

Dungeon 551

Chapter 551 Killing

This time, the leader of the Yan family's team was the second head of the Yan family, Yan Li.

Thank you readers!

Moreover, he was a powerful hunter who was half a step away from becoming a level-90 king.

At the same time, the members that the Yan family sent out this time were mostly above level 80.

Although the lineup was not as luxurious as the Zhu and Qi families, it was enough to deal with a level-50 hunter like Lu Benwei.

Now, the endless sea of lightning accompanied Lu Benwei and was charging toward him!

"Rumble!"

The thunder rolled down, and the aftershock had already collapsed many abandoned buildings.

"What?" Yan Li was shocked. "How did he notice us?"

However, he did not have the time to think. Yan Li brought the Yan family members and fled in a hurry!

The lightning rolled down, blasting many people's skin and flesh, revealing their ghastly white bones. Miserable screams and angry curses continued. The Yan family members screamed as they fled!

The Yan family experts below level 80 could not withstand it at all. Their bodies and souls were all blown into pieces.

"Run to the city!" Yan Li ordered helplessly.

The Yan family's experts all fled into the city. Seeing this, Lu Benwei circulated his Lightning Speed and arrived at the center of the crowd!

"Rumble!"

Thunder rumbled and thunder rumbled in the sea of lightning, shattering everything!

However, one of the Yan family's experts was a spirit master, which increased the speed of many people. In the blink of an eye, they arrived at the center of Ha City.

"The Yan family sure has a lot of face. So many people are helping you block them!" Lu Benwei mocked.

"Lu Benwei!" An expert from the Yan family was furious. "If you have the ability, disperse your sea of lightning. Let's have a real fight!"

Lu Benwei ignored that person and sneered. "This is just a warning to you. I have no enmity with the Yan family. If the Yan family insists on my apology, don't blame me for not reminding you!"

After saying that, Lu Benwei finished circulating his Lightning Speed and disappeared into the air.

...

The wasteland was boundless and gray. It was desolate, empty, and cold under the lead-like sky.

Lu Benwei's arrival brought a warm voice to the wilderness.

He wanted to complete the seventh tribulation of the Nine Tribulations Regeneration Technique, so he could not be disturbed by anyone.

Thunder rolled down, stirring up a vast amount of dust.

Lu Benwei raised his palms to support the sky and directed all the lightning to attack his body.

"Rumble!"

The lightning fell, shaking the entire wilderness.

Lu Benwei's skin and flesh were completely shaken off, revealing his ghastly white bones.

This was already the end of the tribulation lightning, yet it still had such great power.

Lu Benwei let out a cry and summoned the Bronze Temple.

"Rumble!"

The tribulation lightning gathered and transformed into a heavenly sword that wanted to slash Lu Benwei's soul!

"Holy Light Shield!" Lu Benwei shouted.

"Heavenly Light Shield!"

This was the defensive skill that he was most proud of. It could help each other to block any attack in the world!

However, the Holy Light Shield only blocked for a moment before it shattered! Lightning struck Lu Benwei's body!

Lu Benwei circulated his origin-grade bloodline and released Primal Chaos Divine Light!

At the same time, the Ancient Sword of Clarity was also released and bathed in the sea of lightning!

If others were watching, they would marvel at Lu Benwei's boldness. He wanted to temper his weapon at the same time!

The Ancient Sword of Clarity trembled under the endless sea of lightning! Even such a divine artifact from ancient times could not withstand this true lightning strike!

However, the will of the sword had already fused with Lu Benwei and became extremely tough!

"Rumble!"

The earth shook as the tribulation lightning struck its final blow!

Lu Benwei circulated the sixth tribulation to repair his body and deal with this final attack.

In the distance, the Zhu, Qi, and Yan families were watching nervously.

“This is probably the last wave.”

“When the sea of lightning is over, we’ll charge over together!”

“Lu Benwei has gone too far and killed so many of our people!”

Just as everyone was discussing, the thunder suddenly stopped!

Zhu Qiyao and the other two families were overjoyed and attacked.

...

On the other side, the old beggar arrived first, grabbed the weak Lu Benwei, and ran.

“Brat, I’ve helped you so much. How are you going to thank me? I think you should teach me your healing divine technique.”

Lu Benwei slowly opened his mouth wide.

“Do you want to learn?”

The old beggar was surprised, and his eyes lit up.

Then, he pursed his lips and said, “Forget it. You’re just lucky. If it were me, I’d have been struck to death.”

Lu Benwei smiled awkwardly and fell asleep on the old beggar’s back.

The old beggar complained incessantly. His leg strength was not bad, but it was still far inferior to the level-90 kings of the Zhu and Qi families.

Even though they had a certain distance from the three families at the beginning, however, after chasing for a while, he could already sense the auras of five level-90 kings.

“Brat, don’t sleep yet. Think about what to do.”

The old beggar woke up Lu Benwei who was sleeping on his back.

Lu Benwei tried his best to open his mouth wide and said, “Run toward the outer region...”

The old beggar’s heart skipped a beat when he heard that.

Gritting his teeth, the old beggar muttered to himself, “As expected of you, kid. You thought of running to the outer realm!”

...

Desert City!

This was the northernmost city of the Dragon Kingdom!

Ever since the start of the class change era, the snow here had not melted all year round.

To the north of the Desert City was a vast ice field covered in white fog.

The Ice Wolf Army guarded the northernmost village of Desert City, Snow Village, to resist the invasion of foreign monsters and to protect the peace of the Dragon Kingdom.

A ten-meter-high city wall was built on the border of the Dragon Kingdom.

A company of level-60 hunters guarded the only exit to the outer realm.

“Damn it, the weather is so cold.”

“It’s already March, but it’s still so cold in Desert City. Chickens can’t even wake up in the morning.”

The new hunters complained non-stop.

“Be serious. We’re guarding the northernmost gate of the Dragon Kingdom,” someone advised.

“What’s the big deal? It’s been a few years since a monster attacked the northern gate.”

“We still have to prevent anyone from going to the outer realms.”

“Head to the outer realms?” That person laughed coldly. “Who is this person who is so stubborn? Northern plains are a desolate place, there’s nothing but fierce monsters.”

“Who is so stubborn to head to the Northern plains?”

As soon as he finished speaking, a deafening sound came from the center of Desert City.

The earth rumbled, and the Snow Village more than ten kilometers away was greatly affected.

“What happened?”

The Ice Wolf Army was on full alert, ready to go to the center of the city to provide support at any time.

At this moment, an old man carrying an injured young man rushed into the Ice Wolf Army’s camp. His eyes were filled with panic as he shouted, “Too scary, too scary.”

“Old man, what happened in the city?” a soldier asked.

“Monsters! Monsters have invaded!”

Chapter 552 Ice Field

Ever since the era of class change, the conflict between humans and monsters continued.

Thank you readers!

However, in the past 100 years, there had been no incidents of monsters invading the border of the Dragon Kingdom.

Even in the entire history of the era when everyone changed their classes, there were rarely any monsters that attacked the Dragon Kingdom’s Desert City from the ice field!

For a moment, when the old beggar mentioned the invasion of the monsters, the Ice Wolf Army stationed in the Snow Village immediately became as if they were facing a great enemy!

Nearly two-thirds of the Ice Wolf Army’s hunters had gone to Desert City.

The old beggar was also able to sneak into the outer realm.

The explosion that came from the center of the Desert City was caused by Zhu Qiyán's family chasing after the old beggar and Lu Benwei.

The old beggar used his mysterious footwork to successfully leave them behind. Only then was he able to enter the ice field in the northern part of the Dragon Kingdom.

By the time the Ice Wolf Army and Zhu Qiyán's families reacted, the old beggar and Lu Benwei had already disappeared from the vast ice field.

...

Lu Benwei and the old beggar had entered the icy field for a day and a night.

The tall and majestic wall had completely disappeared at the edge of the horizon, replaced by a vast ice field.

This place was known as the "white desert."

During the day, the strong sunlight shone on the boundless snowfield. The icy snow was as hard as iron, covering the ground.

