

Doomsday 811

Chapter 811: Look at the telecom general

Di Ping squeezed the Dark Steel Tomahawk in his hand, and suddenly he felt reluctant to give it to Boogie. He wanted to take it.

Even if he really wanted Boogie, he wouldn't have any complaints, but he still couldn't do it. Besides, he didn't like to use a tomahawk, which was clumsy in his hand.

Holding the battle axe, looking at the mutant emperor scorpion with his half-cracked head, he was deeply moved. The importance of a good weapon was revealed at this time.

At the same time, he also discovered a secret. With his own strength, generally the first-order and ninth-level mutants cannot fight a tie, but this mutant scorpion and the mutant Komodo dragons he encountered before are all too strong. Outrageous.

It is normal to say that the Komok dragon is too high-level and he is not an opponent.

But this emperor scorpion is only Tier 1 and Tier 9, and he is already Tier 1 and Tier 7, and his strength is quite good. It can't break the steel clamp defense of the mutant scorpion. The weapon is only one aspect. The important thing is that his strength is not better than that of the emperor. How strong the scorpion is, it is only evenly matched.

Why is that emperor scorpion so strong? The mutant black bear that he encountered before is also up to the first rank and ninth level, and he feels that he cannot compare with the emperor scorpion in front of him.

This made him see the difference from the information, the Komodo dragon contained the blood of the ancient beast, and the emperor scorpion contained a trace of the ancient blood.

He had to consider that the reason for this difference might lie in this.

He didn't know whether his guess was right, but he didn't think that was too far away, and he would almost get the answer if he encountered more mutant beasts like this.

"City Lord, this monster died like this?"

The fat man swallowed, his eyes widened and his face was full of disbelief.

"What? Do you want to fight with it for a while?"

Di Ping waved his battle axe and looked at the fat man with a smile.

"No, no, no...I don't want to fight this perverted guy anymore, I'm so embarrassed!"

The fat man's face changed suddenly, and he waved his hands again and again, his head shaking like a rattle.

Hahahaha...

Di Ping laughed, everyone laughed.

"Fa...what happened, why did the monster die?"

Ye Haotian grabbed the window and stared at the square with wide eyes, his eyes flashing with horror.

"Killed by Mr. Di!"

Gu Xing also swallowed hard, and said slowly after calming down.

"Great, finally dead, no need to run away!"

There was no surprise on He Zhi's face, but there was more excitement. Finally, she had no sense of life-threatening urgency.

"Uncle Gu, do you think we can really be with them in a while?"

With excitement surging on Liu Huasheng's face, he looked excitedly at Di Ping, who was standing on the square, with envy in his eyes.

"Try it!"

Suddenly, Gu Xing was not sure. He was a little bit worried about his gains and losses. He didn't know if Di Ping would want them, because all the members of this team were powerful awakeners.

Ouch...

Suddenly there was a huge roar in the city, roaring like tigers roaring and lion roaring, the sound shook the sky, and a fearful pressure descended like a panic.

Immediately afterwards, there was another roar in the distance, which was farther away, but the pressure could still be felt from that sonorous roar.

The roars were connected one after another, resounding throughout the whole world. At this moment, all the people who were alive were trembling with the fear of the roar, and their hearts were desperate.

Everyone standing beside Di Ping looked ugly, pale, and looked far away with shocked eyes.

Di Ping's color is not good. He did not expect that there are so many powerful mutant beasts in this city. Each of these mutant beasts is not weaker than the mutant scorpion, and some of them know that they are extremely powerful when they hear their voices, even he feels it. A strong threat.

The world is getting more and more dangerous, and the survival of human beings will be even more difficult. Di Ping's eyes showed a trace of pain.

"Hurry up, we leave, we can't stay here for long!"

Di Ping took a long breath, threw the battle axe in his hand to Buji, and ordered with a serious expression.

Chapter 812: Knowing life and death

In fact, without Di Ping's order, these people have already started, and the speed is quite fast, as if they have trained many times.

Yue Lie stepped forward and took out the crystal nucleus directly from the broken mutant emperor scorpion's head, and then everyone with minor injuries supported the severely injured and quickly evacuated.

I can't stay here anymore, the horrible roar just now is too scary, who knows what powerful mutant beasts are coming over, if there are one or two more like mutant emperor scorpions, they don't need to go back.

The four of Gu Xing and his party didn't need to order at all. Seeing Di Ping led the team, they hurried out of the mall and followed in Di Ping's footsteps.

