

## Doomsday 1191

Chapter 1191: Reward tasks come together

Hu Jun suddenly shook his body and stepped back three or four steps before he stood firmly. His eyes looked at Qingfeng with horror. He stared at Qingfeng and exclaimed, "Why are you so strong?"

"This is the result of our research!"

Qingfeng suddenly closed her momentum and said coldly.

"Isn't it unsuccessful? How could you..."

Hu Jun said in surprise.

"Our five brothers, I survived!"

Qingfeng suddenly turned around and walked outside. When he reached the door, he paused and dropped a sentence coldly, and then walked out of the room gracefully.

"Five brothers, you survived..." Hu Jun repeated, suddenly his face was horrified, and he looked at the door of the room in a daze for a while and couldn't speak clearly. He felt deeply the shock and contemplation.

"who?"

Hu Jun, who was standing on the spot shaking his arm and thinking secretly, suddenly moved his ears, and a cold glow flashed in his eyes. He shouted, his body moved and hit the right wall with a fist.

boom!

With a loud noise, he punched a large hole in the 20 cm thick cement wall with a size of one meter. The cement fragments flew randomly. Hu Jun saw the figure flying out, and then his body slammed and rushed out. The room, the speed turned out to be quite fast.

When Hu Jun also rushed out of the room to the corridor, the figure had disappeared. Hu Jun stood and watched for a while, then walked to the next room and saw a blood on the ground. A cold smile flashed in his eyes.

He doesn't need to think about it and know who sent this person. There will be no one else except Chu Dingbang, but he doesn't want to care about it. He is not as arrogant as he appears, and he has his own gulf.

"commander!"

Chu Dingbang was sitting in the large office, smoking a cigarette, and silently looking at the map on the wall. When the window moved, a figure jumped in. As soon as he stood still, he held his chest with one hand and sprayed a mouthful of blood. .

"Leng Jun!"

Chu Dingbang got up from the boss's chair and looked at Leng Jun suspiciously at his desk: "Why are you hurt? Who hurt you?"

"Hu Jun!"

After spitting out a mouthful of blood, Leng Jun felt a lot more comfortable in his chest, but when he heard Chu Dingbang's question, his eyes became cold, two words burst out from between his teeth, a trace of anger flashed in Leng Jun's eyes, and a ten on his left face. There is a centimeter-long scar, like a centipede, twisting on his face obviously and extremely hideously.

"Hu Jun?"

Chu Dingbang looked at Leng Jun suspiciously: "You are not his opponent, how is this possible?" His face changed, his eyes flashed quickly, and he said in shock: "Is he also an Awakener?"

"Yes, it's... it's him!"

Leng Jun nodded, and then a trace of shock flashed in his eyes. He looked at Chu Dingbang and said: "He is very strong. I can't even catch a punch. There is a wall in between... "

"How can this be?"

Chu Dingbang's face changed again and asked in surprise.

"That Taoist priest is stronger than him. Just now the two punched, Hu Jun was shaken back three or four steps!"

At this time Leng Jun once again gave out a news that made Chu Dingbang even more shocking.

"This....."

Chu Dingbang's complexion suddenly became more ugly, his eyes shrunk, and he took a step back and sat in the soft boss chair, muttering, "How is it possible, how is it possible..." Suddenly his eyes lit up. , Sitting up suddenly, he thought of a possibility.

At this time, he had a strong idea. Could it be that Kyoto has mastered the secrets of the awakened, otherwise how could it be possible that there will be two such powerful people as soon as they come out? You must know that Leng Jun is already very strong, and there is not one of the awakened in the base It was his opponent, and at this time, facing Hu Jun, he couldn't catch a punch.

If you say that one can still be an occasional event, and if it comes out two at once, let alone occasional, then it is impossible to say, and Chu Dingbang has never believed in such a small probability event occasionally.

The look in his eyes fluctuated for a long time, and Chu Dingbang woke up from his contemplation. He looked at Leng Jun and asked, "Have you heard what they said?"

Leng Jun shook his head and said: "I was a step late, and the two seemed to be talking about something and they fell apart. The two punched each other, and then the Taoist chief left the house!"

"Oh!"

Chu Dingbang showed some disappointment on his face.

Suddenly Leng Jun said again: "But I don't quite understand some of their dialogues!"

Chu Dingbang immediately stared at Leng Jun and said, "What did they say?"

Leng Jun thought for a while and said:

"Hu Jun said why are you so strong?"

"Taoist said this is the result of our research."

"Hu Jun said it was unsuccessful? How could you..."

"The Taoist priest said that five of our brothers and sisters, I survived!"

"The Taoist priest in the back went out. At that time, I was breathing harder and I was discovered by Hu Jun, and I was injured by a punch!" Leng Jun looked at Chu Dingbang after he finished speaking.

"What does it mean?"

Chu Dingbang frowned for a moment, thinking hard about what Leng Jun had said, but his eyes shrank in the next second, and his face became extremely shocked.