Lu Benwei and the old beggar had arrived in a hurry and were not fully prepared. With every step they took, they would slip, and it was an extremely difficult journey.

It was spring in the entire Dragon Kingdom, and the days on the ice field in the same hemisphere were slowly getting longer.

The strong sunlight during the day made the entire ice field seem to rise, and the surroundings were filled with milky white light. Heaven and earth gradually merged into one. The white sky, the white earth, and the vast expanse of whiteness were like thick milk.

"Brat, I can't take it anymore. I can't see the road clearly."

The old beggar blinked his eyes hard and called back Lu Benwei, who was scouting ahead.

When Lu Benwei heard this, he immediately turned back. When he approached the old beggar, he immediately asked, "You have snow blindness. You have to find a place to rest immediately."

The old beggar's eyes were bloodshot, and tears kept flowing from the corners of his eyes.

"Where can I find a place to rest in this godforsaken place? Besides, aren't you in a hurry to find the Snow Lotus Seed? Let's hurry up!"

Lu Benwei felt guilty. All this while, he had been the one who had been dragging the old beggar into the icy field.

"Why don't you stay in the Bronze Temple for a while?"

The old beggar shook his head. "No. You might cause some trouble later. I don't feel safe staying in there."

Lu Benwei was speechless.

“Am I that much of a troublemaker?”

“Don’t you feel guilty when you say that?” The old beggar rolled his eyes at him.

At this moment, the Six-tailed Crocodile in the Bronze Temple spoke, “Big Brother, won’t it be better if you let me go out? I can carry the old beggar with you.”

“Sigh, that’s a good idea!” the old beggar said.

Lu Benwei thought that there was probably no safer way than this, so he released the Six-tailed Crocodile and the Blood Monster.

“I’m finally out to breathe in the fresh air. I’ve been staying with that bloody monster all day. I keep feeling that one day, all the blood in my body will be sucked dry by him!”

The giant crocodile patted his belly excitedly and rolled on the ground several times.

When the First Mountain Secret Realm collapsed, the crocodile unexpectedly obtained a great opportunity. His original three tails became six, and each one was thick and powerful.

At its peak, the crocodile could become as huge as a mountain, and his body seemed to be made of gold. He moved like a mountain of gold.

The old beggar crawled to the back of the crocodile and leaned against a protruding scale to rest.

Lu Benwei and the Blood Monster also sat down.

“Big Brother, where are we going now?”

Lu Benwei held the Ice Lotus in his hand. There was a fluorescent light flickering in the middle of the icy blue stamen. This was the Ice Lotus guiding him.

Along the way, Lu Benwei followed the fluorescent light on the Ice Lotus.

“Go in the direction of the sun,” Lu Benwei muttered.

“Alright!”

The Six-tailed Crocodile shook his thick tails and ran straight toward the place where the sun set.

“Rumble!”

The huge body was moving like a mountain.

Lu Benwei sat cross-legged and casually chatted with the Blood Monster.

“The outer realm is your territory, but why haven’t we seen any monsters along the way?”

The Blood Monster looked at Lu Benwei with disdain. “Which monster would be willing to take root in this godforsaken place?”

“There isn’t a single clan here?”

“None!”

Lu Benwei was quite surprised. It was the first time he had heard of this secret.

“But I’ve heard a legend. The bloodline of the ice-type monsters in the Dragon Kingdom comes from the ice field,” Lu Benwei said, “But now, why can’t I see even a strand of monster fur?”

“You said it was a legend. How could it be true?” the Blood Monster rolled his eyes and said impatiently.

Lu Benwei let out a breath and stopped talking to the Blood Monster.

On the vast ice field, only the rumbling of the Six-tailed Crocodile could be heard.

“It’s not that there are no living beings.”

Lu Benwei was resting with his eyes closed, but he opened his eyes when he heard the Blood Monster suddenly speak.

“What do you mean?”

“You humans have your own legends, and we monsters have our own legends,” the Blood Monster said.

The old beggar was also interested. He sat up straight and began to listen.

“We monsters have seven royal clans consisting of five imperial clans and three ancestral clans,” the Blood Monster said, “Now, there are only five royal clans, three imperial clans, and two ancestral clans left.”

“These five clans were originally from the ice field?” the old beggar asked.

“Yes.” The Blood Monster did not deny it.

“According to legend, the icy field was once a land of vitality and prosperity where all clans lived together. The monsters on the icy field are still coexisting with you humans...”

At this point, the old beggar and Lu Benwei’s mouths were wide open.

“Wait, what did you just say?”

“What?” The Blood Monster was confused. “The monsters on the icy field still coexisted with you humans?”

“Impossible!” The old beggar immediately jumped up. “How can we humans coexist with you magical beasts? Other than the Dragon Kingdom, where else can humans survive?”

The Blood Monster shook his head. “I’m not sure about that. Anyway, that’s what my grandfather’s book said.”

“It’s not impossible for humans and monsters to coexist,” Lu Benwei suddenly said.

“How is that possible?” the old beggar said anxiously.

“Then who are we talking to now? Isn’t it quite peaceful?” Lu Benwei asked back, making the old beggar choke.

Chapter 553 Strange Attack

Just as Lu Benwei said, the old beggar and the Blood Monster got along quite peacefully.

However, when the old beggar heard about the monsters, he had a look of deep hatred. This was a little contradictory.

“Let’s not talk about this for now. Tell me quickly what happened next!”

The old beggar waved his hand impatiently and turned his head away.

The Blood Monster rolled his eyes, swallowed his saliva, and said, “But one day, a meteorite fell from the sky and landed on the ice field. The entire ice field was set ablaze. The ancestral clans, the royal clans, and all the monsters on the ice field evaporated after the fire!”

!!

“Wait, are you talking about the Big Bang 500 years ago?” Lu Benwei said in surprise.

The old beggar also straightened his back, his face filled with shock.

“What? Is it recorded in your human history books?”

“Yes!”

Lu Benwei nodded and said, “Since the beginning of the era of class change, the conflict between humans and monsters has been endless. It was only when the eight level-99 ultimate kings appeared on the same stage that we humans gradually gained the upper hand.”

The eight level-99 kings Lu Benwei mentioned were the ancestors of the eight great families.

However, it seemed that the laws of the world did not allow it, and there could only be one ultimate king in the same era. In the era when the eight kings were on the same stage, humans had blown the horn of their counterattack.

A small portion of the monsters in the Dragon Kingdom was killed, and most of them were chased out of the territory.

In the third year after the fall of the eight kings, the Dragon Kingdom built the Great Wall along the border.

Other than a small portion of the monsters in the secret realm that were good at wreaking havoc, most of the monsters lived in the outer realm.

With the existence of the Great Wall, if the monsters wanted to invade the Dragon Kingdom, they had to work together to launch a disaster. Over the past few hundred years, disasters of all sizes had occurred. Every time, it was suppressed by the alliance of human experts.

One of the disasters was very special. It was the explosion in the sky that Lu Benwei had mentioned.

The explosion in the sky happened in the ice field. As the explosion occurred in the outer realm, no one in the Dragon Kingdom knew where the explosion occurred.

At that time, people only knew that from the northernmost Black Province to the Sea Province, mushroom clouds were observed!

Then, a loud bang sounded like thunder. Hundreds of millions of people in the Dragon Kingdom heard this huge bang.

Just the wave that came from it destroyed a large area of the Great Wall in the northernmost province of the Dragon Kingdom, the New Province, the Meng Province, and the Hei Province.

The humans and the monsters fought a bloody battle for three years before they finally calmed down.

Therefore, the explosion in the sky was a very important historical node for mankind.

“Our history books believe that it was you monsters who wanted to destroy the Great Wall and joined forces to launch a world-destroying skill,” Lu Benwei said faintly, “It’s a pity that you monsters went astray in the end, and we humans managed to escape this calamity.”

“Bullshit!”

The Blood Monster smiled noncommittally.

“You humans are quite arrogant. You jump to conclusions without investigating. It was us monsters who did it? We even vaporized some of our compatriots? If I were the leader who participated in this decision at that time, I’d have killed myself!”

Lu Benwei smiled bitterly.

Clearly, what the Blood Monster said made sense.

