

Chapter 13

In a very short time, everyone already had a general understanding of this matter at the moment.

These five men were hired by Wang Suping to ruin Su Yan. As for this matter, it was likely that Su Zhile was also aware of it. However, when she knew that her sister was going to be harmed by her mother, Su Zhile not only did not dissuade her but also deliberately led Su Yan into this room so that it would be convenient for the five men to do it. Unexpectedly...

In the end, Su Yan was uncomfortable and she le ahead of time. As a result, things went wrong. The five men changed their minds and targeted Su Zhile.

In the end, she harmed herself! Su Zhile not only had nothing worthy of sympathy, but it was even very satisfying!

But what puzzled them was that Su Yan was also the daughter of Wang Suping as well as the daughter of the Su family. Why did Wang Suping think of such a terrible way to deal with her? Even from what Su Yan had said before, it seemed that the doted daughter, Su Yan was not living a good life in the past...

Could it be that there was some kind of world-shocking truth hidden in this?

The crowd was whispering among themselves, and the sound of chattering could be heard in the corridor.

These words were also heard by Mr. Su, who had been standing on the side since just now...

The next moment, the gloomy-faced Mr. Su finally stood up and said to the crowd in a low voice, "I'm sorry, today's birthday party may not continue. Thank you for coming here today. Please go back now. Our family still has some private affairs to deal with. Gu Bo, see the guests out!"

"Okay, please come with me..." Hearing this, Gu Bo immediately stepped forward and respectfully invited them to leave. At the same time, some security guards immediately stepped forward, covered the mouths of the five disgusting men, tied them up, and took them away.

Looking at the situation, although the crowd was still not satisfied, they still went downstairs according to what he said.

However, although they could not stand by and watch the following show of the Su family, they could already talk about a lot of things based on what they had seen before!

After all, in the past, Wang Suping had bragged about her prominent family background and outstanding two daughters. She had always pretended to be noble and elegant in front of everyone. But now...

Su Zhile had been defiled by the five men brought by her mother. Moreover, Wang Suping, who had always been known as a gentle mother in the outside world for so many years, had actually been suppressing her youngest daughter with cruel means!

After these things were spread out, not only was Wang Suping's reputation, which had been painstakingly established for decades, about to collapse but even Su Zhile's reputation would be ruined too. No one would ever think highly of her again.

They feel sorry for these two people just thinking about it!

The crowd thought to themselves. Even though they had gone far away, their eyes were still full of disdain.

These were all things that Wang Suping and Su Zhile had never experienced in Su Yan's previous life...

In her last life, the two of them had been wearing a mask of hypocrisy, living in the praise and envy of everyone.

Until Su Yan died in the end, the two of them still had a glamorous image. Su Zhile even became the best actress in the entertainment industry, while Wang Suping, her mother, also had a group of fans. She was called 'The beautiful mother who looked like a sister of her daughter'.

But in this life...

She was back.

Therefore, she would crush their beautiful future bit by bit. This was just the beginning!

Su Yan coldly thought in her heart. However, at this moment, for some reason, she felt a frightening familiar gaze.

Su Yan was suddenly stunned. She quickly turned around to look for it, but she did not discover anything...
