

E Monarch 1161

Chapter 1161: One Sword Destroying Heaven's Chosen!

The strangely colored ashen fog that was moving towards the North with great momentum was suddenly pushed back, until finally, it actually changed directions, turning back towards the Southwest!

As the Northeastern wind grew stronger, the boiling air in the area gradually turned cooler...

Until finally, everyone watched with shocked eyes as countless stones, and large branches flew over their heads like a cloud. Was this strange Northeastern wind really that strong?

The original pencil straight pillar of smoke that spewed out from the volcanoes only began to blow Southwest when it reached a height of several tens of zhang . But now, it was being blown in the other direction even before it barely reached a height of four, five zhang . The multicolored noxious fumes covered the entire south of the Pillar of Heavens Mountains, spreading across the entire land in an all encompassing manner!

This sight caused all the people of the strange races to be completely shocked!

Everyone knew that that thing was clearly poisonous, and they already felt uncomfortable breathing it in earlier. And now, it was pouring unceasingly into their homeland!

Just how much damage would that cause?

Everyone was clear about it in their hearts!

“HAHAHAHA...” Big Bear took a large breath and roared with laughter that sounded like thunder. “Double headed freaks, did you see that? Our Brother-in-law used to say that the heavens watch everything that mortals do! Looks like the heavens are quite unhappy with you lot, and sent a divine wind to poison you disgusting lot to death!”

An enraged roar suddenly rang out from the back as a figure flashed in the air. A two-headed warrior of the strange races, covered in silver light, appeared in the sky, his physique abnormally large.

Following that, that person growled. "A mere black bear actually dares to be so arrogant! See if this seat doesn't retrieve your damn bear head!" Before his words landed, a pair of dazzling light flashed in the sky, sweeping towards Big Bear!

Frenzy Blade Enduring Earth!

The reason the strange races' Enduring Earths were so wild was because of their blade!

The Enduring Earths only cultivated one thing their entire lives: the dao of blade!

Anyone that could be called Frenzy Blade Enduring Earths was an expert of the blade!

Moreover, this person was even someone that'd reached the level of Frenzy Blade Enduring Earth with both the male and female body, and it was equivalent to two same level experts unleashing their most lethal attacks towards Big Bear at the same time!

Such experts were only one step away from reaching the strength of the lowest grade of Supremacy Enduring Heavens!

Such existences had, in the hearts of the strange races, already reached a level of being able to reign over an entire area!

When Deku Bu Shang and Shangchuan Po Ku saw this figure appear, their faces were instantly filled with joy.

This person that stood out was the number one expert in their area, the Frenzy Blade Enduring Earth, Qiangshang Nu Ju!

Most of the strange races were led by the male body, while the female body acted as support. There was only a small minority whose female side was stronger than their male side. And so, the female body occupied the leading position!

And Qiangshang Nu Ju was exactly such an existence. His conjoined female twin, and also his wife, loved chrysanthemums¹, especially the chrysanthemum in full bloom. Thus, he had such a name.

“F*cking hell! Your demeanor is pretty intimidating, huh? Do you think this daddy is truly afraid of you? Having two heads doesn’t mean that you will have double the guts! What are you hollering about? Did someone in your family die?” Big Bear’s huge body sprang up as he brandished the Bear King Sword in midair, cursing as he charged forward.

The Bear King Sword instantly morphed into a stream of light, dazzling and unyielding, surging upwards. This was a mystical sword technique that Jun Mo Xie had personally taught to him: One Sword Destroying Heaven’s Chosen!

Against attacks from above, this was an extremely effective surprise counter!

Behind the Eagle Tribe, one of the old Beast Kings, Saint Venerable Huang, had only begun to move when the Bear Saint Venerable grabbed his arm and shook his head lightly. “Although we are currently occupying the advantageous position, even with this Frenzy Blade Enduring Earth, it’s still not the time for us to make a move. What we need to deal with are the other side’s Supremacy Enduring Heavens! If they discovered that we’re prepared, I’m afraid... it’ll truly be that none of those 6,000 kids will be able to return safely.”

“But Little Bear... that lad Little Bear is no match for that two-headed fellow!” Saint Venerable Huang said anxiously. “Could it be that we have to watch helplessly as he sends himself to death? You should know, if Little Bear dies, the blow to the Bear Tribe will be large enough to destroy them! Those 3,000 Bear Tribe warriors will all descend into madness! At that time, even if all of us take action together, it wouldn’t be able to do anything!”

“Do you think that I don’t understand the consequences? Am I not part of the Bear Tribe as well? However... even if all 3,000 of them turned mad and sent themselves to death, we still cannot make a move lightly!”

Saint Venerable Bear grunted with rage. “We’re at war right now! And war is inevitably accompanied by sacrifices! There is no place for emotions! If we cannot deal heavy damage to a few Supremacy Enduring Heavens at the start, the following battles will only become much harder! The war has only just begun. The main force of the strange races is still tens of thousand li away! If we act now, we will completely expose our hidden cards!

“Right now, we can only put our faith in Little Bear! It’s his luck if he lives, and it’ll be his fate if he dies! Life and death will be left up to the heavens!” Saint Venerable Bear said coldly. “No matter who it is for, we cannot mess up the big picture!”

“But...” Saint Venerable Huang finally softened his stance. However, his eyes were filled with tears. “Old Bear... Little Bear is your own grandson ah! He’s the only remaining bloodline of your Bear Kings lineage!”

Saint Venerable Bear turned his aged face away as the muscles on his cheeks twitched. “Big Bear is indeed my grandson... But which of the Tian Fa warriors on the battlefield isn’t our people’s sons and grandsons? What is the use of talking about bloodlines on a battlefield of life and death? Is our Bear King lineage that much more precious and noble than others?!”

Hearing this, Saint Venerable Huang sighed and did not say anymore.

Saint Venerable Lu also nodded and said with a light sigh. “Old Bear’s decision is right. In this kind of situation, what we’re planning to do is only to perish along with the enemy Supremacy Enduring Heavens. If each of us can drag two of them down with us, that will naturally be the best. But if that isn’t possible, we need to at least bring one to the grave with us! Since we’ve come here, which one of us still holds any hope of going back alive? At such a time, bloodlines and such are no longer important! The only thing of importance is the 10,000 year old glory of our Tian Fa! The 10,000 years old backbone of our Tian Fa!”

“It’s just death! If Big Bear is to die here, I will only say a word of bravo! Apart from that, this old man... has nothing else to say!”

Saint Venerable Bear’s white hair flew up softly behind him, and he seemed like a resolute and lonely statue! However, his hands had already balled up tightly into fists unknowingly.

His eyes were also watching Big Bear's dangerous fight in the air!

Although his mouth said that he didn't care, and his actions were restrained, but his heart still... couldn't remain indifferent!

Little bear! My grandchild, you must not die! Live on! You must live!

Big Bear's sword turned into a streak of light, stabbing upwards without hesitation!

Qiangshang Nu Ju laughed madly, his voice alternating between male and female. At times rough, and at times shrill. Two bolts of lightning-like bladelight struck down from the sky!

The gaze in both sides' eyes were very obvious: a quick battle, deciding the victor with one move!

"KILL!" As the sword and bladelight neared each other, Big Bear roared madly, his eyes blood red!

All his Saint Emperor Xuan Qi had been poured into his sword without any reservation!

DANG!

In the instant that the blades collided, a bright flash illuminated the entire sky. The people at the bottom instantly felt a stabbing pain in their eyes, as if someone was being electrocuted before them...

Following that, there was a continuous stream of dang dang dang dang sounds.

Qiangshang Nu Ju had a strange smile on his face. The moment the male body's blade smashed against Big Bear's Bear King Sword, the female side whirled around and followed up with another heavy strike.

In the time for a single breath to transpire, the two's long blades had already rained down against Big Bear's sword ten to a hundred times!

With the intricate senses of an expert, Qiangshang Nu Ju could clearly sense the ferocity of Big Bear's attack! At this time, even if they could incapacitate Big Bear and remove his head in one strike, they would still be in big trouble if they couldn't stop the sword!

There was no possibility of any differences!

And that one sword strike would definitely deal huge or even lethal damage!

The reason why Qiangshang Nu Ju dared to fight Big Bear without using his Stealth Kills technique was because he was considered to be on the same cultivation level as Big Bear. And there was only one Big Bear, while Qiangshang Nu Ju could be counted as two people joining hands!

Could it be that two people with perfect synergy could not even defeat one enemy?

More importantly, the Bear Tribe had just obtained a huge victory and their side's morale was low! Only by killing Big Bear in a frontal battle could they reverse this situation!

But Qiangshang Nu Ju would never have expected that such a powerful and strange sword technique would actually exist in this world, allowing Big Bear's strength to multiply to a point that even before the sword reached, they could already clearly sense the threat of death!

So right now, Qiangshang Nu Ju only cared about attacking this sword in a frenzied manner! Only by thoroughly defeating this sword technique and dissipating the feeling of death could they break the technique and ensure Big Bear's death!

But Big Bear's sword still maintained the same power, and the long sword vibrated gently. However, fresh blood was already flowing out of his mouth. Faced with the storm-like assault of the enemy and using just the strength of one person against the joint attacks of two peak Third level Saint Emperors equivalents, Big Bear's internal organs had already been jolted heavily!

However, he still held on resolutely, stubbornly clenching his teeth and staring widely as he roared out the same words 'One Sword Breaking Heaven's Chosen'!

No matter how many times he paced before the borders of life and death, it was still the same 'One Sword Breaking Heaven's Chosen'!

Although Big Bear's swordlight had turned a little scattered, he ultimately still managed to withstand Qiangshang Nu Ju's violent attacks, allowing the true strength of this sword to unleash like the brilliant feathers of a peacock!

Chapter 1162: This Daddy Has Pills, Do You Have Them?

"Open!" Big Bear roared ferociously as a line of blood sword flew out along with that roar!

The 'One Sword Breaking Heaven's Chosen' that had been building up energy for a long time finally burst forth!

10,000 swordlights exploded like fireworks in the sky!

It was like 10,000 rays of rainbow that stretched through the sky, appearing all together in an instant!

10,000 streaks of swordlight, all focused on a single person!

Qiangshang Nu Ju shrieked and his body revolved even more urgently, using both swords to defend continuously. At the same time, he spun like a tornado in the air, hoping to dodge the relentless assault of the 10,000 blades!

Faced with the uncountable swordlight and all encompassing attack, Qiangshang Nu Ju shrieked and roared in a miserable manner without ceasing!

He who had been attacking in a frenzied manner a moment ago was now defending like an entrapped mad beast!

Regret! That was the only thought in Qiangshang Nu Ju's mind! Why did I choose to fight this bear in a frontal battle? Why didn't I use the Stealth Kills?!

I hate this!

Big Bear's expression was cold and calm, but blood was still flowing out of his mouth continuously. His heart was as steady as a rock, and he continued wielding his sword, bringing out the best of the One Sword Breaking Heaven's Chosen!

All of a sudden, a wretched screech that didn't sound human rang out, one that nobody was able to determine who it came from!

Following that, tens of blood arrows flew out in all directions, and a figure that looked like a blood porcupine could be seen in the sky!

Everyone watching this intense battle in the sky did not even dare to breathe loudly in this moment.

The victor of this fight would soon be revealed!

Finally, the arrogant laughter of Big Bear rang out, as he descended rapidly.

No, it wasn't descended... he was instead falling from the sky!

Quite obviously, Big Bear's strength had already been thoroughly depleted!

"I'll kill you! I'll kill you, you damn bear!" This time, it was two extremely wretched voices that rang out together. That originally manly voice was now interlaced with a hysterical female voice.