At that time, the higher-ups of the Dragon Kingdom came to a conclusion and fooled this period of history.

“What happened after that? Did you monsters investigate what happened?” Lu Benwei asked.

“At that time, we thought that it was the king’s doing. After the crusade ended, the remaining ancestral clans discussed with the imperial clans and royal clans and sent out the elites of each clan to investigate.”

Lu Benwei, the old beggar, and the Blood Monster had different identities.

The humans were at a disadvantage and called the war with the monsters a disaster. On the contrary, the monsters had the advantage, so it was called a great crusade.

“But in the end, other than a mountain range, there was nothing else.”

After the Blood Monster finished speaking, Lu Benwei and the others finally understood what had happened on the ground under their feet.

“Right, why do you monsters feel bad for us humans?” the old beggar asked again.

“Who knows? I asked my grandfather the same question. One moment, they say that you humans have occupied our territory, and the next moment, human flesh and blood have greatly helped us in our

advancement. That's what he said, but I don't think he can tell me the secret. Or maybe he thinks life is too boring."

When the old beggar and Lu Benwei heard this, they said angrily, "In other words, you monsters have no reason to do so?"

The Blood Monster had yet to realize the seriousness of the matter.

"It's not that there's no reason. It's just that I don't know..."

Before he could finish speaking, the old beggar and Lu Benwei pushed the Blood Monster to the ground and beat him up!

"What do you monsters think we humans are? Are we the animals that you raised? You feel bored and start a disaster to massacre us humans?"

The Blood Monster was beaten black and blue by the two of them. He called out to the heavens but did not respond.

"I'm innocent, I'm really innocent! I, the Blood Monster Prince, swear that I've never drunk a mouthful of human blood since I was young!"

Lu Benwei spat out a mouthful of anger. "Then the resources that your family gave you, how many of our compatriots' bones are behind it?!"

"There's no justice, there's no justice!" The Blood Monster complained incessantly.

"Big Brother, can you stop arguing?" the Six-tailed Crocodile suddenly spoke.

Lu Benwei was still a little angry and said coldly, "Why? Do you want me to count how many humans you monsters have killed?"

The crocodile gulped. "No, Big Brother. Are you sure that someone isn't following us from behind?"

Lu Benwei was stunned when he heard this. Then, he turned around. Behind him was the vast ice field.

The bone-piercing cold wind blew a bone-piercing chill. Lu Benwei wrapped his clothes and said indifferently, "Just focus on the direction I gave you."

The Six-tailed Crocodile did not move immediately. He asked again, "Big Brother, is it snowing behind us?"

"Yes, it is."

"But why isn't it snowing in front of me?" The crocodile felt a chill down his spine. "And I keep feeling like someone is watching me from behind."

Lu Benwei was stunned. Just as the crocodile had said, there was no snowfall in front of them. Behind him, the snow covered the tracks left behind by the crocodile.

"It might be a snowstorm. It's not a big deal," Lu Benwei said.

“Big Brother, since it’s snowing, are there going to be dark clouds or something?” The Six-tailed Crocodile’s body was trembling.

Chapter 554 Terrifying Creature

Lu Benwei was stunned for a moment. Then, he turned around. In an instant, cold sweat broke out on Lu Benwei’s forehead.

Snow fell from the sky behind him, but the sky was white and flawless. Moreover, the snow was slowly approaching them. It was very strange.

“Don’t scare yourself. Maybe the wind blew you here,” the old beggar said with a straight face.

“When you say this, can you not shake your legs?” The Blood Monster said disdainfully.

However, his situation was similar to the old beggar’s. He looked straight ahead and did not even dare to look back.

!!

This was too strange. The sky was white and flawless, but there was a heavy snowfall behind them, following them like a ghost.

“Crocodile, speed up and lose him!” Lu Benwei ordered.

“Big Brother, I’ve already noticed this ghost snow, but no matter how fast I go, I can’t shake it off!”

The giant crocodile wanted to cry.

“Moreover, I also realized that we’ve been going in circles!”

“Don’t panic! Go right!” Lu Benwei ordered again.

Humans could not walk in a straight line with their eyes closed. Even if he thought that he was going forward, he would still turn left and return to the starting point.

In the vast snowfield, there was no reference point in the surroundings, so it was easy for such a situation to occur.

Lu Benwei did not know if the crocodile would be like this. Now, he could only try his luck.

The giant crocodile responded and quickened his pace.

Soon, everyone’s scalps went numb. They were back to square one! The traces left behind by the giant crocodile earlier appeared in front of them!

The shallow layer of snow on it proved that it was left behind by the crocodile!

“Crocodile, what happened to you?” The old beggar complained.

“I don’t want to either, but I’m just moving forward. How can I return to the starting point?” The crocodile was also shocked.

“What’s going on? Lu Benwei, can your Eye of Insight find anything?” The Blood Monster asked.

Lu Benwei activated his Eye of Insight and scanned his surroundings. There was no one else on the snowy plain except them!

Suddenly, the crocodile let out a blood-curdling scream as his blood splattered across the sky.

“Argh!”

Everyone was shocked. Lu Benwei immediately released a healing technique. “Crocodile, you’re too big. Turn into a human!”

The Six-tailed Crocodile gritted his teeth and turned into a bearded middle-aged man with a big belly. Fresh blood flowed out of the crocodile’s waist, drenching the white ground.

“Did you feel someone attack?” Lu Benwei asked again.

“No, it’s like a ghost slashed at me!” The giant crocodile was trembling all over.

The old beggar and the Blood Monster also expressed that they did not notice anything strange.

“The enemy has the ability to change space. It’s very likely that they want to split us up and take us down one by one! How about this, let’s hold hands and advance together!” Lu Benwei said in a deep voice.

“Good!”

He was like a ghost, unable to detect the aura of the enemy, and was able to slash the enemy silently and powerfully. These revealed the strength of the enemy!

The four burly men held hands and marched forward!

After taking a few steps, the Blood Monster let out a violent scream. His left arm was cut off silently, and scarlet blood sprayed out.

“My hand!”

The Blood Monster was furious. He opened his mouth and spat out demonic light in all directions!

“Rumble!”

The thick layer of snow was shattered, revealing the pitch-black surface of the earth.

There was still no sign of the enemy. Other than the panting of a few people, the world was exceptionally quiet.

“Where’s the old beggar?” Lu Benwei said in surprise.

Originally, from left to right, their team consisted of the old beggar, the Blood Monster, Lu Benwei, and the Six-tailed Crocodile.

After the Blood Monster’s left arm was cut off, the old beggar disappeared! The next second, the crocodile shouted, “The Blood Monster is gone too!”

Cold air came out from the backs of Lu Benwei and the crocodile. The enemy’s ability was simply too strange!

Suddenly, Lu Benwei's arm was cut open and hot blood sprayed out.

Lu Benwei immediately circulated the Nine Tribulations Regeneration Technique, and an arm grew out again.

At this moment, the crocodile also disappeared.

Lu Benwei felt a chill down his spine. It was as if they had broken into the world of magicians and were playing a game of making people disappear.

Lu Benwei let out a breath of turbid air, and his mind became calm. Then, he looked at his arm. The cut was very smooth. Unless it was an extremely smooth blade, it was impossible to achieve such perfection.

However, there were definitely not many weapons in the world that could do this, unless...

Lu Benwei's gaze gradually turned cold. He had already realized what the enemy's weapon was, and how he could silently transform into a living person.

"Only spatial power can do this. The other party must've cut open the entire space and then pieced it together with another place! That's how the so-called ghost wall and this perfect scar came about," Lu Benwei muttered to himself.

Then, he soared into the sky and activated the Eye of Insight to search for the whereabouts of the three of them.

The old beggar was the closest to Lu Benwei, only 600 meters away. Similarly, the old beggar also found Lu Benwei's traces and waved at him excitedly.

However, the moment their eyes met, both blinked and the other party disappeared from their sight!

"F*ck!"

The old beggar was stunned. However, he soon noticed the other party's ability.

On the other side, the Six-tailed Crocodile and the Blood Monster suddenly met. At this moment, even the crocodile, who was a little careless, reacted to the other party's ability.

