

Doomsday 901

Chapter 901: Greed and chaos

The two of them talked and laughed, and the atmosphere of the scene immediately relaxed, and there was no tension from the tension that had just been felt.

Liang Chengdong's prestige in this army is still quite high. He shouted, all the sergeants of the army dropped their weapons in their hands, but their eyes were still vigilant, for fear of attacks at any time.

In fact, these sergeants didn't dare to move without shouting, and the surrounding five horrors pressed them tightly, making them afraid to move at all.

And there is a cannon pointing at the city head, mainly they don't know this kind of energy cannon, they think it is a cannon from the appearance, they know the horror of this kind of weapon the most, even the armor can't be blocked, let alone Said the body of flesh and blood.

Therefore, if they are not a last resort, they will not easily confront such a big killer, it is simply looking for death.

"Om!"

As if feeling the change in the atmosphere below, the machine gun on the head of the city unexpectedly buzzed softly, and then he retracted.

This is the intelligent combat system. It is really bullish. Once it detects hostility, the system will be activated immediately and ready to launch artillery fire. It is really smart.

But only Di Ping knows that this is an empty shelf, and the little coin in his hand is enough to make a hundred or ten cannons, but he has not seen the destructive power of this energy cannon, if he had seen it, he would not have such an idea. .

.....

The matter was resolved in this way. Liu Zhenya went to see Liu Minsheng. He walked indifferently. The army behind him was thrown to Liang Chengdong to be responsible. In fact, he

already knew very well that these hundreds of people were already the meat on the cutting board. People are arguing about how to arrange for someone else who can't help it, and now it's useless to say that it's no longer useful, but it's overwhelming.

The original imposing elite fighters suffered nearly one-third of the deaths and injuries after a mutated golden eagle attack, but now they were forced to dare not do anything. They were beaten down with energy, and lined up listlessly. Under the watch of the city guards, he walked towards the city.

At this time, the city guards finally raised their eyebrows and raised their heads high, looking at these dejected soldiers secretly with pride.

Liang Chengdong saw it in his eyes and felt pained in his heart. You must know that the spirit of his group of soldiers has been beaten and morale has been damaged. This will take a long time to adjust.

It took a few years for the military region to spend a lot of money and time and energy to accompany an elite soldier, but it only took a few seconds to be destroyed.

Cheng Chao has become more and more proficient now. The hundreds of people have been arranged in an orderly manner. With the cooperation of Liang Chengdong, the army has been arranged in a row of superimposed villas on the east. This place is remote and the surrounding area is relatively empty. These people can only stay here obediently and can't run around.

The most important thing is that their heavy weapons, tanks, heavy machine guns, small artillery rockets, including ammunition, are all stored separately and guarded. If they want to get them, they have to pass the sanctuary to agree. Guns, they really don't have the confidence to fight against the city of refuge.

Liang Chengdong wanted to refute, but he opened his mouth, but when he met Yue Lie's cold gaze, he still couldn't say it. He looked at the young awakened person next to Liu Zhenya, and he didn't even dare to say a word.

In the underground cell of the castle, Liu Zhenya and Liu Minsheng, who had hurriedly arrived, sat facing each other, the old and the young did not say a word.

But if someone is there, you will definitely be able to see the sparkle in Liu Minsheng's eyes.

"Grandpa, why are you here? This is too dangerous!"

After a while, Liu Minsheng spoke with excitement in his heart.

"I don't want to see how I can rest assured!"

Liu Zhenya looked up and down Liu Minsheng to see that he was not injured, and then he let out a breath.

"Grandpa! I let you down and brought you into danger!"

Liu Minsheng was a little ashamed not to look at Liu Zhenya.

"No, you did a good job!"

Liu Zhenya suddenly showed some gentleness in his eyes and said slowly: "Maybe you earn more opportunities for the Liu family than gold!"

This is not what Liu Zhenya is saying to Liu Minsheng. If he doesn't come today, how can he see such a magical scene? If he doesn't see this scene, he doesn't really see the strength of the sanctuary, how can he have new ideas.

Chapter 902: Knowing that failure is ripe

"Grandpa, what do you mean?"

Liu Minsheng's eyes lit up with excitement.

"Be quiet, there are ears on the wall!"

Liu Zhenya looked out carefully, and then said in a low voice: "Minsheng, tell me the truth, what do you think about this place!"

"view?"

Liu Minsheng's eyes were blurred for a while, he thought for a while before he looked up at Liu Zhenya and said slowly:

"To talk about opinions, I can only say that this is a magical place!"

"Oh! Is it magical there?"

Liu Zhenya asked in surprise.

"There are too many magical places!"

Liu Minsheng's expression has also become more serious than ever, he lowered his voice and approached Liu Zhenya and said:

"There are secrets everywhere in this city. Grandpa, did you see this castle when you came in? Don't you think it's strange that there are such buildings in the country and in such a community?!"

