

## E Monarch 801

### Chapter 801: Princess? Orphan?

“Alright, I really need to leave. The two of you can perhaps continue to discuss further.” Jun Mo Xie smiled as he looked at Li You Ran. “Before we part, I need to be honest with you. From the start, I had no intentions of killing you. Otherwise, I would definitely not bring you here.”

“I know. Besides... I am never willing to take risks!” Li You Ran smiled in appreciation. He added in a low voice. “Although I believe that in the future, you won’t have any use for me, I still wish to say this: if there is a need... I, Li You Ran... will definitely spare no effort! For this conversation we had today!”

Jun Mo Xie chuckled loudly and left, making his way downstairs.

Behind him, Li You Ran added bitterly. “Third Young Master....I hope that you can... take good care of Ling Meng...”

Jun Mo Xie couldn’t help but freeze for a moment before letting out a deep sigh.

Tang Yuan cried in a whiney manner. “Third Young Master... If I miss you, I will need to go to Tian Fa Forest to find you... You definitely must not let those huge tigers eat me... My meat is too oily... it’s not delicious...”

...

Currently, the streets were in a state of tight security. Lines of soldiers and troops walked about in neat rows, surveillancing and patrolling the place. Smoke was still rising from some places in the city, but the scene of screams and chaos from before had already vanished without a trace.

Jun Mo Xie strolled the streets slowly, but no one dared to stop to question him. When he returned home, he was astonished to find an agitated Prince Equivalent and his family waiting in the Jun Residence.

The person wielding the political power of the Tian Xiang Royal Family, the Emperor Yang Huai Yu and his family, had been completely wiped out within the past three days! Currently, only Prince Equivalent and his son, as well as Princess Ling Meng were of royal blood. The country could not be without a ruler for a day, and Princess Ling Meng was ultimately a female. It made complete sense for Prince Equivalent to take over and inherit the throne. No one would oppose this!

Furthermore, the Emperor and his three sons died because of their own internecine strifes.... There would be no contention regarding this matter.

Jun Mo Xie briefly informed Prince Equivalent and his son of the situation, especially emphasising on the matters regarding the Dugu Family, Tang Family, and Li You Ran. The way Yang Huai Nong and his son looked at Jun Mo Xie was undoubtedly as if they were looking at an immortal. Naturally, they agreed to everything Jun Mo Xie mentioned.

In a sense, Tian Xiang Empire now also had the support of a super-family. And possibly even the number one fiercest force in the world—Tian Fa Forest! Even if there was no substantial assistance, this would greatly benefit their reputation!

Why would Yang Huai Nong and his son dare to go against anything Jun Mo Xie asked them to do? Furthermore, both parties were already on extremely good terms, and it seemed like the little devil Yang Mo was the third auctioneer of Jun Mo Xie's Aristocratic Hall.....

Asides from this, the Jun Family and Blizzard Silver City had already become official in-laws with each other. And with Blizzard Silver City sitting in the Magnificent Jewel Hall of Tian Xiang City, naturally, it would benefit Tian Xiang City greatly as well....

This was the best thing that could happen to Yang Mo and his father! It was like tossing a warm biscuit into their cold palms! The same as a gold ingot falling down from the sky and crashing on their heads! Putting them in such bliss and happiness!

However, there were still many things that still needed to be seen to, and many matters that required tying up the loose ends of. So after conversational greetings, Jun Mo Xie 'considerately' requested for the guests to take their leave. The upcoming Emperor and his son immediately left. Jun Mo Xie ordered everyone to speed up preparations for the move before returning to his own courtyard.

He still had one more thing to do: to wake Princess Ling Meng!

In the room, Princess Ling Meng laid quietly on the bed. Under Jun Mo Xie's miraculous healing hands, she had been recovering quickly, and the external wounds she sustained were no longer any issue. Only the bone injury on her knee and the blood clot in her brain remained unresolved....

But Princess Ling Meng had now become Jun Mo Xie's greatest headache!

First, it was the vengeance between her parents: her mother dying in her father's hand. Her dearest Uncle Ye also left as a result of the death of his beloved. Now, her remaining relatives, her father and three prince brothers, had also all died at each other's hands within the past few days....

This prideful girl in the past now became the most pitiful orphan today! She had no one to rely on in this world anymore!

If I really woke her up, what would she do?

But if I still don't save her and bring her into Tian Fa Forest directly....

What is this?

Although Jun Mo Xie did not personally have a hand in killing of the Emperor's family, but ultimately, they all died in Jun Mo Xie's scheme! If Young Master Jun had not intentionally manipulated father and son to slaughter each other, he would even do it personally and become the most vicious killer!

Just that.... although these people were wicked beyond redemption and deserved their punishments, but at the end of the day, they were still Princess Ling Meng's family!

The easiest solution right now was to kill Ling Meng with a single strike, and let her pass away in her sleep so she would no longer have to suffer in this mortal realm. But the thought of Empress Murong Xiu and Ye Gu Han's hopes before passing away instantly made this simplest solution into the most impossible choice. But he couldn't just remain in a deadlock like this.

Let's leave it to her to choose what path to follow.

Jun Mo Xie looked at Princess Ling Meng, who was in a deep sleep on the bed and made this decision. Although Princess Ling Meng had been sleeping the whole time, her body had recuperated significantly under the nourishment of Spiritual Qi during this period of time. Compared to before she sustained her injuries, she was in a much better form now. She should be able to take this much impact!

With so many complicated matters that needed to be resolved, there was no room for any further delay. Jun Mo Xie decided to wake her up.

He gently placed his palm on top of Princess Ling Meng's head and activated his spirit energy. An seemingly intangible purple-colored Spiritual Qi burst from his palm and entered the head of Princess Ling Meng instantly, dissolving into her veins, slowly unclotting the blood clot in her brain...

Under the careful control of Jun Mo Xie, the blood clot in Ling Meng's head slowly dissolved away and became tiny bits of particles that blended into the veins and circulated in blood vessels. When they all moved away from the brain, Jun Mo Xie utilized his Spirit Energy again and separated those useless particles from blood vessels and purged it out through the skin's pores.

Everything proceeded easily and thoroughly under Jun Mo Xie's precise control...

Princess Ling Meng felt like she had been going through a long and painful nightmare. She had finally awoken from it. She slowly opened her eyes, feeling pain in her eyes from the gentle light rays that had entered her eyes...

"Where is this?... You are..." Princess Ling Meng looked at Jun Mo Xie groggily. Suddenly her eyes widened. "... Jun Mo Xie? Where's my mother? My mother and Uncle Ye? They're alright, right? Where are they?" She suddenly sat up, and a sharp pain shot up from her injured knee. She grabbed onto Jun Mo Xie's robes anxiously, seeming as though she had not realized her injuries.

"Princess, your mother... and your Uncle Ye..." Jun Mo Xie looked at the terror-stricken eyes of Princess Ling Meng, and an involuntary wave of grief hit him as he continued in a low voice. "... They've both already left this world; they're already buried and at rest..."

“Already buried and at rest...” Princess Ling Meng repeated this sentence in a daze, seeming as if she had yet to process the meaning of this line. She stared ahead blankly and suddenly recalled everything that had happened before she fell unconscious. Her entire body jerked as she cried and vomited a mouthful of fresh blood. “Mother... Uncle Ye... you guys are so cruel! ... How could you just abandon me like this... How can you just abandon your Little Meng’er like this... Why did you not bring me along? Why did you leave me behind in this cruel world...”

Her tears were pouring out uncontrollably, and suddenly, she couldn’t catch her breath and toppled over and fainted...

Young Master Jun instantly transfused Spiritual Qi and Princess Ling Meng woke up again. She laid on Jun Mo Xie’s lap, wailing loudly. After a long, long time, she finally asked in a hoarse voice. “The culprit... is it... him?”

Jun Mo Xie silently nodded his head and replied, “It is him.”

Princess Ling Meng’s body jerked. Her eyes full of unfeigned despair as she mumbled, “It’s him? It really is him! Then... what should I do? What should I do?”

“This question, you no longer need to think about it.” Jun Mo Xie took in a breath of air and continued. “Revenge has... already been obtained.”

“The revenge has been obtained?! How?!” Princess Ling Meng mumbled to herself before she suddenly picked herself up in shock. Looking at Jun Mo Xie with unblinking, teary eyes she said in a daze, “Revenge has already been obtained? You mean that..”

“Um.” Jun Mo Xie swallowed his saliva, feeling for the first time that some things were not easy to say. “Revenge is indeed already obtained. The murderer and his sons... are all dead... and you, have been unconscious for almost two months...”

“The murderer and his three sons... are all dead...” Princess Ling Meng was completely lifeless at this point. Whatever Jun Mo Xie said, she just repeated it to herself. It took a long while before she realized that ‘the murderer and his three sons’ referred to... my own father and three brothers?

Dead ?

Princess Ling Meng's entire body trembled vigorously. In an extremely weak and hoarse voice, she asked, "They... They... how did they die?" She was slowly snapping back to her senses, and she knew that Jun Mo Xie would definitely and not make such a terrifying joke with her at this point in time.

"It essentially went down like this: a couple of days ago, the second prince Yang Dan suddenly killed the first prince! Then he started a rebellion, and the Emperor and third prince activated their troops to suppress him. Both sides engaged in a great battle, then at the frontline of both armies, the second prince first killed the third prince, then killed the Emperor... Yang Huai Yu. Lastly, the second prince was arrested by Prince Equivalent and his troops and beheaded..."

Jun Mo Xie shared this in a concise and comprehensive manner. At the end, he scratched his head a little apologetically and looked at Princess Ling Meng, whose eyes were completely in a state of daze, and said, "Of course... I had a bit of involvement in this matter... it was me who instigated the second prince to start his rebellion... This entire matter could also be said to have been single handedly orchestrated by me, Jun Mo Xie! I added fuel to the fire! I believe you also understand my reason: revenge! Revenge for my father and my second uncle, my two brothers, and those countless innocent valiant souls who were lost due to this matter!"

The look in Princess Ling Meng's eyes gradually turned into that of shock. She had even forgotten to weep, only staring at him in astonishment. Not making a single noise.

"So... your father and the three princes, could be said to have all died in my arrangement! There is no difference from that to dying in my hands!" Jun Mo Xie finally finished what he had to say. He calmly looked at Princess Ling Meng. "Today, in your entire blood-related family, aside from yourself, there is no one else still alive."

Chapter 802: Reluctant to Part

Princess Ling Meng looked at him lifelessly, as if she did not understand anything he had just said. Jun Mo Xie sighed and decided to simply explain everything from start to end. From the moment Ye Gu Han

and Murong Xiu Xiu died to the Grave of the Affectionate Couple, then how he instigated the second prince to obtain revenge... He went through every single event.

Princess Ling Meng finally understood. She closed her eyes in misery, tears falling endlessly from them.

My father sent assassins to kill my own mother. which is the same as killing Uncle Ye. This makes him my enemy, but no matter what, he is still my father...

After that, Jun Mo Xie designed a plot to make my father and three brothers kill each other, with all of them dying in this disaster. From this perspective, no matter what Jun Mo Xie's starting point was, he essentially helped me get my revenge. But... at the same time, he killed my father.

No matter how estranged our relationship is, but in the blood that flows in my veins.... that is still my father!

Princess Ling Meng was utterly at a loss and was starting to panic. What... should I do now?

She raised her head fearfully and looked at Jun Mo Xie. "Third Young Master Jun... Jun Mo Xie, I... I... what should I do? Can someone tell me? What should I do? Can you tell me?"

Looking at Princess Ling Meng, Jun Mo Xie couldn't help but feel a sense of pity.

This person before him was the last remaining princess of the great royal family, a prideful woman of distinguished birth, an absolute beauty at the prime of her life! A woman like this should be enjoying her life being pampered, with everything going smoothly in her life. But she was so ill-fated!

Throughout her growing years, aside from her mother and an outsider, Ye Gu Han, no one else gave her the tiniest affection or warmth in the family. When she had finally grown up after much difficulty, her mother died tragically in the hands of her own father, right before her eyes. The person who doted on her the most, Ye Gu Han, also decided to die together with his love.

But that father who was her enemy was killed in the battle for power!

A princess of a nation reduced to an orphan. Now, the world was vast and hazy to her, without a single blood relative left. She didn't belong to this country, to any family or any relative! Aside from Jun Mo Xie, she no longer had anyone else that she could rely on! And Jun Mo Xie, to a certain extent, was still her foe who killed her father!

All the bizarre affairs of the world went as far as this!

All these countless misfortunes befalling upon one single person...

Yet all this was nothing more than the transformations of the world...