"This guy should have the ability to cut and connect space, so let's not panic!" the crocodile said.

"But where's this fellow?"

The Blood Monster was filled with anger and vowed to take revenge for his broken arm.

"There must be a distance limit to using spatial power. The other party isn't far from us!" the crocodile said indifferently.

"Why didn't you say that earlier?"

The Blood Monster flew into the sky after he finished speaking. Then, his wrists pressed against each other and hung above his head!

"Blood Soul Slash!"

A huge blood blade spun rapidly as if it could cut open the sky.

“Buzz!”

The Blood Monster shot out his attack, which transformed into thousands of blades in the air and slashed in all directions.

“Rumble!”

Lu Benwei did the same thing. He circulated his dual bloodlines and released chaotic divine light.

“Myriad Thunder Skill!”

On the vast snowfield, thunder rumbled, and lightning flashed. Thunderbolts were like raging waves in the sea, bombarding the surroundings continuously. The world was like a sea of lightning!

“Rumble!”

The earth was shaking, and there were living beings roaring angrily!

Chapter 555 Demon Eye Monster

This was an extremely terrifying monster. It has white fur with short limbs.

In the middle of its body, a huge mouth was open, and rings of sharp and tiny teeth grew out. On his body, one eye after another popped out and was covered in blood vessels!

Under the endless sea of lightning, a tragic roar sounded.

When Lu Benwei and the others saw this, their scalps all went numb.

“Motherf*cker, what is this guy?” The old beggar bit the bullet and complained.

“What kind of animal have you seen that has so many eyes?” the Six-tailed Crocodile rolled his eyes and said.

“Don’t look at me. This is the first time I’ve seen such a terrifying creature!” The Blood Demon Monster did not want to be in the same category as this guy.

Just as the three of them were arguing about the Demon Eye Monster, it stopped roaring and attacked Lu Benwei!

One of the eyes on his body closed, and Lu Benwei’s body was instantly cut in half! The entire process of the attack was extremely swift and without any hesitation.

Along with Lu Benwei, the space he was in at that time was also cut in half. The huge mouth of the abyss opened and closed, and Lu Benwei’s body was split into dozens of miles!

“Big Brother!”

The crocodile patted his belly and returned to his original form. The six thick tails merged into one and pressed down at the same time.

“Rumble!”

The giant tail struck everything, directly creating a large crack in the earth. Its power was unparalleled.

Lu Benwei used the Nine Tribulations Regeneration Technique to heal his body and then blocked the attack of the Six-tailed Crocodile.

“Crocodile, you don’t have the same self-recovery ability as me. I’m afraid you’re not his match! You take the old beggar and the Blood Monster and run first!” Lu Benwei ordered.

The Six-tailed Crocodile responded and then carried the old beggar and the Blood Monster into the distance!

Lu Benwei circulated his dual bloodlines and his body erupted with chaotic divine light!

“Sou!”

In the blink of an eye, Lu Benwei was in front of the monster.

Fists flowing with chaotic divine light blasted out continuously, tearing open the Demon Eye Monster’s skin and flesh. It was a tragic sight!

“Buzz! Buzz! Buzz!”

...

Space was cut open one after another as if Lu Benwei and the space he was in were placed in a shredding machine. Lu Benwei’s body was cut into countless tiny pieces.

Then, the Demon Eye Monster opened its huge mouth again and let out a strange laugh. In an instant, the space in all directions was disrupted, and the shattered Lu Benwei was scattered everywhere!

The crocodile and the other two, who were watching the battle from afar, gasped. “This monster is so smart!”

“It’s a pity that Big Brother is a pervert. He can revive even if he’s beaten into a pile of mud!”

As expected, the fragments scattered all over the place ignited into a raging fire, and all of them were burned clean in the air.

Lu Benwei’s soul origin rose into the sky and began to reconstruct his body with it as the center!

The powerful tribulation lightning descended from the sky, wanting to strike Lu Benwei’s new body! Undying and indestructible, heaven and earth could not tolerate it!

Lu Benwei’s soul source shone with divine light, and the Bronze Temple stood between the lightning and Lu Benwei!

“Rumble!”

The tribulation lightning struck the bronze hall, and the sun, moon, mountains, rivers, insects, and animals on the outer wall were all revived, evolving into a scene of all living things rejoicing on the copper wall.

Lu Benwei increased the speed of rebuilding his body. The Demon Eye Monster was about to launch its third wave of attacks!

“Roar!”

The Demon Eye Monster began to tear space with Lu Benwei’s embryonic body as the center! This was almost an invincible power.

At this moment, Lu Benwei felt that two giants were playing a tug-of-war game with their bodies as ropes.

“Kacha! Kacha!”

Lu Benwei’s intact body let out the sound of bones cracking, and a huge pain shook his soul.

“Bronze Temple!”

The Bronze Temple moved and smashed toward the monster!

“Rumble!”

The billions of tons of weight of the Bronze Temple were incomparably powerful.

The power of space could not stop his attack, and he smashed straight at the Demon Eye Monster.

“Boom!”

The Demon Eye Monster was also a living being, and it could not take the Bronze Temple head-on.

A moment later, a pool of blood and mud spread to Lu Benwei’s feet.

The crocodile carried the old beggar and Blood Monster back to Lu Benwei’s side and exclaimed, “What kind of creature is this? Why is it so terrifying?”

“If it weren’t for the Bronze Temple and Lu Benwei’s supreme healing skills, we might have died here.”

Lu Benwei shook his head, indicating that he did not know what it was.

“Eh? Why do I remember Blood Monster saying that it has been a long time since any living beings have appeared on this ice field?” the old beggar suddenly asked.

“How many years has it been? How would I know?” the Blood Monster said angrily when he saw everyone staring at him.

“It’s not because of that. It’s just that where did this creature come from? What is it doing here?” Lu Benwei asked.

However, there were limited clues at the moment. No matter how hard they racked their brains, they would probably not be able to figure out this problem.

“Let’s continue on our way,” Lu Benwei thought for a long time and said indifferently.

Everyone did not dwell on this matter and treated it as a minor incident.

The crocodile followed the guidance of the Ice Lotus and continued to move toward the sun.

...

When the land where the Demon Eye Monster appeared became silent, a teleportation array lit up.

Creatures that looked either like humans or monsters crawled out from it. They all looked strange. Some had tails on their heads and faces on their butts. Some did not have a head. Their chests were their eyes, and their navels were their mouths.

They looked at the Demon Eye Monster's corpse on the ground and exchanged a few words in the ancient and obscure language before disappearing again.

...

After a day and a night, the edge of the vast ice field began to rise and fall.

The crocodile roared, waking up the sleeping crowd.

"Big Brother, old mister, and Blood Monster, we're here!"

"It's so early in the morning. Why are you making so much noise? If we're here, so be it!" The old beggar rubbed his eyes. He was very unhappy that the crocodile had woken him up from his beautiful dream.

However, the moment the old beggar saw their destination, he was immediately stunned.

The snowy mountains were covered in snow and ice, hidden in the misty clouds. The main peak in the middle was like a huge silver pyramid. The peak was tall like a giant, reaching into the clouds and standing in the vast sea of clouds.

The mountains on both sides stood side by side, giving a magnificent sight. The snow did not melt all year round.

During the day, under the sun's illumination, silver light sparkled and blended into one. The morning sun shone on the mountain peak, giving off the feeling of shining on the golden peak. The golden light was auspicious and emitted a serene and mysterious aura.

This was Lu Benwei's only destination.

According to the guidance of the Ice Lotus, the Snow Lotus Seed was in this mountain range.

Chapter 556 Exploring the Snow Mountain Range

The Blood Monster was very surprised.

"This is the mountain range that appeared out of thin air after the explosion."

Lu Benwei was also secretly shocked.

Mountain ranges were formed when the edges of the continents were compressed or when the continental plates collided with each other. Their ages were often measured in hundreds of thousands of years.

The Big Bang happened 500 years ago. No matter what, such a magnificent mountain range was formed in a short period of 100 years.

“Do you think it was formed by the Big Bang in the sky?”

