

## Doomsday 821

Chapter 821: The empty park is weird

"Don't put a hat on me if you are surnamed Liu. My old Zhang doesn't eat yours. Your old Liu family is fate, but my old Zhang family is not. Could it be that your old Liu's fate is more expensive!"

Zhang Beiwang was not afraid of Liu Zhenya at all, pointed to his nose and shouted.

"The surname is Zhang, don't squirt your mouth full of dung, when do I say that the Liu family lives for money!"

Liu Zhenya reached out and nodded and cursed with Beiwang's nose.

"Liu, if you want to be shameless, how dare you not be it? Who wouldn't let me save someone just now?"

Zhang Beiwang's eyes were round and his eyes were red, and he pointed at Liu Zhenya and cursed, drooling everywhere.

Two veteran generals with half-white hair in their sixties were in the meeting room pointing their noses and cursing at each other.

When I was young, I watched the female soldiers take a bath, or sneaked out of the company's chickens, or sneaked out to drink, or had a crush on the female leader.

The people on the scene watched the two people blame each other and scolded each other for a while. Some old guys were pursing their mouths for fun. Chu Dingbang's nose was almost crooked at this time.

The two of them still looked like generals, they were a pair of shrews.

"Okay! Shut up!"

Chu Dingbang shouted angrily as he slapped the table intolerably.

Not to mention, the two were still a little afraid of Chu Dingbang. Seeing that Chu Dingbang was angry, the two suddenly shut their mouths, glared at each other, and then sat down angrily.

"How should Song Capital see this matter?"

When both of them sat down, Chu Dingbang eased the ice cold on his face, and he turned his head to look at Song Hanbai next to him and asked.

"I don't think Chu Si Ling can handle this matter too drastically. Now the situation is more severe, and the base strength can't withstand the exhaustion!"

Song Hanbai frowned and said in a heavy voice.

"Yeah! That's what I mean. Now that mutant animals are getting stronger and stronger, our living environment is deteriorating drastically, and we can no longer consume vital power!"

Chu Dingbang also nodded with a heavy face, but then a thunder light burst into his eyes, his face suddenly turned gloomy, and his voice was cold and cold:

"However, the military's dignity must not be lost. Even the peace talks must let some people know that the Bianzhou base is untouchable!"

"It should be so!"

Song Hanbai felt the killing intent in Chu Dingbang's words, he was not surprised, but nodded in agreement.

Wang Dequan's death does not mean that he was not angry. Although he did not like Wang Dequan's secretary very much, Wang Dequan was directly selected by the Secretariat after he went to the Central Continent Province. Secretly, there have been many incidents that made Song Hanbai unhappy and wanted to replace him a long time ago, but it broke out before the end of the world.

This time I was only sending him there, not only because of his intentions, Wang Dequan had already fallen to Chu Dingbang overtly and secretly, so this time he was out on the mission, which has Chu Dingbang's role in it.

However, in any case, Wang Dequan was also his secretary, and someone killed him in the first mission, which obviously did not put the provincial government in the eyes.

Although Song Hanbai is extremely clear, diligent, and loves his name, he is also the best to behave in a way that he is not ruled. Like Di Ping, this is already a deviant and violates the party program. A lesson must be given, otherwise who will pay Put the provincial government in mind.

"it is good!"

Chu Dingbang looked at Song Hanbai and agreed. He stood up on the desk one by one and shouted in a deep voice:

"I order!"

As soon as his voice came out, all the people present at the stand stood up, including Song Hanbai, the first leader of the Bianzhou base at this time, and everyone must respect it.

Chapter 822: Who is the captive animal?

"Chief of Staff Liu, you are solely responsible for negotiating matters concerning the city of refuge. Five hundred people from the First Tank Regiment and the First Mechanical Corps will be deployed to form an armored mixed group. Tomorrow, we will depart from Central Continent. The negotiation principle must not harm the interests and dignity of the base. Otherwise, I hope Your cannon can bring me truth! Can you do it?"

Chu Dingbang's power was as majestic as a mountain, and his voice was like a Hongzhong drum. Everyone who shook his heart beat wildly, and they were all frightened by his majesty.

"It's the commander, I promise to complete the task and take our soldiers home!"

Liu Zhenya had a serious face, his body was straight, and he slapped a military salute, shouting loudly.

At this time, everyone looked serious, and many old generals trembled slightly with excitement. No matter how much they thought before, they felt like a soldier at this time, following the command of the general to go to the battlefield.