Chapter 1192: Set conditions to advance

Although it was only a few words of dialogue, Chu Dingbang combined his own guess. He suddenly thought of a possibility that Kyoto was doing research on the awakened. They must have discovered something, otherwise Hu Jun and this Taoist priest How can it be so strong.

Moreover, when they came to Zhangkou, they took away the biological experts they had worked so hard to collect, which further confirmed his speculation, but what is their intention to awaken the person, is it also doing research?

Thinking of this possibility, Chu Dingbang was a little frightened by the madness of these people. The awakening was so rare that he would not hesitate to start with the awakened in order to study the secret of the awakening.

In this case, he can't send out the three of his men under any circumstances. Although his men are actually five at present, and the other two are hidden by him, there are only five in total. If they are just completing a certain task Chu Ding Bangle's borrowing, after all, it was Kyoto, but it was to send some people to participate in the experiment, and he would never agree.

Thinking of Chu Dingbang's eyes gradually getting cold, the corner of his mouth also raised a sneer!

"You go back! Don't do anything these days, take care of your body!"

Chu Dingbang's kind words told Leng Jun to retreat, and he himself leaned back in his chair somewhat exhaustedly, deeply lost in thought. He wanted to think about how to deal with this Hu Jun, originally he wanted to sit on the mountain and watch the tiger fight. It seems impossible.

.....

The carnival of the refuge city continued until midnight before it gradually calmed down. Except for the guards who walked around the city from time to time, the whole refuge city had fallen into the silence of night.

The dinner in the restaurant was long gone. Di Ping was also drunk today, but it was Ava and Gina who helped him back. As for Liu Bingyu, the women Yun Mengsi also drank too much, but they usually don't drink. Yu Shujie also drank a little, her small face turned red, and her blurred eyes revealed the charm of a mature woman.

Looking at her mother who was already awkward, she shook her head and sighed with a look of hatred for iron and steel. Di's mother was so irritated that she hugged her for a good meal and reluctant to let go.

Di's father and Di's mother are also very happy today. Their son is promising. Now he has become the lord of the big base. He manages so many people. It makes the old couple extremely happy. When Di's father is happy, he drank too much. Di Mu, who had two sentences in the meeting, is also rare today to ignore it.

Liu Zhenya and Liu Minsheng also drank too much. They never thought that the atmosphere in the sanctuary was so good, and everyone got along so harmoniously as a family, which made them feel relaxed physically and mentally, and the result of a fight with everyone was also poured.

Di Ping woke up in the middle of the night with wine. The powerful function of the body makes the ability to drain alcohol super strong. Today, he only drank four bottles of white wine, but at this time he could no longer feel the slightest drunkenness. He got up and took a bath. Started to practice Yuqing·Zhen Jue.

This time against King Kong, he really felt the benefits of strong mental power. If it hadn't been for the strong spiritual power to support him in grasping all the movements within three meters of his surroundings and predicting the attack point of King Kong, he would have lost long ago.

Realizing the benefits, he is more attentive in his cultivation. He has a feeling that when his mental strength is rushed to a higher level, he will give him unexpected benefits.

When the entire sanctuary city was already quiet, there was no sound or movement, suddenly a dark shadow fell silently from the east of the castle, like a fallen leaf, when it touched the ground, suddenly both feet touched the ground gently. Jumped more than ten meters away and crossed the creek in an instant, fell to the opposite bank, and then rushed into the woods with a cat waist.

A city guard above the city seemed to hear the movement, and looked down with the probe, but without seeing a figure, he retracted his head again, leaning against the battlements and dozing off.

After hiding in the woods for a while, the black shadow heard no movement, and then his body flashed back on the path that had to be cleared, and touched to the east, seeing that his direction turned out to be toward the tavern.

Who is this person?

How could he sneak out of the city of asylum in such a sneaky way, and he was obviously an awakened in his movements, with agility, like a cat.

Chapter 1193: Give conditions to choose

Di Ping was cultivating, the faint phantom of the intelligent system "Zero" appeared in the room. Seeing Di Ping was cultivating, after he was silent for a while, he disappeared silently.

The shadow had just touched the door of the tavern, and before he could break the door, suddenly the door of the tavern opened with a creak, and a bright light shot out, and it sprinkled on the shadow.

The shadow was frightened by this sudden change. He turned around and wanted to flash, but his body froze in place and couldn't move. He only felt a terrifying pressure, pressing him tightly on the ground like a mountain. It can't move, except that the two eyeballs can be turned, the whole is like a sculpture holding the posture of a cat with its waist.

At this moment, a person walked out of the tavern slowly. This person was Wu An. He stood on the steps and glanced at the man in black, then walked over and grabbed his neck and lifted him up, panicking in the black man. In his gaze, he carried the person into the tavern, and then the door of the tavern slammed closed, the light disappeared, and everything returned to calm, as if it had never appeared before.

No one knew all of this, nor did Di Ping. No one knew that a steward in the tavern had such a powerful strength that he could crush an awakened person on the ground and couldn't move.

