

Doomsday 911

Chapter 911: Good conditions for fishing Jinao

"Oh!"

Liu Zhenya slapped her with no image of a general, patted her courage, and said contentedly: "City Lord Di, I made you laugh. Soldiers are used to rushing to eat! I have become a habit, but Thank you for this. I haven't had such a comfortable meal in a long time!"

"General Liu is satisfied!"

Di Ping smiled slightly.

"Okay! I'm full of wine and rice!"

Liu Zhenya suddenly pushed the table and chopsticks, took out a paper towel, wiped his mouth, then looked at Di Ping and said, "City Lord Di, I wonder if we can talk?"

Han Zhongguo and the others also stopped their movements and looked at Liu Zhenya strangely, not knowing what he should do next.

"can!"

Di Ping nodded very simply. He had eaten well and was waiting for Liu Zhenya.

He is the most annoying of this kind of pick-up and delivery, and he doesn't like intrigue. He might as well go practice gong when he has this time, so he wanted to hurry up and finish the talk with Liu Zhenya a long time ago.

There was originally a reception room upstairs, Di Ping did not invite Liu Zhenya to the main tower, and started today's meeting directly in the reception room on the third floor. All the people at the dinner table were present.

"City Lord Di, let's get straight to the point! What conditions are needed to redeem our sergeants?"

Liu Zhenya took a sip of the tea in her hand, then gently placed it on the table, looking up at Di Ping and talking.

His directness made everyone stunned, even Di Ping was a little surprised. This Liu Zhenya didn't say anything, and just opened the conditions by himself.

How to apply this condition? It's not appropriate to open it too big, and it's even more inappropriate to open it less. Liu Zhenya took Di Ping with a single hand.

However, Di Ping looked at Liu Minsheng. You must know that he has reached an agreement with Liu Minsheng. Liu Zhenya met with him. You don't know if you don't know. But at this time, he asked so. The implications are worthwhile. Thought about it.

Liu Minsheng lowered his head and looked at the ground, which made people invisible to his face.

Di Ping took a deep look at the two of them, then smiled slightly, "Look at what General Liu thinks they are worth! How much are you willing to pay?"

When Liu Zhenya was asked by Di Ping like this, he was taken aback. Di Ping threw the problem over again. He realized that this young man was not easy to deal with.

Now it's hard for me to ride a tiger. How much do you think these sergeants are worth? Of course, it is in the best interest of the military region to say that they are not worth. But can he say that?

If the sergeant knew that this was what Liu Zhenya said, it must be a shock, not to mention turning his face and slashing him with a knife, but it is for sure that the Bianzhou Military Region is so powerful, it is not them, but these ordinary soldiers. Once he lost the army and wanted to take it back, it would be difficult. Liu Zhenya would not do such a low-grade thing.

For a while, the air solidified, and Han Zhongguo and Lu Guoliang also put their eyes on Liu Zhenya, wanting to see how he would answer.

Originally, they were worried that Di Ping would fall into Liu Zhenya's trap, but they didn't expect that the city lord would calm down the past lightly.

Liu Zhenya suddenly shook a bitter smile, then closed his smile, and looked at Di Ping solemnly: "City Lord Di, we don't have to test each other's base prices anymore. As long as you don't want too much, I will do my best!"

Di Ping's pupils just shrank when he heard that Liu Zhenya refused to mention the agreement with Liu Minsheng. It seemed that he was not very satisfied with the previous conditions and wanted to overturn it.

Chapter 912: The cooperation agreement has content

"Good! Thank you General Liu for his frankness!"

The cold light flashed in Di Ping's eyes, and then disappeared again. He smiled slightly, then turned his gaze to Liu Bingyu and said, "Bingyu, let General Liu see things!"

"It's the city owner!"

Liu Bingyu nodded, took out a piece of paper, put it on the coffee table and gently pushed it to Liu Zhenya, smiling pretty:

"General Liu, please have a look!"

Liu Zhenya glanced at Di Ping and picked up the document from the table. The document was a page. It was very simple. He looked at ten lines and his face gradually became gloomy.

He suddenly raised his head, staring at Di Ping with ugly eyes:

"City Lord Di, these conditions are too harsh, right?"

Di Ping smiled calmly: "Does General Liu think it's not worth it?"

Liu Zhenya's face was still gloomy. He looked at Di Ping and shook his head and said, "I believe that the Bianzhou Military Region will not agree to such a condition, and I dare not agree to it. If I agree to such a condition, I cannot go back. Military area confessed!"

