

Doomsday 941

Chapter 941: Mountain road fierce war in seconds

"what happened?"

"what happened?"

The trembling bowstring sound and the final hissing sound of the mutant spider awakened Lu Fang who were sleeping sweetly. They turned over and jumped up, shouting in panic.

They have formed a fear of the mutant beast's cry. They immediately woke up when they heard the neighing sound. They were a little confused after waking up, that is, even though Liu Changhe stood up and sat up, he still rubbed his eyes with his hands. It seems a little unconscious.

"What's the matter with Brother Han? Why did I hear a mutant beast calling!"

Lu Fang immediately saw Han Ming standing at the entrance of the cave with a bow and arrow in his hand, so he hurriedly asked.

"Over there!"

Han Ming looked back at them, then turned back and motioned to the other side with his eyes.

"what is this?"

Everyone followed Han Ming's gaze and saw the white spider about the size of a washbasin on the opposite mountain wall.

"spider!"

"My God! What a big spider!"

When several people saw the huge mutant spider nailed to the mountain wall, they suddenly exclaimed, and their faces changed greatly. The snow-like white spiders always looked strange at this time.

Lu Fang's expression changed dramatically. Today, he slept too well. He hadn't eaten this for a long time. After eating wolf meat, he was lazy. He was going to watch the night, but he thought that in this cave, the place should not be dangerous. After a while, I fell asleep, but I never thought it was not safe here.

If Han Ming hadn't noticed it, everyone would be in danger when the spider entered the hole at this time. Not to mention its hideous teeth, but its spear-like long legs, a hole in it would be guaranteed.

After the shock, everyone finally calmed down. They had seen too many mutant beasts before, even the huge Komodo dragon that looked like a small hill, so there was nothing too surprised.

Everyone began to look at this white jade crystal spider with some curiosity. It was the first time they had seen such a spider.

"Fortunately, there is Brother Han, otherwise it will be dangerous!"

Lu Fang wiped the sweat on his head, took his gaze away from the mutant spider, and looked at Han Ming gratefully: "Brother Han, you saved us again. I really don't know how to thank you!"

"Yes... Yes! It must be dangerous this time without Brother Han!"

Several people also looked at Han Ming and thanked.

Han Ming smiled indifferently and said, "You don't have to be so polite. I slept outside and discovered it long ago!"

Lu Fang also nodded. Han Ming's words are true. Whoever finds it will definitely notify everyone as soon as possible, but no one can do it as perfect as Han Ming can eliminate the danger in the first place. .

Everyone was not struggling with this issue either, and refocused their eyes on the mutant spider.

Han Ming's arrow was too cruel. It penetrated directly from the mutant spider's mouth, shot through its head, and passed through its body to be nailed to the mountain wall.

"Brother Han, your arrow is too strong! Rocks can be shot in!"

Liu Changhe stared enviously at the war bow in Han Ming's hand, reaching out to touch it.

"Long River!"

When Lu Fang saw Liu Changhe's movements, he stopped in a low voice.

Don't look at the length and thickness of others, but the people are careful. Watching Han Ming sleep and hold and never leave the body and feel for a while from time to time, he is more cherished than the beloved woman. From this point of view, it is absolutely precious, Liu Changhe reached out to touch it in this way, which might arouse Han Ming's boredom.

"Oh!"

Liu Changhe was stunned for a moment. He didn't know why Lu Fang called him, but because of his constant conviction with Lu Fang, he stopped.

Han Ming glanced at Lu Fang, then smiled faintly: "No imitation, you can't touch it!"

He is not a stingy person, it is true that he is a cherished bow, but he hasn't reached the point where others can't touch it.

Chapter 942: Extreme rescue shows the truth

"Ahem!"

Lu Fang coughed twice in embarrassment, and then smiled awkwardly: "Hey! I'm afraid he might get hurt!"

Han Ming didn't care about Lu Fang's attitude. After all, they had just met, and they had only been together for less than half a day, and they were not very familiar with them. Lu Fang didn't understand his personality, and it was understandable to do something like this. He was not a caregiver. .

Liu Changhe could not help the impulse in his heart for a long time, and got Han Ming's approval. He rubbed his hands and leaned forward with a humble expression. He reached out and carefully touched the pattern on the bow.

Seeing Liu Changhe going up to touch the bow, Zheng Guanshan couldn't help but touch it, but the bow was too heavy, so Han Ming didn't let go, and they definitely couldn't hold it with their strength.

"Brother Han, your bow pull is not small, right?"