Di Ping practiced until 6 o'clock in the morning, and then went out to practice refreshingly, practicing Yuqing·Zhen Jue in the evening, and practicing Tiger Spirit Jue and Bengquan and Kuanglang Sword Technique in the morning.

Today he feels progress again, and the Tiger Spirit Art has advanced to the third level of the Tiger Shaking as he wished. This situation has once again increased the difficulty of cultivation, but the increase in strength is also greater.

Di Ping could feel that if all the nine states of the third layer were cultivated, the added strength would be the sum of the first two layers. No wonder the Tiger Spirit Art was the best technique, which was indeed extraordinary.

With the increase of his body, Di Ping also superimposed his sword strength to the eighth layer as he wished. It took him three seconds to complete the superposition of the sword strength. If he was fighting, he would not know how many times he died. One second is enough. He beheaded several mutant beasts.

But fortunately, his body is now fully able to withstand the superposition of this violent sword strength. Although it is still a bit reluctant, it can only be completed. This already makes him very happy. The strength of the eight layers of sword strength shocks him, Possessing terrifying

destructive power like a nuclear bomb, he was already wondering how powerful the Eighteenth Floor Blade Strength should be.

.....

Today we are going to negotiate with Liu Zhenya for the last time. Last night, Liu Zhenya has expressed his intention to finish the talks as soon as possible, and he is going to return to the Bianzhou base.

It was just that before Di Ping went out, someone approached the door and saw Owen brought a person to the main tower.

"How is this going?"

Di Ping looked at Owen and asked a man in black with a puzzled look.

"Master, this is the tavern owner Wu An caught last night. He sneaked out of the castle to enter the tavern, but was caught by the tavern Wu An!"

Owen threw the man to the ground.

"Oh!"

Di Ping frowned when he looked at the man in black who was lying on the ground, "Check out the origin, is it a local man in our base?"

Di Ping shook his head and said: "The person is still in a coma, but we checked the information. He is not a member of our base, he should be a soldier under Liu Zhenya!" As he pointed his toe, he turned the person over and lay on his back. on the ground.

This is a person with very white skin, pale, black hair and black eyes, and a little stiff lines in the five views. He is a very stylish young man who seems to be no more than twenty-five years old.

"Liu Zhenya, what does he want to do?"

Di Ping looked at the people on the ground with a slight anger flashing in his eyes.

Chapter 1194: Give the exercises to surprise two people

Why did Di Ping look like this, because this man on the ground was an awakened person, and his talent was not low.

"Race: Terran, rank: first rank and second rank, potential: b rank, talent skills: physical strength enhancement, status: genetic defects, first rank best gene repair fluid can solve it!"

It is a B-level talent, and it is already quite good among the Awakeners, and there is such a person beside Liu Zhenya. He knows that there is a soldier next to Liu Zhenya who is an Awakener, but the strength of the Awakener is very low, and he is not so good. Regardless, but didn't want him to have one beside him.

But this man sneaked into the tavern secretly, what he wanted to do.

"Wake up people!"

Di Ping motioned to Owen.

Owen stretched out his feet and kicked the man behind his neck. The man shook his body and opened his eyes suddenly. As soon as he pressed his hands on the ground with almost conditioned reflex, the man sprang up, and as soon as he landed, he rushed towards Di Ping like a cheetah. Then, his right fist claws and grabs Di Ping's throat, his eyes are fierce, and his movements are so swift that he doesn't get any muddy and watery.

It's just that he just moved, and Owen behind him is faster. He stretched out his hand and grabbed his neck tightly from the back, and lifted him up. He was suddenly attacked. This person reacted quickly, and a rabbit stepped on. He kicked back, but he felt a sharp pain in his neck as soon as he moved. The big hand pressed tightly on his neck like steel pliers. He felt that if he dared to move the neck, he would definitely be pinched by someone. , He immediately retracted his foot and did not dare to move.

"Moving...dead!"

Owen's cold voice came from behind.

The body in black was stiff, and he didn't dare to move. By this time, he could see the situation in front of him completely. The continuous movement just now was an instinctive reaction of the body. Now that he was controlled, he was completely awake.

"Put it down!"

Di Ping said lightly.

"It's the master!"

As soon as Owen shook his hand, the man in black fell on the ground, covered his neck with his hands and coughed violently. He felt that his neck was about to be squeezed, but when he saw the person standing in front of him, his eyes were convex. His face was horrified, and he forgot to cough for a while.

"City..... City Lord?"

He said in surprise.

"Oh! Know me?"

Di Ping asked lightly.

"In the city of refuge, who can not know the lord!"

The man in black shook his head with a wry smile on his face.

"Just know it. Can you tell me why you want to sneak into the tavern? What is the purpose? Who sent you here?"

Di Ping smiled calmly.

"I don't know anything or say anything, please don't ask!"

This person seemed to know that he had no hope of escape and sat on the ground, shaking his head indifferently.

"Aren't you afraid of death?"

Di Ping asked.

"It is bluffing to say that you are not afraid of death. No one wants to die, but I still can't tell you that I have my principles!"