Di Ping calmly looked at Liu Zhenya and said, "General Liu, you haven't realized how generous the terms I have given! If General Liu feels unacceptable, it's okay. It's easy. I don't mention any

conditions for these sergeants. Take it away directly, and I don't want any compensation or apology from the Bianzhou Military Region. As long as Liu Si Ling, on behalf of the Military Region, agrees to no longer be an enemy of our refuge city, as long as we agree to this article, the old general can take these people away directly tomorrow. Second words!" He raised his eyes and smiled at Liu Minsheng, who was a little embarrassed standing behind Liu Zhenya, "Of course there is no so-called cooperation between us! I don't know if General Liu agrees!"

"This....."

Liu Zhenya hesitated, his face changed. He didn't expect that Di Ping was so difficult and gave him a big general. He just wanted to earn a greater benefit, but this Di Ping turned the table directly. After talking, this person is really as Liu Minsheng said, he never cares about what you want, he doesn't want to know what you want, he only knows what he wants, what you can give, it almost choked his veins, let him Immobile.

Such a person is the most difficult to deal with, because you never know what his bottom line is, it is elusive.

"grandfather!"

Liu Minsheng was a little anxious behind him. Seeing Liu Zhenya's silence, he whispered anxiously.

Liu Zhenya looked back at Liu Minsheng. Liu Minsheng had to go back and dare not say anything. He was silent for a moment, then raised his head and looked at Di Ping's sullen voice: "City Lord Di, can I consider this matter? It's too big!"

He knew that he had fallen short, and now he was talking about it, except for Tan Beng, otherwise he could only agree, he could only retreat first.

Di Ping smiled indifferently: "Yes, I look forward to your answer at any time!"

"it is good!"

Liu Zhenya stood up with a heavy expression.

"City Lord Di, thank you again for his kind money today. I am getting old after all, and I am very tired all the way. Please allow me to retire and rest!"

Liu Zhenya shook hands with Di Ping with a heavy smile.

"Old General Liu is polite!"

Di Ping shook hands with him, then looked at Liu Bingyu and said, "Bingyu, you arrange for someone to send General Liu to rest!"

"It's the city owner!"

Liu Bingyu nodded and went out to arrange personnel.

Liu Zhenya stretched out his hand to Di Ping again: "City Lord Di, I still hope to also consider whether the conditions can be set aside, so that it will be more beneficial to cooperate with us!"

Di Ping nodded slightly and said, "Okay, General Liu, take a good rest in the evening, I will consider it!"

"Then goodbye!"

After Liu Zhenya let go of Di Ping, he turned and left, his steps a little heavy.

Chapter 913: Inquiry into the Secret of Awakening

Everyone was watching as they stood in the corridor and watched Liu Zhenya's grandson, led by the personnel arranged by Liu Bingyu, gradually moving away. Only then did they turn back to the room.

"City Lord, I believe Liu Minsheng must have talked to him about the conditions of cooperation. Now it seems that Liu Zhenya wants to overthrow it?"

Han Zhongguo couldn't help asking first.

"This is normal. He wants to achieve the maximum benefit, and he is not like Liu Minsheng who really realizes how good the conditions we offer for the asylum city, but once he knows it, he believes he will agree!"

"Yes, it's really cheap for them, this old boy is not satisfied yet!"

Han Zhongguo pouted his lips.

"I have dealt with this Liu Zhenya. This person is known as a Confucian general and he likes to use wisdom. Whenever he wants to maximize the benefits, we have suffered a lot when we cooperated with the military area. This person is very Shrewd and difficult to entangle, I was shocked by the city lord today, and I was afraid that he would go back and think about it all night, and then come up with any strategy, then it will be difficult to deal with!

Lu Guoliang said with a deep face.

"Whether he is difficult or not, let him take a look at it for two days. We are not in a hurry. As long as he does not leave, the Bianzhou Military Region will never go to war with us, and what we lack most now is time. Just give us time. The Zhou Military Region will not be afraid, and I will not give him this condition by then. I believe there will be a lot of people in the Bianzhou Military Region willing to cooperate with us!"

Di Ping smiled coldly.

"Yes, we are not in a hurry. As long as he is here, the Bianzhou Military Region does not dare to go to war at will, but the city lord sees it clearly!"

Han Zhongguo said with a smile on his face.

"However, the city lord really wants to put these soldiers back? These are all soldiers of a hundred battles. If we add to our team, our strength will be greatly increased!"

Cheng Chao was a little bit reluctant.

