant tiger stood on the corpse of the spider queen, and the sky screamed, and the mountains and forests trembling like thunder.

Chapter 1147: Battalion commander returns to the giant tiger follower

Di Ping was also shocked by the sword in his hand, and his heart was surging. This is a second-order creature. Although it is injured, it is also a second-order. Today, he not only beheaded a second-order King Kong, but also killed a second-order alien plane. Biology, today's harvest is good, and he is in a good mood!

The giant tiger roared imposingly, and then as if suddenly lowered its head, stretched its big head in front of Di Ping Ping, arching Di Ping like a cute kitten, as if acting like a baby.

Di Ping stretched out his hand and touched the fluffy head of the big cat, with deep emotion in his heart!

Before, he suddenly had a big cat as a pet, but he didn't take it seriously, because he felt that the big cat was much weaker than him. It was a burden to bring it around, and it didn't help much, but today he really Changed.

Today, if it weren't for the appearance of the big cat, not to mention that the base would lose a lot of awakened people, even if he was in a big trouble, he did not expect that the big cat could have such a good effect in cooperation with himself.

The King Kong before, and the spider queen in front of him, if it weren't for the big cat to restrain them, he wouldn't even want to make a contribution with a single blow. The spider queen just now couldn't hit it severely without using a knife. It seemed that he was cut out by himself. The blade light, but the huge body of the spider queen is nothing.

Therefore, only the sword strength can be used to severely damage the spider queen, but it takes time for the sword strength to accumulate strength. How could the spider queen give him time, and the existence of the big cat gave him the opportunity to kill the spider queen in one fell swoop.

Now, he really realized the value of the big cat. The big cat is connected to his own mind. The two coordinated forces will be even higher, even if they encounter a stronger mutant beast, they can solve it without always running away.

He looked at the big cat who acted like a kitten to himself and liked it very much. He patted his head fondly and said, "Thank you, big cat!"

Woo!

The big cat made a murmur, as if saying no.

Di Ping split his mouth and smiled, patted the big cat away, came to the head of the spider, and cut the head of the spider with a knife, took out the walnut-sized crystal core, and put it in the backpack.

At this time, the mutant spider group was in chaos, and the death of the spider queen seemed to have lost the backbone and support, and wailed in horror.

The huge spider colony has been consumed too much since the battle. After this battle, the number of mutant spiders surviving on the battlefield is less than five thousand. The original aggressiveness, but now it is so helpless.

The huge roar of the giant tiger scared them off their last trace of courage, and they all screamed and ran away!

Wei Sicheng has been watching Di Ping fighting. The mutant spider attacked Di Ping due to the call of the spider queen. He didn't care about him at all and made him safe. At this time, he saw the mutant spider retreating and he got out of the car. Drill out inside.

"Cousin!"

Wei Sicheng suddenly choked in his voice, his eyes were red, and tears rolled in his eyes.

After just experiencing life and death, and seeing his relatives for the first time, this iron-blooded soldier couldn't restrain the excitement and excitement in his heart at this moment.

"Cousin!"

Di Ping's eye circles were also a little red, and he hurried up to meet him, and the two raised their arms and hugged each other heavily.

The tears in the eyes finally fell. This last days is not more than a month, but it makes people feel like after decades, how happy it is to be able to meet relatives in these last days.

The big cat seemed to feel the sadness and excitement of the owner, and even stretched out his head, gently arching Di Ping.

"what!"

Wei Sicheng lifted his tears and saw the long fangs of the giant tiger. On the spot, he was frightened by a jealous spirit. With a scream, he involuntarily pulled Di Ping back.

Chapter 1148: Calling parents in a dream

boom!

The wall finally fell, Yang Linshan felt his scalp exploded on the spot, and the soldiers who were shooting desperately were also shocked. There was desperate fear in their eyes, and the hand holding the gun trembled.

As the wall fell, a large number of mutant spiders poured in like a tide, and it was useless for the soldiers to shoot wildly. Without strong firepower, the mutant spiders rushed in. With a scream of "Ah!" It fell to the ground, and then the screams were continuous, a large number of spiders pounced, and the first line of defense was instantly shattered.

Hundreds of soldiers on the first front were overwhelmed by the army of mutant spiders in a blink of an eye. Mutant spiders were not terrible, but when they met hand in hand, their strength was shown. The soldiers could not stop their bite. Blood splattered, and the ground was stained red by the bright red blood in the blink of an eye.

"Don't mess! Block it!"

The machine gun in Yang Linshan's hand has never stopped spraying flames, his face is roaring hideously, if he retreats at this time, these people will be instantly swallowed by the spider army, how can he retreat, he can only hard top.