Qiangshang Nu Ju's body had actually been turned into two parts!

At an unknown time, this body had already been cut into two by Big Bear!

And Big Bear's body had also completely lost its strength right after unleashing that devastating strike!

Such an injury was enough to be lethal even for a Supremacy Enduring Heavens! The place where the two's body was separated was now oozing huge amounts of blood as if the blood was free!

The two's figure shot down like a pair of shooting stars towards Big Bear's weakly falling body, the blades in their hands gleaming brightly and mercilessly!

Eagle King roared with rage and soared into the sky, his body turning into a streak of lightning. However, it was clearly too late!

Big Bear and Qiangshang Nu Ju was simply too near to each other!

Qiangshang Nu Ju's male body grinned evilly as he plunged his longsword into Big Bear's left chest, before slicing downwards ruthlessly. At almost the same time, the female body stabbed her sword into Big Bear's right chest and sliced downwards, all the way to his abdomen!

The Bear King's five organs were immediately exposed outside of his body!

This was Qiangshang Nu Ju's final strike!

In truth, his fate had already been sealed in the instant he suffered the fatal slash earlier!

So right after this final strike, the two halves of his body also fell from the sky.

Anyone could see that Qiangshang Nu Ju, this Frenzy Blade Enduring Earth, was utterly finished.

However, his opponent the Bear King of Tian Fa, Big Bear, also did not have any hopes of survival!

The final result was mutual destruction!

Far away, Saint Venerable Bear's body trembled, and his face turned pale. Opening his mouth, he stretched out his hands as if to grab for something. However, they still fell weakly by his side...

Saint Venerable Huang's lips also trembled as he sucked in a deep breath of air.

"MY KING~~~~" 3,000 Bear Tribe warriors roared together as their faces twisted with rage and grief! 3,000 pairs of eyes turned blood red together!

If the king dies, the strange races shall be washed with blood to avenge his death!

A snow-white sword was stuck in Big Bear's waist, and his muscular body was actually very nearly split in half! But as he fell from the sky, he used the last of his energy to right himself, landing firmly on his two feet.

Blood poured madly from his mouth, but he still managed to stand up straight!

His eyes were nearly devoid of life, but that arrogant gleam still flickered in his pupils!

With two firm plops, Qiangshang Nu Ju's two halves also fell before Big Bear, and both pairs of eyes were staring venomously at Big Bear.

"Haha..." Big Bear spat out a mouthful of blood and laughed aloud. "Freaks! Aren't you still going to die in front of this Lord Bear in the end?! No matter how shameless you are, fighting two against one, didn't you still end up killed by this daddy!! Motherf*ckers, is having two heads and two bodies that amazing? After being split apart by a sword, aren't you still going to die?"

"F*ck you! We'll see who shall be the one to die first!" Qiangshang Nu Ju breathed laboriously as the two separate halves actually crawled to each other and hugged together in the pool of blood. Staring hatefully at Big Bear, he panted. "Bear King, if this Seat doesn't watch you die before my eyes, how would this Seat be willing to leave before you!"

“You want to watch me die?” Big Bear snorted, as if he’d heard the funniest joke in the world. Raising his hand, he reached for his waist with great effort and gritting his teeth, he began to pull out the long sword that was embedded in his muscles. With a loud clanging sound, he threw the sword onto the ground and took a deep breath as he gathered his organs and forcefully closed his wound. In a short moment, his face paled to the color of a piece of paper. At the same time, an extremely queer smile appeared on his face. “It seems you’re about to be disappointed!”

As he said that, he used his other arm and took out a pill, popping it into his mouth.

“Consuming pills? HAHahaha... you think that a pill would help a wound that serious? Or that it would buy you a few more seconds of life? That’s impossible unless miracles really exist in this world!” Qiangshang Nu Ju laughed mockingly at Big Bear.

But in the next instant, he widened his eyes as if he’d seen a ghost!

The truly inconceivable scene was indeed happening!

In the instant that Big Bear consumed that strange medicine, a purple mist suddenly rose out of his body! Within the purple mist, there were traces of beautiful, jade-green colors. That was actually the energy of life force! The color of life! The radiance of life!

The strange, purple Spiritual Qi continuously rose out of Big Bear’s body, and Qiangshang Nu Ju discovered to his despair that the huge wound that had opened up had actually sealed up again! The blood had also stopped flowing, and his entire body was healing. Although the healing speed was not very fast, it was still at a speed visible to the naked eyes...

The huge saber wound near his heart grew smaller gradually, and in the blink of an eye, it’d already disappeared...

Big Bear roared with laughter and raised his head. His body had actually completely healed!

What was this if not an unbelievable miracle?

The Bear King stretched his waist tentatively, then began to move his arms and kick around a few times, before finally recovering his senses. As he looked at Qiangshang Nu Ju's shocked and stunned widely staring eyes, Big Bear snorted and patted his butt happily. "Freak! You wanted to watch this bear daddy die? I apologize, I'll be letting you down! You want to fight with this daddy? This daddy has pills! Do you have them? Is it very infuriating? Are you very disappointed? Are you dying of anger? HAHAHA... I understand how you feel. I understand it very much..."

Qiangshang Nu Ju was so enraged that he actually managed an incoherent roar. All of a sudden, the two halves of his body jumped up like a pair of dead fish! Both hands pointed at Big Bear, and before he could say anything, his body fell down from the sky.

His breath had stopped! But the four eyes were still staring forward with unresignation... he'd actually died with his eyes wide open!

Big Bear roared with laughter and turned around, but his eyes were looking towards the North. At the same time, he thought secretly in his heart. Thank you, Brother-in-law! You... have given this old bear a second life!

Strictly speaking, Qiangshang Nu Ju's cultivation should be above Big Bear's. After all, his cultivation had been the result of gradual cultivation, while Big Bear had gained his through the help of pills and treasures. In addition, Qiangshang Nu Ju had two bodies, one male and one female, and the combination of their strength was not as simple as just one plus one. Even without the Stealth Kills technique, Big Bear would still lose 10 times out of 10 times! If he had used the Stealth Kills technique, the chances of victory would still be slim even if Eagle King had joined hands with Big Bear!

The strange races' Frenzy Blade Enduring Earths were known for their brutality. How could they be taken lightly?

But he'd miscalculated too many times in this battle! The first mistake was that he hadn't expected that Big Bear would have such a powerful divine weapon in his hands.

The impressive Bear King Sword was something that Jun Mo Xie had refined personally using the Power of Gold!

The mysterious Power of Gold was something that already far surpassed the knowledge of this world. It was a proper divine art that should not exist here. A weapon that Jun Mo Xie made for his own brother-in-law would naturally not be shabby!

Whether in terms of sharpness or sturdiness, the Bear King Sword was much superior to the Frenzy Blade Enduring Earth Sabers that Qiangshang Nu Ju was wielding!

Any other weapon would have been destroyed long ago under the frenzied attacks of Qiangshang Nu Ju, turning into scrap metal! But to the Bear King Sword, this kind of attack was completely manageable, even to the point of being too easy to handle!

And this was even because Big Bear's own cultivation was at a disadvantage. If their abilities were the same, then with this weapon, whether it be attacking or defending, the fight would have ended long ago!

The other miscalculation was that in these 10,000 years, there had been too many Wars for Seizing the Heavens. The experts of the strange races had already faced the Bear Tribe warriors quite a few times. They could be said to have quite a good understanding of the Bear Tribe's skills and battle abilities, to the point of being very familiar with them! Especially the powerful, forbidden skills of the Bear Tribe—the strange races were even more careful!

Tian Fa's battle power was something that the strange races found the hardest to deal with in every War for Seizing the Heavens. It was also the thing that they were the most unwilling to deal with! Because the Tian Fa Xuan Beasts all had one common characteristic, which was that their life force was extremely strong. And they did not fear death as well! Even if they knew that they couldn't win, they would still do their best to drag their enemies to the grave with them! They could be said to be a horrifying meat grinding machine that everyone feared!

Chapter 1163: You, Come Out, Let this Daddy Kill You to Satisfy Myself!

And because of that, every generation of strange race experts would study Tian Fa's forces in detail, analysing their strength, looking for their weaknesses from different angles to prepare themselves for battle.

This was no doubt a wise move, since it was always a good thing to make ample preparations! But no one would have thought that the plan that they'd thought up of after spending so much effort would end up turning into a trap!

An extremely lethal trap!

The only thing was that the Xuan Beasts themselves were still in a state of confusion, not understanding just when they'd laid down this lethal trap for the strange races!

The answer was actually very simple. From the day that Jun Mo Xie stepped into Tian Fa and got to know the various Beast Kings, his initial thought was that their battling style was too simplistic! It relied entirely on the strength and gifts of their individual bodies, fighting only on their instincts as Xuan Beasts! How could that be good?

The ferocious tigers would pounce first, slamming their paws down, followed by a whip with their tails. This was undoubtedly a very effective attack. But no matter how effective an attack was, if it was repeated too many times, or if it dragged on for too long, then the threat the attack posed would be lessened greatly, and it would be easier for the enemy to discover the loopholes. Then, if an appropriate counter measure was thought up, the Tian Fa Xuan Beasts would no longer be going into battle, but committing suicide!

Young Master Jun would naturally not be willing to see his brothers-in-laws attack in such clueless manners. Previously, they didn't know better, and it was fine to do things simply. But now... Young Master Jun was a person who'd lived two lives. He'd memorized quite a number of famous ancient war tactics in his previous life, and the Hongjun Pagoda also had a wealth of knowledge stored within it!

And so, with Jun Mo Xie's great efforts, the battle tactics of the entire Tian Fa Ferocious Land was refreshed! Compared to the simple traditional methods of the past, this was a completely new look!

And this 'new look', to the strange races who had been too familiar with the old battling tactics of Tian Fa, was now an extremely lethal death trap!

Take for example a forceful tactic like a ferocious tiger pouncing on a lamb. The opponent would naturally come up with a countermeasure to deal with this kind of tactic.

But just when they thought that they had found a way to break the forceful technique, they discovered that this was actually a trap... a scheming snake disguised in the skin of the ferocious tiger. And the actual killing tactic was actually an impossible development like 'Monkey Stealing Peaches'...

What kind of feeling would that be?

Truthfully, Jun Mo Xie had never really considered this far when he taught them these battle tactics. It was a complete coincidence and misfortune that the strange races ended up falling into the hands of it!

Young Master Jun had truly not done this on purpose!

Because these sneaky tactics had actually been designed to deal with the experts of the three Holy Lands.

But in the end, the unlucky ones had actually turned into the strange races...

Heaven makes fun of people, ah!

The foundations of this 'One Sword Breaking Heaven's Chosen' that Big Bear used was actually the Bear Tribe's sword technique 'King's Sword Nine Firmaments'. But after Jun Mo Xie's modification, it had completely changed.

When Qiangshang Nu Ju saw Big Bear jumping up to meet him, he'd instantly thought of the Bear Tribe's famed killing technique, King's Sword Nine Firmaments! This was the strongest and most unique killing technique of the Bear Tribe. But after so many years, the strange races had already researched a method to break through this sword technique.

And so, Qiangshang Nu Ju was fully prepared and confident, only waiting for Big Bear to throw himself into the death trap, before ending everything with a single, glorious strike!

But Qiangshang Nu Ju would never have expected that this extremely familiar King's Sword Nine Firmaments would suddenly turn into a One Sword Breaking Heaven's Chosen that he'd never seen before! All of a sudden, the script that he'd memorized was thrown into the fire!

No one would have been able to imagine the complicated feelings in Qiangshang Nu Ju's heart at that moment.

Only one thing was certain.

