

## Doomsday 61

Chapter 61: Ask the reason

"We are the members of the food collectors in the nearby underground mall gathering place!..."

"Are you from Baohe Underground Base?"

When Di Ping heard the gathering place of the underground shopping mall, a Ji Ling immediately interrupted Yue Lie's words. The nearby underground gathering place probably said that it was the gathering place of a thousand people called Baohe Underground Shopping Mall as the fat man said, so he asked anxiously. Tao.

"Yes! Big brother knows where?"

Yue Lie was startled by Di Ping's scream, and immediately questioned when he heard that he knew this gathering place.

"Did something happen to the gathering place? Why are you here?"

Obtaining the affirmative answer from Yue Lie, Di Ping secretly asked the question that his heart was broken, his expression anxious, he thought something had happened to the underground base, otherwise how could the two of them appear here? Did he come a step late? I knew I came first by myself, so I didn't have to delay for a long time.

"We don't know the current situation of the gathering place. We didn't run out of the gathering place! We didn't go in!"

Yue Lie was a little surprised at Di Ping's strong reaction, thinking in his heart is this person in our gathering place, or does he have relatives there? Otherwise, how could I be so excited.

"Not from inside? Then why are you here, what can you tell me?"

When Di Ping heard that the two did not run out of the gathering place, and did not know the current situation of the gathering place, he had to ask how Liang Zai appeared here.

"We are from the food search team in the gathering place. The day before yesterday, we came out to collect food. We returned to the gathering place in the afternoon. We were chased and bitten by a group of mutant dogs as soon as we arrived in the square. Fortunately, the two of us ran fast and none of the other teammates could get out. We didn't even enter the gathering place. We didn't know if something happened to the gathering place. We didn't dare to go back. We had to hide upstairs near here. We were so hungry that we couldn't stand it. We couldn't find food anymore."

The quality of the student Yue Lie is really good. He can tell things clearly in just a few words. Liu Han at the side is also back to normal at this time. He nods his head on the side as if to say that what Yue Lie said is correct. wrong.

"Can you tell me what is happening in the underground gathering place! Can so many people gather together to eat and live?"

Di Ping picked up three bottles of water from the shelf and handed them one bottle for each of them. He also twisted the lid and took a sip. After walking for a long time, he was thirsty. After seeing both of them drank the water, his expression was completely calm. Then he asked.

"Guaranteed! It would be nice to have a place to hide. It's nothing, not even a piece of food, not to think about what to eat. Our search team can have one or two loaves of bread a day, most people even There is no guarantee for one piece! There are many old and weak people who are hungry!" Yue Lie shrugged helplessly.

"Who is managing the gathering place, and the food is lacking, so they didn't think of a solution?"

Di Ping also knows that eating and drinking of these thousands of people is indeed a troublesome thing, but there are always managers in this gathering place, right? Has this situation been reached, haven't you figured out a solution?

"Fart! They eat and drink, who cares about your life and death!" Liu Han has committed another genius. He was terribly scared just now. This will be normal again. He scolded when he heard Di Ping's words. It is aggrieved.

"Oh! What is the situation, can you tell me!"

Di Ping didn't feel right when he heard it. There seemed to be many hidden inside stories.

However, it is normal to think about it. Before, I had an infighting with Sanderlin and others on that point, shut myself and others outside, almost killed my own life, and even dared to kill women with some food in the back. And this small base has thousands of people, and with the changes in human nature in the last days, it's no wonder what happens.

"They only care about their own food, and that cares about our lives and lives. The food we search for will be collected together. They will only give an extra piece of bread. Those who are unable to go out will only give half a piece, and some don't give it yet, but they eat well every day. Drink, there is wine, cigarettes better than women!"

Liu Han said that his eyes seemed to burst out with fire, with a look of resentment.

"Who are they?"

Di Ping heard Liu Han say about them, but he wondered who they were.

"Not the officials!"

Liu Han spoke out of anger.

"Don't you know to reason with them?"

Di Ping asked back.

"How to theory? They want people to have guns and guns, we use our hands to reason with them!"

Liu Han rolled his eyes and looked at Di Ping like an idiot.

"Old Liu!"

Yue Lie listened to Liu Hanhua's bad temper, for fear of angering Di Ping, he reminded him in a low voice. Liu Han also knew that he had passed, and immediately closed his mouth.

Di Ping also touched his nose in embarrassment, and seemed to think that he was a little idiot about this question, so he smiled and indicated that there was nothing wrong.

"How many mutant dogs do you see gathering outside the base?"

Di Ping was not asking idiot questions either, and started asking about the situation of the base being besieged.

Suddenly there was a look of horror on their faces, and Yue Lie trembled and said, "I don't know, we didn't dare to look, we turned around and ran away!" He seemed to think of the scene at that time, and he couldn't help but slapped his face. Fear "There are...many, I...listen to more than ten!"

"Don't be afraid, you are safe now!"

Di Ping looked at the trembling two and understood that the two should be frightened, so he gently patted them and comforted.