Boom boom boom

The warriors showed the bravery of true predators at this time. Many warriors actually chose to pull the grenade to die with the spiders. For a time, dozens of explosions blew in the mutant spiders, and countless mutant spiders were blown into the sky.

"Ah! Beast, I fought with you, die for me!"

Because of the death of their comrades-in-arms, the soldiers were not afraid of running away, but one by one they blushed. They roared like crazy, shooting desperately.

What is a warrior? This is the real warrior. Even if they face the devil, they dare to fight, and even if they die, they will not shrink back.

Yang Linshan's eyes were also red. Facing his brothers being killed by the mutant spider, he could only watch, he madly shot the mutant spider to vent his pain.

The crowds behind also saw this scene. The soldiers did not retreat. It was not to protect them. At this moment, none of them screamed and ran away. They actually stood up slowly while supporting each other, looking directly at them with tears in their eyes. An army of mutant spiders rushing from outside the wall.

The human group is very interesting!

At this moment, even the timid people who were dying before were also affected by the group atmosphere and ideas. They also put aside the fear, stood with everyone and faced the danger. There was no timidity and fear on their faces, some just Indifferently, as if he was a monk who had seen through life and death.

No matter how sincere these fighters were, they still couldn't stop the mutant spider's crazy attacks. The second line was broken, and hundreds of fighters were lost again. Yang Linshan's heart was dripping with blood. Many fighters' guns exploded due to prolonged shooting. Tang, their firepower is getting weaker and weaker, they will soon be unable to stop the offensive of the mutant spider.

Moreover, the mutant spiders outside seemed to be endless, rushing towards the front line crazier than before, as if there was a big horror behind them, they were eager to flee.

There were no fewer than two or three thousand mutant spiders on the front line at this time. As the soldiers bombed the hall with more and more guns, a gap appeared in the firepower web, and the mutant spiders roared toward the last line of defense.

At this time everyone was desperate, even Yang Linshan knew that his army was about to come to an end.

Boom boom boom...

When everyone was desperate, suddenly five or six fireballs flew in from outside, fell into the army of mutant spiders, exploded a group of flames, and dozens of mutant spiders exploded into the sky with a strong explosion.

This sudden appearance surprised everyone. Yang Linshan was also taken aback. Could it be that there was reinforcement.

Chapter 1149: When mother and son meet, hold their heads and cry

"Reinforcements are coming, brothers hold on!"

Yang Linshan shouted excitedly.

kill!

When the soldiers heard the words, their spirits were shocked, and they all let out a loud roar, and then the guns in their hands began to roar.

Boom boom boom!

At this time, more than a dozen more flew over and fell into the spider swarm. Suddenly, hundreds of spider swarms had their legs broken and their limbs and corpses were flying all over the sky.

The flames are scattered all over the sky like fireworks. As long as the mutated spiders are attached to the flames, the flames will burn quickly. The flames seem to have spirituality and spread around like fire snakes. After a while, they will become fire dragons, burning each mutated spider. No mutant spider can withstand the high temperature of the flame for a long time, basically it burns to ashes quickly in just a second or two.

These spiders were obviously very afraid of flames, and they only screamed screaming and horrified. At this time, they could no longer attack the front. They screamed and wanted to escape.

At this time, the soldiers, including Yang Linshan, were almost stunned. They looked at the scene before them and couldn't believe how these dozen small fireballs could erupt with such a big flame, it was no different from the forest fire.

The high temperature of these flames is scary, and even ten meters away can feel the terrifying burning sensation.

However, Yang Linshan just froze for a moment, and immediately reacted and shouted: "Don't stop shooting, clear the target!"

"shooting!"

With the roar of the company platoon officers, the gunshots became intensive again from sparse, and thousands of mutant spiders surrounded by flames were quickly eliminated under the firing of the army.

As soon as the spider swarm was wiped out, the raging flames suddenly shrank and disappeared, leaving only a mutated spider corpse that was charred and still billowing with blue smoke.

This big fire wiped out nearly two thousand mutant spiders. At this time, there were not many mutant spiders entering the wall, and the number was less than one thousand.

Boom boom boom!

When Yang Linshan ordered the mutant spiders to be killed, suddenly several figures descended from the sky and plunged into the mutant spider swarm. For a time, swords and sword shadows flooded the battlefield, and the mutant spiders that only made them tremble were like The chicks were beheaded by this group of people in strange costumes.

This sudden scene stunned everyone, and forgot to fire the gun. Everyone looked at the several figures that suddenly appeared with a look of astonishment.