With Qiangshang Nu Ju's strength, if he'd discovered that this technique wasn't the King's Sword Nine Firmaments as he'd thought, then even if the One Sword Breaking Heaven's Chosen was stronger, it wouldn't be able to kill him. At the most, it would only result in a serious injury.

But both sides' swords were already almost touching when Qiangshang Nu Ju realized to his dismay that this wasn't the King's Sword Nine Firmaments! He'd been tricked!

And so, Qiangshang Nu Ju instantly panicked.

With their life under threat, who wouldn't panic?

With Qiangshang Nu Ju's strength, if he hadn't panicked, he might not have lost his life even if he fell into a disadvantage. Even if he had to suffer a heavy injury, he would still make the Bear King pay with his life!

With his mind in a mess and his stance flurried, it was already too late to try to dodge. The One Sword Breaking Heaven's Chosen's power had already locked onto him. At that time, if he still tried to forcefully use the Stealth Kills technique, it would mean that he would be abandoning his defence, and he would instead die even quicker!

Left with no choice, Qiangshang Nu Ju began to counter attack frenziedly!

Unfortunately, he was still too late by an instant!

In a fight between experts, even the slightest millimeter of distance would mean a difference of a thousand li, and the wavering of even half a breath would determine life and death!

The One Sword Breaking Heaven's Chosen was not any normal technique. It was something that Young Master Jun had customized for Big Bear. The moment this attack was unleashed, it would be able to raise Big Bear's attack power by more than twofold!

The sharpness of the Bear King Sword, coupled with the explosive power of One Sword Breaking Heaven's Chosen, as well as Big Bear's Saint Emperor level Xuan Qi and his powerful innate body was able to cleave Qiangshang Nu Ju's body in half with a single slice!

But what ultimately changed the ending of the story was the third miscalculation—the Bear King was actually carrying a heaven defying pill that could bring one on the verge of death back to full strength! This was the part that made Qiangshang Nu Ju so aggrieved that he died!

His strength was clearly far above his opponent's, practically more than twice in power. But ultimately, the duel had ended up in both suffering mortal injuries. Qiangshang Nu Ju was already extremely depressed that he wanted to die again, but after watching his opponent swallow a pill and recover back to full vitality without any problems...

One could say that Qiangshang Nu Ju had been angered to death!

With his deep cultivation, he should still have been able to endure for around half a day's time. But this sudden bout of anger and unresignation caused him to die with his eyes wide open...

To a peak level expert, such an aggrieved death was too sad!

The fully recovered Big Bear stood there suavely and roared with laughter as he pointed with fingers, as thick as carrots, at the lineup on the strange races' side. "You, you, you, you, and you, come out here! Let this daddy kill you to satisfy myself!"

What kind of bastardy words were that?! Did we come all this way here just to let you satisfy yourself?

If it was before, this sentence by the Bear King would definitely have incurred the curses from everyone. But at this moment, nobody dared to speak! The strange race army even seemed a little frightened, all of them taking another step backwards. Their eyes were filled with fear that was hard to disguise!

This was especially so for Xiachuan Po Gua who had just exchanged blows with Big Bear. He was so scared that he'd nearly fainted.

F*ck ah... that bear is actually so powerful! Luckily I hadn't forced him too far just now, retreating the moment I realized that the situation wasn't good. Otherwise...

Looking at the cleanly sliced body of Qiangshang Nu Ju, Xiachuan Po Gua could not help but feel a chill down their backs. All the hairs on their body were standing up on their ends, and both faces paled to a stark white. The two halves lying on the ground, could have been me ah...

It's true that there were indeed some accidents in the last fight, and it's not as if there had never been any cases of a weaker person triumphing over a strong opponent. But... the truly crazy part was that the bear had clearly received two deadly injuries a moment ago. His heart had been ripped, and even his body was almost torn apart. But to think that he could actually recover?! And to actually be so lively still! That was too incredulous! This bear actually had pills that could preserve his life! In that case, what was the point in fighting him? Wouldn't that be seeking death?

"Our King is awesome! Our King is invincible!" The 3,000 warriors of the Bear Tribe roared, their voices as loud as thunder.

While one side celebrated and the other side was panicking, Eagle King was looking up at the sky with furrowed brows.

The situation was still stable, but ever since they had landed here, only less than two hours had passed! There were still at least six more hours before the next batch of reinforcements arrived!

But in just this less than an hour's time, the other side has already shown nearly 200 Hell Enduring Ghosts, and a Frenzy Blade Enduring Earth peak level expert. Fortunately, Fourth Brother managed to slay the strongest expert on their side, and temporarily stabilized the situation.

But... who knows how many other frightening existences were still going to come out from that side in the next six hours? The two sides were currently staring each other down on a wide road. But if the other side's experts continued to pour in, and they decided to mount a frontal charge without consideration of the consequences, he and Big Bear might not be able to hold them off!

Eagle King sucked in a deep breath and turned around to look at the eight figures behind him, feeling a bit of calm surging through his heart. Perhaps, with the eight Saint Venerable seniors here, it might be possible to block this place for six more hours...

But just at this time, a rumbling sound suddenly rang out from the distance. This kind of rumbling sound was unusually grand, and in just a short time, it'd already far surpassed the noises made by the volcanoes.

At the same time, a series of long and short strange sounds that were difficult to describe rang out from every direction, sounding like the wailing of ghosts. In an instant, the entire area seemed to be filled with an eerie, ghostly atmosphere.

This eerie ghostly air was somewhat similar to the Nine Nether Fourteenth Young Master's Nether Frost Qi. The Nine Nether Fourteenth Young Master's aura was more heavy on the "Frost" aspect, while this Yin Qi was filled with the energy of the Nether Yin...

Chapter 1164: Endless Massacre!

As that rumbling noise grew nearer, a look of joy appeared on the faces of the strange races, who were just in a state of panic and fear.

Eagle King quickly spread his wings and flew into the air, looking into the distance. Even with his guts, he couldn't help but suck in a breath.

From afar, an endless ocean of two-headed monsters were riding on similarly strange horses, whipping away at their horses and approaching this side in a frenzy!

In the air, before these monsters, there were hundreds of black little dots that were shooting through the air, as fast as lightning!

These black dots in the air were clearly the peak experts of the strange races! Judging from the speed they were travelling at, the weakest cultivation of these people were at least Frenzy Blade Enduring Earth standards!

The trouble is big this time!

“The bulk of the strange races and main forces are approaching at high speed! Everyone, into formation! Get ready for battle!” Eagle King yelled loudly, flapping his wings. Behind him, the three thousand eagle warriors instantly turned serious. As per their usual simulation training, they got into groups of ten and stood in formation!

Clang! They unsheathed their blades simultaneously!

The bear warriors retreated ten steps orderly, echoing the eagle warriors, also standing into their formations of ten. Under Big Bear’s command, the Bear and Eagle Clan troops merged and instantly formed into a new battle formation.

With twenty in a unit, made up of ten from the Eagle Clan and ten from the Bear Clan. Holding their dazzling blades, they advanced uniformly!

At this moment, everyone recalled Jun Mo Xie’s teaching. “As long as your comrades are still before you, then you have a responsibility to protect his back, with all your might and your life!

“As long as there are still enemies in front, as long as you still have a single breath left, then your only responsibility is to kill the enemy! You don’t need to consider your defenses, and do not have to think about your safety! Because your comrades will protect your backs for you, securely!”

The atmosphere was heavy and tense!

Just like a giant barrel of gunpowder, the slightest bit of movement, the tiniest spark was enough to trigger a huge explosion that was enough to shake the entire world!

Saint Venerable Lu and the rest were naturally of a different tier from Eagle King. They had already detected that troop of people that was approaching like a meteor earlier. They exchanged glances, a solemn look in their eyes. The current situation was extremely dire. The eight of them no longer had any confidence in whether they would be able to hold this battle after seeing that bunch of experts that were about to arrive!

“The enemy has another thirteen Supremacy Enduring Heavens! Three hundred Frenzy Blade Enduring Ghosts! And almost three thousand Hell Enduring Ghosts! The rest, all have the strength of Ninth Level Endurers! There should be more than ten thousand of them! A force like this...”

Saint Venerable Lu looked afar apathetically. Although he was not an Eagle, there was a predatory look in his eyes, sharp and merciless. “Seven brothers, I’m afraid that the day we have been waiting for our entire lives... have finally arrived!”

“Six more hours, there are six more hours!” Saint Venerable Bear had a solemn look on his as he looked longingly at Big Bear, who was at the frontlines of the bear warriors. He spoke calmly. “We must use our strength, our lives to stop these sh*ts for six hours! At least six hours! Even if our bodies are turned into powder, we must not let them past! We must hang in there until backup arrives!”

“We absolutely must not let those Enduring Heavens activate their Stealth Kill Technique! If we decide to strike, then we absolutely must get at least eight Supremacy Enduring Heavens to perish with us! Then, using the effects of the Heaven Reversal Pill, injure a few more... if we manage to succeed... and if any of us manage to survive... then there is only one thing to do. Use all your strength to get rid of as many Frenzy Blade Enduring Earths!” Saint Venerable Lu’s voice was calm and steady. In face of this impending, treacherous war, his mind wasn’t the slightest disturbed!

“Alright! Let us burn the rest of our lives till the end today!” Instantly, all eight brothers made preparations to strike.

“Tian Fa will inevitably be glorious because of us! Even if we die, we must not weaken the ten thousand years reputation of the ferocious land Tian Fa!”

Saint Venerable Lu said apathetically. “As to the children... we do not have to care, and we must not care. Everyone must remember that in that moment you are distracted to look out for your descendants, you will cause a delay because of this moment of distraction, and this delay will cause immeasurable damage to our descendants! If we are distracted, we are not only not looking out for

them, but we are also bringing harm to them! Fighting with our might, killing the most possible number of enemies. That is the only way we can endure the continuity of the bloodline of Tian Fa!”

“The more we kill, the safer our descendants will be! Everyone understands this logic!” Saint Venerable Lu’s tone was more intense as he spoke! His eyes were gradually turning red. He had already begun to circulate all his Xuan Qi.

They were only awaiting for that moment of explosion!

A shrill whistle cut across the air!

Then, hundreds of shrill whistles rang out. A powerful gust of air swept across the earth along with these shrill cries! Countless debris from the collapsed Pillar of Heavens Mountains was sent flying, filling the air with dust and dirt.

Then, a voice cried out. “The one in front, which tribe from the Divine Sun is that? Why aren’t you attacking? Why are you hesitating! Idiots! Why are you still not charging!”

It was as if this holler had some sort of magical power that could make one’s mind tremble; after this yell, Shangchuan Po Ku, Xiachuan Po Gua, and Deku Bu Shang who was watching from afar suddenly let out a shout at the same time!

All their eyes turned bloodshot, as if they had lost their minds. But if you look carefully, you’d realize that there was a thick look of fear in their eyes! As if this yell from afar could make them wish for death anytime!

As if, they would rather die in battle than endure the yelling and condemnation from the person who had yelled!

Then, a series of weird cries came ripping out of the throats of the countless strange races from ahead. The next moment, the strange races who were afraid and hesitant out of fear and panic earlier, began to charge forward like rapid torrents!

Unafraid of death!

Within seconds, the battle that had calmed down temporarily instantly reached the boiling point! The current frenzy the strange races were in was comparable to that of the bear clan's warriors earlier!

Thankfully they were facing the Eagle-Bear Army, that was not inferior to the strange races in terms of their battle inclination!

At this moment, Eagle King, Bear King both glanced towards a faraway distance! Their gazes sharp and resolute, with deep emotions!

They were looking... in the direction of Tian Fa Forest!

Just one look!

One look!

We probably will not be able to return back home!