"What do you know?"

Liu Zhenya asked in a low voice with his eyes moved.

He had seen the magical appearance of the tall and towering walls before. Although he was a little surprised with the castle that appeared behind, he was not as shocked as before!

"In addition to the castle, there are several buildings that were absolutely absent from the base before. As I did a survey before, the people who originally lived in the community definitely said that there were no such buildings. Many people said that they fell from the sky, and the base was viewed during the day. After seeing the scene falling from the sky, everyone is stunned, but I don't know whether to believe it is true?"

Liu Minsheng said slowly with doubts in his eyes.

At this time, if Wang Dequan was alive, he would be surprised. Liu Minsheng had listened to such important information and did not tell him, but I really don't know if Wang Dequan had inquired

about it. But from Wang Dequan's plan for the base, he should also know. It's just that the two of them are in a tacit understanding and nobody told anyone.

"It seems to be true!"

Liu Zhenya's eyes flickered. He didn't think that not only the city wall appeared like this, but also other buildings appeared in such a magical scene.

"Is it true? Grandpa, how do you know this is true? Did someone tell you!"

Liu Minsheng looked at Liu Zhenya in surprise.

"If it were before today, no matter who said I would not believe it, but today I really saw the giant city falling from the sky!"

Liu Zhenya smiled bitterly and shook his head. After a while, he continued:

"I also hope that my eyes are dazzled or my head is abnormal, but the truth is that this really exists! A giant city that descends from the sky! Miracles are nothing more than that!"

"A giant city! What giant city?"

Liu Minsheng asked with a puzzled look.

"When you came, what kind of city wall was this base?"

Liu Zhenya asked Liu Minsheng with his eyes half-squinted.

"City wall? What city wall is there? It used to be a four-to-five-meter-high residential wall. It was reinforced and heightened with wood. There is nothing else. Grandpa, would you like it?"

Liu Minsheng asked suspiciously.

Liu Zhenya told Liu Minsheng about the scene he had experienced before. Liu Minsheng was stunned at the time. He was stunned for a while before he was relieved and muttered:

"I have never believed that this is true, and I have been looking for reasons to convince myself, even if it is the result of the investigation that everyone said so, but I have always been puzzled. I didn't expect it to really fall from the sky! No wonder it's so big. The sudden appearance of the castle here is really hard to believe!"

"Yes! Who would dare to believe it, but if you think about it, it's relieved. The end times are here, and animals have mutated. What else is impossible?"

Liu Zhenya also sighed.

For a while, both grandpa and grandchildren fell silent, and the cell was quiet, there was no sound, only the breathing of the two.

"It is for this reason that you cooperated with the Sanctuary City to send back the telegram to let me stop the military area from sending troops?"

After a while, Liu Zhenya took the lead to break the dull way.

"Yes!"

Liu Minsheng nodded, then he shook his head again and said, "It's not just for this reason!"

"What else is there?"

Liu Zhenya asked strangely.

"Grandpa, did you know? There are more than ten awakened people in this base, more than ten!"

When this question was mentioned, Liu Minsheng stood up suddenly excited, his eyes flashed, and he looked at Liu Zhenya and said excitedly.

"Sit down! I just praised you, but I'm not calm again!"

Liu Zhenya looked at Liu Minsheng who was extremely excited, his face sank, and he shouted in a low voice.

"Oh!"

Liu Minsheng seemed to know that he was too excited, so he scratched his head and sat down, then said timidly:

"Grandpa, I said it was true!"

Liu Zhenya nodded calmly and said, "I already know this!"

In fact, don't look at Liu Zhenya's now calm and calm look. When he saw so many awakened people before, his shock was no less than that of Liu Minsheng.

Chapter 903: Sanctuary for a good life in the city

"Grandpa, how did you know?"

Liu Minsheng asked in surprise.

"I saw it at the door just now, these people are really terrifying, each of them is powerful, I feel even more terrifying than that plague god!"

Liu Zhenya sighed with lingering fear.

"What kind of power is Plague God, that Di Ping is really strong and terrifying!"

Liu Minsheng curled his lips and said.

"Oh! I saw this Di Ping, doesn't it look like a good person?"

Liu Zhenya's expression remained unchanged and asked calmly.

He has already met Di Ping, to be honest, Di Ping really looks like a college student, with a pale and gentle face, and a faint smile on his face. Those who are like him are so angry that they want to be known. They are bloodthirsty demons.

If it weren't for Zhou Keming, the only awakened person under his staff, who said it was terrible, he wouldn't care anymore, but he still didn't believe it very much.

Later, in the confrontation, he realized that this young man was pregnant with such a powerful power. It was just a faint look in his eyes that made him feel scared. Now he feels ashamed to think about it.