The old beggar’s words gave Lu Benwei an explanation.

Lu Benwei thought for a moment and said, “If that’s the case, then the power of the Big Bang in the sky might be beyond our imagination.”

The Blood Monster nodded in agreement.

“Ancestor clans, two royal clans, two imperial clans, and other living beings have all disappeared. It’s understandable that such a magnificent mountain range was formed. Do you think that meteorite is an extraterrestrial godly metal? If we get it, we’ll be able to obtain a great opportunity!”

The crocodile turned into a human, his eyes shining with greed.

“Our goal is to find the Snow Lotus Seed first, and then we’ll look for this opportunity,” Lu Benwei suggested.

No one had any objections. They followed the directions of the Ice Lotus and headed to the Great Snow Mountain.

Only after entering the depths of the mountain range did everyone understand the strangeness of this snowy mountain.

The mountain range was not steep, and some places were even very flat.

Just like the ice field outside, it was extremely desolate. The black mountain was still covered in solid ice and white snow. Not a single blade of grass grew, and not a single plant or ant could be seen.

According to Blood Monster, this was once the most prosperous place in the ice field. Humans and monsters coexisted peacefully. Now, it had become such a lifeless ghost.

The four of them walked for another two days and two nights. They realized that the deeper they went, the dimmer the light became. When day and night intersected, there was a fog that filled the air. The scenery was dim, and they were in a daze.

Lu Benwei stepped into this area. Seeing the desolate and silent scene, it was difficult to imagine the scene of the co-existence of all spirits in the past.

Not only did this make people sigh, but also made them wonder what had happened in the Big Bang 500 years ago. Even the powerful Ancestral Clan did not leave any traces behind!

Lu Benwei gradually went deeper into the tall mountain range, and the scenery changed.

Under the thick snow, snow-white bones and decayed corpses were revealed, making one’s hair stand on end.

It was currently noon, but suddenly, a thick fog surrounded them, and the humidity was thick.

“What’s wrong?” Lu Benwei and the other two asked in unison.

“Think about it carefully. If this mountain range appeared after the Big Bang, that means that all the clans at that time had disappeared. Then what’s the matter with the bones on the ground?”

Everyone's faces turned pale. The crocodile was right.

This snowy mountain had only appeared after the Big Bang, so how could there be white bones on the ground?

"Was it the storm created by the explosion in the sky that blew those bones here?"

The old beggar suggested.

"Impossible!"

"No!" The Blood Monster denied. "When the sky exploded, there was a huge fire. Moreover, this place is right in the center. If there are corpses, there should be burn marks on them."

Lu Benwei casually picked up a corpse and found that it was no different from a normal human.

The crocodile also dug away the thick snow and found the skeleton of a monster. There were bite marks on the human corpse, and the shape was very irregular.

Just as everyone thought that this was the doing of a monster, the crocodile shouted, "There are also irregular bite marks on the corpse of this monster."

Instantly, everyone's scalps went numb, and they all thought of the Demon Eye Monster they had encountered previously.

"Do you think that the monster with the eyes came along with that meteorite?" The old beggar guessed.

"It's hard to say!"

Lu Benwei shook his head. The catastrophe from 500 years ago had become confusing.

"How close are the Snow Lotus Seeds to us?" Lu Benwei asked the crocodile.

From the moment the crocodile became his mount, the Ice Lotus had always been in his hands.

The Six-tailed Crocodile held the Ice Lotus in his hand and sensed it carefully. "We should be able to reach it after crossing this mountain."

Whoosh!

Just as the crocodile finished speaking, a light flashed and disappeared in the middle of everyone.

It instantly sent the crocodile flying, and then it continued to escape the mountain range.

Lu Benwei activated his Eye of Insight, and everything that had a physical form would have nowhere to hide.

As expected!

One of the creatures was abnormally powerful and extremely fast. It transformed into a beam of light and traveled hundreds of miles in the blink of an eye.

"The Ice Lotus has been snatched away!" The giant crocodile shook its head, and scarlet blood seeped out of the corner of his mouth.

“Chase him!”

Lu Benwei also saw the appearance of the mysterious creature and his heart sank!

Just like the Demon Eye Monster from before, this was also an ugly creature. Its entire body was made of stone, with seven to eight stone-like legs and five to six stone arms. It stood up straight and moved at an extremely fast speed!

Lu Benwei used Lightning Speed on the three of them and chased after them.

The crocodile was very angry after being ambushed by him. He crawled close to the ground, his four short legs moving quickly!

“Rumble!” *novelusb.com*

Heaven and earth suddenly rumbled, and the blood of the crocodile surged. It emitted a hundred million rays of light and smashed down like a mountain of gold, killing the golem!

The golem stopped in its tracks to meet the attack, and its body made of stone let out a deafening sound.

“Kacha!”

The crocodile felt a sharp pain in its body, and then scarlet blood spurted out like a waterfall.

Everyone was shocked.

Ever since the collapse of the First Mountain Secret Realm, the crocodile had obtained a great opportunity in Hell’s Well by chance. At this moment, his strength was at least above level 75!

The golem’s attack had caused the crocodile to suffer a huge loss!

“Roar!”

The golem let out a strange howl, and the ground nearby exploded, spraying out scalding lava. It was extremely powerful!

The crocodile endured the pain and its six tails merged into one, forming a huge mountain.

“Clang! Clang! Clang!”

The six tails combined into one, and it was like a mountain. Its power was peerless, and the entire world trembled when it pressed down!

However, the golem was unstoppable. Its six stone arms turned into a stone sword that was extremely sharp and cold. It collided with the six tails in a world-shaking manner!

The process lasted for a short while before the six tails of the giant crocodile were cut off, and it retreated step by step!

“I’ll go help the crocodile!”

The Blood Monster was eager to try. If this continued, the crocodile would be killed by the golem sooner or later!

“You don’t have to do it!”

The crocodile held his breath and vowed to regain some face from the golem.

“Demonic Light Destroys Rivers and Mountains!”

The crocodile opened its mouth and spat out a shocking demonic light!

Chapter 557 Subduing the Golem

The crocodile opened his mouth and spat out a terrifying demonic light.

“Rumble!”

Purple lightning surrounded the area and attacked the golem. The golem let out a strange cry and twisted its body. A blood-red hole covered its back.

“Boom!”

A blood-red light wave shot out from the blood-red hole. It was as vast as the sea as it charged forward.

The world-shaking demonic light collided with the blood-red light wave. The mountain they were on began to collapse, emitting a thunderous rumble.

At this moment, the crocodile’s six thick tails stabbed into the ground and absorbed the energy from the ground!

The power of the demonic light increased by an order of magnitude, and the purple lightning that surrounded it surged like the sea. It was majestic as if it wanted to pierce through the world!

“Boom!”

The blood-red light wave was drowned, covering the golem.

“Kacha!”

Cracks appeared on the sturdy golem’s body before it exploded and shattered into pieces in the sky.

However, the crocodile did not relax. He could feel that the golem’s soul was not destroyed yet!

“Rumble!”

The giant crocodile dragged his mountain-like body forward, and the mountain range began to tremble along with its rhythm!

At the same time, the golem’s shattered body began to reform rapidly. It had borrowed the boulders from the mysterious mountain range to forge many sharp weapons. There were spears, stone hammers, spears, and other murderous weapons. There were also hard stone shields to provide defense for the golems.

The crocodile let out a strange cry and spread its six thick tails, blooming like a peacock spreading its tail.

The golem began a bloody battle with him.

“Clang! Clang! Clang!”

The battle spear and stone shield combined to attack as one. They were incomparably brave and forced the crocodile to retreat step by step!

Lu Benwei saw that the Six-tailed Crocodile was afraid of being at a disadvantage, so he stood up and buffed the crocodile with four great enhancement skills!

The combination of the Heavenly Dog's Wrath, Sharp Blade, Heavenly Dog's Blade, and the Killing Aura provided the crocodile with eternal power!

The golden body of the crocodile emitted a dazzling golden light. At the same time, he began to chant a skill to increase his combat strength in all aspects!