Lu Fang also leaned forward, looked at the war bow, looked at the gorgeous metal bow and sharp double-ended blade wings, all showing its powerful lethality, he slammed his mouth in amazement.

Lu Fang is actually a little envious. He used to be an office worker and had never touched weapons such as swords, but men have a natural preference for weapons. Especially after experiencing the end times, he knew the importance of weapons. If he had a good weapon, It's no problem to kill the mutant wolf.

He glanced at the earthen mace he held in his hand, and he felt ugly as he looked at it, and it was a little bit cheaper in his hand.

"This is called a double-headed golden winged bow. It weighs 70 kilograms, has a pull force of 400 kilograms, and has an effective range of 2,000 meters!"

Han Ming waved his war bow casually and said indifferently.

However, although he was very indifferent, he could not fail to see the hint of pride from the smile on the corner of his mouth raised slightly.

"My boy, weighs 70 kilograms and has a pulling force of 400 kilograms? Forget it, I still don't think about it, I can't take it!"

Liu Changhe opened his mouth wide in surprise, before closing it after a while, swallowing his saliva, said with a look of loss.

Not only him, but all the people present were shocked. Is this bow too strong?

Most people can't handle it, let alone use it. This bow is made by that factory. I have never seen such a powerful bow before, but no one asks about it.

At first, everyone thought that Han Ming had been holding it in his hand and would not let it go, thinking that he was stingy, but now they realized that they were afraid that they could not take it off the ground, and all the people who thought of this misunderstanding all blushed.

Ding Ding Ding...

Suddenly, there was a slight tinkling sound, but everyone was chatting and didn't notice it, but Han Ming's ears moved for the first time.

Everyone still pays attention to lower their voices when speaking, and they don't dare to speak too loudly, and his ears are extraordinary, he is too familiar with this kind of tinkling sound, and the sound made by the mutant spider before is very similar.

"Brother Han, what's wrong with you?"

Seeing Han Ming's face suddenly changed, Lu Fang started to listen to something with a serious expression, and hurriedly asked.

"Shh!"

Han Ming made a motion to stop his voice, and pointed at the bottom of the cliff with a serious expression.

When everyone saw Han Ming's serious look, they were shocked and listened to each one of them attentively. At this time, the tinkling sound was not like before and it was in a single piece, as if the wind was crossing a bamboo sea.

Han Ming's expression suddenly changed. He felt bad, and a strong sense of crisis rose from his heart.

He walked two steps quickly to the edge of the cliff and looked down with his probe. With just one glance, his eyes opened like a copper bell, and his pale face was now pale.

Such a dense sound rang throughout the canyon, and everyone would be deaf even if they couldn't hear it. Seeing Han Ming's movements, several people quickly rushed to the edge of the cliff to look down.

Chapter 943: Good spirits

"Oh my God!"

Everyone's complexion changed, and they looked down in amazement, the look of horror on their faces was like seeing the devil.

I saw the entire narrow valley bottom, and the steep mountain wall was full of white dots, the secret code, like an ant, was moving fast, and some of it had climbed to half of the mountain wall, which was also far from the bottom of the valley below. But at a distance of thirty to fifty meters, everyone can clearly see what it is.

These white spots are all washbasin-sized white spiders. The number is astonishing. They are spreading toward the cliff quickly, advancing layer by layer like a tide, densely packed, watching this terrifying scene, everyone is scalp A cold back after tingling.

At this time, a stinky smell soaring to the sky rushed up from the bottom of the valley, and the eyes of the spicy people were a little sour and teary, and they were dizzy with chest tightness.

The crowd was in a riot. They had seen this situation, if they had a intensive phobia, they might have passed out by now.

"This..... so many.... spiders, what...what to do?"

Liu Changhe's face was pale, his legs trembled a little, and his voice stammered.

"How to do?"

Lu Fang was also a little dazed by the situation. When he encountered such a thing, he was confused when he faced the mutant spiders that swept over the sky.

"What to do, run!"

Han Ming leaped up from the ground, turned around with a roar, and ran towards the path leading to the village.

Han Ming had already ran three or four steps, and everyone also reacted at this moment, rushing everywhere without saying a word.

After all, they have been through the end of the world for so many days, and they have also experienced a large number of times, but they were a little dazed by the huge number of mutant spiders just now. Now that Han Ming takes the lead in running, they will not run, and they will survive in the end See who hides deep and who runs fast.

Hiss.....

They are very fast, but after the daze just now, they have delayed a lot of time. They have just turned the corner, and there are already more than a dozen fast-running mutant spiders rushing into the trail.

