

Dragon Husband

Chapter 1435

“Boom!” Wen Ren Tianqing’s heavy punch actually caused the entire discussion hall to tremble fiercely.

That table broke into dust!

But the blood crystal of the earth bone fell to the ground, and there was no trace of cracks on his body.

Everyone is shocking.

The material of this bone blood crystal is so indestructible.

Even the warriors of the Innate Secret Realm can’t be shaken!

Wenren Tianqing’s whole person is not good.

He flushed, as if completely mad.

He frantically mobilized his innate power, ready to make another big move.

“Second brother! Stop it!” Wenren Tiange’s eyes drenched, and he walked towards Wenren Tianqing.

At this time, Wen Ren Tianyi’s body also moved.

“Second brother, let me help you!”

He was actually going to stop Wenren Tiange.

The fists of the three people, under the agitation of Wen Ren Tianyi, rushed towards the bones and blood crystals on the ground.

Everyone quickly retreated back.

There is also a feeling of pity in my heart.

Combining the three warriors of the Innate Secret Realm with all their strength, even if the bones and blood crystals are harder, they should be broken into powder this time.

“擘!”

A deafening cracking sound rang in everyone’s ears.

But it’s not that the bones and blood crystals are cracked!

It was the entire conference hall, split from the middle of the ground and spread to the ceiling!

"Fuck! Get out!" Everyone's eyes were cracked, and with a roar, they all ran outside.

The three Wenren Tiange brothers were among them, spitting out a mouthful of blood.

Their fists slammed and broke directly.

"Go out first!" Wen Ren Tiange gritted his teeth with a stern face.

The three of them slid and fell outside the hall.

At this time, there was a roar, and the conference hall collapsed.

The people at the scene look at me and I look at you, but they are speechless.

At this moment, the Bone Blood Crystal slowly rose from the ruins, just floating quietly.

But it made everyone feel that they were accepting the king's gaze and gaze.

The blood crystal of the bones of the earth is intact.

It seems to be playing with all of you here.

The three warriors of the congenital secret realm had broken hand bones.

Although according to their current state, this injury can be cured within a few days.

But under the gaze of everyone's eyes, the power of the three people had no way to get a piece of bone and blood crystal.

It would be embarrassing to spread this out.

"Today's matter must not be circulated." Wenren Tiange said.

And Wen Ren Tianyi and Wen Ren Tianqing stared at this weird piece of bone and blood crystals, their eyes burning with jealousy.

It's just that the treasures of heaven and earth cannot be used for oneself.

It is impossible to even destroy it now.

This is so distracting.

"Sect Master, what should I do with this Bone Blood Crystal now?" Wen Ren Tianqing asked angrily.

"It's better to change it to them when they came to ask for a change just now, and you can still make a fortune." Wen Ren Tianyi added abruptly from the side.

The people at the scene were taken aback, and suddenly felt that it made sense.

It's better to sell it to other sects, and then let those sects taste the sorrow and sorrow that you can see and can't eat.

It's just that I'm just talking about this, and I am quick to speak for a while. not over, !

After all, Xianghua Lixue had already strictly rejected everyone's request just now.

Now go back to them and slap again?

Fragrant Hua has already had a lot of face.

Wenren Qingqing had watched enough of the scene, and stood up and said: "This earth-bone blood crystal itself is Wiliam's. He can get the earth-bone blood crystal, which shows that he is the destined person. Everyone has seen it, and he can get it. Bone blood crystal, why not let him try to forge his bones?"

Everyone drank like a headshot.

They even forgot for a moment that Wiliam had brought out this blood crystal.

This kid, I really don't know what shit luck has gone, and found a pie at a sky-high price.

Wen Ren Tiange glanced at Wiliam and made a decision in his heart.

At any rate, Wiliam was Xianghua's son and a friend of his two daughters.

His aptitude also looks pretty good.

Now that everyone is using the Bone Bone and Blood Crystals to use the method, it is normal for Wiliam to try it.

Everyone has nothing to say.

Thinking of this, Wenren Tiange no longer hesitated and said, " Wiliam, you can try bone forging."

Wiliam smiled slightly and bowed his hands to Wenren Tiange, expressing gratitude.

Others really have nothing to say, who makes them inferior to others.

Wen Ren Tianqing snorted coldly, "It's nothing to be able to pick up the blood crystals of the bones, but forging bones is more about chance. If there are no elders to help..."

The words were not finished, but Wiliamshou made a random move.

The Bone Blood Crystal flew directly into Wiliam's hand, and was gently held by him.

Wen Ren Tianqing's face was embarrassed.

The people at the scene felt as uncomfortable as eating shit.

Everyone worked desperately, and there was no way to get this piece of bone and blood crystal. The people in the three major congenital secret realms were also injured.

This kid casually moved, and the blood crystals flew over. Is this kid really destined?

"Then I'm disrespectful." Wiliam smiled.

His body exploded with energy, and he merged with the bones and blood crystals.

The Bone Blood Crystal also emitted a lush blue light, which well covered the power of Wiliam's blood.

In a burst of coquettish light, everyone couldn't help closing their eyes briefly.

Wiliam took advantage of these two seconds to cut the blood crystal on the bone with his index finger.

The blood crystal of the earth bone was like a piece of jelly, divided into two halves by him.

Half of them, with a drop of dazzling blood, fell into Wiliam's pocket.

Wiliam remembered that his ancestors said before that bone forging only needs half.

This other half is reserved for Long live Demon Lotus, and a drop of blood is reserved for him to use in higher realms.

After everyone opened their eyes, Wiliam opened his mouth, sucked, and quickly sucked half of the earth bone blood crystal into his body.

At this time, his body seemed to be transparent, and the bones under his body were clearly visible.

After the blood crystal of this half of the earth bone entered the body, it quickly turned into a streamline, and the bones made a slight bang bang wherever they passed.

This is the process of forging bones.

Wenren Tiange saw that Wiliam was so relaxed and began to forge his bones, and he was also happy for him.

After all, the family has to add another half-step innate martial artist, which is also a good thing.

Wiliam's bone forging was surprisingly smooth, because of the help of Senior Azure Qilin, the hardships between the forging bones were wiped out.

Everyone just quietly watched Wiliam build his bones step by step, with surprise and jealousy in their eyes.

Wenren Tianyi and Wenren Tianqing also have extremely complicated eyes.

In this way, there is one more master of Wenren Tiange school.

Thinking like this, he suddenly thought of a very serious problem.

Wenren Tianyi looked around, and finally asked in a deep voice, "Where is Li Nianyi? Any one of you saw Li Nianyi running out just now?"

At this question, everyone was stunned.

Ten seconds later, everyone reacted together, rushing into the ruins of the chamber in a rush, shouting: "Quite, save Li Nianyi! Don't be crushed to death!"