This kind of passionate voice made them seem to return to the scene of the previous rushing battlefield, all standing and stopping, feeling agitated.

"Zhang Beiwang!"

Chu Dingbang then shouted.

"Zhang Beiwang is here!"

Zhang Beiwang excitedly slapped it loudly, his slightly white hair did not reduce the solemnity of his body.

"I asked you to mobilize five hundred people from the Second Tank Regiment and the Second Mechanical Corps to form a group, and set off tomorrow to receive Zhang Haicheng's return. Is there any problem?"

Chu Dingbang looked at Zhang Beiwang with severe eyes and shouted.

"Yes, promise to complete the task!"

Zhang Beiwang's excited voice stood up loudly, and the shaking meeting room buzzed.

People from the provincial government department, seeing this scene at this time, their eyes were gloomy. Chu Dingbang's power at the base was too strong. As long as he really spoke, no general would really dare to fight against it, at most. The contradiction of earning some benefits.

Once Chu Dingbang suppressed all the voices, the provincial government's existence in the Bianzhou base was a bit embarrassing, and there was no power to talk about equality.

Song Hanbai's hand holding the cigarette trembled slightly, and his eyes slowly narrowed.

It was only then that he understood that the provincial government was able to hold certain rights in the base. This was the result of Chu Dingbang's intentional grant. Otherwise, if Chu Dingbang moved his fingers, they would not be able to make waves. There were two to three thousand people. How can the local armed forces confront the well-equipped and brave soldiers, they can't resist even this casually sent mixed army.

At this time, he had a question in his mind, why Chu Dingbang wanted to indulge their provincial government to share a cup of power, and what kind of consideration Liu Zhenya and the others supported for themselves.

All this suddenly became a mystery, causing Song Hanbai's brows to climb into a gloomy look.

The unknown is the most terrible. You don't know where your opponent will start from. This makes people live in fear!

At this time, Liu Zhenya was still in shock, and he was a little confused.

Why did Chu Dingbang agree to let him and Zhang Beiwang leave the base with elite forces? You must know that they took away a thousand people this time.

At this time, the number of regular troops at the base was only over 13,000, and there were only about 3,000 elites. The two men carried were all elites, and they accounted for one-third of the elites.

Could it be said that Chu Dingbang was really trying to rescue the sergeant?

Few people believed this, and Liu Zhenya didn't believe him either. With his knowledge of Chu Dingbang, this person was extremely ruthless, and he would definitely not consume the most elite regular army for the sake of a hundred sergeants.

After announcing his command, Chu Dingbang directly announced the adjournment of the meeting, a high-level meeting of the Bianzhou base, which was somewhat anticlimactic, making everyone feel a little bit unfulfilled.

When everyone left, there were still two people in the meeting room. If anyone saw it, they would be very surprised. The two left behind turned out to be Liu Zhenya and Zhang Beiwang.

The two had been sitting still, seeming to be thinking about the problem, and when everyone was gone, they stood up at the same time.

The two of them didn't speak, but they touched each other's eyes, and then they walked out of the meeting room with a gloomy expression.

Chapter 823: Successful crystal core hurried away

The two made eye contact very quickly, perhaps even if someone was present, they would not notice the eye contact between the two.

It stands to reason that the two of them would fight as soon as they met. At this time, the enemy should be jealous when they met, but at this time, the two people didn't have this meaning in their eyes, and they were obviously exchanging information.

Although both of them saw the doubt in each other's eyes, the two of them did not express anything and left the meeting quickly.

Neither of them understood why Chu Dingbang spoke so well today. Although both of them had basically achieved their goals, they both felt that they were not right.

But after much deliberation, he didn't get his head, and couldn't understand why Chu Dingbang did it.

If he didn't understand, Liu Zhenya didn't even think about it. He rushed home quickly to prepare for this trip. He was concerned about the safety of Liu Minsheng. At this time, the biggest thing for him was to save Liu Minsheng and come back. Discovering what is peculiar about this sanctuary city deserves Liu Minsheng's attention.

Therefore, he decided to go by himself this time instead of sending a family member, and Chu Dingbang meant that he would also lead the negotiation.

.....

After all, Di Ping and his party had finished their rest and set off again. Although they knew that the city was full of crises, he still had to go in.

Without getting enough crystal nuclei, he is simply unable to build the city wall surrounding the entire base. Without the city wall, the entire base is not fortified.