Everyone's complexion suddenly turned ugly. The mountain path was a hundred meters long, but the mutant spider spread like an overwhelming sky, and it might swallow the path in an instant, and those people still have a way to survive.

call!

Suddenly, five or six mutant spiders on the opposite mountain wall jumped up and flew toward the crowd, and they struck a few people across a space of more than ten meters like flying.

Han Ming already knew that the first one was killed by him during the pounce, so he didn't panic.

But Lu Fang hadn't seen it before, and their expressions became horrified when they saw the mutant spider flying over.

"Catch up with me!"

Han Ming ran in the front, he gave a sudden shout, and then swept the two mutant spiders rushing towards him with a wave of his bow, and fell into the valley.

"Quickly, don't fall behind!"

Lu Fang recovered after being drunk by Han Ming. He followed with a loud shout. He waved the mace in his hand and swept out the two mutant spiders with a whistle. With a bang, the two mutant spiders flew out. Six meters away, and then fell into the valley.

"Get out of here!"

With a wave of a steel knife in Yu Yuanhua's hand, another mutant spider was chopped out, making a light and brittle crash.

Although several mutant spiders were knocked off by them, their speed was also affected a little. Everyone rushed only more than 20 meters away, while the groups of mutant spiders below surged up like a tide, screaming and rushing towards everyone.

Chapter 944: Crazy spiders enter the mountain village

"broken!"

Han Ming's scalp numb as he watched the mutant spiders coming up on the trail in front of him, but if he speeds up or uses his talent skills, Fengshen, he should be able to pass through easily, but people like Lu Fang will be in trouble. .

Although he hadn't known each other for a long time, he really couldn't do it if he wanted to leave these people behind. Although he is not a good person, Han Ming is still very principled.

"Fight!"

Han Ming's eyes screamed inwardly, stretched out his hand and drew an arrow from the quiver behind, suddenly the bow was drawn to completion, and then burst out with a screaming arrow, faster than any previous arrow.

Puff...

A series of sharp arrows entered the flesh, and this arrow actually penetrated the bodies of five mutant spiders, clearing the space 20 meters in front of him.

"Flush!"

As soon as Han Ming's arrow was shot, the people didn't stop, and suddenly accelerated towards the charge, swinging the bow in his hand, sweeping out the other two mutant spiders that were about to climb.

He rushed forward, reducing the resistance of Lu Fang and others in the rear a lot. They only had to pay attention to the mutant spiders rushing up from the cliff, regardless of the danger ahead.

In a blink of an eye, everyone rushed out more than 20 meters, and there were more and more mutant spiders. Han Ming had no time to shoot arrows anymore. He could only use his bow to slash the spiders that were blocking the way. Get out.

But his speed has slowed down, and layers of mutant spiders are constantly pouring up, like an endless stream. He doesn't know how many swipes he has, and everyone rushes out thirty or forty meters, the end is already in sight, but He felt so far away.

Lu Fang also yelled and swung his mace, smashing the mutant spiders out. Now his mace played a huge role. It was so powerful that he could smash the mutant spiders into the air with a single blow. Han Ming's rear makes Han Ming a lot easier.

Yu Yuanhua is a bit dangerous at this time. He only has a machete in his hand. This machete is a bit short and not easy to force. It can only be swept away on the body of the mutant spider, but it cannot be killed. His power cannot be fully utilized. Very aggrieved.

The other four people were protected by a few people in the middle, and there was no pressure before and after, and the pressure was much less to deal with the downside, but because they were ordinary people, they still couldn't cope with the huge mutant spiders.

In particular, Chen Fang and Zhang Zheng were both small and weak, and they used guns before. Now they have no bullets. They took two wooden sticks as weapons in the cave. They can only be brave, but they can deal with mutant spiders. A little strenuous.

"Zhang Zheng be careful!"

Yu Yuanhua suddenly shouted anxiously at the back.

When Han Ming heard the sound, he took the time to glance, Zhang Zhenggang swept a mutant spider away, and this mutant spider suddenly swooped over from the opposite mountain wall, and was about to pounce on his face with that hideous sharp mouth. Already opened.

Zhang Zheng was stunned for a moment. He looked at the mutant spiders coming up in a daze. He had lost the time to react. It was so sudden that he couldn't keep up with his consciousness for a while. He could already see the spider Nasen. White teeth.

Boom!

At this time, there was a bang of bowstrings, and then the mutant spider that had been near Zhang Zheng's face was shot by a black sharp arrow and flew out instantly.

