

Doomsday 66

Chapter 66: Sudden light for help

Both Yue Lie and Liu Han wondered if they had already passed through and were no longer on the earth!

It's not to blame them, everything they have seen today is beyond their 20-year cognition, what is shining on the sword, is it magic or martial skills, and the speed like teleportation, powerful superhuman power , As written in fantasy novels, they have to make them suspect that this is not the earth yet.

Gina turned her head and looked at two people who looked like soil buns entering the city with contempt!

But when she put her gaze on Di Ping again, little stars flashed in her eyes. She felt that the master was so handsome, and she was better than the senior brothers in her academy. This was not like a first-order fighter at all. It's so strong and violent!

Seeing the majestic figure standing in the street, her eyes gradually blurred, as if a mist had gradually risen, and the tenderness and honey on her face seemed to melt away.

Di Ping slowly turned around, looking at the mutant dog corpse lying on the ground, and suddenly felt an indescribable feeling in his heart. At first, he was chased by a few mutant dogs and ran around, but now these six mutants are in his hands. It didn't take a minute for Shang to turn into corpses lying on the ground.

This is a huge improvement, and this kind of progress is only a few days, making people feel like in a dream.

He is satisfied with today's performance. The summary after each battle and the continuous practice every day have allowed him to master more and more strength. Although it is not perfect, he has felt small satisfaction in being able to do it now. .

He believes that he will become stronger and stronger in the future, and he must live well in this last days!

Stopping Peng Bai's mood, Di Ping calmed down again, walked slowly to the corpse of the mutant wolf dog, and waved the long sword in his hand!

With a click, he broke the head, squatted down to look for the crystal nucleus, took out a nail-sized mutton jade bead in twos or twos, and then broke a few others.

Seeing Di Ping's movement, Gina quickly walked downstairs, took out the knife from her body that she didn't know where she put on her body and started to help.

"Old Lie, what do you think they are looking for?"

The two of them had already eased their energy from the shock just now. When they saw Di Ping and Gina looking for something by breaking open the mutant dog's head, they were just far away, only seeing the white thing flashing, they couldn't see what it was. Things, Liu Han couldn't help but forget to be afraid, curiously asked Yue Lie beside him.

"Do I know that?"

Yue Lie himself was still in astonishment, and this meeting finally calmed down. When Liu Han asked him, he replied irritably, thinking what the ghost knew?

"Go, go and see?"

Liu Han still couldn't suppress his curiosity, and took Yue Lie to see. Once this guy changed his mind and spirit, he immediately became alive again.

"Uh... or you go, I have some soft legs!"

Yue Lie really didn't want to go. The breath radiating from this man and woman made him a little scared. It was too powerful and mysterious. People said that the unknown was the most terrifying. He was instinctively disorganized, and his legs were a little uncomfortable. .

"You are really useless, why are you afraid? Go and have a look?"

Liu Han refused to give up, and forced Yue Lie to walk towards Di Ping.

But when Liu Han pulled the reluctant Yue Lie to the scene, Di Ping and Gina had already taken out all the crystal nuclei from the heads of the six mutant dogs, and Gina had handed all the crystal nuclei to Di Ping. Di Ping took out a bottle of water from the bag, rinsed it, put it in the bag and installed it.

The two only saw a few white things. Liu Han gave Yue Lie angrily, as if to blame him for walking so slowly that he didn't see anything.

Originally, he wanted to ask, but when he saw the mutant dog corpse in one place, he immediately closed his mouth. Although he was big and smart, it didn't mean that he was an idiot. He had to forcefully press his curiosity.

Yue Lie kept looking at the corpse of the mutant dog on the ground, but his eyes were a little erratic. Looking at their fearful mutant dog lying on the ground, it turned into a corpse and lay here at this time, and it was not as vicious as before. , And at the same time I have a lot of thoughts.

Who is this man and woman, how could they be so powerful? Killing mutant dogs is like cutting vegetables, and the body seems to be covered with a mist, making people unable to see clearly. Such people are like characters in fantasy novels, how can they appear Here, is he an earthling?

Or is it an alien? Or a hidden martial arts master?

At this time, Yue Lie's head was messy, and his head was snarled in his mind. It made him feel dizzy and his mind surged. He couldn't calm down and think about anything for a while. Originally, he was in a circle of friends. His brain was flexible enough to become the brains of his brothers, but at this time he felt that it was not enough.

From time to time, his eyes floated towards the hand-held sword standing in the middle of the street. His body stood upright like a green pine. When he turned and killed a man with no blood on his body, Yue Lie's heart suddenly shook, his eyes suddenly burst into flames, and his face became even more intense. The color of joy emerged, as if seeing the sun after the rain, and seeing the land as a boat in the sea.

Di Ping put the crystal core away, and looked up and saw that the two students in the supermarket also ran out. First of all, he was somewhat relieved that the two of them did not let him down. When the eyes were facing Yue Lie's fiercely looking at him The gaze suddenly felt the chrysanthemum tighten, shivered, and there was a chill in my heart.

"This guy doesn't have a special addiction? Otherwise, would a man look at a man in his eyes?"

Di Ping thought this way, and looking at Yue Lie's eyes, it was a little wrong. Although there is no prejudice against people with this habit, don't look at me like that. I am a good young man living under the banner of Yi Da, the master of society, with absolute sexual orientation. normal.

Suddenly, Yue Lie's eyes suddenly changed, as if he had made some determination to become firmer, and ran a few steps towards Di Ping.
