

Doomsday 1201

Chapter 1201: Staff awakened

When Liu Zhenya and Liu Minsheng returned to the room after leaving the tavern, the two of them were still dizzy. They witnessed He Qi's magical scene, and they have not yet reacted from the shock.

On the third floor of the tavern, in that mysterious hall, Zhou Keming touched the weird pillar and watched him be wrapped in a beam of light. After a few minutes, he seemed to have changed himself. He turned into a mage with an extremely powerful and powerful fire technique. endless.

They have heard the word "transfer" many times. It is a secret that they want to discover like a cat scratching in their hearts. Only now they know what it means.

It turned out to be a job transfer in the game. There are various jobs such as mages, shooters, and fighters. Once transferred, not only will you learn various skills, but your body will be strengthened through secondary development, and your strength will be improved again.

Zhou Keming, who used to be less than a thousand catties in strength, now has nearly two thousand catties in strength. His physical stamina, speed, and physical strength have been strengthened. This made Zhou Keming almost jumped up with excitement, and his eyes changed when he saw Di Ping.

If it was only admiration and awe in the past, then what has now changed is fanatical worship and respect, because Di Ping has given him strength, allowing him to see a different world, and let him know how vast and vast this world is.

It took a long time for Liu Zhen's grandson and grandson to return to the room. The two men recovered. The grandfather and grandson looked at each other and then showed a wry smile on their faces.

Only now did they understand that Di Ping's confidence was there, how superficial what they were fighting for before, and what position Di Ping, who holds such a magical method in his hands, will be among the awakened in the future, which can be positioned by God. .

Do you want to be strong? Do you want to have the same profession in the game? Do you want to learn skills?

Then all the awakened will be inseparable from this magical tavern. You have to get these things from here. You don't need to think about it or know that Di Ping will have Dobby's powerful strength in his hands. That awakened is not thankful his.

From this moment, both of them have the same idea in their hearts. This kind of person can't be an enemy in any way, and it is the right way to follow him closely!

Di Ping suddenly changed Zhou Keming's job, which shocked Lu Guoliang and the others, wondering why Di Ping let Liu Zhenya know this secret, but when they saw Zhou Keming's eyes looking at Di Ping, Liu Zhenlai and Liu Minsheng's look of despair, they understood Di Ping's approach.

This is shocking, shocking again and again to completely shatter the pride and confidence in their hearts, only in this way can they put themselves in the right place, and can truly start to work for the city of refuge, without giving birth to a different mind.

There is another meaning. Now that the secondary city defense is on, there are not many mutant animals that can threaten the sanctuary. He is about to start expanding. Di Ping knows that it is too difficult to get a large number of crystal nuclei by his own strength. Now, it will be difficult to encounter a group of mutant animals as concentrated as a city defense.

Therefore, for some functions of the open base, it is the right way to obtain the crystal core from the outside through commercial means.

In this way, while earning coins, he maximizes the function of the system and truly affects all mankind. Only with sufficient coins can he develop more system functions and cultivate more powerful awakeners. Only by getting stronger and stronger can it resist more powerful mutant animals.

This was inspired by this trade with Bianzhou. He found that it was too slow to rely on himself. If it weren't for this city defense and saving his parents to kill the mutant spiders, he would go there and get the polycrystalline core. And a base like Bianzhou definitely has a lot of crystal nuclei, why can't it be used to fill your own pockets?

You must know that his hands are all unique and scarce resources. There is no other than this. You can't do it without spending money. This is a monopoly.

Is there any more money-making method than monopoly?

Chapter 1202: Five people take awakening pills

Without mentioning Liu Zhenya's departure, Di Ping gathered the heads of various divisions and several captains for a meeting, this time like Han Zhongguo, Yu Shujie, Yun Kuohai, Ning Nan, Luo Quanyou, and the new Han Ming, this time All got the watch.

After a few people who got the watch excitedly played with them for a while, and added a contact with everyone, Di Ping looked at the people with a serious expression: "Okay, wait for the silence, I will say something very important. Thing!"

Everyone felt the seriousness of Di Ping's tone, so they calmed down and looked at Di Ping intently.

I saw Di Ping waved his hand, and five glass bottles the size of adult thumbs appeared on the conference table. In the bottles, most of them were lavender thick liquids, shining magical brilliance under the lights, extremely dazzling, and the whole room was suddenly overflowing. Colorful light.

Everyone looked at the five small glass bottles curiously, wondering what Di Ping meant when he suddenly took out this. What good thing is this?

Everyone wanted to ask, but seeing Di Ping's expression seriously, all the people swallowed their words back.

Di Ping glanced at everyone with a serious expression and said, "Do you know what this is?" Everyone sitting there looked at these bottles and shook their heads.

Seeing everyone's expressions, Di Ping showed a smile on his face and slowly said, "This is called the primary awakening potion. After taking it, there is a 60% chance of awakening!"

