Chapter 571: The Suspicions Of Jun Mo Xie

From the hug, Mei Xue Yan could clearly feel the natural scent from Jun Moxie's body. Hearing his voice, Mei Xue Yan confirmed that Jun Mo Xie was definitely the guy in the black robe.

However, Mei Xue Yan decided not to expose him and let it be a secret between both of them. Besides, being able to enjoy Jun Mo Xie performance every day sounds like a good idea.

Whether or not Jun Mo Xie is actually the guy in the black robe, it doesn't matter anymore!

As long as he is safe, that's what matters the most!

Jun Mo Xie felt relieved, after seeing how Mei Xue Yan had finally calmed down. He then turned around and walked towards Guan Qing Han. Seeing Jun Mo Xie walking towards her, Guan Qing Han became bashful, as well as gratified, but the next moment, she became cold again. She slowly looked down and bit her lips without uttering a single word.

"Are you worried for me too?" from what Jun Mo Xie knew, Guan Qing Han was considered a tall girl, other than Mei Xue Yan, other girls such as Ling Meng, Du Gu Xiao Yi, Han Yan Meng, Sun Xiao Mei She Wang Qian Xun were all shorter than her by one or two centimetres. However, in front of Jun Mo Xie, she was shorter than him by more than half a head.

Guan Qing Han smiled forcefully. Just as she was about to lift her head, Jun Mo Xie pulled her into an embrace and gently speak into her ear: "Don't worry, your man will not die so easily. Cats have nine lives, but I have eighty-one, nine cat lives."

Guan Qing Han felt her body became weak as she felt the warmth and manly scent from Jun Mo Xie. Hearing how he referred to himself as her man, made her heart beat faster and she blushed unconditionally.

This time she did not struggle but silently laid in his arms. Guan Qing Han decided to not against her heart anymore. During the past few days, Mei Xue Yan seemed to be on the edge and Guan Qing Han was about to go crazy too. For now, being able to listen to his heartbeat by his chest is such a blessing. Suddenly, the grievance she felt disappeared. No matter what happened, it's all worth it...

These days, Young Master Jun had been flirting with both Mei Xue Yan and Guan Qing Han and both were slowly getting used to it, accepting the presence of one another.

Although, both Mei Xue Yan and Guan Qing Han would unavoidably get jealous of each other, they did understand Jun Mo Xie's intention. Furthermore, in this masculism generation, it was not a big deal for men to have three or four wives. In fact, it was very rare for men to only have one wife and even the most gentlemanlike Taoist student would not question the fact.

For Jun Mo Xie who was about to be eighteen years old, to not have any concubine was very rare. At least among the aristocrats in Tian Xiang city, it was very uncommon!

In fact, some men who were even two to three years younger than Jun Mo Xie already had a group of concubines...

As Jun Mo Xie and Guan Qing Han hugged for a while, they could both feel the affectionate warmth, making them feel blessed to be with each other.... After a long time, Guan Qing Han lifted her head up from his embrace. Her face was bright red, as she avoided Jun Mo Xie's gaze. Her cold facade from the past was long gone. At that moment, Guan Qing Han resembled a shy and timid young wife.

Mei Xue Yan was very anxious and worried for the past few days and Guan Qing Han clearly understood that it was all due to the disappearance of Jun Mo Xie. Although Guan Qing Han did not know what happened, from the reaction and behaviour of Mei Xue Yan, she knew that it was something serious.

Did Jun Mo Xie encounter something dangerous that is hard to get over? If not, why would Mei Xue Yan with such superb cultivation be so worried?...

Therefore, those few days, Guan Qing Han felt very heavy hearted too. Seeing how Mei Xue Yan got more depressed as the days past, Guan Qing Yan knew that something really serious had happened, slowly getting passed her....

Now, seeing how Jun Mo Xie is alive, Guan Qing Han felt relieved, as if she regained something back that she lost before. Hence, even if Guan Qing Han had a cold façade before, at this moment, she did not want to hide her feelings anymore. It was because happiness had torn down her cold mask that she was wearing all along. Of course, once reality hit her, she put on her cold façade once again and got out of Jun Mo Xie's embrace.

Jun Mo Xie looked at both of them and wondered what happened between them. Their behaviour and emotions flipped as quick as a book. Their heated passion towards him were all felt just before. Just as he was being elated about it, thinking how Cupid was finally on his side, they instantly went back to how they were before! Cold!

Oh My God! The ups and downs of life came too quickly! This is killing me!

Was it all a dream!?

Jun Mo Xie rubbed his face hard, only to be confirmed that he was indeed not dreaming. He sighed: Women, they are so hard to understand... at one moment, they are all sunny, and the next moment, thunderstorm. They look so innocent and helpless looking before, but the next moment, they turned cold and pretended as if nothing happened. This is really testing a guy's heart.

Being a human is hard, but being a man is even harder. Being a popular man is the hardest. Jun Mo Xie sighed, feeling a bit bitter.

"Hello, Xiao Qian Xun, come here, let me hug you. Please comfort my poor broken heart!" since Jun Mo Xie had no chance with the two beauty, he decided to flirt with another woman and hopefully succeed with her this time.

"Humph!" the King of Snake gave him a menacing stare and the atmosphere instantly became ominous. She had already hidden her little thoughts from him and was pretending to be fierce. "What are you trying to do? We are not familiar with each other!" she grumbled.

Jun Mo Xie laughed and brought his face closer to her. Qian Xun rudely flicked her wrist and two snakes slithered out.

Jun Mo Xie easily avoided the snakes as he pretended to be frenzied because of it. While shrieking, he jokingly said: "Oh God! Why are you so mean to me? Where did you get the snakes from? They are such wonderful goods! Do you still have them? Bring out a few more! I will be having a feast of snakes tonight! I appreciate your kindness..."

Qian Xun, Mei Xue Yan and Guan Qing Han rolled their eyes, turned around and returned into the house. Instantly, Young Master Jun was left alone outside, all by himself....

Jun Mo Xie rubbed his nose, blinked his eyes a few more times and shamelessly followed them into the house. Even though Jun Mo Xie was getting stronger, he was still far from being the top. However, in being shameless, he is at the very top...

"There's one thing that I really do not understand." Jun Mo Xie went back to being serious. He looked at Mei Xue Yan: "According to the lineup of the three holy cities, any of the three is already more capable in terms of abilities when compared to Tian Fa forest! In fact, just by looking at the lineup this time, any of the families when combine abilities could easily overpower Tian Fa forest; and other than you, such as King of Snake before advancement, can never win against the people from the three holy cities.

Jun Mo Xie paused for a while and said:" In fact, Tian Fa forest is not only inferior to them by a level. From what I know, only the Ten King of Beasts from Tian Fa forest when in human form has stronger abilities. The rest, including the nine mystical beasts, has only average capabilities... I thought it would be blessings after misfortune? What happened!? Just by looking at the rankings, it appears that you guys from Tian Fa are stronger, it is really hard to understand!"

Mei Xue Yan was solemn for a while before she said: " The analysis you did on the powerhouses are not wrong, but unfortunately you missed out a very important factor. Even if the people from the three holy cities are all deities, there are only a few of them. As compared to the mystical beasts from Tian Fa forest who have trillion ideas, it may not be pleasant to hear, but a spit from a beast is enough to drown the three holy cities. The combined abilities from Tian Fa's beasts cannot be compared with the three holy cities. ".

"It is not that I did not consider this point. But when the quantity is at its limit, no matter how strong the enemy is, it will be useless. This is probably the original intention of the three holy cities when going against Tian Fa. But I am still very curious, Tian Fa mystical beasts are naturally gifted, and has the advantage, but as compared to the three holy cities, how could their superior abilities differ so much?" Jun Mo Xie really could not understand this fact.

"Haiz, Tian Fa is known for being ominous and even has a higher rank than the three holy cities. How could their superior abilities be any less of them? The number of fights that Tian Fa mystical beasts had been through is also similar to the three holy cities...however in the recent years... there were a few changes."

Mei Xuan Yan seemed like she absolutely did not want to discuss this topic. She bit her lips and said: "To be honest, what should really appear in front of us today should not be the Ten King of Beasts but the Supreme King of Beasts. But... after an incident, the seniors retired, but since Tian Fa cannot leave the king's seat empty, the juniors must take over the front."

Mei Xue Yan obscured a lot of information when talking about it, and did not talk much about the details.

So that's how it is, a person from a different generation, no wonder it was so strange.

What actually happened to Tian Fa forest, to put them in such a situation?

But since Mei Xue Yan refused to talk about it, Jun Mo Xie did not push further. His attention is now shifted to another goal.

"Why do you look so pale? Are you injured?" Jun Mo Xie naturally would not say that he actually witnessed it, but seeing from the previous match, Mei Xue Yan should not be severely injured.

"It is just an old injury, nothing serious." Mei Xue Yan bluntly said.

"Oh, I see." Jun Mo Xie thought that it makes more sense; but he did not notice that Mei Xue Yan had told him the most obvious reason, which saves a lot of interrogation time.

"Why did you not look for me after injuring yourself? I am a skilled national champion doctor!" Jun Mo Xie laughed, "This kind of small injury, is easy to heal! With me around, I can cure any type of illness!"

Jun Mo Xie grabbed Mei Xue Yun hand and started using his heavenly power to scan through her hand...

All of a sudden --

Just as Jun Mo Xie's spiritual energy entered Mei Xue Yan's meridian system, she suddenly got startled and immediately withdraw her hand from Jun Mo Xie. She quickly stood up and inconceivably blurted out: "Supreme level of cultivation? How did it become like this? You... it's impossible?!"

Chapter 572: If you move, you are a beast!

Most people looked at Jun Mo Xie in shock and Mei Xue Yan did not know what to do.

No wonder when she saw him a while ago, she felt that something was amiss but as she was feeling too overwhelmed, she did not look carefully. Furthermore, for someone who was only Spirit Xuan two days ago to have become a Supreme in a few days, this was too legendary!

However, at that moment, Master Jun's entire body was filled with pure energy. Mei Xue Yan naturally realised that this guy had only gone missing for no more than three days and yet he had jumped from Spirit Xuan's second grade to the sixth grade! Once he reached fifth grade, he was already a Supreme, at sixth grade... he was already a second-level Supreme. This strength of power was at least superior of the Grassland Eagle God, Ying Bo Kong!

How long has it been since I first met Jun Mo Xie in the Tian Fa forest? When they first met, his abilities were relatively weak and he was a mere Jade Xuan; the second time they met, his progress was shocking as he was already a Sky Xuan! This progress was so unbelievable!

However, when they returned from Tiannan until several days ago, he had already reached Spirit Xuan; this was a horrifying miracle! That was not the end of a string of surprises. In the few days he was missing, he quietly rose to a Supreme. How should this be considered?

A miracle within a miracle?!

A spiritual miracle?!

“Erm... this is just a coincidence;”, Jun Mo Xie said with a rare humbleness, “Then again, the cultivation techniques I have been practicing are mostly not normal. Maybe it is different from what you guys practice.....”

Mei Xue Yan used all her energy to hide her shock and slowly sat down.

Coincidence?

This was probably not a lie but such great coincidence could be achieved only when present in great danger as how could he reap rewards without any sacrifice? Only in a crisis then an opportunity exists!

It seemed like he excessively used secret techniques which backfired. After he luckily overcame it then he was blessed by a misfortune.