Ava leads the way, and the stalker has a strong perception of danger, which is also determined by her professional characteristics.

The group held a few seriously injured, as well as Gina and Yun Mengsi, the two who were out of force. The speed was not fast. After ten minutes, everyone walked out one kilometer and went to an office building.

For the end of the world, office buildings are relatively safe, and there are few mutant animals in them. Generally, high-end office buildings will not allow pets in.

This makes the office building one of the few safe places.

When Di Ping chose this place, he didn't want to clean up the mutant animals anymore. If there were a large number of mutant animals in a residential building, it would always cost some hands and feet, but now the whole team is basically injured.

Everyone went up to the seventh floor and found a room, which is neither high nor low, just to see the full shadow on the street, which is good for observing the movement outside.

As soon as they entered the room, everyone couldn't be stretched anymore. They sat on the ground, and many people were injured but not lightly.

Gina, Yunmengsi, Angela, and Zhang Zhengyi were also severely overdrawn today. It is difficult to relax if they don't have a good rest.

Di Ping looked at the time. It was already over ten o'clock, and he left at six o'clock today. As a result, so much time was lost, and the zoo was almost destroyed before he even looked at the zoo's gate.

"Take a three-hour rest. We will leave after three hours, get some water and food with less injury, and the rest will rest!"

After looking through the glass window for a while, there was no danger around, Di Ping said to everyone.

"It's the city owner!"

Everyone responded in unison, and then Yue Lie, Luo Xinyi, Li Shuang, Ava, and Daniel did not suffer much damage to the five-person base, especially Ava and Daniel. Ava was protecting Di Ping, and Daniel was not injured at all. This is an advantage.

So the task fell on the five people. The five people went out quickly to collect food and water in the office building. In fact, they mainly looked for water. Food was available in the Diping system backpack.

After half an hour, the five people came back with five or six buckets of water and some food, basically snacks. It was hard to find other food in the office building.

But it was easy if there was water. Di Ping directly threw more than 100 catties of meat to a few of them and asked them to arrange lunch.

It has been more than an hour after the food is ready. After adjusting the breath, everyone has finally eased up. The previous injuries are basically healed, and after awakening, everyone's recovery ability is far beyond ordinary people.

But the reason why the injury recovered so quickly was due to Di Ping's exchange of ten bottles of healing fluid, one for each of the injured.

This is still the lowest-level healing liquid, and this is also a small bottle of ten crystal coins. He wanted to break the crystal coins in half, but he had to buy it so that everyone could recover quickly.

Fortunately, even if it was the lowest-level healing fluid of the first order, the effect was leveraged. In just over an hour, everyone almost recovered.

Everyone had a big stew at noon. This is Di Ping's unique skill, convenient and simple.

Everyone eats a full meal, and the energy in the mutant meat quickly nourishes the flesh. After another hour of adjusting their breath, everyone is once again fierce and fierce. Apart from the embarrassment of their clothes, their mental outlook is completely new.

Chapter 813: Behave like a canine wolf

Gu Xing and his party have been following Di Ping and the others in silence, not talking much, even He Zhi, who talks the most, also showed unprecedented quietness.

She was so scared by Di Ping that she didn't dare to talk nonsense at all.

But what makes them happy is that from the conversation, they know that Di Ping does have a base, and it is quite large, and these people call him City Lord.

This time the four of them lost their joy, and Ye Haotian had judged it right before. They really needed someone, so they all signaled to Gu Xing to mention it.

As a result, Gu Xing cautiously mentioned that the matter was done, Di Ping agreed. The original preparations for contributing the base to the effect were useless, and this made the four of them crazy.

But immediately, the four of them felt a little embarrassed because their family members are still in Denton Base?

Then they can go with Di Ping and the others, but what about their family, if they pick it up, it's so dangerous, they don't dare to take any risks.

But if they want Di Ping to pick it up, how can they dare to mention this idea? Isn't this looking for trouble?

Before an inch of merit was built, the city lord was asked to help them pick up their family members.

"What is your problem?"

Di Ping looked at the originally excited four people suddenly uncomfortable, their expressions were a little struggling, as if there was something to say, but he couldn't speak, so he smiled and asked.

"This...it's nothing..."

After all, Gu Xing was an understanding of a human relationship accident.

"City Lord, that's the case. We still have family members at Denton Base. We also want our family members to join the base. Don't know if it will work?"

Gu Xing didn't say, but Ye Haotian, who was already impatient, suddenly looked at Di Ping with a keen expression.

"Oh!"

Di Ping nodded clearly, he understood what Ye Haotian meant.