His voice rang out in the room, and the room fell into a deadly silence. Everyone looked at Di Ping in a daze, but the next moment the crowd sat up straight, their eyes suddenly cast on the purple glass on the table. Bottle, with all desire in his eyes, his breathing became rapid, and some were eager to try, wanting to pounce on it.

The desire for awakening may now be a strong desire for everyone in the city. Once awakened and detached from ordinary people, not only will they have delicious food and drink, but also protect themselves and their families, who doesn't want it.

Fortunately, everyone still didn't grab a trace of reason, but stared at the five glass bottles closely, their eyes were full of eagerness, as if these glass bottles had special magic power.

Bang bang bang...

Di Ping knocked heavily on the table a few times, and the loud noise awakened everyone at once. When he discovered his state, he hurriedly sat up straight, his faces flushed a bit, blushing at his state just now.

Di Ping did not expect that a bottle of awakening potion would cause such a big reaction. He regretted it as soon as he took it out. He was really afraid that everyone would grab it and it would be troublesome by then, but fortunately everyone was more restrained. It was very excited and eager, but no one was going crazy to **** it. From this point of view, the quality of his subordinates was quite good, which made him a little relieved.

"Huh! City Lord, are you testing our concentration?"

Han Zhongguo wiped the sweat from his forehead and smiled with lingering fears.

Di Ping smiled slightly and didn't answer. Instead, his eyes swept across everyone's faces and said, "I only have five bottles of the primary awakening potion. How do you think it should be appropriate?"

"City Lord, should this be given to us?"

Han Zhongguo asked with surprise on his face.

Di Ping nodded and said, "Of course it will be given to you. In the future, there will be more and more awakened people. As the leadership, you have to keep up!"

Everyone's eyes moved when they heard this, and no one spoke first, and they all fell silent. How can they be divided into only five bottles?

Isn't this offending people when you say you give it to someone and don't give it to anyone?

None of them dared to speak first, for fear that they would offend others if they made a mistake.

After waiting for a while, seeing everyone in silence, Di Ping asked again: "Why don't anyone speak, just talk about it when you have an idea?" He turned his eyes to Han Zhong Guodao: "Director Han, you usually have the loudest voice. You can talk about it first!"

Han Zhongguo was named, so he laughed and said, "City Lord, I think it's up to you to divide it! The limited number will maximize the advantage. Only the city owner is the most suitable thing to do!" When he said that, he even raised it. He said with a smile on his right hand: "Let me declare a little bit first! I don't have any opinion on who this city lord assigns to!"

"Yes! It's up to the city lord to divide it?"

At this time, everyone responded to Han Zhongguo one after another and pushed the task to Di Ping again.

Chapter 1203: Holy light energy has a strange use

Di Ping looked at everyone's attitudes, he had to shook his head helplessly. He felt that today's approach was a bit unsuccessful, and should not be taken out all at once. It should be used as a reward or benefit. Don't suffer from lack and unevenness. If you don't distribute yourself well today, you might really have lumps in some people's hearts.

As a result, Di Ping felt that he was still a little tender, thinking that the problem was too simple. Today's original intention was to give everyone a benefit and make everyone happy, but he ignored the power of Awakening Potion.

Fortunately, everyone did not let him down!

Di Ping glanced over everyone, then he pondered for a moment and said: "Okay! I'll divide it, don't get excited about it, because you will take more responsibilities, don't be envious and discouraged if you don't get it, let alone Touch your nose and shed tears. I promise everyone will have this in the future. Can you see it?"

"No problem!" everyone smiled in unison.

"Okay! The first bottle!" Di Ping nodded and smiled and picked up a bottle. As he picked it up, everyone's eyes immediately followed. Although each of them said that they didn't care, there was a longing in his eyes at this time. And eagerness has exposed their true thoughts.

Just listen to Di Ping said slowly: "This first bottle! I am going to give it to Cheng Chao!"

When Cheng Chao heard that his body was shocked, his face showed ecstasy. Hearing that it was Cheng Chao, everyone looked at Cheng Chao with some envy in their eyes, and congratulated Cheng Chao!

At this time, Di Ping continued: "As the commander of the city guard, there are already many awakened people in the city guard. This makes Cheng Chao's position a bit embarrassing. It is not conducive to being a master general and not an awakened one. Command the city guard, so I give him this bottle!" He looked at everyone and said, "Do you have any objections?"

"No!"

Everyone responded in unison.

"Okay! Cheng Chao takes the medicine!"

Di Ping nodded and looked at Cheng Chaodao.

"Thank City Lord!"

Cheng Chao stood up immediately one by one, one by one, he gave Di Ping a military salute with excitement, then respectfully took the medicine from Di Ping's hand, and sat down in the envy of everyone's eyes.

At this time, Di Ping took out the second bottle and said, "I'm going to give this second bottle to Ning Nan!" Without waiting for everyone to speak, he directly gave the reason: "As the director of the medical department, in this defensive battle She performed outstandingly in China. She had no rest for two days and one night. She had more than one hundred surgeries to treat our wounded and finally fainted. I gave her this bottle of medicine in the hope that she can become an awakened person and be able to treat more. Too many wounded!" After speaking, he looked at everyone and asked directly: "Give her the second bottle, do you have any objections?"

