Chapter 1661 Assembly

Su Emei blushed slightly after scolding.

How can you expose your vulgarity in front of so many people?

But there are still 10,000 grass and mud horses galloping through her heart.

She looked at Wiliam in disbelief and confirmed, "What did you just say? I couldn't hear it clearly because of the wind!"

Wiliam said lightly, "I observed Lingyu Jinniang on the way here just now. She has a large interior space and should be able to accommodate more than a thousand people without any problem."

Su Emei held it back for a long time before she held back the swear words she had spoken.

This word...

I want to scold people a thousand times.

What do you think of Ling Yu Jinniang!

Ling Yu Jinniang is a treasure they cherish in the world!

But this one treats Lingyu Jinniang as a means of transportation?

And one thousand people are lucky!

What do you want to scold him for?

"No, why do you want so many people to go there? Don't you just bring the family of your three brothers there?" Su Emei couldn't help but ask again.

She was very insecure when asked.

She remembered a detail.

On the way here, she was in Lingyu Jinniāng's belly, and she began to look around with malicious intent.

Could it be that he had already thought about it on the way here?

William shook his head, his expression became solemn, and said, "I have already thought about the way I came here. Now that such a big thing has happened again, I am even more sure that I will take all the people I have here. Take it with you."

Su Emei's expression froze.

Sure enough.

This guy had bad intentions in the first place.

"But that's not right. Even if you brought all the three brothers over, there wouldn't be that many, right?" Su Emei said with consideration.

The family members of the three brothers could not survive more than 100 people.

Even if the entire Medicine Knife family was taken away, there would only be four or five hundred people.

Where did one thousand come from, there are many more.

William said: "I still have my forces here, and I plan to take them there together."

William doesn't dare to be careless now.

This time he left the world of the mortal world, and he didn't know when he would come back.

If there is another accident here, how can he get support from far away?

So, just take it all away.

Move your roots to the land of the common people.

The unicorn power was originally the last gift grandpa left to William.

Now he's ready to take it with him.

Add up, um, more than a thousand people, no problem.

And how to settle down, William thought about it.

Women, look at the will, and those who want to go to the red and thin high-rise buildings.

For a man, Jin Yu Lingkong, Can Jian Jiutian, etc. can also go over to help.

Even Wiliam had an idea to throw all the men in the Qilin situation to Zhige in Lanshan.

Going to sharpen them can make them adapt to the life of the strong man like a forest more quickly.

Of course, all of this requires their opinions.

"..." Su Emei didn't know what to say.

And Wiliam didn't pay any attention to what Su Emei had in mind.

He turned around and said to Li Chunfeng: "Chunfeng, I would like to trouble you with one thing. The people who helped me inform me of the unicorn situation will come here as soon as possible. I have something important to tell them.

Everyone in Qilinshi has their own family behind them.

But it is also impractical to bring all the families there.

Wiliam just wanted to ask them, anyone who is willing to learn from the past can go with him.

For those who are unwilling and want to stay here, Wiliam will not force it.

Li Chunfeng knew that it was a big deal, nodded, and went to the side to make a phone call.

Afterwards, Wiliam made another arrangement, asking Su Emei to notify Lin Jiang's family, and the Medicine Knife family to also notify the people who fled just now to come back.

After this battle of blood and fire, the Medicine Knife family was completely reborn.

They know that there are people outside the universe.

It is also through this opportunity that the Medicine Knife family can go to see a higher world.

It's been over an hour since all this was arranged.

William was free now and sat down with his friend.

It's just that, because of the blizzard and snow in front of them, everyone was in no mood to talk nonsense.

William briefly explained their foothold in the commons.

Everyone was dumbfounded.

I'm afraid that only the three brothers can do it.

As soon as the three of them passed by, the blue python screamed, and a hundred beasts greeted...

This deck...

Everyone was shocked to think about it.

"William, what are you going to do about the wind and snow?" Li Chunfeng finally asked.

Without thinking, William said, "When I get there, I will naturally ask all my friends to help me find out who might be able to save her. Besides, I have a possible guess..."

"What guess?" Everyone's eyes suddenly focused on William.

William opened his mouth, shook his head again, and said, "This possibility, I'll see it later, I'm not very sure myself, I can only say that I did what I was supposed to do, and everything depends on my fate."

"Okay." Everyone knows William's temper. If he is not 100% sure, he will not make rhetoric.

Next, William spent a day gathering all the people of the Qilin situation.

Mulan, Angry Horse, and the God of Wealth were naturally surprised when they saw William.

But knowing that William was going to transfer the entire Qilin situation to the land of the common people, the three of them fell into contemplation.

“So, let’s go to ask everyone’s opinion right away, don’t force it, how about it?”  
Mulan stood up and said to Wiliam.

The carefree Mulan has no meaning to stay here for a long time. Why don’t you go to meet the world with Wiliam.

But others are different.

Wiliam nodded and said, “That’s what I mean. Time is running out, so you’ve worked hard.”

Mulan knew that the matter was a big deal, and there was no delay, so she took people down to ask for advice.

And the Medicine Knife family itself is a big family, so naturally they are willing to leave with Wiliam.

They are also afraid that the catastrophe like yesterday will happen again.

It took another day for Mulan to report the situation of soliciting opinions to Wiliam.

Two-thirds of the people in the Qilin situation chose to continue their journey with Wiliam.

After all, entering the Qilin situation is equivalent to selling your life to Wiliam.

It is obligatory to continue with Wiliam.

One-third of the people really chose to stay here because they kept breaking up with their parents.

So far, all the people add up to nearly a thousand people.

On the third day, Wiliam called everyone to gather on time and prepare to go to the land of the common people.

Of course, everyone was amazed when they saw that Ling Yu Jinniāng suddenly turned into a giant.

This is just the first miracle they have seen.

After Su Emei asked Lingyu Jinniāng to suck everyone into her body, just as she was about to move forward, Wiliam suddenly asked, “When you came, how did Lingyu Jinniāng come here? Have you ever crossed the Cang Python?”

Su Emei shook his head and said, “How is that possible? The Cang Python moat is banned and cannot fly through the sky at all. Our Lingyu Jinniāng is made of

special materials and can directly travel through space. We are also using the same thing now. The way to cross. Is there a problem?"

William's eyes became deep, and he looked at Su Emei and said, "Let's fly directly over the Cang Python Scratch!"