The golem loudly, and all kinds of weapons emitted a cold light as it launched a fatal attack on the crocodile!

"Boom!"

The Six-tailed Crocodile raised his six giant tails and fused them to form the shape of a dragon. It erupted with an extremely undying power!

The giant dragon formed by the six tails crushed the golem's weapons into powder and broke them inch by inch under his diamond tail.

At the same time, the crocodile pounced forward and pressed down on the golem like a mountain.

The golem let out a strange cold laugh and imitated the previous one. It wanted to pierce through the crocodile's abdomen with its hard body.

However, at this moment, the crocodile had received a massive boost from Lu Benwei, and his body was as bright as a diamond. He was no longer the same!

"Roar!"

The golem roared in pain. Three or four stone arms and legs were torn off by the crocodile, and cold blood flowed out.

"I've said it before. I can deal with you alone!"

The crocodile spat out the golem's stone arms and legs, looking at the golem with a malicious gaze.

The golem was unwilling to give up and smashed its remaining stone shield at the crocodile!

The crocodile's six tails merged into one, and with a swing, it directly penetrated the stone shield and killed the golem!

"Boom!"

The golem quickly shattered, and its body turned into dust and exploded. Cold red blood soaked the sky.

Then, the crocodile opened his mouth and spat out demonic light, destroying all the fragments in the air.

Lu Benwei, the old beggar, and the Blood Monster walked up. They did not have any intention of praising the crocodile. On the contrary, their expressions became more and more solemn.

At this moment, the crocodile was still immersed in the joy of victory. He patted his belly and said, "Big Brother, how was my performance? Wasn't I very brave just now?"

Seeing Lu Benwei's calm expression, the crocodile's heart skipped a beat.

"Actually, this is also thanks to Big Brother! I didn't expect your amplification skill to be so abnormal! It allowed my body and soul to undergo a temporary sublimation! I've decided that I'll be your follower from now on!"

Lu Benwei ignored the crocodile and walked to the spot where the golem had been destroyed.

"Big Brother, what's wrong?"

The crocodile was even more puzzled. After defeating such a powerful enemy, how could Lu Benwei not be happy?

"What's wrong with Big Brother?" he asked the Blood Monster.

The Blood Monster glared at him and slapped the crocodile's head hard.

"Idiot, the Ice Lotus!"

The crocodile realized and hurriedly searched for the whereabouts of the Ice Lotus in the mountain range. The old beggar and the Blood Monster also joined the search.

The four of them searched for a long time, but in the end, they found nothing.

"It's over, it's over! Don't tell me it was shattered by me?"

The crocodile opened his mouth wide and looked at Lu Benwei in horror.

"Idiot, when you were fighting the golem, didn't you think that the Ice Lotus was also in its hands?" Blood Monster kicked him.

"This, this, I wanted to regain my face for a moment, so I forgot about it for a moment." The crocodile scratched the back of his head with a vexed expression.

"What should we do now? Wouldn't we have come to the outer realm for nothing?" The old beggar let out a breath of turbid air and said regretfully.

"Plop!"

The crocodile knelt on the ground.

"Big Brother, it's my fault. I was careless and destroyed the Ice Lotus!"

"You can get up first." Lu Benwei glanced at the crocodile and said.

"The Ice Lotus gives birth to the Snow Lotus Seed. The Snow Lotus Seed is one of the most divine herbs in the world so, the Ice Lotus isn't that fragile."

The crocodile heaved a sigh of relief. He knew that Lu Benwei would be able to find the Snow Lotus Seed.

If he really messed up, Lu Benwei might cut his head off and make fish head soup.

“In other words, the Ice Lotus ran away on its own?” the old beggar asked. His eyes narrowed as he thought about the endless possibilities.

“I’m not sure... But according to my observation, the golem’s aura is very similar to the Demon Eye Monster we encountered earlier.” Lu Benwei shook his head.

“You mean, these two creatures are in cahoots?”

“Yes! I’m guessing that their target is the Ice Lotus,” Lu Benwei said.

At this moment, the Blood Monster questioned, “This group of creatures is neither human nor ghost. Why do they want the Ice Lotus?”

“I’m guessing that their goal is the same as ours. It’s for the Snow Lotus Seed!”

After everyone made a guess, they came to a conclusion.

At the same time, they felt that these monsters came from outside the blue planet. They were probably the common enemy of humans and monsters!

The four of them did not hesitate any longer. They immediately explored the depths of the mountain range to find the whereabouts of the Ice Lotus and the Snow Lotus Seed.

Chapter 558 Ancient Castle

Lu Benwei walked along the mountain road, constantly groping his way forward.

The corpses on the ground gradually increased, and the deeper they went, the colder it became.

Soon, the group arrived at a cave. The scene inside made their hair stand on end.

The ceiling of the cave and the stone walls on both sides shone with a dazzling bloody light. Fresh blood kept dripping down.

“Someone’s there?” the crocodile asked.

!!

Lu Benwei activated his Eye of Insight and searched carefully. He found that other than the four of them, there was no aura of other living beings.

“How is it?” Everyone looked at him eagerly.

“Nothing.” Lu Benwei shook his head. “There are no living beings. This blood was left behind a hundred years ago.”

“And there’s a cave ahead that leads to the main peak of this mountain range.”

Everyone heaved a sigh of relief and let down their guard.

According to the guidance given by the Ice Lotus, the Snow Lotus Seed should be on the main peak ahead.

Everyone quickened their pace and headed to another cave entrance.

Along the way, they found many corpses lying on the ground. Some were humans, some were monsters.

'Could it really be like what the Blood Monster said, that a hundred years ago, the ice field was full of vitality, and all living things were competing for life, and all races lived here?' Lu Benwei thought.

"Look, this corpse is different!" the crocodile suddenly shouted.

Everyone walked over.

One of the corpses was like the golem that the crocodile had fought before. It had many legs and arms. The only difference was that this corpse had a few more heads than the golem. Its cold fangs made its face look extremely ferocious.

Lu Benwei reached out to touch it, but in the next second, the monster's body moved.

Many white bone arms waved at high speed, making cracking sounds as they attacked Lu Benwei.

Everyone was shocked and quickly retreated.

Lu Benwei did not panic. He swung his right fist and unleashed explosive power, turning the monster's corpse into dust.

At the moment of the explosion, the corpse exploded with a powerful aura, almost injuring Lu Benwei.

This was a level-90 king. Even though a hundred years had passed, its power was still preserved until now. Unfortunately, a long time had passed, and the once insufferably arrogant king had also turned into dust, dissipating in the wind.

They were the same as the monster's corpse in front of them. When Lu Benwei approached, they all came to life.

However, it was quickly suppressed by the old beggar and the others. After they died, they erupted with a powerful aura, causing the entire mountain to rumble.

"Strange, after the corpses of these humans and monsters resurrected, they didn't attack us. Instead, they attacked the corpses of those monsters." The Blood Demon Prince discovered something unusual.

"I understand now. The humans and monsters are fighting here!" the crocodile said.

Lu Benwei nodded in agreement.

However, a new problem arose. What were these monsters? Where did they come from, and why did they come?

Lu Benwei and the other three did not have time to think about this problem and continued to move forward.

After walking for about an hour, everyone found the exit and heard the sound of flowing water!

“It’s the ice river!”

The crocodile was the fastest and walked out of the cave before Lu Benwei.

Lu Benwei and the others also walked out of the cave and saw an ice river flowing from the main peak to the ground. There was ice floating on it and flowing down the river.

The crocodile patted his belly in delight and jumped down. He liked to be clean and had never been able to take a good shower after following Lu Benwei for so many days.

Lu Benwei was about to stop him when he heard the crocodile’s terrified roar. He rushed up like a rocket.

“Cold... Corpses!”

The crocodile shivered as soon as he came ashore. His golden skin began to corrode from his feet.

Lu Benwei said as he healed the crocodile, “Crocodile, what did you see down there?”

“What else? They’re all corpses! I drank a stomach full of corpse water!” the crocodile retched as he spoke, “And the water below is extremely cold. Even I can’t withstand it!”

Lu Benwei was surprised.