Di Ping said: "These soldiers are very difficult for us to use, but we are still unable to bring them under. These soldiers are very determined. With the banner of the Bianzhou Military Region, it is

difficult for them to be shaken, so we keep them now. There is no use at all. I have to take care of food and shelter every day. This is all consumption. It is better to let them go back!"

"This is the same way, but is it too cheap for them to just let it go?"

Cheng Chao still looked at Di Pingdao unwillingly.

"Old man, I think you are confused, these people are useless to keep, and they are worth sending back!"

Lu Guoliang suddenly smiled mysteriously.

"What do you say?"

Cheng Chao was taken aback when he heard Lu Guoliang's words, but looking at the smile on Lu Guoliang's face, after a little thought, he understood. Although Cheng Chao has some military integrity, as a businessman he is also shrewd. It's like a ghost. He can understand the joints as soon as he thinks about it. When he slapped his thighs, he suddenly realized: "City Lord, I want to understand, these people are more beneficial than we keep; first, these people are here, we never Abuse, eat and drink, and we will definitely say that we are good when we go back. It has improved our image invisibly. Second, these people eat and sleep well every day. I heard about Bianzhou City. There are soldiers who can only eat two wowotou every day. When they go back to see if they want this place, as long as the benefits are announced, many people will yearn for it. Third, we will put these people back without hurting them. People know that we are not going to fight against the Bianzhou base, and have no intention of hurting these sergeants. Then there is no excuse or reason for the Bianzhou base to use troops against us." Speaking of this, Cheng Chao smiled and stretched out his big finger to Di Ping. He praised: "City Lord, my service is complete, you are three birds with one stone! High! It is really high!"

"Haha!"

Several people in the room burst into laughter, even Di Ping shook his head and smiled helplessly at Cheng Chao.

These people are really not simple. They actually understood what they thought in a moment. They were all shrewd people, which made him a little embarrassed to be praised by Cheng Chao.

Chapter 914: Ambition always follows the trend

Cheng Chao said it would not be an exaggeration to kill three birds with one stone. Di Ping did have these ideas in his mind.

Since these soldiers were arrested, Di Ping hasn't thought about it. They are all good soldiers, so they have never been tortured. They are delicious, delicious, and entertained. Of course, there are some information that is always unclear to them.

The words Liu Minsheng heard were deliberately disclosed to him. Otherwise, how could these guards deliberately go to prison and brag and disclose them to them?

These soldiers are relatively simple, they can't think of too many things, so they are not very attractive. These people have been very resistant to the sanctuary. After so long, Di Ping knew that it was difficult to take these soldiers into his own use, so he was not there. These people are tempted.

But it's not useless, it's just that these people are gradually yearning for the sanctuary, and yearning for life here, this is a good phenomenon.

For these soldiers, Di Ping has never regarded these people as conditions. These people can't move. Any action may arouse the contradiction in Bianfazhou base. Once the Bianzhou base is desperate, when the army is pressing the border, the two sides will fight, although they Not afraid, but the base will inevitably be destroyed at that time, which is not what he wants to see.

The military's methods are not only tanks, but also artillery, rockets and other big killers. If the power is sufficient and the missiles can be used, then Di Ping will not dare to mess around. A missile will come to the base to play.

Therefore, he will not match up with the Bianzhou base before it is absolutely necessary. Then these sergeants will be useless to keep them. It is also good to give Liu Jia a personal affection. Always give Liu Zhenya a good impression, right?

But he won't let it go in vain. The reason why the food is delicious and the safety of the base is praised to the sky is to let these soldiers know and write it down so that it will be transmitted to the Bianzhou base.

One is for deterrence and the other is for temptation.

The awe only wanted to make the Bianzhou army dare not start the war lightly. Once the war started, it was not good for both sides. In the harsh environment of the apocalypse, the main enemy of mankind is the mutant animal, and it has never been man himself.

Now it is difficult to protect himself. If he has the power to attack others, he believes that the Bianzhou military will not take big risks and risk attacking the city of asylum unless it really angers the other party.

The temptation is even simpler. What is his biggest condition for Liu Zhenya this time?

It is to need people. Simply speaking, the system is a complete cultivation system. Forging, medicine, and runes do not require a large number of people to participate in it to slowly form a system, and he is short of people now.

Now the workshop is just a decoration. It only has its own blacksmith and two knives. Up to now, even a piece of high-purity iron spirit has not been able to be produced, let alone a weapon, and the pharmacist and the rune are now Not yet resumed.