Gu Xing originally wanted to stop Ye Haotian, but in the end he didn't move, because this was discussed by everyone. He originally wanted to not use it, but Ye Haotian still said it.

Liu Huasheng, He Zhi was more nervous than Gu Xing, and his body was slightly stiff at this time.

Ye Haotian was still very shocked. He just looked at Di Ping quietly and waited for his answer. His expression was not worried, but rather a kind of expectation. He had already sensed Di Ping's intentions. He believed that Di Ping would agree.

"This is not a big deal. When the work is finished, let's go to Denton Base together and take your family out!"

Di Ping looked at the performance of the four and nodded secretly.

These four people are very interesting. Gu Xing is calm and steady, and is a fearless head, while Ye Haotian is calm and convincing, and has some wisdom.

Liu Huasheng is very smart, but a little timid, and his personality is a little weaker, while He Zhi is a simple mind with well-developed limbs, and a little selfish, but at last he still has a conscience and his heart is not bad.

Di Ping agreed to them not because of these four people, but because he was interested in Denton Base, and Zhang Hengcheng was also interested in this violent punch, but the main reason he was interested in more than 1,000 people in this base, Ye Haotian It was like giving him an excuse to save him from asking a few people for directions.

Now that the demand for population is rising, he realizes that although survival in the last days depends on strength, there must be more people. Without anyone, you are only a lonely person. What can you do? He is full of iron and can hit a few nails.

The two veins of development in the last days are already very clear, and I believe many people are aware of it.

One is high-end combat power!

Only with high-end combat power can you fight against the powerful mutant beasts and ensure your survival. Only with high-end combat power can the base survive in an environment surrounded by powerful enemies.

The second is that there are many people and great power!

In the future, human beings want to fight against the huge number of mutant animals. If there are no more awakened people, they will not even want to survive under the attack of the tide of mutant animals.

The awakeners must come from ordinary people, so the population base determines how many awakeners you have in the future.

Chapter 814: Provoke anger and talk about compensation

Di Ping is very clear about this and has been thinking about it!

Take the current refuge city and the Bianzhou base as examples.

Regardless of the large number of awakened people in the Sanctuary City, there are a dozen people, but have you ever thought that there are hundreds of thousands of people in the Bianzhou base.

Among these hundreds of thousands, the number of talented awakenings must be far higher than the thousands of them. If there are awakened ones, the number will be very scary.

If the city of refuge does not have a huge population base as its foundation, it will be caught up and surpassed by the Bianzhou base in the near future.

This is needless to say. The reason why there are so many awakened people in the city of asylum is mainly because of his large supply of meat and the help of body-building exercises, which quickly awakens those who have not reached the conditions for awakening.

This is not to say that these people in his base have good talents and can awaken the first time. This is because the conditions he provides are too good. I believe that after a period of accumulation, more people will awaken.

Therefore, he always knew that the method had to be changed, and the advantage he provided would be difficult to achieve the maximum effect without the guarantee of a large population.

Therefore, recently he has been continuously annexing the survivors around him, but the number has been small.

Now there are no more bases within five kilometers of the base. It is getting harder and harder to find living humans. Many people who can survive alone hide deep, and mutant beasts can't be found. It's not easy for him to find them. .

Therefore, he set his sights on some bases in Zhongzhou City. If the population of these bases is received, the population of the bases will grow rapidly.

Before collecting the surrounding areas of the sanctuary city, it was worth more than a thousand people, but it was obtained by destroying a base, and the population finally rose to five thousand.

There are more than 1,000 people in Denton Base. If they are drawn to the Sanctuary City, the population will immediately exceed 7,000, and among them, are there more humans that can awaken?

There are no fewer than ten bases that can be searched through the radio. Although some have a large population and some have a small population, these people are all concentrated, and there are nearly 10,000 people. If they are all integrated into the sanctuary.

At that time, the Sanctuary City has a sufficient supply of mutant meat and powerful body-building techniques. Only when the population is guaranteed to increase, then his awakened people will continue to flow, and the strength of his hands will be strong, so that he can survive in the last days.

Hearing Di Ping's agreement, the four of them were taken aback for a moment, but then their faces showed ecstasy, and they jumped up with a scream.

In particular, He Zhi's brows were flying, her face was like a flower, and her excited face flushed with excitement. Even the originally mean dangle eyebrows were turned into a crescent moon at this time, and she looked a lot more beautiful.

"City...City Lord...Thank you so much!"

With tears in the corners of his excited eyes, Gu Xing bowed to Di Ping gratefully.

