

# Dragon Husband

Chapter 1517 Blood and Tears Battlefield

The atmosphere at the scene was stagnant.

Unexpectedly thinking of Gui as the deputy head of the sect, he directly attacked Wiliam.

It's a bit of a fuss.

However, Song Hanyu's eyes flashed cold.

She understood that Chen Zhongyan was not attacking Wiliam.

But to the person behind Wiliam.

Namely she and Liu Yuntian.

Knock the mountain and shake the tiger.

As soon as Wiliam was about to reply, Song Hanyu stopped him.

Song Hanyu said coldly: "Although Wiliam can't help everyone in the martial arts realm, he is a medical skill and believes that he can help everyone."

This is something she came up with temporarily.

Hearing Song Hanyu's words, Chen Zhongyan smiled sorrowfully, "Medical skills? It really is the thing you are most interested in, no wonder you pick him up in person. But what's the use? Don't waste your time."

Chen Zhongyan's minions also laughed.

"Oh, it's true that if you are poor, you will change, and if you change, you will change. I know that I am born with a waste of blood. What can I expect in martial arts, and I have actually cultivated medical skills?"

"But what's the use? I'm only in my twenties, and my medical skills are not good enough to get started. Can I cure colds and coughs?"

"Okay, no need to say more. Now that everyone is here, let's go." Chen Zhongyan stopped the laughter of those present.

He looked at Wiliam again, "You are the one who is pressed from above, and I can't take you without me. However, I said the ugly thing first, according to the master's explanation, this time I went to the battlefield of blood and tears, and whoever got the contents would return. Whose, you'd better not be greedy and act rashly. If it causes damage to the team, I will be the first to kill you!"

Chen Zhongyan has great expectations for this trip to the battlefield of blood and tears.

It's rare that this expedition order is obtained by the treasurer, and he is bound to get something in it.

But if there is an insect that disrupts the rules, let alone Liu Yuntian can't keep it, even if the lord comes over, it can't keep it.

"We know that we will be at the very end and will never interfere with your actions." Song Hanyu said coldly.

"Huh, it really came to be gilded, I guess the next step is to join us in the golden jade volley with the name of birth and death."

"Nine kings bring a bronze, and a little trash, how can He De rub welfare like this?" Some people murmured again.

"Let's go." Chen Zhongyan glanced at Wiliam deeply, then got up and walked forward.

The battlefield of blood and tears is far from where they are now.

It took a full day and night and finally arrived in the early morning of the next day.

This is a jungle, and there are countless towering trees.

It's basically a place off the beaten track.

Chen Zhongyan led the team and came to an old tree entwined with vines.

There are too many vines on this ancient tree.

The torso that was originally hugged by two people, under the entanglement of the three circles in the vines, has become a width that requires five people to hug each other.

However, Chen Zhongyan walked to the side of the tree, full of anger, and strangled a vine directly.

A big black hole suddenly appeared on the torso.

Wiliam was also surprised, not thinking that the entrance to the battlefield of blood and tears was actually inside the trunk of a tree.

Nature is nothing strange.

"Keep up, don't blame me for falling behind." Chen Zhongyan said in a cold voice, leaning straight into the black hole.

When the others heard this, they jumped in one after another.

Wiliam was the second to last to go in, and Song Hanyu was behind her to protect him.

Jumping into the hole, it was dark on all sides, but people kept falling.

This fall took a full minute or so.

According to common sense, the battlefield of blood and tears should be several hundred meters underground.

As soon as he landed, Wiliam's eyes lit up suddenly, but his body shuddered involuntarily.

I've heard of ice and snow here before, and it is true.

And, it's not just ice and snow.

The ice and snow treats martial arts practitioners or those who seek immortality simply.

But here it can be said to be cold and cold, and there is a kind of chill deep into the bone marrow.

Even Song Hanyu, his face pale when he came down, and whispered: "The chill here is a bit weird! The Huajin Martial Artist is afraid that it will not be able to resist it at all!"

As she said, she stretched out her hand and lightly printed it on Wiliam's back, giving Wiliam some internal strength, trying to help him relieve the chill.

But Wiliam hid gently, smiled and shook his head, "Don't use it for now."

Chen Zhongyan and his party apparently saw this scene and sneered.

"I can't even stand the chill here and dare to come down. As expected, people die for money and birds die for food."

"Well, don't talk nonsense. According to the previous plan, the seven of you will spread out in seven directions to explore the road first. As for the two of you, sit back and enjoy your success." Chen Zhongyan glanced at Wiliam and Song Hanyu.

The seven people took their orders and galloped away in seven directions.

Wiliam turned a deaf ear to this.

He has fallen into the inner dialogue with Tianqing Qilin.

As soon as he entered the battlefield of blood and tears, the Azure Kylin took the initiative to speak out.

"Well, this place... so familiar taste..."

"What's the matter, senior? This place is the battlefield of blood and tears I visited last time. There should be things left of you in it, right?" Wiliam asked inwardly.

"Well, it does. And it's an important thing for me." Azure Qilin said slowly.

"what?"

"Relieving tears and ice jade." Tianqing Qilin said with emotion, "you must have a lot of doubts in your heart, I will start from the beginning."

"I remember this place. It should be the first turning point in the battle between the Monster Race and the Human Race at that time. At the beginning of the war, we were evenly matched with the Human Race, but in this place, we were suppressed by the Human Race for the first time and we were completely defeated since then. "

"Back then, I was injured here for the first time. The ice jade that I held was also popped out of a hole here."

"And the reason why this place has become so icy is probably because of a small piece of my teary ice jade."

Wiliam's hair was terrified when he heard this!

The reason why the place is cold and freezing is only because a small piece of the tear-relieving ice jade is here!

After tens of thousands of years, the fragments have not only been damaged, but have created such an ice world!

It is conceivable that the tear-relieving ice jade held by the predecessor of the Azure Qilin back then is so powerful that it should be enough to destroy the world!

"What on earth is Xilai Bingyu?" Wiliam asked the doubt in his heart.

"Ho ho, the Xilai Ice Jade is an extraordinary immortal martial arts, you can't touch it at this level yet. But the effect, simple understanding, there are two anti-sky effects, one is the simplest power of frost, and the other is Well, it is interesting, the power of space. You have also seen the power of frost. A small piece of debris can be left so frosty and cold. If it is driven at will, according to your current martial arts realm, build below the state of mind No one has the power to resist. As for the power of space, it is even more terrifying. The Xilai Ice Jade can contain all things, and it can also cut through the space. If you completely master the Xilai Ice Jade, you can become the master of space. It is a pity, back then. I don't have a complete grasp of the tear-relieving ice jade, but I let it shatter, which is a pity."

Wiliam was shocked by this remark, but also felt sorry for the Azure Kylin.

However, the Azure Kylin immediately changed the conversation, "Ho ho, boy, your chance is here! You see, you can't grasp it!"