After such a thought, Mei Xue Yan looked at Jun Mo Xie with a softer look and unusually held his hand gently. Feeling her internal injury, she felt a warm, soft airflow endlessly enter her body without any discomfort. All she felt was a sense of calmness and an urge to fall asleep...

Jun Mo Xie looked more and more serious. Mei Xue Yan's old injury seemed quite challenging for him... Actually, the injury was not a big problem. The biggest problem was that Mei Xue Yan's body had a chilling gas entrenched on her artery. It would be troublesome and challenging to remove it.

“Who is so cruel? Who does this chilling gas belong to?”, Jun Mo Xie asked angrily.

“Yu Yi Ban. Blood Shadow God!”, Mei Xue Yan sighed, “A few years back I was attacked by him. He left a handprint on my body. I managed to escape but with severe injury; After I returned then I realised that the handprint came with an extremely evil unorthodox skill. I was focused on escaping and did not bother about the injury. Until I really started treatment then I knew that it was too late to be expelled. All these years, I have tried various methods but none of them worked. So far, I can use my abilities to suppress it but in the future, I can only leave it to fate..... ”

“So it was this bastard. Back then, I should not have let him die so easily!”, Jun Mo Xie said with hatred, “If I knew, I would have kept him barely alive and slowly torture him, let him heal then torture him again and again for a few years then skin him alive...”

Mei Xue Yan forced a smile.

“I can’t do this here; let’s go to your room”, Jun Mo Xie stood up seriously and made arrangements, “Qian Xun, stand guard outside and let no one in, no one is an exception! Including yourself. This is a crucial moment for your big sister, it is very important, remember!”

Qian Xun, the King of Snake, quickly agreed!

The two of them entered Mei Xue Yan’s room. Jun Mo Xie looked extremely worried and said, “This treatment process can be explained simply. It is to use pure spiritual energy to expel the poisonous gas from your artery and leave through the three yang meridians in your arm. It will feel unpleasant, very itchy and pain; but within this short amount of time, you must not move at all, not a single bit! However, once the poison has been expelled, go to sleep and once you wake up, all will be fine. In fact, after this ordeal, you will have greater room for improvement.”

Mei Yan Xue gently agreed.

“Ok, then let’s get ready. Take off your clothes”, Jun Mo Xie said seriously, “When your body emits the poisonous gas, especially starting from the artery, the gas is extremely stubborn. If it is hampered by clothing, it may endanger your body. By then, it will too late”, said Master Jun as he could not help but reveal a sly perveted look in his eyes.

“What? I need to take off my clothes?”, Mei Xue Yan’s eye widened and blushed.

“Of course you have to!”, Jun Mo Xie said with as a matter of fact seriously, “You are a martial arts practitioner too. Don’t you understand this logic? This is a necessary condition! We can’t compromise on this! Now I am the physician. Who will you listen to if you don’t listen to me?”

Mei Xue Yan considered for a while and finally decided, and said, “I’ll listen to you but you... don’t move! If you move, you... you are a beast!”

Once he heard that, Jun Mo Xie almost raised his head and howled like a fox but he held it in and said seriously, "Mei Yan Xue, don't worry! I am not such a person. I am definitely a gentleman. In his heart, he added one more line: Rather than being worse than a beast, I would rather be a beast...

Mei Yan Xue acknowledged but thought: Anyways she had already decided that he was her lifelong enemy and it is destined to not change; She was still worried about him a few days ago, regretting that she did not understand her feelings...furthermore, him treating her injury. What he said made sense. She was the patient and he was the physician. She should listen to him.....

In that instant, Mei Xue Yan found countless reasons for herself and finally convinced herself.

Her fingers were trembling as they gently grazed past her waist, ready to remove her clothes but suddenly, she raised her head and said angrily, "You... you turn around!"

Jun Mo Xie obligingly turned around while feeling secretly happy as although he did not get to see her at that point in time, he could later on... Furthermore, he could look at her all he wanted. If he did not see and look as he wished, he would be worse than a beast...

The ruffling sound behind him continued for a while and Jun Mo Xie even heard Mei Xue Yan's breathing speed up and it seemed as though her body started to shiver... After a while, a soft voice asked, "How about... my underwear?"

"Yes!", Jun Mo Xie said with determination, "This is the most crucial one! Any bit of deviation will bring great trouble. Even a tiny bit is crucial. Nothing can be left on!"

Mei Yan Xue immediately grew suspicious. As Master Jun said, she was a martial arts practitioner and have seen the world; she naturally knew that some poisonous injuries required clothes to be removed during treatment to prevent any obstruction of airflow as the poison would return to the body; perhaps the strong poison from the Blood Shadow God needed it too. However, Mei Yan Xue knew that regardless of whatever poisonous injury, it was impossible that treatment required her to be totally naked!

If the upper body was injured, it was sufficient to just remove the top; it simply required some looseness and not necessarily removing all the clothes. Jun Mo Xie explained previously that it would only move

through the arm's three yang meridians so why did she have to totally remove her top?! Hence, at this crucial moment, Mei Yan Xue intentionally asked a question.

However, Jun Mo Xie's mind was already flooded with perverted thoughts and forgot everything. A slip of mouth and he did it with lots of desire! Extremely eager!

Horrible guy! He really is worse than a beast!

Mei Yan Xue immediately got angry and fumed; she immediately put on her clothes and reached out to twist Jun Mo Xie's ears as she coldly said, "Jun Mo Xie, you are really scheming! I belittled you too much when I said you were a beast. You are worse than a beast!"

Once she thought about how Jun Mo Xie lied to make her remove her clothes... Mei Xue Yan's face flushed in embarrassment and anger. She pinched his ears strongly with her right hand and twisted it more than 90 degrees, moving towards 180 degrees.

Jun Mo Xie yelled like a slaughtered pig. Everything was proceeding smoothly and he did not think that he had let out any hints to be exposed. To him, she was pretty dumb but who knew, she became crafty and caught him on the spot. He was in trouble...

Jun Mo Xie quickly begged for forgiveness and yet, after a long while, Mei Xue Yan was still not appeased and had no intention of forgiving him...

"Say, is there any method that doesn't need me to remove my clothes? Hurry"

"Erm... hmm... I suddenly remember that there probably is one, just that the effects...", Jun Mo Xie quickly changed his statement as he could not bear the pain.

"Hmph! Not one right? All the methods do not require me to remove my clothes right? Will the effects really be not as good?", Mei Xue Yan tightened her grip again.

"Erm... Hmm.... Hmmmmm...", Jun Mo Xie was helpless...

...

After a long while, the poison was successfully expelled. Mei Yan Xue's meridians had recovered back to normal under Jun Mo Xie's treatment. Mei Yan Xue felt extremely sleepy and unknowingly fell asleep...

Jun Mo Xie looked at the deep asleep Mei Xue Yan who was as pretty as a painting but yet, he could not forget his ear... which hurt really badly.

Even if he had the intention, he did not have the guts! That day he had been labelled as worse than a beast so he decided to not be one anymore!

He was holding a jade bottle filled with black evilness; that was the evil matter he forced out of Mei Xue Yan's body. Jun Mo Xie turned and disappeared but actually, he used the Yin Yang Escape to go down into the ground and carefully buried the jade bottle deep underground then used the Yin Yang Escape to come back up, wiping his cold sweat.

Chapter 573: Growing stronger together!

Mei Xue Yan's old injury inflicted by the Blood Shadow God was really extremely poisonous. If it applied slightly on a normal person's skin, it would be enough to cause him or her to rot to death; it was not surprising that even with Mei Xue Yan's superb abilities, she could not deal with it. Also, luckily Mei Xue Yan's abilities were superb such that it could suppress it. If she was any weaker, she would have long died.

Young Master Jun sighed and walked out; for other miracle physicians, they could get all that they wanted and people rushed to offer them benefits yet even though he kindly offered treatment, he was beat up, although it was because his intentions were not pure...

Everyone is really different.

In the next few days, Jun Mo Xie gathered people around him for a special training!

This special training involved a limited number of people and even Jun Zhan Tian and Jun Wu Yi participated; Ying Bo Kong and Feng Juan Yun eagerly joined in; Jun Mo Xie even managed to assemble Hai Chen Feng and Song Shang; The Aristocrats Hall was left in the hands of a fatty.

The present Aristocrats Hall was definitely the top auction hall in the capital and perhaps even the top in the mainland, the type that no one dared to mess with; even if the guards fell asleep, no one would dare to create a ruckus there...

Even Baili Luo Yun and Evil Soul Eater's members came together to participate in the special training.

Jun Mo Xie's goal was very simple: strength! Everyone to become stronger! Or to gain battle experience!

In the previous confrontation with the three holy cities, although they did not lose too badly, it was exposed that the Jun family lacked superior combat strength. Even though the Jun family's current abilities and worldview were already topnotch, it was still insufficient.

Then again, the leaders of the Jun family had consumed the three top pills, including the Tongyuan one and thus, have improved a lot quicker. However, the fact that their experience could not catch up is a big problem so they need to adjust!

Jun Mo Xie first used the Tianyuan pills to pull up Hai Chen Feng and Song Shang's abilities then gave them a Tongyuan pill and a Juyuan pill each; he instructed the both of them to help each other and improved quickly.

For Baili Luo Yun, Jun Mo Xie's request was very simple: Definitely! Must! Breakthrough to the Sky Xuan level within 10 days! He took out some miracle drugs for his growth.

Only when they reach Sky Xuan then they will barely be able to consume the Sky Xuan pills! Only when they breakthrough Sky Xuan to reach Spirit Xuan then they could consume the Tongyuan and Juyuan pills! This was an obstacle but with Jun Mo Xie, once you joined him, you would improve rapidly; but if you cannot join him, you would only be able to admire the gains as it was not for everyone!

It was the same for the Evil Soul Eater members. As they had a weak foundation, Jun Mo Xie's orders seemed a little too cruel: I don't care how you do it, even if you are exhausted or dead, you must meet my orders. I don't want rubbish!

Those who were Gold Xuan had to reach Earth Xuan by the time I return from the Dong Fang family; those who were Jade Xuan have to reach Sky Xuan! There was more than enough Xuanyang and Jushen pills. So long you can level up, you can eat as many as you want!

However, you must meet my targets!

Feng Juan Yun came forward during this critical time and chose to endure through difficulties with the Jun family. There was no doubt that Jun Mo Xie's impression of him was very good; naturally, he would not be stingy with his own people.

After eating the pills, Feng Juan Yun finally understood why Ying Bo Kong improved so quickly and was elated. At the same time, he decided: From now on I will stay with the Jun family and not let this Old Ying ride on my head!

On the other side, Jun Zhan Tian, Jun Wu Yi and the rest were with Hai Chen Feng, Song Shang, and Baili Luo Yun. They practiced in pairs; experiencing to their hearts' content, they understood their current speed and strength; It was natural that the Baili Luo Yun was weaker amongst them but this talent from the Baili family had a unique understanding of the techniques which surprised Hai Chen Feng and the rest!

Baili Luo Yun's advancement was the fastest and his improvement was also the greatest!

Ying Bo Kong, Feng Juan Yun, Mei Xue Yan, King of Snakes Qian Xun and Jun Mo Xie were on another side and also focused on learning from one another. Young Master Jun's abilities improved shockingly fast but there were still things he was unsure about how they happened which was the exact opposite of other people. Mei Xue Yan, the martial arts expert, gave a suggestion — learning from one another, lots of exchanging, an exchange between experts of Supreme level and higher.....

