

Elegant SS 1111

Chapter 1111: Witch master ambition

"The Great Witch World."

The Witch Master finally took it seriously. He used his fascinating skills to create a world in which countless creatures of the Witch race were born and died.

This scene is terrible.

"boom!"

However, Ye Fan's stunning punch exploded the "world".

That's right.

Punch directly.

The world collapsed and disappeared.

Energy overflows.

In the territory, many witch creatures were affected and died.

"hateful!"

There are many detachers of the Wu Clan, and there are even more than a dozen, which is an astonishing number.

It will shock the whole world if it spreads out.

However, at this moment, these detached people are very aggrieved, they can't do anything, they can only watch the energy aftermath and want to impact from all directions, causing huge damage and loss.

"Damn Ye Fan!"

The detached have their eyes cracked.

At the same time, there is also this fear, that General Ye Fan can break the witch master's unique knowledge, this is terrible.

Jiang Wudao was also horrified.

He ran away.

Hiding far away.

After Ye Fan punched it, it consumed a lot. The strange thing was that the Sorcerer didn't move. He looked at him coldly and said, "Ye Fan, you are very good, beyond my expectation."

"Why, did you agree to the deal?"

"Your strength is enough to be respected by me, and I also believe that you can escape. If the matter of the Heavenly Court Ruins is spread, it will be very detrimental to my clan."

At this time, Jiang Wudao rushed over and shouted, "Master, you can't let this guy go. We can definitely kill him if we join hands."

The witch master ignored Jiang Wudao, staring at Ye Fan, and said, "Are you sure you can keep the secret? I need you to swear by the way of heaven."

Ye Fan immediately made an oath.

The witch master said: "Fine, you go, take the elves and go."

Ye Fan always felt something was wrong.

But unexpectedly.

He was very careful, watching the surroundings with Yin and Yang Tianyan, and then transmitted the voice to the Elf Queen to let the Elves come out.

The elves are still very afraid.

But in the secret realm, he was still waiting to die. If he came out, he might be able to escape a few.

It is good to leave a trace of incense.

The Elf Queen came out with the clansmen, and they were terrified. After they came out, the eyes of the powerful Wu clan and Jiang Wudao were all worthwhile.

This was the last elf in the world, and it was actually obtained by Ye Fan.

hateful!

Jiang Wudao was jealous.

He couldn't help but grabbed to the elf queen.

"court death."

Ye Fan shouted angrily.

Decapitation and Yin Yang Dao punches out.

Jiang Wudao was shocked.

Wu Yizhang broke these two forces apart, and shouted: "Wu Dao, retreat."

Jiang Wudao could only take orders.

"Hurry up, before I go back."

The shaman's voice was cold.

Ye Fan took a deep look at the Sorceress Lord, and rolled up all the elves and galloped away.

Jiang Wudao was not reconciled, and asked, "Master, why did you let Ye Fan go? Didn't you show your full strength?"

The half-step detachers also rushed over.

They are very puzzled.

The witch master has never been a compromiser. Why did he compromise in the face of Ye Fan, is it possible that Ye Fan is really so strong, so that the witch master feels that he can't suppress it?

"Let Ye Fan be proud of it for a while. I have something to do. This is not my body."

When the words fell, the wizard collapsed.

Jiang Wudao, and even the half-step transcendence, are standing upright, my God, this is simply a statue.

Good guys.

A dharma image is enough to fight Ye Fan equally, how strong the real body of that witch master is.

Could it be that he is already a monk in the realm of the sea of suffering?

Where is the Sorcerer's body? Isn't it in the territory?

...

A certain place in the Tianting ruins.

It's very mysterious here.

Except for the witch master, no one can come here. At this moment, the witch master opened his eyes and snorted coldly: "Ye Fan, good boy, if it weren't for me to be able to separate, how could you allow you to be presumptuous."

In front of the witch master, there were glass shards with large palms, but there was a strong imperial spirit and imperial prestige.

This is Emperor Wu.

The Sorceress Master was sacrificing glass shards and wanted to refine it. He was very excited, "The shards of the Haotian Mirror, this is a godless thing."

"It is rumored that in ancient times, this was a mirror hung on the door of the Great Emperor's Palace, Lingxiao Treasure Hall, with the ability to perceive the heavens."

"As long as I refining, I can use some of the abilities. With the fragments of the Clear Sky Mirror, I will be able to find more Heavenly Court ruins."

"The ancient heaven, the thirty-third heaven, and now the ruins of the first heaven have been found, and there are still thirty-two heavens."

"Unfortunately....."

The wizard sighed suddenly.

"Thirty-three heavens, every heaven has a heavenly treasure, which was created by the emperor. Rumor has it that the aggregation of the 33 heavenly treasures will give you the opportunity to become an emperor."

"Because of this, the ten thousand tribes conquered the heaven at the end of the ancient times and wanted to seize 33 Heavenly Treasures, but they were all missing."

"I don't know if this Heavenly Treasure is in this ruin or not. If it can be obtained, it will be perfect. Even if someone else occupies the ruins here, I can take it back instantly with the help of Tianbao."

"As long as I am in this ruins, when I refine the fragments of the Clear Sky Mirror, I will definitely be able to find it."

The witch master no longer thought about it, and tried his best to refine the Haotian Mirror fragments.

...

Ye Fan left the site with the elves.

Came to the outside world.

"Wow."

The elves are feeling the beautiful environment of the world, they are not happy, they are absorbing the essence of the world crazy, and they seem to be very hungry and thirsty.

Not long.

The Elf Queen opened her eyes.

Ye Fan discovered that in a short period of time, the Elf Queen had broken through repeatedly and had achieved the pinnacle overlord realm, which was considered a good powerhouse.

"Thank you, Lord Ye Huang, for your rescue."

"You don't need to be polite, you help me get rid of the curse, save you, it's just a deal. However, your race is too weak, and once targeted, it is easy to be enslaved.

The Elf Queen said anxiously: "Master Ye Huang said that our Elves are really too difficult. Once discovered, we will be bullied."

"Master Ye Huang, I wonder if we can follow you? You are so strong and upright, we are willing to follow you."

Ye Fan thought for a while and readily agreed.

Who would refuse the follow of the elves? With so many beautiful and handsome guys, it is very seductive to look at them every day, and they feel happy.

"Let's go, follow me to Kunlun."

"Now that the environment of the world is getting better and better, all major ethnic groups will be born, you can adapt as soon as possible."

Back to Kunlun base.

When they saw tens of thousands of elves, everyone was shocked.

Ye Fan said: "Create a territory in the base and give it to the Elves, and give them advanced weapons and equipment. Queen, if anyone dares to bully you, just take it."

The Elf Queen smiled and said, "I believe everyone will get along with each other in harmony."

"Then you go to rest first, and contact me if you need it." After setting up the elves, Ye Fan returned to the central hall.

Min Dong and others gave a thumbs up.

"Boss, it's still your cow. I went out and brought back so many elves. Those girls are really beautiful. Ask, the elves are not far away from intermarriage with foreigners."

"Let's take a moment, people just came here, don't scare them. The elves have great purification techniques, this magical power has a great mystery. The queen of the elves said that the great purification techniques can remove almost all negative factors and even purify the blood."

"Elf races and foreign races intermarry, the blood will be impure, but through the great purification technique, blood impurities can be purified to form a purely fragmented elven race."

"So awesome?"

"Yes, in the future, I will search for a lot of physical origins to transplant you, but this is not pure, then the great purification technique will have room to use."

"Explain, no one is allowed to disturb the elves. If they have any needs, try their best to satisfy them."

"clear."

Ye Fan inspected the base and was satisfied with the orderly construction of the base.

Now that Fang Rui is a half-step transcendence, the science and technology optical brain has been re-developed, and he has begun to study materials for manufacturing new weapons.

At the same time, genetic engineering is also being studied in depth.

Power fighters are also being cultivated.

When the sky opened, Ye Fan severely injured the Lord of the Gods and suppressed all the ten major gods. Now they are all locked in the base, waiting to be studied later.

The world of supernatural powers started the battle of Shenwu, but it also quickly lost.

There is no way, after the opening of the sky, the power of the Daxia martial arts world has doubled, which is far beyond the ability of supernaturalists.

This can tell which one is stronger and weaker.

Cultivation is king.

Ye Fan sent the message, and after a while, the young master of the Nether Clan came over with a three-eyed golden-eyed beast.

Chapter 1112: Legacy of Jianzong

The three-eyed golden-eyed beast, that is, Jiantaiah, the descendant of the ancient sword sect.

Before Jiang Wudao broke the base, Jian Tai'a escaped and was suppressed by the strong Nether clan.

"Ye Fan."

Seeing Ye Fan again, Jiantaiah's eyes were complicated.

He is still only the pinnacle overlord, but Ye Fan has completely transcended, one in the sky and the other underground.

Once upon a time, he and Ye Fan were still about the same level.

Things are wrong in a blink of an eye.

Ye Fan said coldly: "I need a great reincarnation technique."

This magical power was acquired by the exchange between Jiantai A and Buddhism, which can be used for grafting and transplantation, and it will be of great use in the future.

In addition, Buddhism, over there, Ye Fan plans to go there.

If he wants to practice the Great Purdu technique, he has to observe the Buddha's relics, and he has to **** it from the Buddha's master.

"I give you."

Jian Tai Ah did not refuse, and passed the Great Reincarnation Art to Ye Fan.

Now he can't resist at all.

Ye Fan is completely detached and scary with strong mental power. He can completely invade her spiritual consciousness and obtain his memory.

Ye Fan didn't do this, he had already given him a way to survive.

"I remember you know how to deal with blood."

Sword Tai Ah trembled.

He gritted his teeth and said in a deep voice: "Ye Fan, you want to use the Great Blood Deed to make me surrender?"

"I can't be detained forever, but I can't be released, so I must die or surrender."

"You choose one."

Ye Fan's breath oppressed, making Jian Tai A shudder.

finally.

Jian Tai'a's breath languished, the sharp edge in his eyes disappeared, and he was softened.

"I want to live."

"Very smart." Ye Fan said, "Three-eyed golden-eyed beast, ancient alien species, future achievements are limitless, there is hope when you live. I hope you will be strong enough in the future to break free of my control."

Ye Fanshi unfolded after obtaining the Great Blood Deed.

Jiantaiah signed a blood contract.

"Owner."

Jian Tai A knelt on the ground, extremely pious.

Now Ye Fan is his master, he is completely obedient to Ye Fan, without any intention of betrayal.

"From now on, you are the guardian beast of the Tianzun Temple."

"Yes."

"Cultivate hard."

"Master, these are some secrets inherited from the ancient sword sect, hand it over to you."

A message entered Ye Fan's mind.

He learned the secrets of the ancient Jianzong inheritance, and at the same time received the Sword Sect's holy king's order.