The faraway hometown... just let me... take one more look!

Then, they quickly snapped their heads back, a burning, furious look in their eyes as they look at the approaching strange races!

The next moment!

"Kill! For Tian Fa! For the glory of Tian Fa! Kill all these scum!" Bear King roared, straightening his back. Boom! Thick smoke emerged from his body, as they faded away, this Bear King of Tian Fa had returned back to his beast form, into a giant bear that was three zhang tall!

The arms of the giant black bear were about twice the thickness of a regular human's thighs. He reached behind his back, pulling out an enormous blade. The blade was almost a zhang long, one meter in width. Upon first glance, it resembled a giant door. Then, Bear King's right hand put the sword into a round metal pillar, locking it in place.

This metal pillar was about two zhang in length, and about the thickness of a human being. With a click, the giant blade spun and was attached onto this metal pillar! An unimaginable peerless weapon was formed in Bear King's hands!

There were only two people who were able to wield a weapon like this in the entire Tian Fa Forest! Bear King Big Bear, and Old Bear King Saint Venerable Bear! Other people were really incapable of using it, including Jun Mo Xie himself!

Because this thing was truly too gargantuan! Too colossal! And too heavy!

After the blade was connected with the metal pillar, the entire thing spanned for four zhang. It weighed a thousand and six hundred catty! If it wasn't for Bear King's strength as the Bear King, any regular experts would find it difficult to even lift it!

For this blade, Big Bear had begged Jun Mo Xie for three whole days! Then Jun Mo Xie reluctantly smithed this unrivalled and unmatched weapon for him! This blade was specially customized for Big Bear after he returned to his original form!

A ferocious weapon like this was an absolute killing machine for massacring in a battle!

Where the blade passes, it was like cutting grains. A clean, complete patch was taken out!

Bear King held onto his weapon and looked at the impending strange races coldly, a ruthless and bloodthirsty look in his eyes!

At this moment, Big Bear was like a God of War!

Overlooking the common lives!

Near!

They're nearer now!

Big Bear raised his right hand, pulling his blade out and swinging it forward. He yelled: "Charge! Everyone, move! Kill all these grannies for this daddy!" Behind him, six thousand warriors let out a roar at the same time!

Big Bear cackled, taking a huge step forward. He was like a violent tornado, his heavy footsteps sending rumbles through the ground!

It was only three steps, just three steps, and Big Bear had already charged into the sea of strange races. He let out a loud roar and swung his long blade horizontally, like a bolt of lightning!

With frightening might, he took the lead and beheaded them endlessly!

"Ah~! Hei!~~" Big Bear hollered excitedly, the muscles on his arms bulging. The light from his blade formed a dazzling ring!

Endless Massacre!

Pop! Pop! Pop...

Chapter 1165: Why Didn't You Keep Your Word?

Neatly, the over forty strange races in front and beside Big Bear instantly turned into ninety different pieces! Gushes of fresh blood shot into the air like fountains!

Big Bear did not stop, continuing to advance with big steps, but the huge sabre in his hands came swinging in the reverse direction.

But there was no difference in the results!

The Bear King right now wasn't using any technique—he was just swinging his sabre left and right; as he repeated this motion, decapitated heads flew into the air.

Ear-splitting tragic screams and shrieks filled the air!

Behind, six thousand Tian Fa warriors were armed with a terrifying, blood-thirsty sabres. Although they were not as exaggerated as Big Bear's, they were longer than the usual weapon and three times the weight! They slaughtered their way through in the same manner. Wherever they passed, blood stained the skies and heads and dismembered limbs were sent flying in all directions!

Under everyone's watchful eye, Big Bear's humongous body suddenly rose into the air. He swung his sabre close to his neck, then did a spin midair! Another powerful stroke was already sent out!

"Brothers! Is the battle today satisfying for everyone?!" Big Bear's loud laughter shook the heavens.

"Yes! Extremely!" Six thousand warriors all bellowed in laughter, with fresh blood spewing everywhere, their faces were still filled with excitement.

"Is it satisfying enough for you guys?" Another two horizontal strokes sliced through the crowd!

"Not enough! Far from enough!" Everyone roared in unison!

"Do you want it to be more satisfying?!" Big Bear bellowed, laughing into the skies. His sabre flashed before him and blood and heads went flying into the sky!

"Yes!!"

“If you want then continue to kill all of these b*stards! See if you’ll find it satisfying enough after you’ve killed all of them?!” Big Bear let out a loud howl. Right now, he was in a complete state of excitement.

Right now, aside from massacre, there was nothing else in Bear King’s mind!

“Kill all of these b*stardly scum! Kill all of these b*stardly scum!” They bellowed loudly. The six thousand warriors were even more eager for battle—all of them charged forward with all their might!

Thousands of sabres formed into a dazzling rainbow that covered the earth, creating a rain of blood that connected the heaven and earth with each chop! The strange races’ tragic cries became a chorus, thousands dying under their sabres the moment they came into contact!

But it was as if these bunch of two-headed monsters had completely lost their minds this time! All of them charging forward with blood-shot eyes, howling non-stop! Even though they knew they were no match for the enemy, they continued to attempt to outnumber their enemy fearlessly!

Big Bear took the lead, his giant build like a sturdy iron tower, moving forward in the crowd at high speed. Some of the strange races with lower cultivation were stomped by his giant foot with a crisp pa! As if a toad that was filled with air was stepped on! Completely turning into minced meat!

Clang! Big Bear’s body jolted. He raised his eyes and looked straight ahead, only to see a figure stumbling back.

Deku Bu Shang!

This was the only obstacle Big Bear had met since the moment he charged through the masses. And also the only strange race that was able to stop Big Bear’s rapid massacre!

“Scum! Announce your name!” Big Bear bellowed, the air quaked because of this. The curves appeared on the pillars of blood that was shooting into the air before it rained down again.

“Idiot! Wretched black bear! This seat is Deku Bu Shang!” Deku Bu Shang had given his full strength to gamble a hit against Big Bear, but the long sword had already broken into eight pieces from Big Bear’s

retaliation. Both his hands were covered in blood! Blood was even dripping out from the corner of his mouth!

He may not be weak, but compared to the King of the Bear Clan, who had already regained his most powerful form, there was still a huge disparity!

“You’re not going to f*ck after you obtained the pants? 1 Your granny, what sort of bullshit name is this? I only thought you scum were sick, but turned out even your names are this sick!” Big Bear widened his eyes. “F*ck your Old Master! Don’t tell me you go around butt-naked everyday? You’re even more disgusting than those two who wears their torn clothes on the wrong places! Why haven’t you gone and hung yourself when you’ve seen this granddaddy? What else are you waiting for? Do you really need this granddaddy to go through the trouble?”

Deku Bu Shang was so angered by Bear King’s words that his eyes turned red. He cursed almosted hysterically: “Ba-ka! 1”

“Hit on me? 1 F*ck! I have no interest in hitting on scum like you! Even if you ask me to hit on your sister or your grandmother, it’s all useless!” Big Bear narrowed his eyes menacingly. “Come, come, come, let me chop off your head! And send you on your way!” Then, his huge sabre suddenly came swinging down. The whistling of the air could be heard as his sabre sliced through it.

At this moment, the intense wind that was brought along with this sabre had overpowered the sound of the North-East Winds that were howling away!

Deku Bu Shang only felt like everything in the world had vanished, and all that was left was this murderous sabre!

Sh*t. He knew that the opponent had an overwhelming aura, although his Xuan cultivation was not that far off, but at this moment, he was completely frozen by the overbearing aura of the enemy!

When facing an expert like this, being intimidated was basically losing half the battle!

How could Deku Bu Shang dare to receive this blow? He yelled and a puff of thick smoke suddenly exploded and covered the area. "Bear King! Do you, a King of Tian Fa, have the guts to fight me one on one?"

Stealth Kill Technique!

Big Bear instantly recalled Eagle King's reminder from before: the stealth kill techniques are not suitable for a chaotic battle.

He couldn't help but guffaw loudly. "Sure! Don't tell me I'm supposed to be afraid of a strange race scum like you?"

Deku Bu Shang was elated, quickly changing his sabre and smiling sinisterly. "Bear King, as expected, you have enough guts. You are a man, come with me!" Then, he rose into the air. For the sake of leading Bear King to follow him, he intentionally left a trail of black smoke, hinting: I have left this way, come over quickly, let's fight one on one, let me conquer you as the weaker one in this battle and chop off your bear head!

The Stealth Kill Technique was indeed unsuitable for chaotic battles, especially large scale ones like the one right now. Thus, the moment Deku Bu Shang got the enemy's promise, he instantly retreated away from the battle area! Springing fifty zhang away in an instant!

He had complete confidence that as long as Bear King gave pursuit, he would be able to toy with him till death!

Bear King looked at him condescendingly, a cunning look flashed across his eyes. He suddenly hollered, "I'm coming!"

Deku Bu Shang was overjoyed!

After Big Bear had shouted that sentence, he turned around and charged towards an area that had more strange races congregated together, swinging his giant sabre about. Wherever his sabre passed, at least a hundred strange races screamed from their decapitated heads!

Then, Bear King leapt into the air and landed in a position which was most concentrated with strange races. He lowered himself and swung his sabre while spinning around like a screw. His sabre formed into a bright ring of light around him, advancing with bursts of fresh blood!

Endless blood spill!

Pop! Pop! Pop!...

Countless of dismembered body chunks flew into the air, along with endless tragic shrieks.

Deku Bu Shang only noticed something was amiss when he had fled more than a hundred zhang away. He was so furious that he almost fell out of the air.

“Bear King! You’re shameless! You’re despicable! Y-You... We agreed to fight one on one, where is your trustworthiness?! What sort of man are you?!” Deku Bu Shang was practically about to vomit blood. He was so furious that he was trembling.

If he had stopped Big Bear where he was, why would his own clan men be killed in hundreds in this instant?

This b*stard! To think that he did not keep his words! Where is his warrior spirit?!

Big Bear turned a deaf ear and did not answer, excitedly waving the sabre in his hands about. “Kill!” An entire sea was eliminated. Then with a spin and a yell. “F*ck!” Another sea was yet again annihilated...

Killing to his heart’s content!

Deku Bu Shang was so furious that his lips were trembling. He flew back with a whoosh. Pointing to Big Bear, he scolded. “Big Bear! Do you still have the demeanor of a King! Absolutely disgraceful, despicable, shameless! Are you still a man?!”

Right now, he was still in a concealed state, so only his voice could be heard from the air, but Big Bear couldn't see him!

But he really shouldn't have spoken in front of Big Bear!

Big Bear looked from the corner of his eyes, still not saying a single word. The only reply he gave was a horizontal slash of his sabre!

Deku Bu Shang cried in shock. Bear King barely missed him. He scolded angrily. "Bear King you despicable!... Ah!!..."

Because at this moment, the sabre in Big Bear's hand began to spin like a windmill, turning into net of sabre. And he yelled. "Some of you, come, shatter the air for this daddy!"

The moment he gave his order, the few nearby warriors of the Bear clan instantly bounded over. Their bodies had yet to arrive when numerous sabre light had already completely sealed up the region that Bear King had sealed off with his single sabre!

"Ah..."

Deku Bu Shang howled tragically, a burst of fresh blood appeared out of nowhere in the air!

"F*ck your granny! This is in the midst of a battle! Who has the mood to fight one on one with a scum like you who hides about! F*cking hell, all of them in Tian Fa Forest always say this daddy is lacking in the brains department, but over here, even you scum really think that this daddy is an idiot! Pei! Whether this daddy is a man, you know, only this daddy's harem has the rights to say whether this daddy is a man or not! Idiot!" Big Bear hollered proudly.

