

# Dragon Husband

Chapter 1546

Wiliam looked at Song Hanyu, wondering what she meant?

Song Hanyu said softly: "Wiliam, I know that your mindset is bigger than ours. But this time the nine qualifying matches are extraordinary."

Wiliam motioned her to continue.

Song Hanyu said: "You have toiled to this place, there should be very important things to do, right? Even if you don't have one, you should always have the heart to pursue martial arts or medical skills? Nine sects are no longer in your vision. Within, I can't argue this point. But what about the six methods above the nine sects? What about the three heavens above the six methods?"

"If you want to go to a higher platform, you must let the people above see your achievements. And this nine qualifying matches is a good opportunity. No matter which side you represent, as long as you can get on stage, I am confident that you can attract the attention of the people above."

Song Hanyu's words caused Wiliam to fall into contemplation.

His biggest purpose here is to find clues to his grandfather and his biological father.

Now Grandpa's clues have been found almost, and the rest is the whereabouts of the biological father.

Regarding his biological father, he had also euphemistically asked some people before.

But they don't know.

I don't know, it means one thing to Wiliam.

Father is at a higher level.

Since I can't find my father, it's better to let my father come to me.

The thought in Wiliam's heart gradually took shape, and his expression gradually relieved.

Of course, Wiliam also had another purpose, which was to untie Li Chunfeng's happy knots, to turn her into a cold and ruthless body, and to make her an ordinary woman rather than an involuntary emperor.

All this requires Wiliam himself to have a higher strength and realm.

It seems that Song Hanyu's remarks are not justified.

After Wiliam wanted to understand, he nodded and said, "You can tell me about the next nine qualifying matches. I don't know much about it."

Seeing Wiliam loosen his mouth, Song Hanyu smiled and said, "Well, Yuntian, let's talk about it. You know it better."

Liu Yuntian quickly explained the nine qualifying situations one by one.

Nine qualifying matches are the biggest event in the outer world, held every 20 years.

Nine cases participated in the competition, as well as those other sects qualified for shortlisting.

As for the qualifications, Wiliam was not very interested in knowing, so he skipped over.

But adding up, there are nearly a hundred sects, large and small, but the maximum limit is only 100 sects can participate.

The top judges of the nine qualifying matches are all represented by people from the three methods. Only the three methods can decide and announce the final ranking.

This is also the biggest reason why Song Hanyu said that this platform can attract attention from above.

Participate in the Nine Sect Qualifying Tournament, each sect is only allowed to send three people or less than three people.

And the age must be under fifty.

This also directly limits the possibility of those old monsters playing the game.

Young people are the infinite possibilities of a sect.

And there is one biggest change this year, which was just released yesterday.

That is the points system.

For example, if one hundred sects participated, that would be three hundred contestants.

Registration age of each participant before the competition.  
In a two-by-two match, the winner gets 50 points for the victory base score.

If the winner's age is younger than the loser, it will be accumulated by one year younger plus 10 points.

For example, one party is 40 years old and one party is 50 years old.

Forty-year-olds win, the basic score is 50 points, and the age difference is ten years old, then 100 points are added, and the total cumulative points are 150 points.

As you get to the back, the basic score and age difference will get higher and higher.

This is also to encourage young people to advance all the way to the end.

Finally, rank according to the accumulated scores of each sect.

Of course, the veteran Jiuzong players will be assigned to different competition areas.

Of course, it also involves some very detailed points system.

This was too early for Wiliam, and he didn't care about it.

On the whole, Wiliam became more and more interested.

The points system is a bit new.

According to this point system, as long as there is a newcomer who is strong enough to guard against the sky, the points can blow everyone's attention.

But Wiliam didn't think this was a BUG.

Because at this place, everyone's strength level is similar, and they will probably send at least half a step of innate warriors to play.

When the time comes, the only difference is the age.

Living an extra year, although occupying a disadvantage, it has more experience and practice.

From this perspective, it is also another kind of fairness.

Quite interesting nine qualifying matches.

"Wiliam, do you understand?" Liu Yuntian finished speaking in one breath, worried that the rules were too complicated, and Wiliam would not be able to understand it for a while.

But Wiliam nodded and smiled: "Very interesting."

He still had an idea in his mind.

It is estimated that Brother Lang will not participate, after all, he is already a person of Six Laws.

But will the second brother Lin Jiang participate?

Last time he was evenly matched with him at the Centennial Ceremony of the Evil Fist of the Earthly World, and the winner has not yet been determined.

The promised agreement hasn't been fulfilled yet.

Do you have a chance to meet your second brother again this time?

As Wiliam thought, the corners of his mouth twitched slightly.

Seeing that Wiliam was in a good mood, Liu Yuntian asked, "Then you plan to participate?"

Wiliam smiled and said, "Well, I actually planned to participate in it from the beginning. It's just that I have experienced a lot of things during these times, and this idea has faded. Now it sounds like I can participate."

Wrong, Wiliam planned to participate at first.

He heard about nine qualifying matches more than once when he was in the fragrant flowers.

When the fragrant people drove him out and took away his disciple token, Wiliam felt this kind of unhappiness in his heart.

The person who scented the blood will regret it sooner or later, and will come to him sooner or later.

After all, there are already few people who can handle Xianghua's blood, let alone young people.

As for the fragrant flower and blood, so far, it is clear that Wiliam can defeat the elder's sect.

So who didn't Wiliam go to?

Wiliam appeared on the stage, but it meant that someone more powerful than the elder appeared on the stage, isn't it fragrant?

I originally thought that everything went round and round and returned to the dust.

Unexpectedly, I still have to get to this point in the end.

Wiliam smiled and said: "Participate, you can send a message to the outside world, I want to participate. However, I will decide which sect to join in the end, understand?"

Liu Yuntian was taken aback, feeling a little pity.

If Wiliam participates, he is definitely a big black horse!

It is estimated that he is the only one who possesses extraordinary magic weapons.

If this dark horse is announced to participate, and currently there is no sect attribution.

People who inquire inside information should be robbed crazy, right?

"I'll do it right away." Liu Yuntian didn't understand what Wiliam meant, but he didn't hesitate to implement it.

However, as soon as he walked to the door, he met someone.

Fragrant flowers and blood, smell the love!