Therefore, he needs a large number of people to participate in, and he has to admit that the speed and transformation power of some high-tech talents are higher than ordinary people.

Therefore, Di Ping needs a lot of such talents, expands his strength, and makes use of these system buildings as much as possible, otherwise he will be blind to such a powerful system.

In terms of system functions, Di Ping also thought about it!

This system is not just to make yourself strong, it is also a system of inheritance of the cultivation system. Such a complicated and huge system cannot be played by one or two people. He needs more people and the power of a group of people. .

Chapter 915: Improve talent and take elixir

Di Ping's calculations are very good. He arranged some base information to be super deliberately in order to attract Liu Minsheng and attack the Liu family of the Bianzhou Military Region.

Liu Minsheng was eager to get useful information in the sanctuary. The information deliberately revealed by the guards was exactly what he wanted, otherwise he would not agree to Di Ping's conditions, let alone pass the content to Liu Zhenya, and neither would Liu Zhenya. Now, Liu

Zhenya is not a young man like Liu Minsheng, but he is shrewd and ghost-like, with no substance. It is not easy to impress him.

People in this class, who are not human beings, will weigh the pros and cons the most. There is one who can be fooled casually, there is no real thing, and you don't have to think about getting what you want.

What is the use of coercing Liu Minsheng with the lives of these sergeants?

He really wanted to impress Liu Minsheng and Liu Zhenya, the head of the Liu family. Although Liu Zhenya looked ugly when he saw the content on the paper, Di Ping saw a trace of excitement in his eyes, and he knew that Liu Zhenya was moved.

As the chief of staff of the military region, of course he still has to safeguard the interests of the military region. It is impossible to agree to these conditions as soon as he comes up. He only has to discuss with Chu Dingbang before making a decision, and he has not fully realized the benefits Di Ping has given. The value of what Liu Minsheng said has not been confirmed after all. He needs time to observe and understand. This is where he is shrewd, and he will not decide such big things arbitrarily.

Furthermore, he also wanted to earn the most benefit in it, so he deliberately ignored the previous agreement between Liu Minsheng and Di Ping and re-negotiations with Di Ping. All of this is a routine, and Di Ping certainly does not understand.

"City Lord, what conditions did you offer that Liu Zhenya would oppose this?"

Everyone stopped laughing, but Cheng Chao looked at Di Pingdao with a curious look.

Di Ping glanced at him, and then looked at Han Zhongguo and Lu Guoliang with an inquiring look. He smiled slightly and motioned to Liu Bingyu who was next to him: "Bingyu, show them the agreement just now!"

"Look at it!"

Liu Bingyu opened the folder again and handed the piece of paper to the nearest Han Zhongguo.

Han Zhongguo took the paper from Liu Bingyu with a look of confusion, and then hurriedly unfolded it. Cheng Chao and Lu Guoliang hurriedly looked over their heads.

The three of them had almost one glance and ten lines. After reading them, their faces were also surprised, their expressions changed in shock, and they all raised their heads to look at Di Ping.

Han Zhongguo showed a weird expression and said, "City Lord, no wonder Liu Zhenya dare not agree? This condition is indeed enough for him to drink a pot!"

"If he can't even do this, we don't need to cooperate with him. We have to be prepared for as much as we want!"

Lu Guoliang is indeed a look of contempt.

"Old Cheng's worry is not unreasonable. Doesn't Liu Zhenya dare to agree?"

Han Zhongguo shook his head solemnly.

"Director Han, after you didn't see it, the return from the city lord was too generous. I believe that if Liu Zhenya realizes the true value of this benefit, he will rush to agree!"

Cheng Chao shook his head and said.

Lu Guoliang also sighed: "Yes! With such a generous condition, Liu Zhenya has reason to disagree!"

"It doesn't matter whether it's rich or not, it's just a matter of value or not. If you want others to work for you, you have to make people eat first. Otherwise, who wants to help you?"

Di Ping shrugged and said calmly.

Chapter 916: Forged real gold in flames

At this time, Liu Zhenya and Liu Minsheng were staying in a large room on the third floor. They sat at the tea table, drinking tea and chatting quietly.

Liu Zhenya looked at everything in this room with some curiosity. This is a three-bedroom house with simple decoration and quaint style. This will not surprise him. Before the end of the world, this room is basically water. What surprised him most is that there is Electricity.

You must know that even at the Bianzhou base, although there is electricity, only particularly important departments or machinery can use electricity. Even Liu Zhenya is not eligible to enjoy electricity.

