

Chapter 7

Su Yan did not know that there was someone in her room she thought was empty.

At this time, all her attention was focused on the scene downstairs. Half an hour later, the scene she had been looking forward to finally appeared...

Wang Suping downstairs, who was surrounded by many noble ladies, suddenly took out her mobile phone from her bag and looked at the time on the screen.

Then, almost imperceptibly, a faint smile appeared on her face.

Looking at this scene from the window, a smile appeared on Su Yan's cold face. She knew that Wang Suping had taken the bait...

At this time, Wang Suping probably thought that Su Yan had been ruined by the five men in the private room by the design of her and Su Zhile.

After all, Wang Suping must have known about it from the very beginning!

Otherwise, Su Zhile was only nineteen years old, so it was impossible for her to come up with such a method. How could Su Zhile secretly find five men and arranged them in the private room of her father's birthday party alone without anyone noticing?

So now, as one of the participants, Wang Suping also had to start her next plan.

As Su Yan expected, in the next moment, Wang Suping came to her husband's side with a few friends and whispered something in his ear. Su Yan guessed that Wang Suping used an excuse and wanted them to go upstairs to find her. President Su also nodded lovingly and took the lead to go upstairs.

During this period of time, many people also joined the team that was going upstairs to have a chat with President Su.

As a result, just like in her previous life, a lot of people were going in the direction of the room.

Seeing this scene, Su Yan made a prompt decision. She immediately walked into the bathroom in the hotel and messed up her tidy hair in front of the mirror.

Through the mirror, she could see her beautiful appearance clearly. Since her hair was slightly messy, it made Su Yan's delicate and sweet face look casual and prettier. She was so beautiful.

At the same time, outside the door, the bustling voices could already be heard.

It was the people who went upstairs to look for her. They had already arrived at the room where she was.

A female voice was chatting with Wang Suping. "Mrs. Su, you are such a good mother who loves your daughter. You are in a hurry to find her when you haven't seen her for a while. However, I admire your ability to teach your daughters well. Each of your three daughters is so outstanding!"

"Your eldest daughter, Su Zhile, is the most popular star in the entertainment circle. Your second daughter, Su Zhige, is a well-known genius student in the city. Your youngest daughter... Although her grades are average, fortunately, she is well-behaved and obedient. Not to mention she has already been engaged to the son of the Chu family. When she gets married, your life will be the happiest among us!"

After all, not everyone could enter the door of the Chu family.

If anyone's daughter could marry the son of the Chu family, they would probably wake up with laughter in their dreams.

However, when Su Yan leaned against the door and heard these words, she laughed coldly.

Because she knew that Wang Suping did not want to let such a good thing happen to her at all. After all, in the eyes of this woman, even if Su Yan had been respectful to her for 18 years since she was a child, she was still an illegitimate child!

Sure enough, the next moment, Wang Suping's sigh came from outside the door. "Mrs. Zhao, please don't flatter me. My life is not easy at all!"

"Zhile and Zhige, these two kids have already grown up and had their ideas. They have always been sensible and there's no need for me to worry about them. However, my little girl, Su Yan, makes me so worried..."

"I've always thought that a woman can't just have a pretty face but should have some real talents and knowledge, so she won't be looked down upon by men. However, Su Yan just doesn't listen to me and likes to sing contrary to me. She feels that she is beautiful and is enough to be liked by others."

"That's why she has always been so frivolous since she was a child. I don't even know how much white hair I have grown from worrying about for this matter. They all are my children. Why is it that only Su Yan is so frivolous, unlike her two sisters?"