"Okay.....Okay!"

Di Ping hurriedly stopped him, he bowed, and the three of Ye Haotian also bowed. How could Di Ping feel uncomfortable.

It was a bit like saying goodbye to the corpse, making him big head for a while, and quickly stopped the four people from moving.

"Okay, have you all rested? Let's set off right away!"

Di Ping was no longer talking to the four people, he looked at the people resting in the room and said loudly.

"Take a rest!"

Everyone woke up a long time ago, just waiting for his order, as long as Di Ping gave an order, they could immediately go into battle.

Today's battle, although almost destroyed, but such a high-intensity battle is not without benefits.

After this battle, both the individual combat effectiveness and the team combat effectiveness have been greatly improved. I believe that if you encounter the Emperor Scorpion again, you will definitely not be as embarrassed as before.

Chapter 815: The plan does not change fast

"Come in!"

Chu Dingbang's face was as sinking as water, and he was very dissatisfied with the correspondent who rushed to the conference room recklessly, and his tone was very bad.

He had decided that if it wasn't something very important, he had to teach this reckless guy a lesson afterwards.

Chu Dingbang is such a person. Gangchang is arbitrary, ruthless, and rules in everything. Few of his subordinates are not afraid of him. As long as his black face is flat, many people's legs are frightened.

Too many people in the army have tried his methods. He is known for being ruthless and decisive. No matter who dares to violate his authority or rules, he will let you know what despair is.

But his character has also made him make many enemies in the army. Although many people are afraid of him, many people also hate him.

Before the end of the world, he was the boss of the military region, and no one dared to turn his wrists, but in the end of the world, many people had already begun to resist.

Otherwise, it is impossible for the provincial government to have a place in the base and have a certain right to speak. This is not unrelated to the support of some military forces.

This is Chu Dingbang's most annoying thing now. The provincial government now controls part of the base and has a certain influence among the people. This is extremely detrimental to him and his leadership of the entire base.

"Report...to the commander, we have received a telegram!"

The high-level dared him to fight against Chu Dingbang, but the ordinary soldier who dare, was swept away by Chu Dingbang's cold eyes, the correspondent immediately stiffened and almost peed his pants, but at this time everyone in the meeting room was watching him. He can only bite the bullet and say.

"Sent from there?"

Liu Zhenya's mind moved, and hurriedly asked in a deep voice.

"Sent from Central Continent Sanctuary City!"

The correspondent looked at Liu Zhenya.

"Sent from Central Continent Sanctuary City?"

Liu Zhenya's expression changed drastically. He straightened up suddenly, staring at the correspondent and exclaimed: "What is it? Tell me!"

"The encryption method used by telecommunications is not the general password of our military area. It will take time to crack the content!"

The correspondent looked at Liu Zhenya.

"Quick, quick... show me!"

Liu Zhenya looked excited for a moment, then stood up with a call, and reached out to ask the correspondent for a document.

"This....."

The correspondent's body trembled by Liu Zhenya's sudden behavior, and he looked at Chu Dingbang with embarrassment.

When he saw Chu Dingbang nodded slowly, he then opened the folder, took out a piece of telecommunication record paper for military area, and handed it to Liu Zhenya.

At this time, Chu Dingbang was extremely dissatisfied. This Liu Zhenya had become less and less concerned about him, but now his strength was dispersed by them. When the strength returned, he had to give them a good look.

Liu Zhenya didn't know Chu Dingbang's thoughts at this time. At this time, he was devoting himself to this telegram, which may be related to the information of his most beloved grandson Liu Minsheng, how he was not worried.

Obviously Liu Zhenya knows the content of the cipher telecom. He glanced at ten lines. Everyone in the meeting room looked at Liu Zhenya curiously, but his originally excited face gradually became gloomy, and his body trembled slightly. You must know that a general like Liu Zhenya has spent his entire life. It is difficult for him to have such a gaffe.

"Arrogant!"

After reading it, his face sank, and he banged like a telecommunication paper on the table, his eyes bursting with anger.

"Chief of Staff Liu, what happened? Is it a message from the people's livelihood?"

The infantry division chief Fang Daocheng asked curiously.

Liu Zhenya was obviously out of anger, he whirled and gasped for a while, and then the pressure of his angry temper was relieved.

Chapter 816: Quarrel in the meeting room

"Yes, this is from the people's livelihood!"

Liu Zhenya's face was gloomy, and her voice was even more icy, almost bursting out word by word. Everyone felt the anger under his strong pressure.