"No!"

Everyone answered together that many people knew about this, but they didn't expect Ning Nan to be so powerful, and the look in Ning Nan's eyes had changed a little bit. This woman was not only beautiful but also capable.

Ning Nan took the medicine from Di Ping happily, her glamorous face was glowing with peach blossom pink, which made her heart beating.

Di Ping picked up the third potion again and said: "This third one I am going to give to Luo Hongyuan, the blacksmith division. Weapons in this battle are an important factor limiting our fighters' combat effectiveness. Our ordinary weapons have no damage to some powerful ones. Mutant beasts have caused so many casualties, so the forging of new weapons is now the top priority of the base, so I gave this potion to Luo Hongyuan, do you have any objections?"

"No!"

Everyone said in unison.

Di Ping's decision is justified and well-founded. Everyone is extremely suitable, leaving everyone speechless. Luo Hongyuan didn't expect to have his own share. He immediately stood up excitedly and respectfully took the medicine from Di Ping. He turned around and bowed respectfully to everyone, and then sincerely said, "I will build more weapons for our sanctuary in the future!"

His excited look amused everyone!

There are two more. Di Ping gave Li Sheng and Zhang Liang from the city guard. Now Xu Sheng, Fatty, and Han Ming in the city guard are all awakened. Only Li Sheng, Zhang Liang and Wei Zhongkai are not, Wei Zhongkai is Later, as the team captain, the qualifications were still a little bit short, so Li Sheng and Zhang Liang got it first.

This everyone has nothing to say, after all, the city guards are going to fight, and everyone behind the service personnel is much safer. It is most appropriate to use good steel on the blade.

Everyone was convinced by Di Ping's distribution today. It was a reasonable and reasonable distribution. Everyone explained the reason. Everyone had to accept the factors that would have caused internal instability. Di Ping cleverly resolved it.

However, Di Ping also let out a sigh of relief, next time I can't do this kind of thing, it's ***** tiring!

Chapter 1204: Holy Light Awakening Strong Talent

There was nothing for a day. In the evening, Di Ping accompanied his parents to dinner. After chatting for a while, he returned to the main tower and practiced Yuqing·Zhen Jue until late at night.

Di Ping, who was sitting awkwardly in front of the floor-to-ceiling glass window, closed his eyes and practiced, suddenly opened his eyes, his eyes are like electricity, like two stars rising in the night sky.

"System, upgrade the city wall!"

Through the huge floor-to-ceiling glass window, Di Ping looked at the city wall with a faint shining milky white light in the distance and suddenly spoke.

As soon as his voice fell, the wind from the city wall flashed, as if it was a little brighter, and then he looked at the city wall as if it were alive. It was moving outwards at a very fast speed. After ten seconds, it moved 200 meters. , And then I saw that the city wall stopped moving, and then it looked like a tree took root, and it was growing at a speed visible to the naked eye. The speed was very fast, it was up to one meter every second, and it was up to 30 in ten seconds. Rice, this stopped growing.

All these changes were silent, and there was no movement. Even the warriors who watched the night at the head of the city did not notice any changes. They stood on the head of the city, and the outside of the city was completely dark, and they couldn't see what happened outside.

Di Ping watched and witnessed all of this. He was really impressed by the power of the system. Such a huge city was built in just 20 to 30 seconds. He didn't believe his eyes, but felt like a dream.

Is he really dreaming?

Di Ping smiled bitterly. He knew it would be fine if he was dreaming. He shook off the unrealistic thoughts in his mind and sat down at the coffee table to make himself a pot of tea.

He found that he was not at all sleepy now, and forced himself to go to sleep, so he might as well think of something.

He obviously feels that the system is consciously pushing him forward recently, and various tasks are coming in and he is not given any rest time at all. Although he does not understand the meaning of the system, he feels that the system should be dissatisfied with his previous performance. It may be true. He feels that he has developed a system too slowly.

Since the system has such an idea, he must follow up. The new task can be said to be very heavy. It only takes one month. He has to speed up his pace, otherwise it is really difficult to complete.

Di Ping sat for two hours, thinking a lot of things in his head, and even planning the development of the base several times in his head, before he fell to sleep.

The sun rises in the morning, and the sanctuary is as usual.

People get up one after another and are busy with today's affairs. When they habitually look at the towering city wall, they suddenly froze.

The city wall became farther, taller, and the place widened. Everyone rubbed their eyes in disbelief, and finally confirmed that it was true and not fake. They immediately rushed to the top of the city to watch.

For a while, exclamations and shouts erupted again in the city. Countless people ran to the city wall to watch. Di Ping just got up, Liu Bingyu reported to him with his watch, but Di Ping calmly said don't care, he knew!

Liu Bingyu was stunned for a long time before she was relieved, and then she realized that all of this must be done by the city lord, otherwise anyone has this ability.