For the five-meter-high city wall, the mutant tiger didn't need any effort at all, and it could pass by a light leap. It couldn't stop some mutant animals at all, so the construction of the wall was urgent.

The place where they rest is not far from the zoo, only two or three kilometers away. After half an hour of walking, everyone came to the entrance of the zoo.

Looking at the three rusty and mottled characters in the zoo, Di Ping suddenly felt a sense of separation. He has not been in the zoo for more than ten years. I remember that he had been there when he was still a teenager. I think time flies too fast. .

This suddenly reminded him of his parents, his nose was sour, and tears wanted to flow out again, he shook his head forcibly, as if to shake out the sadness in his heart.

In front of the zoo's gate is a concrete floor, without trees growing, only some weeds grow tenaciously in some cracks, which is obviously desolate.

Looking inside through the closed fence gate, there is no way to see the road at this time. The weeds and trees are towering, looking in from the outside, deep and desolate, like a giant beast, waiting for the prey to enter, full of blood With a frightening atmosphere.

Standing at the door, Di Ping was a little hesitating, he seemed to feel the faint threat coming from it, as if there was some great terror waiting for him.

"City Lord, shall we go in?"

The fat man saw Di Ping staring at the zoo gate in a daze, so he stepped forward and asked softly.

"Uh!"

Di Ping came back to his senses. He glanced back and found that everyone was paying attention to him. He turned his gaze back to the zoo again. His eyes flashed for a while before he nodded heavily: "Go in! "

He decided that he would come here, no matter how dangerous he was, he had to try it. It was impossible to withdraw. He didn't believe that he would encounter another existence as powerful as the Komodo dragon before.

If there are so many powerful existences, human beings don't need to live at all. There is no way to survive. No human being can stop their attacks, but it is as strong as oneself. Then the Bianzhou base has sophisticated weapons, but it won't work.

This is the crushing of life levels, and it is a gap that is difficult to bridge. Unless Earth science and technology is one step ahead and more powerful general-purpose weapons appear, it will be difficult to threaten it.

#### Chapter 824: Panic dodge

There was silence in the zoo, as if there were no living things, only the rustle of leaves blowing in the wind, which made it even more dead.

Fortunately, the hardened pavement is also used in the park. Although weeds grow tenaciously in some damaged areas, there is still a way to go.

Di Ping and his party dispersed, entered the park vigilantly, and turned around the large landscape mountain inside the gate, and a lake area appeared in front of everyone.

The lake is very large, the size of more than ten acres of land, the lake water is green under the cover of the surrounding tall trees, the breeze blows, the lake water is rippling, and occasionally a few giant dove-like dragonflies lightly traverse the lake. There are waves of waves, which is unusually quiet.

The presence of dragonflies shows that this zoo is not without living creatures, only insects, although the variation is relatively large.

Di calmly looked at the lake in a daze. Looking at the sign, this should be the Monkey Island. There are many monkeys on the lake island in the middle of the lake, but at this time, there is no monkey activity.

Could it be that all the monkeys ran away? Di Ping couldn't help but wonder.

"Wow!"

Suddenly, there was a sound of water in the lake, and a huge black shadow suddenly jumped out of the water, biting a dragonfly in its mouth, and then falling into the water, splashing a large splash of water.

"My obedient, \*\*\*\* fish!"

Although the fish was fast, everyone on the shore could see clearly, and the fat man stared at the splash and cried out in surprise.

"Squeak!"

His scream seemed to ignite the air at once, and the whole Huxin Island suddenly clamored with creaking noises. Then he saw the trees on the Huxin Island shaking and the leaves rustling, as if something was moving towards. Rushed out of the forest.

Everyone tightened their weapons and looked towards the island in the lake, and saw the leaves shaking violently, and dozens of black shadows appeared on the lake.

"Damn, what a big monkey!"

The fat man exclaimed again.

"Fatty, you make a fuss, believe it or not I will throw you into the lake?"

Xu Sheng, who was on his side, glared at the fat man and cursed.

The fat man was about to refute, but he glanced at him and found that almost everyone was staring at him. Now he knew that he was angering the crowd, and he knew that he was wrong, so he closed his mouth angrily and did not dare to speak.

Di Ping didn't say anything. He looked at the dozens of adult-sized monkeys hanging on the giant tree, and his scalp was tingling.