Everyone understood that this was Han Ming's arrow, and they turned to look at Han Ming ahead.

It was indeed shot by Han Ming. He shot a life-saving arrow with a bow and arrow at the moment of danger, but the price was that the claws of a mutant spider slashed his trousers and made a two-inch wound. Fortunately for him I noticed it. When shooting arrows, I also pay attention to dodge, the injury is not deep.

"what!"

A sudden scream broke everyone's joy!

Chapter 945: The horror of the spider riot

Everyone looked over in a panic, and saw that Liu Changhe was negligently bitten by a mutant spider that rushed up to his left calf. The blood burst out, and he let out a scream.

"Long River!"

Zheng Guanshan was the nearest to him, his face changed a lot, he shouted, and rushed forward to save people.

However, he just took a step when a strange spider jumped up and bit him. Zheng Guanshan hurriedly swung his knife over and cut the mutant spider off the cliff.

"Go away!"

Liu Changhe slashed at the head of the mutant spider who was biting his leg, but slashed at the spider's back in a hurry. With a loud noise, the mutant spider's hard back shell blocked his blade and did not cut it. dead.

"Changhe hold on!"

Yu Yuanhua was behind, slashing the mutant spider around with two swords, leaping over Chen Fang and Zhang Zheng and rushing over.

"what!"

Liu Changhe screamed again, another mutant spider rushed up, bit his right leg with one bite, and then suddenly pulled back. Liu Changhe was unsteady and was pulled down on the path. Fortunately, he clung to him. The raised stones on the ground did not fall.

"Long River!"

Zheng Guanshan has the best relationship with Liu Changhe. When he saw this situation, his eyes were red, and he roared, "Die to me!"

Swinging a knife unexpectedly slashed a mutated spider that flew over, but two more mutated spiders rushed towards him, hindering his footsteps.

"Ah! Save me! I don't want to die..."

Liu Changhe grappled with tears and nose on the rock wall, and howled with fear.

At this time, three mutant spiders jumped directly on the cliff on the opposite side and pounced towards Liu Changhe hanging on the rock wall.

All this happened in just one or two seconds. The fast crowd couldn't react. There were two or three mutant spiders coming up around everyone. Zheng Guanshan was only two steps away but it was as difficult to cross as a moat, even though he was already there. He slashed frantically, but as an ordinary person, he could not slash all the mutant spiders.

"Long River"

Lu Fang also reacted immediately and rushed towards this side. He swung his mace and smashed the mutant spiders out. The green blood of the mutant spiders splashed like rain, but there was Zheng Guanshan in between, waiting for him to cross. It was too late, he roared angrily.

Bang bang bang

Seeing that the mutant spider had already jumped ten meters in an instant and was about to fall on Liu Changhe, suddenly an ice shield appeared behind Liu Changhe. Three mutant spiders hit the ice shield, and the ice shield instantly shattered, but the three spiders also fell towards the canyon. After being blocked, his body

Everyone was surprised to see this scene, this was Yu Yuanhua's talent skill.

Sure enough, Yu Yuanhua was the fastest. He jumped past Chen Fang and Zhang Zheng and rushed to Liu Changhe first. The mountain wall below the three of them was relatively smooth, and it was difficult for spiders to climb up, so the number of mutant spiders was not large. Many, he just cut off two mutant spiders and rushed over.

"Come up the river!"

He grabbed Liu Changhe's hand and pulled him up with force.

"Ah! It hurts!"

Liu Changhe suddenly let out a scream. Originally, the two mutant spiders watched the prey about to escape, biting his leg tightly and dragging it down. The torn muscles made him scream.

Yu Yuanhua was also dumbfounded. If the deadlift might break Liu Changhe's leg, two mutant spiders bite his leg firmly, and a few more have already rushed up and are about to pounce. He wouldn't be able to pull up if he didn't pull up and waited for these few to jump on.

Everyone saw this scene and was extremely anxious. One minute this night was not a broken leg, but a terrible thing. Yu Yuanhua looked at Liu Changhe and his eyes were a little hazy, and he would pull hard when he bit his teeth. , No matter how to save his life first.

Boom!

At this moment, there was another bang of bowstrings, and a sharp arrow suddenly appeared, shooting the mutant spider that bit Liu Changhe's legs with a scream.

Chapter 946: The wild beast comes from the mountain

"Come on!"

When Yu Yuanhua saw two mutant spiders being shot by arrows, he didn't dare to neglect, and suddenly pulled Liu Changhe up.