This person smiled faintly, as if he really saw through life and death.

"Are you a killer?"

Dipin asked after a moment.

This person unexpectedly raised his eyes and looked at Di Ping, then lowered his head, and said indifferently, "Yes!"

Sure enough, Di Ping had just seen this man's skill and his fierce tactics. It was either a soldier or a killer, but ordinary soldiers didn't have the kind of vicious look in his eyes. This was definitely a killer who didn't blink, so he guessed Is the killer.

"Can you tell me my name?"

Di Ping asked again.

"Chongminghao!"

The killer uttered three words.

"Liu Zhenya sent you here?"

Di Ping asked again.

"....."

Chong Minghao was silent and did not answer.

This made Di Ping more certain that this person might be Liu Zhenya, which made his original goodwill for Liu Zhenya quickly disappear, and his heart was even more secretly angry.

"What are you doing in the tavern?"

Di Ping was silent for a moment and asked again.

Chong Minghao did not answer, but remained silent.

"Are you trying to solve a physical problem?"

Di Ping asked again.

Chong Minghao's body was obviously shaking. This movement was very small, but Di Ping, who was staring at him, saw it clearly, and there was a smile on his face.

"Do you want to solve your physical defects by transferring jobs?"

Chong Minghao's body trembled again, his face was tense and he didn't say a word.

"Then I tell you, changing your job will not solve your physical problems!"

Chong Minghao was not shaking now, but was shaking. Sweat on his forehead had already appeared, and despair appeared in his eyes.

Seeing him like this, Di Ping suddenly raised the corner of his mouth and smiled slightly: "But I can solve your physical problems!"

"Really?"

Chong Minghao suddenly sat up straight and stared at Di Ping fiercely, as if he would jump on and bite as long as he was lying.

Chapter 1195: The cooperation agreement is finally signed

Seeing Chong Minghao leaving with Owen, Di Ping suddenly felt this strange feeling in his heart. He felt that he had really learned badly, and now he has learned to use conspiracy and tricks. He shook his head and put out his thoughts. He was about to go out. But suddenly stopped.

"Di...Congratulations to the host for completing the city defense. The system has rated it as excellent. Rewards will be issued. Please check.

The voice of the system suddenly appeared in his mind. It turned out to be congratulations on his completion of the mission. The system didn't say that he had forgotten it. He was excited. After completing the task of defending the city, he believed that the system reward would not be less, right?

Di Ping hurriedly opened the task and looked at his reward for completing the task. He glanced at his heartbeat and felt a little bit of excitement in his heart.

"Reward 1. Ten smart watches.

Reward 2. The first D-class defense technique "Iron Wall Technique"

Reward 3. Five bottles of primary awakening potions.

Reward four, the city defense is improved by one level, and the second level city defense. The main gun can kill the second-tier ninth-level mutant. "

This time the system is really too generous. This reward is not unattractive. It surprises him. What excites him most is that the city's defense has been upgraded to level two. The main gun can kill the mutant beasts of level 2 and level 9, even if it is. The Komodo dragon will drink hatred on the spot, and the city is truly safe.

In contrast, the first three awards are not so conspicuous. He can't wait to cheer a few times at this time, life is really beautiful.

But before he jumped up, the voice of the system sounded in his mind again.

"Dip...The host, please upgrade the castle to Level 2 within a month, otherwise the city defense will be reduced to Level 1, and 100,000 coins will be deducted. Please check the mission for the castle upgrade conditions."

After listening to the content of the system, Di Ping felt like being topped with ice water, from the top of his head to the soles of his feet. He knew that the system would not be so kind, and he was waiting for him here as expected.

He hurriedly opened the task to check the castle upgrade conditions, and now he prayed in his heart that the conditions would not be too harsh.

But when he saw the above content clearly, his face was ashamed, and his heart was cold. When he reacted, he almost yelled at the system as a cheating thing. The conditions were so harsh.

"The conditions for upgrading the second-level state city castle: 1. One hundred thousand crystal coins; 2. The strength of the city owner reaches the second level; 3. The population reaches one hundred thousand; 4. The first resource site is opened."

After reading it several times and knowing that he was right, he couldn't help protesting to the system: "I protest, this condition is too harsh, how can this be done?"

"The protest is invalid. If the system task cannot be completed three times, the system will automatically take it back. The garbage host does not deserve to own this system!"

The icy voice of the system sounded in Di Ping's mind, and Di Ping became cold all over when he heard it, and couldn't help but shocked.

If the system is recycled, what will he do? I don't dare to bet that the system is just talking about it. With his understanding of the system, it must do what it says.

At this time, he couldn't take care of it, and hurriedly blushed with excitement: "Who said it couldn't be done? Ah! Who said it? Just this small task, our family completed it every minute!"

After speaking, he blushed, and now he can open his mouth even if he is so shameless. To be honest, he is really stimulated by the system.

He slammed the door, Di Ping walked out of the door and walked heavily downstairs.