Di Ping chose the night because he didn't want to cause too much turmoil. He decided to do it only once when the giant city fell from the sky before. After that, he could not do it after killing him. Now there are signs of something wrong in the city, and many people regard him as God has come to worship, and I can't wait to set up a longevity card.

This makes him feel very bad. He doesn't like this kind of stupid means, and he doesn't like to be ranked as a ***** to confess, and to live by the incense of the world, does he want to live?

God?

When have you seen it in the world?

Gods are all dead, there is no living God?

Because no one has ever seen it before, even if it is alive and dead, what is the difference, not to mention that he does not like the methods of sect foolish people, so he made repeated orders to make everyone pay attention not to guide them intentionally.

Maybe the people in the city have seen too many of the city lord's amazing methods. After cheering for a while, they all returned to their posts under the guidance of various departments and were busy with today's affairs.

However, everyone's face was filled with excitement, and they were communicating with excitement from time to time, even if they were busy with the vastness of their hands.

The huge city has become taller and more towering, which means that the safety of the asylum city is higher, and it seems that the heart is settled at the first glance.

Liu Zhenya and Liu Minsheng also stood on the top of the castle and looked at the thirty-meter-high giant city with shocking eyes. It was majestic and majestic, as if a giant beast crawling on the ground, making people awe-inspiring.

Chapter 1205: The awakening team grows stronger

Maybe good things always like to get together. When Di Ping was still practicing Bengquan, Ning Nan's message came over again and reported a good news that surprised Di Ping. There were 17 people who had a high fever and fainted. According to her judgment, it was suspected. To be awakened.

Di Ping had no thoughts in cultivating anymore. He hurriedly ended the practice, took a bath and changed the practice clothes, and hurried to the medical office.

When he arrived, all the high-levels arrived. Even Liu Zhenya and Liu Minsheng didn't bother to watch the city guard training after they knew it, so they ran over to watch.

Fifteen of the seventeen people were the Old City Guards, and two of them were the former reserve team. Now they are newcomers to the City Guards. In the morning, they were found unconscious by

their companions. They were sent to the medical office because they were sick. As soon as Nan inspected, he found that these people were very similar to the awakening state of Fatty and others before, so he informed Di Ping excitedly.

This is a great thing. There will be more than a dozen awakenings at once. This is worth it. The strength of the city of asylum is about to rise again.

Sure enough, as Ning Nan judged, Di Ping used exploration techniques to see that these people were in a state of awakening. As long as they resisted the past and awakened successfully, they would leap over the dragon gate and embark on the path of evolution.

Now, Liu Zhenya, who was going to leave today, is reluctant to leave. He wants to see the grand occasion. When did a dozen people wake up together and watch him?

He wants to witness this miracle happen with his own eyes. If this is true, it will strengthen his determination to stay close to the city of refuge.

However, everyone waited for more than half an hour and saw no movement. They just watched the dozens of people trembling and groaning in pain, but there was no sign of awakening.

Everyone had problems, and in the end they couldn't wait any longer and they dispersed. Di Ping just took a look and left. Only Liu Zhenya had been waiting at the scene and was very patient.

At noon, three people woke up, and then they seemed to get a signal. Someone woke up almost every ten minutes. The time lasted until three o'clock and everyone woke up.

Perhaps it was the luck of the asylum city. All the 17 people awakened successfully, and none of them failed. This time, Di Ping was broken and he took the 17 people to transfer, but Liu Zhenya was completely stunned, waiting to wake up. Having been in extreme excitement, his eyes started to shine.

All the seventeen people awakened. This is a spectacular scene. I think their Bianzhou base has only a few people now, but there are dozens of people in the Sanctuary City. This is really terrifying.

And then things that shocked him happened one after another, and he couldn't even make a shocked expression!

Seeing all the seventeen job transfers completed, excitedly demonstrating their skills at the entrance of the tavern, Di Ping's eyes were filled with hot light.

The number of awakenings finally broke through the thirty-man mark, approaching forty people, and the strength of the asylum city is getting stronger and stronger. He is about to enter a period of rapid development, and he can do something with his hands and feet.

But the only thing that makes him dissatisfied is that these people are not very talented. Only two of them have achieved B-level talents. One is Liu Chenglong, a strong guy in his twenties who has changed his job to a barbarian, and the other is Xing Zida. Twenty-two years old, he was a very white, sunny and handsome college student who was transferred to a mage. The rest were either C-level or D-level, and D-level still accounted for the majority.

Di Ping did not hand these people over to Owen or put them back into the city guards. Instead, he set up the Dragon Second Team, led by Buji, responsible for the training and training of these people. After all, these people have just awakened, and they have both skills and combat skills. It is difficult to stand alone without being proficient and well-trained.

After these people can display their own strength and become proficient in combat skills, Di is ready to send these people into the city guard as the captain.

Di Ping is preparing to truly build the combat effectiveness of the city guard. From the captain to the captain, all are composed of the Awakened. This is a big project. Currently there are six groups, six captains, and sixty captains.