"Your mother entrusted you to me before she passed..." Jun Mo Xie decided to say it after pondering for a while. "... and before Ye Gu Han passed, he also asked me to take good care of you..."

Jun Mo Xie had faced great difficulty in saying this. It felt extremely awkward . I killed her father and brothers, and now I'm trying to take care of her... what is this nonsense? Why do I feel like a greater evil than an evil tyrant?

But Jun Mo Xie had to admit that he also didn't wish to face Princess Ling Meng. This sort of feeling... not only was it uncomfortable for Princess Ling Meng, it was just as uncomfortable for him! No matter how much a villain the Emperor was, the blood ties between Princess Ling Meng and him could not be erased!

But this was what Murong Xiu Xiu and Ye Gu Han entrusted him with before their deaths. It was protection for Ling Meng! Similarly, Jun Mo Xie could not erase their affection! So he would just say it, and let Princess Ling Meng make the decision herself!

If Ling Meng chose to leave, Jun Mo Xie would naturally help make all necessary arrangements. But if she decided to stay, Jun Mo Xie would not oppose it. He would take it as the last thing he did for Murong Xiu Xiu and Ye Gu Han...

With regards to what followed after, he would just let nature take its course. Who knew what would happen.

Princess Ling Meng lowered her head, and her complexion was haggard and weak. Her impression of Jun Mo Xie had transformed from disgust, to curiosity, to admiration. And from gratitude for saving her life, it slowly evolved into the vague feelings of love... If she had heard of this news before this, she would probably be bashfully thrilled, but right now, she did not feel the tiniest bit of happiness...

Her heart was already completely filled with another matter!

She went from owning everything to losing everything in such a short period of time, that to her, it seemed like it was within a few seconds!

Before her mother died, she still had everything. The moment before her mother died, she was already unconscious, and by the time she woke up, everything was gone. Everything had completely changed...

It was the same as waking up from sleep and realizing that the entire world had changed!

A feeling like this was similar to the legendary transmigration. Transmigrating from Earth over to the Xuan Xuan Continent after waking up... but Princess Ling Meng had so many more sorrows than people who transmigrate...

It was indeed too difficult to bear!

"Listen to me, Ling Meng. You have to get yourself together; perhaps I shouldn't be saying this now, but we are pressed for time. I hope you can make a decision as soon as possible. Due to some reasons... at daybreak tomorrow, the entire Jun Family will retreat from Tian Xiang and move into the Tian Fa Forest and stay away from the regular mortal world!"

Jun Mo Xie continued. "If you do not have any other arrangements, perhaps you can choose to leave with us. If you wish to stay, then I can inform Prince Equivalent to take good care of you. Prince Equivalent is an honest and considerate person; he will definitely treat you well."

Jun Mo Xie slowly explained the situation the Jun Family would be facing. "I can only give you half a night to consider. I'm sorry."

"I..." A flush appeared on Princess Ling Meng's beautiful face, but she spoke with great determination. "Jun Mo Xie, I really do not wish to remain stuck in this world of disgusting, ugly crimes. I wholeheartedly wish to move to a more deserted place where no one knows me and spend the rest of my life there quietly... From now on, all worldly matters have nothing to do with me! I think... you can help me with this, right? Please don't misunderstand. I do not mean to cling onto you; I just want to go to some place and spend my life peacefully..."

Jun Mo Xie grinned and thought: A deserted place? Isn't that Tian Fa Forest? As expected, the Heaven is thinking of me longingly... You still want me to not misunderstand? You won't cling onto me? Who are you kidding?!

But on his face, he wore an expression as if everything had clicked together. He clapped his hands together. "So coincidental! It is truly the will of the Heavens! Isn't Tian Fa Forest perfect for your request... Um, please don't misunderstand, I do not mean that I... Um... That's just so coincidental... isn't it?"

"Yes, we are just taking what we need..." Princess Ling Meng said sadly. "Since we need to set off tomorrow morning, then I wish to offer burn incense for my mother and Uncle Ye. I'm afraid that I may not have many opportunities to do so after this..."

Jun Mo Xie heaved a sigh of relief and replied, "No problem. I will go make arrangements for you right now. It'll be quick."

Late at night.

The Grave of the Affectionate Couple!

Princess Ling Meng knelt before the grave devotedly. Although the pain in her knee cap was tearing her up from the inside, and although this prolonged kneeling would only tax her bones and even perhaps cause this old injury that was on its way to recovery to act up again and result in permanent damage, she still stubbornly refused everyone's kind persuasion, obstinately kneeling there...

The smoke of burning incense lingered in the air, and countless paper money lit up the night sky.

“I would rather fall and wither, wandering the netherworld alone than have any regrets for my deep love in this life! If there is unfinished affinity in the next life still, I would sooner let down the heavens than let down my dearest!” Princess Ling Meng looked upon this giant tombstone with dreary eyes as she mumbled, “Mother, Uncle Ye... I am leaving... Your little Meng’er is really going to leave; she’s leaving this place, to a faraway place... I genuinely wish the two of you can meet in the Netherworld, truly become husband and wife, and always be of one mind... Uncle Ye, I wish... that I was your daughter! If there is a next life, I want to be your real little Meng’er, along with Mother... I will be good... Father... Mother...”

Suddenly, Princess Ling Meng understood the real meaning behind her name. Little Meng’er, Meng’er... wasn’t this her mother’s greatest wish! To spend her life with the person she loved, with Ye Gu Han. She had no other hopes in life, only in dreams...

So her mother named her as Ling Meng 1 , nickname, Meng’er...

This was her mother’s dream! But it was also Uncle Ye’s dream! Today, the two of them were lying under this cold tombstone! So Princess Ling Meng cried from the bottom of her heart. “Father! Mother!”

She was her mother’s only daughter. Shouting ‘father’ was helping her mother and Uncle Ye accomplish their greatest dream!

In the next life, I will still want to be your daughter; no matter how poor or lowly, how simple our lives are, but... to be able to have parents like this in my life, that is my biggest dream...

The night wind blew, lifting up some paper ashes that had yet to finish burning. It danced and fluttered about in the air, as if Murong Xiu Xiu and Ye Gu Han were nodding their heads, feeling satisfied and bidding farewell to their daughter reluctantly... Wishing their daughter peace and happiness...

“If there is the chance, Little Meng’er will come back to visit you. Father, Mother, Meng’er is leaving now...” Princess Ling Meng looked at the tombstone before her longingly. Turning back once every three steps, tears streamed down her beautiful face...

The wind blew louder, and the leaves of the pines and cypresses in the Grave of the Affectionate Couple rustled and shook in the darkness...

Princess Ling Meng heard it clearly. That rustling noise of the leaves was Mother and Uncle Ye gently looking at her back, gently reminding her: Meng'er, have a safe journey... Take good care of yourself, and don't let us worry...

Princess Ling Meng suddenly turned around, and using all the energy and strength in her body, she wailed, "Father! Mother!" Then, she suddenly knelt to the ground, wailing hysterically...

...

Dawn.

Outside the Jun Residence!

Under the lead of the new Emperor, Yang Huai Nong, all of the court officials of Tian Xiang had gathered here to send the Jun Family off.

All the members of the Dugu Family had also gathered here. Old Dugu Zong Heng stood upright, supporting his old madam. Dugu Wu Di brought his seven sons. Heavy reluctance to part was evident on everyone's faces.

The corners of the old madam's eyes were already stained with tears...

On the other side, Li You Ran stood beside Tang Yuan—one fat, one slim—contrasting nicely. Hai Chen Feng and Song Shang stood behind Tang Yuan, looking at the door of the Jun Residence with reluctance on their faces...

The Jun Family was done with their preparations. Their doors slowly opened. Jun Zhan Tian, Jun Wu Yi, Jun Mo Xie, and the rest slowly walked out. Dugu Xiao Yi leapt out, running into the arms of her grandmother, crying...

Home Otherworldly Evil Monarch Chapter 802 – Reluctant to Part

## Chapter 803: Settling Down in Tian Fa

After a long and reluctant exchange of parting words, it was Dugu Zong Heng who put an end to it. "Stop with this wishy-washy attitude! What use is there? It's not like we are going to be separated in life and death; if you feel like coming back, just come back! Hurry up and go! You're already running out of time. The enemy might arrive any moment, so why are you still dawdling around?!"

Everyone laughed. Jun Mo Xie straightened his body and faced everyone. "Everyone here is a friend of the Jun Family. The Jun Family is forced to retreat like this due to a lack of better options. But I believe that one day, we will return and come back even stronger. Everyone, if there are any issues, you can send us a letter by eagle. If it is within our abilities, the Jun Family will definitely not decline your request!"

Jun Mo Xie cupped his hands. "Everyone, take care!"

Everyone returned the greeting. "Take care, Third Young Master Jun! Take care, Old Master Jun! Take care, Third Master Jun!..."

Jun Mo Xie chuckled loudly. Taking one final look at Tang Yuan, he laughed. "Fatty! The future top millionaire of the Xuan Xuan Continent! You can just wait quickly to strike it rich! Haha..."

Jun Zhan Tian and Jun Wu Yi cupped their hands at the same time, bidding everyone else farewell.

On Jun Mo Xie's command, all the Xuan Beasts were already ready. Everyone got onto their backs. Long Crane spread his wings and flew into the air with a whistle. Like an arrow, shooting into the sky like a bolt of lightning!

With a series of cries, thousands of flight-type Xuan Beasts rose into the air in formation. Under Jun Mo Xie's command, they flew in a circle on top of Tian Xiang City before suddenly changing direction straight South!

Triggering thunder and lightning all the way!

Everyone looked up at the sky pensively, watching the entire Jun Family leaving...

This divine military family that had protected Tian Xiang for decades still left in the end!

Even though they were retreating, they retreated in such a grand manner that was unprecedented in all of history!

In the sky, Dugu Xiao Yi was full of tears, weeping till she fell unconscious in Dongfang Wen Xin's arms...

The thunder eventually dissipated. There were no longer any traces of the Jun Family in the sky. A bright ray of sunlight shot from the East.

Emperor Yang Huai Nong immediately issued a royal decree the moment he returned to the palace: The Jun Family Residence will be now changed to the Divine Military Residence, and no one would be allowed to trespass! No one was allowed to move anything inside! And he even put someone in charge of cleaning and maintaining it, no matter when or for how long, they had to keep it clean and tidy!

Then, he set up another area to build the Tian Xiang Military Tomb for the General in White, Jun Wu Hui, Jun Wu Meng, Divine Iron-blooded Battle Commander, and the rest! To construct a statue and ancestral tablet to be worshiped by all of Tian Xiang!

The Grave of the Affectionate Couple would be made into forbidden grounds, and no one was allowed to go and damage it! Violators would have their entire family executed!

...

Asides from these, there were many more new rules set in place, and most of them were essentially related to the Jun Family.

Although the Jun Family was forced to retreat, the honour and love they received in Tian Xiang was extreme!

This was definitely unprecedented in all of history!

...

In Tian Fa Forest, Big Bear and the rest had never stopped in their work. They had been making significant progress, and it was almost halfway complete. This bunch of Xuan Beasts that was not lacking in their strength was definitely not meticulous, but they were definitely fast!

This saved Jun Mo Xie tremendous work.

While everyone else was touring Tian Fa Forest in curiosity upon arrival, Young Master Jun began his career as a laborer.

It couldn't be helped. His Power of Earth was too convenient for construction purposes.

In a single day, Young Master Jun emptied the inside of an entire small mountain and created a large palace full of splendid and magnificent houses out of it! The countless night pearls he plundered from the palace of Nine Nether First Young Master could finally be put into use...

First, it was a road so wide that it could accommodate ten horse carriages arranged side by side. Giant stone pillars with dragons and phoenixes engraved onto it lined the road, supporting the entire infrastructure! The eyes of the dragons and phoenixes were all night pearls...

There were many other small roads on the sides of this main road. Although they were small roads, they were still relatively wide. At the end of one of the smaller roads was an extremely large hall. All the necessary furniture was inside. On the sides of the hall were a few other smaller rooms...

It looked like Jun Mo Xie was determined not to let the Nine Nether First Young Master's design monopolize the limelight. But right now, although he had his great palace... the doors became Young

Master Jun's greatest headache... He didn't have outstanding mechanism skills like the Nine Nether First Young Master...

He developed an actual headache from thinking for a long time. Young Master Jun finally decided to use the traditional, ancient method: a wooden door with a bolt. Making two holes on the stone walls, then tying the door frame to it before attaching the wooden door. This was also the simplest method...

Although it was the simplest method, it was still a lot of work, even to the great Young Master Jun. Young Master Jun had only realized halfway that all this work could be done by someone else... And thus, from laborer, Young Master Jun became supervisor... In a way, he was freed...