The crocodile had thick skin and flesh, so even the cold could not do anything to it. To freeze him, it had to be at a temperature of tens of degrees below zero.

At that temperature, the entire ice river would be completely frozen, and it would not be able to form the current situation where the river was flowing.

The old beggar patted him on the shoulder and whispered, “Don’t think too much. This mountain range cannot be analyzed based on what we see and hear. Let’s take it one step at a time.”

Lu Benwei nodded, and the group went up the river. They advanced silently; their hearts heavy.

Countless corpses floated down from the main peak. There were humans, monsters, and mysterious creatures.

One corpse after another, each with a different appearance. Some were bitten by the monsters and were badly mutilated. Some of them had their bodies pierced through, and their deaths were extremely tragic.

The temperature on the main peak was extremely cold, so the faces of these corpses were preserved. However, in the eyes of Lu Benwei and the others, they felt sinister and ferocious.

They quickened their pace, and Lu Benwei said in a low voice, “The main peak is probably the ancient battlefield. I can feel the power of the ancient king.”

When everyone heard this, their expressions became even more solemn.

Sure enough, as Lu Benwei said, the closer they got to the main peak, the more ferocious the death aura became.

Apart from the old beggar, Lu Benwei and the other two had no choice but to circulate the power of their bloodlines to resist this powerful aura of death.

However, the old beggar had his own way of dealing with it. He opened his mouth and took a deep breath. His cheeks puffed up, and he looked like a toad.

This move used stillness to stop the movement. The body stored energy to contain the power. As long as the power of death arrived, it would immediately launch an incomparably fierce force to offset it.

Lu Benwei continued deeper into the main peak, and his vision gradually widened.

On the peak of the main peak, there was a huge lake. It was dozens of miles in circumference and was as vast as the sea.

The water was clear and deep, sparkling like jade. The incandescent sunlight shone on the surface of the water, like a layer of silver gauze covering the surface of the lake.

Layers of mist lingered around. Coupled with the white snow mountain in the distance and the clear lake water, they formed a beautiful painting.

Lu Benwei and the other three were in a fairyland, and time seemed to have stopped.

However, very soon, the sparkling light from the center of the lake was accompanied by a violent explosion.

“Crocodile!” Lu Benwei shouted in a deep voice.

The crocodile instantly understood what he meant. He opened his mouth and blew out a strong gust of wind, blowing away the mist on the lake.

A small island in the middle of the lake appeared in everyone’s sight. There was a huge ancient castle in the middle of the island.

It was a circular castle, looking like a flying saucer from science fiction. The walls were covered in mold, emitting a strange and terrifying aura.

Chapter 559 Snow Lotus Seed

On the island in the middle of the lake, a few powerful monsters were engaged in a great battle with a girl in a green robe.

They were all in strange shapes and had ferocious expressions.

The young girl had a cold temperament, her facial features were naturally beautiful, and she was bright and moving.

However, she was very cold and aloof as if she did not smile, giving people the feeling that she was at a distance of a thousand miles away from others.

One of the monsters held an Ice Lotus in its hand and chanted in an obscure language. The Ice Lotus let out a series of cries and emitted a powerful suppressive force.

The aura of the cold-looking girl, who had the upper hand, instantly weakened, and an expression of anger and fear appeared on her face.

“She’s the Snow Lotus Seed! Let’s go help her!” Lu Benwei said in a deep voice!

The crocodile took the lead, diving into the lake and swimming rapidly toward the center.

The old beggar walked on the water with mysterious steps.

Lu Benwei and the Blood Monster followed closely behind. They used Lightning Speed and arrived at the battlefield in an instant.

One of the monsters had the head of an anaconda and the body of a fish. There were two thin membranes from its neck to its abdomen. It looked extremely detestable!

The only arm that grew out was as big as a truck. When it swung, it was as if a mountain was falling. The membrane on its neck stretched to the extreme, and it crazily stuck out its tongue, letting out a bone-chilling howl.

The Snow Lotus Seed covered her ears. Her beautiful features were completely squeezed together.

The anaconda swung its truck-like arms, sweeping through everything with great force.

Lu Benwei arrived at this moment and stood in front of the Snow Lotus Seed. He circulated his dual-origin bloodline and his body erupted with chaotic divine light. Both fists emitted chaotic divine light, bursting with immortal power.

“Boom!”

The two fists smashed down fiercely, and the power that erupted was terrifying. The aftershock scattered on the surface of the water, shaking the water column that soared into the sky.

The anaconda screamed, its huge arm torn apart, revealing its ghastly white bones.

Right at this moment, a giant ax slashed down. The cold light was like a galaxy shooting out, and its power was unparalleled.

The Blood Monster rushed over and helped Lu Benwei block it.

The strange man with the giant ax roared and attacked.

The Blood Monster circulated the bloodline power of the Blood Monster Clan, and the blood qi in his entire body rushed up into the sky!

“Clang! Clang! Clang!”

Lu Benwei took out the Ancient Sword of Clarity and chopped off the head of the anaconda. Then, he used the Myriad Light Fist. The power of the stars washed over the body of the anaconda like a waterfall, completely annihilating it. There was no possibility of revival.

At the same time, the old beggar and the crocodile fought side by side. They were so brave that they turned a strange person into dust!

Lu Benwei activated his Eye of Insight and scanned the island. He found the Snow Lotus Seed in a forest.

“The strange creature has already been taken care of. Are you alright...?” after Lu Benwei landed on the ground, he said indifferently to the girl transformed from the Snow Lotus Seed.

The Snow Lotus Seed looked at him warily, and the hostility on her cold face gradually disappeared.

“Thank... Thank you!” the Snow Lotus Seed said coldly to Lu Benwei with difficulty.

At this moment, teleportation arrays suddenly lit up in the sky, and countless terrifying monsters crawled out from them.

“They, they... They’re coming! We can’t let them take it away... Here... Something!”

The Snow Lotus Seed pointed at the castle.

Lu Benwei nodded and used Minor Healing on the Snow Lotus Seed.

He did not know if Minor Healing would have any effect on the Snow Lotus Seed but now that the Snow Lotus Seed was seriously injured, Lu Benwei could only brace himself and heal her.

As expected, Lu Benwei’s Minor Healing had no effect on the Snow Lotus Seed. On the contrary, it even accelerated the injuries of the Snow Lotus Seed.

The lower abdomen of the Snow Lotus Seed was pierced through, and sparkling icy-colored energy flowed out.

She was the embodiment of the essence of the world. Every strand of icy energy was formed over a hundred years.

Lu Benwei felt guilty that he had outsmarted himself.

At this moment, the strange people in the sky all let out strange howls. They pounded their chests and stamped their feet, erupting in an imposing manner that soared into the sky.

The Snow Lotus Seed was furious and wanted to rush into the sky to stop them!

“Don’t move!” Lu Benwei shouted, “If you go now, you’ll die!”

“No, no, no. I can’t let them...succeed!” the Snow Lotus Seed said with difficulty. Her beautiful eyebrows were furrowed together, and her eyes were clear and bright under her willowy eyebrows, making people feel pity for her.

Lu Benwei thought that the Snow Lotus Seed was nurtured by the essence of heaven and earth. It required the purest energy to heal injuries. He, on the other hand, had the bloodline power of light and darkness. After fusing, it would produce the purest chaos power, one of the purest energies.

“Don’t move,” Lu Benwei said lightly and cut his wrist with the Ancient Sword of Clarity.

Looking at Lu Benwei’s every move, the Snow Lotus Seed tilted her head, not understanding what Lu Benwei meant.

However, when she felt the endless pure energy flowing out of Lu Benwei's blood, extreme fear appeared on the extremely beautiful face of the Snow Lotus Seed.

"No, you can't!"

It was too late. The bloodline power of light and darkness fused, producing strands of chaos power.

They gathered into drops of liquid and slowly flowed into the wound of the Snow Lotus Seed.

The Snow Lotus Seed did not have time to stop him. When a drop of chaotic energy liquid entered her, it began to heal her injuries.

The Snow Lotus Seed was a spiritual object of the world and was restricted by the laws of the world.