The reason why he wanted to see Liu Minsheng first was to confirm his safety. The other was to fully understand the base, to understand Di Ping, and to know the details of the other party before he could prescribe the right medicine. Don't fight unprepared battles.

"Grandpa, believe me, he is too strong, so strong that it makes people lose the courage to resist! He can hurt people with a roar, and destroy a tank with one kick. He is not a human being, like a wild animal, it is terrible!"

At this moment, Liu Minsheng thought of Di Ping's might, his face was a little pale, and his voice was trembling.

"He really is so strong? It's incredible, how can a person be so strong!"

Liu Zhenya's eyes were half-squinted, her eyes flashed rapidly, and she murmured.

"Yeah! Grandpa, such a person is invincible and can be used as a partner. Wang Dequan has a saying that I agree. We have to leave a way behind and cannot be completely tied to the Bianzhou base. Bianzhou base plate It's too big, and there may be problems at any time!"

Liu Minsheng looked at Liu Zhenya and said solemnly.

"Are you alarmist, the Bianzhou base has a strong military strength, sophisticated weapons, and a population of hundreds of thousands. It has too many advantages over here. Do you think you

should put Bao on this small base? You need to know our Liu family. If the investment is diversified, it will be difficult for both sides to consider!"

Liu Zhenya looked at Liu Minsheng and said slowly.

"Grandpa, I don't know if I feel that since the end of the world, our weapons have become more and more useless. There are more and more powerful mutant animals in the outside world. There are too many monsters that our weapons can't match. In response to the mutant crocodile encountered by the Central Continent Provincial Government, our flames did not harm him. How many monsters like this there are, we don't know? Although the Bianzhou base has a strong military force, it can fight against these monsters. How effective is it, and our weapons are not endless. Now the military industry has stopped, the follow-up is weak, and one day it will run out. What will happen then?"

Liu Minsheng did not directly answer Liu Zhenya's question, but said slowly with a solemn expression.

Liu Zhenya's expression is also a bit solemn. He has already understood the dangers of the outside world. He also means this question. People's livelihood is not wrong. The Bianzhou base is now very dangerous and not as safe as thought.

A glint flashed in Liu Minsheng's eyes, looking at Liu Zhenya and then said: "Furthermore, the large population is not a good thing. Now these populations have become the biggest problem of the base. Food cannot solve the problem. The more people, the more dangerous they are. No longer can be a help but a burden, overwhelming the mountain of the base, maybe we don't need monsters to attack us, we will be messed up first!"

Liu Zhenya nodded secretly in his heart. As expected, his grandson did not bear his own teachings. He had his own unique vision and thinking. He had already seen the crisis of the Bianzhou base and the direction of the future apocalypse.

I didn't expect it to be so serious before. It's a blessing to come out this time. I only realized how short-sighted I was when I came out. The outside world was already too dangerous. A mutant golden eagle almost wiped out his well-equipped main force. What if there are more or more powerful mutant animals?

Haven't several bases been destroyed?

If Chu Dingbang didn't say it, he was also in the dark. Everyone thought the base was extremely safe. It turned out that the base was not as unbreakable as they thought, and it was so dangerous.

Chapter 904: Interest money fluctuates popular

"Do you think this sanctuary city is safe and can resist attacks from mutant animals?"

Liu Zhenya suddenly stared at Liu Minsheng and asked in a deep voice.

In fact, in the scenes experienced today, the magical giant city fell from the sky, and the powerful awakening team, he has weighed in his heart, but he now asks Liu Minsheng, just want to examine him again, and see how his proud grandson and himself The idea is different.

"Grandpa! I dare not say that it must be safe here. Is there a completely safe place in this last days?"

Liu Minsheng shook his head with a gloomy face, and was silent for a while. It seemed that some of the low emotions had been calmed. Then he looked up at Liu Zhenya and said: "I don't know why these last days will come, and I don't know when it will end. Mutations, animals become stronger, and it becomes more and more difficult for humans to survive."

"The heat weapons are also gradually unable to adapt to such changes. After knowing the awakening and seeing their powerful power comparable to mutant animals, I gradually have a feeling that the future may depend on these awakened ones. Only they can interact with the mutants. Animals contend!"

Liu Zhenya nodded secretly. He had thought about the question Liu Minsheng wanted to think about, and he also had such an answer in his heart, and believes that many people in the base already feel this way. Chu Dingbang has been collecting information from various biological directions. Experts, he knows this very well. The news from Kyoto, he also knows, the country reveals the importance of the awakened, both open and secret, and the collection of talents is also the research in this area. This signal sends them, If he can't detect it, then he is too useless, and as far as he knows, Chu Dingbang is also secretly supporting research in this area!

"Grandpa, do you know? This base has awakened six people at once a few days ago. It's really unimaginable that there are only a few in our base, and they can awaken in batches!"

Liu Minsheng suddenly looked excited.

"What? Awaken five or six people at once?"