But now there is too much difference in the number of people, even if these two or seven people are filled in, it is much worse, so this step has to be taken slowly.

Good news came again in the evening. Five or six fainted people appeared one after another. These people were all in the process of evolution, which made Di Ping extremely excited.

Chapter 1206: Farewell before the gate

Now the whole base is boiling, everyone is paying attention to this matter, countless people are envious, watching others unconscious, and then awakening, some city guard soldiers want to knock themselves out, they are angry at themselves. Why don't you live up to it, why don't you fall into a coma?

But this also caused trouble, which made Luo Hongyuan, Ning Nan, Li Sheng, Zhang Liang, and Cheng Chao who received the awakening potion could not sit still, especially Cheng Chao, Li Sheng and Zhang Liang, looking at the next one. This awakening puts too much pressure on them.

Several people finally couldn't stand their temper anymore, and asked Di Ping to take the Awakening Potion!

When Di Ping handed it over to them, he said that it is best to wait a while and wait until they have reached a certain level of physical fitness in the practice, so that the chance of awakening will be higher.

But now that the few people are anxiously like ants in a hot pot, they almost jumped up and down. They couldn't help it. He couldn't help it anymore. So they gathered the five people together and dedicated them to the medical department. A room was arranged for five people to take while he stared at the spot.

The five people opened the glass bottle excitedly, took the purple liquid in the glass bottle in a panic, and then sat on the ground waiting.

Only after more than ten seconds, the faces of several people suddenly changed, and there was a muffled groan in their mouths. The sweat on the foreheads of the five people appeared like oil, and their faces became pale and distorted, as if they were enduring great pain.

However, all five of them were trying their best to endure them. They clenched their teeth and clenched their fists. The blue veins on their arms were bulging, and their bodies trembled. After a while, the bodies of the five were pierced by sweat.

This is still summer, and everyone is wearing thinner clothes. The whole clothes are all attached to the body, as if they were fished out of water, especially Ning Nan, who only wore a tight half-sleeved t-shirt on her upper body, which was tighter at this time. Moreover, this compassionate shirt was white, and the scenery inside was faintly visible, coupled with her painful hum, made this originally serious matter a bit changeable.

This made Di Ping look a little embarrassed, and Angela, who was standing beside him, blushed.

But Mok and Zhang Zhengyi dared to look at them. They hurried to the window, looked outside and didn't dare to look here. Who doesn't know that this is the woman of the city lord. If you miss, you can look more.

They are also not easy to leave, Di Ping called them to prevent accidents and rescue them in a very good time, so they can only suffer here.

Di Ping had to admire the tenacity of this woman Ning Nan. Sometimes women were more cruel than men. Although the body was trembling and sweating like rain, blood was bitten on the lips because of the pain.

But she only snorted from her nostrils, and Zhang Liang, as a man, was already screaming, clutching the quilt spread on the ground tightly in her hands, burying her head in the scream, almost rolling all over.

Cheng Chao soldier was born with a tough personality and is still enduring the pain, and Luo Hongyuan is even more nervous. He is only blushing now, and he doesn't even hum, while Li Sheng's face is as cold as ice, and he is enduring the pain with strength. The corners of his mouth were twitching, but only occasionally made an undetectable muffled sound.

Di Ping discovered that the drug awakening is not as soft as voluntary awakening. In general, voluntary awakening will be spent in coma and fever. Many people complete their awakening without waking up, and it takes a long time to evolve. body.

The awakening of this medicine is just like the treatment. It is very overbearing, powerful, and has a very strong impact on the body. This is obviously to stimulate the potential in a short time to achieve awakening.

Time passed by one minute and one second, ten minutes. At this time, it seemed like a year for several people. The bodies of several people were already shaking completely uncontrollably, as if they were all beating in their muscles, and the bones made a click. The sound is like being crushed, and the heart beats like a drum, banging in the room.

Chapter 1207: Be courteous when leaving

The few people couldn't sit still, all lying on the ground, they curled up tightly together as if this was the way to relieve some pain.

The whole body was steaming hot, and all the sweat on the body was steamed dry, like a cooked dried shrimp, and the whole body was red.

Luo Hongyuan, Li Sheng, and Ning Nan are okay. They seem to be very conscious. Cheng Chao and Zhang Liang are already in some condition. Their bodies are shaking like chaff, and their eyes are turning white from time to time, as if they might faint at any time. past.

"Hold on, as long as you survive it, you will succeed!"

Looking at the situation, Di Ping also showed a trace of badness on his face, and suddenly he used his dantian and shouted in a deep voice.

As if hearing the sound, the eyes of several people began to turn again, and they became more angry.

But only in the past ten seconds, the situation became serious again. Two or three minutes later, Di Ping saw that Zhang Liang and Cheng Chao had stopped struggling, his eyes were staring awkwardly, and his body was only unconsciously twitching. He was taken aback and thought. Is the medicine too strong and can't stand it?