On the first day, after everyone was allocated and started practicing, Feng Juan Yun and Ying Bo Kong looked at Jun Mo Xie in curiosity. Feng Juan Yun was exceptionally curious and asked, "This is where all those of Supreme level or higher practice. What are you doing here?"

Looking at this young lad, he seemed to be slightly condescending.

Ying Bo Kong involved himself and said, "Old Feng, this is Old Jun's house. Why don't you test him and give him some advice as a senior."

Feng Juan Yun grudgingly walked out; as he was the weakest out of everyone there... this chores naturally had to be done by him.

Just as they started to exchange moves, he was shocked!

Jun Mo Xie's attack was unique, swift and majestic. Furthermore, what made Feng Juan Yun most shocked was: this lad was no weaker than him and even seemed better than him!

How was this possible!

Supreme Feng pulled out his sword in a moment of anger but was defeated by Jun Mo Xie. Ying Bo Kong was bewildered. Although he knew that Jun Mo Xie was good, he did not think he was this strong as he witnessed. While he was impressed, he naturally wanted to challenge him and thus, Young Master Jun and he exchanged 500 moves with no determination of the winner!

The King of Snakes, Qian Xun, also had a battle with Young Master Jun and it ended with a draw as well.

Finally, Mei Yan Xue personally acted and under the situation that Jun Mo Xie did not use the Yin Yang Escape, she finally defeated him and kicked him a few more times while giving him some comments: This young lad don't need any more challenges. I don't know where you got your battle experience which seems more than a several hundred years old expert! Could you be a born genius?!

After her old injury cleared up, Mei Yan Xue's abilities advanced further and seemed to have taken a step higher. She had to exhaust her strength when dealing with Young Master Jun, much less the rest and so, based on her judgement, Jun Mo Xie's current abilities were definitely superior of Shi Chang Xiao's and no weaker than the Ultimate Supreme, Li Jue Tian.

The five of them was as though they were taking turns to fight in an arena and the host was Miss Mei Xue Yan. When she felt enthusiastic, she would take on the four of them such that they had a contented battle.

In this time, Jun Mo Xie was figuring out something then even used spiritual energy to see inside Ying Bo Kong and Feng Juan Yun's diaphragm. He also looked into Mei Xue Yan's and finally sort of understood.

Where is the basic difference between Supreme and Spirit Xuan experts; or the difference between the advancement of Xuan energy in this world and the immortal level in Jun Mo Xie's mind!

In Jun Mo Xie's diaphragm was just a small infant. Using immortality, it should be called the nascent soul period; in martial arts, there was such a saying; in the process of practicing martial arts, some people did not know about immortality but still reached this level; it was called "forming an infant out of the world" and this was said to be the highest achievement in traditional martial arts learning!

The only difference was that when traditional martial arts reached this step, the nascent soul needed to emerge out of its own Heavenly Spirit shell, leaving its physical body and become an untraceable spirit.

However, immortal cultivation was the nascent soul using the diaphragm to provide it warmth to grow. It was very rare that anyone would let it go as that was the cultivator's second life...

However, in this world, Ying Bo Kong and the rest were different! As they did not practice the internal energy, especially not the Dharmic formula. Yet when they reach Ying Bo Kong's level, a matter similar to a gold pill will appear in his diaphragm. It is filled with extremely powerful energy. Such a realm should be the prelude to forming a nascent soul when the cultivator reaches the phase for the gold pill's breakthrough.

As to Feng Juan Yun's diaphragm, it was half solid, half mist because his present cultivation was slightly weaker than Ying Bo Kong's. This world's pills were different as described by the historical records in the Hongyi tower. It was not gold and shiny but instead, was a depressingly greyish-black matter...

Analysing from this point, although the Xuan energy could not be said to be better than the internal energy of the previous world, they were about the same...

As compared to human, Mei Yan Xue's diaphragm had a snow white Xuan pill. The King of Snakes, Qian Xun, too but her Xuan pill was green colour instead.

Regarding this, Jun Mo Xie was not too sure that even if Qian Xun was in the gold pill phase, was Mei Yan Xue also in it? It was impossible! It was a pity that the King of Bears and the King of Tigers had left. If they were still around, he would have two more references.

Mei Yan Xue's reply answered his questions: once mystical beasts reached above the fifth level, a Xuan pill will be formed in its body and usually, half solid; once it reached the ninth level, the Xuan pill will completely solidify and officially become a pill; any higher, the pill will become rounder and smoother but its original shape would not change.

Up till now, in Mei Yan Xue's memory, the Xuan pill left behind by the past generations of the kings of various beasts and sage kings in the Tian Fa forest were all smooth and round, just like an extremely rare luminous pearl!

Amongst them, the biggest was like a Xuan jade, crystal clear and could be seen through, luminous at night and consisted of unbelievably strong energy!

However, even Mei Xue Yan was unsure what would happen when they reached the ultimate level.

Jun Mo Xie analysed it for a while but still was unsure and gave up looking; he did regret slightly as looking at all those people of Supreme level or higher and yet he did not investigate deeper... it was such a waste...

Not mentioning this issue, Jun Mo Xie put all his focus back on to improving everyone's abilities!

This special training lasted a total of ten days!

After ten days, Jun Mo Xie wanted to officially set off for the Dongfang family to visit his mother; Dongfang Wen Qing has sent a message: Old Madam Dongfang wished for Jun Mo Xie to visit the Dongfang family as soon as possible!

Chapter 574 Who's Hunting Who?

Jun Mo Xie was curious. This woman was able to put on the mantle of a general; she was a woman who held onto her deep feelings without uttering any complaints. After her husband died, she had shut herself shut herself out from the world for ten years!

What kind of devotion and hopelessness does she possess to behave like that?

Dongfang Wen Xin, Jun Mo Xie's mother!

My mother!

Jun Mo Xie contemplated deeply in his heart.

Actually, he had anticipated this day. In his two lives, he had never experienced a mother's love... Jun Mo Xie deeply desired a mother's love. When he occasionally thought about this, he would feel a pang of pain in his heart.

During the training, those two handicapped kids also joined the training. Jun Mo Xie handed every member in the Heavenly Destroyer and Soul Devourers Teams a quenching pill. Naturally, he did not forget about the two of them. Moreover, he even imparted some abdominal language. Over the few days, they had made some improvements. Although they still weren't able to speak, they could utter some unclear sounds... The sounds sounded like the mumbling of a drunk person...

It could be imagined that once they master the skills and go out to the society, it would definitely cause a great sensation to the whole world! Two mutes were able to utter words without using their mouths! That would be spectacular. As he thought about this, Jun Mo Xie started to smile from ear to ear.

But in the process, Jun Mo Xie also encountered something unexpected —

Ye Gu Han rejected Jun Mo Xie's pills!

During this period of time, Ye Gu Han had also been putting in the effort to train the two handicapped children in the sword. Whenever they had a question, he would do his best to explain which led the two children to improve swiftly. In fact, the two kids improved so quickly that Jun Mo Xie was given a huge shock. Thus, he decided to help Ye Gu Han with his recovery, which was a deed in exchange.

One must know Ye Gu Han was crippled and his dantian was damaged. Although Jun Mo Xie had tried his best to save him on that day, that treatment was limited. Up till now, Ye Gu Han only managed to recover thirty percent of his power.

But now, Jun Mo Xie's tremendous improvement in his power could help Ye Gu Han recover completely. However, Ye Gu Han actually rejected him...

When he rejected, he was calm and made a request: If one day he was able to create a single-armed sword style, he hoped that Jun Mo Xie would help the two children to master it so that his legacy would continue to pass on. He did not need any need any formal master-disciple relationship...

Jun Mo Xie thought about it sincerely and agreed.

When Jun Mo Xie was about to leave, Ye Gu Han uttered some solemn words, "Young Master Jun, regardless of the hatred of the older generation, I hope that you would take care of Ling Meng. She is an innocent and kind girl...."

From those words, Jun Mo Xie understood why Ye Gu Han did not want to accept his help to heal him.

The enmity between the Jun and the Royal Family was common knowledge. In particular, the unreasonable deaths of a generation of brilliant heroes had shaken the world!

From the looks of it, Ye Gu Han had also known about the truth of this matter. After all, his own family would not disappear for no reason! He even deduced that Jun Mo Xie would eventually deal with the Tianxiang Emperor. But if that happens, where could Murong Xiu Xiu go to?

Now, Ye Gu Han was only hoping that he could pave a path for the people he cared for. One such person would be Princess Ling Meng, who had he seen grow up... If he were to accept more favours from Jun

Mo Xie, then it would be harder for him to ask a favour in the future. And if this favour was incredibly significant, then he might not even be able to open his mouth!

Hence, Ye Gu Han was willing to live the rest of his life handicapped and useless. This was all so that he could open his mouth to speak those words for the people he cared for...

Although this seemed like an exchange of favours, Ye Gu Han did not have anything that Jun Mo Xie required a favour for! Also... although this might not even be considered a favour, Ye Gu Han hoped that if Xiu Xiu and Ling Meng ever needed someone to depend upon, he could open his mouth to ask Jun Mo Xie for help. This was even if the chances were slim...

Jun Mo Xie understood his intentions but he did not make any promises. He could only leave silently....

Ten days later, Jun Mo Xie had prepared and was all ready to go!

This time, he only allowed one person to follow him: Mei Xue Yan.

Jun Mo Xie had packed and dressed lightly as he wanted to travel at full speed.

Snake King Qian Xun had to stay in the Jun Mansion. On one hand, he had to ensure the safety of the Jun Family. At the same time, he was there in case Tian Fa came to deliver any pills.

Solitary Falcon and Feng Juan Yun also stayed at the Jun Mansion to cultivate. During this time, Song Shang and Hai Chen Feng made huge improvements and their powers had reached the Spirit Xuan level. Naturally, they were excited to add to their improvements but they still fulfilled their promise.

On the other hand, with the help of spiritual pills and the pressure of exchanging blows with Spirit Xuan and Supreme experts, Baili Luo Yun finally broke through the Earth Xuan bottleneck and entered the Sky Xuan Stage!

Jun Mo Xie naturally kept his promises. He provided him with Heavenly Vitality Pills, and he even gave him a Vitality Linkage Pill and a Vitality Congregation Pill for him to use after he entered the Spirit Xuan

Stage. On the day that Jun Mo Xie left, Baili Luo Yun also left discreetly to temper himself in the Jianghu. Together with him, were the two kids!

Jun Mo Xie allows Baili Luo Yun to pick and nurture some assassins. However, after contemplating for half a day, he couldn't find anyone. Just as he was about to give up, his eyes landed on those two fellas. He immediately decided that he was going to choose them!

Thus, Jun Mo Xie cracked his brains and came up with two heroic names for the kids: Tian Can and Di Que! [1]

Obviously, Jun Mo Xie was playing around with the names. He would never have imagined that many years in the future, the names Tian Can and Di Que would resonate throughout the entire continent...

Many years later, these names would become the names of taboo in the entire assassin world!

...

Somewhere in Tianxiang City.

The Three Holy Cities had been gathered for more than half a month. Zi Jing Hong and co. felt their asses turning numb from all the sitting... They all felt dispirited!

This was because this set of news came seven days ago: On a certain day of a certain month, Fantasy Blood Sea's three Supreme experts encountered the Tiger King and Bear King at Wufu County. The two sides engaged in battle. The three Supreme experts fell in battle while the Bear King and Tiger King walked away without any losses. According to their trajectory, they should have already arrived at Tian Fa Forest!