"It turns out that to open the core inheritance of the sword sect, you need the holy king's order and the supreme sword body, and both are indispensable."

"Sister Six is a supreme sword body, this is completely prepared for Sister Six."

Ye Fan was overjoyed.

He found Tang Ying and passed the message to her.

"Sister, it shouldn't be too late. Let's go to the Jianzong inheritance secret palace and get the core inheritance. Maybe you can also be detached."

"Really?"

Tang Ying was pleasantly surprised.

The two immediately dispatched, and the secret palace of Jianzong's inheritance was in Kunlun, but it was hidden deep in a forbidden area.

but.

For Ye Fan now, the so-called forbidden land can come easily.

He easily found the secret palace of Jianzong inheritance, opened it with the decree of the sacred king of Jianzong, and entered with Tang Ying.

In an instant.

Tang Ying's expression moved.

Ye Fan asked, "What's the matter, sister?"

"I really want to feel the call, it seems to be very important to me."

"Then look for the summoning to find it."

Tang Ying worked hard to sense.

They shuttled through the secret palace, and soon there was an enchantment blockade, but the holy king's order could open the enchantment.

After entering the enchantment, the environment has changed.

The space is full of sword auras, these sword auras are very powerful, even if the overlord comes in, they are afraid that they will be beheaded.

Tang Ying couldn't contend alone.

Fortunately, Ye Fan helped him resist everything.

"Here."

Tang Ying finally clearly noticed where the summoning was, and Ye Fan put his arms around her, using a large movement technique to quickly speed.

Soon I found an underground palace.

"boom!"

With a punch, Ye Fan opened the gate of the underground palace again.

Suddenly.

The figure of heart beating rippled out.

Ye Fan's heart palpitations.

He cast a large body protection technique to cover himself and Tang Ying, and walked in cautiously.

The underground palace is not big, almost decayed.

Only the center of the underground palace had this surging vitality. Ye Fan showed his yin and yang eyes and saw a light ball beating in the pond.

"This is it."

Tang Yingjiao trembled.

At this moment, his supreme sword body recovered spontaneously, and the origin of his physique couldn't help washing out and covering the light ball.

Subsequently.

The light group rushed into Tang Ying's body.

Ye Fan couldn't stop it, he thought it should be a good thing, it should be a heritage, otherwise it would not cause the supreme sword body to change.

At the next moment, Tang Ying entered a state of cultivation.

"So strong sword intent and sword aura."

Ye Fan was surprised, a strong sword aura burst out from Tang Ying's body, and a strong sword intent was rippling.

And it is constantly improving.

Three days later in a blink of an eye.

The sword intent and the sword climbed to the extreme, and Ye Fan felt that the defense of the big body protection technique would be cut apart.

"Sixth sister is going to be detached."

Ye Fan opened the small universe bottle and transported this energy source into Tang Ying's body.

Suddenly.

The breath skyrocketed again.

A terrifying sword intent erupted and forced Ye Fan to retreat.

Tang Ying opened her eyes.

The sword qi soared into the sky, and there was a violent roar, shaking the earth and the earth.

Detached.

Ye Fan was very excited, yet another elder sister was detached half a step, and the strength of the Tianzun Palace increased by a point.

"sister."

"Xiao Fan."

Tang Ying smiled.

"I'm detached."

"Congratulations."

"Do you know what the light group is?"

"what?"

"Jianxin."

Tang Ying was excited and explained: "That Jianxin was condensed by the last Sect Master of Jianzong in the ancient times. It contains infinite knowledge of kendo and swordsmanship. I can be described as a divine initiation."

Ye Fan smiled and said, "This is your good fortune, you should be the descendant of Jianzong. Jiantaiah is a fake."

Puff.

Tang Ying laughed and said, "Let's look at other places in the Secret Mansion, there must be good things."

Ye Fan said: "Don't worry, take your time, move this secret mansion to the base."

"By the way, Xiaofan, the Taoist Secret Palace was taken away by Ancient Demons and Real Person Tongyou, and we will take them back."

"Definitely."

Ye Fan did not forget the Taoist Secret Mansion.

Daozong has nine inheritance secret palaces. Ye Fan thought that the nine secret palaces were definitely not easy, so he had to hold them in his hands.

Real person Tongyou is Nalanruo's master, look for a chance to go to Tongyou Valley to see Nalanruo.

Besides.

Ye Fan still has things to do, and that is to solve the cracking sable clan.

That young clan master knows how to slash the gods, Ye Fan is eager; now the nine-tailed demon fox, Jinquan, and the golden beast are still together, they are on their own side, using the great charm technique and the gods' mind-reading technique, there is hope to get it.

After bringing the Jianzong Secret Mansion back to the base, Ye Fan set off non-stop to find the Sky Splitting Mink tribe.

The original territory must have been abandoned.

The Sky Splitting Clan knew that he would come to the door, and it was impossible to wait for death on the spot.

Ye Fan performed a big tracking technique.

I found the breath of the young clan leader, and pursued it away; after Ye Fan left for a while, a ghostly shadow appeared on the spot, and he used some secret method to convey a message: "Attention, Ye Fan has been tracked down, ready to act. ."

Chapter 1113: Kill Ye Fan

Ye Fan followed all the way, and felt unusual.

I always feel something is wrong.

But he didn't care too much.

He came to an ancient ruin, which should have been an ancient battlefield.

Ye Fan stopped.

He felt the murderous aura. Although it was insignificant, he had achieved a heavenly supreme body, so his five senses were so keen.

There is an ambush?

interesting.

How do you know my whereabouts? Could it be said that the Sky Splitting Clan wanted to kill me?

Ye Fanyi was bold and went on to go deeper.

He came to the center of the ancient battlefield, where the murderous aura was the strongest, of course this was for Ye Fan.

If you were someone else, even if it was a half-step transcendence, or even Jiang Wudao came over, you might not find any murderous aura.

"call."

Ye Fan directly sat cross-legged against the sky.

Started to practice.

This scene made the strong secretly stare at each other.

what's the situation?

What did Ye Fan want to open?

"Split Heaven, what do you think Ye Fan is doing? Do you want to take action now?" Shimo Patriarch said.

The so-called Sky Splitting is the young clan leader of the Sky Splitting Mink tribe.

In addition to the patriarch of Shimo, there are also many alien patriarchs and vice lords of the Emperor League.

They received an order from the leader of the Imperial League to kill Ye Fan, and the leader of the Imperial League gave a big killer.

The formation of peerless killing array.

half.

You know, the ancient Peerless Killing Array only needs to break a corner to have great power.

Half of the time, I can't imagine it.

Coupled with so many of their powerhouses, combined with Sky Splitting's God Slashing technique, it was enough to kill Ye Fan.

"Wait first to see what Ye Fan does."

Cracking the sky said.

Ye Fan came after him and wanted to capture him, how could he sit still and wait for death.

Fortunately, the leader of the Imperial League issued a beheading order.

in addition.

Splitting the sky was also very lucky, was valued by the leader of the Emperor League, and was accepted as a disciple by him.

You must know that the leader of the Imperial League is a monk who is completely detached from each other, has cohesive spiritual power, and even the realm of the sea of suffering.

Although Ye Fan was completely detached, he didn't open up a sea of bitterness, did not condense spiritual power, and the leader of the Emperor League would definitely be able to kill.

therefore.

Even if this hack-killing plan fails, Cracking Sky is not afraid of Ye Fan.

An hour later.

Ye Fan's breath began to grow, giving people a posture to break through.

This shocked the patriarchs of Splitting Sky and Shimo, Ye Fan is very powerful now, if he is making a breakthrough, then he will have it.

"Can't wait any longer, we must shoot."

"good."

Cracking Sky nodded.

He was strong in spirit, and he was about to detach himself, and immediately revived the formation of the peerless killing formation.

In an instant.

The entire Shangu battlefield was shrouded by the killing array.

That's right, it's the entire battlefield.

This is half of the power of the Peerless Killing Array, of course, this is still less than one thousandth, because the years have eroded, the array has been damaged.

If it is a complete Peerless Killing Array, in ancient times, it could be a territory of Taoism.

How huge is a Taoist rule...

Let me put it this way.

It's bigger than the entire Daxia.

This is just an orthodoxy, and there were countless orthodoxes and countless ethnic groups in ancient times.

Can the earth hold it?

The current earth certainly cannot hold it, but the world in ancient times is different from the present.

In ancient times, the earth was not called by this name, it was the name of modern science.

In ancient times, the earth was called Zuxing.

The ancestors are vast and boundless.

However, the natural world was fettered, the ancestor star had fallen and contracted itself, and only then did the present earth appear.

These are all misings, not much to say.

The Peerless Killing Array is resurrected. Although it covers the entire mountain ancient battlefield, the core is still the central area, where Ye Fan is located.

"scold."

Ye Fan opened his eyes.

Two sharp eyes burst out, and the corners of his mouth rose. Is it finally started? There seems to be a lot of familiar auras.

very good.

If that is the case, then catch it all in one fell swoop.

Ye Fan opened the Yin-Yang Eye, saw through the killing formation, and saw the powerhouses such as Sky Splitting and Patriarch Shimo.

There are hundreds of them.

It's a pity that there is no one who is detached.

"Ye Fan!"

Cracking the sky bursts out.

He stared at it, and said coldly: "Today is your death date. This is a peerless killing array. You should feel it."

"Then what?"

"Ye Fan, you don't want to be rampant, the power of the killing formation is enough to kill you, plus us, you have no way of life."

"The mobs, the chickens and dogs."

Ye Fan didn't stop talking nonsense, and directly revived the Heaven Overlord's body, performing a lore.

boom!

With a punch, flames filled the sky.

The killing array was trembling.

The pupils of Shimo Clan's pupils shrank: "It's so strong."

"kill!"

Hundreds of patriarchs have taken out the means of pressing the bottom of the box, and the peerless killing array erupted with peerless power.

Ye Fan's eyelids twitched.

It deserves to be a peerless killing array, and sure enough, there are some ways.

One after another, the power of killing and cutting came down, but Ye Fan could break it with every punch.

However, Ye Fan was very careful, guarding against the Heaven-Splitting God Slashing Technique.

This is no joke.

Of course, it doesn't matter even if he has the slashing technique. He has a good relationship with the gods, and he can ask the gods for the essence of the energy source to repair it.

"Yin Yang Dao Fist."

Ye Fan's body trembled, and his feet stepped on the Yin-Yang Tai Chi picture.

He hit the ground with a punch.

The ancient battlefield was surging, the world turned upside down, and a large ravine was born.

The formation emerged.

"No, Ye Fan wants to destroy the formation." Cracking Sky yelled, and he spit out a secret treasure.

Immediately afterwards.

All the clan owners took out the secret treasures.

Every foreign race has a treasure, that's for sure, Ye Fan's expression also changed after hundreds of Secret Treasures were bombarded.

"Powerful Pearl!"