Di Ping hurriedly swept over with his exploration skills. When he saw the line "The potential is insufficient, the effect of the medicine is about to be exhausted, and it is about to fail...", his face suddenly became ugly. This Liang is about to fail. What to do? Even though Ning Nan didn't need exploration skills, he could see that Ning Nan's situation was not right. He was a little anxious for a while.

Insufficient energy...what to do...what to do...

Di Ping stood up abruptly, muttering anxiously, staring at the five people on the ground, his eyes flashing quickly.

"Master, using Holy Light energy should speed up the awakening process!"

When Angela heard Di Ping talking, she suddenly whispered.

"Didn't it mean that the awakening process cannot be interfered?"

Di Ping was taken aback when he heard the words and hurriedly looked at Angela and asked.

"There is no such saying? Holy light has a very good auxiliary effect on awakening. When in the holy land, the awakening of holy land disciples must be escorted by the holy light master. Once the energy is insufficient, the energy of the holy light must be supplemented, which can greatly improve the awakening. Chance!"

Angela looked at Di Pingdao with her beautiful eyes in confusion.

"Let's not talk about it, you guys quickly cast the spell and replenish them with energy!"

Di Ping didn't have time to say more. Ning Nan and Zhang Liang are in very bad condition. He yelled anxiously because of time delay.

Before his words fell, Angela, Zhang Zhengyi, and Mok had already moved. They saw the holy light condensed in their hands, and then three orbs flew above the five people. Suddenly the light group burst, and thousands of holy rays of light burst. It opened, like a blazing sun, and then the whole room was enveloped by a holy energy like a holy rain from the sky, slowly landing on the five people.

These light spots are like snowflakes, and they melt quickly as soon as they fall on them, melting into their bodies visible to the naked eye, and then the bodies of the five people are surrounded by holy light, forming holy light cocoons.

Di Ping finally saw the scene of the three people casting spells together. It turned out that they used the light control ability to attract the surrounding light to condense in the sky, and then slowly fell. This was originally a single healing skill, but it suddenly became a group skill.

This gave him a new understanding of skills. It turns out that this is not the same as the game. What skills are in the game is what skills, but here is a higher level. It should be said that it is a kind of flexible application skill of elements. It's not just a skill anymore.

Under the sacred light, the expressions of the five people were clearly visible and slowly eased. After ten seconds, the five people actually stopped struggling, but there was a little bit of enjoyment on their faces, but Di Ping could hear the inside of their bodies. The sound of blood flowing quickly makes the heart beat more forcefully.

He hurriedly swept with detection technology and found that the awakening was in progress, which gradually let his nervous heart go.

A few minutes later, these humans were enjoying themselves, but Mok's faces were sweating, maintaining energy all the time, which consumed their mental power.

After another two or three minutes, the three of them finally couldn't hold on anymore, their faces were pale and their bodies trembling, Di Ping made the three of them stop, and if they persisted, the three of them should be overdrawn.

Three bottles of recovery liquid were handed over, and the three of them hurriedly took it, and then sat cross-legged on the ground to practice Xu Lingming's thoughts to restore the lost mental power.

Chapter 1208: There is a reason for giving away

Seeing a few people lying quietly, Di Ping gritted his teeth and said in his heart: "System, you will come out for me, and I promise not to kill you! What kind of exploration skills don't work, doesn't it mean you can't interfere? Why? Can the treatment work?"

The system was silent, and Di Ping said angrily again: "The system comes out to speak, I will curse if I don't come out again!"

"Dip... Don't interfere, I didn't say you can't interfere!"

The system's voice sounded in Di Ping's mind. He just heard the content, and Di Ping "Uh!" froze on the spot and had nothing to say for a while.

Yeah! He remembered that when he probed Yue Lie's awakening, his system probe skills showed that "it depends on willpower, once he broke through and entered a higher life form", he never said he could not interfere?

It turned out to be my own mindset, because I judged that I couldn't interfere with this sentence. It seems that people still can't judge everything subjectively, and they are prone to misunderstandings, which missed him a lot.

"Master System, I was wrong, I apologize to your old man!"

Di Ping's face was full of joy at this time, and he even tried to apologize to the system in his heart, but the system simply ignored him, a villain who turned his face faster than a book.

Without receiving a response, Di Ping laughed and said nothing, and began to observe the situation of the five people.

The treatment was stopped, the holy light spots in the room slowly dissipated, and the light cocoons covering the five people quickly merged into their bodies and disappeared.

Di Ping looked at his watch. It has been half an hour since he took the medicine. The five people lay quietly and closed their eyes as if they were asleep. They breathed smoothly. They didn't look like the pain before. He didn't know how long he had to wait. He was anxious. , But suddenly heard Luo Hongyuan exhale a long breath. When he saw that Luo Hongyuan had opened his eyes, his eyes moved, and he became clear in a while.

"Uncle Luo congratulations! How do you feel now?"