On the tip of his sabre, there was a person hung on it: Deku Bu Shang!

The Lord of the Deku Family of the strange races was being hung midair, like a piece of tattered cloth! There was a huge hole in his chest that skewered across both his bodies. Under the inescapable net of

the warriors of the Bear Clan and Bear King, Deku Bu Shang whose location had been determined, finally couldn't dodge and was skewered by Big Bear!

Right now, the four eyes on Deku Bu Shang's two bodies were burning infernos. They twisted angrily to glare at Big Bear. "You... Why didn't you keep your words?"

"The f*ck! You're still harping on this issue even until now! Looks like you're more stupid than this daddy!" Big Bear let out a cry of surprise.

Chapter 1166: So This is How an Excellent Moron is Born?

Deku Bu Shang only had one breath left, but he continued to glare unyieldingly, struggling as he questioned: "You... Why didn't you keep your words?"

Big Bear met his glare with an equally unrelenting look. He suddenly stuck his huge weapon into the ground, picked up Deku Bu Shang's crippled body, and smashed it mercilessly against a huge boulder nearby. Blood splattered everywhere. Then, he lifted his blade and used the back of his blade to hammer down continuously. As he hammered, he cursed. "How is this daddy not keeping his words? Aren't I keeping my words with you right now! Is this not fighting one-on-one? Keep your words! Keep your words! Keep your granny! Keep your whole family! Keep your..."

After over ten rounds of chopping, this strange race that kept his words had turned into a pile of minced meat. Big Bear even spat and said tauntingly, "Did you really think this daddy has something wrong in his head, to keep my word with a strange race like you? F*ck you! Are you taking me for a fool?! Pei!"

"Our King is great!" A few bear warriors threw flattery at this shameless King.

"What are you rambling about, hurry up and continue to kill! What b*llshit trust! To clamber on your enemy to talk about keeping your word on the battlefield, the brains of this bunch of two-headed scums are really..." Big Bear rolled his eyes. "When this scoundrel was in his mom's belly, she definitely suffered a fall! And not just once, otherwise, this scoundrel wouldn't be this moronic! He is a f*cking natural moron! Goodness, what an excellent one!"

The faces of the other bears twitched a little before they dragged their knives and continued charging towards the other side of the battlefield.

Big Bear laughed heartily, but was suddenly left stunned.

Because he had clearly heard, from the other side of the battlefield, the furious yelling of a few bear warriors: "Did your mom fall when you were in her belly?"

And there was a strange race that foolishly replied. "What?"

"'What' your old master! Looks like she really suffered a fall..." Then, a tragic scream was heard.

Big Bear's face darkened...

It didn't take long for the entire battlefield to completely turn into the stage for the bear warriors to exhibit their loud voices. They were yelling loudly everywhere; the only pity was that their lines were a tad simple, and the contents were the same: "Did your mom fall down before?"

The ferocious blade went chopping down with every questioning. Series of tragic shrieks rang out ceaselessly...

Then, it completely became a case of...

"Did she fall before?"

"Did she fall before?"

"Did she fall before?"

The bear warriors were completely spirited as they cursed, feeling more and more pleased the more they fought. This swearing phrase was extremely satisfying and great for venting anger. As they cursed and slaughtered their way through, their strengths were also raised by a few levels!

It felt so great!

It is really satisfying ah!

Whoosh. Eagle King spread his wings and sent the blood that had stuck to his wings flying out, flying over to where Big Bear was. As he chopped down six strange races, he asked curiously. "Fourth Brother, what did you say earlier? Where have you fallen down before? What does it mean? Why haven't I understood it even until now?"

"Fall your goddamn head! Scram!" Big Bear didn't feel the least proud of himself. Those scoundrels from his clan were too embarrassing. He had no idea which one of them spread this 'swearing', and it just spread like wildfire. It was fine if it was any other intelligent sounding phrase, but this was something that clearly hurt his great reputation, ah!

This is too damaging to my image! After this battle, I definitely have to mete out harsh punishment! But then again, this 'swear' from Brother-in-law doesn't have a single curse word in it... it's really worth learning from ah...

He was just brooding over this matter when Eagle King came over pry about the commotion, so how could he be nice to him? Upon hearing this, he gave him a glare, turned around and went charging into the sea of enemy with a roar...

"En? Did I offend or piss you off? Why are you scolding me too? What bad luck!" Eagle King was stunned. He grumbled a little before following in suit to kill the enemies!

Naturally, almost forty thousand strange races were no small number. But the strength of Tian Fa's warrior were undoubtedly multiple folds of them! Under the joint forces of the Eagle and Bear Clan, slaughtering with all their might, the overall numbers of the strange races were rapidly reducing!

Like ice being melted by the blazing hot sun!

But in the short duration both sides had clashed, there were hundreds of injured members on Tian Fa's side, of which, there were a few dozen members who had sustained heavier injuries and were forced to use the Heaven Reversal Pill to regain their strength before continuing to slay the enemies!

The effects of the Heaven Reversal Pill were truly impressive; no matter what sort of injuries or what level of exhaustion, as long as one breath remains, using one pill would allow them to return back to full strength, with no side effects. This medicine is truly rare; if there is any flaw to it, it was only the fact that it could not be taken again for an overly long period of time.

Only one pill could be consumed in the duration of a month. Reusing the pill during this time limit would result in no effect! The second pill will only be able to show its effects a month later, after the body has completed its circulation and got rid of all of the medicinal effects!

This was what Young Master Jun felt was a flaw. Otherwise, if he gave each of the warriors hundreds of pills, wouldn't they be able to keep on massacring the enemy without a stop?

Then were there any risks for the War for Seizing the Heavens? Was there anything that could not be resolved in the world?

But the reality was that such great things did not exist in the world! No matter how miraculous the medicine was, it would have its limits and restrictions!

The remaining few thousands of strange races left in the battlefield still continued to resist and fight back! More than ninety percent of their troops have already died under the blades of the Eagle-Bear Army, turning into minced meat on the ground!

"Kill! The battle of the Divine Sun, the goal is to seize the heavens! The Xuan Xuan Continent will ultimately belong to the Divine Sun Clan!" A resounding, terrifying voice rang out across the battlefield, and a figure had appeared in the air above!

This voice was unusually eerie, there was an odd, unique melody to his tone! It was the Supremacy Enduring Heavens that spoke earlier! The strange race leader that had just arrived!

And the strange races' craze was also because of this one sentence!

This person had the supreme power in this entire region of the strange races!

With this loud declaration, his figure had already begun to charge toward the ground! His blade light had arrived before him, slicing down like an endless rainbow. Numerous bear warriors cried out, injured by him!

With a more than ten zhang distance, he managed to wound Saints with the Qi of his blade alone!

It was clear that the cultivation level of this person had already reached the levels of Saint Venerables!

Then, another twelve figures appeared consecutively in the air; in a flash, they came charging down to the ground with sinister grins on their faces!

There was a chilling blade light in their hands! That was the Blade of the Enduring Heavens! Like bloodthirsty demons, it opened its big mouth and revealed its sharp fangs!

The Blade of the Enduring Heavens represented massacre! Destruction!

If they really landed, the warriors of the Eagle-Bear clan would definitely suffer destructive hindrance! The strength of one person alone may not be able to alter the current situation, but if over ten Saint Venerables joined forces and struck, then it was definitely enough to change the entire situation!

What more, even if it weren't for these thirteen superpowers, there were hundreds of Frenzy Blade Enduring Earths arriving!

Right now, the strength of Tian Fa was a little lacking compared to the strange races!

But there were almost six hours more before the second wave of backups arrived! And during this period of time, the numbers of the strange races would only increase drastically!

With the current situation, the battle that the Eagle-Bear Army was about to face was on the brink of determining life and death!

“Tian Fa, last forever!” Just at this moment, suddenly, one of the bear warriors who had already used the Heaven Reversal Pill suddenly roared and leapt into the air. He turned to his original form midair, roaring and went hacking down with all his might towards the Supremacy Enduring Heavens that was on the way to the ground!

That Supremacy Enduring Heavens let out a cold chuckle. The female voice remarked condescendingly. “A small fry like you dares to try and stand out?” He calmly swung his sword, clanging against the bear’s sword. It flew out of his hands and turned into metal shavings in the air.

But that bear warrior had clearly prepared to stake his life on this; the moment he leapt into the air, he had already sent all his Qi bursting out. Although his sword left his hand, his humongous body continued to fly forward! The giant bear continued to snarl, spreading his huge paws and went lunging at the Supremacy Enduring Heavens!

Whoosh whoosh whoosh! Three flashes of blade light, and the arm and right leg flew off from his body, fresh blood spraying about. But he continued to roar, drawing close to this Supremacy Enduring Heavens with all his might!

Then!

“Tian Fa!” This bear warrior roared hysterically, grabbing onto the blade that was stuck in his own chest with his only remaining arm. He cackled manically and exploded!

Turning into meat chunks that rained from the sky!

This violent explosion completely covered the area of the surrounding ten zhang radius. Many strange races that did not manage to dodge the meat chunks were severely injured. That Supremacy Enduring Heavens who was at the center of the explosion let out a furious growl, unable to control its body that was still midair. He was sent flying out by this tremendous impact of the explosion!

This Supremacy Enduring Heavens had the cultivation of a Saint Venerable! The self-detonation of a Saint level may make him appear pathetic, but it was still not sufficient enough to injure him!

But in the brief moment he stumbled back due to the force of the explosion, it was enough to change the entire situation and bring it towards an unpredictable path!

Chapter 1167: Life Spatial Lock!

That bear warrior was well aware of the disparity between himself and the enemy before him. He had not hoped to perish with him. His intention was to use his own self-detonation to vie for some time, using the last bit of his strength to stall him for a while, so his comrades would be able to prepare themselves, so they could slay more enemies!

Using his own life, his own spirit, turning it into an explosive force, keeping this God of Death out! Even if it was just for a second, his sacrifice was worth it!

Perhaps it was because he managed to vie for this one second for his comrades, to allow them to have some time to prepare themselves!

Because a Saint Venerable like this, the damage he would cause the moment he landed in the concentrated troop of Tian Fa warriors, would be destructive! There may be many comrades who would be killed, not even having the time to use the Heaven Reversal Pill!

Whereas, he had already used the Heaven Reversal Pill! Had already died once!

I picked this life back! If it can help the rest get that little chance of survival, it's worth it!

"BLACKIE!!!" Big Bear roared hysterically, both his eyes turning red, as if blood were about to spill from them! He charged towards that direction, slaying everything in his path!

Two waves of fresh blood sprayed from wherever he passed, like a giant boat cutting across the surface of the water.

“Into formation! Everyone, get into formation! Don’t be in disarray! Get into formation and slaughter all these scum! Seek revenge for our Brother!” Eagle King shouted, his grief and indignation in his voice was about to rip and tear his throat!

“Revenge! Revenge!” The sacrifice of this bear warrior completely incited the ferocious nature of all the warriors of Tian Fa!

And Eagle King made the most correct choice at this moment!

Getting into formation!

The absolute killing formation that Brother-in-law had imparted!

Every ten men as an individual unit!

And the little bit of timing for them to get into formation was exchanged for with the life of the bear warrior that had sacrificed himself! Although it was just a short bit of time! If not for that little bit of buffer time, they would have been annihilated before the formation took shape!

Even the most powerful formation was nothing if it didn’t take form!

It was also at this moment when an unusually sharp whistle began to sound, like a sharp knife slicing across the air. It shot towards that Supremacy Enduring Heavens that was in the midst of stumbling backwards!

