

INTRODUCTION

"Do you believe in angels? Because I think you might be one."

"... I don't think I am, sorry."

WHEN A COMIC book shop opens near the lo of Jessica Day, Winston Bishop, Nick Miller, and of course the legendary Schmidt, they're all eager to visit the place. Alright, that's a lie, considering Jess has to pretty much drag the men into the store but once they enter the small place, they come face to face with what is most likely the greatest thing to happen to them in a long time — Elise Stevens, the owner of the shop, shy as hell, but cute as a button. ^d⁰

And it seems, even though he denies it many times, Schmidt might be the one to grow the fondest of her.