Liu Zhenya, who had been watching her grandson talk and talk all the time, could hardly remain calm, jumped up in shock, stared at Liu Minsheng and asked, "You are sure that you are not mistaken, five or six awakened together. of?".

"It should not be wrong! Several guards are bragging, I heard it secretly, they didn't know I was not asleep!"

Liu Minsheng nodded his head solemnly.

"How can this be?"

Liu Zhenya sat down in the chair with a dull look and murmured.

The shock in his heart is too great!

It was not the first time he had come into contact with the awakening. There were awakened people in the Bianzhou base. The Scarface Plague that stood beside Chu Dingbang before was one of them, and he was also the most terrifying awakened in the Bianzhou base.

He was originally the king of soldiers, the captain of the personal guard of Chu Dingbang. Once awakened, his strength was terrifying. With one enemy a thousand, a powerful punch, a punch of a thousand catties, even tanks and steel armor can deflate, and the speed is fast Coupled with his superb murderous skills, it is simply a terrifying ***** of murder. Many people in the base have seen him fight. At that time, many people vividly remembered the horrible scene, so he was very jealous.

And his Liu family also has one, that is, the guard Zhou Keming next to him. This is the son of his former subordinate. He was entrusted to serve as a guard under his guard, but he did not expect that he was talented, and he was awakened. It's just that. Only the important figures of the Liu family know that many people don't know it, but that's why the entire Bianzhou base has only five or six people on the surface. Even if there are one or two hidden, there will not be many, and it is definitely not as good as this refuge city.

But you have to know how many people are in the Bianzhou base, which is more than 400,000 people, what is the population base?

And there are only a few people in this sanctuary city, not even a fraction of the Bianzhou base, but this base does have so many awakened people, if there is no reason, no one will believe it!

Liu Zhenya would not believe him first. At this time, he realized that besides the mysterious buildings, this awakened man was also hiding important secrets.

At this moment, Liu Zhenya's body was trembling slightly with excitement. He was excited that he had discovered this secret.

I was the first to discover the secret of this base, that is, Kyoto has a strong scientific research force. Until now, I haven't studied it clearly. Chu Dingbang also did research in private, and there was no result.

But this base has such a means. If it can be in his own hands and can develop a large number of awakeners, then his Liu family will become a pivotal existence in the last days, how can he let such an opportunity pass.

"People's livelihood, you have to keep this secret, you can't tell others even when you return to the base, do you know?"

Liu Zhenya suppressed his excitement and watched Liu Minsheng confessed solemnly.

"Grandpa, I know this, I won't talk nonsense!"

Liu Minsheng nodded. He is not a three-year-old. He also judged the major opportunities from this. What Liu Zhenya thought of, he naturally thought of it.

Chapter 905: Cooperation is actually very simple

"Grandpa, what are your plans?"

Liu Minsheng saw the cold light flashing in Liu Zhenya's eyes, he asked quickly.

"Plan! People's livelihood, if our Liu family can master such secrets, they will be stronger. Is this an opportunity?"

Liu Zhenya's eyes flashed with a dangerous light, like a wild wolf seeing its prey.

"No, grandpa! This is absolutely not the case. Wang Dequan's death was caused by greed. We should be alert and not mess around!"

Upon hearing Liu Zhenya's words, Liu Minsheng suddenly stood up and stopped anxiously.

"People's livelihood, did you lose your courage in a single defeat, and scared you? You are still not a descendant of the Liu family. We are born in the Liu family's military for generations. We must be brave and diligent at all times. You can't lose your courage!"

Liu Zhenya shouted with a deep face.

"Grandpa, it's not what you think, I am so sober now, and I have not lost my courage!"

Liu Minsheng held it down and excited, grandpa said in a deep voice.

"Then tell me, what are you worried about, our Liu family doesn't say that the soldiers are strong and the horses are strong, but thousands of troops are still available, and nothing can be done?"

Liu Zhenya's complexion eased a bit, and after slowly sitting down, he lowered his voice.

He also knew that this was not their Liu's house, but that it was someone else's prison. The walls had ears, so he was still afraid of being heard by others.

In fact, he was thinking too much. Di Ping really didn't mind to listen to their speeches. Although Zhi Brain "Zero" would definitely record their conversations, he would not check the content without necessity.

"Grandpa, such a person, such a foundation, we can't grasp, based on my understanding of this Di Ping, this person is very shrewd, not a fool, his strength is very strong, even a combat team of hundreds of people His strength is not weak, and his prestige is too high in this base. The people have already respected him like a god. If we solve it by force, we may not get anything, and we may not be able to take him. This man is too strong, grandpa, how many lives are you going to fill this bottomless pit?"

Liu Minsheng looked at his grandpa and said in a heavy tone.

"Yeah! It's easy to take it off in such a powerful way! When people grow old, they become unclean, and they are blinded by greed!"