The four conditions of the system, if you say the first one, he now has more than 90,000 crystal coins, the fundamental problem is not big, and the second condition is easy to achieve, if it doesn't work, if you almost use the system upgrade, forget it.

It was the third and the fourth. Now there are less than 10,000 people in the sanctuary. He went there to get so many people.

And the fourth one is also fatal. The resource land needs to be prompted by the system to know what a resource land is, and the construction of the resource station still requires 50,000 crystal coins. He is not enough now, and the remaining 50,000 will go to that lane.

Thinking of all of his headaches, he had to think about it. He touched his head and walked out of the main tower.

Chapter 1196: Send another benefit

"Sanctuary..."

Di Ping walked into the small meeting room. Han Zhongguo, Lu Guoliang, Cheng Chao and Liu Bingyu who had already arrived saw Di Ping hurriedly greeted each other.

Even Liu Zhenya and Liu Minsheng stood up and said, "City Lord Di..."

Di Ping nodded to everyone, then looked at Liu Zhenya and smiled slightly: "Let General Liu waited for a long time. Some things have been delayed. Snip it!"

Liu Zhenya now doesn't dare to underestimate that Di Ping has come to him as a person of equal or higher status. He smiled heartily and waved his hand again and again: "How dare... How dare... Di Chengzhu guest

Angry! "

Di Ping was also not polite, and stretched out his hand and said, "Old General Liu, please take a seat. I hope we can have a complete talk today!"

"Yes, yes! It must be complete!"

Liu Zhenya said with a bright smile.

"If General Liu has anything to save, please mention, as long as I can be satisfied, I will be satisfied!"

Di Ping looked at Liu Zhenya with a smile after sitting down.

"The Lord of the City..."

Hearing that Lu Guoliang stood up suddenly and looked at Di Pingdao anxiously.

This is not the way to talk about this. It will block the road at once. Once Liu Zhenya puts forward any conditions, it will not be easy to turn around then.

But before he could say anything, Di Ping smiled at him and waved his hand, interrupting him to take Geng's words. He smiled and looked at the people and said: "General Liu played a great role in our city defense battle. He led the soldiers to help us repel the mutant beasts and relieved the crisis of breaking the city. It is a great kindness to us to protect the city!" He leaned towards Liu Zhenya and said sincerely: "I should have taken the shelter of the city and the people of the city to thank General Liu, but I don't say thank you very much, and I don't say much, but I can't help but express my great grace. So if General Liu has anything to save, please mention it. As long as our Asylum City can do it, I will try my best to do it if we can't!"

When he said this, everyone nodded their heads and stood up to thank Liu Zhenya. Now no one is opposing. Everyone must thank Liu Zhenya for his kindness. If it weren't for him to send troops to help defend the city at the last moment, he wanted to change this. The beast army would still cost a lot of effort to fight back. Of course, they didn't know that the energy cannon was so fierce after being supplemented by crystal coins.

"Don't be! Don't be!"

Liu Zhenya hurriedly stood up and waved his hands again and again: "Thank you! Are we allies? Allies should watch and help each other. Isn't it our duty to help the Sanctuary City when it encounters a crisis! I really cannot thank you!"

Di Ping's words were very sincere and made Liu Zhenya feel very comfortable. His effort and ammunition help was finally not in vain. Guan Di Ping's attitude was to sincerely thank him, but he is not stupid, he will benefit soon after helping others. I really want to mention it, this favor is too small, of course he won't mention it.

Liu Zhenya looked at Di Ping with a smile on his face and said, "City Master Di, you are too polite. If you have a favor, you will benefit, and you will provide conditions. Is that still a help? A favor is a benefit. If this is spread out There is no place to put my Liu's face!"

When everyone heard this, they suddenly felt that the old slippery head was too slippery. This was trying to retreat. If Di Ping was given less, it would not look good, wouldn't it be even more faceless?

Di Ping smiled slightly when he heard the words. He had guessed that Liu Zhenya would say that. Based on his knowledge of Liu Zhenya, he was an honest person?

Now if the conditions are raised, if Di Ping gives some advantages, he will accept it or not. If he doesn't accept it, the talk will be stale. If he accepts it, he will be afraid of being small. It is better to turn the initiative into a passive and let Di Ping mention it by himself. I can't make it without myself.

This is the shrewdness of Liu Zhenya's old gangs. He believes that people like Di Ping will not do that kind of dishonest thing. They don't need to talk about cooperation. He just gets them back. There will never be any contact here, and he will force the military area to deal with the city of refuge. Liu Zhenya is not a dumb person!

Chapter 1197: Change ideas and open up financial resources

Everyone turned their eyes to Di Ping, and they wanted to see what conditions Di Ping had to give.

Di Ping held his fist at Liu Zhenya and said: "Old General Liu is really a role model for my generation, but he is not rewarded for his achievements. This is not the way to behave, nor the

attitude towards allies! If you really did this, wouldn't it be cold? The enthusiasm of the allies will make people say that our Sanctuary City doesn't understand etiquette!" He paused and looked at Liu Zhenya with a smile: "Old General Liu hopes not to refuse. Win-win cooperation is the prerequisite for our cooperation. , Then there is a reason for one party to suffer, how to cooperate in this way!"