"Brother Yu, be careful!"

At this moment, Chen Fang who was behind suddenly shouted.

I saw two mutant spiders quietly leaping over from the opposite side, rushing straight to Yuanhua. The opposite mountain wall is more bumpy and uneven, and the mutant spider is easier to climb up, and this side of the mountain wall is smoother as a mirror as it goes up. , Although mutant spiders cannot climb up from such a mountain wall, they can only climb up through the climbable parts, so although there are many in number, they cannot swarm them, which gives them vitality.

If one swarms up, no one can run away in the face of such a large number.

"Squat down!"

Suddenly Lu Fang shouted violently, and slammed the mace in his hand, and Yu Yuanhua squatted down in response.

It turned out that Lu Fang finally arrived, his speed was only a bit slower than Yu Yuanhua, but just by chance, the mace rubbed the scalps of the two of them and smashed the two mutant spiders out, and the green blood splashed both of them all over their faces. .

But at this time, no one would care anymore. Yu Yuanhua touched the green liquid on his face with lingering fear. Just now, he had been paying attention to Liu Changhe and forgot to pay attention to the surroundings, and he almost capsized in the gutter.

"Brother Fang! Woo..."

Liu Changhe hugged Lu Fang in fright and started crying, he was frightened.

"Don't delay leaving!"

At this moment, Han Ming shouted in front of him.

"go!"

At this time, Lu Fang didn't care about comforting Liu Changhe, and caught Liu Changhe under his arm, and then rushed forward with Han Ming with a loud shout.

He is taller, more than Yuanhua's head, and he has great strength. It doesn't take much effort to hold Liu Changhe, and he can fight with a mace in one hand.

This cooperation made a lot of sense. Han Ming cleared the road ahead, Zheng Guanshan followed behind, Lu Fang protected Liu Changhe, and Yu Yuanhua protected the two behind. The speed increased again.

Although there were mutated spiders pouring up from below, but fortunately they were all swept down by everyone. After fighting hard for more than a minute, a few people crossed the mountain path. Everyone's heart was loose, and fighting on the mountain wall was too testy. People may fall if they are not careful.

"Don't stop, run!"

Han Ming hurriedly shouted loudly when he saw a few people slack off.

He was afraid that everyone would lose their energy when they were discouraged. He didn't know how many mutant spiders he flew. There were definitely more than fifty mutated spiders without counting, and Lu Fang didn't make much effort, all of them were weakened in order to survive crazy output. , The body is weak, the reason why he can persist is because of the spirit and spirit supporting it.

But Han Ming was worried, and everyone ran desperately when they came up.

I didn't see the mutated spider chasing behind, don't run and wait to feed the spider!

"Enter the village, enter the village!"

Han Ming shouted loudly and took the lead to rush out into the village.

When he reached the open ground, his archery skills began to show off. Three arrows in a row shot the five or six mutant spiders chasing the front, ensuring the safety of Chen Fang and Zhang Zheng, who were behind. They also injured their legs and landed on them. In the back, fortunately, he could run if he was injured, but Liu Changhe was injured more severely. Both of his calves were about to rot, and his blood and flesh were blurry. At this time, he was a little confused.

However, when it reached the ground, the mutant spider's speed also increased. The eight pairs of limbs and claws swiped quickly, and the speed was abnormally fast, as if they were sliding on the ground.

Han Ming shot more than ten arrows in a row, and only shot and killed 40 or 50 mutant spiders. All the talents rushed into the village, and the mutant spiders behind the most chased by them were no more than ten meters away. Han Ming's arrows in his quiver are almost exhausted.

These arrows are all carbon steel arrows specially customized by him before. They are light in weight and high in hardness. There are 30 arrows in total, but he has used them a lot during this period of time. The most used tonight is 20 at one time. He can still get it back, most of the shots shot today may not get back.

Without ordinary arrows, he had to use the heavy arrows that Di Ping gave him. He tried these heavy arrows. They can shoot through even a steel plate nearly ten centimeters thick. They are extremely sharp. He has been reluctant to use them, just waiting for the key. Always use.

It just seems that I have to use it now, these mutant spiders are closely following behind.

Chapter 947: A little red light coming from the east

But their thoughts were taken for granted. When Han Ming took the lead and rushed into the village, he found that the mutant spiders from behind also rushed into the village.

At this moment, he was just looking for a room to hide in. It was useless. Behind him were countless mutant spiders chasing him up. Hiding him would be like killing him. Once he was trapped, it would be difficult to rush out.