Jun Wu Yi's family occupied a residential hall. Old Master Jun occupied one room alone. Dongfang Wen Xin and the other girls all shared hall, the largest one. The Young Master Jun built a personal space for himself.

The countless smaller roads led to where the servants of the Jun Family lived. There weren't many of them, since most of them were dismissed. But the money given to any random one of them was enough to ensure a peaceful and comfortable life...

To those who had followed them over, Jun Mo Xie was not unsympathetic. He said, "No matter male or female, as long as you have a partner, inform me and I will set up another lodging for you."

If anyone could not get used to staying here, they could just bring it up anytime. The Jun Family would send them out of Tian Fa with money to settle down and seek livelihood elsewhere...

Everything finally began to settle down after half a month...

Big Bear looked at the Jun Family getting busy. Then, he looked at that splendid palace Jun Mo Xie created. After returning to his own den, he suddenly felt displeased with what he was looking at...

That is what you call a home... This... What is this?!

The disparity was too great. Although he had never felt this way before, as there was nothing to compare to in the past, but now...

If what the Jun Family is staying in is a house, then what we live in is at most a shack. Even the servants of the Jun Family reside in better rooms than us! This is too much! We are the magnificent Beast Kings of Tian Fa! This is too embarrassing!

All the Beast Kings could only drool silently in envy after touring the new residence of the Jun Family... After suppressing their grievances for two days, they finally brought it up. Stammering, they asked. Brother-in-law, we are all our own people... do you think we can also stay in that sort of houses? We are your related brother-in-laws, sister-in-laws....

Jun Mo Xie rolled his eyes. Looking at this bunch of brother-in-laws, he was left without a choice. What else could he say? They even emphasized on 'related'. He could only continue to work. By the time the seven brother-in-laws and one sister-in-law happily moved into their new homes, Young Master Jun was so tired he couldn't even move.

The eight Beast Kings no longer had any brother-in-law in their eyes after getting their new homes.

Who is brother-in-law? We need to enjoy our new homes!

There seemed to still be an ocean of brother-in-laws staring hopefully at him. Young Master Jun declared weakly: From today onwards, one could only get this sort of treatment after reaching the level of a first level Venerable! Big Bear and the rest were the only exceptions for this one time, and there would absolutely be no second time...

First level Venerable!

Even the eight beast kings did not reach this level. Although their physical strength had surpassed it, but in terms of actual skills, they were still far from it. Amongst all the kings, only Big Bear and Long Crane were close to that level...

The Beast Kings glared till their eyes turned red. They looked at the new homes of Big Bear and the rest, their eyes full of envy and jealousy. They'd snatch it and make it their own if they could! In order to get

new homes like this, Young Master Jun's one single sentence triggered a craze for training in Tian Fa Forest!

It persisted on without break!

If reaching the level of a Venerable was something that could be achievable by mere determination, perhaps Young Master Jun would have to spend the rest of his life on this tough mission of building houses!

Although he had temporarily deflected numerous brothers and sisters-in-law, Jun Mo Xie was still extremely busy. First, he used the power of wood to free up an entire patch of land worth a thousand plots of fields. Then, he used the Power of Earth to flatten the entire place to use it as a base for growing crops. We've already moved into here; we can't possibly go without food, can we? Although we can purchase food supplies, but it seems a little wasteful compared to growing them ourselves!

But having soil and land was not enough to grow crops. How could you make plants grow without water and irrigation? With the aid of the Power of Water and Power of Earth, a few deep wells were created. Near the fields, with spring water drawn from elsewhere, a small little lake-like pond was also created. Thus with this, most problems were resolved...

In the duration Young Master Jun was busy working, their neighbors came to pay a visit. In Tian Nan, under the commission of the new Emperor, General Wan delivered many household essentials and supplies, piling them all outside Tian Fa Forest. The quantity of those items was enough to form a mountain.

With a wave of Jun Mo Xie's hands, all of the level nine Xuan Beasts got to work as temporary movers, moving everything back within a single trip. But the side-effect of this was... the number of level nine Xuan Beasts deployed was enough to scare General Wan out of his wits...

Young Master Jun was completely engrossed in his construction. He turned the nearby area of the new Jun Residence into a large-scale garden. There was food and all sorts of entertainment facilities. He even set up a few seats for fishing on the side of that small lake for Grandpa and the rest to use for leisurely purposes...

Young Master Jun really had it tough during this period of time. In the day, he worked laboriously, at night, he studied the different tactical formations. Finally, at the end of almost one month, he successfully set up a Heavenly Five Elements Formation!

Young Master Jun situated this formation outside the new Jun Family Residence. The day it was activated, the entire mountain range was shrouded in thick white mist instantly, leaving all the Xuan Beasts of Tian Fa in astonishment.

Big Bear decided to test it out, sauntering his way in. Only a couple thundering noises were heard, then Big Bear came flying out with the smell of burnt bear paws. His entire face was covered in dirt, and his whole body was quivering. Thank god Tian Fa Beast Kings had impressive defenses, otherwise he would have already turned into a roasted bear...

#### Chapter 804: Tian Fa's New Order

Young Master Jun was still standing in the formation, knitting his brows in deep thought, worrying if he had missed anything. But he didn't expect the newly set-up formation to have an intruder so soon, so he immediately rushed over to stop them. But it was still too late, and the Beast King was already in a pathetic state... If not for the amazing defenses of a Beast King, and Jun Mo Xie stopping it in time, this Bear King might be the first Tian Fa Beast King to be roasted alive by heavenly thunder.

From the outside, it looked like a sea of thick and heavy, white mist, and naturally, nothing could be seen. But in it was a completely different scenery—cloudless blue skies.

As for the other three sides, they were directly sealed by Jun Mo Xie with other formations. With the power of the outer surroundings of Tian Fa Forest, it could be said to be well fortified and absolutely safe!

After the resettlement was more or less completed, by the command of Jun Mo Xie, the Heavenly Destroyer and Spirit Devourer Teams exited Tian Fa and headed over to their old address at Xue Hun Manor and set up camp there.

Here would be the the first base of Jun Mo Xie's expansion! The rule of the Evil Monarch would begin from here!

Once again, Jun Mo Xie activated the Power of Wood and forcefully connected the vegetation in this mountain range to the one in Tian Fa Forest and made it his own secret base. In the silent night, giant trees sprouted, by dawn, the original mountain range was already transformed into wildwood...

Devouring thousands of acres of mountain ridge overnight! Never to be separated from Tian Fa Forest!

Solitary Falcon, Feng Juan Yun, and Baili Luo Yun were made the leaders of this place. Naturally, Jun Mo Xie set up a mysterious formation to conceal this place from the outside.

At this point, all the arrangements had been temporarily completed. There was finally considerable certainty on the issue of their own protection! Jun Mo Xie could finally heave a sigh of relief. He never imagined that it would be this troublesome to move houses and change locations!

When he had returned to Tian Fa Forest, he was just in time to see Long Crane flying into a terrible rage!

It turned out that after Crane King had his own 'imperial palace', he regarded it as his own treasure. Everyday, he would happily go on inspections of the place, treating it as a walk. But to his great anger, he found out on this day that there were small beasts that dared to defecate right outside the Crane King's residence...

The Crane King was instantly enraged!

His original dwelling cave was a mere nest, so sometimes, he would also do the same. It wasn't something to be embarrassed about; everyone was extremely thick-skinned, and anywhere could be a toilet...

But now that he had taken up residence in this splendid and beautiful palace... How could such crude behavior be endured?! So Crane King blew his top, and all Xuan Beasts were trembling in fear... they were all crawling on the ground as they experienced Crane King's furious rage...

The way Young Master Jun saw it, this was something that was needed! They ought to be disciplined! Thus, after talking things over with all the beast kings, they implemented a new decision. Thousands of giant toilets sprouted up rapidly in the Tian Fa Forest.

The eight Beast Kings would take turns on duty, changing shifts every month to let the beasts under them be in charge of disposing waste materials, ridding it all into another empty valley that had a cliff thousands of zhang tall... Naturally, they would be using the wheelbarrows delivered by General Wan from Tian Nan City...

So all the Xuan Beasts were in bad luck...

For ten thousands of years, since when were the Xuan Beasts so proper when they were defecating? This sudden change almost triggered a rebellion from the rest of the Xuan Beasts. But since the upper ranked Beast Kings had already taken up residence in such high-class villas, they had taken this sort of graceful behaviour as a matter of fact. They even thought that it was a heinous crime for Xuan Beasts to defecate and urinate where they liked...

To the point that Eagle King even took the initiative to form a law enforcement team, with almost three thousand high levelled Xuan Beasts taking shifts to patrol the entire Tian Fa Forest day and night. If there were any instances of vile behaviour of lawlessly defecation or urination, they would immediately be punished by the law. Offenders would have their Xuan Qi sealed up and undergo a round of violent beating, then locked up into prison!

If a certain area or region was discovered to have traces of feces, but they were unable to find out who the culprit was, then all the Xuan Beasts in that area would serve the punishment together!

And for a long long period of time in Tian Fa Forest, wailing and howling could be heard. All the Xuan Beasts whined incessantly...

Jun Mo Xie never thought of changing the natural law of the jungle in Tian Fa Forest. It was only in cruel competition, the pressure for survival, that Tian Fa would become strong! If not... then it was merely a large scale zoo...

But after much discussion between Crane King and Bear King, it was decided: even if there were any battles between them, after the battle, they must clean up the battlefield! Otherwise, they would be punished severely!

In other words, you could eat meat, but after consuming the meat, you had to clean up the bones...

Furthermore, under the provocation of Young Master Jun, all the Xuan Beasts in Tian Fa Forest would be involved in a long and drawn-out competition! In other words, once a year, all the various species would compete! No deaths were allowed, but the species that came in last would be in charge of cleaning the toilets of the species that came in first for an entire year...

Who would willingly want to do that sort of smelly and stinky work for an entire year? And thus, the training craze in Tian Fa experienced a new surge... This sort of positive atmosphere left the various Beast Kings grinning from ear to ear...

Slightly more than a month had passed by the time everyone in the Jun Family entered their lives on the right track. Everyone in the Jun Family was also slowly getting used to life in their new residence.

Old Master Jun went fishing everyday at the new lake Jun Mo Xie created, armed with a small stool and a fishing rod... If he was bored, he'd do a bit of training. Old Master Jun was living an extremely content life. All that frustrations earlier about leaving his home had more or less faded away.

With all that irritation gone, naturally, the mind would also become more open-minded. Aside from becoming more clear, his own cultivation had also made significant progress. During this period of time, Old Master Jun hadn't been short on good medication given by Jun Mo Xie. But the old man had too many concerns: about the country, the family, others, and himself. With so many worries on his mind, even with ten thousand miraculous medications, it would hard for it to have significant effect. Now that he had let go and put down all these matters, his mind was clear, and all the medicinal effects that had accumulated in his body finally begin to slowly take effect. Thus, his cultivation level also naturally made significant progress. Currently, he had already attained the realm of a Superior Supreme.

Young Master Jun didn't put too much emphasis on Old Master Jun's battling capabilities. Even if there was a battle in the future, he wouldn't allow Old Master Jun to be involved. But improving in his cultivation had another benefit—it could prolong one's longevity! In the past, Old Master Jun spent half his lifetime on military expeditions, and the strain on his body was no small matter. Although Jun Mo Xie tried to nurse his grandpa's health, there was only so much he could do. Although the effects were obvious, it was impossible to return Old Master Jun back to his former pristine state of health. But Old Master Jun's improvement in cultivation had led to an increase in longevity and saved Young Master Jun a lot of worries. With Old Master Jun's current cultivation, living for another hundred or two hundred years was not a concern!

As for Jun Wu Yi and Han Yan Yao, they did not live the sweet and happy lives Young Master Jun imagined them to live. After all, this pair of husband and wife had too strong a sense of responsibility. Every day, they counted how many orphans were sent the old address of the Xue Hun Manor, and how were they living...

Especially Han Yan Yao, who constantly had these children on her mind. After adopting so many children, within a couple of days, she could accurately call out each and every single one of their names and remember most of the children's birthdays. She even consolidated and recorded them down. This sort of dedication was enough to leave people in awe...

Han Yan Yao had a goal, which was also her greatest wish: if these children could genuinely approve of her and regard her as their own mother or feel that sort of closeness, only then, would she be able to feel better in her heart...

Also, when taking care of these children, Han Yan Yao often felt like her heart was in a very natural, comfortable, and peaceful state. Therefore, no matter how dirty these children were when they were sent over, she never despised them... Since she had Jun Wu Yi's company, neither of them felt lonely or found it tedious, doing a great job...