"City Lord Di, you are too polite. If you don't accept it, it will destroy cooperation, ah! Haha!

Liu Zhenya became happy when he heard the words, and then opened his hands and looked at Di Ping with a helpless expression: "Yes! Everything is decided by City Lord Di, I! Nothing!"

Everyone present was speechless. Liu Zhenyatai was able to pretend, and he said beautifully. In the end, he pushed everything to Di Ping. Anyway, he didn't mention the conditions and let Di Ping mention it. Originally, everyone cooperated to raise the conditions, but now It has become a thank you reward, it is so big!

Di Ping smiled slightly and didn't care. It's not good to say that he could have a heart attack that could excite Liu Zhenya. He really didn't need to grind his teeth with Liu Zhenya, for a little condition. He had a big plan in his mind, and Liu Zhenya was his first step forward. Of course he had to make good use of it.

Di Ping did not speak, and moved his hand, a thin jade piece the size of his palm appeared in his hand. He placed it on the table and slowly pushed it out until it reached the center of the table. Liu Zhenya and everyone looked in amazement. Zhonghe slowly said: "This is a body-building exercise called the Three Changes of Snake Teng. Ordinary people can not only strengthen their bodies, strengthen their physique, exercise their muscles and bones, but also develop their physical potential, increasing by 3%. Ten's chance of awakening!"

"This....."

Liu Zhenya and Liu Minsheng immediately stared at the jade piece that Di Ping pressed on the table with fiery eyes after hearing this. They even breathed quickly, and couldn't say anything when they were excited. Their hands trembled and they almost couldn't help grabbing them. They struggled to think. What do you want, don't you just want this?

Just as Liu Zhenya was about to reach out and take the jade piece from Di Ping, suddenly Di Ping spoke again: "This is condition one, I can still give you a choice!"

"What...choice?"

Liu Zhenya moistened his dry throat and asked.

Di Ping smiled slightly and said: "According to the conditions we discussed earlier, that is, you arrange for the city guards to enter the asylum city, but this time I can give you ten places. You can choose one of these two conditions. This is my gratitude, not within the terms of cooperation!"

Liu Zhenya's hand stiffened, and for a moment he slowly retracted, and looked at Liu Minsheng. Both fell silent. After a while, Liu Minsheng suddenly bit his lip and looked at Di Ping and asked: "I want to ask Lower City Lord, is this technique the same as that of the city guards?"

Di Ping shook his head lightly and said, "It's different!"

Liu Minsheng's eyes moved, and then he asked, "I wonder if the city lord can tell the difference between these two exercises?"

"Yes!" Di Ping looked at Liu Minsheng with a smile and said with satisfaction: "This exercise is a D-level weak body forging exercise, and the city guards practiced "violent ape warfare" for D-level strong. There is a mid-level difference in physical exercises between the two, and "violent ape fighting spirit" can increase the chance of awakening by 50%!"

There was joy on Liu Minsheng's face. He hurriedly thanked Di Ping and said, "Thanks for this!" Then he looked at Liu Zhenya excitedly. The meaning in his eyes was unclear and predictable, that is, he wanted Liu Zhenya to choose the second one.

Chapter 1198: Awakening potion induce shock

However, Liu Zhenya was lost in thought. He already understood the meaning of Di Ping's words. He now thinks that if he takes this exercise, not only everyone in his Liu family can practice, even the thousands of soldiers below can also. Cultivation, so that you can quickly increase your strength.

But the second one is equally attractive. One is that there are differences in this technique, and the probability of awakening is different. It is easier to awaken in the city guard, and the relationship between the subordinates joining the city guard and the sanctuary is further improved. , To deepen the cooperation between the Liu Family and the Sanctuary City.

Both conditions are very rich, and for a while, Liu Zhenya is a little hard to decide how to choose!

Lu Guoliang, Han Zhongguo, Cheng Chao, and Liu Bingyu looked at Liu Zhenya, whose face was uncertain, and finally felt comfortable. They were happy to see Liu Zhenya, an old slicker doing it.

The conditions given by Di Ping didn't matter to them at all. Now they are all cultivating violent warfare. They can't see this D-class weak grade at all, and they don't even see the number of city guards. Concerned, the city guards are now being expanded, and it is precisely because they need a lot of people. Even if Liu Zhenya is given a hundred places, they are happy to see that these people will still be the Liu family once they enter the city guards?

The treatment of the city guards shouldn't be too good. Not only do they have exercises and instructors' instructions, but they also have enough mutated meat management. At that time, I'm afraid I can't drive them away, right?

"City Lord, let's choose the second one!" Liu Minsheng looked at Liu Zhenya, who had been having difficulty making a choice, his face changed and he couldn't help it anymore and looked directly at Di Pingdao.

"you....."