A month has passed since the end of the world. All the power supply machines stopped early. The Bianzhou base still relied on a backup generator set to generate electricity, but the problem was that the fuel consumption was too great, and the base could not supply all of it, even the city walls. There are only a few searchlights on it, let alone for life consumption.

He hadn't seen such a bright electric light for a long time, and he felt a kind of illusion.

"This is such a great place!"

Liu Zhenya looked at the bright table lamp in a daze, and suddenly sighed.

"Yeah! This is a good place. Okay, I already like it!"

Liu Minsheng also murmured sternly.

"Yes! Who doesn't like it!"

Liu Zhenya said with emotion.

But then his face became gloomy again, and his first confrontation with Di Pinghe today was passive everywhere, and he did not achieve the result he wanted.

The agreement between Liu Minsheng and Di Ping is very simple. Their Liu family only needs to do two things. Liu Minsheng has already told Liu Zhenya everything in prison.

First, the Liu family wanted to block the pressure of the Bianzhou base for the refuge city and prevent the military region from using troops to the refuge city; second, to send all kinds of talents

to the refuge city, the first batch of 100 scientific and technological talents would be used to replace the hundred soldiers.

It was this talent problem that made Liu Zhenya embarrassed. It was indeed a difficult problem to get a hundred people out of the base to replace these sergeants. It would cause an uproar if such a thing was said. Ensure that Chu Dingbang will see this article will turn his face.

Compared with this article, all the weapons and equipment that Di Ping had previously asked for was nothing.

Di Ping's promise is also very simple, there are only two.

The first, after the first batch of talents arrive, Di Ping will let Liu Minsheng join the city guards to practice the exercises. Regarding the role of exercises, the agreement states that it is to stimulate the chance of awakening.

This is what made Liu Zhenya's heart fascinated. The refuge city he discussed with Liu Minsheng can stimulate awakening in large quantities. From this point, it has confirmed Liu Minsheng's previous guess that the refuge city does indeed master the method of awakening.

This reminded Liu Minsheng that hundreds of people in front of the castle practice some strange martial arts every day. It turned out that this was the role, and it made him a little regretful that he had learned to learn before.

And now, Di Ping is open to Liu Minsheng to practice the exercises, how can this not make the two of them excited, once awakened, the strength of the Liu family will rise to a higher level.

Both of them have come out and have seen the dangers of the outside world. Both grandparents and grandsons have felt the changes in this world. The role of the awakened in the future will be greater and greater. The ability of the Liu family to have such an awakened has an immeasurable role in the future. So he wanted to agree to just one item, but the second one gave him a headache.

Di Ping's second condition is that for every 100 people sent to the city of refuge, the city of refuge will open a place for him to enter the city guard in the Liu family.

Now he is completely tempted. If ten people join the city guard to learn the exercises, three or five of them will be awakened. By that time, his Liu family will be stronger and he need not be afraid of many forces.

Needless to say, as long as two of his Liu family can awaken, he can break his wrists with Chu Dingbang. It is not that Chu Dingbang has a terrifying awakener in his hands, Scarface Plague God, dare to ignore everyone. .

Therefore, Di Ping mentioned these two things, he couldn't refuse at all. Liu Zhenya had to swallow such a bait even if he had indigestion. He also resisted his impulse to negotiate with Di Ping.

He wants to earn more. One hundred people are too many. He can't guarantee that he can get so many people. And one quota is too small. He only gets a few more places. He wants to win from Di Ping. To get more benefits, this is his main purpose, and it depends on who can calm down.

Chapter 917: A moment of ***** and heaven

In fact, if it were placed before, Di Ping would really not do this. The preciousness of the exercise technique is beyond doubt, but after experiencing the disappearance of his parents, he has seen scenes of human deaths and discovered that mutant beasts are becoming stronger step by step. The living space of mankind is getting smaller and smaller and more difficult, and he began to change his mentality.

If the inheritance of the system only benefits him, it will definitely be the greatest waste of the system. The full use of the functions of the system requires the participation of all human beings in order to bring out the true value of the inheritance of the system.

Spread some exercises consciously to allow more people to participate in the cultivation. In this way, more and more people will be awakened, and the strength of mankind will increase to resist the worse and worse end times.

Of course, his Di Ping is not stupid and sweet, of course he knows the preciousness of the exercises, so he will pass some of the exercises of the base and it has no effect. Some powerful exercises, he will not pass it out at will.