That Supremacy Enduring Heavens who was sent flying back from the impact of the self-detonation was so angry he was about to vomit blood! He had rushed the entire way over, and ordered the sea of men to attack to drain the enemy’s energy and mess up their formation!

He had sacrificed almost forty thousand men just so that when he arrived, he could easily charge right into the enemy's formation that was already in disarray due to the drawn out battle. Then wipe them all out, before leading all the ten thousand forces behind him forward, into the Xuan Xuan Continent! Setting up the first military base for the strange races in the Xuan Xuan Continent, guarding this exit that was already opened and had no threat from the volcano!

As long as the rest of the troops arrive, they would have a great chance at invading the Xuan Xuan Continent!

He had complete confidence that the chances of victory were completely impossible, even with five thousand men against Tian Fa's warriors, because Tian Fa's warriors were stronger! But relying on the advantage in numbers would definitely be able to mess up their formation!

And this was the only thing he wanted! Even an expert like him was incapable of breaking an orderly, formed formation!

Even a Saint Monarch cannot belittle the strength of a thousand experts united as a single force!

But as long as the basic formation has been messed up, he would be able to find an opening and make use of the situation! Using the smallest bit of strength to gain the greatest results!

As to those fifty thousand fellow race members from earlier, in his eyes, they were merely cannon fodder!

If they die, they die; as long as there is a price and value in their death, then so what if another fifty thousand men die!

His great plans were so close to succeeding. But at the last minute, it was ruined by an ordinary member of the bear clan with a near Saint cultivation!

This wretched black bear, to use such an extreme method like self-denotation, successfully stopping my footsteps, ruining all of my perfect plans!

How could this high and mighty Supremacy Enduring Heavens accept this sort of outcome!

However, it was still alright. Looking from the current situation, it could be determined that there were not many high-levelled experts present in this battle even though they were strong! As long as he joined forces with all the other Supremacy Enduring Heavens and charged their way through, victory would still be theirs! They'd just have to use more energy, that's all!

This Supremacy Enduring Heavens instantly felt slightly better when thought of this. Even if that stupid bear figured out my plans, he can only stop my steps temporarily! A fool is still a fool!

Then, just when he made his decision and was about to fly back and join the rest of the Supremacy Enduring Heavens, there was a chilling gust of wind that came cutting through the air!

Instantly, he couldn't move his entire body!

This Supremacy Enduring Heavens was shocked!

"Life Spatial Lock!" He practically shouted these three words with a trembling voice! This was a type of Spatial Lock that could only be used by Saint Venerable experts! And it was also the most tyrannical and dangerous type!

One burnt their own life force for the most complete communication with Heaven and Earth to completely lock up a particular space!

This method was undoubtedly the most effective when used as a sneak attack!

If the other party was prepared, it would be completely pointless!

As an expert of the same level, no one would foolishly stand there for you to lock away!

But at this moment, his Supremacy Enduring Heavens was completely unguarded!

That Supremacy Enduring Heavens had already carefully observed the entire battlefield. There were obviously no Saint Venerables around! Why did one appear at this sort of crucial timing?

“Daochuan, how have you been?” An eerie, murderous voice suddenly rang out. A figure appeared before him, in his hand, a long, shiny sabre. It was Saint Venerable Lu!

As he spoke, he swung his blade down mercilessly! He did not give this Supremacy Enduring Heavens any time to react. There was only an ice-cold look in his eyes. “Daochuan, I wonder if your Holy Infant can escape from this Life Spatial Lock I’ve created?”

This Supremacy Enduring Heavens was called “Daochuan Can Ju”. In the previous War for Seizing the Heavens, Saint Venerable Lu had met him and that was how they knew each other.

“So it was you goddamned deer! Idiot! To go as far as to take advantage of someone’s difficulty, launching such a despicable sneak attack!” Daochuan Can Ju let out a shout of terror. He naturally recognized this old rival from five hundred years ago. But he didn’t have the time to be angry. He suddenly gritted his teeth and decisively yelled, “Enduring Heaven Body Destroying Cloning Method!”

Pop! Blood poured out from his mouth, then all his hair began to stand. His face also began to turn deathly pale. But his Qi and Xuan skills suddenly increased exponentially! It was as if he was about to break through this Life Spatial Lock that Saint Venerable Lu had set up anytime!

The Enduring Heaven Body Destroying Cloning Method was a skill that the strange races used when going all out. The moment it was activated, it allowed their strength to increase by three folds! Enough to kill the enemy! But after that, their internal organs would definitely be damaged, and even lose their ability to function! It’ll need a long period of nursing for possible recovery!

But Daochuan Can Ju was not trying to kill the enemy, but to break free of this Life Spatial Lock! Aside from this self-destructing method, he couldn’t think of any other second way to rip his way out of the Life Spatial Lock that was set by a similar leveled Saint Venerable!

He no longer had any other choice!

But Saint Venerable Lu's sabre still came down mercilessly! Daochuan Can Ju used all his might to turn his head. Whoosh. The huge blade went slicing right into Daochuan Can Ju's shoulder!

Slicing into both his bodies at the same time! However, because both the bodies had their backs facing each other, the knife had cut one on the left shoulder, and the other on the right shoulder!

Daochuan Can Ju used the secret technique of the strange races to boost his strength and was indeed a lot more stronger than Saint Venerable Lu! The toughness of his physical body had also increased three folds in the same instance!

The sabre that was originally enough to cut him into two ultimately failed to do so!

But it still managed to obtain an impressive outcome. From the shoulder, the wound went all the way down to the chest! Almost reaching the stomach!

The blade qi surged in violently, Daochuan Can Ju's organs were practically turned into a pile of mush!

There were two sets of five viscera and six bowels on Daochuan Can Ju's body, and they were all completely exposed, and steam was coming out from them! And there were also countless smashed organs and meat chunks that were falling down.

Both of Daochuan Can Ju's mouths let out a tragic scream; one in a male voice and one in a female voice! Letting out a sharp, tragic, inhuman shriek!

Then, it suddenly stopped, and large amounts of fresh blood suddenly spilled out!

"Idiot!" A murderous look flashed in all four Daochuan Can Ju's eyes. He was severely injured. Clearly, he had gone went into a completely state of insanity! As his blood poured out in large amounts, although his body had already sustained a fatal injury, his 'Enduring Heaven Body Destroying Cloning Method' still allowed his strength to continue increasing!

Pop! Lines of cracks suddenly appeared in the space that should be completely dead silent. As if some invisible thing had suddenly exploded in the air!

Saint Venerable Lu groaned, a mouthful of blood spurting out of his mouth. His face was completely pale!

It was obvious that the Life Spatial Lock that he had constructed using his life force was broken by the opponent's brute strength!

Chapter 1168: Life and Death, So Ordinary!

Facing such an immense impact, Saint Venerable Lu suffered significant injuries! But he did not falter; just at the last moment Daochuan Can Ju broke free of the shackles of the Spatial Lock, he brought his huge sabre up again, and this time, a dazzling, white blade Qi shrouded the blade!

This was the Xuan Qi Sabre Stars! This sort of power was only seen when the way of the blade had reached a certain level! And this power was enough to completely annihilate even a Holy Infant!

Similar to the Life Spatial Lock, this was also an attack that used one's life force!

Saint Venerable Lu had used all his might in this battle! Because he knew that as long as he had the slightest hesitation, this Supremacy Enduring Heavens might escape the next instant!

Although my unexpected attack managed to wound him successfully and had even managed to crushed all his five viscera and six bowels with my blade Qi, but to a Supremacy Enduring Heavens that has a double Saint Venerable cultivation, although this injury is severe, it is not fatal enough!

As long as he has a period of time to rest, he will be able to completely recover with not the slightest loss in his strength! The recovery abilities of a Saint Venerable are terrifyingly unimaginable. Even if their entire bottom half of their body is destroyed, as long as their head is still on their necks, they will still have the chance of recovering! This is the real terrifying might of a Saint Venerable expert, a body that is practically invincible!

So I absolutely must strike when the iron is hot!

Only by completely killing this scoundrel in one go can we can get this done once and for all! And I have the absolute initiative! This is the best opportunity to annihilate the enemy!

Daochuan Can Ju roared furiously, his organs all dangling out. All his four eyes were completely bloodshot!

He could tell that this Saint Venerable Lu clearly planned to perish along with him!

But because the opponent had succeeded in his sneak attack, successfully destroying his five viscera and six bowels in the first blow, even if he wished to use the stealth kill technique, it'd be too difficult. If I don't slay the enemy, I may really die here today!

Even though I am a double Saint Venerable, only death awaits if I continue being hounded by the opponent! Furthermore, I'm already suffering severe injuries; if I try to escape, I wouldn't be able to outrun the enemy and will definitely be unable to escape!

Daochuan Can Ju made up his mind! If I'm destined to die, then you shall join me on the journey!

With a sharp shriek, two blades went flying towards Saint Venerable Lu!

The sword was also shrouded with the same blinding, white Xuan Qi Sabre Stars!

Both of them had the same idea. If I'm going to kill you, I shall make sure I kill you thoroughly! I will show no mercy!

With the clash of the three Sabres, both of them turned more and more pale! They were both using up their life force, and no one relaxed!

Saint Venerable Lu let out a loud laugh. He suddenly dodged and appeared on the side of both of Daochuan Can Ju's body. Lifting up his sabre, he chopped down with no hesitation!

Daochuan Can Ju chuckled coldly internally, striking with both his blades! One was aimed towards Saint Venerable Lu's dantian, and the other at his heart! He was striking at the opponent's vitals!

As he had two conjoined bodies, the attack was even stronger than Saint Venerable Lu's attack as they were striking at the same time! Daochuan Can Ju predicted that Saint Venerable Lu would not give his all, because he was already wounded. Although Saint Venerable Lu had used the Life Spatial Lock and used up a significant amount of his life force, he was still in a better condition than Daochuan Can Ju. The gains did not make up for the losses for Saint Venerable Lu if he chose to perish with the enemy!

Although Saint Venerable Lu has the mind to perish with me, he will definitely not be willing to now! Because he already has the absolute advantage!

And in the contest between Saint Venerables, as long as one party retreats, it gives the other a huge opportunity! Even if the space was already locked by Saint Venerable Lu!

But he had miscalculated!

One wrong move and the entire game was over!

Not only did Saint Venerable Lu not dodge the double blades, he let out a long cry and sent his chest flying forward to meet it! The sabre in his hand had gained some strength as a result! Right now, Saint Venerable Lu had concentrated all of his cultivation on the sabre!

The Xuan Qi Sabre Stars on his blade was so dazzling that it was about to burn!

Daochuan Can Ju let out a cry in panic! The moment both his swords reached Saint Venerable Lu, he finally understood that his judgement was wrong! The opponent clearly intended to perish with him; his own plans to injure him and force him to retreat were completely pointless!

He could no longer bother with attacking the opponent: the only thing on his mind was to retreat backwards quickly!

Saint Venerable Lu continued to come striking down with no change!

The sharp blade in the hands of Daochuan Can Ju's female body stabbed mercilessly into Saint Venerable Lu's chest, accurately into his heart! Then, the other blade went stabbing into Saint Venerable Lu's dantan with utmost accuracy!

These two blades were stabbed in at practically the same time, with no smallest obstruction! It was as if it had cut into pork, skewering right through with a whoosh!

The Xuan Qi exploded in Saint Venerable Lu's body! Boom! A thin mist of blood oozed out of the pores on Saint Venerable Lu's body!

Saint Venerable Lu did not leave a single bit of strength to protect his own body. He had completely, with no reservations, channeled all his strength into his Sabre!

And at the same time Saint Venerable Lu's body went flying into Daochuan Can Ju, his sabre, shrouded in the dazzling, white Xuan Qi Sabre Stars, went hacking right down mercilessly at the part where the two bodies were joined!