At this time, everyone looked at the mutant spider that was chasing after him, and their faces became extremely ugly.

I saw mutant spiders pouring out endlessly from the canyon, looking like an avalanche, sweeping towards the village at an extremely fast speed, the rustling sound like the wind across the bamboo sea, and the sound like a rainstorm. one slice.

On the street, the houses were full of white terrifying mutant spiders, chasing them closely, and the large number made the scalp numb.

But fortunately, on the flat ground, the speed of everyone spread out, much faster than the mutant spider, and the distance opened again.

"What about Brother Han now?"

Yu Yuanhua asked aloud while running.

Everyone also looked at Han Ming. During this breakout, Han Ming had used his strong strength and calm commanding ability to prove his status to everyone and became the backbone of everyone's hearts. At this time, he had no idea. , All looked at him.

"Leave the village first! Now there is only one dead end in the village. Although it is dangerous inside and out, it's almost dawn. Just get through it!"

Han Ming turned around and shot an arrow, nailing the two mutant spiders chasing the front to the wall, and shouted while running.

"Okay! Let's leave the village!"

Lu Fang looked down and fell into a faint, Liu Changhe, who was a little green, gritted his teeth.

"Everyone, work hard, and you will be safe when you leave the village!"

Yu Yuanhua took Chen Fang, who was already staggering, and shouted at several people.

"If you..... chase.... chase.....what to do!"

Zhang Zheng, who followed Chen Fang, gasped as he ran.

"Then you expect you to run fast enough!"

Han Ming drew the last carbon steel arrow and shot it out with a bow, and continued to run wildly without seeing the result.

hiss!

With a scream, the carbon steel arrow shot two mutant spiders that were less than 30 meters behind the crowd, shooting them out like a bunch of candied haws, and then knocked down five or six mutant spiders behind them, and suddenly a group of spiders rolled into a ball.

"You're the slowest, don't you want to feed the spiders! Why don't you run!"

Lu Fang banged up from behind and yelled in an angry voice.

However, in the village street of a hundred meters away, the crowd rushed out in less than twenty seconds, but what changed everyone's color was that the mutant spider rushed out of the village, screaming and chasing Han Ming.

"You...a crow's mouth! This...really makes you say...in!"

Zheng Guanshan stared at Zhang Zheng out of breath and cursed.

"I....."

Zhang Zheng stared at him and tried to refute, but then his face collapsed and he couldn't speak.

"Don't **** and run!"

Yu Yuanhua shouted coldly.

Han Ming was also a little helpless. He didn't expect these mutant spiders to be really hard to deal with, and they would catch up endlessly, looking at the mountain village that has been completely occupied by white spiders as if a thick layer of white snow fell, and with great speed. The speed spread to the outside of the mountain village, facing the overwhelming mutant spiders, he had to turn around and rush towards the forest.

In the mountain forest, the speed of the spider will be more perfect. There are weeds and trees, and it is extremely difficult for people to run in it. However, the spider has a unique advantage in this. Therefore, once you arrive in the mountain forest, the slow speed may be If you catch up, then everyone will be in danger.

"Wow!"

As everyone rushed all the way, suddenly there was a sharp roar from the back mountain, the voice was sharp and loud, as if a loud arrow suddenly pierced the sky, echoing in the mountains.

Chapter 948: Mutant spider swallows morning sun

This sharp roar resounded suddenly, like the sound of gold and stone, and everyone who shook was dizzy. It was better for Han Ming, Lu Fang and Yu Yuanhua. Chen Fang and several others screamed while clutching their heads. They only felt The ears rang, almost deaf.

But fortunately, this sound was extremely short, but disappeared in less than five seconds, leaving only the reverberation in the mountains.

The voice disappeared, and everyone returned to normal, but they looked at the direction from the back of the village with a look of horror in their eyes.

"Broken, the spider is coming up!"

Just now it was just a dullness, and the mutant spider had rushed to the crowd less than ten meters away. Everyone's complexion changed, and Lu Fang's face paled and shouted.

"No need to run, the spider stopped!"

Han Ming stopped suddenly and said calmly. .

"Really stopped?"

Everyone stopped running when they heard the sound, and looked back, as expected by Han Ming.

After the roar, the momentum spreading from the mutant spider suddenly stagnated. After a second pause, they all made a neigh, and the sound shook the sky, sweeping across the entire land like a violent wind. At this time, thousands of miles were silent and there was no sound. The sound of insects seemed to surrender to this terrifying momentum.