For example, his Tiger Spirit Art, he will not easily pass it, it will only pass it to the powers close to him or his subordinates. It is a blessing for the outsiders to be able to pass the violent ape fighting spirit, and I didn't let Owen and the others. It's his kindness to take out this basic exercise.

However, to use these things to cooperate with Liu Zhenya and tie it to the chariot of the Sanctuary City, then he will have to contribute to the Sanctuary City. You must know that the Sanctuary City has a big killer, that is, the professional system. What is the use of exercises? You have to learn skills so that you can use your strength.

Of course, Liu Zhenya didn't know Di Ping's plan, but he knew that only the current Bianzhou base still had a deterrent effect on the sanctuary. Di Ping also needed him to relieve the pressure on the Bianzhou base, so he dared to press Di Ping. In exchange for the greatest benefit.

"Grandpa, I just don't understand a little bit!"

Liu Minsheng walked to the coffee table and lifted the pot on the table to fill Liu Zhenya's cup with water, with doubts on his face.

Liu Zhenya frowned and said, "What don't you understand?"

Liu Minsheng gently put down the teapot and looked at Liu Zhenya and said, "Grandpa, what do you say this City Lord Di wants all kinds of talents for? Is he doing any research?"

Liu Zhenya also condensed her eyebrows, pondering for a moment and said: "It's hard to say now, but I feel that this person's picture is not small!"

"Yeah! He must have some secrets that no one knows. These people must be of great use. I have talked with him twice, but I have not been able to figure out his plan. There is always a mist around him. , No matter what he is thinking!"

Liu Minsheng frowned in distress.

"Forget it, it's normal to not see through, and I can't see through him either!"

Liu Zhenya also shook his head with a wry smile, and then watched Liu Minsheng's low voice and solemnly said: "Minsheng, you must be careful here, don't mess with anything, your biggest task is to find out the secret of awakening in the sanctuary. , I have a feeling that this secret of human awakening may have a great effect not only on our Liu family, but also on the country, and on the entire mankind. You must explore it carefully!"

Liu Minsheng frowned and asked:

"Grandpa, didn't Di City Lord say that it was the reason for the practice? What else should I investigate?"

"You stupid boy! What do they say is true?"

Liu Zhenya knocked Liu Minsheng's head in an angry manner, and Liu Minsheng bared his teeth in pain, and then continued in a low voice: "Di Ping shouldn't use this to lie. This technique is definitely useful for awakening, but I believe it is definitely not. All reasons, so you are investigating this secret while you are in the base!

After that, Liu Zhenya looked serious and solemnly confessed: "Remember, we must master all the contents of Awakening. The future of our Liu family depends on you!"

"Okay! Grandpa, don't worry!"

Liu Minsheng also became serious, and looked at Liu Zhenya and nodded heavily.

Chapter 918: I don't want to report loyalty

Di Ping returned to the main tower of the city. After washing up, he once again sat on the wicker chair in front of the French window and looked at the night sky outside. He already liked the feeling of sitting under the stars.

The white marble-like city wall is also very eye-catching in the night, with a layer of mist under the moonlight, which exudes a faint light like a luminous jade. Although it is a few hundred meters away, the outline is still clear.

The city wall is completed, and the first-level city defense is opened. The defense of the base is up to a higher level. Even without these advanced city defense weapons, the huge 20-meter-high city wall is also a lot of peace of mind. It is not at all like before. Imitation city.

This made Di Ping, who had always been in a nervous state of mind, calmer. He lost his previous sense of urgency, especially the arrival of Liu Zhenya. He knew that solving the hostility of the giant Bianzhou base would not be a big problem, although Liu Zhenya has not yet agreed. This is also going to happen sooner or later, otherwise Liu Zhenya won't come, thinking of this again made him feel lighter.

Although the system is powerful, he still does not want to directly confront the state violent machinery such as the Bianzhou Military Region before he has completely transformed this advantage. The development of Bianzhou Military Region is unfavorable. If the Bianzhou Military Region is cruel and insists on solving him, even if the Sanctuary City wins, the base may also be beaten half-handed, so he is not willing to smash with these forces as a last resort.

However, he has strong confidence. As the number of awakened bases continues to increase, it will be when the Sanctuary City truly rises. He even has a kind of ambition. The future city guards of Sanctuary City will be composed of awakened people. Will become the safest place on earth.

He believes that there is a system, and he will build the base into such a place one day.

Ambition does not arise from the beginning. He always develops and changes slowly, just like Cao Cao didn't think of being able to dominate the world at the beginning, but only to protect himself, but in the future hegemony. Step by step, he has reached the road of dominance, but it is said that he has been pushed forward with the increased strength.