There was also something that left Young Master Jun very gratified. The sorrow hidden in the depths of Jun Wu Yi's eyes had finally disappeared. His originally upright posture seemed even straighter, and the cold look on Han Yan Yao's pretty face had completely vanished. It was an understatement to say that her face was glowing. As the saying went, the beauty of a woman was nourished by her man!

As for the biggest palace occupied by the Dongfang Wen Xin and the other women, the sound of Mahjong—'invented' by Young Master Jun—and tiles being mixed together could be heard coming from the inside. Since its introduction, the women became extremely engrossed in playing. They'd gather for a round the moment they had leisure time, and sometimes, even the Snake King would slip in to have a go.

Guan Qing Han, Dugu Xiao Yi, Han Yan Meng, Princess Ling Meng, Dongfang Wen Xin, and the Snake King; these six people became the most loyal mahjong buddies... The one that was best at it was Dugu Xiao Yi. This girl had extremely good comprehension of the game, and she could even play with her eyes closed. There was absolutely no mistake when her jade hands touched the tiles! She was regarded as the 'God of Tiles' and was later rejected by everyone. You said you're going to close your eyes, so just close them! But to still be so lucky! Everyone wants to win when it comes to playing mahjong; who can take it if they keep losing without a single round of winning...

Princess Ling Meng's health made good recovery, and her mood was also more cheerful. With the company of a close friend like Dugu Xiao Yi, her complexion naturally got better as the days passed. Dongfang Wen Xin looked at all these beautiful and exquisite girls, already reckoning all of them as her son's women and her own daughter-in-laws. With people she kept on her mind and doted on, naturally, she was no longer as gloomy as she was before...

During this time, in addition to doing construction, Young Master Jun also had a task that required a lot of moving. Every day, a large amount of medicinal ingredients were delivered to Jun Mo Xie's front door by the Beast Kings. Whether it was poisonous, non-poisonous, rare, or common... they were carried all here!

Jun Mo Xie welcomed every single one of them. Some of the more rare ones were instantly moved into the Hongjun Pagoda, and the rest of the more common medicinal herbs were replanted in a medicinal garden he had established. Although he had already obtained the Nine Nether First Young Master's treasured collection of ten thousand years, it was a pity that those medicinal herbs were too precious, and their age and medicinal effect were too strong to be used. They were tempting to look at, but he lacked courage to put them into use. Using them at this level would be completely wasting them... Whereas these locally produced ones from Tian Fa could all be put into good use...

Speaking of the Beast Kings delivering medicines, the most impressive instance was the day Jun Mo Xie opened the door to see Earth Cracker running over carrying a huge object. It was several feet tall, and its roots swayed in the air. There was a lump that looked like it was a thousand pounds at the top!

Jun Mo Xie couldn't help but be taken aback at the sight! That giant object was actually a giant Chinese knotweed 1 that was several tens of thousands of years of age! It turned out that when Tiger King was on duty, he discovered that there was this vine on the mountain that looked similar to a certain type of medicinal herb brother-in-law had described. Thus, he deployed a few hundred ninth level Xuan Beasts to shave away an entire mountain to dig this entire thing out perfectly. Then, he came over excitedly to offer this treasure.

This was Earth Cracker after his breakthrough; otherwise, the average person was really incapable of lifting something this heavy—a super giant knotweed that was thousands of pounds!

It was said that medicinal herbs like the Chinese knotweed were very different from other types of medicinal herbs. Most other medicines, no matter how precious or rare, would turn into ashes the moment it reached tens of thousands of years of age, returning the Spiritual Qi back to heaven and earth. Only Chinese knotweed was not restricted by this limitation, no matter how old it was. But it was also precisely because of this uniqueness that the Chinese knotweed Earth Cracker found was also extremely rare. Even the Nine Nether First Young Master's giant pile of rare medicines didn't have it...

Without any delay, Jun Mo Xie immediately tucked this enormous object into the Hongjun Pagoda, as if he had just obtained the most precious treasure.

Naturally, all the Beast Kings had the same mindset as to why they were working so hard. Brother-in-law, you should hurry up and concoct pills! We are all waiting to enhance our strength! With greater strength, then we can go and thoroughly beat up those goddamn wretched trash from the Holy Land... to get revenge for Big Sis...

Jun Mo Xie had a thousand and one things to do, but after finally setting up all the various formations in place, he immediately put the task of concocting pills into his schedule.

Strength was indeed the most important!

Tian Fa Forest was undoubtedly very strong, and the Xuan Beasts were also extremely united. The entire forest was equivalent to a piece of iron, and the Saints would not dare to come in recklessly. However, even if they didn't dare to come in recklessly, it didn't mean that they absolutely didn't dare to come in... There was always the risk of accidents.

To give one of the simplest examples... The three Holy Lands outside Tian Fa gathered a group of their strongest experts and joined forces to attack. As long as they did not rush and knew when to stop, they would definitely be able to achieve relatively considerable battle results.

Aside from external troubles, there were also internal worries... Jun Mo Xie would not forget that there was an immensely powerful power sealed in the mist within Tian Fa Forest: the Nine Nether Fourteenth Young Master!

When it came to the Nine Nether Fourteenth Young Master, Jun Mo Xie would sometime think that... if there were no such madman in the world, it would be a little too peaceful...

Furthermore, the people from Misty Illusory Manor could also enter Tian Fa! A very safe fort was not absolutely safe! This was knowledge that needed to be understood!

Even if it was not clear whether they were enemies, Jun Mo Xie was still determined to remain on guard! If it wasn't someone he could really acknowledge, Jun Mo Xie would never let his guard down!

For two consecutive nights, Jun Mo Xie created large amounts of Vitality Linkage Pills, Vitality Congregation Pills, and Heavenly Vitality Pill in batches—no less than two thousand of each type!

Since the metamorphosis of the inside of his meridians to purple spirit energy, the Young Master Jun had improved greatly his efficiency in concocting pills! Originally when producing these three great pills, he could at most make a few furnaces in one night, and sometimes, there was a chance of failure.

But now, he could produce three to four furnaces in two hours. And the success rate had increased significantly! Originally, he could only produce ten pills from one furnace; now, he could make at least fifty! And useless pills? There was no such thing!

This let Jun Mo Xie truly feel the benefits of this purple Spiritual Qi. Not only did it surpass the original white Spiritual Qi by several times in its toughness, its compatibility with The Flame of Primal Chaos and the Furnace of Good Fortune was impeccably perfect! It was as if these three were meant to be a single family...

Jun Moxie vaguely sensed that his guess should be very close to the truth...

Jun Mo Xie didn't know that his guess was not close to the truth, but it was literally the truth!

The Flame of Primal Chaos and the Furnace of Good Fortune were objects made from Purple Qi before primal chaos! Lasting throughout time!

The newly born purple Qi in his meridians were the origins of the Flame of Primal Chaos and the Furnace of Good Fortune: Primal Chaos Purple Qi!

If you still had accidents when using Primal Chaos Purple Qi to activate the Flame of Primal Chaos and the Furnace of Good Fortune, especially if you could create low-quality medicines from it...

Then the great Pan Gu 2 who had parted heaven and earth would need to go and commit suicide...

But then again, Jun Mo Xie's current Primal Chaos Purple Qi was still too weak, so it was still incapable of supporting his endless alchemy for a long time. By the time it got really strong, then it would really get impressive...

However, even if total amount of Spiritual Qi was not enough to keep up, Young Master Jun was too dedicated. Even the most dedicated of Dan Practitioners would not be like him. Grabbing a few types of medicinal ingredients, he concocted pills like crazy, without taking a single break... as if he had not eaten a single proper meal that filled his stomach for ten whole years and he had suddenly walked into a free buffet, if he didn't eat his fill, he refused to stop...

What was even more enviable was that this fellow was also backed by almost inexhaustible medical materials! Most people would stop concocting pills after creating a few furnaces because they ran out of raw materials...

But this fellow had it good; not only did he have the entire supply of Tian Fa Forest, he also had the treasured collection of the Nine Nether First Young Master... Those were all high quality treasures!

Thus, two days and night passed quickly. Jun Mo Xie's dedicated working also finally came to a halt. Stretching his back and cracking his bones, he decided to step outside for some fresh air.

He originally wanted to let Mei Xue Yan practice beside him while he was concocting pills, but Mei Xue Yan had just reached the first level of the Art of Unlocking Heaven's Fortune and was still way far from reaching the standards of the fourth level of the Hongjun Pagoda... Left without any choice, Young Master Jun had to give up on this decision...

But Jun Mo Xie was astonished when he stepped out. Although the current Mei Xue Yan had yet to breakthrough in her Art of Unlocking Heaven's Fortune, but with constant practice and absorption of large quantities of Spiritual Qi, she had already leapt straight up into the tier of a seventh level Xuan Beast...

This left Young Master Jun feeling unfair. That is too fast?! Who is this? Oh, no, it should be: What beast is this! This is too beast-like! Even this young master did not have such rapid advancement! It hasn't even been that many days yet!

Young Master Jun had clearly neglected an important thing. While he clearly was constantly practicing and improving himself, but when he was outside, the Spiritual Qi was extremely rare. And his time outside was also significantly longer than his time within the Hongjun Pagoda.

Whereas Mei Xue Yan directly practiced in the Hongjun Pagoda. No matter whether it was eating, drinking, or sleeping, she was constantly enveloped in the Spiritual Qi in the Hongjun Pagoda!

If she was not fast, then that would really be weird!

It was true that Mei Xue Yan was advancing at a beast-like speed, but Young Master Jun was worse than a beast!

Naturally Mei Xue Yan was extremely happy to see Jun Mo Xie coming over to her side. Clearly, she was quite satisfied with the results she achieved with her practice during this period of time...

Although she still couldn't accept being close to Jun Mo Xie in her current form, this time, she did not intentionally avoid him, but instead, allowed Jun Mo Xie to hold her in his arms.

Because this hug... it was only when she had lost it once, did she truly realize how much she desired this warm hug... And it was only when she was in his arms did Mei Xue Yan feel that no matter what, she had someone she could rely on.

She had walked on the path of one strong and lonely for so many years. Although she was standing at the peak and held in awe, she had never felt a sense of belonging. It was always lonely at the top. But although it was lonely and cold, she had persevered and made it through. At first, she didn't feel anything, as if this was simply how life was. From the moment she was born, she worked hard to become strong, to throw her life away on the battlefield of the War for Seizing the Heavens...

As if that was her final destination, the fate she was destined for!

Mei Xue Yan didn't feel anything about it. She had gotten used to accepting her fate a long time ago.

Although she had never felt what happiness was like.

What sort of feeling happiness was, she had never experienced it before...

But since the appearance of this hug, she knew. She truly understood it.

She knew the meaning of her life: it was not only Tian Fa, not only the War for Seizing the Heavens!

It turned out that in this world, there was another type of beautiful thing that could make her put down the War for Seizing the Heavens or even give up everything unconditionally, something that she would protect and cherish even if everything went up in flames...

So this was what was most precious in life.

Only by having him, her life became complete. She could still sacrifice herself in the War for Seizing the Heavens, but she would still have lingering attachments. The War for Seizing the Heavens, the sake of the world was an ideal or goal of the past... it was not living, and it was not what life was all about. It wasn't the meaning for her existence!!

Without all those things, at that moment, when she had no other worries, she... only wished to have a partner she could rely on for the rest of her life! To watch the sun rise with him, enjoy the night breeze with him. Admire the flowers in spring, experience thundering storms in summer, watch the moon in autumn, and in winter... experience the ice and snow, or hide in a house that was built in the heavy snow, hibernating!

Precisely because they had each other, even the coldest snow would become tender and warm...

The moment she was back in Jun Mo Xie's embrace, Mei Xue Yan could clearly feel herself shuddering. Her soul was shuddering because of the happiness...

Mei Xue Yan could distinctly feel the love from this hug and how unwilling it was to part from her. So she didn't care anymore. No matter what sort of worries, she didn't care about them anymore... No matter how my appearance changes, I am his most beautiful Xue Yan, his most beautiful lover, the person he loves the most!

It doesn't matter if I'm in my human form or my original form!

If this is the case, then what else do I have to care about?

Jun Mo Xie was delighted!

In the Hongjun Pagoda, he could clearly feel that Mei Xue Yan had a thorough and complete awareness to have finally let go of things!

This girl had managed to breakthrough her frame of mind significantly and successfully unlock the lock in her heart on her own!

This was really delightful!

He hugged her silently, the both of them in a mutual understanding. Although they did not say a single word, but... the silence right now... spoke louder than words!

Chapter 806: Three Questions to The Heavens!