Several people watched this scene with a violent tremor. These thousands of mutant spiders collectively screamed in the sky, and the momentum was too terrifying.

However, before everyone was relieved from the shock, the mutant spider retreated quickly like a tide, coming and going in a hurry.

A few people look at me and I look at you, but they don't understand what is going on!

Just now, the mutant spiders were close to everyone, and they could catch up with just one pounce at their speed, but the mutant spiders didn't seem to see them, so they turned around and retreated without thinking.

How many people don't understand what disease these mutant spiders are guilty of?

However, Han Ming understood at this time that this must be directly related to the roar just now, because he saw it most clearly. Just now, he had taken down a heavy arrow and was ready to use it at a critical moment. It happened to see the roar together, the mutant spider. They stopped, and as soon as the sound fell, they quickly returned.

This roar is obviously an instruction. There should be a more terrifying existence behind these mutant spiders directing them, otherwise they will definitely not let everyone go easily.

The mutant spider retreated but did not leave the village, but occupied the entire village. There were mutant spiders everywhere on the ground houses, and the number was definitely over 10,000, but so many mutant spiders were silent, quietly waiting for something.

Everyone looked at this scene puzzledly, not understanding what these spiders were going to do. The good people didn't chase them, but now they ran back to the village and looked up at the sky.

"Brother Han, what shall we do now?"

Lu Fang quietly walked to Han Ming and asked in a low voice.

"I suggest to take a look first. We will enter the forest if there is a danger. It's too dangerous to enter the forest now that it is still dark!"

Han Ming thought for a while and said softly.

"Yeah! That's the only thing now!"

Lu Fang also agreed with Han Ming's view that he knew the horror in the forest, so he nodded.

"Fang...Brother! I...Let's stay away from...!"

Chen Fang looked pale and trembled in the direction of the village.

He has been afraid of these insects since he was a child. Looking at the densely packed mutant spiders, he only felt that his body was weak and his legs trembled.

Moreover, he was bitten on his leg, and he was bleeding and painful now, so he just wanted to stay away, so as to reduce his fear.

Chapter 949: A sad song

"Chen...Fang, are you...you are scared by...the spider!"

Zheng Guanshan took a few breaths and looked at Chen Fang with a low laugh.

"Let... fart! I...just...not afraid!"

Chen Fang was joked by Zhang Zheng, and his face blushed and he said with a stubborn neck.

"No... afraid, you...shaking?"

Zheng Guanshan curled his lips and looked at Chen Fangdao narrowly.

"I....."

Chen Fang glanced at his trembling legs, he couldn't speak, his face flushed for a while.

"Okay! When are you still bickering!"

Lu Fang shouted in a deep voice.

"Oh!"

After being drunk by Lu Fang, the two hurriedly stopped their bickering.

Han Mingdao watched the two quarrel with interest. He felt that Zheng Guanshan was not simple, he was very clever. He knew when to say what to say. After his trouble, the original tense atmosphere was relieved a lot. Chen Fang The legs don't shake anymore.

Han Ming's eyes are poisonous, and his basic skills are to observe words and colors. What he likes most is to observe everyone quietly and analyze their personalities.

He could see that if Zheng Guanshan had the strength, his status in the team might not be lower than that of Lu Fang, but Zheng Guanshan had a fatal flaw, which was impulse.

Previously on the mountain wall, he saw Liu Changhe's serious injury and immediately broke out. He desperately wanted to rush to save people, and almost fell himself, so he suffered the most injuries except Liu Changhe.

In this respect, he was not as calm as Lu Fang. Although Lu Fang was also angry, he was calm and steady.

However, at the same time, Han Ming also saw that this person is very emotional and is a friend to make. Such a person who handles his feelings and personality well can definitely become a good leader. It is also because of this that he will do his best to save these people. People, these people are friends.

Although he was observing a few people, his main attention was still on the mutant spider colony in the village. He found that the spider colony suddenly made a turmoil, seeming a little uneasy or anxious, and constantly moving his body.

"What happened to these spiders? They got sick together!"

Chen Fang asked.

"Go ask him!"

Zheng Guanshan whispered.

"Do not talk!"

Lu Fang stopped the two in a low voice. He suddenly felt a little irritable and his tone was a little heavy. The two felt the seriousness in his tone, and both shrank their heads in fear and did not dare to speak.

However, although the others did not speak, they actually had such doubts in their hearts.

Han Ming suddenly felt a little uneasy, but he didn't know where the uneasiness came from. He forced his uneasiness to endure his uneasiness. He wanted to see what these mutant spiders were doing.

