

Chapter 43

The next moment, Wang Suping became weak and gentle without exaggerating.

With a miserable look, she looked at her husband and said, "Guoqiang, I know I did something wrong in the past. I can rebuy all the things I took away from her, but 80% of the company's shares are too large! Su Yan is still young now. It is unknown that she will do something bad after she has so much property. Won't it be terrible if the company's interests are damaged?"

"What's more, it's normal for you to be angry with me and Zhile, but what about Zhige?"

Wang Suping said with tears streaming down her face, "She has always been your most proud daughter. Aren't you hurting her heart with this now?"

.....

As expected, Mr. Su couldn't say anything.

Wang Suping had found a very good point. Every parent favored outstanding children, while Su Zhige happened to be the "most excellent child" in everyone's eyes.

Mr. Su valued his second daughter very much. Otherwise, he wouldn't have changed his mind with just a few words from Su Zhige yesterday to let Wang Suping return and release Su Zhile.

Now, after hearing Wang Suping's words, Mr. Su also looked at Su Zhige subconsciously.

Of course, Su Zhige cooperated with Wang Suping.

Su Zhige was also unhappy that Su Yan could get so many shares in the company. After all, in her eyes, she was outstanding and the Su Group should belong to her in the future.

So she put away her usual cold self. The next moment, Su Zhige's

expression softened as she became sad, "Dad, I know that you have always been partial. No matter how excellent I am, your favorite is still Su Yan, but..."

"I'm not a greedy person. However, such a big matter will affect the company! Dad, you're being too arbitrary!"

.....

Mr. Su frowned. He started to hesitate.

Su Yan almost couldn't hold back her laughter.

Su Zhige said that she was not a greedy person. It was the funniest joke in the world!

In her past life, no one knew better than her how terrifying Su Zhige's ambitions were. Thus, Su Yan only felt ridiculous now seeing her hypocritical look.

However, Su Zhige could not be the only one that act in this good show!

Su Yan wiped away the tears on her face as she said in a firm and sensible tone, "Zhige is right. Such a large amount of shares should not be transferred to me so rashly. Dad, since you have been persuaded, I might as well behave myself and take the initiative to refuse."

"Su Yan, I was not persuaded. I was just..." Mr. Su was embarrassed and did not know what to say.

He was indeed shaken by Su Zhige's words just now. Now that Su Yan had directly said it out loud, he could only suppress his hesitation.

"Zhige, there's no need for you to say anything more about this matter. My decision has already been made, and I won't change my mind."

"When your mother gets back 5% of the company's shares, I will immediately go through the transfer procedures for you!"

"Dad!" Su Zhige and Su Zhile shouted in a hurry.

"There's no need to say more." Mr. Su didn't want to hesitate any longer. He shouted angrily, "I'm the owner of the Su Group. Can't I even make such a small decision?"

.....

It was quiet all around.

The two of them did not dare to say anything more. They could only grit their teeth and sit where they were. Wang Suping fell on the chair, disheartened. She knew that she couldn't change Mr. Su's mind anymore.

Su Yan pretended to be at a loss as she lowered her head as if she was very nervous. However, no one had seen her secretly smiling.

.....

With a blink of his eyes, the chaotic breakfast time had passed.

Su Yan went to school on time by car. Perhaps it was the first day of school after the holidays, the campus was very lively.

Su Yan carried her bag and walked to the entrance of her class. However, when she reached there, she stopped...

There was a desk at the door.

It was full of abusive words, and the drawer was also full of rubbish. It was so stinky that one could smell it even without approaching it.

There was no need to say who the owner of this table was.

The victim, Su Yan, who was originally about to enter the classroom, stopped. She crossed her arms around her chest and stood there with a cold smile. She was waiting for the person inside to come and mock her.

Because she had already encountered such a thing more than once before.

Those who always played the prank often did this to her table and threw it in the corridor. They would come out in groups and continue to throw garbage at her or smash her with chalk when she was anxious and didn't know what to do.

Sometimes, even the students in the whole corridor would come out to watch the fun, but no one would help her.

It was the same now.

Standing at the door, Su Yan half closed her eyes and faintly heard the sound of someone running out of the classroom.

Just as the sound of footsteps reached her ears, Su Yan directly took the school bag on her shoulder and threw it over without even looking!

"Bang!" There was a muffled sound.

A girl who took the lead to run out had been directly hit and fell to the ground!

Because of her, a few of her friends behind her also fell to the ground together.

All the students in the class as well as many students in the corridor who had come out to watch the fun were stunned and widened their eyes in disbelief.

After all...

In the past, Su Yan was submissive and wouldn't do anything even if she was bullied. No matter how others beat or scolded her, she could only cry. But now, she had already defeated them before they could take action!

And if one looked at her carefully, although Su Yan still looked the same as before, her bright eyes and arrogant spirit made her extremely charming!

This...

Was she the real Su Yan?

Why didn't they find that she was so beautiful before?

Everyone thought in unison. But soon, their thoughts were interrupted by the screams of the girls on the ground.

Wang Yuyan was the smartest girl in class. In addition, she had a prominent family background, so she had always been the center of the class. Usually, she would succeed no matter who she bullied!

During her three years of high school, Wang Yuyan had always been bullying Su Yan. She had never seen Su Yan resist.

But today...

Before she could go out to scold her, Su Yan, who had always been weak, had beaten her up first!

Wang Yuyan was stunned for a long time before she came to her sense. She was helped up by a few of her followers from the ground. As soon as she stood up, she immediately looked at Su Yan angrily and said, "Su Yan, how dare you? Do you know what you are doing? Believe it or not, I will kill you right now... Ah!"