Ye Fan revived the Power Orb, and the Holy Light shrouded him.

At the same time cast a large body protection technique.

Under the dual defense, his pressure was reduced a lot, Ye Fan used the catastrophe technique, and the entire ancient battlefield began to subvert.

"Great blessing technique!"

"Big expansion technique!"

With the blessing so far, Ye Fan's combat power doubled.

"Fusion."

Ye Fan once again used the method of fighting the witch lord in the territory of the witch clan, fusing all the powers together.

That terrifying aura horrified the clan masters such as Cracking Sky.

"Break it for me."

Ye Fan made this blow, and the goal was the formation. As long as the formation was broken, the killing formation would naturally be cracked.

"Rumble."

Hundreds of Secret Treasures rushed away, trying to block this punch.

Bang bang bang.

The secret treasure exploded one after another.

Without exploding a secret treasure, a clan leader vomited blood and suffered serious injuries.

Lost more than 80 artifacts, and finally resisted this punch.

"God-cutting technique."

Cracking the sky shot.

His opportunity is very good, it can be described as extremely brilliant.

The destructive force came, but Ye Fan was prepared for it, and he used the ultimate order to block it.

But weirdly, Ji Dao Ling only blocked a small part.

Cracking the sky laughed: "Ye Fan, how terrible my talent is. I have almost mastered the profound meaning of ignoring all defenses. You can die."

Ye Fan's face was solemn.

Suddenly, he had a bold idea. Since the power of God Slayer Technique can kill his mental illness, it is better to let the power of God Slayer Technique enter the sea of spiritual consciousness to see how big the waves can be.

If he successfully resisted, he would greatly improve his mental power, and he wouldn't even need to be afraid of God Slayer in the future.

Anyway, there is the essence of the gods.

In the small universe bottle, there are three drops of essence, enough for her to recover from her mental trauma.

"boom!"

Ye Fan opened up and gave up the defense.

The power of slashing the gods enters the sea of spiritual consciousness.

"Successful."

Splitting the sky was overjoyed, and the other clan owners were also extremely excited.

Thinking that he could not complete the task, he didn't expect it to be successful, and now Ye Fan was hit by the God Slashing technique.

"kill!"

They operate a killing array, bombarding ceaselessly.

At this moment, Ye Fan's Spiritual Consciousness Sea set off a huge wave, and the power of God Slashing Technique stepped in to destroy the Spiritual Consciousness Sea.

However, Ye Fan's spirit is detached, and how powerful his spiritual power is, he is fighting against the power of God Slayer.

The two sides were clashing and colliding. Ye Fan had a splitting headache, but he clenched his teeth and insisted, and at the same time, he was still fighting against the killing array.

"I'm undefeated!"

Ye Fan fists like a dragon, and the killing array is faltering.

"Invincible!"

Behind Ye Fan appeared a monstrous vision, that was a great figure standing up and down, completely shattering the stars of the universe.

"boom!"

With a punch, the pan was exploded.

Puff puff.

The clan masters such as Split Sky vomited blood and flew upside down. They didn't think much, and quickly fled. Anyway, Ye Fan was hit by the God Slayer Technique, and it won't last long. You can slowly consume Ye Fan to death. There is no need to fight hard.

Chapter 1114: Dependence on good and bad

"what!"

In the middle of the ancient battlefield, Ye Fan screamed up to the sky.

The world was turned upside down in the sea of spiritual knowledge, and the strength of the spiritual power and the power of the slashing technique were confronted with each other, which made him painful and miserable.

The whole head seemed to explode.

In the distance, when the clan masters such as Split Sky heard Ye Fan's screams, surprises appeared on their faces. It seemed that Ye Fan had indeed suffered a serious injury. Wait a second to consume Ye Fan.

Ye Fan stood quietly in the sky.

It seems that the old monk enters samādhi.

His Spiritual Consciousness Sea is torn apart, but don't worry, the energy source essence of the Small Universe Bottle enters the Consciousness Sea.

Three drops of essence are worth countless energy springs.

For an instant.

The sea of spiritual consciousness is blooming, and the torn hole is quickly repaired. Not only that, but the spiritual power is increasing, and it is crazy to fight the power of God Slayer.

The sea of consciousness is torn and healed.

again and again.

But gradually, Ye Fan realized that it was no longer possible, the essence had been consumed, and the effect of the essence was diminishing.

Spiritual knowledge of the sea is also resistant.

If the essence is used too much, it will be useless.

This is understandable.

If there is unlimited assistance, then the emperor can use the essence to polish his spiritual power without any limitation, fearing that the spiritual power has already reached an infinite height.

Tearing and healing, every time it breaks and then stands, the mental power becomes condensed and strong, this is for sure.

In fact, the **** emperor's spiritual detachment was just using this method.

Through the tearing of the spirit to understand the sea, and then use the essence to repair, slowly accumulate the foundation, and finally the spirit is detached.

"seal."

Ye Fan used the Great Seal Technique to seal the last power of the God Slayer Technique.

He can do it now.

The Yin-Yang Sky Eye was opened, and Ye Fan saw that the clan masters such as the distant Split Sky were hiding, waiting for an opportunity.

But Ye Fan didn't kill it.

Suddenly, a strange aura rushed over, very terrifying, this aura would be very troublesome for those alien clan owners outside to deal with.

"spread."

Ye Fan slapped it away.

He quickened his speed, stretched his feet to an inch, stepped hundreds of meters, and quickly deepened.

outside world.

Found that there was no movement.

The clan masters such as Splitting Sky were startled and wondering, could it be that Ye Fan has fallen, maybe not, Ye Fan is a Xiaoqiang who can't be beaten, it is impossible to fall so easily.

"Go and see."

Split the sky takes the lead.

They came to the center of the battlefield and found that Ye Fan was no longer in sight.

"Look!"

The head of the Shimo clan discovered the ancient way.

Heaven Splitting Road: "There is a mysterious old road under this ancient battlefield. Good guy, is there any good luck?"

Shimozu said: "Ye Fan must have gone after it, **** it, how can this guy's luck be so strong, so that he can find the treasure."

"Chase!"

Rift Sky was the first to successfully enter.

The first demon clan leader did not hesitate, and they followed closely; although it was dangerous, they still had the final trump card given to them by the emperor alliance leader.

If you are in desperation, you can use them to save them.

At this moment, Ye Fan had reached the deepest point, he had encountered some troubles, was surrounded by strange auras, and was attacked by this strange power.

"Burning the sky and boil the sea."

Ye Fan shot a blue flame.

Extreme combustion.

"Great expansion."

The blue flames skyrocketed, and the strange aura was finally burned out, Ye Fan broke through the barrier of the strange power and rushed into the end space.

This is a broken palace.

Decayed.

Exuding the breath of vicissitudes, conveying the traces of time.

Ye Fan wouldn't think it was that simple, there must be something, otherwise it would be impossible to produce strange aura and strange power.

The palace is very big, Ye Fan fumbled cautiously.

Ye Fan finally found something. It was a black object, not too big or small, half a meter long and thick arms.

The weird aura radiated from here.

"What is this."

Ye Fan felt incredible.

He probed carefully and finally concluded that it was a piece of wood.

Yes, it is wood.

Ye Fan doubted his life.

A piece of black wood can exude such a powerful and strange aura, and it is not known how many years it has existed.

This palace is decayed, why is this black wood not decayed?

Black wood is not simple.

Ye Fan put the black wood into the space ring.

Keep going, because the source of the strange breath has been found, but the source of the strange power has not been found.

Kuroki only exudes the breath of spring, without power fluctuations.

This shows that there is still this kind of artifact, which is constantly exuding weird power.

This is the point.

Ye Fan tried to use the Big Swallowing technique, but was unable to swallow this weird power. It only showed that the weird power was too advanced, and Ye Fan couldn't swallow it at all.

what is it then?

Ye Fan fumbled curiously, and the sky behind was waiting to follow his footsteps.

It's a pity that they are not as strong as Ye Fan, and it is very difficult to move forward.

"hateful."

They were blocked by the weird force.

"In this afternoon, Ye Fan is afraid that he is going to get good luck, and we must catch up as soon as possible."

"Yes."

"Use the hole cards."

Everyone agrees.

Suddenly, Patriarch Shimo took out a scroll, opened it, and a thick terrifying aura bloomed.

The weird force broke open.

The decree of the leader of the Imperial League.

"go!"

The decree of the decree shrouded all the clan masters of the sky, and they swiftly deepened.

On the other side, Ye Fan had already come to the depths of the palace. There was a closed secret room here. This was the last place to explore.

If nothing is found here, then Ye Fan has nothing to do.

"Rumble."

Ye Fancang Tian's tyrant body revived, and the ultimate power impacted on the door of the secret room, and the whole door was trembling.

"open!"

Ye Fan stopped drinking.

The strength skyrocketed again, with the blessing of the Great Blessing Technique and the Great Expansion Technique, and the door finally opened a gap.

Suddenly, Ye Fan's cold hair stood upright.

"not good."

A weird force that was a hundred times more terrifying than the outside was smashed out, like a sharp sword, to kill Ye Fan.

Ye Fan was really shocked by such a crisis.

"Yin Yang Avenue Fire Fist."

Ye Fanshunjiang exploded with a peak blow.

"Boom."

But he was still knocked into the air and blood spurted wildly.

But the weird sword was not aimed at him, but straight forward, crossing the palace and killing the ancient road.

The clan lords such as Split Sky who were being protected by the imperial alliance lord's decree, also felt the crisis, and their feathers stood upright.

But it was too late.

The weird force formed a sharp sword and bombarded the decrees, causing a big explosion.

"what!"

"Ahhhhh..."

A group of patriarchs died tragically.

The top players such as Split Sky and Shimo Clan Lord were also very embarrassed, but fortunately, they survived.

A hundred clan lords came to kill Ye Fan, and now there are only more than thirty statues left, which is really tragic.

"go ahead."

The cracked sky growled.

At this point, it is absolutely impossible to return it, and all the previous costs have been wasted.

Before the secret room, Ye Fan didn't stop. He was prepared this time, with great body protection, great energy beads, and the ultimate order to protect himself. He continued to push the door hard.

Rumbling.

The strange power rushed out again.

Ye Fan was knocked into the air.

It was much better than last time, but I also vomited blood.

But the alien race master on the ancient road is miserable.

"what!"

In the second blow, several patriarchs died, and many of them were seriously injured.

A clan leader said: "I can't move forward. Who knows if there will be a force attack, we will all die here."

A clan leader echoed: "Yes, the power of the decree is also being weakened."

Patriarch Shimo was also worried.

Cracking the sky is very persistent, with a premonition in the dark, and there are great fortunes and treasures in front of him.

It is worth paying any price.

"Pray for wealth and danger, you are afraid of death, then leave. Who is willing to move on with me?"

Cracked the sky shouted.