"Boom boom boom..."

Suddenly a dull bang sounded in the mountain village, and the ground also tremors.

Several people looked up at each other, their eyes were horrified, they were too familiar with this voice, wasn't it the same voice before the Komodo mutant dragon attacked the city?

Every time you landed, the ground trembled, like an earthquake. At that time, everyone didn't know what happened. When the giant beast attacked the city, everyone knew it was the footsteps of the giant beast.

Is there a giant here too?

Everyone had such doubts in their eyes at this time, and they also showed a hint of panic.

Han Ming's super induction force made him feel a breath of danger, and he was rising from the village. He resisted the urge to escape in his heart. He wanted to see what kind of monster it was.

When Lu Fang saw that Han Ming hadn't moved, their expressions changed for a while. Finally, they gritted their teeth and stopped talking. They looked at the village, and they also wanted to see what monster this was.

Everyone has curiosity, especially for things they don't know. People say that curiosity kills cats, but people just can't help but curiosity!

Chapter 950: Sad and helpless

"Boom boom boom!"

The learning voice is getting louder and heavier, like a wild beast stepping on the ground, a dull voice is like hitting everyone's chest, and there is a feeling of muffled heart.

Han Ming hid in the grass and stared at the village closely, not even daring to let out the atmosphere.

"hiss!"

Suddenly all the mutant spiders made a long hiss at the sky again, their voices were as sharp as countless pieces of iron across the ploughshare, piercing the eardrums, and it was toothy.

"That is?"

Suddenly everyone's eyes were convex, staring at the village incredulously, as if they had seen a ghost, even Han Ming's eyes widened in horror.

I saw a huge white spider more than five or sixty tall coming from the end of the village step by step. The four-to-five-meter-long bowl with thin limbs and claws are like steel cones, supporting its huge body. Every time it falls, the ground is shocked. It was like a heavy hammer hitting the ground.

The huge mutant spider is walking in the dense cluster of mutant spiders like a king. No matter which direction it is heading, the mutant spider will quickly make room for fear of blocking its path.

He doesn't move fast, but he collapses two or three meters at every step, and he walks at an average speed. In fact, his speed is not too slow. Its steps are large, but the frequency is lower, which is about the same speed as a normal person trotting.

咚咚咚!

At this time, the booming sound was clearer, and it was particularly dull in the quiet mountain village, like the drum of death, which made people shiver.

At this time, everyone was shocked. As soon as the giant spider appeared, a fierce air that seemed to come from the predecessor, icy and gloomy, almost frozen the human soul, even the brain was slow to respond, and the body became more It is stiff.

Lu Fang, Yu Yuanhua, and Han Ming are better. After all, the three are awakened, and their resistance to coercion is much stronger, but Chen Fang and the four are just ordinary people, facing the sky and the earth. They couldn't resist the coercion at all, and now they could not wait to turn up and run, but at this time their whole body was soft, their calves trembled, and there was no courage at all.

Han Ming didn't move. It's too dangerous to walk now. If the mutant spider rushes up, only the three of them in this group of people think it's possible to escape to the sky, and Chen Fang, Zhang Zheng, and Liu Tiaohe. , Zheng Guanshan and the four are hard to say.

The mutant spider king walked slowly to the middle of the street, and a pair of huge black eyes suddenly swept in the direction of Han Ming and the others, condescending, looking down at everything.

There was no expression in those jet black eyes, but for Han Ming and his colleagues, the coldness and brutality in them meant that they were like falling into an ice cave, almost freezing their souls.

Seeing this moment, the whole team closed their mouths tightly, making a little noise, which would attract its attention.

But Han Ming knew that it had already seen his group of people, and the ignorance that showed in its eyes meant that it had seen it, but it didn't seem to be interested in himself and others.

Perhaps, everyone in its eyes may be just irrelevant little bugs, even if they are hungry, they don't have any desire to fill their hunger. This is the feeling that even the fertilizer can't be used for fat, and Han Ming felt that he was insulted.

However, he wasn't so stupid that he rushed to find the mutant spider king theory, he decided to let it go, and when he had a chance, he would calculate the account.

It's just that the mutant spider king obviously doesn't want to know what Han Ming and the others are thinking. It walked to the center of the street, turned its body to the east, and stared at the east with its head held high, as if there were some wonders, precious treasures, or beauty. The magical scenery makes it bewildered, or there is a female spider king there, which arouses its interest, and it may be a male spider king.

Because Han Ming didn't know whether it was male or female, or whether it was male or female,
the ghost knew it!