Seeing Luo Hongyuan waking up, Di Ping finally showed a smile after Exploratory Surgery. Luo Hongyuan had already succeeded, and his talent was good. He even reached the B-level talent, the talent is huge, so he stood up with a smile and congratulated him.

"Hey! Thanks to the city lord for cultivation!"

Luo Hongyuan leaped up and suddenly clenched his fists and smiled excitedly, feeling the power of his body.

Immediately afterwards, Ning Nan also woke up one after another. When they stood up, they felt the changes in their bodies, and their faces showed ecstasy, and they expressed their gratitude to Di Ping.

"You have to thank Mok and them, if they hadn't insisted on casting energy for you, you wouldn't be awakened so easily!"

Di Ping laughed and joked with the five people.

"Yes, yes! This is natural!"

Several people nodded their heads and looked at Angela who was sitting cross-legged to recover mana and showed gratitude in their eyes.

Di Ping was very happy. Today, there are five more awakened people, and the potential level is not low. Among them, the talent of one person exceeded his expectations.

This is none other than Ning Nan. She has reached A-level potential, and the talent skill is a skill that shocks Di Pingdu's "Awakening". This skill is very powerful and can be completely full in an instant, and there is no sequelae, which is equivalent to full blood. One resurrection is almost the same as Di Ping's upgrade. The only downside is that it can only be used once a day. If you want to use it, you have to wait the next day. Some are equivalent to accumulating energy, and it takes a day to fully charge.

This is different from Owen's "unyielding". One bias is to recover and the other is strengthened. Once Owen's "unyielding" is used, his strength will be doubled, but afterwards, he will be injured and he will only fight for strength, while Ning Nan's It has no side effects and can be used once a day.

With this comparison, you can see that Ning Nan's talent is terrible, it is simply an extra life, Di Ping can't figure out how her level A potential can awaken such a good talent skill.

Chapter 1209: Return to Hu Jun to enter the venue

To become a super-potential level B, the talented stab technique turned out to be an earth magic talent, which is relatively rare among a group of buff or passive skills.

Li Sheng's potential level is a bit lower than Cheng's. He is a C-level potential, has a quicker talent, and is a speed-type awakener. This talent can only be said to be average, a passive talent, and a relatively ordinary talent skill.

Zhang Liang is also a C-level potential, a talent hegemony, and belongs to the enhanced talent. It can strengthen the strength and defense, and it is also a good talent.

Cheng Chao was transferred to Magician, Li Sheng was transferred to Stalker, Zhang Liang was transferred to Warrior, Luo Hongyuan was transferred to Barbarian, he liked the domineering barbarian, and Ning Nan had no doubt that he chose the priesthood, her talent and sage The positions are extremely matched.

Di Ping learned from Angela that everyone has elemental affinity, and what kind of physique uses which type of spells will be more handy. For example, if you are a fire type, your affinity for fire type elements will be higher. More at home, and the power will be greater than other magic.

The light magic used by the priesthood is quite special. The light element is extremely overbearing. Once it starts to attract the light element into the body, it is difficult for other elements to be introduced into the body. Once the other elements are introduced, it is easy if the balance cannot be achieved. Riot, so the general light system professions are more specialized in one discipline, unlike other system mages who can use multiple elements.

However, the average magician would not choose to practice multi-line element, because it is meaningless, it is not as powerful as specialization, and it is more convenient to use the same line of magic with affinity, and it is easier to attract elemental resonance.

Ning Nan has a light physique, so once he enters the transfer space, the most attractive to her is the priesthood profession, of course she chooses this.

At this point, Di Ping's awakened people have reached forty, which is a considerable number. For a place like the Bianzhou base, there are no more than ten people in light and dark.

There are forty people in the Sanctuary City. You can imagine what a strong lineup this is, and you must know that there are six more that are in the state of awakening. The number of awakened people in the Sanctuary City is constantly increasing, which will cause the distance The pull is getting bigger and bigger.

The whole sanctuary city is already boiling, and almost everyone is talking about it. There is envy, jealousy, joy, loss and so on.

Until the evening, the sanctuary gradually became quiet, and people who had been busy all day began to return to their residences to enjoy the peace of the night.

So far, a total of seven people have fainted and been sent to the medical department. The observations are all awakened. Mockke, Angela, Zhang Zhengyi and Ning Nan, who is now a priest, are all waiting in the medical department to prevent accidents. appear.

Di Ping found that almost all the awakened personnel were members of the City Guard, and they had all appeared in the two days after the war. He knew that his goal had been achieved.

Sure enough, after cruel battles, a person's potential was finally aroused, and it was not in vain for him to cool down and be a bad guy.

.....

Not to mention the excitement of the refuge city, Hu Jun from the Bianzhou Military Region returned to the room very unhappy, and slammed the door, obviously in great anger. Qingfeng sat on the bed and closed his eyes to practice. He didn't seem to know that Hu Jun was coming in. general.

"This Chu Dingbang is too cunning. He has been reluctant to let go and always makes excuses. We have already lost one day!"