After a long while, Jun Mo Xie said with great satisfaction, "Xue Yan... Did you know: ever since you were injured, I may have looked fine on the surface, but the inside of my heart never had a day of peace... I was constantly worried and concerned, but that was all until this hug today... it really made me feel at ease... you little elf who left me deeply worried really tormented me..."

Mei Xue Yan's bright big eyes blinked. Looking at Jun Mo Xie's face, she continued to stretch her body and bury herself in his embrace. Silently pressing her little ears against his chest, capturing that familiar heartbeat. Ba bump, ba bump.. Every beat left her feeling immensely happy and blissful...

"I can't take it. You little heartbreaker still want to seduce me at this timing! I've decided; even if you recover someday in the future, you must revert back into this form from time to time for me to hug... I love this sort of feeling too much; I'm too blessed..." Young Master Jun sighed with great satisfaction.

You still want to do this even after I've recovered? Hmph, then how could I face others out there? ... However, it's not bad to fulfill your wishes. But I only hope that you will not regret it when the time comes... Mei Xue Yan, who was in his arms snorted, blinking her eyes playfully, as if she were thinking about something.

Young Master Jun did not have the slightest realization that because of this one single sentence he said today, he had created a huge problem for himself in the future. After the two of them wedded, for a period of time, every time Jun Mo Xie was about to get intimate, he would realize that at the most crucial juncture, when he was about to conquer and dominate his gorgeous lover, she would suddenly transform into a small white... um...

It could be imagined...

Everytime that happened, Young Master Jun would feel like crying, but the tears wouldn't come...

While Jun Mo Xie was rambling, suddenly, Mei Xue Yan, who was in his embrace, became completely silent. Astonished, Jun Mo Xie looked down, only to see Mei Xue Yan's pair of bright eyes focusing on a spot in space, her breathing becoming long and drawn out... To think that at a point in time like this, she entered a transient state similar to enlightenment...

Jun Mo Xie didn't know to laugh or cry. It can work like this?

There's no other choice; I'll just hug this soft, little thing in my arms and be a statue for a while...

Who knew how much time had passed when Mei Xue Yan suddenly leapt and landed on that Heaven Earth Spirit Vein that she always practiced on, her sharp little claws moving swiftly like the wind, writing in freestyle...

With a few strokes, the bold, cursive calligraphy was completed!

Three lines were written down!

But Jun Mo Xie could distinctly sense that they didn't seem to words! At least, they weren't merely words! But three types of profound moves! Because, from these writings, there was extremely strong killing intent!

"Ask, when will the scramble for power and profit stop.? Hate, the Holy Land's heartlessness. The first wish is to the people, sorting out worldly affairs. Heaven and earth will be at peace!

Ask, when will the disturbance and fighting cease? Hate, Tian Fa has tears. The second wish is to the earth, thoroughly washing away all traces of strangeness. Heaven and earth will be clean!

Ask, is there an end to the end of time? Hate, the world of the living lasts for ages. The third wish is to the heavens; throughout all of time, these feelings shall accompany samsara!"

Jun Mo Xie looked at these three sentences carefully and suddenly comprehended its meaning. The first sentence said that Mei Xue Yan had thoroughly seen through the likes of the people from three Holy Lands, revealing her desire to restructure the world. And it should be a move that enveloped, a rather extensive scope! Each stroke of the characters represented a position to strike from, and it could be changed and varied from start to finish, its power extremely impressive...

The second sentence was talking about the War for Seizing the Heavens. This was not only a wish, but also a resolution to cleanse all traces of the strange races, a wish to return a clean and untainted world back to the human world. Similarly, this was a move!

With regards to the third sentence, it was about... feelings, towards what seemed to be himself! And they were such strong and intense feelings; every stroke was full and plump, revealing a firm resolution in this aspiration that would not change in all lifetimes to come!

Wishing upon the heavens; throughout all of time, these feelings shall accompany samsara!

Using the eternity of samsara to make known her sincerest feelings!

Samsara... also represented the deadliest move! A deadly move that was immensely powerful!

The ultimate move that no one in the world could avoid!

This girl... truly deserved her reputation as an overlord! To suddenly achieve enlightenment at a timing like this! And to go as far as to create three exceptional moves of this level of endless might!

And the most intriguing one in Young Master Jun's eyes was having these feelings accompany samsara—it was the strongest and most powerful move amongst the three! This also made it clear that in her heart, Jun Mo Xie was the most important! Be it the three Holy Lands or the War for Seizing the Heavens, both could not hold a candle to him! He was proud of himself!

"Impressive! Truly... impressive!" Jun Mo Xie was extremely sharp-eyed; naturally he could tell with one look where and how powerful these three moves were. But the complexity amidst it was also hard to imagine...

Looks like the three Holy Lands and the responsibility of the War for Seizing the Heavens had oppressed Mei Xue Yan's heart to such a great degree! Otherwise, she would definitely not create this sort of shocking moves!

Jun Mo Xie could also see that these three moves were merely still at their beginning stages!

No one would have thought that it would be in here, in this sort of situation where only the two of them were around to witness it. After breaking free of these mental shackles, Mei Xue Yan suddenly was enlightened and created three powerful, exceptional moves that would allow her to sweep across the world!

Jun Mo Xie did not bother her; instead, he stealthily left the Hongjun Pagoda...

Because after writing out these three lines, Mei Xue Yan entered a transient state again. She stared at these three lines and went into deep thoughts for a long time.

She was perfecting these three moves!

The moves that she had created were the moves that were most suited for her!

This was still the first and only time Mei Xue Yan had ever created her own moves in all these years!

She absolutely must not be disturbed at a moment like this!

If she got disturbed, then everything would go down the drain! Jun Mo Xie was well aware of this, so he chose to disappear silently. Because his own existence, even if it was just the smallest startle caused by his shadow, would be enough to affect the success of Mei Xue Yan's creation of her moves!

How could it be easy to create your own moves?

The Xuan Skills of the Continent had been passed down for tens of thousands of years, counting from the time the Nine Nether First Young Master had first imparted it.

Tens of thousands of years!

How many moves had been revised? Be it imitating wild beasts or birds, be it imitating the harsh mountains, or the gush of rapid waters, or also the boundless clouds and sea, the wind, flowers, snow, and moon...

Every single stroke had to go through countless of improvements! Whatever could be used was more or less already used completely! The space left for the descendants to further innovate had also seemingly become less and less!

So on a foundation like this, to be capable of creating a move of their own, every one of them was a grandmaster of their generation! People of exceptional talent!

Under the circumstances of completely losing all her cultivation and having to start from the beginning all over again, and even pick up a unique kind of art that was completely different from the one she had

previously cultivated, Mei Xue Yan had essentially thrown away everything from her past. And at a timing like this, she could still put down the shackles that were bound to her heart, and with her feelings as the basis, she created a set of moves that entirely belonged to herself!

It was also from this moment, that despite only having the cultivation level of a seventh level Xuan Beast, Mei Xue Yan truly had qualifications that were no inferior to the ancestors of the three Holy Lands!

Creating her own moves!

At this moment, Mei Xue Yan fell into deep thought like this, not even caring about how she looked. Jun Mo Xie did not have any opinions about it.

He was not jealous, nor did he feel the need to compete!

The only thing he felt was a sense of pride that filled his entire heart!

Because someone with this sort of accomplishment is my woman! Is my wife!

This enlightenment Mei Xue Yan had lasted for three whole days!

And during these three days, Jun Mo Xie did not dare disturb her even when he was delivering food and water. When he was concocting pills, he entered the fourth level of the Hongjun Pagoda directly and moved them out from the pagoda straight from the fourth level...

Outside, it was a state of celebration in Tian Fa Forest!

Because Jun Mo Xie had released news that all level nine Xuan Beasts who did not get to eat the pills previously would get their share this time! Every single one of them would get their share! When this great news was released, the Beast Kings came running at breakneck speed, their loud cries shaking the heavens, calling and summoning the level nine Xuan Beasts of their own species. Hurry up and come! There is great news! There is a large supply of that great pill from last time! With that pill, you can

advance more quickly and reduce the time needed for your cultivation! And this means you are taking a step closer to your new home! Hurry up and get it...

In a split second, from those that flew in the sky to those that ran on the ground, everyone came running over in a hurry. There were constant sounds of silly, large-sized beasts knocking into trees, before picking themselves back up from the ground and sprinting...

Jun Mo Xie looked at the giant ocean of beasts before him, then at that large fleet in the sky that was blocking out the sun. And there were still more flying over and sounds of what seemed to be a giant army running over...

All of them stared at him with great desire in their eyes...

Young Master Jun suddenly broke out into a cold sweat!

This... how many are there actually? A giant army of hundreds of thousands of Xuan Beasts? Didn't Xue Yan say last time that there was no less than twenty thousand level nine Xuan Beasts left in Tian Fa Forest? How did so many more pop out of nowhere all of a sudden?

Not even mentioning those located farther away, or those who had not received the news, who knew how many there were! Right now, all those who were located nearer were in the minority!

But this minority group looked like there were two hundred thousand of them at the very least!

Xue Yan, Xue Yan, your random answer has really caused me trouble! This was the twenty thousand you talked about?? How many twenty thousands are there...

Jun Mo Xie did not realize that he had missed out a word when he made his announcement: Peak!

This word was too important, and it definitely made a world of difference!

Mei Xue Yan's words back then were: peak level nine Xuan Beasts, there were approximately twenty thousand of them.

But Young Master Jun was muddle-headed and said 'Level Nine Xuan Beast'!

The difference between the two was too vast!

Twenty thousand peak level nine Xuan Beasts—although it wasn't little, but when put into the enormous Tian Fa Forest, they did not hold much ratio. In fact, that was not even one in ten million Xuan Beasts!

But level nine... there were a hundred times more than this number!

Jun Mo Xie finally understood why Mei Xue Yan once said that if Tian Fa wished to wipe out the three Holy Lands, or even wipe out the whole continent, it definitely would not be a difficult matter!

He had also finally learnt the true reason why even immortal-like big shots like Saint Kings and Saint Emperors did not dare to recklessly enter Tian Fa!

Chapter 807: Bear King's Spring

Tian Fa Forest occupied an area of more than a hundred million acres, almost two thirds of the entire Xuan Xuan Continent horizontally from east to west. How enormous was a region like this? Although there were not many Peak Beast Kings in there, peak level nine Xuan Beasts were definitely the minority... but the number of regular level nine Xuan Beasts were definitely in the millions! Or more!

This sort of forces, plus all the level eight, seven, six beasts that were in even larger numbers... wait wait wait... Jun Mo Xie only felt a wave of dizziness! How could the mere few thousand of people of the three Holy Lands hold a candle to a tremendous force like this?

No wonder the three Holy Lands ultimately had this sort of restraining fear towards Tian Fa!

But these Xuan Beasts were truly extremely simple and honest!

To have such a terrifying force, it was more than enough to dominate the entire continent!... But for ten thousands of years, this had never happened; in fact, they never had this sort of wild ambition, which was what was truly bizarre....

Miracle! A real miracle!

Jun Mo Xie suddenly felt extremely confident. With this sort of powerful force in my hands, who the f\*ck do I still need to be afraid of?

The three Holy Lands? The f\*ck are they...

However, no matter how bursting with confidence he was, or indescribably astonished he felt, he still needed to clean up this mess before him!

If every single level nine Xuan Beast was really each to receive a pill...

Then Young Master Jun need not do anything else in his entire life; he could just focus on concocting pills... This sort of number was truly too terrifying!

Looking at the eight Beast Kings standing at the front of the rows, Young Master Jun suddenly came up with a scheme with a roll of his eyes.

Standing at the front ready to snag the advantage any moment, Big Bear and Earth Cracker suddenly felt their scalps prickling. Could it be that we are in bad luck again?

Sure enough, they saw Young Master Jun knitting his brows with great doubt, then slam the table. "Big Bear! Earth Cracker! What are the two of you doing? Didn't I repeatedly make it clear to you that the minimum requirement is to be a peak level nine Xuan Beast? Why did everyone come running over? Is this how you relay my message? The two of you are really unable to accomplish anything, but liable to spoil everything!"

Big Bear's excited smile froze on his big face. His eyes widened. "Um... what?"

Jun Mo Xie winked at him, but continued to holler away as if he was in the right. "Look at that stupid look of yours! If your Big Sis said that you were not stupid, I would still not believe it! This is truly maddening! You're driving me mad! I should've known better to look for the two of you to pass the message; now you've messed everything up!!"

Big Bear quickly shut his mouth. Brother-in-law even brought up Big Sis. I should just shut up. Otherwise, if he brings it up during their pillow talk, will I survive? Right now, it's just scolding. If I cannot explain myself properly, after this whole incident I'll definitely be hurting all over. I... I'll endure it!