"Quickly talk about the circumstances that made you so angry?"

Fang Daocheng's expression moved and asked in surprise.

"Yes! Old Liu, what's the matter, tell me? Is there news about the child of Minsheng?"

Song Hanbai's cold expression finally changed, and he looked at Liu Zhenya with concern.

Chu Dingbang glanced at Song Hanbai, not happy, Song Hanbai was closer to Liu Zhenya before the end of the world, and the reason why the provincial government can occupy a certain position in the Bianzhou base is also related to Liu Zhenya's support.

As the Chief of Staff of the Military Region, Liu Zhenya is a high-ranking authority, and he has some military power in his hand. The most important thing is that many of the backbone forces in the Liu family have formed a powerful group, which is not easy for Chu Dingbang. Too much.

So, looking at Song Hanbai's performance to Liu Zhenya, he felt a little gloomy in his heart, the people in the last days were confused, and the army was relatively better, but these forces in the army are not as well controlled as before. Everyone is trying to retain their own strength. His power is much weaker.

At this moment, Liu Zhenya's heart was beating wildly, and his body trembled slightly. This trembled was not afraid or unexcited, let alone anger, but joy.

joy?

Yes, just joy!

The news that Feng Ziming had reached Bianzhou was that Liu Minsheng died in battle, Wang Dequan was disabled, and more than a hundred soldiers were wiped out.

It was this information that misled the Bianzhou base, and the military region shook, and even Chu Dingbang slapped the table angrily, and that announcement was made.

At the beginning, Liu Zhenya almost fainted when he received this message. If it were not for strong willpower, he would have to faint. Liu Minsheng is his most promising and beloved grandson, but I think how painful he was at that time and how he was afterwards. anger.

Therefore, in this mood, he strongly proposed to give a thunderous blow to the sanctuary, and the sergeant was wiped out. The shock to the military area was too great and the impact was too bad, so all the proposals that did not stop agreed.

Feng Ziming's concealing information and distorting facts are nothing more than that he is afraid!

As soon as Di Ping came back, the army was cleaned up. He was afraid of exposing himself, so he produced false information in an attempt to stimulate the Bianzhou base and let it put pressure on Di Ping, so that Di Ping's eyes were attracted by the Bianzhou Military Region. He can pass the blunder.

He even had an idea to solve the living Liu Minsheng, but at the time the guards were Li Sheng's men, and his people did not intervene, otherwise Liu Minsheng might have no chance to send this telegram.

Of course, Di Ping asked Liu Minsheng to send this telecommunication. He knew the content of the telecommunication because it was the result of his negotiation with Liu Minsheng.

However, Liu Minsheng did play tricks, everyone could understand the literal meaning, but he used the encryption method only known to his family to transmit different content. Of course, although Di Ping did not know the content, he was instructed by him. If you want to reach cooperation with the Liu family, you have to pass Liu Minsheng to pass a message to Liu Zhenya, and this information will definitely not be known to Chu Dingbang.

When Liu Zhenya read the content of the telecom and knew that his grandson was alive, his excitement was beyond expression, but at the same time he was shocked by the content Liu Minsheng posted.

It's just that as an old general who has experienced countless battles, he still has a strong grasp of his expression. He concealed it calmly, deceiving everyone with an angry expression.

Chapter 817: Untouchable base dignity

Liu Zhenya suppressed the throbbing in his heart and looked up at all the gazes in the conference room that were looking at him. He calmly took out his pen and scribbled on the telecommunication paper.

There was silence in the venue. Everyone was watching Liu Zhenya's pen moving, and they were very curious about what he wrote.

This telecommunications has two layers of passwords inside and outside. What Liu Zhenya wrote is the inner layer of the outer layer. Of course, he would not write the inner layer. This is only known to him. This is the unique encryption method of his Liu family.

"Counsel Zhao, read it to everyone!"

Two minutes later, Liu Zhenya expressionlessly passed the paper in his hand to Staff Zhao, and then put a pen on the box, seemingly still angry.

Staff Zhao took the telegraph in doubt and turned his gaze to Chu Dingbang, who nodded quietly.

"It's the chief of staff!"

Zhao Gang's body shook, and then slowly unfolded the telecommunications paper. He only glanced at it. His expression also changed. His expression was shocked and he glanced at the people present, as if hesitated.

His performance made everyone more curious, and his eyes burst into light of exploration.

"Read it! There is nothing to hide!"

Chu Dingbang's expression sank, and he looked at Zhao Gang dissatisfiedly.