Shimozu said, "Count me."

"I also want to keep watching."

"Count me in."

In the end, counting the split sky, a total of ten patriarchs moved forward, and the others returned the same way.

Not long.

The third blow came.

This time, Split Sky and the others are also prepared, they take the initiative to attack, and no longer passively be beaten.

in addition.

They also discovered that this weird force was not aimed at them, but moved forward courageously, so it would be great if they could avoid it.

But the reason why the weird power is weird is that it is too fast, and I don't know when or what angle it will come.

Rumbling.

I don't know how many blows he has gone through, Ye Fan is full of scars. Fortunately, the small Qiankun bottle has energy spring water. He has received enough supplements, and it is not bad, without serious injuries.

Surprisingly, the portal finally opened.

Ye Fan walked in.

In front of him, he was in a trance, as if he had entered a world, which was a world full of green eyes.

The strong vitality is majestic.

Ye Fan was shocked.

He felt that his entire body was irrigated with life force, and every cell in his body was swelling, full of life force.

Suddenly, all of Ye Fan's injuries recovered.

His body seemed very hungry.

The big devouring technique was used, the life essence of the crazy devourer, and Ye Fan's physical body became more and more brilliant.

Explore while devouring Ye Fan.

Life essence can't be born out of thin air, it must have a source, and he has indeed found it. On a piece of soil, there is a seed shining with aquamarine light.

That seed gave Ye Fan the feeling that there is no more vitality in the world than it.

at this time.

Splitting the sky and they also came to this space, they were very miserable, they were clan masters, and only three were left.

Master of the Sky Splitting, Beginning Demon Clan, and Master of the Qingming Zong Clan.

"What a strong vitality."

"Huhuhuhu."

They absorbed frantically, and their injuries were quickly recovering.

Ye Fan saw the three guys and sneered: "You guys actually found them."

Cracking the sky said coldly: "Ye Fan, how can good luck be taken away by you."

"Can you stop me?"

"You were hit by my god-slashing technique, which is strong outside but at the same time. The vitality here is only for physical injuries and cannot repair your mental wounds."

"Yes?"

Ye Fan smiled, his eyes fell on the decree on the top of the three people's heads, and he felt spiritual power fluctuations.

"That should be the decree of the leader of the Imperial League, I didn't expect that the leader of the Imperial League is also a fully detached existence, and like the wizard master, he has cultivated spiritual power, is it a monk in the sea of suffering?"

"Ye Fan, you are right, my master is already a cultivator at the Bitter Sea realm, killing you like a dog."

"Your master? He was accepted as a disciple by the lord of the Imperial League, and Jiang Wudao was also accepted as a disciple by the lord of the Witch Clan, and he was completely detached. It is a pity that it was my defeated general, and you didn't even have a half-step detachment. , And dare to be presumptuous in front of me, whoever gives you the courage, thinks that the mere slashing of the gods can kill me."

Ye Fan was full of mockery.

At this time, the patriarch Shimo's gaze fell on the green seed, his pupils contracted, and he screamed.

"That, that is..."

"Eternal Qinglian."

Chapter 1115: Qingdi Heart

Patriarch Shimo yelled in disbelief.

The masters of Split Sky and Qingming Zerg were also shocked.

Eternal Qinglian, my god, turned out to be such a great fortune.

Ye Fan was also shocked.

He didn't know what this kind of child was, but when the head of Shimo said about Eternal Qinglian, he knew it.

Among the five emperors, the Qing emperor merged with the eternal green lotus. Could it be that the vitality is so strong, it turned out to be like this.

"Eternal Qinglian's lotus seed, my god, this can be said to be the heart of the Qing Emperor, it is actually such a god-defying nature."

"Must get it!"

Patriarch Shimo roared.

He spit out a small mountain with a big palm, and quickly expanded to hundreds of meters in diameter. This is the holy thing of the Simo clan, Simo Sacred Mountain.

The master of the Qingming Zerg clan was also unambiguous. He took out a cyan bone sword, which was made by the corpses of the ancient saints of their clan, and was indestructible.

Splitting the sky also took out the treasure of their clan, a stone, but it possessed terrible tearing power.

The three also have the decree of the leader of the Imperial League.

"Ye Fan, you must die."

"So what, even if I die, how do you three share the hearts of the Azure Emperor?"

"Instigate discord!"

Shimo Patriarch roared: "Resolve Ye Fan first, this is the first priority."

"good!"

The three immediately shot without nonsense.

joke.

This is the heart of the Qing Emperor, there is nothing to negotiate, and those who can get it.

However, what made the eyes of the three crackers was that Ye Fan opened his mouth and sucked, and even swallowed the heart of the Azure Emperor into his abdomen.

"Asshole!"

"Suffer to death!"

The Sacred Mountain of Shimo suppressed it.

The saint's bone sword smashed down.

The tearing force burst out and swept over.

Ye Fan laughed, full of pride, his heavenly domineering body was shaking, and his blood rushed to the sky.

He even put away the Da Neng Zhu and Ji Dao Ling.

It doesn't need to be this way.

His fist can blow everything up.

"boom!"

One punch flew the Beginning Demon Sacred Mountain, one punch flew the Saint Bone Sword, and one punch extinguished the tearing power.

Ye Fan performed a big killing technique.

He entered the ultimate state of killing, fighting in close hands, and his terrifying fighting skills made it impossible for the three of the sky to be able to withstand it.

"puff!"

Patriarch Shimo took a punch, and the blood stained the sky, but Shimo Sacred Mountain also smashed Ye Fan fiercely.

boom!

Ye Fan fell.

Below, the Qingming Zerg clan master pierced Ye Fan's head with a sword; Ye Fan used a large shift technique to evade.

Splitting the sky shot a tearing divine light, falling on him, Ye Fan felt that his body seemed to be torn apart.

"Exit!"

Ye Fanba's body trembled, and his body was surrounded by blue flames, accompanied by the red emperor's fire spirit.

The Shimo clan master shouted: "Ye Fan, hand over the Qing Emperor's heart, you can go. It is useless for you to take the Qing Emperor's heart. You practice the Crimson Emperor Fire God Art, Huo Kemu, which will greatly damage the Qing Emperor's heart. "

"Shit."

Ye Fan didn't care.

"I can be compatible with fire and water, so you don't worry about it."

"Heaven, earth and five elements are the laws of heaven, how can it be merged, Ye Fan, you are a cocoon."

"Noisy."

Ye Fan punched out an amazing punch.

The three of the Sky Splitting gritted their teeth, they were too far apart from Ye Fan, they could only use the decree to fight against Ye Fan.

"Boom!"

At this moment, the edict collapsed. ,

"what!"

The three of the cracked sky were panicked.

The decree was blown by Ye Fan, how could this be? They were finished.

But the next second.

The collapsed decree gathered again, and a dharma phase emerged, and this dharma phase was surrounded by brilliant brilliance, and it was difficult to see it clearly.

"Leader."

"Master!"

The three are overjoyed.

Unexpectedly, the decree would have such an effect, but soon the three of them had troubles. It seemed that the leader knew the Qingdi's heart, they couldn't get it, and they had to be taken away by the leader.

Damn it!

No way, they can only admit their fate.

"Leader of the Imperial League."

"Ye Fan."

Ye Fan's yin and sun cannot see through, and the leader of the Imperial League is very mysterious. He said: "I didn't expect you to hide so deeply, and you would never show up again after establishing the Imperial League."

"I have such a big deal."

"Opening the sky hasn't appeared, doesn't open the sky Fuze don't want it?"

"Don't the witch master want it."

The leader of the Imperial League smiled, and then said: "Ye Fan, although Kaitian Fuze is good, it has cause and effect."

"What's the meaning?"

"In the future, you will know that because the cause and effect were too great, the witch lord and I did not **** it. Of course, at that time I was not completely detached, nor did the witch lord Eagle Nation."

"Comprehensive detachment came after the corpse emperor opened the sky and broke the shackles. Now, I am a monk in the realm of the sea of suffering."

"Are you going to **** the heart of the Azure Emperor?"

"Unexpectedly, the heart of the Azure Emperor will appear, your luck is really strong. I knew I would come in person, the heart of the Azure Emperor would be very difficult. Now this law is not your opponent."

The leader of the Imperial League paused, and then said: "But you can give it a try."

boom!

In an instant, he shot.

"Mountains and rivers Wanduo."

This fascinating and terrifying.

Just like the "Great Witch World" cast by the witch master.

At this moment, the leader of the Imperial League played out with one move, as if he had played countless mountains and rivers, oppressively.

It made Ye Fan difficult to breathe.

"Fusion."

Like the "Great Witch World" cast by the witch master, Ye Fan merged all his powers and punched the pinnacle.

boom!

The phantom of the mountains and rivers was broken one after another.

The leader of the Imperial League said: "Sure enough, there is no way to suppress you. My Dharma Form can only have so much power, split the sky, you can withdraw."

"boom!"

Faxiang collapsed.

The Sky Splitters were very unwilling, but they couldn't help it. They stayed here just to be beheaded.

Swish.

They withdrew.

Ye Fan was lost in thought.

When the leader of the Imperial League used "Mountains and Rivers Wanduo", the Dharma image collapsed; this reminded him of the Sorcerer Lord.

"Could it be that what I was fighting against in the territory was not the witch lord itself, it was the law. I used a trick called the 'Great Witch World' without any other power, and would collapse, although I was allowed to leave with the elves."

"It seems to be the case, otherwise how could the witch master let me go easily."

"What is the witch master doing!"

Ye Fan felt that there were still many secrets in this world.

He needs to become stronger.

It is necessary to open up the sea of suffering as soon as possible, gather spiritual power, and become a monk in the realm of the sea of suffering.

"The Heart of the Qing Emperor."

Ye Fan is practicing here.

He began to refine the Qing Emperor's heart, and gradually, a technique came into his mind.

Qingdi wood magic.

I previously practiced the Red Emperor Fire God Art, and now I have the Azure Emperor Wood Spirit Art. Unlike the incompleteness of the Fire God Art, the Wood Spirit Art is complete.

"Great."

Ye Fan learned about the mystery of Mu Shen Gong, and found that when he cultivated to the peak state, he could live and live without dying.

It's terrible.

"World Wood!"

Suddenly, Ye Fan was shocked.

real.

He learned from some inheritance memories of the Azure Emperor's Heart that the black wood in the space ring just now turned out to be the world wood.

Rumor has it that in ancient times, the ancestor star had a giant tree called the World Tree.

The World Tree is the support of the ancestors.

Because of the existence of the world tree, the ancestor star can exist and be infinitely broad.

"The World Tree is cut off... Ancestral Star has fallen... Heaven and Earth are imprisoned... Great Enemy! Great Enemy!"

Ye Fan shuddered all over.

A chill spread across his limbs, making him shiver.

Fragments of memory appeared in the Qingdi's heart, expounding some secrets, the ancient times of Mixin.