These monkeys are okay. There are not many mutant animals whose eyes are blushing, and they attack like crazy when they encounter people. But these monkeys, with bright eyes, looked at the people of Di Ping on the shore with curiosity, and made a low voice from time to time. The cry, as if communicating.

This is a group of white-browed gibbon monkeys. The body was originally not small. At this time, once the body was transformed, all of them became burly men. The height was more than 1.5 meters, and the arms were even longer than one body length, thick and powerful. I know it's not easy to mess with.

The human monkey looked at each other across the lake without making a sound, but Di Ping discovered the problem. These mutations were far from the surface of the water. They were all standing on high branches, and their eyes floated across the water with horror.

Di Ping swept the surface of the lake. He saw huge black shadows in the water dart across the water silently like shadows. He knew at once that these white-browed gibbons did not dare to go into the water at all. Something that threatens.

"Let's go!"

Di Ping took a look and waved to everyone. He couldn't help it. These mutant white-browed gibbon monkeys were definitely not easy to provoke after they mutated. Just look at Yao Jin's arm.

Moreover, these monkeys have clear eyes, and their eyes are smart. He really can't handle the primate mutants, so let's find another one!

Chapter 825: Fight for life

Under the gaze of a group of apes, Di Ping walked toward the depths of the zoo. The herbivorous animal area was in front of him, which was more in line with his goal.

The first one to pass was the zebra area. Looking at the zebra park under the weeds, huge trees overgrown the park, which made Di Ping's heart sink into the valley.

With a sense of anxiety, he used a knife to poke away the mans on the fence, and looked at the zebra park. He saw tall trees and overgrown weeds, which filled the entire zebra park.

"City Lord, there is nothing in it!"

Yue Lie and Liu Han jumped in, and finally walked out angrily, watching Di Ping spread his hands.

"Go, go to the next district!"

Di Ping pursed his lips and waved his hand to let the two of them come out. At this moment, he felt a bad feeling in his heart.

Sure enough, I went to five or six districts in a row, including the Mustang Park, the Sika Deer Park, the Cattle Park, and the Kangaroo Park. The fences in the park were all destroyed. I wonder if the animals in these parks ran through these damaged places.

After investigating several parks, Di Ping also found some problems. In many parks, the trees were broken, as if they had been damaged by some huge mutant beasts. Some trees still had deep and huge claw marks, and some trees. There were also black blood stains.

Looking at these traces, Di Ping knew in his heart that these mutant animals were either eaten by more powerful mutant animals or ran away.

As soon as he entered the zoo, he felt a faint anxiety, and this anxiety became more intense as the mutant animals in the park disappeared.

After checking the traces, there are definitely powerful and terrifying mutant animals in this zoo. The huge claw marks are not what ordinary animals can leave. Even the steel fences can hardly block the sharp claws of the beast, and they are completely destroyed.

"Does the city master need to go deeper?"

The group stopped in front of the intersection where the Liger Mountain was hung. Yue Lie looked at the Liger Mountain not far away and his eyes flashed with shock, and asked Di Ping in a low voice.

Everyone has seen Di Ping's great tiger. Except Di Ping, the strongest Owen in the base is not the opponent of the mutant tiger. If there are a few tigers and lions in this mountain of tigers, it will be a big one. It's horrible.

However, what everyone was afraid of did not appear. Liger Mountain did not have many plants that were completely rocky, only some weeds and small saplings emerged tenaciously from the cracks in the rocks, making the whole Liger Mountain empty.

The iron cage covering the entire Liger Mountain has many large and broken holes. Needless to think about it, the lions and tigers should have run from here.

"Town Lord, what should I do? The zoo is empty and there are no animals!"

Yue Lie carried the big sword with a regretful expression.

"Where in front?"

Di Ping frowned, he pondered for a while, then pointed to the front and asked.

"The Wild Wolf Valley is ahead!"

Yue Lie was already quite familiar with this place, Di Ping pointed his hand and he knew where it was.

"Look forward to another park, we won't withdraw again!"

Di Ping was also speechless at this time. He originally took a big risk to come to the zoo, but he never thought that the zoo was also empty. He thought of everything, but he didn't expect that the animals would not necessarily stay in the zoo and wait.

"Master, can't go any further, I feel a strong breath of a strange beast, this strange beast is very powerful!"

Di Ping was about to order everyone to move forward. At this time, Boogie walked up to Di Ping ahead of time, glanced at the front with vigilant eyes and whispered.

"What strange beast?"

Di Ping's raised foot was put down again, and he turned to look at Buji.