Earth Cracker blinked his eyes in confusion. "Brother-in-law... This... seems like..."

Big Bear beside him quickly nudged him and whispered, "If you don't want to be hurting all over after this just shut up!"

These silly pair had been a set for a long time. Although Earth Cracker did not understand what was going on, he still shut up instantly!

"Brothers! We do have the medicine now! And lots of them!" Jun Mo Xie ignored them and shouted at the mob before him.

Instantly, cheers broke out loudly.

"However, although I have indeed concocted a large quantity of pills, but it is still not enough compared to the number of you. We are all aware of the situation of Tian Fa Forest... I had originally intended to summon the peak level nine Xuan Beasts forward; after all, only they are at the bottleneck of breaking through, but I did not expect Tiger King and Bear King to relay the wrong announcement, causing everyone to gather here! This is my mistake, my error... Why did I choose to trust the two of them!"

Sighs of disappointment broke out. They definitely were not sighing about Young Master Jun's poor judgement, but because there were not enough pills to go around. It was alright if they made a wasted trip, but that new residence seems even further away now.

Tiger King and Bear King turned to look at each other. Brother-in-law, my dearest brother-in-law, how could you twist the facts like this... when did you ask us to relay your words? Let's not even start talking about the difference between level nine and peak level nine... How can the two of us 'involved parties' not have a single clue about what is going on?

As a human, no matter what, you should have some sort of conscience, shouldn't you? Although it is true that the two of us are not humans in our bones, but brother-in-law, you are a solid and thorough 'human', right? How could you create something from nothing like this? How can you speak so blindly?!

After your stunt, aren't the two of us going to become the target of scorn in Tian Fa?...

"However, everything has its advantages and disadvantages. Precisely because of the misunderstanding by these two Kings, it has instead given me the opportunity to convey news to everyone here, to save everyone the trouble of a long and difficult journey the next time!"

Jun Mo Xie scanned the crowd, and announced: "Everyone knows that the effect of the pills is very potent. There is certain degree of danger even if they are refined by me. Forcibly taking it before reaching the stage of a peak level nine will not only have no effect in upgrading your skills, there is also a great chance that you will explode and die... But if everyone takes it after reaching the peak of level nine, not only will there be no side effects, there will also be no pain in the upgrading process! This is the essential difference between the levels. Everyone is a clever person; you all definitely understand this!

"So I hereby promise everyone, no matter if you are brothers of level seven, eight, or nine, continue to conscientiously practice. The moment you reached the peak level nine, report to your King, then come and obtain the divine pills from me! Breakthrough the realm of changing your form! Trigger off the advancement and upgrade of the strength in your body! Become truly strong! All those who reached peak level nine can come and retrieve the pills from me. Those who breakthrough level eleven, in other words, brothers who are above the Venerable level, shall get a personal lodging built by me!"

Jun Mo Xie solemnly said, "This promise, from now on, will remain unchanged for ten years!"

Another wave of celebratory cries broke out.

It was not difficult for these level nine Xuan Beasts to attempt to breakthrough to level nine peak. Some of them had stronger genes; when their bodies have completely grown, they didn't even have to do any practice and they would enter peak level nine cultivation directly. But the part about breaking through the realm and changing their form was a matter of life and death!

Upon hearing of this news today, how could they not be elated and go wild!

A level nine Xuan Beast and a Xuan Beast that had changed its form... That was an essential difference. The difference was a relatively huge dividing line! There was a difference of a few hundred years in terms of their life expectancy alone!

And also, if they attained a level of a Venerable and above, they could obtain that beautiful house!

We have to achieve it even if it's going to cost us our lives! It's too tempting!

Now that we have a goal, why are we not practicing like crazy?!

"I... say... um... Brother... Brother-in-law, if ten... within ten years... if we... do not... break... break through... to peak level... then what should we do?" This question was stammered by a big black bear. Clearly, it had only learnt to speak after reaching level nine recently... As it spoke, its black eyes looked at Bear King in fear, anxiety, and shyness...

And the voice was really delicate... a little like... a female speaking...

A female bear?! Jun Mo Xie was greatly surprised. This was the first female high level Xuan Beast he had seen besides Mei Xue Yan and the Snake King, Green Hunter!

At this thought, Jun Mo Xie scanned the crowd, only to realize that of all the level nine Xuan Beasts present, almost half of them were female... Then where did they all go before this?

Jun Mo Xie didn't know that in Tian Fa Forest, especially within the high level Xuan Beasts, females were rare compared to the males. Thus, if there were any large scale battles, no matter what, female beasts would never take a part in the fight. This was a tradition of Tian Fa for ten thousands of years...

As to Mei Xue Yan and Green Hunter, they were the abnormalities, so they could not be mentioned...

"If you do not achieve it in ten years... then it's hard to say. I cannot make my guarantee. There are too many Xuan Beasts in Tian Fa; if I make a promise that lasts for a hundred years, then this brother-in-law doesn't have to do anything else for the rest of his life. I'll spend it concocting pills and making houses..."

Jun Mo Xie rubbed his jaw as he chuckled. It was not a must for it to be done within ten years, but he wanted to set a time limit for these guys. If the duration was too short, they would all be incapable of achieving it, and it deliberately made things difficult. But if the duration was too long, they would eventually lose their ambition...

So the time limit of ten years was intentionally mentioned by Jun Mo Xie, but not because he was afraid of being busy concocting pills or building houses. If only it was that easy to reach the Venerable level and above.

"Oh... then I-I... I..I... will go work hard... I will go... work... work hard right now!" That black bear had smooth and silky fur, with rings of gold fur on its body. Although it was slightly plump, it still looked quite adorable.

And its personality was a little shy. She seemed to be if the extremely bashful type...

Bear King was just about to shoot daggers from his glare, but he suddenly turned gentle. Clearing his throat, he slowly asked, "You there, you are from the black-gold bear clan?"

"Um... I... am... Your Majesty..." The black bear was startled, stammering her response.

"Alright. And you are a female bear close to adulthood?" Big Bear licked his lips, circling this black-gold bear, the expression on his face becoming more and more ambiguous...

"Yes... Your Majesty... Y-you..." This poor little female black-gold bear could only watch this supreme King of the bear races with innocence and fear, her speech becoming even more stuttered.

“What’s your name?” Big Bear’s voice was even more strange, suddenly becoming extremely ‘gentle’. He used an extremely endearing tone and asked this question. But Big Bear’s voice had always been the rugged type. Suddenly turning into such a gentle one instantly left the other Beast Kings in goosebumps. Jun Mo Xie felt all his hair standing from hearing this change.

All the Xuan Beasts that had taken form were standing in the first few rows, all making eyes, but no one knew what were they thinking.

“I... I-I... I am called Bear... Little Dance...” The black-gold bear Bear Little Dance was increasingly nervous, and her stutter started getting worse. She had no idea what this Bear King wanted to do; she was completely at a loss and didn’t even know where to put her huge bear paws.

Bear Little Dance?! Such a large creature actually has such an elegant name!

This is too poetic! This is literally a case where the name does not reflect the reality, isn’t it?

But Big Bear seemed to be extremely satisfied. He thought he was putting on an amiable and pleasant expression, but he came off as overbearing and tyrannical as he said, “Xiong Xiao Wu... Hm, a good name, dainty and delicate, charming and cute. Marry me and be my wife! Give birth to some bear cubs for me!”

## Chapter 808: Beautiful Girl and Pretty Boy

Hong!

The group of Xuan Beasts instantly exploded in chaos! Roars and screeches rang out everywhere, and Jun Mo Xie was stunned so badly that his mouth and eyes turned askew. He took a step back and directly fell down on his butt. This Big Bear was simply too direct. What kind of descriptive terms were those? Where did he learn them from? This bear that weighed at least 700 jin actually looked small and dainty, charming and cute in Big Bear’s eyes...

This was only their first meeting, but this fellow already proposed marriage to her! And he actually did it so domineeringly!

Marry me, and be my wife! Give birth to some bear cubs for me!

There was such a way to propose marriage?

If a human suddenly walked up to a lady that he liked and said, "Marry me, and be my wife! Give birth to some little babies for me!..." Wouldn't he just get beaten half to death and called crazy?

But Long Crane and the rest simply stood to the side, not interfering. It seemed that they didn't find anything wrong with this scene at all.

"How is it? Are you willing?" Big Bear asked nervously.

"I... I... I... I don't know..." Little Dance looked around jumpily, as if she were begging for help. She stepped backwards nervously, nearly falling over because of her clumsy body...

"You don't know? That means that it's not a rejection? Not rejecting means that you accept! Accepting means you're agreeing to be my wife! Come, wifey, let's go home together while it's still early and make some little bears..." Big Bear smiled excitedly and held out his fluffy paws, wanting to pull her away.

Hearing this, Little Dance's eyes reddened and she looked like she was about to cry. Her eyes darted continuously toward an older Black Gold Bear not far away.

Big Bear naturally also sensed her gaze. Stretching out his hand, he pointed. "You! Come out here! Are you the leader of the Black God Bears tribe?"

The old bear walked out with its face wreathed in smiles. "Lord Bear King, I am indeed the leader of the Black Gold Bears, Big Precious... I'm also Little Dance's father..."

"Oh, so it's father in law!" Big Bear waved his paw and said. "I'm sure you have no opinions about the relationship of me and her right? It should be an honorable marriage right?" Big Bear had learnt the three words father in law through following Jun Mo Xie around in recent periods. Apparently, the father of one's wife was called a father in law.

In front of Little Dance's father, he naturally wanted to show off his knowledge. Those words like 'small and dainty', 'charming and cute' were simply to obtain the favor of the beautiful bear. But the words 'father in law' was to show how knowledgeable he was, and how different he was from the other uncouth bears.

"Yes, yes... I have no opinions... no opinions. It's a great honor! It's truly very glorious, too glorious..." The Black Gold Bear tribe's leader Big Precious continuously nodded his head and said. He didn't really understand what the words father in law meant, but guessed that it must be some kind of noble greeting. Claspng his paws humbly, he said, "I'm not worthy of Lord Bear King addressing me as 'father in law', you.. you are my father in law..."

You are my father in law...

Jun Mo Xie nearly spat out a mouthful of blood and died on the spot...

He sat on the ground with a dazed expression. Originally, he'd already been stunned rather thoroughly, but the addition of that one sentence had completely caused him to lose all sensations in his body...

What the hell was all this?!

"Eh... that won't do! I can't be your father in law! You old thing actually wants to take advantage of me..." Big Bear was about to get angry, but he controlled himself and shook his head: "Forget it, who asked you to be my father in law... quickly go back and prepare the dowry, I'm marrying your daughter, so you should go and start preparing? We can't marry her off poorly. After all, she's going to be the queen of the bear tribe in the future, becoming a motherly model and leader of all the bears... Alright, just send ten thousand jin each of your Pinecone Wine and Honeyed Biscuits over later on... there's no problem right?!"

Big Bear said with a loud voice.

"Yes yes... it'll be done as you instructed..." Big Precious nodded repeatedly.

Just like that, under the astonished gaze of Jun Mo Xie, the marriage engagement was... completed...

Jun Mo Xie nearly choked on his own spit as he watched this scene. This was possible as well? Motherly model and leader of all the bears?! My god!

There was actually such a method of proposing marriage...

This was only the first time they had ever met, and he forcefully demanded to marry her. Then, he even demanded for his father in law to pay for the dowry... Not only that, he'd even asked for a huge amount!

His tone wasn't even polite in the slightest, directly calling his future father in law 'old thing'... was there anyone who spoke to their future father in law like that?

The most surprising thing was that... it had actually succeeded!

The bride's side forked out a huge dowry and prepared for the entire wedding!

This son-in-law was like a common bandit forcing a marriage!

No! Even a common bandit would more or less know to speak some honeyed words, or at least make some promises. This fellow was not even comparable to a common bandit! What was going on?

This world was simply too crazy. No, the world of Xuan Beasts was too crazy. What was this?!

"Congratulations, Bear King! Good wishes, Bear King!" A series of loud roars rang out as all the Xuan Beasts joined their voices in congratulations. They were actually extremely used to these kinds of scenes and did not feel like anything was out of the ordinary...

Big Bear grinned widely and strutted forward proudly as he held Little Dance's large paw. Walking towards the crowd, he clasped his paws and returned the courtesies. "Many thanks, brothers! From today onwards, this old bear also has a wife!"

Little Dance followed behind him, her head lowered shyly. Behind her, her short stubby tail wagged lightly. Based on her expression, she did not seem any bit like someone who had been forced into a marriage. Instead, she looked radiant with happiness.