Hu Jun grabbed a teacup on the table and poured it down fiercely, then said bitterly.

"What excuse does he make?"

Qingfeng suddenly opened his eyes and looked at Hu Jundao.

Hu Jun no longer dared to roar in front of Qingfeng anymore. He sincerely admired Qingfeng's strength, so he did not hide it when Qingfeng asked him: "He said that Zhang Beiwang and Liu Zhenya and Liu have not returned home. There are awakened people, and now he has insufficient manpower himself, and must wait for them to return to determine the number!"

"Did you say when you will be back?"

Qingfeng asked again.

"Say tomorrow!"

Hu Jundao.

"Then wait! He won't have any reason to prevaricate us tomorrow, right?"

Qingfeng smiled faintly.

"That can only be so!"

Hu Jun also calmed down at this time. He leaned on the sofa for a moment and looked at Qingfengdao.

Chapter 1210: Tense atmosphere

The next day, the Sanctuary City woke up in the morning light, and Di Ping added seven Awakened subordinates. Perhaps yesterday there were too many surprises and too much excitement. There is not much surprise for the newly awakened Six Humans, six people. All transferees belong to Buji.

With Buji's current strength of Tier 1 and Tier 4, it is more than enough to teach these people!

And Liu Zhenya finally didn't dare to wait any longer. The Military Region had already passed the telecommunication Cui several times. He had to rush back to the Bianzhou base this morning. This was discussed by everyone last night.

When Di Ping arrived at the square early in the morning, Liu Zhenya had been accompanied by Han Zhongguo, Lu Guoliang and others to arrange a stop. The 100 captured soldiers had already boarded the military vehicles at this time, and their eyes looked surprised at the complete change in front of them. The shock in the heart of the city cannot be added.

When they were about to go home, they didn't feel much excitement. There was a sense of loss in their hearts. There was food and drink here, and there was no need to fight, and there was no need to worry about safety. The life was too moist, and they really didn't want to leave.

Liu Zhenya was chatting with Lu Guoliang and the others, and their eyes floated towards the castle from time to time. They were all waiting for Di Ping's arrival.

"The City Lord is here!"

Lu Guoliang's sharp eyes saw Di Ping, who was walking quickly with Liu Bingyu, with a surprised look on his face.

His voice was not loud, but all the people present could hear him clearly, and immediately everyone turned their faces and smiled.

"General Liu is very sorry, please forgive me for the delay in training!"

Di Ping clasped his fists apologetically and laughed loudly.

"Don't delay.... Don't delay, Lord Di is too polite!"

Liu Zhenya also smiled heartily and stretched out his hand to Di Ping.

The two of them held a big hand, and there were joyful smiles on their faces. It seemed that they had been friends for many years and were very familiar.

"General Liu is going back this time, so please take care of General Liu for our cooperation!"

Di Ping shook Liu Zhenya's hand and whispered.

Liu Zhenya hurriedly nodded and said: "Please rest assured, the lord, I will get things off as soon as possible when I go back." He glanced at Liu Minsheng who was standing beside him, and said with a begging expression: "I will leave the people's livelihood to the city lord Di. I hope that the city lord will take more care!"

Di Ping looked at Liu Zhenya with emotion. Although Liu Zhenya was wearing a military uniform at this time, he was extremely low, and there was no such arrogant aura when he came.

However, Di Ping also understood that Liu Zhenya had been frightened in the past few days. He had seen too many secrets of the sanctuary city. These secrets would be earth-shattering if they were taken out, and he almost had a heart attack. With these secret reports, it is difficult for him to maintain a peaceful state of mind.

The reason why his posture is so low is that he is subdued, and he is showing his attitude to Di Ping!

After thinking about this, and looking at Liu Zhenya's face, Di Ping felt a lot more cordial at this time. He looked at Liu Zhenya with a cool smile and said, "Haha! Please don't worry, Mr. Liu, I will take good care of the people's livelihood. I promise. You will be surprised when you see you next time!"

"Okay! Lord Di hopes that we can cooperate happily!"

Liu Zhenya also laughed heartily.

Then the big hands of the two were tightly held together, shaking again and again three times, this is the agreement between the two.

"City Lord, it's not early, let's not pass it, hope that the chance of seeing you next time is not far!"

Liu Zhenya looked up at the sky and let go of Di Ping's hand.

"Okay! General Liu, then I won't stay much, and I forgot to be careful on the road!"

Di Ping also knew it was late, so he smiled and nodded.

Liu Zhenya didn't talk nonsense. He turned his eyes around Di Ping and looked at his grandson Liu Minsheng deeply and nodded, then made a military salute to Di Ping and turned to the motorcade.

The commander Liang Chengdong next to him also saluted everyone and turned and followed Liu Zhenya. Zhou Keming also turned and walked away. When he turned around, he also saluted Di Ping with an eager expression before turning around. go with.

At this time, a Leng Jun's eyes shot through from a car, Di Ping's eyes also swept over, and the two eyes met each other, Di Ping nodded and turned to him.