"I don't know, but the breath is strong, I feel dangerous!"

Buji shook his head and said with a serious expression.

Chapter 826: It's the fish melee

From the moment Di Ping entered the park, he felt a faint uneasiness, and this uneasiness became more intense with the vacant animal areas.

What Boogie said was more proof that his feeling was not wrong. As his mental power grew stronger, his perception of danger became stronger.

Moreover, Buji is a good hunter, and he is very accurate in the sense of danger. Since he said the same, it means that there are really powerful mutant animals in this park.

However, the purpose of coming to the zoo today was not achieved. So I went back. Di Ping was a little unwilling. He also wanted to see what kind of powerful alien beasts hidden in this zoo. I was beaten by him by the wrong hand, knowing that it is not too far from the base.

"Go and explore the wolf area again!"

After the decision was made, Di Ping stopped talking nonsense, waved his hand firmly and walked inside.

The end of the world is very dangerous, and he has had many near-death experiences, but he can't be frightened to stop by a dangerous feeling. What is the meaning of his path to strength? Without a tiger in heart, no matter how strong he is, he is just a bug. , If you want to go farther, stand higher, you have the heart to keep brave and diligent.

Seeing Di Ping's decision, Buji didn't say much. Everyone performed their duties and advanced towards the wolf area.

"Town Lord, there are animals in the wolf area!"

Yue Lie, who was exploring the road ahead, ran back happily, with a surprised expression on his face.

"Really! How many wild wolves are there?"

When Di Ping heard that he was overjoyed, there were still wild wolves in the wild wolf area. This was finally good news.

"City Lord, there are not only wild wolves, but other animals!"

Yue Lie looked hesitantly.

"There are not only wild wolves in the wild wolf area, but what other animals?"

Di Ping was confused by Yue Lie's answer, and asked a little puzzled.

"City Lord, you still come and have a look!"

Yue Lie smiled awkwardly.

As soon as he arrived in the wild wolf area, Di Ping understood why Yue Lie had that expression!

I saw a wild wolf area with an area of four or five acres. At this time, there were no less than a hundred wild beasts, not only wild wolves, but also wild boars, wild dogs, wild horses and sika deer.

These are obviously mutant animals. They are tall and tall. Although they belong to different species, it is interesting that they live together in peace.

Wild boars are humming on the ground, wild wolves are dozing, wild horses and sika deer are eating grass, the whole scene is very strange, carnivores and herbivores get along so harmoniously, when will the wild wolves change to vegetarian?

Seeing this scene, everyone was stunned, unable to figure out what the situation was.

It is a wild wolf area rather than a wild wolf valley. The terrain is low-lying and forms a valley. It is five or six meters above the ground and covered with steel nets. Even the mutated wild wolf cannot jump. Come up.

"What's happening here?"

The fat man asked with a puzzled look.

"Master, this may be in captivity!"

Boogie looked around, a look of horror suddenly burst into his eyes, and he walked to Di Ping and said in a low voice.

"Who kept it in captivity?"

Di Ping looked at Boogie and asked.

"This is not clear, but looking at the traces of surrounding activities, it looks like a powerful mutant beast!"

Buji pointed to some huge footprints on the surrounding ground. Di Ping also looked at his head. At that time, his scalp was numb. The steps were a bit like human steps, but they were much longer.

A footprint is more than one meter long and half a meter wide. It looks like a boat on the ground.

"City Lord, what should I do now?"

Xu Sheng, who had always been calm, was a little undecided when seeing this situation, and watched Di Ping cautiously asked.

Chapter 827: Behemoth is shaking

"It doesn't matter, kill it first!"

Di Ping turned his head and looked around, his rapidly changing expression stopped. In the end, he still couldn't stop the temptation of more than a hundred mutant beasts, gritted his teeth and said bitterly.

"It's the city owner!"

Fat Liu Han and the others were already in a hurry. When Di Ping decided to come down, they were so excited that they couldn't rush forward now.

Although experienced the battle of the mutant emperor scorpion, it did not make everyone afraid, but made everyone feel a sense of suffocation, holding their breath long ago, waiting to come out.

"Quick battle and quick decision, don't stay here for long!"

Di Ping waved his hand and shouted in a low voice, but then people soared up into the sky like a wild goose, jumping over a steel net over three meters high and falling into the Wild Wolf Valley.