The reason why the ancestor star fell is because the World Tree was cut off.

"What is the enemy?"

Ye Fan's body was cold, with a sense of horror.

Yes.

Major events must have happened in the ancient times, which led to the decline of the ancestor star to where it is now.

How did the imprisonment of heaven and earth appear?

These are all questions.

It's a pity that Ye Fan could not shake all the memory fragments of the Qing Emperor's heart. Only a small fragment conveyed some misin just now.

"It seems that I have to wait for my strength to become stronger before I can shake the memory fragments and learn about the Ancient Myxin."

Ye Fan muttered to himself.

Take out the world wood, the black wood, as if it has been charred, flowing with a weird aura.

This is definitely not the original breath of the world.

"Go back and let the elves purify and see what the world Muyuan looks like."

"A branch of the world tree can create a small world. With such a large piece of world tree, how can it create a complete world?"

Suddenly, Ye Fan's body trembled.

"The body is like the universe!"

Ye Fan said these four words.

"Yes, I opened up the sea of suffering, refined the world into it, and made my sea of suffering into a world..."

"Oh my God!"

Ye Fan trembled with excitement.

This idea is really crazy.

One can think about it, if his sea of suffering penetrates the world, how much energy can it store?

Jiang Wudao's nine seas of suffering are a fart.

In front of the world, even dust is not counted.

Ye Fan was short of breath.

He knew that this should be very difficult. If it were easy, then in the ancient times, the strong would cut down the world tree to create a sea of bitterness, the world tree would have been cut down a long time ago.

"Although it is difficult, I have to take this road. Once I succeed, I will be invincible. It is truly invincible, and the battle is endless!"

"I want to accumulate, and accumulate enough."

Ye Fan warned himself not to worry, even if everyone else had achieved the state of the sea of suffering, it wouldn't hurt to surpass him.

As long as this step can be taken, he will surpass everything.

It is possible that no one has come before.

Ye Fan wants to create a miracle again.

The heavenly tyrant body should go forward bravely and not be afraid of any difficulties.

"Rumble."

Suddenly, Ye Fan felt something happened in his body, and his face was on the shore, trying to suppress the restless fire spirit in his body.

"The leader of the Shimo clan is right, Huo Kemu, the fire spirit is going to burn the heart of the Qing Emperor."

"The fusion of water and fire is really difficult."

Ye Fan originally wanted to practice the Azure Emperor Wood Magic Art, but now he dispelled this idea. Once he cultivates, he is afraid that it will collide with the Fire God Art, and he will get into trouble.

Is it necessary to give up the wood magic?

This is a big loss.

How to do it?

"By the way, yin and yang, using this as a medium to achieve a delicate balance between fire spirit and wood spirit, maybe."

"Try it."

Ye Fanyi is a bold man.

Along the way, Ye Fan has never been afraid, just do what he says. Ye Fan immediately practiced the Qingdi Wood Magic Art.

time flies.

Three days later, Mu Shen Gong started.

A wisp of green aura permeated, this is the wood spirit; the moment the wood spirit appeared, all the life essence in this space became active, madly pouring into Ye Fan's body, as if the little tadpole had found his mother.

Ye Fan feels so uncomfortable!

His body energy has accumulated to a terrifying level, and every inch of flesh and blood and even every cell contains turbulent energy.

"boom!"

The body vibrates and the body roars.

Ye Fan knew that trouble was coming.

Fire spirit and wood spirit meet in the body, like Yuanjia Luzhai, a red fire beast is roaring, and a green lotus is blooming.

The two sides are colliding, and neither is convinced.

Ye Fan didn't intervene for the first time, because this collision was also a kind of temper for him.

Ye Fan didn't want to miss the slightest chance to sharpen himself.

Boom boom boom...

There was a ball in the body.

Seeing that the situation was almost done, Ye Fan began to intervene, and the yin and yang aura filled the past, entwining the fire beast and the green lotus.

Both sides began to struggle.

Ye Fan gritted his teeth, he was uncomfortable, even painful, success or failure depends on this.

He must persist.

The yin and yang breath is like a mother, pulling the two children, asking them to shake hands and make peace.

But the two children were disobedient and wanted to struggle to escape.

"not good."

Suddenly, Ye Fan felt that he couldn't control it.

Fire spirit and wood spirit became extremely violent.

At the critical juncture, Ye Fan's bloodline power recovered, and the rich yin and yang aura was used like a mountain whistling and a tsunami.

Like an angry mother hitting two children.

Huoshenqi and Mushenqi were finally suppressed and became honest; then under the yin and yang qi, the two sides began to touch, and at first they were a little repelled.

But Ye Fan was very patient.

One month later.

Ye Fan opened his eyes, his left hand was fiery, his right hand was woody, his hands clasped together, the two breaths merged.

"Burning the sky and boil the sea."

"Life is endless."

Ye Fan stopped drinking and punched two punches one after another. These were the Mu Shen Quan and the Vulcan Quan, and then Ye Fan punched the third punch.

Huomu Shenquan.

This space exploded.

"call!"

A crack appeared in the space, and Ye Fan walked out.

He is now in a surprisingly good state, better than ever before. He successfully completed the fusion, allowing him to master two magical powers now.

"I don't know if I have the luck to obtain the Black Emperor Water Magic Art, the White Emperor Golden Magic Art, and the Yellow Emperor Earth Magic Art. In this case, my Five Elements Magic Art is complete, and I can even cultivate the Five Elements God Body on the basis of the Heavenly Overlord Body."

"The Five Elements Divine Body, like the Nine Sun Divine Body, is one of the top divine bodies, even more powerful."

"I really look forward to it."

Chapter 1116: Big event

Now Ye Fan has another set of trump cards, such as Qingdi Wood Magic Art, Wood Magic Qi, Fire Wood Magic Fist, etc. The most important thing is the Qingdi Heart. With the Qingdi Heart, he can continuously provide him with vitality. Coupled with the great healing technique and the self-healing ability of the Heavenly Tyrant Body, Ye Fan is now a Xiaoqiang who can't beat him, full of confidence.

Leaving this battlefield, Ye Fan hurried back to Kunlun.

It was discovered that he had gained the heart of the Qing Emperor and the news of the inheritance of the Qing Emperor spread, which was obviously done by Split Heaven.

Ye Fan didn't care.

Even if it spreads, who would dare to grab it?

"Master Ye Huang."

The elf queen saw Ye Fan come to her territory and greeted her warmly. During this time, their elves have received great care in the territory.

Many resources have also been transferred.

The overall strength of the elves has improved a step, and at the same time, the elven queen is also familiar with her sisters, Min Dong and others.

Be part of this big family.

"Master Ye Huang, I heard that you have received the Qingqing Emperor inheritance? Is this true?"

"good."

Ye Fan opened his palm, and the heart of the Qing Emperor emerged, and the rich life essence spread, attracting many elves to rush over.

The elf queen trembled.

Ye Fan didn't feel surprised. The elves also tend to cultivate vitality, so they can stay young forever.

The Heart of the Azure Emperor contains great vitality and has a fatal attraction to the Elf Race, but Ye Fan cannot give the Heart of the Azure Emperor to the Elf Queen.

Although they are pretty terribly beautiful, Ye Fan is not a womanizer.

In fact.

Ye Fan is confident that if he wants to win the Elf Queen, he will definitely agree to it, and even willing to be his own woman.

Hey-hey.

This is the advantage of the strong.

Of course, Ye Fan didn't sit in his arms, he didn't dare to mess with the flowers, so as not to make his sisters angry.

Putting away the heart of the Azure Emperor, the Elf Queen returned to normal. She also knew that Ye Fan could not give such a precious thing to herself, so she did not speak.

"Master Ye Huang is looking for something to do with me?"

"Look at this."

Ye Fan took out the world tree.

The elf queen recognized it at a glance and exclaimed: "The decapitation of the World Tree, my goodness, it's so big."

"Queen, this world tree is contaminated with a weird aura, and it has become black. I believe that the world tree cannot be black, so I want you to use the great purification technique to purify it."

"The World Tree is gorgeous and colorful."

The Elf Queen said seriously, "It is rumored that the ancestor of our Elf tribe was born from the World Tree, and our Elf tribe is very familiar with the World Tree."

"The weird breath of this world wood assimilated it, so it became black. It is not easy to purify and it takes time. I feel the strange breath so powerful that it makes me very uncomfortable."

"It's okay, take your time. This world will be handed over. After the successful purification is completed, it will be restored to its original state. I will intercept a section for you."

"Really?"

"I, Ye Fan, never break my promise, so please ask the queen. Feel free to contact me if you need it."

Ye Fan left, didn't stay here much.

To be honest, the Elf Queen is really beautiful, Ye Fan is too low in concentration and seems to have magical powers.

"Everyone is ready to purify the altar immediately, and in the next time, our whole clan will come to purify this piece of world wood."

"Yes."

The elves are preparing nervously.

The altar was quickly set up, led by the Elf Queen, and the entire Elves were performing great purification techniques.

The thick purifying power poured on the world wood. Suddenly, the world wood trembled, and the strange aura seemed to be threatened and rioted.

"Suppression!"

The altar bloomed with brilliance, and the strange aura was suppressed firmly.

As someone else, even Ye Fan must take it seriously in the face of such a riot.

However, the power of purification is the nemesis of the strange aura, so the elf queen and other tribesmen can suppress it.

Next comes the long purification time.

...

Ye Fan wants to open up a sea of suffering.

But it requires a lot of resources. This is to build the foundation and is very important. Ye Fan wanted to find a lot of natural treasures, make the bitter sea extraordinarily strong, and then integrate the world's woods to create miracles in one fell swoop.

this day.

General Marshal Gai Jiuyou came to the base.

Gai Jiuyou's condition is not very good.

Ye Fan understood that this day, because the human emperor had fallen, and when he opened the sky, he fought against the corpse emperor, and was wiped out by the ashes chopped by the sky axe.

nowadays.

There is no leader in the great Xia group of dragons.

In the palace, there are old monsters who are half detached, but there is no top powerhouse who is completely detached. Gai Jiuyou is very worried.

"Marshal, what do you mean?"

"I hope you can be a consort, so that you can use your power as a reward. You can choose three treasures from the palace treasury."

Ye Fan couldn't laugh or cry.

Gai Jiuyou unexpectedly came to recruit Mr. Ma, what a thing.

"Remember the last time you entered the palace? Actually, it was not the emperor, but the little princess pretending to be."

"This time I also want you to marry the little princess. The little princess is beautiful and beautiful. You will definitely like it."

Ye Fan shook his head and said: "This is not something that I like or dislike. This is a big thing. Once I become a consort, I will be burdened with great cause and effect."

"indeed."

Gai Jiuyou nodded.

"Actually, I, Chief Executive Ouyang Jing, Elder Long Pavilion, and all the great princes have all discussed that we will let the little princess ascend the throne and become the Empress of Daxia."

