Chapter 18 Lilly Will Not Surrender In A Fight

Winona looked at Lilly's sparkling dress. She was in awe as it was her first time seeing such a magnificent dress. Such a pretty dress should have been worn by Hannah instead.

"Lilly, I'll get you another one next time," Winona said. "No! I want that one!" Hannah exclaimed.

"Isn't that an exclusive dress from GYFY? It's the only one available as it's specially tailored. If it weren't for Lilly, that dress would've been Hannah's," Helen said.

Winona wanted to refute that but she realized that Helen's words were true. The Crawford family used to treat Hannah like a princess. However, they shifted their attention and care to Lilly when she arrived.

Hannah was left with nothing as all of her belongings were given to Lilly. Winona was upset as they were treated unfairly.

The Crawford family had forgotten that they purchased a dress for Hannah similar to Lilly's. Both were starry dresses of different styles but the prices were identical.

Hannah was on the verge of crying after hearing Helen's words. As Winona was about to bring her into her room, she rushed downstairs.

"Hannah!" Winona exclaimed as she chased after her.

Lilly was sitting at the table with other children as they were waiting for the cake. Amongst the girls sat a young boy. It was Drake. He was Lilly's older brother.

Drake was Anthony's eldest son. He was there to look after Lilly as instructed by his father. He was seemingly cool as he was expressionless just like Anthony.
