

Doomsday 83

Chapter 83: Mutant dog meat starts to earn

correct?

Suddenly his eyes lit up again, and he thought that he had probing skills?

Don't you know if you use this skill to explore?

He secretly scolded myself for being stupid, I didn't know how to use such a skill every day, it was wasted!

Thinking of this, he was not delaying either. With a thought, he used the exploration technique against a mutant dog.

"Mutated Dog: Status: dead, edible meat, containing weak energy, long-term consumption can improve physical fitness"

A message appeared in front of Di Ping's eyes. This mutated corpse, which turned into a carbon block, has been recognized as edible by the system.

It is edible! And it is not toxic...

This made Di Ping immediately overjoyed, his face exposed, and then he turned his eyes to the huge mutant Tibetan mastiff corpse, and launched the exploration technique again.

"Mutated Tibetan Mastiff (dead): Bloodline Level: D, Talent Skill: Rage, Strengthening Level: Level One and Level Two, Skills: Bite, Meat is edible, meat contains more energy, long-term consumption can improve physical fitness."

Seeing here Di Ping was ecstatic, but also a little annoyed. The mutant animals killed before did not save the meat for consumption. It was too wasteful. If you knew to eat more, you might have strengthened your physique. Why don't you know how to take a look at it?

But thinking about not eating these mutant animals before, one is that the food is enough, and there is still a bit of a reaction in my heart. After all, these mutant animals are cannibals, and thinking about eating the meat of these mutant animals is still uncomfortable!

But now it's different. People are dying of starvation. What else can't be eaten is better than starvation. Besides, it's not just eating human flesh.

For example, if someone falls into a river and is eaten by a fish, it makes no difference if someone eats fish again! Do you want to think so much when your life is gone?

"Does Xiao Di have any ideas?"

When Han Zhongguo saw the joy on Di Ping's face, he was immediately overjoyed and thought he had any ideas, so he asked quickly, with anticipation on his face.

"I think this problem will fall on this..."

Di Ping raised his head to see everyone looking at him hopefully, smiled slightly, raised his head and pointed his chin at the mutant dog corpse not far away.

"Ah! Is this... this edible?"

Lu Hai screamed and asked.

Han Zhongguo, Ge Zhongping and Lu Guoliang also looked at Di Ping suspiciously on their faces. They had been chased by these mutant dogs. They had never dared to eat these mutant monsters. Now they heard Di Ping say that their expressions changed immediately.

One is afraid, and the other is not knowing if this thing can be eaten, after all, they were stunned by these mutant animals.

"Yes, I have checked that this meat is not only edible, but long-term eating can also increase physical fitness, and the strength response will increase!"

Di Ping saw the suspicious look of the people, and knew that these people would never eat without the ingredients, so he explained the role of this kind of meat.

"It can enhance physical fitness, is this true? Xiao Di, are you sure!"

Ge Zhongping's eyes flashed, and there was joy on his face. If this is true, can the body become stronger by eating regularly, like Di Ping?

So he asked anxiously.

"I'm sure, you will realize it as soon as you eat it!"

Di Ping looked at his eyes with a dozen hopes, and seemed to be waiting for his affirmative answer, so he said with a straight face and a firm expression.

Everyone was immediately overjoyed when they got Di Ping's affirmative reply. Some people were already anxiously standing up to get meat!

You know that of these thirty mutant dogs, that one weighs one to two hundred catties, and there is a huge mutant Tibetan mastiff that is definitely no less than a thousand catties. These meats are enough to be 10,000 catties.

Thousands of people in the base can eat enough. The most important thing is that these meats can also enhance their physical fitness. Who doesn't want them, they have experienced many dangers in these last days, and they have struggled with life and death several times.

Seeing Di Ping's powerful strength, knowing the direction, and knowing that a strong body can live well in these last days, then their desire for strength is extremely strong.

"Quickly! Lu Hai, organize people to collect all these dog meat, and then distribute it uniformly."

At this time, Ge Zhongping couldn't sit still, stood up and looked at Lu Hai anxiously and said.

He wanted to collect the meat as quickly as possible so that he could get more points. It would be difficult if Han Zhongguo preempted himself before trying to ***** it out of his mouth.

"Good! Good! I will go now!"

Although Lu Hai was a bit sloppy, his mind was not stubborn, and he definitely had eyesight. He immediately understood what Ge Zhongping said, and hurriedly stood up to answer.

Then he turned around and left. Han Zhongguo didn't expect Ge Zhongping to react so quickly, his expression changed, but after all, Ge Zhongping is the leader and the first leader of the base, he can't say anything after he has already sent a message, but his eyes flashed anger.

"Wait!"

Suddenly a faint voice abruptly stopped Lu Hai's movements. Everyone looked back. It turned out that it was Di Ping, and everyone's eyes were puzzled.

Di Ping looked at Lu Hai flatly, Lu Hai made no expression on his face, but his anger gradually grew, thinking that you, a hairy boy, would dare to call the commander here, let Laozi wait, you count that onion.

"Yue Lie and Liu Han, two of the people and Director Lu, collect all the meat!"

Di Ping ignored everyone's gazes, and did not even look at the slight anger in Lu Hai's eyes. He just looked back at Yue Lie and Liu Han and gave a light command.
