

## Dragon Husband Chapter Chapter 1904

Chapter 1904 Open the Border! Expand the soil!

This sentence obviously made Chi You feel very useful.

He stopped mocking William, just snorted coldly, and continued to concentrate on dealing with the aura that erupted in front of him.

And Chi You was obviously holding back another breath.

He was putting the scene in front of him into another battle on the spot.

In ancient times, he and Tianqing Qilin were deadly enemies and fought endlessly.

Now that many years have passed, he has reunited with Tianqing Qilin.

Another battle begins.

He held back his strength, intending to overwhelm the Tianqing Qilin.

Prepare to let William open his eyes to see who is more powerful than Tianqing Qilin.

So, Chi You frantically satiates the spiritual energy in front of him.

And the sky blue unicorn obviously also noticed this scene.

He just shook his head helplessly, smiled and said nothing.

After so many years, Tianqing Qilin has long since let go of the fighting obsession in his heart.

Chi You is superfluous.

A long time has passed.

Chi You's expression turned cold and sarcastic, and gradually became serious.

And Tianqing Qilin's face is the same.

The aura was still running wild, and there was no sign of it stopping.

William felt bitter in his heart.

He did the math, the spiritual energy in front of him was more than a hundred times more than the spiritual energy he had sucked before.

If it weren't for Chiyou and Tianqing Qilin, he would have died a long time ago.

Spiritual disaster, really terrible!

No wonder the ancient masters wanted to seal the spiritual disaster.

William can't imagine that if the spiritual disaster is not sealed, who else can successfully break through to the level of spiritual disaster!

"William! Success or failure is here! Next, only when I have no distractions, can I achieve merit. I will let go of my consciousness and use my body instinct to swallow spiritual energy. If I want to die, I will die together!" Chi You rarely said to William Such a sentence.

The Tianqing Qilin on the side also nodded and planned to do the same.

Has reached the inflection point of the aura runaway.

William nodded and bowed respectfully to the two bosses, "Thank you two seniors! The victory and defeat are all in one fell swoop! I hope the three of us will be able to fight this world again!"

After all, William also sat down cross-legged, emptied his consciousness, opened his heart, and welcomed the runaway spiritual energy in his full state.

The three of them sat cross-legged in silence.

First, William, a wisp of blood overflowed from the corner of his mouth.

He couldn't bear it at first.

Then, there is the sky blue unicorn.

His body glowed brightly.

After the cyan light, it can be seen that his scales are cracked inch by inch!

In the end, it was Chi You, whose facial features were all oozing blood.

The three of them didn't pay attention, as if the world had returned to peace.

Let the spirit rage.

Although William couldn't see, his mood became clear at this moment.

Feel the darkness of this little sister, feel the raging aura.

Feel the heavy breathing of the two ancient powers!

Silence and noise are two completely opposite environments.

But the strange thing is that in Wiliam's mind, there is a harmony of coaxing and calming down.

Wiliam seemed to see all of this clearly and transparently.

He finally saw it!

See where the problem is!

The problem is in yourself, can't you swallow more spiritual energy?

Do not!

The problem arises with the two great masters, is it because they are not strong enough to continue?

Not even!

Funny!

The source of the problem is not their strength.

I've been thinking wrong before.

Thinking of resignation, thinking of water coming to earth to cover up soldiers to block!  
not like this!

The source of the problem lies in this small world!

This dark world is really too small!

Wiliam had no reason, he just wanted to laugh.

Too small, small is completely unreasonable!

Tianqing Qilin and Senior Chi You are ancient powers!

With a roar of the unicorn, the world lost its color!

The main soldier raises his arms, and the warriors all over the world return to their hearts!

So powerful, they should stand upright and stand between the boundless heaven and earth, but how can they stoop to such a small world!

And I, Wiliam, have a bright future, like a dragon swimming in the shoal, let alone live in a corner!

it is good!

it is good!

it is good!

Since the world is too small!

Then how about expanding the territory!

Open this shoal into an endless ocean!

Expand this Pingyang into thousands of miles of rivers and mountains!

In this way, Fang will live up to me, and Fang will live up to the two ancient powers!

Wiliam seems to have caught something, his consciousness is more firm and determined!

And those auras seem to have discovered something!

They were so violent that they even abandoned the two ancient powers and rushed towards Wiliam frantically!

This scene naturally attracted the attention of the two great powers.

In fact, they were originally connected with Wiliam, and their consciousness was connected.

When they felt Wiliam's true thoughts, Tianqing Qilin took the lead in laughing.

The soldier, Chi You, was stunned for a moment before reacting.

What did he feel!

I felt a kind of fighting spirit that was already dead!

I feel a kind of heroism and madness that live with the world!

Is this Wiliam?

In Chiyou's heart, his impression of Wiliam changed for the first time.

In Chiyou's heart, Wiliam has always been a wise man.

Work in the heart, calculate the world.

And Chi You himself is a fighting maniac who will die without a fight.

I despise the wise in my heart.

It is very unpleasant to think that such a person is meaningless and live in intrigue all day long.

What's the matter, one punch is the way!

It was only because they used each other that Chi You compromised and kept himself in Wiliam's body.

Now he sees it!

I saw Wiliam's unprecedented pride!

I saw Wiliam's obsession with getting more and more crazy!

So, very good!

In this way, Fang will not let me live in hibernation in the body!

Thinking of this, Chi You also burst out laughing!

"Good boy, I'll accompany you for a walk! I'll give you all my care, what are you going to do next! I'll accompany you to the end!" Chi You laughed, turned into a streamer, and drilled back into Wiliam's body within.

Tianqing Qilin looked at Wiliam who was sitting cross-legged, and his eyes were full of love.

There is a successor!

Heaven has eyes!

Wiliam in this square has a great power!

The future is boundless, the future can be expected!

My unicorn blood will last forever!

Thinking of this, he also completely returned to Wiliam's body.

Wiliam was completely unaware, but there was a smile on the corner of his mouth.

He only knew one thing.

Reiki gave up the confrontation with the two bosses and turned to deal with himself.

It means that he has already grasped the source of the spiritual root this time.

So, these auras, they are afraid, they are unwilling, they are gathering fire, and they want to kill themselves!

And this is exactly what Wiliam wants to see!

He saw a road, a real road of thorns to success!

Then, come on!

You are the one who killed me!

Or I will completely destroy and rebuild this world!

In Wiliam's body, a sudden burst of strong pleasure!

Lao Tzu's world, how big you want to be, can't help you!

The old man said it, it counts!