Earth Cracker narrowed his eyes and roared lightly with admiration. At the same time, his eyes darted across the crowd as if he was searching for something... A moment later, he sighed and came over to Jun Mo Xie, shaking his head. "Sighs, brother-in-law, look at this... that bear really has some great luck... that new bride of his is really good looking... What a pity, why can't a beauty like that be born in my tiger tribe?" His tone was obviously laced with envy...

Jun Mo Xie was taken aback once again. Narrowing his eyes, he looked at Earth Cracker with some disbelief. "Lucky? Really good looking? A beauty?... Earth Cracker, you're not running a fever, right? What the hell are you talking about?"

"Tsk... brother-in-law, you're really... Look at those glossy black fur on that bear chick, see how it glistens... the golden fur ring patterns on her fur, it's so beautiful... And look at that figure, it's so healthy! There's her features also, that nose is so pointy... keke, and those eyes, those are the eyes of a true bear ah, her snout is also really wide... keke, and those ears on her head are so straight and round. And look at her hips; that's definitely the finest of the finest ah, there wouldn't be any problems giving birth to a bunch of little bears... the only thing that's slightly imperfect is that her tail is a little bit short...

"Still, it's not bad already, the main thing is that perfect rear end... I've long heard that the Black Gold Bear tribe produced the number one beauty of Tian Fa, and now that I've seen it myself, it's indeed true. There's a phrase that I'm not sure how it goes... oh, right, it's 'knowing a person by repute is not as good as seeing him in the flesh, and the actual person far surpasses the reputation'... just looking at this makes me envious. How did Big Bear get so lucky? Truly, silly people have their own silly fortune..." Drool rolled down the side of Earth Cracker's mouth as he commented. From the way he said it, if Big Bear hadn't acted so fast, he would have moved to fight over the beauty himself...

Jun Mo Xie was stupefied for a long time, and his lips twitched heavily. "Earth Cracker, you rascal, are you sure that you're speaking from the heart? The number one beauty of Tian Fa? She is Tian Fa's number one beauty?!"

"Brother-in-law, what are you talking about? Is it surprising that she's Tian Fa's number one beauty? Unless you think that eldest sister is a beauty? She doesn't have any figure, and her butt is practically flat. How will she bear any children? When the time comes for your child to come out, you'll know how difficult it is!"

Earth Cracker looked at Young Master Jun in a manner as if he were looking at an idiot. Shaking his head, he advised sincerely. "Brother-in-law... cough cough, although all of us are very impressed with eldest sister, and her strength is truly extraordinary, and everyone respects her from the heart... her looks are truly a little too lacking! Although Snake King's figure is also not very good, she's still a snake. No matter how she changes her form, she can't escape from that skinny appearance. But with eldest sister's high cultivation, why can't she make herself better looking? Brother-in-law, I have to say, your aesthetic standards are truly a little... unique..."

"Brother-in-law ah... it's not that this brother wants to talk against you, but marrying my eldest sister is really quite a waste for a man like you..." Earth Cracker shook his head and snorted in an exasperated manner. From the way Jun Mo Xie heard it, his words even had a tone that sounded like 'this slow moving product that had been stored for many years was finally taken'...

Huh? A girl like Mei Xue Yan actually isn't considered beautiful? That peerless beauty and unparalleled distinguished air of elegance and coquetry... is not considered beautiful in Tian Fa Forest? From what Earth Cracker was trying to say, she is even a 'leftover girl'...

Marrying my eldest sister is really quite a waste for a man like you...

Do you all know that if your eldest sister went out as she is to look for a husband, all the men in the Xuan Xuan Continent would immediately flood into Tian Fa Forest, flattening it!?

Hold on... if even a beauty like Mei Xue Yan is an ugly woman in your eyes, even to the extent of implying that I was blind... doesn't that mean that I'm ugly to the point of being unwanted as well?

Jun Mo Xie's tongue was completely tied for a moment. He had been stabbed by this soft blade so badly that his world was spinning, and his hands and face were pale. Knocking his head against the table, he was nearly on the verge of tears...

Heavens, just kill me... I don't want to live anymore! I don't have the face to live on anymore!

Looks like in the eyes of these Xuan Beasts, I'm actually just a pretty boy, so doesn't that mean...

Young Master Jun was completely speechless... it looked like the beauty standards of Tian Fa Forest were completely opposite of those in the outside world!

Just at this time, Big Bear stormed over and stared fiercely at Earth Cracker. "Little fellow, what nonsense are you speaking? How is eldest sister not beautiful? How is brother-in-law blind? What is the meaning of this?!"

Earth Cracker blinked innocently. "Fourth brother, I didn't say anything, I was only telling brother-in-law what we think of eldest sister, you also..."

Big Bear instantly smacked a large paw against the tiger's head as he hollered, "I dare you continue speaking nonsense!"

Placing his head lower, he continued in a low voice. "You idiot, are you trying to ruin the happiness of our virgin eldest sister? Do you want to have her left on the shelf forever? It's a rarity that brother-in-law does not mind eldest sister, and the two of them are matching so well. Both of them have the same looks. It wasn't easy for her to find a match and now you want to mess it up?"

Earth Cracker was completely stunned with realization. "Fourth brother, I didn't mean it like that, I really didn't mean it like that, I was just..."

Chapter 809: A Matter of Pressing Urgency!

Big Bear smacked him across the head again. "You're just what? You're just a piece of sh\*t stirring rod! Hurry up and shut your mouth for me. If you continue spouting your bullsh\*t, I'll make sure you feel very horrible later on!!"

The Tiger King thoroughly collapsed and was on the verge of tears!

The Bear King thought his voice was soft, but with his natural speaking volume, even if he lowered his voice to a whisper, it was still the same volume as a normal person's voice. Was there anybody he could hide his voice from, except the faraway Xuan Beasts?

Not a single word was missed. As the conversation trickled into his ears, Young Master Jun was completely dumbstruck. Ah? What? The fairy-like existence in his heart was actually an unwanted woman in Tian Fa Forest? Surely that was too ridiculous!

Big Bear turned and looked sheepishly at Young Master Jun as he hurriedly tried to remedy the situation. Walking over with the demeanor of a respectable family man, he wrung his hands and smiled. "Brother-in-law, don't believe him, that Tiger King doesn't know anything at all and likes to pretend as if he knows... Actually, eldest sister is considered quite beautiful... look, this is my wife, and she's only just so-so... She's called..."

He suddenly turned around. "What's your name again?"

"Little Dance..." the huge bear answered shyly.

"Exactly! My wife is called Little Dance, she's just passable only, definitely not some Tian Fa's number one beauty... Brother-in-law, this... I'm the first younger brother to get married... the greeting gift..." Big Bear opened his huge hairy paws and stretched it out like a debt collector demanding payment.

"Take it!" The tormented Young Master Jun hurriedly took out three pills and slapped them onto Big Bear's palm. Big Bear looked on stupidly for a moment before reacting. "Brother-in-law, are you playing with me? These can only be eaten at the peak ninth level Xuan grade... if my wife eats it, she'll explode and I'll be single again..."

"Stupid! As long as you consume it in the correct order, there won't be any problems. Let her eat the Heaven Vitality Pill first, increasing her cultivation by 50 years' worth, then after you help her consolidate her cultivation, wouldn't she be at the peak of the Ninth level? Would there be any more problems for her to consume the other two pills at that time..." Jun Mo Xie enlightened the dumb bear. He truly felt somewhat depressed in this moment. This was completely unexpected. Who would have thought that Big Bear would suddenly get a wife out of nowhere? And this speed was simply too quick! The true meaning of light speed...

"Good good good..." Big Bear smiled happily: "Brother-in-law is indeed smart! Your personality is really a good match for my eldest sister!" Seeing that the other Beast Kings had also turned their eyes over and their ears perked up, Big Bear stared at them sternly. "What are you all looking at? You can't escape your share as well! Hurry up over here and greet my wife! Where's your demeanor as her uncles!"

In just one hour, this fellow had actually settled all the wedding gifts and the dowry. What an impressive person...

Within a short time, Jun Mo Xie had already finished distributing the pills before quickly slipping away. There was no choice but to escape ah, with this many Xuan Cores looking at him so passionately...

Only Long Crane's voice remained behind. "The matter about the pills is the greatest secret of our Tian Fa Forest! If it's leaked outside, Tian Fa will no longer have a day of peace from now on! Furthermore, it will implicate eldest sister and brother-in-law. This secret must be guarded as tightly as a sealed bottle! If anyone dares to leak anything out, they will become the common enemy of our entire Tian Fa Forest!"

Jun Mo Xie smiled and dove into the Hongjun Pagoda. The instant he entered, he saw a ball of white shadow fleeing about, raising howling winds in the air. At times, the shadow was like a whirlwind, at times it was like the flowing clouds. At times, it was like ten thousand flowers blooming, and at times like golden lightning descending from the sky...

Mei Xue Yan was practicing her new techniques, and Jun Mo Xie simply watched quietly from the side. After a while, he furrowed his brows lightly...

A while later, Mei Xue Yan also discovered his presence. With a light sou sound, she darted under the tree and panted lightly.

Jun Mo Xie smiled warmly and walked over. He stared at her for a moment, until she turned her head away shyly. Chuckling lightly, he reminded seriously. "These moves of yours are indeed powerful, but it's best that you only practice it roughly for now, and only focus on it in detail after you regain your human form... Afterall, your current form is very different from a human body. If you grew too accustomed to the technique while in this form... you will instead find that you cannot display the full strength of this technique in the future... habit makes natural. Do you understand the meaning of these words?"

Mei Xue Yan fell into deep thought and her body shivered lightly as her eyes lit up. Then, she raised her head, meeped lightly, and nodded.

Jun Mo Xie's words had actually managed to resolve Mei Xue Yan's greatest confusion for a long time!

Why was it that the high level techniques passed down from the seniors of Tian Fa unable to fully display their power despite the Xuan Beasts practicing it from a young age? Why was it so underwhelmingly different from the levels of power described in the ancient records!

Although it wasn't to the point of being completely useless, it always felt like something was missing.

So this was the case!

The crux of the matter laid in the words 'practicing from a young age'!

The seniors that founded Tian Fa were only able to create their own profound techniques after they had attained the human form. The techniques they created at that time were also naturally made with the human body as the foundation. It was also the most effective to practice in that form!

But as Tian Fa's seniors, they couldn't possibly be passing down their valuable knowledge and experiences to outsiders. So naturally, they were left to Tian Fa Forest! The later generation Xuan Beasts were not in human form when they were born, but high grade Xuan Beasts still had the qualifications to train in these techniques from a young age... like that, they practiced doubly hard until they attained their human form...

And it was the habits formed from their hard practice that unconsciously ended up inhibiting their ability to use the technique to its greatest potential!

Beasts and humans were two completely different concepts! But the habits and execution style of the techniques that they had formed after so many years of practice would not simply change that easily!

Just like that, everything was naturally wrong...

How, then, could they utilize the technique to its full potential?

Such a simple problem had actually confounded Tian Fa for so long!

Only until today was it unintentionally solved by a single sentence from Jun Mo Xie...

Mei Xue Yan's lively little eyes gazed upwards at Jun Mo Xie. In them was a look of warmth and gratitude...

After some time, that cute little figure dashed off and disappeared. Not long later, she returned again, carrying a bunch of sand which she scattered on the stone surface. This was from the last time Jun Mo Xie sucked the water into the place.

"You want to say something to me? Ah... I'm such an idiot." Jun Mo Xie instantly realized. After being reverted back to her original form, she had lost her ability to speak. But that didn't mean that she couldn't read or write. As for listening, she was definitely capable of doing that!

Mei Xue Yan rolled her eyes lazily. You still need this lady to teach you something so simple? How stupid!

Although Mei Xue Yan hadn't said the words, Jun Mo Xie could clearly see it in her actions. In that moment, he couldn't help but to chuckle bitterly...

"I want to remind you about something." Mei Xue Yan scratched out a sentence neatly on the sand.

"What is it?"

"This is about Qing Han, Xiao Yi, and the others..." Mei Xue Yan paused for a moment as if contemplating her words. Finally, she wrote down: "Art is long and time is fleeting... Beauty is a fragile good!"

Art is long and time is fleeting? Beauty is a fragile good? What's the meaning of that?!

Jun Mo Xie furrowed his brows and asked, "Are you asking me to hurry up and marry them?"

“No!”

“Then you...”

This time, Mei Xue Yan did not stop as she continued writing fluidly. From the looks of it, she had considered this matter for a long time. “I believe that in at most a few years’ time, I’ll be able to return to my previous peak, possibly even surpassing it. Your cultivation is also improving by leaps and bounds everyday. With our cultivation, staying together for a few thousand years is not really much of a problem...”