When he heard this news, Zi Jing Hong fiercely slammed the table in front of him into dust! He and his men had been waiting here for nothing. Those fellas had escaped from right under his eyelids... Moreover, he even lost three Supreme experts!

All this time, they were discussing their course of action...

What a joke...

The Three Holy Cities had thoroughly lost their reputation!

A few days passed before another set of news arrived: Jun Mo Xie and Mei Xue Yan had packed lightly and were heading towards the Dongfang Family...

Zi Jing Hong was instantly enlivened. He hollered loudly, "Everyone, head out! This is our rare chance to get rid of Supreme Mei!"

....

As the Three Holy Cities were rallying their troops, Jun Mo Xie and Mei Xue Yan had already left Tianxiang City. Everyone could rest assured with their departure. After all, the two of them were high-levelled experts. Moreover, their escape techniques were peak-grade!

Before Jun Mo Xie came back, Mei Xue Yan's speed was undoubtedly the number one in the world! But after Jun Mo Xie returned, the two of them were roughly on par. Of course, this was if Jun Mo Xie didn't use the hack-like Yin Yang Escape.

Thus, if there was someone that was too strong for them to defeat, they would still be able to escape!

The two of them chose to pack lightly. However, they didn't do this so that they could escape.

Instead, it was for them to counterattack. They would counterattack with their sharpest and most incisive attack!

The Three Holy Cities would definitely have to pay for what they have done!

Otherwise, the two of them would never be able to swallow it down!

On this road, who was hunting who?

At this point, no one really knows.

The time the two left was just as the sun had risen. This caused Mei Xue Yan to be slightly confused.

“Mo Xie, if we left at night, it would definitely be more advantageous for the two of us. Why did we embark in the day?” When there was no one else around them, Mei Xue Yan finally let down her reservations and called Jun Mo Xie by his name. Every time she said this name, her heart would flutter slightly...

“Oh you... Why are you so naive. Those fellas from the Three Holy Cities aren’t fools. If we are too near to Tianxiang City, they definitely wouldn’t act against us. This is because the killing intent and the ripples from the attack would attract the attention of my master. This is what they are afraid of...” As Jun Mo Xie said this, Mei Xue Yan’s mouth twitched slightly. However, Jun Mo Xie didn’t notice it.

“Thus, within the first 300 miles, they definitely wouldn’t make a move. If they were more conservative, they would wait till we are 500 miles out!” Jun Mo Xie said confidently. “The journey of 500 miles would require 1 and a half days. Moreover, to deal with you, they would need to pick a terrain that they were extremely confident of! Thus, I predict that the first wave of attacks would come tomorrow night!”

Mei Xue Yan scolded herself. She had truly forgotten about Jun Mo Xie’s master. She could roughly guess that there wasn’t such a person, but the Three Holy Cities did not know that. Moreover, Jun Mo Xie’s master was someone that they had to be careful of.

“That’s true.” Mei Xue Yan nodded her head. “This time, what should we do this time?”

“That would depend on how they come at us.” Jun Mo Xie harrumphed, “Don’t look at how brotherly the Three Holy Cities seem. In actual fact, they would rather let the others attack and send themselves to their deaths first while they come second and have an easier time. They would probably come separately. If they were to come together, they would definitely have a conflict. Haha, Xue Yan, that Xuan Pill in your belly is very valuable... Everyone wants it...” Jun Mo Xie grinned and glanced at Mei Xue Yan’s belly, a stream of saliva flowed out the corner of his mouth...

[1] Tian Can and Di Que mean Incomplete Heaven and Lacking Earth respectively.

Chapter 575: Assigning duties

Mei Yan Xue did not know to laugh or cry and said, "Greed is a sin and human's greed is unlimited! Just like how in Tian Fa forest, there are hundreds of Xuan Cores left behind by our ancestors, but yet, for tens of thousands of years, not a single mystical beast has thought of stealing them... we must know that we were of the same origins, but you, humans, have much fewer restrictions when it comes to absorbing Xuan Cores... Sigh, why are humans so greedy and always want to reap the rewards without working for them? Mystical beasts' entire lives' essence are all in a Xuan Core but no matter how much you, humans, try to absorb it, at most half or even less will be absorbed. Why treat this as a shortcut to become an immortal?"

Jun Mo Xie said seriously, "What you said is right but also wrong; as you said, humans are greedy and so even if they can only absorb one-half, one-tenth or even one-hundredth of the energy, there will still be people who do it. In fact, even if they cannot absorb a single bit of that energy, they would sell it for money... So you should stop your wrong ideas or you will put Tian Fa in trouble!

Mei Yan Xue stayed silent but a bolt of hatred flashed through her eyes.

Jun Mo Xie laughed and changed the topic, "Just now I calculated the possibility of an attack from the Three Holy Lands. I think for now we only need to consider which family will be the primary attacker tomorrow night."

"I think it will be Elusive Land of Immortals!" Mei Yan Xue said confidently, "Zi Jing Hong and Xiao Wei Cheng are meticulous, they definitely will not be willing to take the risk first. However, they will definitely hide nearby, ready to take advantage of the situation."

Jun Mo Xie snickered and said cynically, "After we cross the mountain entrance in front, there will be a lot of mountainous roads; Up till now, the next few days of heavy snow will make it difficult to travel on them; Within these mountainous roads, there definitely will be some action! It will pay off to move faster so the Three Holy Lands' people awaiting death will not have to wait too long."

Mei Xue Yan could not help but laughed and agreed. The two of them snickered, sat on their horses and hissed at the horse then they galloped away, leaving behind only dusty snow...

Behind them on Tianxing City's city gate, Zi Jing Hong's gaze turned hazy as he watched the two horses sprint away and slowly revealed her desire to kill.

"The action location must not be too close to Tianxiang City in case it lures out that old monster again which will make us awkward. The journey was not in Tianxiang City and did not have any Jun family members around so he may not set a trap. Brother Zi, where do you think we should take action at?" Xiao Wei Cheng said as he stepped on the thick coat of snow on the ground but yet did not make any sound as he floated to Zi Jing Hong. Following behind him was Ning Wu Qing, the last minute leader of Elusive Land of Immortals's people.

"200 miles in this direction from Tianxiang city will lead us to the mountainous roads! Furthermore, it is half a month-worth of mountainous roads! In such strong snow, they won't be moving fast so we don't need to rush!", Zi Jing Hong said evilly, "However, Venerable Mei is known for her speed being the top in the world. It will be easy for her to escape so we need to choose a good geographic location!"

"Yes, we need to consider this carefully but if the geographic location is unfavourable to Venerable Mei, then it will also be unfavourable to us!", Ning Wu Qing said seriously, "One-on-one, none of us here have a chance against Venerable Mei; so we need to carefully think through our soldier arrangement."

"If we could injure her from just the first move then just based on our huge number of people, we can use speed to tire her out!" Zi Jing Hong said stroking his long beard then said, "But how easy it is to injure Venerable Mei? It would be impossible without sacrificing a few lives! The current Venerable Mei is no longer the old childish her. I'm afraid that to be able to touch her, it is going to be as extremely dangerous!"

Speaking of this problem, all three of them quietened.

None of them was willing to be the first as it was sure that they would be defeated.

"Let's pick lots then and leave it to fate. Our three groups can act separately!", Zi Jing Hong said, "The first group will choose the geographic location to launch the attack; regardless of success or failure, the second group nearby will prepare to surprise them and kill! The third group will stake out at a road they

have to pass by and prepare for the second surprise attack! By rotating; even if we cannot succeed by the time they reach the third group, within that time the first group must do their best to reach the next attack point! That is for the third surprise attack... We will keep doing this until we kill Venerable Mei!

“Great plan!”, Ning Wu Qing and Xiao Wei Cheng simultaneously praised and clapped.

The three of them no longer had other opinions and settled on this.

In front of the two of them, Zi Jing Hong wrote on three slips of paper and crushed them into three small balls in his palm. Looking at the two of them, he sternly said, “Although picking lots may seem childish, this issue is no joking matter! The first one picked will be in greater danger so all three of us have to be prepared and stay united. For fairness, since I wrote on the papers, someone else shall give it out.”

The two of them were satisfied with how Zi Jing Hong handled this. This way, there was no way cheating could happen and they could only rely on their individual luck. Even if they become the first group, there would be no objections.

Ning Wu Qing smiled, “Well said, Brother Zi. Let’s lay everything out first so we’ll stay united. Since Brother Zi wrote, then I shall distribute them. Brother Xiao please choose one first, Brother Zi picks one and I will have the last one!”

The three of them looked at each other and suddenly laughed and said, “This is indeed the fairest method. Let’s see who has the best luck and be the first one to lead us to success.”

After they spoke, Ning Wu Qing reached for the small paper balls from Zi Jing Hong’s hands and messed them up then placed them on the table. The three of them reached out in order to take a paper ball each.

When Xiao Wei Cheng picked his paper, he looked at Zi Jing Hong’s expression as after all, only he had not come in contact with the small paper balls but he saw Zi Jing Hong smiled; Xiao Wei Cheng immediately felt relieved as he recalled what the other two said a while ago and could not help but look at Ning Wu Qing sympathetically as he held his smile in and opened his paper ball.

However, once he opened it and took a look, Xiao Wei Cheng started choking and his entire face turned flush as though he ate a burning piece of charcoal.

Ning Wu Qing and Zi Jing Hong opened their respective paper balls, took a look and smiled at each other. Ning Wu Qing said, "I am the second group"; Zi Jing Hong smiled widely and relaxingly said, "I think I will not have the chance to contribute this time as I'm third. I am sure that before they reach me, the two of you will already achieve success and secure the credit."

The two of them cupped fists and said heavy heartedly, "Brother Xiao, we shall leave the extremely challenging task of the first attack to your Great Golden City! We hope that you will succeed on your first attempt and eradicate this scourge. We are already so envious just by thinking how you will be able to possess Venerable Mei's top-notch Xuan Core."

Xiao Wei Cheng was feeling bitter and could not bring himself to say anything.

The slip of paper in his hands clearly wrote — first group!

Xiao Wei Cheng slowly lifted his head and stared hard at Zi Jing Hong while smiling coldly and said sarcastically, "Brother Zi, what a great move!"

Xiao Wei Cheng was extremely upset; he and Zi Jing Hong were just discussing how to make Elusive Land of Immortals be the first group such that he and Illusory Ocean of Blood could stand aside and reap the benefits... who knew that in a blink of an eye, he would be forced to be on the frontline! No further explanation was needed to explain the situation. Zi Jing Hong definitely sold him out!

There was no way that anyone could convince Xiao Wei Cheng that there was no cheating involved in this lot picking!

"Don't say that, Brother Zi; all of us are doing this for the Holy Lands and for the greater good of the world! With greater responsibilities, we will be able to go further by helping one another...", Zi Jing Hong said seriously and with conviction.

He was actually secretly happy: I can finally relax! He even wanted to sabotage Elusive Land of Immortals; Ning Wu Qing is so scheming but now, he is so suspicious of us. The past few days when we

spoke, Ning Wu Qing already grew suspicious; if he picked the lot, he may get angry on the spot so for him to give it out was the best way...

Furthermore, the Elusive Land of Immortals had already lost top expert, Yu Yi Ban, who died; us, Illusory Ocean of Blood, also lost Huang Tai Yang; only Great Golden City's top fighters are all intact... yet you still want to retain all of them? Dream on!