Whoosh!

The conjoined bodies were separated into two!

Three bodies went spiraling down from the sky!

Perishing together!

In the midst of the spinning, both the bodies of Daochuan Can Ju finally got to look at each other, face to face. They both smiled bleakly. All that ruthlessness earlier had all disappeared without a trace.

"So looking at each other without being restrained feels this good." The female body of Daochuan Can Ju laughed. There was no hysteria in her eyes, only gentleness. A gentleness that belonged to females.

The male body of Daochuan Can Ju was also smiling gently; as they slowly fell from the air, his eyes were locked on the female body's face. His look was also full of tenderness. "If there is a next life, let's face each other and take care of each other, sharing our life together!"

The female's face flushed, a little embarrassed, but she gently reached out her small hands.

The male Daochuan Can Ju let out a loud laughter, reaching his big hands out to hold onto the hands of his other half tightly.

Both of them closed their eyes together, breathing their last! Under Saint Venerable Lu's Xuan Qi Sabre Stars, Daochuan Can Ju could not bear it anymore. His Holy Infant barely had the time to congregate when he completely vanished from the world!

Although at the last moment of their lives, they were hoping to look after each other in their next life, but they were clearly aware that their spirit was already completely destroyed by Saint Venerable Lu's Xuan Qi Sabre Stars!

They were destined not to have a next life!

But before dying, to be able to hold onto the other's hands with no restraints, they were already content! And had no other regrets!

This moment is already eternity. Whether if there is a next life, does it matter?

This conjoined strange races were both husband and wife, brother and sister. Under such an immoral relationship, both the male and female bodies of Daochuan Can Ju had such a thick bond!

Even till death, they did not look at Saint Venerable Lu a single bit!

Since they're already destined to die, and even their souls will turn into nothing shortly after. Then, whether he lives or dies, what does it have to do with me? As to what vengeance, ideals, hopes... all these, is it still important to someone who has no future, who has no hope?

It is really no longer important!

And at the moment Saint Venerable Lu verified that the opponent had been struck, he instantly used the Heaven Reversal Pill! He also did not bother to look at Daochuan Can Ju. He had already been struck with all his might, it'd really not make sense if he survived! Since the enemy was already done for, then what was the meaning of looking at a corpse? It was more important to hurry and slay more enemies!

Thus, the moment Saint Venerable Lu recovered, he instantly shot into the air and flew to where the rest of the Supremacy Enduring Heavens were. He did not even turn back to glance.

Only leaving with a sigh!

He had come here to stake his life! He had not even thought of returning back to Tian Fa alive! Then, what was life and death?

They didn't matter! They truly didn't matter anymore!

His only wish was to be able to pull a few more strange races along with him before he died! As to whether they were good or bad people, was this important?

So what if they're good? So what if they're bad?

This was war!

A war that determined two continents!

There had never been right or wrong in war. It was only what the soldiers wanted to protect!

What they viewed as their lives, or what the opponent wanted to destroy with all their might!

Everything that had sprouted from this basis ultimately ended with one party surviving. It was just that simple.

That was all!

In the other direction, seven Supremacy Enduring Heavens were also suddenly intercepted by the other seven Saint Venerables of Tian Fa!

Then, it was a huge battle!

Life and death was determined quickly in the battle between experts!

Three pairs had already finished their battles and a victor was already determined.

Two Saint Venerables from Tian Fa were injured, but they were still battling with their enemies after using the Heaven Reversal Pill!

And there was another Tian Fa Saint Venerable who ultimately did not have the opportunity to use the Heaven Reversal Pill before perishing with the enemy. The enemy had reacted in time, causing his sneak attack to fail. Turning the battle into a head on battle, and he had already fallen into a disadvantage. At a crucial time like this, the Tian Fa Saint Venerable had resolutely decided to sacrifice and self detonate!

Ultimately pulling this Supremacy Enduring Heavens from the strange races along with him to the Yellow Springs. Although he did not gain from making this choice, at the very least, he did not make a loss!

On the battlefield, sounds of violent explosions rang out ceaselessly.

Chapter 1169: Brothers, Wait For Me!

There were constantly some experts who, when they faced with an impossible situation, would choose to detonate their own life force to deal damage to their opponent!

And many of them were Tian Fa warriors, with a number of strange races experts as well.

This sight that could hardly be seen normally was extremely common right now!

It was as if the lives on both sides were no longer valuable, and everyone suddenly did not care about their lives as much as they thought they would...

In such an intense and merciless war, even the most cowardly soul here would turn into an indomitably courageous warrior!

And right now, the Tian Fa warriors had completely gone insane!

Most of the warriors from the Eagle and Bear army had already consumed their Heaven Reversal Pills!

Their violent nature as Xuan Beasts had already been thoroughly unleashed, and their bloody instincts were fully put to display in this war! There were constantly comrades falling before their eyes and brothers exploding into a rain of flesh and blood in the sky!

Such an intense battle caused everyone to lose their sense of reasoning!

Right now, there was only the enemy in their eyes! They only knew that they had to kill the enemies to take revenge for their fallen brothers!

At the back, the 100,000 strong strange races army had already surged up like a raging tide, riding their strangely shaped horses and barging into this meat grinder of a battlefield. With a force that numbered several tens to a hundred times that of their opponents, they completely drowned the Eagle and Bear army!

The fight with the Supremacy Enduring Heavens was still raging in the sky intensely! The five remaining Tian Fa Saint Venerables were unleashing a deadly battle with the five Supremacy Enduring Heavens.

The over 300 Frenzy Blade Enduring Earths had also plunged into the battlefield, shrieking and roaring fearsomely!

The addition of this group of Frenzy Blade Enduring Earths that was comparable to the Supremacy Enduring Heavens had dealt a huge blow to the Tian Fa army as well as huge amounts of pressure! The balance between the two sides had completely tilted!

Ever since this group of Frenzy Blade Enduring Earths entered the fight, the self detonation rate on the Tian Fa army's side began to soar higher and higher! Only less than half of the original 6,000 warriors were remaining now!

Yet another thunderous boom rang out in the sky, and the might of the shockwave surged out, causing even the erupting volcanoes to tremble for a moment!

A look of grief appeared on Saint Venerable Lu's face. Even without looking, just judging by the thunderous sound, he could tell that yet another old brother had left!

And perhaps today, or even the next moment, he would be following right after that old brother's steps, treading onto the final stretch of his life!

But he believed even more intensely! Whether it was himself, or those old brothers of his and even every warrior below, none of them would feel any regrets!

Because, this was the legacy of Tian Fa that had been for 10,000 years!

This was for Tian Fa!

Not the continent!

Though the body may perish, the spirit shall last forever; never regret!

The Eagle King swooped around the battlefield, his sword dancing madly around him! Although his sword had been made specifically for him by Jun Mo Xie with the Power of Gold, it'd still been grounded to dust long ago from his frenzied hacking. Right now, this sword in his hand was already the fourth weapon he'd exchanged, and he'd already forgotten from whose hands he'd snatched it from!

The Eagle King had also consumed the Heaven Reversal Pill a long time ago! Right now, his body was covered in tens of wounds, many reaching deep to show bone. However, he didn't seem to feel the pain as he rushed through the enemies madly like an insanely quick shooting star!

Only Big Bear was still swinging that 1,600 jin, ultra heavy long blade around! The only difference was that this blade was now being used as a large hammer! The edges of the blade were already filled with countless chips!

It was as if he didn't know the word fatigue. That large body of his was like a crane amidst a flock of chickens as he waded through the tide of enemies. The defensive abilities of the Bear Tribe were undoubtedly obvious!

The morale boosting effect of this Bear King was enormous for the Tian Fa army. Whenever a Tian Fa warrior felt exhausted from killing, they only needed to look forward, and they would be able to see the tall body of Big Bear still standing straight, roaring ferociously as if he didn't know how to be exhausted. Thereafter, everyone would feel an unknown strength rise up from the depths of their bodies!

And so, they would grip their swords and continue fighting, continued slaughtering the strange races!

This effect of the Bear King was something that the other Beast Kings could not imitate!

Because the Bear King was an existence that was born to battle!

That enormous body was as if he was a War God!

This time, none of the Hell Enduring Ghosts or Frenzy Blade Enduring Earths dared to use the Stealth Kills technique! This battle was no longer just a simple War for Seizing the Heavens with individual skirmishes. It was indeed true that the enemy could not see them when they turned invisible; however, their own comrades would similarly not be able to see them either!

On such a battlefield, both sides were already in a state of frenzy from killing, and everyone only had the thought that everyone else apart from themselves was an enemy! If they concealed themselves, they would definitely be unable to avoid the hail of swords, spears, blades, and sabers. That was simply taking their own lives as a joke.

And so, no matter how unwilling they were, they had to abandon the thought of any individual fighting and instead participate in a large scale chaotic battle!

In the air, Saint Venerable Lu dragged his crippled body and charged madly towards the enemy Supremacy Enduring Heavens in front of him. His right leg had already disappeared at an unknown time!

As for who it was that had chopped it off, that was no longer important to Saint Venerable Lu!

The enemy facing him also roared savagely as he pounced forward to meet him!

Thirteen of them had come out together this time to obtain the first major contribution to the war!

A force of 13 Supremacy Enduring Heavens, just what kind of power was this? But to think that they had actually been stopped here by an ambush from Tian Fa's Saint Venerables!

If it was an ambush by the three Holy Lands, they had complete confidence that they would definitely be able to overcome it. However, although these Tian Fa Saint Venerables were fighting in human form, they were truly a group of Xuan Beasts deep in their bones!

Even before reaching the Saint Venerable realm, a Beast King's defensive abilities and offensive strength were already much stronger than the humans of those three Holy Lands.

Through this battle, their side's 13 brothers were only left with two now!

And they were all heavily injured, with greatly diminished strength!

Although they were also only two remaining from the eight Saint Venerables, and they looked even more pathetic than them, these two Supremacy Enduring Heavens still felt like crying though they lacked tears!

Thirteen people against eight, and every single one of them had strength equivalent to two Saint Venerables. In essence, it was a force with three times the strength of their opponent. However, the final result actually turned out like this? Before they came out, none of them would have ever imagined that such a result would be possible!

Roaring madly, he lunged towards Saint Venerable Lu. Right now, this Supremacy Enduring Heavens could already see that this terrifying old deer was most likely the leader of this Tian Fa army! All these schemes and calculations should most likely be his doing as well!

And because of this hateful wild beast, eleven of his brothers had already been thoroughly destroyed in body and soul! They didn't even have the chance for a rebirth anymore!

Hate!

Even if he died, he must drag this detestable old deer down with him!

That lunge of his fell directly into Saint Venerable Lu's wishes!

Adding in this fellow before him, he'd already killed three Supremacy Enduring Heavens. That was a good enough profit!

Even if he died, he would be at ease!

The two drew closer to each other, both their eyes blazing with determination and madness!

The both of them no longer had any weapons right now. Even a more sturdy weapon would have been destroyed long ago in a clash between Saint Venerable level existences! The both of them were charging at each other with bare fists.

In the instant that the two's bodies collided, the two of them made the exact same choice—self detonation!

With a thunderous boom, the two's crashed into each other. Following that, a heaven rending tremor surged out!

The two Saint Venerable experts had chosen to ignite their remaining life force and spirit power! None of them had planned on returning alive. The only thing they were afraid of was that the other party didn't die. Not even leaving behind the slightest energy to leave a Holy Infant, the most dazzling explosion lit up the sky!

This was the entirety of the two's soul's strength, leaving the most glorious spark of brilliance on this world!