"It's the commander!"

Zhao Gang swallowed hard, then cast his eyes on the paper, and read slowly:

"When the last days are coming, mankind should watch and help each other. I protect the city to protect the people's security and do our part. However, Wang Dequan and his ilk attacked our unarmed civilians with sharp weapons and caused a large number of casualties. With a sharp weapon, I want to ask the high-level officials of the Bianzhou base, why are they slaughtering our people, destroying our base, and destroying the foundation of the survival of the surviving people in Zhongzhou?"

Zhao Gang's voice was very loud, but today he read it lower and lower, and his eyes swept to the other people sitting with horror as he read, his voice became even lower when he saw the shame on everyone's faces.

"Let me ask again, how does his behavior differ from the bandits? How does his brutality differ from the canine wolf? How does his vicious heart differ from the pirates?"

Three questions in a row will cast the eyes of everyone present to ask questions, but no one is speaking at this time. Their faces are ashamed, but they are more angry. The person here is not a high-ranking person. People point their noses and scold birds and beasts.

But no one dares to speak back now, doesn't it mean that these words are cursing oneself?

"commander?"

The sweat on Zhao Gang's head was blowing outwards, and he could feel a trace of murderous aura haunting him. All of them were grandmothers. He saw his three souls burst out, crying and looking towards Chu Dingbang with a look in his eyes. With pleading inside.

"read!"

Chu Dingbang's eyes were about to freeze to death, his lips pressed tightly and a word broke out from between his teeth, and the paper cigarette he held between his fingers had been deformed by him.

Can he not be angry?

This is a name to scold him, but he still has to admit that this is indeed what he did, so although he is very angry, he is trying his best to suppress it.

Zhao Gang went on to read:

"But..... But in the spirit of humanitarianism, our people are very angry at this kind of behavior, and resolutely suppress it, but they still exercise restraint. The people are innocent! The sergeant is innocent! The wicked man Wang Dequanzhi is eliminated. We did not take the initiative to injure anyone other than the wicked ones, and tried our best to ensure the safety of these sergeants!"

After reading this, Zhao Gang's voice became louder again, and his eyes lit up.

"In the face of the angry masses, although we tried our best to stop it, once the time limit has passed, it will be difficult for us to ensure the safety of everyone. We now notify the Bianzhou base to come to the asylum city to discuss the issue of captured sergeants!"

When Zhao Gang read this, he stopped to look at the people in the meeting place. At this time, the meeting place was silent, and it was a little scary.

Chapter 818: The general was angry and mighty

"Rampant, too rampant!"

"This is a threat, Chi Guoguo's threat, we must resolutely strike!"

"Yes, it's too arrogant and must be sanctioned!"

"I suggest sending troops to eliminate these vicious bandits to face them up!"

After a minute of silence, the meeting room exploded, shouting and scolding, and they were angered.

For them, the power before the end of the world is in control, and they are so high that they have forgotten about it. In this telegram, they refer to Sang Huai and the monk to scold the bald donkey. It is almost to scold the mother. How can they bear it?

Especially there is a threatening tone, which is the most unbearable for them. When will his authority tolerate the provocation of ordinary people, this is absolutely not allowed.

"be quiet!"

Chu Dingbang narrowed his eyebrows and shouted.

His face was also not good-looking, and the telecom content of the Sanctuary City simply pointed at him again and cursed, which made him more and more angry.

"Commander Chu, this matter cannot be tolerated. It must be severely punished. As our special envoy, Wang Dequan was brutally murdered by the city of asylum. This matter must be explained!"

Kong Fandao, the second commander of the provincial government, slapped the table and shouted sharply.

Kong Fandao had to be angry, to know that Wang Dequan was from their provincial government. Although he was Song Hanbai's secret, he immediately jumped up when he saw Song Hanbai's refusal.

This was a great opportunity to buy people's hearts, how could he let it go, and it was also an opportunity to hit Song Hanbai's reputation.

Song Hanbai didn't say anything about the death of his Great Secret. Then his second-in-command expressed anger, isn't it a chance to win people's hearts?

Kong Fan said goodbye to his name, the descendants of the saint, but he was also a little talented, but he was more capable of fighting in the officialdom, especially the tricks of strategy. This is what Song Hanbai is extremely disgusted with.

Song Hanbai lifted his eyelids and glanced at Kong Fandao in the performance. A sneer flashed in his eyes. This kind of person is still fighting for power and gains. It's a question of whether or not he can survive, and he still thinks about this. The situation is too small and there is no possibility of improvement.