As soon as the person landed, he rushed out again, the ghost face slashed his saber, and a piece of cold light fell like a nine-day moonlight, and the piece of cold light moved towards the mutant animal cover at the bottom of the valley.

Puff puff

There was a sound of sharp blades cutting through the flesh and blood, and there were already three mutant wild horses lying in a pool of blood on the ground.

too fast!

At this time, all the people reacted, mobilized quickly, jumped into the wolf valley like dumplings, and began \*\*\*\* killing.

Di Ping had killed nearly seven or eight mutant wild horses, and only then did the mutant animals in the valley react, and a group of mutant wild wolves howled and rushed towards Di Ping.

But everything was in vain. Di Ping's sword technique was too fast, and the snake body technique moved. The body seemed to be a white line in the air. Everywhere there was blood bursting, the mutant animal fell to the ground.

And the group of people who followed, now dealt with mutant animals such as mutant wild wolves without any difficulty.

This killing took just over thirty seconds. There were mutated animal carcasses lying in a pool of blood everywhere on the ground, and a thick \*\*\*\*\* smell filled the air.

Di Ping stood on a rockery with his saber in his hand, his breath was slightly disturbed. In order to save time, he used all his strength and moved at full speed.

Nearly one hundred and seventy and eighty various mutant animals, Guang Di Ping almost beheaded half of them, and the others have been solved by everyone.

A group of people standing in a pool of blood with their weapons in their hands, panting for breath, all of them flushed with excitement in their eyes, and finally released their previous suffocation.

"Hurry up and leave now!"

Di Ping smelled the blood soaring to the sky, without the slightest joy, his heart was tense, and he didn't dare to delay at all. He sighed and hurriedly said in a deep voice.

"Yes!"

Everyone responded, and then began to quickly divide the mutant animal carcass.

"No more meat, just take the lattice!"

Di Ping was still caring about meat, and he was anxious when he saw the people still peeling the skin, and hurriedly stopped drinking.

Everyone reacted and began to break their heads to take crystal nuclei. These were all familiar hands, and the quick movements were amazing.

Di Ping jumped off the rockery and started to help. He always had a sense of urgency, and a depressive breath lingered in his heart, making him feel uneasy.

He cleaned up the crystal nuclei quickly, and took a bunch of mutated animal carcasses into the backpack system with a wave of his hand. The same was true when he went back and took it out. After collecting twenty or so, the space was full.

He was a little disappointed. Now the system backpack is too small and not enough.

Five minutes later, everyone took out all the crystal cores and handed them to Di Ping.

"go!"

Di Ping took the crystal core and didn't talk nonsense at all, waved to everyone, and then slashed the steel net. The people quickly rushed out of the wild wolf valley through the steel net.

Angela, Gila, and Yunmengsi were weaker, but Di Ping led them one by one.

Then the group rushed out of the zoo in a hurry. They didn't dare to stay any longer. They were looting food from a tiger's mouth. If the powerful existence of these mutant animals in captivity knew that their food was robbed, could he give up?

And what mutant beast is this? With such a high IQ, he even knew that he had been raised in captivity. When he thought of this, Di Ping felt his scalp numb. He always felt that this mutant beast was absolutely terrifyingly strong.

Chapter 828: Heroes are also difficult for food

Di Ping has an expectation in his heart, that is, everything just now is his own guess. It is not someone who raised him here, but a natural formation.

Although he knew this might be just a beautiful fantasy in his heart, he still couldn't stop thinking about it, he didn't want his guess to come true!

In a hurry, everyone felt uneasy due to Di Ping's nervous attitude. They acted very quickly. Within a few minutes, everyone returned to the Monkey Island location.

To Di Ping's surprise, the white-browed gibbon monkeys who stood on the tree sign did not leave. They always stood on the original branches, lazily basking in the sun, and some even took a nap against the tree trunk. Some are catching lice on each other.

When they saw Di Ping's appearance, they suddenly became energetic, stood up one after another, looked at Di Ping, and looked at Di Ping and his party curiously with their round eyes.

These gibbons watched for a while, and then they began to hang on the tree and reverberate. From time to time, they stretched their hands in the direction of Di Ping and his party, as if they were asking for something.

"What are these apes going to do?"

Everyone looked at this group of monkeys in a puzzled way.

"Don't worry, go out first!"

Although Di Ping didn't understand what these apes were going to do, he still didn't want to grow out of it. Now he was not far from the gate, and it was the gate when he went around the lake.

