

DOOMSDAY SANCTUARY

Chapter 2: Eschatological refuge

"Discovered low-level life forms...began to merge...1%...2%...50%...99%...100% successful integration."

"Di...Started searching for information and found low-level civilized electronic equipment. Information is being collected..."

"Di...it was found to be in line with the civilization inheritance procedures, and the fusion of procedures began"

"1%...80%...100% integration is successful, and the eschatological asylum inheritance system is waiting to be opened."

Di Ping was lying on the ground unconscious, and his body was wrapped in a reddish halo, and the red light slowly faded away. Only he was lying quietly on the entire rooftop. Only his constantly undulating belly could see this. People are still alive.

The people who were awakened by the shock were horrified for a while and did not notice the subsequent changes one by one and fell asleep again, but they did not know that the earth was undergoing some unknown changes.

"I'm going! Why did you sleep on the roof?" Di Ping opened his eyes, sat up, and found himself sleeping on the roof, a little confused.

"Oh! Forget it, I was drinking on the roof last night." Di Ping patted his head and remembered that he ran to the roof to drink in sadness yesterday.

"No?" Di Ping suddenly exclaimed and got up. "Didn't I get hit by a meteor last night? Why is it all right?"

"Is it drunk?" Di Ping looked up and down, and didn't see what was wrong with him. "It shouldn't be! Didn't drink much alcohol last night? I remember that I was sober."

"Di..The body is awake, please turn on the doomsday asylum system as soon as possible to welcome the doomsday." Suddenly a voice sounded in Di Ping's mind.

"Who..., who...who is talking?" Di Ping was suddenly startled. Someone was upstairs and startled him. He hurriedly looked around, but found no one.

"Is it wrong?" Di Ping looked around and didn't find anyone. He just thought it was an illusion. He touched his head and thought, "Is it really too much? I drink so much because of jet lag." He counted five or six empty beers on the floor. Can, a little uncertain.

"Di...The body is awake, please try to enable the end-time shelter system" At this time, a Bingbing voice reached Di Ping's ears again.

"That's right! Really?" Di Ping was sure to have a voice at this time, "Who? Who is joking with me? Come out! I saw you?"

Di Ping yelled a few times, staring at him from left to right, and found nothing. Suddenly his pores became tight, "Is there a ghost?"

Thinking of this, Di Ping felt cold in his body. How could there be ghosts in this big day? The sky was already bright at this time. Seeing that the sun had been exposed, he must be thinking about someone joking with him.

"System! System you are! Don't let me find you, or you will look good?" Di Ping whispered.

As soon as Di Ping's voice fell, a flower suddenly appeared in front of him, and there was a ghost in front of him, "Ghost!" Di Ping jumped back in fright,

and the phantom he was watching also moved; Di Ping felt the pores all over his body explode , Scalp numb.

"Big Brother Ghost, don't find me, I'm a good person! Five good young people in society, I haven't even killed a chicken!" Di Ping tremblingly prayed in a low voice.

"Ah..." Di Ping peeked at it as he prayed. It didn't matter if he took a closer look, he just thought this phantom was so familiar! "How is this similar to the game I am playing Doomsday Fortress?"

"Uh...it really is!" Di Ping didn't think it mattered, it was really the same interface as a mobile game he was playing.

When Di Ping saw this place, he settled down, and after careful study, he found that it was really the same as the game he was playing. In this era, computer games have slowly degraded, and mobile games have become prosperous. He is also a young man, and sometimes likes to play when he is bored. Yes; he doesn't like to play the popular king now, because he has no time and may be busy at any time, so he can not play the game at any time and can stop at any time.

Don't even say that he really found one. This is an apocalyptic survival game, a game that integrates management, combat strategy and adventure; the apocalyptic fortress is waiting for the owner to come, and he will become the last refuge of mankind, carrying the inheritance and continuation of mankind ; The game is very fun, do not waste time, play as long as you want; so when he is bored, he always plays for a while, due to the time issue, he does not play very well, only for subsistence entertainment.

The phantom is a bit like a screen in science fiction. The display is very similar to the beginning of a mobile game. There is a castle, a market, and a manor, but some things are completely dark and cannot be operated.

"How do I use this, say it is to be turned on, but I don't know how to turn it on?" Di Ping studied for a while but didn't find out how to operate it.

"Di...The body is awake, please activate the end-time shelter system as soon as possible to welcome the end-time survival." At this time, a voice sounded again.

"He's numb, how can this be done?" Di Ping gave a black line on his forehead.

"Turn on!" Di Ping thought for a while and said softly.

"Di...Failed to open, lack of conditions, please meet the conditions as soon as possible" The voice sounded in his mind again.

"It's really okay, as long as the command is done!" Di Ping was delighted when he saw the response, and then he was blinded again. The opening failed, what conditions are still missing, what conditions are missing.

"Di... mission, turn on the system, collect five energy crystal nuclei, fulfill the opening conditions, and reward a legendary recruitment scroll." At this time, there was a beep again, and a group of words appeared on the top of the virtual screen. Task content.

