Chapter 1664 Extreme Bloodline

William's remarks were obviously emotional.

Who said that only petite Rou misses her lover.

Why not yourself!

After being separated from Feng Xue for so long, it was not easy to be able to come back to see her, thinking that she will never be separated from her and stay together.

But what is waiting for?

What is waiting is the wind and snow hanging by a thread!

How could he be alone!

If something happened to the wind and snow, William wouldn't dare to live alone!

After thinking about it, the biggest possibility was placed on Petite Rou's body.

Because Peach Blossom had once made two promises to him.

One is the root of the grandmother, which Peach Blossom Lady had already given to William.

And another promise is on the body of Petite Rou.

At that time, Lady Peach Blossom said that if possible, when the wind and snow were crossing, let Petite Rou help her inherit her bloodline.

At that time, William felt that this promise came at the right time for Feng Xue.

Fengxue is the bloodline of Frost, and Petite Rou's body is a Frost Cang Python that is unique in the world.

The same is the Frost bloodline, the possibility of Fengxue inheriting the bloodline is very high.

Even Petite Rou's powerful bloodline can help Feng Xue restore her previous strength in one fell swoop, maybe even stronger.

It's a pity that people are not as good as God.

Feng Xue's blood marrow is now completely destroyed, and I don't know if he can still accept the bloodline inheritance.

So Wiliam just thought in his heart, this is a possibility, and he can't be completely certain.

And these words instantly resonated with Petite Rou.

With the world people!

Petite Rou looked at Feng Xue, who was lying on the ground behind Wiliam, and asked, "So, did you forcibly hang her with the roots of the little peach blossom?"

Wiliam nodded, "Yes."

"The root of the Xuanhuang peach blossom can escape the cycle of life and death, and it has infinite magical uses. To be honest, you can't use it on her and it can't play a ten millionth of its effect. It's just used to hang her, don't you think it's a waste?" Petite Rou asked Wiliam.

Wiliam shook his head and said without hesitation, "I don't think it's a waste. As long as my wife is alive, it's the best magic in this world."

Obviously, Wiliam's remarks once again aroused petite Rou's approval.

In this world, only love is invincible!

This man with the blood of the ancestor of the ancient unicorn is really good!

Lovers of the world!

"The last promise Xiao Taohua made at that time was to let me pass on my blood to her, right?" Petite Rou has no doubt that Wiliam will lie to her now.

Such a man is so upright and tender, why should he lie to her for a little girl.

Wiliam nodded.

Xiao Xiaorou frowned and said, "I may have something to say before. My bloodline is very special, it is the bloodline of the extremes of heaven and earth. Ordinary people are afraid that they cannot inherit my bloodline at all. Once they cannot adapt to the inheritance, they will explode in an instant body to death!"

"What is the bloodline of the extremes of heaven and earth?" Wiliam asked back.

"In this world, the top of the bloodline is the bloodline of the four ancient beasts of virtue. The supreme golden dragon, the ancestor of the ancient unicorn, the ancient Vermillion Bird, and the negative book Xuanwu. The bloodline in the world is unparalleled." Petite Rou explained slowly.

"Under the top of the bloodline, the extreme bloodline is the most powerful. The so-called extreme is the extreme attribute. For example, the extreme frost and cold, the extreme burning flame. As far as I know, there are no more than three kinds of extreme bloodlines in the world. I am one of them. Therefore, my bloodline inheritance cannot be endured by non-talented people.

After Xiao Xiaorou finished speaking, she looked at Wiliam apologetically.

However, Wiliam smiled instead, "Extremely bloodline? You might as well check my wife's condition for me."

Petite Rou had an embarrassed look on her face, but she still walked over, preparing to investigate Wiliam's wife's bloodline.

She just didn't want to embarrass Wiliam.

After all, the ultimate bloodline is rare in the world.

However, when her hand rested on the frost and snow, she was dumbfounded!

Shock!

ecstasy!

Even speechless!

She looked at Wiliam in amazement, and was speechless for a while.

Or Wiliam asked, "How?"

Only then did Petite Rou manage her expressions, and she still said in shock, "She really is your wife!"

Wiliam nodded, "This is fake!"

"It's too coincidental! Your wife is actually of the ultimate bloodline! What's more, her extremeness is also extremely frosty and cold! It's almost the same as mine!"

"What is even more incredible is that she was born purely from heaven and earth, and did not rely on acquired strength to accept other mottled inheritances! For me, she is the best inheritor!"

"Moreover, this kind of natural bloodline is still alive to this day! I am really shocked!"

The more petite Rou said, the more excited she became, and the whole person was already incoherent.

"That's great! That's great! In this world, there is still an extreme bloodline! Wiliam, even if Xiao Taohua has not made a promise to let me help her inherit her bloodline, I am very happy to help her inherit it! After all, People who are in line with my bloodline are really rare!"

Seeing that she was still chattering, Wiliam didn't interrupt her.

In Wiliam's heart, he gradually breathed a sigh of relief.

Sure enough, I guessed it right.

Feng Xue's bloodline is very compatible with Petite Rou's.

The first step is to step out!

Feng Xue was born with a cold body, and she has suffered from cold body since she was a child.

If Wiliam hadn't been silently dispensing medicine for her to help her live, Feng Xue would have already died from the frost.

Petite Rou's shock is not justified.

The body of frost is not easy to survive.

Usually in their teens or twenties, they can't stand the bitterness of frost and die.

But if he had accepted other martial arts and hanged his life at that time, his blood would be more or less mottled.

The current wind and snow is extremely frosty and extremely pure!

It's exactly what Petite Rou is looking for!

Next, we can only hope for the second step.

William saw that the petite Rou gradually calmed down, and then continued: "Xiao Rou, don't get excited, I want to tell you a very unfortunate news, although my family Fengxue is born with extremely cold blood, but her blood marrow is completely Ruined, I wonder if I can accept your bloodline inheritance?"

"What! The blood marrow is ruined!" Petite Rou was stunned again.

She still didn't believe it, and hurried over to check Bai Fengxue's body.

After this inspection, her brows were tightly locked.

This made William nervous.

After all, the greater the hope, the greater the disappointment.

Could it be that without the blood marrow, even Petite Rou can't do anything about it?

"Xiaorou, this is what I want to ask you. Do you have a way to save my wife? Even if she can't accept the bloodline inheritance, it doesn't matter, as long as she can survive." At this point, William said his request. .

However, after speaking, Petite Rou revealed a very complicated and bitter smile.

"Who said that if the blood marrow is destroyed, it cannot be inherited?"
