

Chapter 4

"Don't worry, Miss Su. Your sister is so beautiful and obedient. How can she make us angry?" As soon as Su Zhile finished her words, a yellow-toothed man next to them said with a grim smile.

Hearing his words, the four people around him also nodded one after another, and their disgusting eyes were even more obvious. If it weren't for the fact that they would alert Su Yan if they act too fast, they would have already begun to tear Su Yan's clothes!

After all, it was rare and lucky for them to meet such a beautiful woman!

When the door closed, they could finally start to play with this little beauty together. Anyway, Su Zhile had already mentioned it before. They can play in whatever way and do anything to this little beauty! So now they couldn't help but start to swallow their saliva.

However, when Su Zhile heard these words, she wasn't happy.

No matter how beautiful Su Yan was, could she be prettier than her? After all, she was just an illegitimate daughter! Su Zhile thought in her heart with disdain. However, to not let Su Yan find out, the next moment, she changed the expression on her face and continued to walk outside.

Unexpectedly, at this moment, a calm female voice suddenly sounded behind Su Zhile. She said without any emotion, "How much money did you take from my sister? How dare you do such a thing in the Su family's territory? Are you already tired of living?"

.....

"Hey, what do you mean by this? Don't talk nonsense!"

"Yeah, we are all guests of President Su's birthday party today. Don't talk nonsense!"

It was obvious that they didn't expect Su Yan to say such a thing. After the four men were shocked, they immediately panicked and began to shirk their responsibilities one after another.

Su Zhile was also startled. She stopped in her tracks and looked at Su Yan. She frowned and reprimanded, "Su Yan, what are you talking about? These are all father's guests. He usually treats you so well. Today is his birthday banquet, are you not willing to help me entertain my guests?"

"Of course, I am willing to. But how do you want me to entertain them? To use my body?" Su Yan slowly spoke. At the same time when she directly spoke out about Su Zhile's intentions, she also slowly raised her head and stared straight at Su Zhile.

Like a terrifying viper in the darkness, Su Yan's eyes were dark and cold, making Su Zhile shiver in fear.

Su Zhile had never seen Su Yan like this before. Her heart went cold for a moment. At the same time when she was frightened, she also felt that something of her seemed to be different from before!

She gritted her teeth as she said, "Su Yan, what nonsense are you spouting? I am your sister. Do you think I will harm you?"

"Who knows? After all, people's hearts are different. There are a lot of people in this world who act differently from what they are on the surface. If you want me to believe you..."

Su Yan drew at the end of her sentence and said, "How about you stay and entertain these five guests?"

"I believe that they will be very satisfied with your hospitality!"

"What are you talking about?"

Su Zhile's face was completely stiff, and she couldn't continue to put on her original gentle look anymore. She said angrily, "Are you crazy? I'm your sister. If I want you to entertain anyone, you must entertain them. I'll leave first. You stay here obediently!"

Su Zhile angrily ordered. As soon as she finished speaking, she also turned around and prepared to leave and lock the door.

Anyway, as long as this little b*tch couldn't run away, she would still be insulted by these five men!

But unfortunately...

Staying there obediently was not something that Su Yan would do!