"Can still do tasks? Legendary recruitment scroll is a good thing? But what is this energy crystal core?" Di Ping then understood why the opening failed. Although he was greedy for the legendary recruitment scroll, he knew how rare this thing is. It is very difficult for a hero with s-level potential to be discovered, but this recruitment scroll can be 100% s-level or ss-level, but then he is fascinated again, what does the energy crystal core know?

But it can't be turned on, and there is no way, just leave it alone. After a while, he was dizzy. Now he is still dizzy, as if everything is in a dream, and I don't know if it is true or not.

"I don't want to!" Di Ping patted his body and didn't want to think too much about it. The high tension that has been in these years has made him feel tired.

"Mom!" Suddenly Di Ping exclaimed again. He felt that the shock of today's meeting was more than the sum of his twenty years.

I saw Di Ping staring at the front with a stunned voice. No wonder he was shocked. This 8-story building was surrounded by countless trees at this time. The green area was good, but the trees were no more than ten meters tall. At this time, they found that these trees were tall. There are already more than 40 or 50 meters, and some leaves have reached the top of the building. The community where Di Ping is located is considered a suburb, and the environment is better. It is a high-end community. This is originally a villa area. The developer has developed two small high-rise buildings. There are a total of more than two hundred households, and now the entire community is occupied by huge trees and grass. The houses in the villa area are no longer visible, only some red tile roofs exposed among the leaves.

The high-rise buildings in the distance were all surrounded by green. A 12-lane wide road leading to the city was also covered by huge trees on both sides. The formerly empty dirt on both sides of the road was covered with vegetation more than one person deep. Everything changed at night, Di Ping thought he had crossed into another world if it weren't for the outline.

"Ah..." Suddenly there was a cry of exclamation.

It seems that people suddenly woke up at this moment, and they all screamed when they saw the situation outside. After a while, hundreds of people gathered downstairs; Di Ping stretched his head and looked downstairs and saw many people still wearing pajamas. They questioned each other in panic, and there were several security personnel in security uniforms who also looked panicked.

When Di Ping bought it, quite a few people had already moved in. When he was renovated, 70% or 80% of them had moved in, and the villa area was basically full. Most of the people who lived in were doing business. , So even in the middle of the night, there are always people coming and going, not to mention that there is a strict security system, and the security guards can't fall asleep, but Di Ping seems to have just learned the status of the security guards.

"Did they all fall asleep?" Di Ping felt that something was wrong. Watching these trees grow like this overnight, it was like taking hormones to go wild.

It's good to see the green eyes, but Di Ping only feels his back is cold at this time. There seems to be something terrible hidden in the green of the sky. The unknown is always scary, not to mention the changes during the night. , When you wake up from a dream and see such a change, people will be afraid, right?

Di Ping vaguely heard the sound of police sirens ringing in the city. After a while, the whole city seemed to wake up, with police sirens ringing in every corner.

"It looks like the police just woke up too!" Di Ping thought secretly when he heard the sirens ring together.

"Boom..." The sky suddenly roared, Di Ping looked up and saw five or six fighters passing by at low altitude and high speed, leaving a scratch in the air.

"It seems that the military has reacted very quickly. The fighter plane took off in just over ten minutes!" Di Ping thought secretly, thinking that the Chinese army is still very powerful, and the fighter planes began to detect in this short time.

As soon as the door on the roof opened, a dozen people rushed upstairs and saw Di Ping upstairs. It was just a sweep. Maybe thinking about who is this

fast, they squeezed to the side of the building without asking too much, looking around. .

"How could this be?...you look at the city like this!" When seeing trees all around and the city as well, someone screamed with horror.

"Look at the helicopter!" Suddenly someone pointed to the distance and shouted.

Di Ping also saw that several helicopters over the city lifted off one after another and hovered around.

"The government's response is not slow!" Di Ping said in a low voice.

"Citizens, please don't panic, return to the room as soon as possible, and wait for the government to inform you after the investigation!" The helicopter flew slowly, and at the same time a loud voice sounded.

Five or six helicopters flew slowly, playing the sound from the big horn while flying, hovering over the city constantly, trying to convey the notice to everyone's ears.

"Not good! Food!" Di Ping was suddenly startled. These years of Pinbo made his mind more flexible. The government told the citizens not to go out. Looking at the road covered by trees and grass in the distance, traffic will also become a problem. The food is definitely not guaranteed for normal transportation. There will be a lack of food at that time, and the hoarding of food becomes necessary; once there is no food danger, his house has just been renovated. Although he bought some food, it is a minority after all. Don't hurry. Hoard more, and don't starve to death once you have no food.

Di Ping did not dare to delay, turned around and quickly went downstairs. When he went downstairs, he quickly swept a group of people upstairs. These people who are used to safe days have not realized at this moment. Some people saw Di Pingfei go upstairs. Taunting, thinking this man is so timid.

Di Ping is not a good old person. He wants to work hard in this industry in the past two years. It is impossible not to stick to the darkness of society. He didn't even think about reminding that these people will realize it soon.