At this time, several people appeared on the ruins of the collapsed wall. They were male and female, and they also wore strange clothes, a bit like role-playing popular in the world.

Roar!

Suddenly there was a stern and desperate horrible roar in the distance, and the spider swarms seemed to be frightened. There was a commotion, and then they neighed in panic. They turned their heads and fled, but they were also affected by this. People chased and killed hundreds of them, and then disappeared without a trace.

When this person stopped chasing and turned his gaze to Yang Linshan's direction, the whole air suddenly seemed to freeze.

There was a moment of silence on the battlefield, and all the soldiers looked at these mysterious people who suddenly appeared!

All of these people had torn clothes and blackened blood stains, like blood zombies that had been underground for a hundred years. Their eyes were cold and their bodies were so angry. When they swept over, the entire battlefield was suddenly Under the blue sky and white sun, a cold wind suddenly started, causing everyone to shiver involuntarily, as if they were in a ghost.

They are not afraid of mutant spiders, but these people are obviously more terrifying than mutant spiders. The soldiers trembled in their hearts, and even the hands holding the guns trembled. There was fear in their eyes, fearing that these blood zombies would rush to drink them. blood.

Chapter 1150: Shameless never bottom line

This group of people are Owens. They rushed over with all their strength just now. They didn't want to push the mutant spider over to the military front, almost causing the line of defense to collapse. In the end, Owen asked Gina and Yunmengsi to work together to launch the ignition technique. After eliminating most of the mutant spiders, they kept the front line, and several people breathed a sigh of relief.

Although there are a huge number of mutant spiders, after such a fierce battle, there are only three or several thousand remaining on the battlefield. This number is no longer enough to cause any threat. The spider queen was killed by Di Ping again, and the remaining mutant spiders have no owner. They fled into the mountains and forests, and the crisis finally ended.

The sky, which was originally covered by dark clouds, cleared at this moment, the clouds cleared and the fog dispersed, and the brilliant sunlight re-illuminated the earth. Everyone's hearts were brightened. Countless people looked up at the sunlight in the sky and felt so beautiful at this moment. It seems that I haven't seen it for a long time, and I feel new and new.

Under the sun, the coldness of Owen and others seemed to be dissipated by the sun, and faces clearly appeared in front of everyone, which made the fear in the soldiers' hearts disappear a lot.

Yang Linshan had already calmed down. He knew in his heart that these people were mysterious and terrifying, but these people saved them, so he hurried out of the defensive circle and shouted to Owen and others: "My fellow Jincheng Garrison Deputy Chief Yang Linshan, thank you all for saving your lives, dare you ask who your friends are?"

"Owen, captain of the Sanctuary City Guard, come here to save people at the order of the city lord!"

Owen Qiang slammed the broad sword into the sword bag behind him with a sound, and fisted Yang Linshan with both hands and responded loudly.

His voice was as loud as the humming of Huang Zhongda Luzhen's temple, and everyone could hear his voice, even if it was the people behind the troops who heard it right now, and did not have the indifferent feeling of seeing death at home. The danger was eliminated, they craned their necks to see who was talking, and they were still talking about it.

"City Lord? Who else is there now?"

Many people were talking in low voices, but Yang Linshan was confused, frowning, what kind of city lord, what age was this, he was wondering if these people ran out of the Shenjing Hospital.

"Dare to ask your city lord?"

Yang Linshan couldn't help but tentatively asked after hesitating for a moment.

"Our City Lord is Di Ping, the Lord of Sanctuary City!"

Owen's body was shocked when he heard the words, his eyes became extremely solemn, and he took a step forward and said with a sharp right fist.

"Where is the Sanctuary City? Di Ping? Who is this again? I've never heard of it."

Yang Linshan looked at Owen with a solemn expression as if he was taking an oath. His brows became even tighter. Now he has not received an answer but is even more confused, but he can no longer ask, and keeps asking what it is like.

With a smile on his face, he clasped his fists at Owen and his party: "In short, thank you for your help and help, I thank you on behalf of all our soldiers and all the people!" He said that his expression changed abruptly, and slowly raised With his right hand, he really paid a military salute to Owen and his party.

"salute!"

At this moment, a password sounded behind him, huh! All fighters raised their right hands to salute Owen and others at the same time!

Since the city guards in the refuge city adopt military management, their salutes are also military salutes. Owen and others also understand that they are all upright, and they return a standard military salute to Yang Linshan and the sergeants. Their expressions are solemn and solemn. .

This made Yang Linshan even more curious, watching these people act like soldiers, but looking at their appearance, they are not in the current generation, as if they are people who have walked out of the movie.