The monkeys seemed to see Di Ping and his party ignored them, which made them very anxious, standing on the branches and beating constantly, making creaking noises in their mouths.

This cry made Di Ping a little worried, and he quickened his pace.

"Squeak!"

Suddenly, the cries of the apes stopped for a second, and then suddenly screamed in the next second. The screams were full of fright, as if they were frightened, they made sharp screams, and then quickly turned towards the island. Nei rushed over.

Qiu Ping's footsteps were just a meal. When he saw the group of monkeys retreating back to the island, his heart shrank, and the secret path was not good. Judging from the performance of these apes, there must be something terrifying.

In the next moment, Di Ping felt a sudden pressure. The faint uneasiness before quickly turned into panic. He gave a low "Go" and rushed forward.

He didn't rush out of the gate. The gate was full of open ground and there were not many trees. There was nowhere to hide. He rushed to the ticket hall at the door.

He rushed to the iron door, pulled the iron door open, and greeted the people behind him:

"Quick, quickly..... Go in, don't make a sound!"

In fact, without his instructions, everyone felt that something was wrong. Not only Di Ping felt it, but they felt it too.

When everyone went in, Di Ping glanced back, his eyes were horrified, and he rushed into the room with a flash of stature and closed the door.

咚咚咚...

As soon as he hid in the ticket hall, he heard a dull sound from a distance, like the heavy footsteps of some huge monster.

Every step of the way, there was a muffled sound on the ground, followed by a tremor on the ground, the glass in the ticket hall buzzed, and the sound of humming sounded like stepping on the heart, making people involuntarily strained to breathe.

"Never look outside!"

Di Ping solemnly confessed to everyone, then stretched out his hand to pull a corner of the sunshade on the glass window, and hid under the glass window to observe the outside secretly.

The dull footsteps became clearer and clearer, and the amplitude of the ground vibrations became larger and larger. The half glass of water in a glass placed on the table was beating violently with the vibration.

The pressure of terror was getting stronger and stronger, and Di Ping's eyes flashed with astonishment. Before he saw him, he felt the presence of terror, and seemed to be no worse than the Komo dragon he had encountered before.

His heart jumped wildly. It turned out that there was still such a powerful existence in Zhongzhou City with his own low eyelids, and if such an existence attacked his base, the base might also become the next Jincheng base.

Chapter 829: Zhang Hengcheng

This kind of movement caused the Fatty and others to change their faces. They are warlike, but don't they mean stupid?

Such a big movement, you can imagine that this is definitely not a little guy, like a horror beast in the movie, every move is shaken by the earth. Although they are curious, they also follow Di Ping's order to hide. He didn't dare to make a sound tightly, and he didn't even dare to breathe.

what is this?

Di Ping stared at the terrifying behemoth walking by outside. He was stunned at the time, but he reacted in the next instant and quickly shifted his gaze away, only to observe.

Such a terrifying behemoth has a strong perception ability, and the observation gaze may cause it to be alert, but it will be troublesome when it is discovered.

What did he see, he would be so horrified!

This is a giant chimpanzee, six or seven meters tall, with legs like two thick pillars, and a pair of feet like two small boats. It is walking in from the zoo's gate, and every step it falls on the ground is shaking.

When Di Ping saw it, he almost called King Kong, which was no different from King Kong in the movie.

At this moment, he was a little secretly grateful that his decision just now was correct, and he didn't rush out the first time, otherwise he had just rushed out of the gate and happened to face King Kong, which would be a tragedy.

The huge King Kong walked slowly, looking around with sharp eyes, like a king patrolling his own kingdom.

Its breathing is slow, but the sound is like muffled thunder, with the sound of wind and thunder, the air seems to tremble with his breathing

This made Di Ping amazed, how strong this qi and blood power can make such a terrifying air current sound. From this point, we can know how strong this mutant chimpanzee is.

Mai Mai.....

There was a cry of sheep.

Di Ping swept over and found that King Kong was carrying two mutant goats in one hand. These two goats were the size of a horse, but they couldn't move in King Kong's palm. They could only make a cry of horror.

King Kong didn't care about the screams of the goats, and walked slowly toward the animal circle. Although its steps were very slow, it leaped five or six meters in every step.

Soon, King Kong drifted away, turning around the lake area, and his huge body disappeared in the dense woods.

"Follow me, with a softer voice and fast movements!"

Suddenly Di Ping remembered something, his face changed drastically, and he shouted at the crowd, then opened the iron door first and rushed out.