"what!"

Ye Fan was taken aback.

"Marshal, is there something arbitrary? Can the little princess be the lord of this great summer?"

"Don't you still have you?" Gai Jiuyou smiled: "The little princess becomes the queen, and you and the little princess are married, and your status is also a person of less than ten thousand people. In this way, you can protect Daxia in a fair way."

Ye Fan shook his head and said, "No, the cause and effect are too great, I may not be able to handle it."

"Pursuing wealth and wealth and risk, although it is burdened with great cause and effect, there are also great benefits, for example, you can take advantage of the great summer luck."

"Great summer luck?"

"You should know that powerful ethnic groups and Taoist traditions will have their own air fortune, which will brew into a sea of air fortune. If the air fortune is strong enough, the golden dragon of air fortune can be born in the sea of clouds."

"The master of an ethnic group, the helm of an orthodoxy, and the master of a country can use luck to be invincible in their own territory."

"For example, the Protoss, such as the Witch Clan, all have their own sea of luck and the golden dragon of luck. If you slam into the territory of the Witch clan, the wizard can use the golden dragon of luck to deal with you."

Ye Fan thoughtfully.

Gai Jiuyou said: "But they can only use their own territory. However, in the world, is it possible to use Daxia's luck within the scope of Daxia, which is equivalent to an extra Do you understand the big trump card?"

Ye Fan's heart surged.

He knows all these things, they are indeed the big trump cards.

The luck of a country is so terrifying, if it is used, it is absolutely invincible in the world.

"Since the little princess has become a queen, she can also use her luck, so why bother to marry me?"

"The little princess can indeed, but she is not even the overlord at present, too weak. With limited luck, she can't stop top powerhouses such as the witch master, the **** emperor, and the corpse emperor. That's why you need your help."

"Ye Fan, think carefully about this opportunity. I know you want to open up the sea of bitterness, looking for treasures of heaven and earth. There are many treasures in the palace treasury, enough for you to open up the sea of bitterness."

"If it's because of your fathers and sisters, I can tell them, I believe they will agree. You are Daxia's citizens, and you have the obligation to protect Daxia and the human race."

"I stayed at the base for three days and gave me the answer within three days. Don't let me down, don't let Daxia down."

Gai Jiuyou left.

Ye Fan couldn't calm down for a long time.

He never expected to marry a strange woman.

But what Gai Jiuyou said is right. Firstly, he is well paid, which is exactly what he needs; secondly, as a citizen of Daxia, he has the obligation to protect the country and the people.

Although Gai Jiuyou didn't say anything, Ye Fan guessed it more or less that after the emperor died, some powerful ethnic groups must have gone to the palace to make trouble. This made Gai Jiuyou high-level officials very anxious, so he came up with this trick.

Although he is familiar with Gai Jiuyou and Longge Pavilion, he is an outsider after all. When he marries the little princess, he will listen to politics and control the luck of a country. This is a big deal.

As a last resort, it is impossible for Gai Jiuyou and other high-level leaders to decide to do this.

In other words, it is critical.

The palace is likely to have a catastrophe, and so is the secular world.

Long time.

Ye Fan decided to talk to his sisters.

This night, Ye Fan and his sisters had a long conversation, but unfortunately, the eldest sister Meng Qingyi was still asleep, and the fourth sister Tong Xiaoman had no news.

Early the next morning.

Ye Fan walked out of the Phoenix Pavilion, took a deep breath, and found Gai Jiuyou.

"Is there an answer?"

"I promised."

"good."

Gai Jiuyou was excited, red eyes, and sighed: "It's true, Ye Fan, I got some information. The Alien Imperial League mainly attacked the palace, plundered treasures, and launched riots to attack the secular world."

Ye Fan's eyes widened, and he guessed right yesterday.

There is a catastrophe.

Gai Jiuyou said: "So, it's urgent. You can promise, it's very good, and you won't treat you badly."

Ye Fan said: "Let's go to the palace."

"When will the little princess ascend the throne?"

"October One."

"On National Day, it was good, there is still more than a month left, time is a bit tight."

"We are going to let the little princess ascend the throne to hold your wedding together, what do you think?"

"I have no objection. Since I agreed, everything will follow the arrangement. Marshal, I have fought against the law of the leader of the Imperial League. I need to deal with his form of law with all my strength."

"So strong!"

Gai Jiuyou horrified.

Originally thought that Ye Fan could contend with the leader of the Imperial League, but now, I was afraid that it was due to the luck of the golden dragon, and he was a little unstable.

And it's not just the leader of the Imperial League.

Who can guarantee that the Sorcerer will not show up for a share?

Even the top powerhouses such as the **** emperor and the corpse emperor will appear.

"I need to open up a sea of suffering."

Ye Fan's face was solemn, his eyes burning, and he said, "Only by opening up the sea of suffering and condensing spiritual power can I confront the leader of the Imperial League. Therefore, I hope you will support me unconditionally and help me open up the sea of suffering as soon as possible. Of course, I will not be whoring for nothing. I will share advanced technology with you. At the same time, Tianzun Hall and Da Xia co-exist and die."

Chapter 1117: Sanshizu

"good!"

Gai Jiuyou held Ye Fan's hand tightly, and said with a smile: "It's enough for you to have these words, without further ado, we will return to the palace immediately."

Everyone came out.

Last night, Ye Fan chatted with his sisters for a long time, and he married the little princess. He told everyone not to go.

In fact, this big marriage can be said to be a transaction.

He and the little princess had never veiled their faces, and had no feelings at all. The wedding was just to get them.

Therefore, this is not a true marriage.

There is no need for everyone to be there.

For good luck, Ye Fan didn't expect that his wedding in life would be the youngest daughter of the Emperor.

At this time, the surface of the palace was very calm, but in fact, the undercurrent was raging.

Gai Jiuyou, Ouyang Jing, Ge Lao and others are keeping secrets, and the news that the young father-in-law has been registered as the Empress of Daxia has not spread.

Otherwise the princes have to fry the pan.

But.

The princes are not stupid, there is a premonition in the dark.

East Palace.

A group of princes are gathering, but the emperor does not have a prince, so every prince has ambitions.

In addition to the prince, there are also princes.

A total of twelve people.

They gathered together, and there was a haze on everyone's face.

"Father's emperor has fallen, and now the dragons have no heads, this is not possible, what do you think?"

The oldest man spoke.

A prince said: "Brother, are our ideas useful? Daquan is controlled by Gai Jiuyou, Ouyang Jing, and Da Ge. Whoever they want to support is who they support, **** it!"

The princes and princesses looked ugly.

The prince patted the table and shouted, "Gai Jiuyou, are they going to rebel!"

At this time, an emperor said gloomily: "Didn't you find out? Since the fall of the father, Xiao Shisan hasn't been there. I don't know where he went."

Xiao Thirteen is the little princess.

The youngest daughter of the Emperor.

A prince said solemnly: "I now suspect that Gai Jiuyou and the others will support Xiao Shisan's superior position."

"what!"

"how is this possible!"

"How does this work!"

The princes and princesses were furious, and the table was about to fly.

But this suspicion didn't make sense, because they hadn't seen Xiao Thirteen, and they couldn't even contact.

Everything about Xiao Thirteen seemed to have been erased.

The eldest prince looked cold, and said in a low voice: "Although the power is held by Gai Jiuyou and the others, we are not without power. The princes in the palace and the ancestors are still there."

An emperor said: "Don't mention those princes, don't care at all, they will definitely stand on the side of Elder Ge, Gai Jiuyou and Ouyang Jing."

"Yes, the only people who can stop Gai Jiuyou and the others now are the ancestors."

"The ancestor took a half-step detachment, enough to suppress those guys in Gai Jiuyou."

"In short, we must not let Xiao Shisan take the position, a girl in her early twenties, how can she be the lord of a country, it's a joke."

"Brother, I support you!"

A prince shouted.

This abrupt sentence made the expressions of other princes and princes flustered.

Is this a statement?

Everyone was silent.

When the eldest prince saw this, his expression was cold again, but he didn't show it, and said: "The most urgent task now is to go to the ancestor and explain these things. You can't let Gai Jiuyou and the others mess around."

"Everyone, let me go to the forbidden land, and beg to see the ancestors."

"go!"

A group of princes and princes came to the forbidden area of the Imperial Palace Houshan, where there is a secret realm, and there is no cave.

But no one can open it except Human Sovereign.

The big prince knelt down on one knee, and the other princes and princes also knelt down, and then they all forced a drop of natal blood to sprinkle on the secret portal, and began to pray.

I saw that the blood came into effect, and the entire portal was filled with a red halo.

The eldest prince said: "The descendants of future generations, please see the ancestors, please revive the ancestors, and preside over the overall situation."

"The emperor has fallen, the mountains and rivers are in danger, the Minister of Military Affairs holds the power to contain the royal family, we are powerless, please ancestors to sanction!"

"Please revive the ancestors, please punish the ancestors!"

"boom!"

The portal trembled, and the red halo seemed to penetrate in.

After a while.

The entire imperial palace trembled, and then, the secret door opened, and a breath of vicissitudes of life permeated.

"Welcome to the ancestors."

The princes and princes were crawling on the ground.

The crack in the door grew bigger and bigger, and then an old voice came out and stood in the air.

This old man is really too old.

His face was full of gullies, his body crouched, holding a dragon-head stick in his hand, his whole body exuding a faint breath of death.

This shows that the old man has stepped into the grave with half his foot.

Different from the old and lifeless body, the old man's eyes are piercing and sharp, like a sword like a sword.

"Sanshizu, you have recovered."

"what happened?"

The third generation ancestor's voice was hoarse.

The princes and princes trembled, and the prince said: "The third ancestor, the father has fallen, and now the dragons have no leader. Marshal Gai Jiuyou, Grand Marshal Longge, and Ouyang Jing, the general manager of the palace, control the power. I don't know what to do, maybe To support the puppets in the upper ranks, please call the third generation ancestors!"

"Bold!"

The ancestor of the third generation drank deep, his eyes cold.

Huhuhu.

With a strong wind rising from the ground, Sanshizu brought the princes and princes to the central hall- the Hall of Longevity.

Then he said: "Let Gai Jiuyou, Ouyang Jing and Da Ge Lao come over."

"Yes."

The prince made a color.

The princes and princes quickly left the notice.

At that time.

Ouyang Jing was in the Dragon Pavilion, discussing important matters with the four elders, and felt the horror on the other side of the palace, and they changed their expressions.

Could it be said that the leader of the Imperial League has been killed?

When they rushed to the palace, they happened to ran into the prince and the prince.

"stop!"

They drank.

Ouyang Jing said: "Several princes and princes, what happened?"

"Huh, Ouyang Jing, Da Ge, you're done. The third generation ancestor recovers and wants to preside over the overall situation. Gai Jiuyou, let him roll over immediately."

