

Eight Uncles 96

Chapter 96 How Could Something He Should Do Become an Advantage?

At midnight, it was easier to encounter ghosts, not to mention that Rebecca walked alone for more than two hours.

Lilly asked, "Didn't your husband come to find you?"

Rebecca shook her head. "He didn't even know I went home. I cried as I walked and felt hopeless. What's the point of me earning so much money?"

Lilly was full of confusion. "Why didn't you tell him?"

Rebecca sighed. "I don't want to say it. That's useless."

Lilly and Pablo were speechless again.

Anthony frowned. Although he would never get involved in other people's business, he could not bear it anymore.

He asked coldly, "Why didn't you resist?"

What was the point of making money if Rebecca still needed to swallow her anger? The meaning of working hard to make money was to let oneself not be aggrieved and to live happily. When someone wanted to control her, she could hit him back hard.

Pablo crossed his arms and shook his head. "She has to suffer if she doesn't divorce."

Lilly vaguely understood Pablo's words, then said to Rebecca, "You can divorce!"

When Lilly mentioned divorce, Rebecca hesitated and answered, "Uh, my husband is still good. At least he didn't go out to find another woman..."

Her reply made people speechless. Pablo did not know what to say.

Lilly asked strangely, "Aunty Rebecca, isn't this what he should do?"

Two adults got married together. It was the right thing to abide by the agreement.

Lilly remembered she watched a couple's wedding ceremony on TV shows. The man solemnly swore to love the woman and be faithful to her. No matter if she was poor, sick, or disabled until she died.

How could something he should do become an advantage?

Lilly felt that she was still too young. She could not understand the adults even if she tried her best.