Liu Zhenlai was taken aback when he heard the words. He looked at Liu Minsheng with an angry face and was about to verbally scold him, but when he saw the firm expression in Liu Minsheng's eyes, he was suddenly shocked and forced to endure it, somewhat helpless. Turning his head to look at Di Ping, "Just follow the people's livelihood!"

After saying this, he was relieved suddenly. He understood what Liu Minsheng meant. They wanted to cooperate with Di Ping. Of course, the closer the better. Maybe the Bianzhou base might be dangerous in the future. They will have to take shelter and shelter. The city, of course, is the right reason to integrate with the sanctuary city as soon as possible, but he was blindfolded, only seeing the benefits in front of him, he had to sigh at this time, his grandson is really getting smarter and smarter. , The mind is clearer than oneself.

"it is good!"

Di Ping smiled slightly, and then pushed the jade piece in front of Liu Zhenya.

"This..... Lord Di, what does this mean?"

Liu Zhenya and Liu Minsheng were taken aback, their expressions changed a little, thinking that Di Ping was unwilling to let them choose the second one.

Di Ping laughed and said, "Don't get me wrong, two of you, this exercise should be my personal gift to you!"

The grandfather and grandson were suddenly struck by lightning. The two staring bosses looked at Di Ping in disbelief and said, "This... is...really!"

Di Ping looked at the two and nodded and said, "Of course it's true. Now this exercise is yours. It doesn't matter how you arrange it, you can practice it yourself or spread it out! As for the ten quotas, it is equally valid!"

"Ah!" The two screamed excitedly and stood up. When the jade piece was in their hands and felt the real texture, they believed that it was true, and Lian Jia thanked Di Ping: "This... This is really too precious, thank you very much for the gift from City Lord Di!"

Di Ping smiled and waved his hands, then watched the two explain to them how to use this jade piece:

"As long as the jade piece is attached to the forehead and the mental energy is concentrated in it, the contents can be read. This jade piece can only be used twice, and it will be discarded after two times. You can choose a suitable person to study and then transcribe it. Otherwise, it can't be used if it is damaged!"

"Yes Yes....."

Grandpa Liu nodded with excitement, like a chicken eating rice!

Chapter 1199: The allocation plan is justified

To say that Di Ping had already given him a choice as to why he would give Liu Zhenya exercises, there are two deep meanings.

First, he wanted to look at the choice between Liu Zhenya and Liu Minsheng. If the two first choose the exercises to show that they are not in harmony with themselves, then their attitude and strategy towards the Liu family will have to be changed. They can only be used instead of reused.

But the two did not disappoint him and chose the second one to tie with the sanctuary.

The second meaning is that Di Ping has a bit of righteousness in his mind. He thinks that there are too few awakened people, and it is not in line with the mutation rate of animals. As this goes on, the mutated animals become stronger and stronger, but the human awakening is not much. , If this goes on, mankind can only go to extinction. How many people can be saved no matter how powerful they are?

Therefore, he wants to spread the exercises to let more people know and learn. Only in this way can humans have more awakened ones and can withstand the ferocious offensive of mutant beasts. He has such an idea in his heart, and he is ready to move The exercises spread to all the city residents, and Liu Zhenya also coincided with the meeting.

Someone would say that Di Ping is also a fake righteousness, why not spread his Tiger Spirit Art, that is, the base is still only practicing the D-class powerful exercises. It shows how selfish he is.

Is that so?

1. Not everyone can practice the exercises. Tiger Ling Jue is the best D-level exercise. The difficulty is extremely high. The strength of the average person's body simply cannot withstand the intensity of this qi and blood fluctuation. It can cause blood vessels to burst or tendon fractures.

Only people with a certain physical strength can practice this advanced exercise. For example, Di Ping's physical strength barely reaches the third level, so this kind of exercise is harmful to ordinary people.

For example, many people from the City Guard have only cultivated to the first level of Violent Ape Fighting Strength, and they can't even support the second level, not to mention the stronger Tiger Spirit Art.

The best practice is generally only suitable for awakened people to practice, and only when the body strength is awakened can it support this terrifying rush of energy and blood.

2. Of course Di Ping has selfish motives, and good things are reserved for his own use. He is not the kind of stupid and generous person. In these last days, his humanity collapses. Once this kind of practice spreads and others become stronger, he will definitely covet him. This sanctuary city will

still be unable to beat others by then, and there will be nowhere to cry at that time, so he must make sure that he is strong before gradually exuding this kind of exercise.

This kind of exercise will certainly not be given in vain, even if the people of the asylum city have to have merit, he can reward it or pay for it. If you want to get it for nothing, Di Ping is not so generous.

These digressions, now back to the meeting site.

It took a long time for Liu Zhen's grandfather and grandson to calm down from the excitement and excitement, and the two of them looked at Di Ping again, and the meaning of it might only be understood by them.

Afterwards, there was a lot of talk. After half a day of negotiations, the two sides had already set the terms of cooperation between the two parties. Liu Bingyu had already sorted out the content on the sidelines. The two sides had no doubt that it was the signing of the agreement.