"Sanshizu has recovered?"

Ouyang Jing and Old Gate's expression changed.

Soon, Old Dage's expression returned to normal, and he said, "The Generalissimo has gone out to do errands, let's go to see Sanshizu."

Hall of Eternal Life.

Ouyang Jing and Da Ge walked in.

The next moment, a breath suppressed him to the ground, and the third generation ancestor had sharp eyes and said coldly: "You want to rebel?"

Da Ge Lao and Ouyang Jing unanimously said: "Three generations of ancestors, we absolutely dare not, we are for the foundation of Daxia."

"Oh?"

The third generation ancestor's eyes flickered, looked at the eldest prince, then stopped breathing, and said solemnly: "Clarify the matter."

"That's it, we got the exact news that the foreign race emperor alliance mainly came to attack the palace..."

The two said the reason again.

Later, he said that Gai Jiuyou went to find Ye Fan, let Ye Fan and the little princess marry, and the little princess became the queen and so on.

The eldest prince was furious.

He actually wanted to support Xiao Shisan's position.

Bastard.

The throne is his, how could it be taken away by others.

"Crazy crazy, you are all crazy, you want to let Xiao Shisan's girl ascend to the throne, but also to marry Ye Fan, let Ye Fan control Daxia's luck, you still say that it is not a rebellion, you and Ye Fan are a group of."

"Sanshizu, please call the shots."

Puff...The princes and princes all knelt down, and the eldest prince was crying bitterly.

Sanshizu's face was ugly.

Da Ge said: "The third generation ancestor, this is also a helpless move, but Ye Fan is a trustworthy person. Moreover, Ye Fan is not in control of luck. Only the queen can control it. Ye Fan can only use it. The queen can cancel Ye Fan's use at any time. Right, so it's safe."

The prince angrily said: "You dare to say that it is safe, this is my royal humiliation, your wolf ambition, you **** it!"

"The prince said carefully, we have worked all our lives and gave everything to Daxia. How much the emperor trusted us and distributed power to us is the proof. We swear to support the royal family and protect Daxia, but now is a critical moment. , The leader of the Imperial League is only Ye Fan to deal with. Could it be, can the third generation ancestor deal with it?"

The Third Generation Ancestor's face sank, he was just a half-step detachment, how could he deal with Ye Fan.

However, it is indeed a shame to let outsiders come in and take advantage of Daxia's luck.

"Sanshizu, please take the overall situation first."

"The prince, I also hope that you will take care of the overall situation and don't put Daxia in a difficult situation for the throne."

The eldest prince gritted his teeth, these words stunned him to death.

At this time, the third generation ancestor spoke: "You have good intentions, but Ye Fan is not appropriate to mix in. Unless..."

"Unless what?"

"He can surrender to my royal family, or sign a blood contract with Xiao Shisan, and become Xiao Shisan's servant instead of her husband."

"How can this be!"

Ouyang Jing and Da Ge's eyes widened.

Fortunately, Ye Fan was not present. If Ye Fan heard this, even if it was directly beaten, the royal family would once again have a major enemy.

"Three generations of ancestors, absolutely must not."

"Why not, you must be a servant, otherwise, you can only come hard."

The ancestor of the third generation snapped.

The prince's eyes were shining, could it be possible that the third generation ancestor had a way to deal with Ye Fan?

Ouyang Jing and Da Ge Lao looked at each other with anxiety.

"Where is Xiao Thirteen, let me take a look at that girl."

Three generations of ancestors.

Ouyang Jing and Da Ge are silent.

The third generation ancestor shouted: "I asked you to bring Xiao Shisan over, dare you not listen to my orders."

boom.

The two vomited blood after being suppressed.

"Yes."

Ouyang Jing and Da Ge Lao sighed, they could only obey the order.

They came to a forbidden place in the palace and opened a secret realm in which the little princess was.

"It's a rich world spirit."

"Little Thirteen actually cultivated in this environment, **** it, these two guys didn't even tell us."

The princes and princesses were jealous.

They discovered the little princess, who had achieved the realm of overlord at this moment, and her body was jeweled and precious.

The third generation ancestor brightened his eyes, and said in surprise: "Little Thirteen actually cultivated into a colored glaze body."

The eldest prince said: "Three generations of ancestors, is this colored glaze body powerful?"

"Awesome."

Sanshizu nodded.

"The colored glaze body has a very strong defensive power, and at the same time it can give birth to the colored glaze divine light. This is a terrible divine light. It has some of the abilities of the innate spirit treasure Qibao Miaoshu."

"Seven Treasure Tree!"

Everyone exclaimed.

The ancestor of the third generation said: "The innate spiritual treasure of the Seven Treasure Tree can bloom with colorful divine light. It is known that nothing can be brushed and everything can be brushed down. The glazed divine light also has this effect, but it is definitely not as good as the Seven Treasure Tree."

The princes and princesses were jealous.

The third generation ancestor said: "Yes, the colored glaze body can also be the queen. You all go."

Huhu.

A strong wind blew the prince and princess, Ouyang Jing, and Da Ge.

The third generation ancestor walked into the secret realm.

In the Hall of Longevity, Ouyang Jing and Da Ge Lao sighed and practiced, not knowing what to do.

"When can Jiuyou come back?"

"have no idea."

When the words were over, Ouyang Jing received the news, and he happily said: "There is a message from Jiuyou, and Ye Fan agreed. He is on his way back and will arrive at the palace in a day."

"I'm worried that something will happen."

"It doesn't matter, we have done everything we have done. If something goes wrong, it may be God's will."

The two sighed again and again.

Da Ge said: "Why did the emperor fall? It really caught us off guard."

Ouyang Jing said: "The axe is too strong to open the sky, and it can naturally kill the emperor."

"Since it's in the past, don't mention it. Let's wait until tomorrow to see the situation. We will gather all the princes. We will also take action when necessary. We can't stay out of the matter."

"Shoot? To whom, Ye Fan? Still?"

"It depends."

Ouyang Jing has sharp eyes.

Chapter 1118: Descend to the palace

The next day.

Gai Jiuyou and Ye Fan came to the palace.

In the Hall of Longevity, Ouyang Jing, Da Ge Lao, all the princes and princes and princes are there, and the third generation ancestor presides over the overall situation.

When he saw Ye Fan, the third generation ancestor was shocked.

He felt Ye Fan's power, it seemed that one hand could pinch him to death, which made him very jealous.

With Ye Fan, there is no doubt that he is seeking skin with the tiger, and then the entire royal family and the entire Daxia will be controlled.

Ye Fan must be a slave.

"Ye Fan, are you sure you want to marry Xiao Thirteen? Once you get married, then you are a member of our royal family, and you will live and die with us."

"Yes."

Ye Fan nodded.

The third generation ancestor said: "Okay, let's go and see Xiao Shisan. There is still more than a month before Xiao Shisan's accession to the throne and your wedding. During this time, you get along well and cultivate your relationship."

"Ye Fan, come with me."

The prince said.

Ye Fan felt that something was wrong, but didn't take it to heart, anyway, she had enough self-confidence.

Came to the West Palace.

This is the residence of the emperors, and one of the splendid palaces belongs to the little princess.

"It's here."

The prince pointed and turned to leave.

Ye Fan walked into the palace.

How powerful is his mental power, he immediately found the little princess, he floated over, the little princess was dressing up.

"You came."

The little princess's voice was as clear as a commander, very pleasing to the ear, but it was mixed with a hint of coldness.

Ye Fan can understand.

Although she has become a queen, she can't help herself. It can even be said that the little princess is a puppet even if she becomes a queen. Of course, the puppet is a bit ugly. To deal with state affairs, the ministers such as Jiuyou, Da Ge Lao, Ouyang Jing have to solve the problem.

The empress is a symbol.

Ye Fan approached step by step, the little princess was very beautiful, her skin was like fat, her black hair was like a waterfall, her profile was very delicate, and her figure was graceful.

"I'm wronged you."

Ye Fan spoke.

The little princess trembled, but she didn't expect Ye Fan to say such things.

Suddenly, the little princess' eyes reddened, tears rolled in her eyes, and she sobbed: "Is my father really fallen?"

"I was not there when the sky was opened, and I did not see the battle between the corpse emperor and the human emperor, but according to the spectator's description, the human emperor was wiped out by the ashes of the opening axe."

"I do not believe."

The little princess abruptly got up, turned to look at Ye Fan, and said with tears: "Father Emperor Jingtianweidi, it is impossible to fall so easily, it must be hidden."

Ye Fan moved his brows and said, "It's also possible that the human emperor should understand the power of the Open Heaven Axe, and it is not sensible to fight with the Open Heaven Axe. Maybe there are some big calculations."

"But no matter what, now the lord of the emperor league is about to attack, you need to ascend the throne to become the queen, and I..."

"I know, we are going to get married."

"Indeed, but don't worry, the wedding is only in name, and I won't touch you. This is just a deal."

The little princess sighed and sat down again.

"You come and comb my hair."

"Can."

Ye Fan picked up the comb.

It was the first time that he combed a girl's hair. In the mirror, the little princess's beautiful face was filled with melancholy and sadness.

Gradually, Ye Fan began to chat, and wanted the little princess to relax.

But suddenly.

A dagger pierced deeply into his chest.

Ye Fan's pupils contracted.

This was too unexpected, and he didn't understand where the power of the little princess could make him pierce his body when he didn't react.

The heavenly tyrant body, even the ancient secret treasure can't be smashed, this dagger...

"boom!"

In an instant, Ye Fan's breath erupted.

The little princess was shocked to fly.

"Boom!"

The entire palace couldn't hold Ye Fan's horrible breath, and it exploded, Ye Fan soaring into the sky.

However.

The sky and the earth changed color, and a killing array rose up.

Bastard. "

Ye Fan was furious.

The third generation ancestor descended, and at the same time there were several figures, all half-step detached.

"what happened?"

In the Hall of Longevity, Gai Jiuyou was alarmed.

Wouldn't it be the leader of the Imperial League?

Ouyang Jing and Da Ge Lao glanced at each other, their faces darkened, knowing that the movements of the third generation ancestor had begun.

Rumbling.

Everyone rushed to the West Palace.

"This!"

Gai Jiu saw that Ye Fan was enveloped by the killing array, and Ye Fan was still stuck with a dagger in his chest, which was unbelievable.

"The fifth generation ancestor, the sixth generation ancestor, the eighth generation ancestor, the ninth generation ancestor!"

The eldest prince shouted in excitement.

The five great ancestors recover.

Five half-step detachers, hahaha, Ye Fan must be suppressed today.

"Gai Jiuyou, you lie to me!"

Ye Fan was furious, and his voice was like thunder, shaking the world.

Gai Jiuyou couldn't figure it out at all.

At this moment.

Ye Fan's body is about to be torn apart, this dagger is not easy, he can't pull it out, **** it!