“But Qing Han, Xiao Yi, and the rest are not the same as us. Their essence strength is too weak, and even extending their lifespan is not possible within a short period of time. Not to mention them maintaining their figures and beauty... There are also limits to the usefulness of the pills... Although their talents are considered good, I’m afraid that the day they manage to cultivate to the Spirit Xuan or Supreme realm will be very far away in the future. At least, it will be something difficult to achieve without at least half a cycle of 60 years...”

“Perhaps in a few years, we may still retain our youth, but they will be no longer young... At that time, even without me saying anything, they won’t continue staying by your side... The prime of a lady lasts for at best five to ten years... if things reach that point, whether it is to you or to them, it will be the most cruel and deadly blow...”

Mei Xue Yan tilted her head and looked at Jun Mo Xie with her beady eyes. A moment later, she continued writing: “I don’t wish to have you endure that kind of torment at that time... Because if there’s any departure, it will be for a lifetime...”

Mei Xue Yan had stopped writing at this time, but Jun Mo Xie had already become as silent as a wooden chicken!

All along, Jun Mo Xie had always been brooding over the matter of longevity. His progress along this area had also proceeded pretty well thus far, so he had never considered this problem at all. He thought that as long as one was alive, they would always be able to keep their love!

But he’d completely forgotten about one more thing in this world. A woman would rather die than to lose their beauty!

To beautiful girls, if they had to make a choice between their beauty or their life, most of them would likely choose the former without any hesitation!

This was also where the saying “love beauty to the point of death” came from!

Even if one could gain everlasting life, if they were old and ugly while their beloved was still youthful and attractive, wouldn't that simply become the greatest torture to them?!

How many years did the prime of a woman's beauty really last? Even saying five or ten years was a high estimation...

Jun Mo Xie could stop growing old, and Mei Xue Yan could also do the same. But... what about Guan Qing Han? And Dugu Xiao Yi? Even his mother? They couldn't!

Right now, Guan Qing Han and Dugu Xiao Yi were at the prime of their youth and could be considered the great beauties of the world. But, what about five years later? Or 10 years later? How about... 30 years later? What would they look like at that time?

Chapter 810: Seven Colored Tree, Exquisite Lotus

If their beauty faded away because of age, seeing how proud Guan Qing Han and Dugu Xiao Yi were, how could they possibly remain unmoved when they saw Jun Mo Xie and Mei Xue Yan still youthful and good looking? Tragedy was practically ensured!

Although Jun Mo Xie could disregard that, the girls could not! But if they really left, how could Jun Mo Xie possibly accept that? But even if he couldn't accept it, he still wouldn't be able to stop them at that time!

Because...

Since ancient times, beauties and famous generals did not grow to let the world see their heads of white  
1 ! This was the pride that all peerless beauties shared!

Once they lost this pride, it would mean that their hearts had died...

Especially when compared with their beloved who had everlasting youth...

If they waited until they'd cultivated to the Spirit Xuan level before eating the divine pills, improving their cultivation further, increasing their lifespan, and allowing them to preserve their looks using their cultivation... in that period in between, their beauty would have already faded away.

Because cultivation was not something that could be done so quickly!

Although Mei Xue Yan's words were difficult to hear, the time limit she had given just now was already the most conservative estimate. At least half a 60 years cycle... that meant 30 years! And this was with the assumption that Jun Mo Xie could provide the best and most valuable pills to help them.

The moment Mei Xue Yan brought this matter up, it had woken Jun Mo Xie up like a bucket of water over the head, bringing his attention to this pressing issue!

This wouldn't do and that was also impossible! What should he do then?

Jun Mo Xie furrowed his brows tightly and stood up as he paced around the area with his hands behind his back, deep in thought... But no matter how he thought, he couldn't come up with anything feasible!

Unknowingly, his eyes swept across the Hongjun Pagoda. All of a sudden, an idea lit up in his mind.

Pill recipes! Right, the pill recipes! There were so many pill recipes in the Hongjun Pagoda, so surely there were some pills suitable for retaining a woman's beauty...

The novels he had read in his previous life often mentioned pills that didn't raise cultivation, recover essence Qi, or improve one's skills. They were seemingly worthless, beautification pills that could only

maintain a person's looks. Wasn't this exactly what he needed the most right now? Back then, he had always wondered why such a seemingly worthless type of pill would be so sought after by millions of people in those novels, going as far as to obtain them with sky high prices...

So this was the reason!

Jun Mo Xie was like a drowning man who had suddenly grabbed onto a life-saving straw. Without any hesitation, he burst into action as he pored over the pill recipes in the Hongjun Pagoda. Ever since he had gotten this thing, this was the first time he had searched so seriously...

After an unknown amount of time, he finally dug out a suitable pill recipe. However, it was better if he hadn't found anything. Because the result of this search had caused his heart to sink to the deepest abyss. This bit of hope was the same as having no hope!

Extreme Yin Beauty Retaining Pill, no cultivation restriction. Consuming this pill will retain one's youth forever, remould their meridians, and construct a Pure Yin female body, granting immortality and immunity to the wheels of samsara! Refining requirements: Ninth level of the Hongjun Pagoda! Ingredients: Udumbara Grass, Ageless Root, Timeless Vine, Rootless Flower...

Restriction: Only suitable for consumption by females!

Ninth level of the Hongjun Pagoda!

How many difficulties had he gone through to just break through to the fifth level of the Hongjun Pagoda! From the looks of things now, each level of the Hongjun Pagoda was inestimably more difficult to break through than the last! The amount of time needed was far out of sight...

Apart from that, the ingredients required could not even be found in Tian Fa Forest, or even Nine Nether First Young Master's abode! But... the most crucial part was still—

Ninth level of the Hongjun Pagoda!

“This... aren’t you toying with me? Is this still considered hope?” Jun Mo Xie scratched his head with frustration. “Ninth level! Even a God would not be able to cultivate to the ninth level within 10 years!!!”

Extreme Yin Beauty Retaining Pill, retaining one’s youth forever, remoulding their meridians, and constructing a Pure Yin female body... Jun Mo Xie didn’t even know what a Pure Yin body was. But based on the descriptions, this pill was definitely nothing ordinary! It was definitely not something that those cosmetic pills in the cultivation novels could compare to!

However, I rather have a good old regular cosmetic pill! Why must the same type of pill in the Hongjun Pagoda be such a high leveled one?!

Immortality, immunity to the wheels of samsara...

This meant that eating a single pill would allow one to become a deity!!

How could such a miraculous pill be easy to obtain?

In truth, this Extreme Yin Beauty Retaining Pill was second, only below the first placed Nine Revolutions Golden Pill on the list of pills!

Nine revolutions will of the gods; Nine revolutions creation; Nine revolutions nine heavens; Dancing lightly in the Moon Palaces!

Mei Xue Yan looked at Jun Mo Xie silently and after a long time, she finally sighed and wrote a few sentences in the sand. “If it cannot be done in 10 years, how about 500 years?”

“500 years? Xue Yan! Do you know of any other methods? You know another way, right?” Jun Mo Xie looked up with startlement and asked urgently.

“According to the knowledge passed down by the ancestors of Tian Fa, there’s a Seven Colored Tree within the Misty Illusory Manor! The Seven Colored Tree produces a kind of seven colored fruit, called the Seven Colored Holy Fruit... And in the Heaven Saint Palace of the three Holy Lands, there’s a Sacred Lotus Pond. Within it, there’s a stalk of Nine Segment Exquisite Lotus... Consuming one Seven Colored

Holy Fruit and the petal of the Nine Segment Exquisite Lotus together would increase a person's cultivation by 500 years and retain the appearance of the person for 500 years!"

Mei Xue Yan had obviously spent a lot of effort to write all this stuff down. She'd even stopped seven, eight times in between, as if she were unwilling to write it out. But in the end, she still finished it.

After she finished writing that, she hurriedly continued. "If not because you had that mysterious movement technique, I would definitely not have told you about this. But you need to know one thing: those two places are both extremely dangerous places. The risk of entering those places is even greater than our Tian Fa Ferocious Land! As for the tree and the lotus, they are the most precious treasures of those places!

"I really don't want you to go and risk yourself, but I can tell... the importance of them in your heart. Furthermore, there's also your mother, your Third Uncle, and the rest... If we don't do anything about it, in the future, you will face many heartbreaks and farewells with friends and family... A long life will in the end turn into endless pain and regrets... Even if you have a heart of stone, I'm afraid you won't be able to endure the feeling of having to watch powerlessly while people around you die... Sooner or later, your body and mind would not be able to take it... I don't wish to ever see that day...

"But I also don't want you to risk yourself... So, please promise me that unless you have full confidence, do not attempt to steal the treasures! At least... you must wait for me to recover my strength first. Sister Qing Han and the rest can still wait for a few more years. Once I've recovered my full strength, I will go along with you. That way, no matter the results, we will be together, and my heart will be at ease..."

After writing all this, Mei Xue Yan stared at her writing for a long time before she slowly lifted her head. She looked deeply at Jun Mo Xie and wrote again on the ground: "PROMISE ME!!!"

Jun Mo Xie sucked in a deep breath of air and finally nodded. "I promise!"

A serious expression appeared in Mei Xue Yan's eyes as she meeped lightly and continued writing. "I didn't want to say this originally... but right now, we're already at an irreconcilable point with the three Holy Lands. Even if we did not snatch their Nine Segment Exquisite Lotus, they would still seek to consign us to death... As for the Misty Illusory Manor, they had already revealed their greedy ambitions back then with the Beguiling Mist. Our two sides are already destined to be enemies..."

Jun Mo Xie smiled calmly and nodded. "Looks like our enmity with these powers is truly f\*cking fated... Even if we don't want to become enemies, it's impossible..."

He closed his eyes and spoke softly. "500 years... is sufficient!" As he said that, he clenched his fists into a ball. "The Seven Colored Tree and the Nine Segment Exquisite Lotus... are mine now!"

Mei Xue Yan looked at him silently as her eyes narrowed into a cute crescent shape. "Those girls are all good ladies. You must not let them down... Mo Xie, I can also see that that Han Second Young Miss is also very interested in you... There's also Princess Ling Meng. Your charm with women is really not low, huh..."

Jun Mo Xie smiled awkwardly. "To be honest, the one I like the most is still you..."

Mei Xue Yan's little body straightened up immediately and she sat down cross-legged. Her two snow white paws were crossed in front of her chest and she tilted her head with a 'there's no way I'd believe you' kind of expression.

Unbeknownst to her, this posture was adorable to an extreme level... Paired with the expression she was making right now, it was simply so cute that it could charm others to death!

Jun Mo Xie's face froze in an instant, and with a swift grab, he caught her and started kneading her soft fur affectionately. Mei Xue Yan cried out with shock and hurriedly escaped from the claws of the devil, fleeing far away...

Jun Mo Xie roared with laughter, and his gloomy mood was completely swept away...

After some time, he once again dove into his sea of consciousness and began searching through the pill recipes again. He had only just broken through to the fifth level, so there should be some new pill recipes that he could use.

After searching for a while, he discovered that there were actually three pills that were suitable for him to refine at the fifth level.

Grade 3 Pills.

Void Extremes Pill, Profound Extremes Pill, Heaven Extremes Pill...

After looking through the properties of the three pills and the refining requirements, he slapped his thigh and instantly decided to refine them!

It was impossible to not be moved. The effects of these three medicinal pills were simply too alluring!

Void Extremes Pill: upon successful refining, will revert to a liquid state. Can repair and nourish the meridians, greatly increase the flexibility of the meridians, and expand the size of the dantian. From what Jun Mo Xie gathered from the information, this pill should be restricted to those at Sky Xuan and above to consume.

The requirements on cultivation level were even lower than the previous three pills by an entire level!

Profound Extremes Pill: can heal any and all injuries, flesh or bones, and even bring a person back from the jaws of death. Does not distinguish between internal and external injuries. Once consumed, all injuries will be reverted as new! Regardless of cultivation level!

As for restrictions, the Sky Xuan level was still the lowest requirement.

Heaven Extremes Pill: can be consumed by Sky Xuan and above. Each pill will grant an increase of one 60 years cycle worth of pure energy. Each person is limited to three pills, with at least three months time in between! Note: This pill can only raise cultivation energy, and cannot advance the level of the Spirit!

In other words, an expert at Sky Xuan level or above could, within a period of nine months, consume three Heaven Extremes Pill, gaining 180 years worth of cultivation! And there were no side effects at all!

Jun Mo Xie was truly somewhat speechless at this! This was simply a pill that defied the heavens!