Ning Wu Qing laughed and said, "Based on the current situation, Great Golden City is the strongest. I believe they will be able to take down Venerable Mei within the first attack. This won't be surprising. This way, Brother Xiao will definitely make a name for himself! Such great credit and that top-notch Xuan Core are making me jealous."

Xiao Wei Cheng snickered and said, "Brother Ning, are you really so jealous? Shall we swop?"

"No, no, for such an important task, one will need a good opportunity and more importantly, exceptional abilities. Elusive Land of Immortals is too weak now and is without a leader. If we go, it will be sending us to death. It is still the most appropriate for Brother Xiao's soldiers to go and complete the task in just one battle", Ning Wu Qing was shocked and quickly declined.

"Brother Xiao, we agreed upon laying everything out first just now. The lot picking was fair and square. Under everyone's eyes, even if I cheated, Brother Ning allocated it and you were the first to pick. What are you trying to do by speaking so sarcastically?"

Zi Jing Hong said as a matter of fact, "If I, Zi Jing Hong, chose the lot for the first group, I will bravely take on the task; regardless, I won't be so resentful! As Great Golden City's leader, Brother Xiao, it is surprising that you are so fearful. If you think it wasn't fair, shall we pick lots again?"

"Not necessary! I, Xiao Wei Cheng, although is not some prominent figure, at least I know how to honour my words!", said Xiao Wei Cheng emotionlessly, "Great Golden City will do our best in the first wave of attack; Brother Zi, you don't need to worry. Let's stick to our responsibilities. May we meet again."

Finishing what he said, Xiao Wei Cheng turned around and left.

Zi Jing Hong watched him leave seriously then turned to Ning Wu Qing and the two of their eyes met and smiled.

...

In the glistening white snow; by then, it was already the evening of the second day!

In this cluster of mountains, two shadows rapidly flew past!

It was Jun Mo Xie and Mei Xue Yan.

Chapter 576: Bobsled and Tender Sentiments

Once they entered the forest, both of them felt as if they had returned home. They clearly felt more relaxed and comfortable.

Mei Xue Yan was originally a mystical beast, so being in a natural environment she felt more at ease and familiar with it. Moreover, she herself enjoyed the cold winter. Being in the forest, she was more than happy.

But what surprised her, was that Jun Mo Xie looked very satisfied and at ease as well. He was familiar with the various things in the forest, not losing out to her in terms of knowledge. For a young master that was brought up in an aristocratic family, it was astonishing...

Jun Mo Xie looked at a tree nearby and suddenly stopped walking. Seeing how Mei Xue Yan followed and stopped, Jun Mo Xie laughed, "If we continue at this speed for the whole journey, for a short while, it would still be fine. But if we continue forcing our self to go at this speed, it would be a huge burden to our body. Even if we can actually handle it, it will not be pretty; come, let me teach you an easier way."

Jun Mo Xie withdrew his sword and slashed the trunk of the tree. From it, he further split it into four sharp-headed planks. The front of the plank was slightly sticking upwards. The size of it was similar to

the size of their feet. He then peeled off the tree bark and used it as a rope, made two holes at both sides, insert the rope and tied the planks on both his feet.

Mei Xue Yan looked at him curiously, but couldn't understand what he was doing.

Don't tell me that by putting the planks on, it will restore our energy?

Jun Mo Xie chopped off another two branches that were slightly longer and gently moved his legs. With a push, he skied through the snow. Mei Xue Yan gasped, eyes wide opened as she could not believe what she was seeing.

With a branch in each hand, he pushed himself left and right and skillfully glided through the snow. It looked so effortless. Even when passing through areas that were covered with trees, he could nimbly ski through. He was so good at it that even when he was passing through those thick layers of snow, he could easily pass through it without stopping. Like fishes in the water, Jun Mo Xie was able to move around freely.

In an instance, Jun Mo Xie ended his performance and stopped in front of Mei Xue Yan. He waved the branches in his hands and grinned, "Did you see? With the action of gliding and inertia force, we will not waste too much spiritual energy or even physical strength. By mastering and getting the hang of it, we will be able to glide through this snow ground easily!"

Mei Xue Yan recovered from her shock and excitedly said, " Quickly teach me this useful trick! " She eagerly followed Jun Mo Xie, tied the planks to her legs and got two long branches.

Mei Xue Yan put on her gears and stood up. But just as she was about to ski, she slipped and was about to fall. In a hurry, she used the branches in her hands to support herself. But she still could not find her balance. Startled, she immediately used her spiritual energy to support herself, but she could not find her centre of gravity, hence she was still unbalanced. She had no choice but to lift herself up from the ground to find her balance. She then landed back down straight into the deep snow. Even though she did not fall, but as a person with supreme abilities and status, it was a huge embarrassment...

"Hahahaha...." Jun Mo Xie who was standing at the side clutched his tummy and laughed...

“How did you do it? Tell me!” Mei Xue Yan was flustered. She stared fiercely at Jun Mo Xie, feeling humiliated. She saw how he skied so easily but yet when she tried it on, it was so hard to manipulate the planks. What frustrated her, even more, was that instead of helping her, Jun Mo Xie stood by her side and laughed at her misfortune...

Jun Mo Xie controlled his laughter with great difficulty and demonstrated to her, “Sister, how can you try to run when you can’t even walk? Whatever skill you learn there’s a knowledge behind it. This little thing is called a bobsled...for a person like you with supreme abilities, you just need to understand the essence behind it and it will be very easy for you to master it. You need to find your centre of gravity.... Correct, don’t use too much of your energy or your strength...yes. Go along with inertia force... the branches are in your hands! You are not using it as a decoration, use it to support yourself...you stupid girl!...”

Jun Mo Xie was making a big fuss. Mei Xue Yan felt enrage and just as she lost her concentration, she lost her balance, slipped and fell hard on her butt... She slammed her hands onto the ground out of frustration and the snow splattered everywhere...

Jun Mo Xie skied to her immediately and helped her up while dusting the snow off her. He asked her with concern, “ Why are you so careless? Does it hurt? Did you injure yourself?!”

Mei Xue Yan felt bashful. As an expert with tiptop skills, she actually lost to a little bobsled. Luckily there wasn’t anyone nearby, if not she would be embarrassed to death. But hearing Jun Mo Xie’s concern voice, she actually felt happy about it. Mei Xue Yan rolled her eyes and furrowed her brows.

With a worried face, Jun Mo Xie said “Do not fall till you injure yourself...” while speaking, his hands secretly went up to her butt and he gently rubbed it. While feeling balmy, he asked with concern, “Does it hurt here? Why don’t you take your clothes off, I will help you rub it... ouch...oh my god... it hurts... you’re killing..killing your husband!”

Just as he was making use of his concern to take advantage of her, Mei Xue Yan detected his immoral behaviour and fling him off harshly. Jun Mo Xie who was enjoying himself at the moment let down his defence and fell into the ground brutally. Luckily, the ground was covered with snow, if not he would be severely injured.

Mei Xue Yan blushed and glared at him, “ You lecher! If you want to die, tell me!”

Jun Mo Xie yelled feeling wronged, "How am I a lecher? I'm just showing concern for you. Why can't you recognise my good intention? If there's a bruise... It wouldn't be pretty anymore. I'm not sure if your butt is bruised, but mine definitely is now. Why don't you help me take a look at it..."

"Whether it's pretty or not, it's none of your concern!" Mei Xue Yan blurted out angrily. Only after saying it, that she realised that it did not even matter if her butt was pretty or not. Besides, nobody would be looking at it.

That fellow just have bad intentions, how can I casually let him see my butt?

Thinking about it, angered her even more, "Heaven and Earth..."

Jun Mo Xie was taken aback. He immediately jumped up like a cannon-shot, hugged her and covered her mouth with a kiss. By doing so, he stopped her from saying 'prison cage'...

Mei Xue Yan suffered a surprise attack and got mad. She wanted to excoriate him but her lips were fully covered by Jun Mo Xie and she could not muster enough strength to push him away. She panicked and slipped, falling onto the ground, only to feel another body crushing her. She was baffled and angry at the same time. Just as she was about to speak, his tongue sneakily entered her mouth. In a split second, she became lost and her body went soft, her soul fluttered away in the wind. ...

Jun Mo Xie did not expect his sneak attack to be a huge success and was overjoyed. He could not be bothered by the cold snow under him and his hands wandered around her body.

Mei Xue Yan struggled for a while, but finally gave up with a sigh, bastard! She silently closed her eyes and let him do whatever he wanted to... Even though they were both separated by clothes, she could still feel the warmth from his hands and it tickled her heart.

After a long time, Jun Mo Xie finally decided to lift his head and silently looked at the beauty in front of him. Mei Xue Yan's chest was rapidly moving up and down as she gasped for air. Her eyes seemed intoxicated, her face flushed as she panted delicately. Her entire body portrayed an indolent beauty. Even though she had supreme cultivation, but facing his fiery passion, it seems that all her spiritual abilities became useless.

At that moment, Jun Mo Xie felt his heart soften, he gently lowered his head and pressed his lips against her forehead, and slowly moved down towards her eyes, pointy nose, cheeks...corner of her lips and finally her red lips.

The world's greatest temptation, even Buddha could not resist, how could Master Jun who was not even a gentleman resist!

Feeling the delicate kiss, Mei Xue Yan shivered, closed her eyes tightly and freeze. Only to feel passionate currents flowing through her body. Her body suddenly got hotter and she held out her hand to embrace Jun Mo Xie's neck, a sweet approach.

Without knowing how much time had past... an ear-piercing cry suddenly sounded which startled both of them. They stared at each other, noticing the tender sentiments in the eyes. They then suddenly realised that the sky had already turned dark...

Jun Mo Xue smiled gently as he helped Mei Xue Yan up. Mei Xue Yan shyly cuddled in his arms, feeling weak ... deep in her heart, she felt a sense of belonging and was contented with the happiness that she was feeling. All of a sudden, she felt that the dark skies, the snowy ground, the birds that were flying in the sky and the surrounding trees were all particularly pleasing to the eyes.

At this moment, Mei Xue Yan was no longer the powerful honoured supreme that roamed the country but a little woman that's lying in the embrace of her beloved, enjoying the sweet love given to her... a normal woman!

Just this simple!

Both of them did not utter a single word, there was no need to speak further. With just a simple glance, they could understand each other. Jun Mo Xie kept a gentle smile on his face the whole time he was teaching her. He slowly and understandingly coached her to ski, passing down all his knowledge to her. On the other hand, Mei Xue Yan kept on an intoxicated smile while she joyfully learnt from him...

Chapter 577: Tricks don't work? Use force then!

While one of them tried his best to teach, the other did her best to learn. Within just a short period of time, Mei Xue Yan's improvement was extremely huge. As a top expert, her extreme comprehensive skills were very useful now. She only needed to practice any movements once and she'll master their essence.

Furthermore, sledding was easy to pick up, especially for experts like Mei Xue Yan whose body was way more flexible than normal people, light and have the assistance of their ability to take flight. In a few days, it would not be surprising if she surpassed Jun Mo Xie...

However, even when Mei Xue Yan have learnt the movements, she pretended to have not and flightily request for Jun Mo Xie to teach her once more, just like a young lady flirting with her lover. Jun Mo Xie did not expose her and so the two of them happily stayed engrossed in the process...

In the wild, suddenly felt like it was springtime...

Even the piercing cold winter winds seemed to have become friendlier...

Their shadows intertwined in the woods back and forth until night fell and two shooting stars skid across the night sky, leaving delicate trails behind them, shuttling between the mountains and woods.