Liu Zhenya said with a wry smile with a sad expression.

He Liu Zhenya is not a fool, let alone a lunatic. Just now, his greed arose in his heart, and he really had the idea of taking down the city of refuge, and with his intelligence, he had already thought about several things in his mind. Program.

But when he thought of the terrifying giant city that fell from the sky and the **** terrifying awakener, he knew that he was just wishful thinking, and he couldn't eat such a giant city.

The moment the giant city fell, he had no chance, and he could have such a secret method to attract the people from the heaven to descend the city. Do you know how many cards he still has in his hand?

Or there are some terrible weapons. The five hundred elites of my own dare not use them because they are suppressed by others. The cannons on the top of the city are not for fun. They even have such weapons, so who can guarantee? , They don't have more powerful weapons?

Unless he has the power of the entire Bianzhou Military Region, it is possible to win the Sanctuary City, but by then, how much his Liu family can win, and Chu Dingbang's character must take up the bulk of it. His Liu Zhenya's painstaking effort may not be as good What's the point of cooperating with asylum?

Therefore, Liu Zhenya only took a moment to pinch out his heart's desires. This kind of thought is not extinguished. If it really sprouts, once he does it, the result may not be as terrible as he can think of. .

Yes, my favorite grandson did not disappoint him. Liu Minsheng was qualified. He was almost affected by greed and became dizzy for a while, but he always had a clear mind. This is very rare. He was very pleased.

Chapter 906: General chopsticks are busy eating meat

"Grandpa, although I have been in jail these days, I have not been idle. From the content unintentionally revealed by the guards, I have gradually learned some useful information. This base

is not simple, and Di Ping is not a single person. Simple, everything here is very mysterious. I thought about it for a long time and felt that it is better to reach cooperation with Di Ping. This is beneficial to our Liu family!

Liu Minsheng looked at his grandfather and said solemnly.

"You are so optimistic about this Di Ping? If you know that you were defeated by him and became his prisoner, you don't hate him?"

Liu Zhenya looked at Liu Minsheng with a sense of exploration in his eyes.

"Yes! Grandpa is serious. I don't hate now, I only have fear and awe. You have never fought against him. I don't want to endure the feeling of horror, powerlessness and despair!"

Liu Minsheng's face was a little pale, his eyes flashed with terror, and his voice was very low.

"Although this one is young, he is much stronger than me in terms of strength and scheming. I always feel a sense of powerlessness when talking to him! He doesn't care what you think, he only cares what he wants, so you will always Can't find his mind, can't find his bottom line, can only be taken by him!"

Speaking of this, Liu Minsheng smiled bitterly and shook his head, then looked at Liu Zhenya calmly and said: "So, even though I lost, I don't hate him at all, and I can't hate him at all. Instead, I thank him for letting me understand. a lot of things!"

Liu Zhenya looked at her most beloved and proud grandson, and she was a little emotional for a while.

This has always been high-spirited, whether in the army or at home, he always showed such confidence and pride, but today he can't see these temperaments in him.

It seems to have matured in just a few days, getting rid of the anxiety and frivolity, and adding a sense of weight and steadiness.

After a pause, it seemed that he was calming down. After a while, Liu Minsheng went on to say: "Grandpa, you can think about who Lu Guoliang and Han Zhongguo are. With their knowledge and

ability, they can Under this person, even if Wang Dequan promised to benefit them, they would not be tempted. You must know that their superiors are all in Bianzhou, but the two of them don't have any desire to go to Bianzhou. This has to be strange. , There must be a reason that we don't know?"

After finishing speaking, Liu Minsheng's tone suddenly became heavy, and emphasized the intensity: "If these two people can stay willingly, there must be something more attractive here than the Bianzhou base, and I think the reason must be related to this Di Ping. Related content!"

Liu Zhenya looked at Liu Minsheng quietly, but he had been thinking about it. He had also thought about this issue, but at this time, he suddenly had a hard time making a choice. What troubled him was the question of choice.

The Bianzhou base is also built by the military region. It should be regarded as the strongest force in the country in the Central Continent Province. It has advanced thermal weapons, thousands of tanks, artillery, rockets, and even missiles. It is powerful. Although this miraculous giant city is powerful, in his opinion, it is still inferior to the Bianzhou base. After all, there are too few people, lacking the foundation, and no matter how strong it is, how many mutant animals can it resist attack? ?

And the main problem is that the outside world is extremely dangerous now. He almost confessed that he was on the road when he came out this time, knowing that he can bring a powerful elite force, but now is not before the end of the world, and dozens of kilometers are nothing at all. The transportation is convenient, and mutual communication can be achieved in a short time.

Then if he wants to invest here, he has to tilt the strength of his Liu family to this side.