Sure enough, Chu Dingbang didn't even look at him. Song Hanbai now possesses a certain amount of power. He can respect him. What are you?

Chu Dingbang, who had long been bored, didn't give him a good face at all, and looked at Zhao Gang and said solemnly:

"Are there any more, just keep reading if you have! I wonder how much appetite this sanctuary has?"

Kong Fan froze there for a moment, and no one in the audience paid him any attention, which made him extremely embarrassed. He slowly sat back in the seat, lowered his head, and a cloud of resentment burst into his eyes at the moment of lowering.

No one saw this, but even if someone saw it, they wouldn't care anymore. In these last days, the boss is the one who has power in his hands. People like Kong Fandao can pinch to death at will, only he doesn't understand.

A great old man once said that power comes from the barrel of a gun! This sentence is too correct at this time.

The reason why the provincial government can occupy a place in the base is not because of Chu Dingbang's generosity, but because Song Hanbai has thousands of local armed forces in his hands, and some forces in the military area support, otherwise the provincial government will care for you at the base, without guns No money or food, who will follow you?

By the end of the world, all of this has become extremely fruitless, without these things, you are nothing! If you don't understand this truth, you will eventually be marginalized or even killed.

"It's the commander!"

Zhao Gang wiped the sweat off his face and nodded quickly.

"Due to this incident, a large number of casualties and building damage were caused to our base. The compensation requirements are as follows!"

Speaking of this, Zhao Gang stopped for a while, then wiped the sweat that couldn't stop flowing on his face, and a trace of horror flashed in his eyes!

Chapter 819: Big fear in front of the zoo

"First, make a public statement acknowledging the legitimacy of the city of asylum and making a public apology for the conflict; second, the compensation materials are as follows: 100 tanks, 300 artillery pieces, 5,000 guns and adequate ammunition; third , One hundred high-tech talents of all kinds!"

After reading this, Zhao Gang really couldn't read it anymore. He felt more and more murderous aura congealing on him, and his legs were a little trembling.

Based on his understanding of Chu Dingbang, this has reached the edge of rage, and the cold light flashes in those narrow and majestic eyes, which may erupt at any time.

"Bold!"

"ignorance!"

"Arrogant!"

There were a few loud shouts in the conference room, and almost all the generals were irritated. How could they have been so pinched by others.

"any left?"

Chu Dingbang almost broke his words between his teeth, and his voice was freezing to death.

"Also...more!"

Zhao Gang gave a shock, and then quickly continued:

"Limit..... If the deadline is not reached, I will not be responsible for all the consequences!"

After saying this, Zhao Gang felt as if he was collapsed, and his entire back was drenched with sweat.

"Crack!"

The porcelain cup in Chu Dingbang's hand was crushed abruptly by him. Everyone was shocked by this scene. It seems that Chu Dingbang was really angry this time. Even the cup was crushed to show how much force he used.

After taking a few breaths, the redness on Chu Dingbang's face slowly faded. Chu Dingbang is not a child, but a member of the party with a heavy hand. He has experienced too many things, and his aspirations have long been strong enough. To the extent that it makes people unhappy, there are generally few things that can irritate him.

After getting angry just now, he began to weigh in his heart. He knew that as soon as this telegram came out, it was too late for him to use soldiers on the city of refuge.

With so many people in the meeting, as long as someone reveals the contents of the meeting place, and he is unwilling to redeem the captured soldiers, it will soon arouse dissatisfaction among many soldiers. Under the pressure of survival in the last days, the soldiers are nervous. Very prone to instability.

He believes that as long as he announces today that he will not negotiate with the sanctuary and send troops directly, someone will definitely spread these contents. Once the sergeant becomes messy, the base will be in trouble.

There are a lot of people in this base who want him to die. This matter must be resolved, and there must be no carelessness.

Chu Dingbang was silent. At this time, the venue was quiet and did not dare to speak out. It can be seen that Chu Dingbang still has absolute authority at the base, and everyone is waiting for his opinion.

Only at this time, on the bright side, no general really dared to fight against it, and Chu Dingbang didn't give it in vain. Now he controls only three-fifths of the army's strength.

But the most important thing is that no one dares to say now. Whoever dares to say not to rescue the captured soldiers will not need the soldiers below to do anything. Just the saliva of the generals present can blow you to death.

"Chu Si Ling, this sanctuary city of Di Ping is not easy!"

Others dare not say, only Song Hanbai whispered to Chu Dingbang with a serious face.

"Yes! It seems that we know too little about this base!"