Mei Xue Yan finally mastered all the techniques of skiing. Like a child with a new toy, she tirelessly wanted Jun Mo Xie to practice with her cheerfully...

Night had fallen and Jun Mo Xie chose a slightly risky canyon, with a height of around four to five hundred feet tall, which was piled with snow and looked like a flat plain; once normal people fell into it, it was likely they would die but to Jun Mo Xie and Mei Xue Yan, it was not threatening at all. Instead, they excitedly jumped in...

Within the layers of snow, Jun Mo Xie used his spiritual abilities. Using his palm to quietly press against the surrounding snow, he compressed the snow which hardened, gradually making a secluded space which was the size of two rooms; although it was extremely cold outside, it was surprisingly warm in this room, made from snow walls, which was several tens of feet from the top of the canyon. It was a self-made room which appeared from nothing.

The two of their Xuan abilities were strong and supposedly need not worry about breathing problems but Jun Mo Xie still picked some long bamboo from the woods, connected them together, used his spiritual energy to open up the joints then pierced one end through the snow to get fresh air in the snow. Although it was still a bit stuffy, it was much better than before.

Mei Xue Yan was surprised to see Jun Mo Xie's masterpiece and could not help but praised him, "After so many years, I have not thought that I could do this when it is snowing... just using your two hands, you made such a house, what a great way to save energy and it is so interesting; Nothing in this world is impossible, it's just whether you can think of it!"

As she spoke, she looked at Jun Mo Xie with her bright big eyes and said slightly demanding, "But... Young Master Jun, are you letting me sleep on this snow pile?"

"No way! Even if you don't mind, my heart will ache!", Jun Mo Xie said confidently with a serious expression.

"Then... what should we do?", Mei Yan Xue looked at the both of them. She brought a small bag out but Jun Mo Xie left empty-handed without even bringing his sword... much less a blanket...

"Cavemen have their ways!", Jun Mo Xie said secretly then smiled proudly, stretched his hands out and acted weirdly before raising his voice, "Appear!"

Immediately, two huge white bear coats appeared in his hands. Jun Mo Xie proudly lifted his eyebrows, "How's this?"

"Isn't this the bear skin coats that idiot, Xiong Kai Shan, bought? How did they end up with you?", Mei Yan Xue could not help but got angry yet laughed at the mention of Xiong Kai Shan buying the bear skin coats; who knew what he was thinking that day, as the King of Bears, he actually bought bear skin coats... about this, Jun Mo Xie really admired the sales tactic used by the shop...

A sales genius! A top salesman perfect for expanding the target market...

“This is thanks to you as after that old bear was scolded by you, he did not dare to take them with him so it benefited me. Look at this quality, definitely top-grade...”, Jun Mo Xie laughed happily as he took advantage of the situation and benefitted himself.

Mei Xue Yan was displeased and sarcastically said, “What a minute. I don’t understand, that splurging old bear spent the money you gave him! You seem as though you gained a lot, what kind of logic is that.”

Jun Mo Xie confidently replied, “It is your logic that has a problem. You see, it is just like I often take snake stew from Qian Xun that little girl. In this world, who can eat snake stew bestowed by the Snake King? Who can wear bear skin coats personally bought by the Bear King? Just based on this, I’m the only one! I’m proud of it!”

Mei Xue Yan broke out in laughter. It cannot be denied that this was a joke. Other than Xiong Kai Shan, this idiot whose brain was wrongly wired, the kings of other animals really would not do such things. Although Jun Mo Xie also got snakes from Qian Xun, they were the traps used by Qian Xun to kill him. The two situations were very different...

Indeed, it could be historical!

He easily laid the coats on the solid snow, one for the ground, one as a blanket, perfect. Jun Mo Xie courteously signalled, “Wifey, it is getting late, please go to bed, you will definitely sleep well.”

“Oh? Only these two piece? How about you?”, Mei Xue Yan widened her eyes.

“I’m alright, I can fight the cold, just let me freeze; for you, I am willing to endure the cold! It is on me for not preparing sufficiently and only brought two coats... for your reputation, I... am just fine!”, Jun Mo Xie’s eyeballs fluttered as though he was repenting. It would be great if Mei Yan Xue would say ‘How about... let’s squeeze a bit?’, he would gladly oblige but act as though he was not willing and say, “Hmm... let’s squeeze then.”

Mei Xue Yan’s hesitated for a while and regretfully said, “Since you are so magnanimous and thoughtful, you can freeze outside then.” How could Mei Xue Yan not realise Jun Mo Xie’s intentions? There was no way she would let him have his way!

“What...”

Beauty Mei’s words shocked Jun Mo Xie who stared in surprise as his jaw dropped.

Mei Yan Xue was not bothered and decided to remove her outer coat, revealing her curvy body shape underneath before quickly snuggling in between the two coats, enjoying the soft fur quality and warmth. She could not help but let out a sigh and said, “It’s so warm...”

Jun Mo Xie was upset, how could it not be warm?

After a while, Jun Mo Xie hugged his arms and started shivering and his teeth started chattering, making a sound; he stole a glance at Mei Xue Yan who had her eyes closed, probably asleep...

Young Master Jun took a deep breath and decided. He suddenly started jogging around, stamping his foot on the ground while saying, “It’s so cold, I’m freezing... urgh... oh my god, my hand are frozen, my legs too... even my little brother is too, someone save me, give me some warmth and I will thank you for the rest of my life...”

Mei Xue Yan turned a deaf ear to him and continue to produce snoring sounds...

“Why are you so heartless!”, Young Master Jun complaint, “Not mentioning others, when a man acts this way, the woman should shyly lift the blanket and ask: shall we squeeze? Why is it that it doesn’t happen for me? Seems like that line in the movies is made up. No, it’s a joke!”

However, Young Master Jun neglected that he should have thought, based on his current abilities, not just in a warm environment in the snow, he would be fine even if he was thrown into the Xuan iceberg for a month; if Mei Xue Yan could not tell that he was playing tricks, she would be too naive...

In the snowy space, as time passed, a concentrated scent started to diffuse around. In the almost sealed space, Mei Xue Yan’s womanly body scent seemed extra refreshing...

Jun Mo Xie took several deep breaths of it as his diaphragm was becoming more and more heated. He could not take advantage of her and yet, made still himself even more flushed. The space was not cold and was in fact, quite heated...

Finally, Young Master Jun was determined and took off his outer coat. Disregarding all else, he slipped in between the bear skin coats. However, when he just lifted the covers, Mei Xue Yan suddenly opened her eyes and sternly asked, "What are you doing?"

Jun Mo Xie stared dumbfoundedly as the hand holding the covers froze. He had been caught in the act...

"Xue Yan... you see, I am so cold, please take pity on me. It is not easy to survive in the wild...", Jun Mo Xie pleaded.

Mei Xue Yan snickered, not knowing to get angry or laugh: I can take pity on you but that way, my chastity is stake... how dare you even ask. She firmly said, "Why do you not seem cold to me, so no! Go stay in a corner!"

Before the night to consummate our marriage, I will not allow you to bypass my bottom line!

Jun Mo Xie laughed and suddenly exerted some strength and bent his back, forcing his way into the covers. Mei Xue Yan ragingly sat up and said, "You are really shameless. When your tricks don't work, you start using force? Do you believe that I can prison you in the Heaven and Earth Prison for a night?"

Jun Mo Xie shamelessly laughed, "Since you also know that my tricks don't work then what should I do other than using force? If you can bear to lay your hands on me then go ahead! I don't mind!", he said as he subconsciously stretched his legs and satisfyingly said, "How nice."

Mei Xue Yan was speechless at this person's shamelessness and rogue behaviour so she stood up and said, "Alright, then you can sleep alone."

Jun Mo Xie started to panic and hugged her waist, and smilingly said, "Actually this bear coat is quite big, worthy of the King of Bear. It will not be squeezey for the two of us at all. Since we are outside and with no other choice, just make do with it for tonight."

Mei Xue Yan was still considering but Jun Mo Xie suddenly turned and attacked her suddenly!

Mei Xue Yan struggled but her mouth was blocked... after a long while, Jun Mo Xie proudly lifted his head and spoke condescendingly, "Are you going to let me sleep?"

Mei Xue Yan blushed. Although she was slightly confused, she firmly shook her head;

"I don't believe I can't defeat you!" Jun Mo Xie leaned in further... and asked again, "Yes or no?"

"... N... no..."

"Once more..."

After a pause..."Yes or no?"

"..."

"I'll take your silence as consent, anyways that's what I have decided!", Young Master Jun smiled proudly.

"No! No means no!", Mei Xue Yan was determined to not give in to his threats. She pouted in determination.

"Hmph... I shall see how long you can persevere for. It seems like if I don't try something tougher, you will not give in...", Jun Mo Xie evilly laughed then suddenly blocked her lips again and sucked with all his might. This time, his two hands were put to use as they wandered about her body, passing through every curve, touching and rubbing, trying all means...

Chapter 578: Your thoughts are too dirty.....

Mei Xue Yan felt her heart thumped and could no longer control herself as she let out a moan as this guy's hands suddenly went separate ways, one slipped under her clothing and grabbed her breast with nothing separating his hand from her skin, and the other hand slid down to firmly grab on to her perky buttocks...

This felt much stronger than just now when he touched her through her clothes. Mei Xue Yan's entire body weakened and started shivering under his touch. She wanted to use her core energy to counter-attack but for unknown reasons, not a single bit of her usually undefeatable core energy could be brought out. All she could feel was this guy's hands exploring her body and her breathing quickened. She wanted to beg him to let her off but her mouth was blocked by his. She wanted to push him away but she realised that her arms had unconsciously wrapped themselves around his neck...

His two large hands roaming around her delicate body made it burning hot. Although she was doing her best to resist, she still could not help but let out a shy moan. As Mei Xue Yan was still a virgin, this was her first time experiencing the most tempting thing on earth. How could she not lose her senses...

Jun Mo Xie's eyes were burning in sexual desire. He lifted his head and temporarily stopped invading her mouth while his two hands continued to rub Mei Xue Yan's breasts, and asked, "Can... I...?"

Mei Xue Yan's eyes were unfocused and her mouth slightly open as she breathed heavily, unable to say anything and only shyly nodded... She stared at him intensely but under such romantic circumstances, it seemed as though she was gently flirting with him...

Jun Mo Xie was elated and took his two hands out, ready to remove his clothes and see her naked; however, Mei Xue Yan escaped his embrace. Although she was still pressed beneath him, she strongly overcame her urges and gently said, "Not... now. The Three Holy Lands are still coming after us... if... it will affect our strength and form..."

These words were like a bucket of cold water splashed at Jun Mo Xie, putting out his burning sexual desires.

Yes, it was a critical time as their lives remained threatened. If Mei Xue Yan lost her virginity at this critical juncture, she would definitely be severely affected and may even get injured or ... Jun Mo Xie was unwilling to see any of these.

He let out a deep sigh and Jun Mo Xie's eyes suddenly brightened. He took a few deep breaths, grabbed some snow from the ground, and rubbed them on his face. He felt refreshed from the coolness and shivered a bit. Finally, he was awake.

Jun Mo Xie was relieved inside and smile as he teased her, "Hey, your thoughts are not pure... I was only referring to sleeping, not doing anything else... what were you thinking of, wow, why do you think of such things? I am so surprised..."

