

Doomsday 95

Chapter 95: Another hero is Owen

Di Ping closed his eyes and felt for a while. This time his body strengthening was obviously more than the previous three-level strengthening, and his strength increased a lot. The previous one had almost increased by about two hundred jin.

This time, he obviously felt that he had only increased by four hundred kilograms, which was twice as much as before. The strength of his body was also increased more than before. He now felt that he might not be injured even if he slashed him with an ordinary knife.

Opening his eyes and seeing the broken sword on the coffee table, Di Ping took it and placed it on his arm with a light stroke. Sure enough, only a white mark was left, and there was no bleeding. He stroked it again with some strength. It left a shallow blood mark on the skin.

It seems that it's really different from the game. The energy required for this level is increased after the third level is upgraded, but the strengthening effect is also increased. This is a good thing. Di Ping feels that no matter which way, as long as he can improve his strength No need to think about it.

Seeing that the information he displayed turned out to be Level 1 and Level 4, he was still a little happy. He believed that he would become stronger and stronger, with a systematic existence, like the mutant crocodile and the giant eagle. My own dish.

After calming down a little agitated mood, Di Ping got the crystal core before taking it out of the system backpack. After the backpack function was turned on, he put it in the backpack. It was very convenient. His thoughts disappeared and displayed in the backpack. Up.

After opening the packet, a small pile of jade beads appeared in Di Ping's eyes. He counted them down. There were 40 pieces in total. He had 6 of them before. In the underground shopping mall, he harvested a total of 33 pieces plus a larger mutated Tibetan mastiff. There are exactly 40 crystal nuclei.

He decided to leave the crystal nucleus on the largest mutant Tibetan Mastiff. All the other crystal nuclei can be replaced with crystal coins. So far, the crystal nucleus can only be used to exchange crystal coins. It seems that no other use has been found. Now he is in short supply of crystal coins. , The value is maximized by changing all, and the Tibetan mastiff is much larger than the ordinary mutant dog, he thinks it is better to let it go first, maybe it's useful? .

"Di... Exchange 39 crystal nuclei and get 48 crystal coins!"

After the system beeped, everything except the largest Tibetan Mastiff crystal core became crystal coins. When he clicked on the portrait, he found that his crystal coins had become 548 coins.

After completing the task, I got 500 crystal coins. With so many crystal coins, Di Ping decided to do one thing, that is, to use up the legendary recruitment scroll.

With excitement, he was finally able to recruit S-rank heroes. He believed that these 500 crystal coins would be enough. Enter the tavern, click on the recruiting interface, click Refresh, and choose to use the legendary recruiting scroll.

After confirming, the recruitment interface began to be covered by a white light. The original hero began to disappear in the white light, and then the white light became brighter and thicker. After a few seconds, the white light gradually faded, and three heroes reappeared in the hero frame. .

"Fuck! Fuck!..."

Di Ping exploded two vulgar words in a row, and his eyes looked at the screen blankly, and the ecstasy on his face revealed no doubt.

"Master! What happened to you?"

Gina who was meditating was awakened by Di Ping, opened her eyes and looked at Di Ping with some concern.

"Uh! It's all right, can you rest?"

Di Ping smiled and waved her hands to let Gina rest. Gina glanced at Di Ping with some confusion. She didn't know what the master was doing, but Xue closed her eyes and sat on the ground to meditate.

Di Ping was so surprised to see what! Because he saw the three heroes not only appeared an S-rank hero, but also a B-rank hero. How could this not make him happy? He just ignored the other D-rank and stared at the S-rank hero. Above, this hero is also a warrior named Owen, and the b-class hero is a priest named Mok Lezi.

After thinking about it, Di Ping decided to recruit S-rank heroes first. It was not that he was impatient. He was afraid that the coins would not be enough to waste a legendary recruitment ticket. Click on Owen's portrait and chose to recruit. He really saw the coins he needed. Jing scolded, the S-level recruitment price is really expensive! You actually need 500 coins, but you thought 500 coins were a lot?

Now it was back to before liberation, but he had to endure his heartache for the sake of the s-class hero, choosing to make sure that the hero Owen slowly disappeared in a burst of white light.

At this time, the runes on the three prismatic pillars on the third floor of the pub on the base suddenly lit up, and then slowly opened, a group of light shining between the pillars, slowly moving outwards, the white light in the middle became brighter and brighter, and gradually formed a The light circular ball, the light ball getting brighter and stronger, the electric snake flashing in the space inside the three pillars like an apocalyptic scene.

The light lasted for a minute or two and then suddenly exploded. The intense light shone the entire third floor like daylight. The violent lightning blasted out in the center and collided together and exploded, and then a human-shaped shadow slowly appeared in the electric light. come out.

The white light energy began to slowly recover, and the lightning began to dissipate. In the end, the white light energy ball in a radius of ten meters suddenly collected to the center, and finally disappeared quickly, and a clear figure appeared in the middle of the three pillars.

This figure was taken aback for a while, and then walked out of the three-pillar space. At this time, the figure of the tavern owner Wu An also appeared at the entrance of the third floor, looking at the figure with a smile on his face.