Humans were special spiritual creatures born under the laws of heaven and earth, possessing great wisdom.

Due to the restrictions of the laws of heaven and earth, humans were not allowed to have karma with spiritual objects like the Snow Lotus Seed.

However, when the chaos power with Lu Benwei's mark entered the lotus seed, the invisible shackles were broken.

The karma between the Snow Lotus Seed and Lu Benwei also changed at this moment.

Lu Benwei was completely unaware of this.

Seeing that the Snow Frost Lotus Seed's injuries had improved, Lu Benwei circulated the Nine Tribulations Regeneration Technique to heal his wounds.

"Big Brother, we can't hold on much longer. How much longer do you need?"

At this moment, the crocodile was surrounded by four to five strange creatures.

They launched fire attacks and roasted the crocodile. In half a minute, he would become a roasted crocodile.

"Stay here and recover from your injuries. Watch us fight!" Lu Benwei said and rushed into the sky to join the battlefield.

He swung his fists, forming a milky way in the sky, and then punched out. The river of stars rustled down with monstrous power, engulfing the entire lake. In an instant, he helped the crocodile out of his predicament.

"Kill them!"

Seeing Lu Benwei's incredible bravery, the crocodile patted his belly and launched a fatal attack on the few strange creatures!

These monsters were all extremely powerful, and their combat strength was even stronger than an ordinary level-70 hunter! They all let out a strange roar and attacked Lu Benwei and the Six-tailed Crocodile.

One of them had a human face, but his body was pierced by bones. It was extremely terrifying. He held a bone sword in his hand and stabbed it toward Lu Benwei's throat!

Chapter 560 Battle Royale

"Boom!"

Lu Benwei was calm as he took out the Ancient Sword of Clarity. Destruction sword qi swept across the world.

The monster was blasted into a bloody paste!

The old beggar and the Blood Monster also displayed their abilities. With a few waves of attacks, the first wave of monsters was annihilated!

However, the teleportation array was still shining in the air. Strange creatures kept coming out of it.

"What kind of monsters are they? Why are they here?!" the crocodile shouted, and demonic light blasted out, causing many creatures to die on the spot.

"I don't know, but the target is the thing in the castle! The Snow Lotus Seed seems to have been guarding this place for many years. I'll ask about it after the battle is over!" Lu Benwei replied. He swung his fists.

"Boom!"

The supreme beam of light shot over, and instantly, the sky collapsed, and the earth cracked. A mountain peak was cut off, and Lu Benwei and the other three did not dare to move!

This was a powerful monster comparable to a level-90 king. It had three heads and bat wings on its back. Its body seemed to be made of blood. It exuded moves that emitted a murderous aura that could crush living beings.

"This is a great enemy. Leave it to me!" Lu Benwei said.

With the Nine Tribulations Regeneration Technique and the Bronze Temple, Lu Benwei could only fight a level-90 king.

"Kill them!"

Lu Benwei attacked. He swung his fists, and the galaxy he struck out collapsed the heavens!

The blood-red monster man turned the clouds and rain with a flip of his hand, dispersing the stars in the sky with a slap.

He sniffed a few times with his nose and suddenly said in human language, "You have the power of laws in your body, but it's incomplete."

Lu Benwei was shocked.

The Death Stigma was hidden in his sea of consciousness, and nothing could peek into it.

The blood-red monster only sniffed twice, but he was able to see the stigma in Lu Benwei's body. This showed how powerful he was!

"Kill him!" the blood-colored monster did not put Lu Benwei in his eyes and ordered the monsters below to attack.

Lu Benwei was the first to bear the brunt and fight these monsters.

Corpses fell to the ground, and blood dyed the lake red.

They fought with the monsters on the mountain range, and blood splattered everywhere.

With the support of Lu Benwei's four great amplification skills, the three of their combat strength had risen to a new level. They were incomparably brave and unstoppable!

Screams, the sound of equipment shattering, and the sound of skill showdowns filled the sky and earth. They rippled in this mysterious mountain range and penetrated the entire ice field!

The blood-red monster man watched as his compatriots fell one after another, and finally realized that this group of people in front of him was extraordinary.

"Roar!"

He threw out a punch that could swallow mountains and rivers. Instantly, the world was filled with a vast sea of blood qi!

Lu Benwei used the Holy Light Shield to attack everything, clashing with the surging blood qi.

When the crocodile saw this, it was a little stunned.

"Blood Monster, is this guy your relative? Why are you fighting? Is there a monstrous blood qi and a foul smell?"

"Get lost! My clan doesn't even have such an ugly species!" the Blood Monster cursed back.

At the same time, Lu Benwei and the blood-red monster man launched a shocking battle!

The monstrous blood qi instantly shattered the Holy Light Shield, and the flying fragments almost cut Lu Benwei's body.

After all, the blood-red monster man was a level-90 king, and Lu Benwei was only at level 60. There was an insurmountable gap between them!

However, Lu Benwei was not afraid. He did not flinch and his eyes were cold.

"Divine Sword of Destruction!"

The destructive sword light poured out like a surging river! The sky was drowned by this terrifying sword light. It was pitch-black and terrifying. The endless destructive power was boundless and extremely vast.

The blood-red monster man opened his mouth and shouted. He punched out a boundless amount of blood energy, like the Yangtze River flowing eastward to the sea.

At this moment, the world turned pale. The two world-destroying skills collided and exploded with destructive power.

The blood-red monster man was hit by the aftershock and retreated dozens of steps.

Lu Benwei's situation was not good either. He was drowned by the aftershock and grunted repeatedly. One of his arms had been torn apart.

"Human... Pathetic..."

The blood-red monster man sneered and mocked Lu Benwei for being weak.

Lu Benwei sneered and used the Nine Tribulations Regeneration Technique to repair his body.

The blood-red monster man was stunned for a moment. Then, he let out a strange howl and attacked Lu Benwei.

"Clear Heart Slash Technique!"

Lu Benwei sacrificed 50 percent of his strength and obtained a 50-fold increase in all attributes!

His dual-origin class bloodline circulated, and the divine light lit eternally. At this moment, Lu Benwei's entire body was like glass as if a divine weapon had descended from the heavens!

The four great enhancement skills strengthened his body. Lu Benwei threw a world-shaking punch.

"Boom!"

The moment the blood-red monster man collided with him, a large amount of blood exploded from his body.

"Roar!"

His chest was pierced by Lu Benwei's fist, and blood gushed out.

Lu Benwei's chest was also pierced, but with the Nine Tribulations Regeneration Technique, he was fine.

The blood-red monster man could not believe it.

Lu Benwei used his supreme healing ability, again and again, almost immortal.

"You, you have grasped the law of life?"

The blood-red monster man was so shocked that he spoke in the human language.

Lu Benwei did not understand what he meant and punched him. His recovery ability was slightly inferior to Lu Benwei's, so now was the best time to deal with it.

"Block him!" The blood-red monster man roared.

As the roar fell, many monsters crawled out of the teleportation array and blocked in front of Lu Benwei.

"Get lost!" Lu Benwei shouted in a domineering manner.

However, he did not expect these monsters to dodge. He raised his fist and launched a peerless attack.

“Boom! Boom! Boom!”

He circulated his dual-origin bloodline to the extreme. The four great enhancement skills strengthened his body, and Lu Benwei punched out several times in succession!

“Pfft! Pfft! Puff!”

...

Dozens of monsters were blasted into pieces by Lu Benwei’s fist. Their flesh and bones were separated, and their blood splattered 30,000 feet into the sky!

Lu Benwei was like a king who had descended into the world. His eyes were bloodshot as he stood in the depths of the mountain range from the sky, dyeing the ground red with the monster’s blood.

The blood-red monster man was furious. However, his chest had yet to recover. There was an inexplicable force rampaging through his body, wantonly destroying it.

This was Lu Benwei’s qi.

In the battle earlier, Lu Benwei tried to inject it into the monster’s body, but he did not expect it to be so effective!

“Kill them!”

The blood-red monster man was furious and commanded his compatriots to drown this world!

“Pfft!”

...

Lu Benwei’s attacks blew up a few monsters in a row. He started a massacre and was invincible!