Mei Xue Yan was fuming and pointed at Jun Mo Xie so angrily she could not say anything but, "You! What a lecher, you... how... you...", she almost vomited blood as it was you who forced yourself on to me and now you say my thoughts are dirty... Thinking about this, Mei Xue Yan was embarrassed yet angry, wanting to fall out with him on the spot...

Young Master Jun was frightened. Knowing he carried his joke too far, he quickly yet carefully said a bunch of good things but Mei Xue Yan continued to ignore him coldly. Young Master Jun wanted to try some gangster tactics but was heartlessly chased away. It seemed like if he used any more sneaky means, Beauty Mei will treat him to a holiday in the Heaven and Earth Prison...

After a while more, he heard Mei Xue Yan coldly said, "Didn't you want to ambush the Three Holy Lands' people? Now that we are hiding here, how can we ambush them?"

Jun Mo Xie was relieved: Seems like this girl is not really angry. He pulled himself together and said, "At this time, they must still be looking for a suitable ambush location; based on what I know, it is not far from us. There is a path along a valley with two tall mountains at its two sides, a calabash-shaped valley. The entry points are narrow with a wide space in the middle. If there are people guarding the entry points and are determined to annihilate the ambushed ones, no matter how powerful the ambushed ones are, it would be very difficult to escape unscathed. Especially since quite a big amount of snow have collected in the valley, movements were hampered and the environment was disadvantageous. Hence, based on my gauge, no matter who they send first, they would pick that spot!"

"Hmm? Was there really no other better way out?", Mei Xue Yan also felt relieved as she did not have to haggle on that awkward topic with him but she still remained expressionless as if Jun Mo Xie owed her a large sum of money... the expression of a debtor.

"We will definitely have to pass through that road!", Jun Mo Xie continued, "I am also contemplating how we can counter-ambush them! We had enough rest last night and tonight we are staying here. We've given them enough time to prepare! Unless they had no intention of dealing with you, by this

time, the Three Holy Lands would have been way ahead of us and completed their preparation! This wait was for both sides to create the perfect opportunity. If they don't cherish it, they must be too stupid..."

Mei Xue Yan frowned. If it was so, she really could not think of any way to cross the road unless they did it forcefully. However, if they went in forcefully, they would have to pay a high price!

"No matter who attack, we will have to face a scary troop of at least ten higher than Supreme-level experts and 20 Supremes!", suddenly a murderous look emerged on Jun Mo Xie's face, "With their abilities, if we forcefully take them on, whether or not intentionally, it was for sure that we would be defeated! So, at that time, you must listen to me! Don't act on your own accord, and more importantly, don't take risks! I know what I am doing and will ensure they suffer huge losses!"

Mei Xue Yan acknowledged his words but worriedly asked, "Since you have the confidence, why didn't you choose to attack them in the night? With the help of the night sky, wouldn't it be easier?"

Jun Mo Xie laughed sneakily and said, "This is why you are an amateur. With so much snow covering the entire mountain, how different is our ability to see in the day and night? Don't forget, their skills are definitely nowhere beneath ours! Therefore, we don't have to only act at night! In fact, at night it might be worse for us; they will be warier at night! It will be tougher to attack them!

"You are right", Mei Xue Yan nodded quietly. The present her had not realised at all that the tempo between the two of them had been controlled by Jun Mo Xie. Also, she also unknowingly became more obedient in front of Jun Mo Xie...

Jun Mo Xie suddenly burst out in laughter and said, "Furthermore, they are so afraid that we will just slip through them so after finding such a location, won't they monitor it closely? The wind and snow are so harsh tonight. It will torment them quite a bit. That's good, we are giving them an opportunity to toughen up! Honestly, I want to stay here for a few more days then go over. It is quite comfortable here!

Mei Xue Yan finally could not hold her laughter and said, "You are so mean."

"You, how is this being mean, this is called being smart!", Jun Mo Xie said arrogantly, "Every small decision can determine our victory! This is our tradition in the Jun family!"

Mei Xue Yan giggled, smiling widely and forgetting the previous unhappiness.

Beauty Mei had removed her coat and was only a tight-fitting off-white dress was covering her tall, slender body which shivered at the front of her chest along with her laughter. Jun Mo Xie stared at this sight and felt some movement in his nostrils as he almost spurted blood out of his nostrils...

This seductress was taking his life!

If she was extremely curvy, Jun Mo Xie probably would not be so attracted but Mei Xue Yan's body was tightly hugged and shivered only a little which added some graceful and dreamy effects. This made Jun Mo Xie finding her even more irresistible...

Mei Xue Yan acutely realised his oddness and rolled her eyes at him in annoyance; his eyes were looking at her with lots of love as Jun Mo Xie's desires reached sky high as though he became a wolf, ready to catch its prey...

"Xue Yan... how about let's really let them wait for a few days! We can stay in here; it won't be too late to wait till you recover before we leave", Jun Mo Xie moved in closer sneakily, with saliva drooling out of his mouth, shamelessly trying to discuss the issue.

"Injury? What injury? I have recovered a long time ago. I am not injured, what are you talking about!", Mei Xue Yan found it weird and turned to look at him in surprise.

Jun Mo Xie smiled pervertedly and embarrassingly said, "We only need to stay here for a few days and you will be injured..."

Instantly, she understood what he meant!

Mei Xue Yan blushed, feeling shy yet angry yet upset yet embarrassed. She was so angry she could do anything and so she first shouted, "You are dead! Heaven and Earth Prison!"

Then she used a leg and kicked him out of the bear skin blanket, "Scram!"

She did use all her strength...

Jun Mo Xie groaned and crouched in pain like a cooked prawn. His butt faced her as the front guard while his head and legs almost touched as he flew out at lightning speed. He crashed into the snow walls, leaving a big, round hole of unknown depth and disappeared into it.

After a long time, Jun Mo Xie climbed out of the hole in pain, looking pale, "Xue Yan... your one kick left me 500 feet away! I'm a goner, now i have sprained my back, injured my organs, with such serious injury... I can treat others but now I can't treat myself but if you are willing to lend a helping hand, all will be good... If you are willing to try the double-body method with me, I will recover very quickly..."

"Double-body method your head! Heaven and Earth Prison!", Mei Xue Yan was still angry and her face was reddened with anger. Without further thought, she kicked him again. Before Jun Mo Xie could beg for forgiveness, he was already sent flying away and disappeared into the hole once more...

The next morning.

Jun Mo Xie climbed out of the hole with panda eyes, panting. Although he was protecting a great beauty and only the two of them were in the small room, nothing happened... Furthermore, he was beaten up, not only once. This was torture...

He was not only suffering from holding in his desires, but he was also doubly injured, physically and mentally... Jun Mo Xie swore! After this ended and finished dealing with the Three Holy Lands' attack, if there was any opportunity, he will definitely immediately take down this girl! No way he would be appeased!

As he was thinking how to let out his anger, he decided to let it out on the supremes of the Three Holy Lands first.

Chapter 579: Torture All of You to Death!

Bottle gourd entrance.

This was a very unique topographic entrance!

Just like what Jun Mo Xie said, the two sides of the cliff are erected towards the clouds while the middle had a depression, both ends were very narrow, only allowing three people to squeeze through side by side.

The snow had accumulated between the canyon. The blizzard had continued for the past few days and the strong wind had never stopped. The snow covered most of the canyon and it was at least ten feet deep ...

At the entrance, Xiao Wei Cheng and a few other experts that were wearing white gowns, silently lean against a huge stone as they scan the road.

“Xiao Wang Zuo, we have already waited for an entire day and night, why have they not arrived yet? Have they passed us already?” an old man with white hair and a beard that looked like a rat tail asked seriously.

“Definitely not! That adulterous couple had been flirting and sweet talking with each other for the whole journey, how can they walk so fast? Who knows? They might be hiding in some place enjoying themselves...” another vulgar Chinese man with beard mocked.

“Ya? Brother Liu, they are living an unconventional and happy lifestyle and you seem to envy them, don’t tell me...you have immoral feelings for Venerable Mei?” A guy suddenly popped out from the snow and exclaimed.

“Hngh! I just despise their indecent acts! They have offended social decency and have no ethics. They are a disgrace to the people and the world!” the vulgar Chinese man turned red as he tried to defend himself.

“Stop trying to explain yourself. Your eyes lighted up when you saw her. We are all men here, who all can tell that you are just jealous of them. As a supreme master, you don’t even have the courage to

admit?" Another man snorted: " Brother Liu, should we help you to create a chance with her? But you need to be careful. If you die on top of Venerable Mei's belly... you will be famous..."

"Nonsense!" the vulgar man glared and muttered: "I can last for very long!"

The crowd laughed. When discussing this topic, men will never back down, it did not matter if they were supremes or commoners.

Suddenly, Xiao Wei Cheng said in a low voice: "Get ready everyone! They are here!"

Everyone gathered and rose up with spirit, a thread of nervousness spread through the air. Even though they were joking about her previously but towards Venerable Mei, they fear and respect her. She could easily decide whether to let them live or die! If they were not cautious enough, they might die under her hands.

Everyone stared at the oncoming figure only to be stunned.

From a distance, they saw a woman walking towards them leisurely, as if she was on a holiday.

But, only one figure!

How can it only be one person? Where's the other one? Where did Jun Mo Xie go?

Instantly, everyone started feeling puzzled. But it's better this way since the only person that they really wanted to kill was Mei Xue Yan. Without Jun Mo Xie, they had one less concern. They do not have to worry that they might accidentally injure Jun Mo Xie causing the old freak to rage...

But, since Mei Xue Yan had arrived, where did Jun Mo Xie go?

The night was getting darker and colder and the wind was getting stronger. As the wind passes through the narrow gap between the canyon, it created an eerie mournful sound. It was as if the ghosts in hell were howling.

Snowflakes swirled up from the ground forming hazy fogs, completely blocking everyone's sight.

Luckily, the fog only lasted for a moment and slowly faded away. But the next moment, it started to snow.

Xiao Wei Cheng was a master beyond supreme level, with a powerful aura. But at that moment, he felt so nervous that the muscles in his body were cramping up. He held his breath as he gazed at the oncoming figure strolling towards him. She walked towards them seductively just like a leopard that was about to pounce on its prey.

The people behind him felt more anxious as they waited in silence.

This fight, definitely would be a terrifying one!

Once Venerable Mei entered the canyon, what awaited her, would be death! As a master beyond supreme level, if she knew that death was coming upon her, she would burst out an incredible amount of energy and everyone was well aware of that.

Even though this time, Golden City had dispatched ten masters beyond supreme level, twenty supreme masters which were a total of thirty experts. But to really kill Mei Xue Yan, they would still have to sacrifice half of their men and that was if they are lucky.

They might even have to sacrifice twenty men and more to die with her!

Even those lucky few that survived, might not be able to retreat in one piece. Deaths were bound to happen!

A master among the supreme masters! Even the Three Holy Lands are only on par with Venerable Mei. There may be some that had cultivations higher than her but it's only by a little.

Furthermore, Mei Xue Yan possessed a terrifying speed that no one could win against.

If they did not manage to inflict serious damage on her on the first attack which will happen when she enters the canyon, when she comes around to attack, that would be the start to their catastrophe.

The wind became wilder and the snow became heavier...

The ground that appeared to be calm actually contained loads of murderous intention.

There were no signs at all, that within the canyon, hid thirty supreme masters.

As Mei Xue Yan continued walking towards the canyon, the atmosphere within it became heavier.