There are two agreements, one is public, which is the agreement signed between the Bianzhou base and the refuge city to resolve this incident, and the other is the cooperation agreement signed between Di Ping and Liu Zhenya.

The content of the first agreement is very simple, the content is:

1. The two sides reached a peace agreement and the Bianzhou base promised not to use troops in the sanctuary;
2. Bianzhou recognizes the legal status of the asylum city;
3. The Sanctuary City abandons the Bianzhou base's request for a public apology, but the Bianzhou base must compensate 1,000 semi-automatic long guns and 100,000 bullets;
4. The captured soldiers were redeemed from the Bianzhou base, with a ransom of ten auto cannons, 1,000 rockets, and 50,000 auto artillery ammunition;
5. The Bianzhou base will compensate for the damage and casualties caused by the sanctuary city, with 1,000 cores;

Originally Di Ping wanted people, but this agreement was passed back to Bianzhou. Chu Dingbang disagreed with life and death. There were absolutely no important people. He had no choice but to ask for guns and bullets. Now he doesn't want to fight with Bianzhou. Chu Dingbang fell out.

Chu Dingbang didn't want to give guns to the crystal nucleus. Originally, the Bianzhou base had a serious consumption of weapons, so he was willing to take out more. So Di Ping proposed the animal crystal nucleus, but Chu Dingbang agreed.

This was Di Ping's unexpected joy. When he asked to replace the guns with crystal nuclei, Chu Dingbang seemed to realize something. He disagreed life and death, and killed a thousand crystal nuclei. Di Ping couldn't help but agree.

Chapter 1200: The second level giant city is silent

Chu Dingbang has been studying mutant animals for a long time. He now has more than a dozen photobiologists. These people have been studying for a long time, but they have not studied the purpose of this crystal core. So he agreed to use crystals. Nuclear exchange.

But when Di Ping asked for the guns to be exchanged with crystal nuclei, he quit. First, he had no more than 10,000 crystal nuclei in his hand. During this period of testing, he had damaged a lot, and he felt that Di Ping strongly wanted this. The crystal nucleus must be useful for something he didn't know, so he woke up in time and was unwilling to change it to death.

However, Di Ping was already very happy to be able to reach the current agreement. After all, the problem was solved and some weapons and crystal nuclei were obtained from Bianzhou, which was a good result.

The agreement reached with Liu Zhenya is simpler, as follows:

1. The two sides reached a cooperative alliance to advance and retreat together;
2. The Liu family resolved the pressure on the refuge city from the Bianzhou base;
3. The Liu family regularly sends talents to the Sanctuary City. The Sanctuary City is exchanged for the quota of the city guards, one quota for every one hundred people, and one quota for every ten high-tech talents;

Originally, Di Ping only wanted scientific and technological talents, but he thought that now that the base would require 100,000 to upgrade, he would have a big head, while the Bianzhou Military Region has four to five million people. I heard that the population is still increasing. Get some people over, so as to relieve the urgent need, so he proposed that a hundred ordinary people can be given a quota regardless of gender, which Liu Zhenya could not agree.

Of course, the agreement between the two parties did not leave the text content, and the two sides ripped off the agreement after reading the agreement. This kind of thing should not be left on the surface.

Both parties are very satisfied with this result. Liu Zhenya proposed to return to Bianzhou tomorrow. Now that the two sides have reached an agreement and the problem has been resolved, he is concerned that Bianzhou will go back quickly.

Liu Minsheng stayed in the sanctuary and joined the city guards. Although Di Ping believed in Liu Zhenya, he would not be unprepared. If he was asked to take all the people away without any guarantee, he would not turn his face back when he returned. What should I do if I recognize people, so Liu Minsheng stayed as a hostage.

However, this not only did not make Liu Minsheng and Liu Zhenya angry, but the two were very happy. Liu Minsheng was even more ecstatic. He wanted to stay in the sanctuary.

At the end of the meeting, a group of people walked downstairs, and Di Ping's words almost scared the grandfather and grandson of Liu Zhen to death.

He only heard Di Ping smile and asked casually, "Is there an awakened person beside you, Mr. Liu?"

Liu Zhenya and Liu Minsheng were shocked and their bodies trembled. They slipped and almost fell downstairs. Liu Zhenya was horrified. He didn't know how Di Ping knew there was an awakened person beside him, let alone he would ask directly. He didn't even know what Di Ping meant when he came out.

He firmly stabilized the horror in his heart, showing a wry smile and said: "City Lord Di is really staring, and there is nothing to hide from you. This awakened one is my guard platoon leader Zhou Keming!"

He had to say that since Di Ping asked, it means that he knew it well, and it was meaningless to cover up.

"Okay! Then I will give Lao Liu another benefit!"

Di Ping looked at Liu Zhenya with a mysterious smile.

Now Liu Zhenya and Liu Minsheng are even more confused. What benefits are they going to give?

The two looked at each other and were about to ask, but saw that Di Ping laughed and asked Liu Zhenya to move forward, they had to suppress their doubts.