Just like Di Ping, his ambitions are still very hazy. At first, he just wanted to survive. He wanted to become stronger to save his parents and create a safe place for his parents, relatives and friends. As his strength grew, his thoughts gradually changed a lot. , The expert helps the world, he doesn't feel that way now.

Di Ping watched the night for a long while, withdrew his gaze from the window, and took out the pitch-black fruit from his backpack.

At this time, he really saw the fruit. It was a fruit the size of a red date. The fruit was covered with fine scales, some resembling snake scales, thin and dense. If there is a phobia of density. , It will definitely be uncomfortable.

From now on, I realized that this "Diluo fruit" is not really pitch black, but densely covered with thin red threads around the scales, as if it was wrapped, holding it in the hand as if it were alive. , Yinhong's silk seems to have something swimming, in the dark night, these Yinhong shone with a hazy layer of red light, looking extremely mysterious.

Looking at the fruit, he was a little bit troubled, he didn't know how to use it.

Swallow it directly?

But looking at the dark scale armor, the energy surging in the blood-red silk thread, he really didn't dare to swallow the horrible fruit no matter how he looked at it.

"System, can this fruit be eaten directly?"

Di Ping asked the system with anticipation.

"Di...It is recommended to refine into a potion, the effect is better, if the host is not in a hurry, you can swallow it directly!"

To Di Ping's surprise, the system actually answered him.

But then his face collapsed. If he could refine the medicine, it seemed that he would have to swallow it raw. Looking down at the terrifying "Diluo Fruit", he swallowed with difficulty.

Chapter 919: Explore the ruins for traces

Of course he can't wait any longer. He has forcibly promoted the evolution of his own talent since the last time he took the blood of the a-level strong, but he has not been able to reach the blood of the s-level.

Looking at the mutant animals from the outside, the evolution of the S-level bloodline is very fast, and the powerful metamorphosis is not something he can deal with. He can't even think about getting the bloodline of the S-level strong.

However, this does not mean that he does not want to. There are two S-rank talents under his staff. He is under great pressure. Owen and Ava's recent progress is in his eyes, especially Owen, who has already thrown the awakenings far behind. , The strength directly chases Di Ping.

Although it was still Level 1 and Level 3, it was still cultivated by Di Ping without using the upgrade energy. The speed was not slower than normal awakening, but the strength was indeed completely different.

Each level increases the strength much stronger than Buji and the others. When they reach the third level, his power has completely crushed Buji and others, and his power has reached more than

6,000 catties, and Buji is also at the first and third levels. But it is only four thousand catties, the difference is not a little bit.

If Di Ping didn't have the physique enhancement ability that the system gave in the early stage and practiced a stronger body training exercise, Tiger Ling Jue, then he must be inferior to Owen now.

Most importantly, Di Ping found that Owen and Ava's cultivation talents were more obvious. As the owner of the violent ape warfare, Boogie had only cultivated to the third level, and in a short time, Owen had already reached it. He is at the same level, reaching the third level, and is about to enter the fourth level at any time.

Ava also reached the third level, just one step behind Owen, and did not reach the top of the third level.

Looking at some other people, whether it is Yue Lie, Liu Han or Luo Xinyi, plus a bunch of recruited heroes, the tallest only cultivates to the second level, and most of them are still wandering on the first level!

It was Di Ping who was able to cultivate Tiger Spirit Art to be able to enter the second level. This made him have to think about it. This may be the difference in talent, so he has long been anxious to improve his talent.

Otherwise, in the face of the terrifying King Kong, the giant python and the crocodile sparrow, these three terrifying mutant beasts, he still grabs food from their mouths. That is why he can't suppress the desire in his heart. He needs strength. Recently, he has suffered too much. No matter it is the mutant Komodo dragon or the mutant King Kong, the shock to him is too great, making him extremely strong for strength.

Fortunately, he succeeded. He grabbed Di Luoguo from the tiger's mouth. Now he can't wait to make medicines. There is no pharmacist until now. Who knows that the year of the monkey can only cultivate talents who can make such medicines. I don't want to wait anymore.

He already feels that talent will become more and more important in later cultivation, and different talents will be expanded, so the sooner the talent is improved, the better.

Looking at the fruit of the alien world shining with a coquettish red light, his eyes also flashed dangerously. These heavenly treasures fell in his hands and couldn't be turned into strength. It was simply a sorry heaven and earth for such heaven and earth.

