Chapter 1485: part 1

Chapter 1485 Peach Blossom Fairy

William saw that the peach blossoms were still flying in the sky.

Some can clearly see the appearance of the peach petals themselves, but some are pink.

The same is true for the peach petals on the ground.

The pink petals will disappear after a few seconds.

After disappearing, the peach blossom demon who had been strangled on the ground would be reborn.

No wonder William discovered this detail at this time.

Mainly because there are too many peach petals at the scene.

Such as the number of sand in the Ganges!

The sky, the ground, and the trees are all peach petals.

No one will notice the disappearance of a few peach petals, which will bring about the rebirth of the Peach Flower Demon.

Also, William was an enchanting evildoer, and he was very observant, so he noticed this.

He repelled the Peach Blossom Fairy while thinking.

If this is the case, then the origin of the peach flower demon is the peach petals.

The peach petals will not disappear, the peach blossom demon will not die.

If I hadn't discovered this earlier, I guess I would be exhausted here, and I wouldn't be able to kill the Peach Blossom Fairy.

Right now, there is only one way.

Fight!

William thought, his heart moved!

The long live demon lotus that had formed a strangling needle formation in front of him suddenly danced wildly!

Moreover, the wind will grow longer!

Each long live demon lotus grows into the shape of a discus several meters wide.

The transformed Long Live Demon Lotus all gathered in midair.

They began to spin frantically and dance frantically.

Looking at this picture, it was like Wiliam forcibly forming a big fan in mid-air!

This big fan, with a powerful suction, sucked up all the peach petals on the ground and on the tree!

As the Long Live Demon Lotus hovered, as expected, countless peach petals stretched out from the ground to mid-air, forming a peach blossom tornado.

At the end of the peach blossom tornado, there is an endless strangling abyss.

As soon as the peach petals approached the Long Live Demon Lotus, they were strangled into powder.

Pay from the bottom of the pot!

This is exactly what Wiliam came up with.

As long as the peach petals are strangled, these peach flower monsters are like flowers without roots, it is difficult to rebirth again.

However, although this method of drawing salary from the bottom is good, it is also incomparably dangerous.

Just like now, without the constraints of Long Live Demon Lotus.

In addition, these peach blossom monsters seemed to know that Wiliam was drawing salaries from the bottom of the cauldron.

They seemed to be crazy, all flocking to Wiliam!

For a while, Wiliam could hardly see the sky in front of his eyes.

They are all the peach blossom demon who want to kill him quickly.

Wiliam took a sigh of relief and stood still.

He didn't dare to charge too far, after all, Wen Ren Qingxin was still behind him.

Thinking about it this way, this product is not only a dung stick, but also an oil bottle.

As time went by, more and more scars on Wiliam's body.

In the end, he was fighting purely by obsession.

Compete with time to win or lose.

The peach petals on the field have been almost strangled.

The Peach Blossom Fairy was unable to succeed.

Now it's to see if the Long Live Demon Lotus can hold the peach petals completely before Wiliam can hold it...

"Humhhhhh!" Peach Blossom Fairy suddenly let out a sharp cry in unison.

Wiliam's spirit was shocked
