

## Doomsday 63

### Chapter 63: Murderous hatred

It's just that he didn't pay attention to the two Yue Lie. The murderous aura was as strong as the substance. They had killed people, and even killed a lot of mutant animals. This murderous aura gathered like a raging wind, and the two retreated a few steps under the pressure of this momentum.

This killing intent was frozen like ice, making the two of them feel as if they were being blown by the icy cold wind, their bodies involuntarily hit a spirit, looking at Di Ping who exuded life like a demon, the eyes of the two were full of The color of horror, the body trembled involuntarily.

"Are you two all right? I didn't control it just now!"

Di Ping saw that the two of Yue Lie were shaken back by the aura on his body, only to realize that he hadn't controlled the energy well and let the aura spread out. How did the two ordinary young people suffer, so he quickly dissipated the aura and watched. The two sighed.

"No... it's okay!"

Yue Lie was also a little stuttered at this time, and he stuttered when Di Ping asked.

Although Di Ping regained his aura, the eyes of the two looking at Di Ping were still dodging. They couldn't imagine how a person could have such a strong aura. The killing intent went straight to the heart, and they couldn't breathe out, almost heartbroken. Stop beating, isn't this only in the novel? Are you martial arts masters in real novels? All this subverted their cognition, and the look in Di Ping's eyes was like looking at the monster's heart.

"Master has a situation!"

Suddenly Gina appeared quietly beside Di Ping and said softly.

"what!"

Yue Lie and Liu Han were taken aback by the sudden appearance of Gina and almost screamed, but they stopped immediately because of their unconsciousness. They were like choking drakes with their long necks stretched out.

I really didn't blame the two of them. Gina was dressed in a black robe, her head down without showing her face, and she suddenly appeared beside everyone silently. Who wouldn't be scared, the most important thing was in this strange environment of the last days. Mindful, the two of them in this costume are not scared to cry.

Gina raised her face and glanced at the two of them. She felt that they looked a little funny, and she smiled. This smile was like a hundred ecstasy. The two Yue Lie's originally stretched necks shrank back and looked at Ji blankly. Na, the eyes are all fiery.

Gina's charm Di Ping couldn't stand it. What's more, these two little rookies just laughed at Gina, and the soul of the hook was almost flying.

"what's the situation!"

Di Ping glanced at the two of them with pity in his eyes, knowing that these two guys were stunned by Gina, but at this moment he was free to take care of this. Hearing Gina said something was wrong, he turned to look at Gina. Asked.

"There are a few big mutant dogs wandering the street, coming here!"

Gina looked away from the two Yue Lie, her smile disappeared, her beautiful and charming face was hidden in the black robe again, and the demon soft voice came from the black robe.

Until Gina's face disappeared, the two people's eyes were full of disappointment, but their minds became sober. The two looked at each other and saw the terror in each other's eyes. They seemed to know that their absent state was abnormal. Like Gina's eyes are a little erratic.

But when I heard a mutant dog coming from Gina's mouth, his face was pale in fright, and his whole body trembled again. They were really terrified by the mutant dog. They were chased the day before yesterday with no way to go into the earth. He hasn't fully recovered from the situation of ignoring every day. This will be an uncontrollable fear.

"Go out and have a look!"

A few mutant dogs are nothing to Di Ping's eyes, and they lead the way out with a calm expression.

"Don't...Don't go!"

The two of Yue Lie were taken aback for a moment. They didn't seem to expect that Di Ping would go out to take a look. Seeing Di Ping turned away, Gina was also going to leave, and immediately yelled anxiously to hold them.

As a result, Di Ping and Gina didn't even turn their heads, and quickly walked outside. They didn't seem to hear the words of the two. In a blink of an eye, the two disappeared at the end of the shelf, and the sound of footsteps showed that they were really walking straight to the door.

"How to do?"

The two looked at each other, then looked outside, and they asked each other this sentence at the same time.

"Fight! Die early and super live! Can't we be worse than women?"

Liu Han suddenly gritted his teeth and said cruelly, watching women like Gina go out without hesitation to face the danger. How can he bear the danger? What's more, this woman is so beautiful. It's good to be able to die with her!

"Okay, I've run enough, I'm fighting!"

Yue Lie also uttered a word with a resolute expression on his face.

"Okay! Let's go! Haha, our two brothers are going to fight today! People are hanging up to the sky, immortal for thousands of years, 18 years later, they will be a hero again!"

Liu Han was born free and easy, he laughed, turned and walked out, and cut and picked up a kitchen knife from the shelf and held it in his hand. Yue Lie followed suit, and also took a kitchen knife and followed Liu Han. Go.

Although Di Ping walked in front, he could hear the movement in the room clearly. He also heard the words of the two. When the two also came out, although he did not look back, he gave a smile to the corner of his mouth. Two people are not bad, knowing that they have limited power but daring to follow, the courage to work hard, such a person is also worth training.