Ruthlessly, he threw the fruit in his hand into his mouth. As soon as the fruit entered the mouth, the hard shell did not have the pinch voice that Di Ping imagined, but was soft and tender. The mouth melted instantly and turned into a warm energy. , A breath of clear spirit suddenly exploded in his mouth, rushing straight into his head, feeling that the whole person became much more energetic in an instant.

And this energy didn't stay in the mouth too much, it seemed to be looking for a way out, rammed in the mouth, and finally plunged into the throat and rushed into the body, washing the entire intestines with warmth and freshness.

Chapter 920: Extreme Tracking Troops

Di Ping was overjoyed. Originally, he thought that taking this horrible fruit would be uncomfortable, and he was ready to endure the pain of gastrointestinal knife scraping, but he didn't expect it to be so easy and enjoy it.

After the energy of the diluo fruit rushed into his stomach, he felt warm throughout his stomach, like drinking a bowl of hot lamb soup in the winter, exuding a warm feeling from the inside to the outside.

Di Ping closed his eyes, his whole body exuded a feeling of laziness, lying on the wicker chair and enjoying this wonderful smell, he felt that he would be able to sleep for a while.

However, less than ten seconds passed, his face suddenly changed, and he suddenly opened his eyes.

Because he feels that the warmth in his stomach is getting stronger and stronger, from the previous warmth to hot, and it is getting hotter and hotter. It seems that there is a heater in the stomach, and it keeps heating, but it gradually It has developed from hot to hot.

"call!"

Di Ping spouted a hot breath from his mouth, and a lot of mist was generated. With this breath, he felt a little more comfortable, but the next moment he had to change his mind, just a few seconds later. He started to gasp, as if trying to dissipate the heat in this way.

However, everything is done. The heat in the stomach seems endless, and it is getting worse, just like a volcano erupting, hot magma erupting from the inside to the outside.

The billowing magma burned with raging flames, burning the stomach, and then starting from stomach cancer, the lungs, heart, liver, spleen, and even the whole body spread.

咚咚...

The heart beats faster, like a horse's hoof falling sharply, like a drumbeat. At this time, anyone in the room can definitely hear the powerful beating sound of his heart.

At this time in this empty room, the sound of dong dong was very strange.

Di Ping's blood seemed to have been burned by the flame at this time. All the blood boiled, rushing towards the body with the blazing flame, bringing the flame to all parts of the body, wherever he went. It starts to burn. At this moment, blood is gasoline, and it burns all the way.

"Hot..."

Di Ping had already sat up straight at this time, his eyes straightened, and his eyes were red, as if flames were burning, and his skin was even more scary, like cooked prawns.

The blood carried the flames everywhere, his whole body seemed to be burning, the pain made Di Ping about to collapse, and he roared silently.

"System...you....***.....how...how...no...tell me...so it hurts?"

Di Ping clenched his fists and gritted his teeth, his eyes widened and yelled in anger.

"Di...The host didn't ask!"

The cold voice of the system sounded in Di Ping's mind.

"Fuck!"

Di Ping could only yell at him. He had no energy to say anything else. The pain at this time seemed to be flooded with waves.

His already painful teeth trembled, the grip of his hands rattled, his body curled up on the ground, his mouth opened but he could not make a sound.

The sweat on his forehead gushed out like spring water, but instantly the sweat was evaporated, making a squeaking sound, and a burst of white mist rose up on his body, covering his whole person, making people look unreal. Only the sound of painful struggle can be heard, and the scalp of the listener is numb.

The flames are burning skin, muscles, bones, and bone marrow. His skin is squeaking straight, as if there is a leak of oil. The bones are burning in the fire, making a squeak sound, which seems to be cracking in the next moment. .

Di Ping only felt that his consciousness was beginning to sink, and he could not bear the burning fire and was about to fall asleep. He could no longer bear such pain.

Whoever tried it, the skin under the fire would be very painful. Medical ** pain is divided into twelve levels, and the fire is the twelfth level, which is the most painful level. One can imagine how unbearable this kind of pain is. .

But at this time, Di Ping was not the skin being burned, but the whole person being burned by the fire from the inside to the outside. This kind of pain was unbearable.

In ancient times, there was a criminal law, which put people in an iron cow and burned them on a fire. Isn't it more painful?

It's just that Di Ping was very energetic. Although his consciousness was a little vague, he never fainted. He had to truly experience the pain of the fire.

At this moment, he is like the porcelain in the kiln that has been tempered into exquisite objects after high temperature.