A powerful shockwave surged out and within a range of several hundred zhang, even the ground beneath them was swept clean! A full seven, eight thousand, nearly 10,000 people of both sides battling below, were sent flying away like rubber balls. Quite a number of unlucky bastards were directly turned into a lump of blood and flesh, being scattered far away...

"ELDEST BROTHER!!!" Saint Venerable Bear roared with grief, his mind suddenly turning blank!

For 2,000 years, these eight brothers had lived together, fought together, grown up together, ate the Thousand Evils and Ten Thousand Poisons Fruit together, fought in two War for Seizing the Heavens, fought against the Nine Nether Fourteenth Young Master, been sealed into the Nine Nethers Land for many years together...

The eight of them had traversed the mortal world together back when they were young; what manner of glorious affair had it been? And how loud was the fame of the Eight Great Saints of Tian Fa? Who in this world dared to look them in the eye?

If one of the brothers were bullied or suffered any wrongs, the others would surely back him up!

Right now, apart from himself, the other seven brothers had all perished in this war, dying without complete corpses!

From youth till old men, when had they parted? How could they part? They couldn't bear to part ah!

Even if there's only the Yellow Springs before my eyes, even if there's only darkness and emptiness before my eyes, I still want to accompany my brothers!

If anyone dares to bully them, I will still take action! I will use my life to defend them! No matter when, no matter if it's the physical body, or the soul!

Saint Venerable Bear turned his head and looked resolutely at the only remaining Supremacy Enduring Heavens!

Both his eyes were as red as blood, and his face was twitching insanely.

"Come on then!" Saint Venerable Bear said expressionlessly. "Hurry up! Don't delay the reunion time of us brothers!" When he mentioned the word brothers, his eyes turned even more fiery. The faces of his seven brothers appeared one after the other before Saint Venerable Bear's eyes, before dissipating into the distance.

Saint Venerable Bear seemed to be able to sense the departure of his brothers, and an intense pain surged through heart. With a hoarse voice that came from his lungs and throat, he screamed: "WAIT FOR ME!"

That roar was reminiscent of when his brothers pretended to have left him behind back when they were roaming the pugilistic world in the past, the same panic in his voice back then!

It was still the same as last time! Brothers, wait for me! Let's go together!

No matter what we're doing! No matter living... or dead! Together!

Chapter 1170: Mad Bear King!

That Supremacy Enduring Heavens before him smiled bitterly, his face filled with an understanding look. "Old Bear, can you... not separate us?" That strange and disorderly voice suddenly became clear!

The female body of that Supremacy Enduring Heavens did not say anything, but her eyes grew heated! Fervent, but gentle.

Saint Venerable Bear's eyes trembled for a moment, and he said lightly, "I won't separate you two! And I will also not separate from my brothers! My brothers are waiting for me now! I don't wish to keep them waiting for long."

"We feel the same way then. My brothers are also waiting for me!" This Supremacy Enduring Heavens laughed as he looked blankly at the mist of blood around him. "Did you think that only you have brothers?!"

"Old Bear, come on then. Let us go on our way together!" As he finished his words, that Supremacy Enduring Heavens charged forward madly!

"Tian Fa, last forever!" Saint Venerable Bear's powerful voice shook the entire heavens, and dragging his huge body that was covered in wounds, charged forward to meet him!

His footsteps were firm, and he didn't turn back at all. There weren't the slightest bit of attachment!

In his heart, he was roaring. Brothers! Wait for me! Whether it is a mountain of blades, or an ocean of fire, this old bear.... will traverse it with you!

Hong!

"AH~~~~" The Bear King Big Bear who was slaughtering madly on the ground, suddenly raised his head and roared. His face was filled with tears! Tears of blood!

In the instant that the unusually resplendent explosion burst out in the sky, the volcano in the farthest distance suddenly spewed out a pillar of fire into the sky! This exceedingly violent eruption caused the entire land to rumble heavily!

Everyone on the battlefield felt as if they were sitting on a small boat and facing a tsunami!

The crowd raised their heads and looked towards the North, only to see that a volcano was spewing out lava that reached far higher than any other volcanoes in history, the pillar of fire reaching several thousand zhang tall!

There was clearly several hundred li of distance between them, but everyone was still able to see the eruption with great clarity!

This was the moment when Jun Mo Xie and Gu Han pushed Zhan Lun Hui into the mouth of the volcano, and when Zhan Lun Hui had charged back out of it! Zhan Lun Hui falling into the volcano and dashing out of it had immediately ignited the most violent volcanic eruption in history!

“HOU!!!!!!” Big Bear raised his head and roared madly to the sky. The sacrifice of Saint Venerable Bear had caused this Bear King to lose the last shreds of his sanity!

“You bunch of motherf*cking freaks! Die for this daddy, hurry up and DIE!” Big Bear’s eyes were completely red, and the aura around his body turned exceedingly violent. With a heaven shaking roar, all his muscles bulged up even further, and the originally abnormally large bear swelled up and doubled his size!

Bear King seemed to be surrounded by a black mist, which seems to be extremely illusory, but clearly visible. The extreme opposite visual sense shocked everyone who looked at Bear King’s strange change at the moment.

A unique sound like a soul exploding suddenly rang out. This sound was seemingly not loud, and only sounded like a faint explosion in the deepest part of the soul. But in this bloody battlefield where screams and roars rang out all over the place, with loud booming sounds of volcanoes erupting in the distance, this faint sound was actually heard clearly by everyone!

This was the sound of the advancement of a lifeform!

Overcoming all the sound of the contemporary world!

A golden mist burst out from Big Bear's body, and before it could dissipate, his originally three zhang tall body which had just grown to nearly four zhang, once again began growing!

If he could be described only as a particularly tall beast just now, he was now a full giant!

The clothes on his body which had been stretched to the limits started to stretch and rip apart!

In that moment, every breath that the Bear King breathed out seemed to be a breath from the heavens!

Four zhang tall, he cast his gaze across the battlefield and roared at the sky!

The winds and clouds began to change!

Bear King Big Bear had in this moment of extreme grief and continuous rage and pain, internalized all the emotions into energy in his body. In this extremely crucial moment, at the heart of a raging battlefield, he'd crossed through the Fourth level Saint Emperor realm in one step, directly advancing into the First level Saint Venerable realm!

This was an amazing breakthrough!

But it was also an extremely inconvenient time to breakthrough!

No matter how one put it, this was an extremely inappropriate time to deal with the Heavenly Tribulation!

Around him, tens of strange races experts raised their blades and hacked wildly towards Big Bear's enormous body. This target was simply too obvious, to a point where it would be hard even if they didn't want to hit him! However, their blades had barely touched him when they were instantly reflected back, the back of the blades smacking ruthlessly back onto their owner's faces! In an instant, blood flew everywhere, and men and horses fell down!

The Bear King had broken through already, and the protective aura around him had also naturally advanced to the Saint Venerable realm. In addition, he had just broken through and couldn't control his energy properly yet. This was the time when his Xuan Qi was the wildest! To attack the Bear King at this time had conveniently given the wild Xuan Qi a place to vent! Naturally, the strange races ended up suffering.

The blood drenched and exhausted Eagle King looked helplessly at the newly advanced Bear King, lamenting endlessly in his heart!

My dear brother ah! Why did you choose this kind of timing to breakthrough? How could you breakthrough at this time?

No matter what time you choose, it would be much better than now, right?!

A breakthrough means the invitation of a lightning tribulation! Right now, at the most heated moment of the battle, how could you hope to survive the lightning tribulation? Even more terrifying is that the lightning tribulation does not care if the people around you are friend or foe. It simply counts everything by the number of people! With the scale of this battle, just how terrifying would this lightning tribulation grow to?

The Eagle King that had never known the word fear ever since he was a mere chick was now completely struck with fear!

In the sky, huge patches of black clouds began to gather over with rapid speed... A large circle began to form in the sky, the pressure emanating from it reaching an inconceivable level...

Big Bear did not take note of that pressure at all. Roaring madly, he raised up the enormous sword in his hand and charged forward!

What is a Heavenly Tribulation worth? Who cares what it is!

In this moment, Big Bear was not even thinking about the Heavenly Tribulation. He didn't even know that he'd broken through!

Right now, the Bear King was only filled with endless rage! To fight! To kill! To slaughter! To seek revenge!

Apart from that, there was nothing else in his heart!

The Bear King's blood red eyes were opened widely, filled with nothing but madness and savagery!

Nothing else mattered!

At this moment, Big Bear had already descended into a crazed state. Even if Eagle King was standing in front of him right now, he would probably not hesitate to swing his sword down at him!

Big Bear strode out with huge steps, charging into the area with the largest concentration of strange races soldiers. His charge was like a red hot knife, plunging into butter, sliding in with ease!

Right now, he was charging into the enemy with his cultivation of a Saint Venerable. There naturally wouldn't be anyone capable of stopping him! It was like a massive tank driving into a crowd of ordinary soldiers! The shocking restorative powers of a Saint Venerable also allowed Big Bear a nearly inexhaustible source of energy. Right now, all 21 Saint Venerable level experts that appeared at the start of the fight had already perished. And so, the newly advanced Big Bear became the only Saint Venerable level expert on the entire battlefield!

He was the most barbaric and the most unstoppable existence!

With a wide sweep of his blade, blood spurted in all directions!

This display of slaughtering was much more spectacular than before!

The Eagle King covered his eyes, unable to bear watching any longer!

As a good brother of several hundred years, how could he not be able to see it? His Fourth Brother Bear had already completely lost his mind! He wouldn't be able to recognize anyone in his current state,

whether it was him, or the warriors of the Bear Tribe. Even if Elder sister came personally, she might not necessarily be able to bring him back...

Big Bear whose strength had been greatly increased would naturally not be threatened by these normal soldiers of the strange races. But how would someone who'd lost his mind be able to overcome the incoming Heavenly Tribulation?

Tens of Frenzy Blade Enduring Earths saw how Big Bear was massacring their side and instantly charged over to stop him. Although the Bear King was already in the realm of Saint Venerable, and his strength far surpassed them as Frenzy Blade Enduring Earths, he had still only just broken through and his power was still unstable. If they combined their strengths, they still had the chance to kill this Bear King!

"KILL! KILL! KILL! AH AH AH AH AH..." Big Bear swung his broadsword like a machine, creating large patches of corpses with every swing!

More than 50 Frenzy Blade Enduring Earth rushed up, forming an encirclement around him! Everyone's eyes were filled with killing intent as they stared at Big Bear! Even if the other side was a Saint Venerable, with so many of them here, they could definitely still cut him down!

With a loud roar, nearly 100 blades chopped down towards Big Bear together!

Just at this time, the tribulation clouds in the sky had finally finished gathering. With a loud booming sound, a bolt of lightning as thick as a bowl shot down! The lightning tribulation had actually arrived at such a critical time!

The more serious thing was that the current Big Bear had completely lost his mind.

What Heavenly Tribulation? He hadn't even considered it at all! The Bear King didn't even know that his newfound strength had been gained from a breakthrough. He only knew that having more strength was good. With this additional power, he could kill every last one of these freaks! And take revenge for Saint Venerable Bear!

For the Eight Great Saint Venerable Seniors!

“HOUU....” With a ferocious roar, Big Bear dove forward like a hurricane, forsaking his defense and barging madly into the group of Frenzy Blade Enduring Earths! At the same time, the muscles on his arms bulged wildly, and the huge saw toothed broadsword seem to have morphed into a terrifying dragon!

The lightning above him fell quickly, but as Big Bear was moving too rapidly, and there were too many people around him, that lightning landed squarely onto the spine of a Frenzy Blade Enduring Earth with a crisp ‘Ka-cha’ sound!