Not to mention success or failure, even the military commander Chu Dingbang would not agree. The Liu family has a pivotal position in Bianzhou, and he also has responsibilities. The military strength is not unique to his Liu family. But also to serve the Bianzhou base, how could Chu Dingbang let them flow their power and resources to the city of refuge.

Liu Zhenya thought for a moment, his complexion changed, and finally he sighed:

"People's livelihood! Be cautious in everything, our strength is in the Bianzhou base, do you think it makes sense for me to cooperate with this place? The outside world is not just like a map, you just want to come and go, you don't know there is something outside. How dangerous!"

Chapter 907: Start to talk about cooperation

Actually, it's not that Liu Zhenya didn't want to reach such a cooperation. It would definitely be a great benefit for his big Liu family to have a way out, and he came here this time with this idea.

However, his experience along the way made him understand that although such cooperation is very good, it is somewhat unrealistic. How to communicate between the two places is the biggest problem.

The outside world has become so dangerous. You have to know that this time I came out with 500 elite people and tanks and escorts, but that's how it hurts nearly one-third of the sergeants. The world is difficult to walk.

Even if it is to cooperate with the Sanctuary City, then the two places will be inconvenient transportation, materials cannot reach each other, personnel cannot walk between the two places smoothly, and hundreds of people cannot be escorted every time, let alone the consumption. The battle damage alone is unbearable. No matter how strong his Liu family is, how many people can lose.

Once I thought about it carefully, there was a huge risk in it, which made Liu Zhenya hesitate, who was already prepared to make a decision.

Everything must be decided according to the actual situation, otherwise any wrong and unrealistic decision may put the Liu family into a dangerous situation.

Looking at the retreating grandfather, Liu Minsheng's eyes flashed disappointment. The wise and brave Confucian generals he has always admired the most are now really old and a little timid and cautious. The general is like two people.

Liu Minsheng looked at Liu Zhenya in a daze for a while, then secretly shook his head to shake off the distractions in his mind, and then slowly said: "Grandpa! Everything has advantages and disadvantages, as I said earlier, although Bianzhou The district army seems to have advanced weapons and powerful strength, but in fact it is very risky. Hundreds of thousands of people gather together and turn the entire base into a super-powerful attractor, like a lamp in the dark, ten kilometers away. The mutant animals inside will be attracted by it, and the gunfire on the city wall will hardly be interrupted!"

Speaking of this, he unexpectedly felt a sense of boredom in his heart. The boredom at the Bianzhou base is not only for him. The average front-line fighter will feel this way. Although there are not many mutant beasts, they are endless. The guards are very tired, and many people have a sense of precarious urgency in their hearts. They are worried about whether the base can be held in

this situation, so everyone is very depressed, and they are always looking Shen Shen, without any joyful atmosphere.

This time when he came outside, he felt the vastness of the ocean, especially in the days of the sanctuary. He saw that everyone was happy, and there was no endless gunfire outside the base. It was very quiet and peaceful, even in the city. During this period of time in the cell, he had never felt at ease. After the first one or two days of flustering, he actually slept in peace of mind every night, and read a book leisurely during the day.

He already likes this place. There is no sense of depression of the Bianzhou base here. He is so comfortable that he doesn't want to leave, and he knows that many of the sergeants have this idea, and each of them is not as firm as before. , There was a smile on his face in prison, isn't this irony?

Slowly exhaling to relieve the boredom in his heart, Liu Minsheng continued:

"Grandpa! Bianzhou City is now a big furnace, all kinds of emotions, anxiety, fear, helplessness, etc. have been swelling. Many people and soldiers can no longer bear such emotions. Maybe that day will be It exploded with a bang. By then, can our Liu family be alone?"

His words stopped, but Liu Zhenya's body was suddenly shaken. He didn't expect Liu Minsheng to think so much. As a high-level base, he certainly knew this problem!

Chapter 908: Lost in the first encounter

And it is not just the situation mentioned by Liu Minsheng, it is actually more serious than this, that is, the consumption problem.

How could Chu Dingbang, including Liu Zhenya, fail to understand that it is no secret that a large amount of consumption is consumed every day. There is a large inventory of strategic weapons, but they can only be exported. Even a large stock will always be used up in one day.

Regarding the issue of consumption, none of the high-level leaders had no headaches, that is, Liu Zhenya listened to the gunshots from the city wall every day, and never had a good night's sleep. The purpose of sending four dispatch teams this time is to touch To clear the surroundings, one is food, and the other is weapons and equipment.

These areas have some standing weapons depots. If all of these are pulled over, the strength of the base will definitely rise to a big level, temporarily alleviating the shortage of weapons that the base will face.

However, judging from the return of several special submarine teams, it is not very optimistic. There are too many dangers outside. The army is not invincible. There are too many factors that can lead to the destruction of the regiment. The encounter of Zhang Haicheng's team is not satisfactory. Does it explain everything?

Thinking of this, Liu Zhenya's complexion changed, his eyes flickered, and he lowered his head into thought.