Suddenly, Mei Xue Yan appeared to have sensed something and immediately stopped walking. With her beautiful eyes, she scanned across the canyon. Even though the masters knew that she could not see them, their heart still cramped unconditionally... they quickly calmed their escaping souls and halted their breath. Like zombies, they hid under the snowy ground.

As a master among supreme masters, she had very strong intuition, facing unknown danger she would become more sensitive. If she had actually sensed something, their whole plan would be ruined.

Suddenly, Mei Xue Yan floated into the air and her graceful body was more than ten feet from the ground. With a few gentle kicks from her slender feet, she rose another ten feet higher. She did a beautiful turn and a few more kicks before flying higher in the air...

Everyone who saw this scene uncontrollably gasped a cold air.

Is this the ability to take flight?!

They had never seen or even heard of this ability before. It was something that only the master of all could accomplish.

Mei Xue Yan slowly scanned through the canyon in mid-air, looking through whatever that was within ten miles. She lightly landed on the ground with a slow turn. She was like a goddess descending from heaven, moving everyone's heart.

She apparently did not find out anything as she relaxed her cautious attitude. She turned back and took a look before heading towards the canyon once again.

She's here!

She's finally here!

She was slowly nearing the entrance of the canyon and was just eight feet away! Passing these eight feet and she will be entering the gates of hell!

Seeing how Mei Xue Yan still had no idea of what was going, they wondered if her intuition had lost its effectiveness. Mei Xue Yan continued with light steps and elegantly walked towards the canyon. She even occasionally reached out her hand to brush the snow off her temples. She seemed to have totally let down her guard...

Mei Xue Yan sighed and turned back again to take a look, as if she was waiting for someone. She walked a few more step and suddenly stopped. She stood in the middle of the road without moving.

The supreme masters from the Golden City were so agitated that their blood vessels were about to explode. But, Mei Xue Yan continued to stand in the middle of the road without moving...

Come in! Faster come in! You should faster come in! Why are you still not coming in?!

Everyone was shouting in their heart, extremely devoted!

Oh my god! It's just a few more step, why did you stop...

This is testing our mental stability!

The distance between them was neither short or long, it was an awkward distance. If anyone in the canyon were to take a deep breath, Mei Xue Yan would have discovered them! In fact, if their heart were to beat any harder, Mei Xue Yan would find out.

For now, Mei Xue Yan was still standing outside the canyon. If she discovered something was not right, she could immediately escape. With her speed, even if everyone were to attack at the same time, at most they could only eat the dust behind her.

The situation was like a bow that was fully pulled back. With an ignorant attitude, Mei Xue Yan unconsciously pulled the bow far back but suddenly stopped. She did not exert any more strength but she did not release the arrow either... she just stopped right there...

And the arrow represented the thirty supreme masters from Golden City!

They awkwardly waited in their position, not daring to move a single bit ...

Finally, Mei Xue Yan took a step forward and everyone relaxed for a while, but just as she was about to enter the canyon... Mei Xue Yan leapt up and gently sat on a branch of a pine tree. Her two slender legs dangled above as she looked upon the path that she came from. She had totally stopped moving forward...

Shit!

The thirty men scolded in their heart simultaneously.

What is this? Is she playing with us? If you want to come over, you should come over quickly! If you want to leave then leave quickly! Putting us in such a stressful situation, what is this?!

If Jun Mo Xie knew what they were thinking, he would cry and said, " Brothers, you have finally understood the pain that I've been through these past few days. This woman is an expert in messing with people. Even people like us with strong mental health will go mad under her hands... The arrow is on the bow, but cannot be released. It is such a torture! You guys are not the only one suffering, I had to hold it in till my stomach ache!"

But Jun Mo Xie was not here!

Master Jun was planning his first assassination!

Chapter 580: Kill the Supreme !

Xie Jun's most feared assassination method has finally been revealed! The strongest of the alternate world have also finally realized the power of Xie Jun.

Jun Mo Xie's capability now have long surpassed the old Xie Jun's ability when he was at his peak.

However, what he needed to face was the alternate world's strongest master!

Moreover, he had to face not only one or two, but...a total of thirty of them.

He seemed like an invisible wind, drifting through the sky; however he also seemed like a visible cloud sliding down; he also seemed like a snowflake that was crystal clear and silent, more like a Huang Quan ghost that wandered around in the dark!

His body walked through underneath and his whole body began to converge;

Hua Xia Xie Jun!

The peerless God in his hand quietly walked with him, emitting a cold glow;

Blood of Yan Huang!

There was a slow and low pulse sound coming from above. The sound seemed like it was coming from outside but it was clearly audible! This was the target that Jun Mo Xie was looking for!

This was because these supreme masters already covered all of the pores on their body, their smell was concealed, and even all of their thoughts were stopped! As for the turmoil of Xuan Li, it was concealed, leaving no traces!

The only thing left for Jun Mo Xie, was the pulse that beat only once in a while! Moreover, this pulse could only be felt when the supreme masters laid their body flat on the ground.

If their bodies left the ground for a moment, the traces of the pulse would disappear.....but because of Mei Xue Yan's power, they did not dare to move!

Jun Mo Xie arrived without a sound; he was counting in his heart: one, two, three.....

The formation of the Supreme Gold City was strict. Each group was made up of three finished characters and this was the best triangle formation possible. The strict formation made it difficult for Jun Mo Xie to carry out his assassination plan.

Jun Mo Xie quietly began to form his body shape. After thinking for a while, his eyes glittered and he closed his eyes with his mouth grinning and getting into a cruel position— he had made up his mind on his action plan!

The peerless god on his hand suddenly became a dull wood!

Even the stalks disappeared without a trace!

Jun Mo Xie came to the three person formation and in the darkness, he stabbed them without any warning and hesitation!

Stab!

It seemed as if a black lightning came from bottom to up and it rushed towards its target!

This stab was a sword that could have caused death! However, it did not have any power! There was no feeling of pain!

It seemed as if a tweak of branch accidentally pricked you.....

The tip of the sword went through the ground and also went through the snow on the ground. It even entered the chest of the Supreme Masters!

Stabbing the heart gives you one mark!

Only one mark! Not more nor less!

One mark was enough!

The creation of heaven and earth caused a violent airflow, and it silently passed through the tip of the sword into the heart and caused the heart to be burnt. All five insides were destroyed! At the same time, he controlled his mind and throat! This was a perfect strategy because noises would be made when the hearts of the Supreme masters were being crushed!

Jun Mo Xie could not be seen seen struggling, if not he would be exposed! Jun Mo Xie will never allow any accidents to occur! Hence, when the sword entered his body, he controlled his mind and throat!

On the surface, this supreme master's body seemed to be fine, but his internal organs were already a rotten meat! The supreme master died of an unclear death.

One blow!

A black sword disappeared! Actually, the black sword did not interact with the air. The one who stuck the sword on the supreme master stuck it strongly!

The supreme master did not even understand- – He only felt as if his chest was bitten by a mosquito, and he subsequently lost his consciousness forever.....

Even until his death, he did not understand! He did not understand why he died despite being able to move around well? He was still waiting to ambush Mei Zun.....

In the midst of the snow, he kept his body in his original position; he was faithful in keeping his position on the ground. However, now he was unable to be of any use.....

The wounds from the sword were as narrow as the tree branches. Blood was rushing into the body and filling the entire belly. However, the blood could not be taken out from the body.

Jun Mo Xie did not stop. He began to take back the blood of Yan Huang as the blood was slowly disappearing from the top of the sword. Despite being in the dark, Jun Mo Xie could feel the sense of excitement coming from the sword on his hands!

Maybe it was a wrong intuition! Jun Mo Xie felt that there was a connection between his mind and the blood of Yan Huang! After killing the Supreme Master, the blood on his sword made him thirst for more blood to be stained on the sword!

From then onwards, Jun Mo Xie's thirst to kill was uncontrollable!

The greatest killer emerged after the first assassination. After eight months, the strongest of the supreme level was opened! This was an amazing starting point!

The supreme masters that were just killed quietly by Jun Mo Xie, belonged to the left part of the triangle formation!

The massacre begins tonight!

Now, Jun Mo Xie's target was the right side of the formation!

He was only two feet away!

Jun Mo Xie decided not to meddle with those at the top of the triangle formation for they were the best amongst the supreme power! Jun Mo Xie did not have the confidence that he would be able to kill those quietly. As a result, he decided to aim for those on the right side of the formation first!

Even if the top of the triangle formation decided to attack back, he would have killed three at least. It was better than just two powerful ones!

Stab!

The sword quietly pierced through the ground, into the snow.....

The long sword pierced the captain and it caused his body to explode and be destroyed!

And it was retrieved quietly!

Jun Mo Xie went to take a breather under the ground! If anyone were to find him, they will find him with his face all red!

These two swords seemed to be quite easy, but in reality, it was difficult to reach in terms of its orientation, angle, shot speed, tyrannical speed input, and its instantaneous control! Any flaw would lead to a failure! Afterall, his opponent was the supreme masters! Other than concentrating on all the skills, Jun Mo Xie had to gather all the spirits of his body in order to make this silent, murderous and unpredictable sword!

As long as a loophole appeared, the supreme masters could just shout! So Jun Mo Xie would absolutely not give them any chance to shout!

If it was one sword to deal with one person, he needed two swords to deal with two of the supreme masters! This was a huge loss to Jun Mo Xie! Now, he was trying to recover in the shortest time possible!

The next opponent was the strongest amongst the Supreme Masters. If he wanted to die without a sound, he had to be more careful!

In front of Taniguchi, Mei Xue Yan sat quietly on the big tree, looking around from time to time impatiently.

At this sight, all the Supreme Masters realized: How do we not see Jun Mo Xie that thief, he is definitely waiting for his lover! No wonder he is so anxious and restless.

But.....we really do not want to kill your lover, we only want to kill you.....Be rest assured, he will be fine. Once you come in, everyone will be set free.....do not play with us anymore.....

Everyone was praying from the bottom of their hearts.....

Mei Xue Yan sighed. Her face was filled with resentment and she looked over; her face that was smeared with a layer of worries made the people around her feel pity for her.....

She sighed again. Mei Xue Yan looked depressed and she was reluctant to look back. Suddenly, she flew down from the tree.....

Wheww.....you are finally here.....you made me anxious.....

Mei Xue Yan walked three or four steps forward, however she stopped and turn back.....she stopped in the middle of the road.....she could not move again.....

She was not moving again!

Xiao Wei Cheng was waiting! My dear grandmother, what are you doing ah ah ah...? I know you have never been in love before, but you do not need to resort to this?

We are not scared of you coming over, we would let you kill and this will torture people!

Just come over hear and everything will be set free, whether we die or live, if you die I die!

Mei Xue Yan suddenly came back again; walked a few steps and turned over again, walked here and there.....pacing back and forth, life or death was not willing to cross over to the Thunder Pool!

Everyone scolded in their hearts!

...

Even with Xiao Wei Cheng as the strongest Supreme Master, the cultivation of the style of over hundred years have been caught up with.....how could such a thing happen!

All the masters of the Supreme Golden city seemed to be feeling furious.....

There was no movement at all!

What happened? You should not have come. We were not so anxious even if we did not see you. But you came.....why not you stay away from us and let us have the guts to do some activities...you just had to stay so near.....

You are sitting over there with a worried face, however we are a thousand times more depressed than you!

So depressing! Super depressing! Where did your love go?

Even if it is a solution.....such a long time.....don't tell me you cannot even bring up a mountain! ?