The group of people has long been like a frightened bird. As soon as he greeted, everyone was already moving like lightning and rushed out with him.

Di Ping rushed towards the gate, and the gate was less than 30 meters away from him. A group of people ran along frantically, moving quickly.

It was the women of Gina, who were moving very fast at this time. They were weaker than fighters, but to ordinary people, they were superhumans. Their strength was over a thousand jins, and their physical fitness was quite strong.

After rushing out of the gate, Di Ping ran wildly northward along the road, daring not to stop for a moment, he was racing against life at this time.

How did you say he panicked about this?

Just now, he suddenly thought that those mutant wild wolves and wild boars should be the food raised by this King Kong, but he was harmed. It is conceivable that this King Kong would have it once he found out.

It's still in the garden, it's just being sent to King Kong's mouth to eat. Don't look at them just hiding and not being found. King Kong didn't pay attention. Once it found out that its food was lost, it moved to the real place and hid on its own. There is no difference between being in the box office and being in a small space.

Chapter 830: Reflections on Guwu

"Wow..."

Just less than fifty meters after Di Ping ran out of the gate, an angry roar came from the zoo.

This roar shook the fields, as if the sky was thundering, and the whole earth trembling with the shock, the astonishing power and panic descended like the heavenly might, all the lives within a radius of ten kilometers were subdued on the ground at this moment, and I dare not dare to have it. The slightest resistance.

While running, Di Ping and his entourage suddenly felt stiff in their body and buzzing in their minds. Fortunately, they were not close, and this was not aimed at them, otherwise all these people would crawl down.

He didn't dare to stop at this time. He didn't expect to be a mile or two away, but the roar of King Kong could affect him, showing how strong it was.

His expression is extremely serious, and now is the most critical moment, and he can't stop for a moment. Once they enter the range of King Kong's perception, they don't even want to run away.

Fortunately, everyone was just stupefied, their steps staggered a little, but then they returned to normal. No one fell and rushed forward following Di Ping's footsteps.

Boom boom boom...

There was a roar from the park, like a big mountain cracking, with a frightening aura. It should be that King Kong was slamming something in anger, making a huge noise.

Ouch...

A roar full of anger surged in the sky, and King Kong was frantically destroying and venting.

Everyone was shocked when they heard the horrible movement, and they didn't even dare to stop, each stepping faster than one.

In a blink of an eye, everyone ran five or six hundred meters. Everyone was desperate. Although they didn't see any monsters, they had no curiosity at all. The city lord was running desperately. stupid.

Ooh...

Suddenly, Di Ping heard King Kong's roar and began to move away, as if he was rushing towards a place, fast, and the roar went further and further away.

And the roar is getting farther and farther, the roar is three or four kilometers away in thirty or forty seconds.

So fast!

Di Ping secretly smacked his tongue, but fortunately he was not in this direction, otherwise the speed of his line would not be as fast as King Kong.

Ooh...

Suddenly, there was another roar in the distance.

However, this roar was not made by King Kong. King Kong's voice was a bit sharp. This sound was different. It sounded like a lion's roar. The voice was low and extremely penetrating, with a strange wave.

Although it was three or four kilometers away, it was as deafening as the sound of rolling thunder, and it made people feel dull and dizzy.

The lion's roar was full of anger, and it roared as if it was irritated, and then there was a rumbling sound, like a rock and a crack, accompanied by roars.

"This King Kong is fighting the lion!"

Di Ping glanced back, his eyes full of weird expressions.

This King Kong probably thought that the food he kept in captivity had been taken by the nearby lion, and now he was looking for it, and the two powerful mutant beasts were fighting.

Brother Lion, I can't blame me for this, take care of it!

Di Ping silently mourned the white mutant lion for him in his heart.

But listening to the roar of this mutant lion, it should be quite powerful, this King Kong might not be able to please.

However, he doesn't care about this now, it's okay if both are dead! He still has to escape for his life. Once King Kong gets back to his ambiguity, it will be troublesome to chase here.

Fortunately, he did not bring the four Gu Xing with them, but put them in a building two kilometers away, otherwise these four alone would be enough for him.

At this time, the four of Gu Xing hid in a hotel under the building. Hearing the huge movement from a distance, the four of them trembled and did not dare to make any movement.

They don't know if Di Ping caused these movements, but now they are not at all angry that Di Ping didn't take them. They are secretly grateful now. Fortunately, they haven't gone. The outside world is terrible!