And Liu Minsheng didn't bother him, just watched quietly, waiting for his grandfather, the head of the Liu family to speak.

In fact, everything he said today had his own thinking, but most of them were deliberately instilled by Di Ping.

With systematic information and many outing experiences, Di Pingshen knew what was going on in the last days. The second time he talked with Liu Minsheng was not about redemption, but about cooperation. He not only compared the changes in the outside world with Danger and Liu Minsheng revealed that he even told Liu Minsheng about the future conjecture as a fact, just to deter Liu Minsheng to reach cooperation with him.

Although the asylum city has a system, recruits heroes, and has a large number of awakened people, the asylum city has a too thin foundation. What kind of foundation is talent, or it can be said to be human.

Just a small smart watch stumped him. There are not many scientific and technological talents in the base. Even if there is a scientific and technological database, it cannot become a technological product.

This system is very powerful and contains a lot of things, but even if there are few technological things, it can be said that there are basically none.

And if he wants a watch, he has to have researchers to learn technological knowledge and turn it into productivity.

Furthermore, with a larger population, the base will be larger. He has a lot of ideas to implement. Originally, he only wanted to strengthen his strength to save his parents, and then his concept of

survival in the end times is changing step by step. He needs the function of the system. Give full play to his true value and help more humans.

With his ideals and understanding of the end times, he easily hit Liu Minsheng's deepest heart. Once the two met, Liu Minsheng decided to cooperate with Di Ping and convince Liu Jianeng to form an alliance with Di Ping and solve the sanctuary. crisis.

Of course, Liu Minsheng is no longer a young and shallow elementary school student. He also has a selfish mind. The real reason why he agreed to cooperate with Di Ping was because he wanted to find a support for the Liu family.

After seeing Di Ping's powerful and mysterious power, even tanks can be easily destroyed. He suddenly felt that this was the ultimate hope of mankind. It turned out that mankind can be so powerful that he realized that there is only such a powerful force. Existence can lead mankind out of the predicament, so he bet the treasure on Di Ping.

Most importantly, it can be said that it overwhelmed the last trace of resistance in Liu Minsheng's heart. The reason for cooperating with Di Ping sincerely was never expected.

That's how amazing Di Ping can create the awakened!

Although Di Ping had never revealed it to him, he already knew that when five people awakened once, he still couldn't guess that there was a problem, so he was too stupid.

This made Liu Minsheng very excited. He couldn't help wondering if he cooperated with Di Ping, could he also get a chance to awaken?

Chapter 909: Three birds with one stone

Of course, he had already talked to Liu Zhenya about this, and if Liu Zhenya could think of the huge opportunities in this, he didn't know it, and he was not going to talk about it.

"Minsheng, you are really mature, better than grandpa thought!"

Liu Zhenya looked at Liu Minsheng with a very clear appreciation in his eyes. He was very satisfied. This grandson was as visionary and aggressive as when he was young.

"Perhaps it is through life and death to know what maturity is!"

Liu Minsheng smiled bitterly.

Indeed, when he was shot, he thought he was going to die, and then he bleeds too much, his eyes are blurred and ethereal, making him think he is going to die.

But at that moment, he turned out to be very calm. In his mind, he passed the whole life like a movie, making him look down on his life, which has sour, sweet, bitter, and spicy tastes. There is joy. There are worries, laughter and cry, regrets and reluctance.

Until finally he became unconscious and finally fainted, he thought his life was over.

As a result, he was rescued from ***** to heaven again. Such a jumping scene shocked him and was excited at the same time. It was a rebirth. It was undoubtedly the moment before his death, he seemed to have experienced a whole life again, so much he saw I have cleared myself up and become more mature.

"Minsheng how do you want to cooperate, do you have any ideas?"

Liu Zhenya narrowed his eyes and stared at Liu Minsheng for a while before nodding slightly.

He already feels that his grandson has really changed. Although Liu Minsheng is better than many of his peers, his youth pattern is still much worse.

Growing up in a small army compound, Liu's family has a great career and is very powerful in the army, so Liu Minsheng enjoys a life that many people can't enjoy in a lifetime. He has a sense of superiority, but he has always performed relatively well. He joined the army at the age of 18. The most terrifying special force in the army at the age of 20 experienced cruel training, and became a full-time battalion commander at the age of 25. Among them, Liu's role was used, but he himself was not bad. These years have been smooth sailing, so he is also proud and disobedient. .

But when I saw him again today, he no longer had the ostentatious aura he had before, and he suddenly became more restrained and humble.

This kind of transformation must have been achieved through major changes. The idea he felt from his firm eyes was not decided randomly, but was already deemed to be unchangeable.

He was also tempted. The problem Liu Minsheng said did exist. His Liu family needed to find a way out. The Bianzhou base was indeed in danger as he said, so his attitude became loose.