Chu Dingbang let out a sigh of relief, and then looked at Song Hanbai and nodded with a heavy face.

"What is the commander's plan?"

Song Hanbai was silent for a while and asked again.

"Now I can only suspend all plans and talk to them first!"

Chu Dingbang said flatly.

Chu Dingbang was a little bit lost at this time. This time was a perfect opportunity. He had planned it. As long as Liu Zhenya's army and Zhang Beiwang's army were transferred away, they were hit hard outside, and the base would be completely under his control by then. .

This was the plan he immediately thought of after receiving the information from Feng Ziming. Liu Zhenya was in anger at the time, and he did not think of this level in such a short period of time. Chu Dingbang had already thought about it so far, and started to calculate. Up.

But everything was in God's will. He didn't expect it. With Di Ping's variable, he just wanted to send people from both sides, and it's not easy. Once he knew that Liu Minsheng was still alive, then Liu Zhenya would definitely try to prevent the sanctuary. Used troops.

"Zhenya, what do you think?"

Chu Dingbang turned his attention to Liu Zhenya. This matter was related to his grandson Liu Minsheng. Of course, it was his best opinion.

Liu Zhenya did not speak quietly, his mind was still circling the second layer of content hidden in the telecommunication.

"Grandpa, the city of sanctuary is extremely mysterious. There are more than a dozen people who have awakened. The lord of the city is powerful and unpredictable. His power can overturn tanks and cannot be an enemy. Sun has reached a cooperation agreement with him. I hope Grandpa can deal with it for the future. Retreat!"

The content is not much, but Liu Zhenya was trembling, and he knew the awakened. So far, there are only five or six people in the base. There is one Leng Jun scar-faced man standing behind Chu Dingbang. One person can single out a thousand. Human, unmatched, domineering, and extremely bloodthirsty, killing people like cutting vegetables, is called the Scarface Plague God in the base.

This person is Chu Dingbang's diehard loyal, and this is one of the most important reasons why no one dares to turn his face on Chu Dingbang. No one wants to be targeted by this scarred plague.

And the city of sanctuary has so many awakened people. This is beyond his expectation. There are only a few people in the Bianzhou base, and the total number does not exceed ten. There is one person in his Liu family, but none of these people. Too powerful, not even the Scarface Plague God, not to mention the Sanctuary City Lord who can overturn the tank.

This is no longer a human. The light main battle tank weighs more than ten tons, but this person can overturn the tank to see how powerful it is, and the scar can't do it.

Therefore, at this moment, Liu Zhenya's mind was turning wildly, and he was thinking quickly. Handling this matter well may be a turning point for his Liu family.

Especially in the current increasingly difficult living environment for the outside world, many bases have been destroyed by powerful mutant beasts. Facts have proved that modern weapons have gradually been unable to keep up with the rhythm.

The powerful mutant beasts are not even afraid of artillery. With such a large population in the Bianzhou base, one day they will attract powerful mutant beasts. How to resist it?

He already felt that the human world had changed, and the future would be the world of the awakened. Suddenly he had such a thought in his heart.

He was so overwhelmed that he didn't pay attention to Chu Dingbang's inquiry. However, everyone thought he was shocked by the news that Liu Min was living.

"Chief of Staff Liu!"

Chu Dingbang looked at Liu Zhenya, who was silent, with a glimmer of doubt in his eyes, but he didn't say much, but exaggerated and called out.

"Uh! Commander?"

Liu Zhenya was yelled by Chu Dingbang, and finally responded, hurriedly raised his head and looked at Chu Dingbang suspiciously.

"Zhenya, what do you think about the sanctuary city?"

Chu Dingbang leaned back in the chair, looked at Liu Zhenya and asked.

Liu Zhenya twisted his brows, pondered for a while, looked up at Chu Dingbang and said:

"Commander, I don't think we can build troops anymore. We need to send someone to contact the city of refuge to see if we can solve the problem through negotiation!"

"How does this work!"

Zhang Beiwang slapped the table and stood up, and said angrily:

"Then the ultimatum we made before can't be a fart? I don't want the face of the military area anymore, I don't agree, it must be severely punished!"

As soon as he said this, many people in the venue almost became amused. This is good. Before, it was Liu Zhenya who prevented Zhang Beiwang from sending troops. Now Zhang Beiwang's current report is also disturbing.

"Zhang Beiwang, what do you mean? Are these soldiers not your soldiers, so you don't feel heartache, do you?"

Liu Zhenya was also on fire, and stood up with a beat on the table.