"Grandpa! You agree?"

Liu Minsheng asked in surprise.

He originally thought that he would have to spend more effort to convince him that his stubborn grandfather had a very stubborn character, but he didn't expect Liu Zhenya to loosen it up just by simply saying it. It seemed that the base agreed with his idea, which made him a little happy. For a while, I didn't believe it was true.

Liu Zhenya didn't care about Liu Minsheng's surprise, but nodded with a smile: "Minsheng, talk about your thoughts, the city of refuge is waiting for the result of our meeting!"

"Cooperation is easy!"

After the initial surprise, Liu Minsheng calmed down. He showed a mysterious smile and looked at Liu Zhenya and said, "We only need to do two things for him, and we can get unexpected gains!"

"What can I get by doing those two things?"

Liu Zhenya asked in surprise.

He had been prepared to accept Di Ping's unusually strict conditions in exchange for Liu Minsheng and the captured sergeant, but from Liu Minsheng's tone, he felt that something seemed wrong.

Chapter 910: Talent is still important in the last days

In the evening, the castle held a small dinner party to welcome Liu Zhenya's arrival. Not many people participated, only Cheng Chao, Han Zhongguo, Lu Guoliang and Liu Bingyu.

The Sanctuary City itself had a conflict with the Bianzhou base, and the two sides are still hostile. Although Liu Zhenya's trip is a negotiation, he doesn't know what it is about, and no one knows what it is about.

After all, there were casualties before. In order not to cause dissatisfaction among the base personnel, the so-called dinner party was to entertain Liu Zhenya, respecting his status and status as the second commander of the military region.

Liu Minsheng was also released from prison. Liu Zhenya is here. There is no need to detain him. Di Ping has actually reached an agreement with Liu Minsheng before. The plan can be implemented only after the Liu family agrees.

However, although the dinner party is simple, it is also complete. Now the base supplies are still abundant, and the stock of various grains and meat is not small. Although it is not as good as before the end of the world, it is nothing to simply make a decent table of wine and food. .

A dozen dishes were placed on the table. When Liu Zhenya saw this table of dishes, his expression was extremely rich. Such a luxury was even he had never experienced after the end of the military area.

The Bianzhou Military Region is under military control, and all materials are uniformly deployed. Even though Liu Zhenya has privileges, he can't distribute much. It's just a bit more abundant than the average person, but he can only get enough food.

Liu Minsheng had eaten twice before, so he was not surprised. He knew that even the inspectors of the lowest-ranking construction team in the sanctuary city ate better than they ate at the Bianzhou base.

Everyone sat in courteously for a while. Di Ping did not give up the main seat to Liu Zhenya, but instead sat on the main seat as the city lord. This action made Liu Zhenya's eyes narrowed, and his heart was not angry, but felt that this city lord Di Dao is very domineering, and it is really rare for young people to have such domineering.

However, this action of Di Ping made Lu Guoliang, Han Zhongguo, and Cheng Chao Liu Bingyu show satisfaction.

According to reason, the guests should be allowed to sit in the main seat, but the two sides are not equivalent to ordinary people at this time. Liu Zhenya is here to negotiate, and Di Ping, as the master, certainly cannot lose his position.

This was just a small episode. Everyone sat down and exchanged simple greetings. Everyone started to eat wine. Liu Zhenya just tasted it and didn't drink too much. Everyone was not thinking about wine, and no one persuaded him to drink.

For example, Lu Guoliang and Liu Zhenya knew each other, and looked for some topics to chat from time to time, and Liu Zhenya was interested in exploring some things, and he was also talkative, and it was a good time to have a meal. If Di Ping didn't talk too little, he might be more enthusiastic. Now Di Ping More and more indifferent.

Liu Zhenya didn't drink much wine, but he didn't eat less. The dishes on this table are simple but extraordinary. Among them, there are four kinds of mutated meat, including mutated beef, mutated mutton, mutated pork, and mutated poultry. The taste is extraordinary every plate, and he is straightforward and refreshing.

At the Bianzhou base, after eating so much mutated meat, the military department allocated some, but only a tooth sacrifice, and then I can't bear to eat it anymore. There are so many people in the military area, and a little mutated meat will come out of the base instantly. After the division, this is a scarce product. Although a lot of people were killed outside the city, whoever dared to go out of the city to collect them, most of them were eaten by mutant beasts at night. Although they were high-ranking military officials, they didn't eat much.

He didn't have much taste at first, but when he moved his chopsticks, he couldn't stop and he forgot his purpose for a while, and he didn't care about chatting with a few people.

That is to say, I exchanged greetings with Di Ping and chatted from time to time, and then I focused on solving the dishes in front of me.

This made Liu Minsheng look a little confused. My grandfather was a little gaffe today. I wanted to remind him, but he couldn't speak at this dinner table. He could only shook his head and rolled his eyes.