This dagger is a secret treasure of evil.

"Ye Fan, don't struggle, this dagger and even the ancient evil weapon have the horrible effect of wiping out the flesh, and your Heavenly Domineering Body can't hold it."

Sanshizu sneered.

Looking at Ye Fan's face, there was indeed an evil aura on this dagger, which made his Heavenly Overlord Body unable to hold it.

This evil force is terrible.

Fortunately, Ye Fan possessed the heart of the Qing Emperor and provided life essence to maintain his current state, otherwise he would have been decayed.

What a terrifying ancient evil weapon.

Ye Fan was furious.

At this moment, Ouyang Jing and Dage Lao wanted to cover Jiuyou Voice Transmission, and when they said about yesterday, Gai Jiuyou was angry.

Ouyang Jing and Da Ge Lao didn't even tell him in advance that the two obviously also had an abacus, they wanted to see Ye Fan fight with the ancestors, to see which side has the chance to win, and then make a decision.

But ah.

They are confused.

That is Ye Fan.

Such a deal will definitely be pushed to the opposite side.

"Ancestor, stop, Ye Fan is here to help us, what are you doing."

"Shut up."

Sanshizu angrily scolded.

"Gai Jiuyou, you are so brave to conspire with outsiders to calculate my royal family, do you want to rebel?"

"Ye Fan can't be Xiao Shisan's husband, can't control Daxia's luck, he must be a servant of our royal family."

"Hahaha."

Ye Fan was extremely angry and laughed.

A strong murderous intent burst out, and said coldly: "Very well, I want me to be a slave. This is the first time I have heard such words. A dagger?"

Rumbling.

The killing array trembled, and the ancestors were shocked.

"not good."

The third generation ancestor shouted: "Damn it, how can this kid still have such power."

Ye Fan screamed wildly.

One punch broke the killing array.

The five ancestors regressed, their faces uncertain.

At this moment, Ye Fan stood proudly in the void, his white clothes stained with blood, and said coldly: "I, Ye Fan, came here to help me, but I never wanted to encounter calculations. If that's the case, let's stop here."

"Gai Jiuyou, it's not that I, Ye Fan, didn't have the heart, but the royal family calculated me and wanted to enslave me Ye Fan, then you should be prepared to be enslaved by me!"

Gai Jiuyou's body is cold.

In an instant, Ye Fan's body was surrounded by flames, which had a certain blocking effect on the evil aura of the dagger.

"A bunch of rubbish, all die."

Ye Fan hit the yin and yang Dadao fist, the fist was dazzling, making the five ancestors look distorted.

The ancestor of the third generation roared: "Hurry up, use the secret treasure."

"boom!"

"boom!"

"boom!"

Pieces of ancient artifacts have recovered.

It is worthy of being a royal family, with many backgrounds, and the secret treasures are also taken out one by one.

"Ye Fan, go to death."

"Boom!"

"This kid is strong at the outside, and he won't last long."

The five ancestors smashed the secret treasure madly and kept bombarding Ye Fan; and Ye Fan was also a little weak.

The effect of the ancient evil weapon is too obvious, even if the Qing Emperor's Heart provides life essence, there are still changes.

"Crack!"

A crack appeared in Ye Fan's body.

"Damn it."

Ye Fan shook his body, his breath decayed.

"Hahaha, I just said that this kid is strong outside and doing well, everyone should work harder to suppress this wicked animal."

The third generation ancestor laughed.

In the ruins, Ye Fan was covered in blood, his eyes spinning coldly looking at the world.

The power of his bloodline burst out, and the yin and yang aura was able to restrain the evil aura, which made Ye Fan overjoyed.

The injury stabilized.

So next, he will turn upside down, even if he destroys the palace.

Calculate me, Ye Fan, then be prepared to give everyone.

"The sky is falling apart."

"Rumble."

For a time, the palace was turned upside down.

Ye Fan's aura climbed to the peak again, smashed out with a punch, and blasted the Ninth Ancestor to death.

"Old Nine!"

The other ancestors roared sadly.

"You guys get on the road too, trash." Ye Fan grabbed the eighth generation ancestor by the head.

"No, Ye Fan..."

"Boom!"

The eighth generation ancestor's head was squeezed.

For Ye Fan, they were too weak; just now Ye Fan was suppressed by ancient evil weapons, so it was difficult.

Now that the ancient evil weapons are restrained, he has exerted his peak combat power.

"This this this..."

The princes and princesses were scared to death.

Gai Jiuyou was in despair.

It's over.

It's all over.

Ye Fan was pushed to the opposite side, and the royal family was over. What are these ancestors, this group of **** fools, pretending to be.

Do you want to deal with Ye Fan even if you are half-step detached?

Is he really worthy of himself.

Gai Jiuyou was roaring and roaring in his heart, all his efforts were in vain.

At this moment, Gai Jiuyou shed tears.

He felt sorry for the emperor.

Ouyang Jing and Da Ge Lao glanced at each other, lamenting, knowing that everything was cold.

In the ruins, the little princess shed tears when she watched Ye Fan who was killing him everywhere. She didn't feel sorry for the ancestor, but regretted that she was bewitched by the ancestor and assassinated Ye Fan.

Originally, Ye Fan could protect the royal family.

"Father, I'm sorry." The little princess wiped her neck and fell in a pool of blood.

Ye Fan was already blushing.

With one punch after another, he exploded the secret treasure, and the souls of the third, fifth, and sixth ancestors were scattered.

They fled frantically to the Forbidden Area of Houshan.

"Want to escape?"

"Die."

Ye Fan carried the sky full of flames to kill, bombarded with a punch, and the sky was torn apart.

Sanshizu exclaimed: "Big Brother, save me."

Knuckles on the eye.

In the secret realm where the ancestor was sleeping, a divine light burst out, cracking Ye Fan's fist.

Subsequently.

A gray-haired old man walked out with a broken big seal in his hand.

It was the power of the Great Seal that defeated Ye Fan's fist.

"Da Shizu."

The princes and princesses shouted.

This person is the head of the nine great ancestors, the great ancestor, although he is only half-step detached, he is much better than the third ancestors.

"Ye Fan, stop here, I apologize to you."

"I but you apologize?"

Ye Fan sneered.

Da Shizu said: "According to the previous arrangement, you and Xiao Shisan were married, giving you the power to take advantage of Daxia's luck."

Ye Fan laughed: "It is better to control the air luck than to use the air luck."

"Bold!"

Da Shizuo's eyes opened in anger.

Chapter 1119: The teacher of a country

In control of Daxia's luck, this Ye Fan wanted to be in the top position.

Rebellious.

"Ye Fan, don't deceive people too much. The palace has a lot of layouts, and it hasn't been used yet. You really can stir the palace by yourself and destroy my royal family."

"How can I know if I don't try."

"The ignorant is fearless." The broken large seal in Da Shizu's hand bloomed with brilliance, and it instantly turned into a huge seal of thousands of meters in vertical and horizontal directions.

Ye Fan's eyelids twitched, what a heavy force.

Da Shizu shouted: "Suppress me!"

"boom!"

The Great Seal was suppressed, and the emperor collapsed directly.

Very heavy.

Ye Fan was suppressed and fell.

"roll."

With the suppressed anger raging, Ye Fan's power exploded frantically, blessed by all kinds of blessings, and smashed the giant seal into the air with one punch.

At this moment, Ye Fan seemed to be the emperor.

Behind him, an upright vision emerged, carrying the breath of a golden horse and iron horse.

"Fusion."

Ye Fan's eyebrows were sharp, combined with strength, and shot out loudly.

Da Shizu's pupils contracted.

The broken big seal was knocked into the air, the light dimmed, and then he fell silent, and he himself was sprayed with blood violently, and he was seriously injured.

"Big Brother!"

The other ancestors surrounded him.

Ye Fan came, and at this moment, Gai Jiuyou appeared in front of the ancestors, pleading: "Ye Fan, please be merciful."

"You are merciful? Don't you think it is ridiculous."

"The little princess has already decided on herself."

Ye Fan's eyelids twitched, his eyes searched, and in the ruins, he saw the little princess deciding herself.

Gai Jiuyou said: "Ye Fan, I invited you to come and caused you to suffer misfortune, and I was also at fault. I now judge myself and ask you to let go of the royal family."

When the words were over, Gai Jiuyou patted his head with a palm.

Very decisive.

The ancestors were all dumbfounded.

Ye Fan frowned, his body trembled, and a breath suppressed Gai Jiuyou, making him unable to move.

"Nothing to do with you."

"I'm wronged, I'm going to kill this old immortal."

Ye Fan is not polite.

One punch smashed the third generation ancestor.

Then he restrained his breath, looked at Da Shizu, and said, "What do you say?"

Da Shizu sighed.

Ye Fan is not what they can fight against. It is true that the palace has some decorations, but Ye Fan desperately, afraid that they will die, and the palace will be destroyed.

The gain is not worth the loss.

Da Shizu stood up with help and said, "Ye Fan, let this matter go, but you absolutely can't take the position. This is our bottom line."

Ye Fan snorted coldly, and arrested the young man.

The life essence of the Azure Emperor's Heart was injected, and the great healing technique was performed, and the little princess awakened in a short while.

Wiping the neck, for Ye Fan, a very low-level method, it can be rescued within half an hour.

"Where am I."

"Little princess!"

Gai Jiuyou cried with joy.

Ye Fan waved his hand and said coldly: "Let's continue together, National Day enthroned, but we don't have to get married anymore. I, Ye Fan, rank among the masters of the country, how about?"

"A national teacher, a national teacher?"

Gai Jiuyou looked at the ancestors.

Da Shizu's eyes flashed, and he nodded: "Guo Shizu can, no problem."

Ye Fan flicked his fingers, and a pure life essence was injected into Da Shizu's body.

In an instant he recovered from his injury, not only that, but he seemed to be twenty years younger and his waist straightened.

"So comfortable!"

Da Shizu was pleasantly surprised.

"Ye Fan, thank you very much, and I apologize to you again."

"The culprit has already been killed, and there is no need to mention this. Ye Fan, I am not a murderer of innocent people. But this is not an example. If you dare to count me, then you will disappear from this world."

Everyone was chilling.

Ye Fan looked at the dagger in his chest, and said: "This ancient evil weapon is very weird, I can't pull it out, what can you do?"

Da Shizu said: "We really don't know this."

Gai Jiuyou said: "I remember that there is a treasure in the palace treasury. It's called the Sanhun Hook, which is also an evil weapon. I don't know if this dagger can be hooked out."

"Try it."

Ye Fan has a headache, this evil weapon is very weird.

Da Shizu said: "You will rest in the secret realm. This recovery will consume a lot of your life types."

These ancestors no longer know how many years they have lived. The deadline is approaching and lifeless. This recovery battle is very expensive.

They wanted Ye Fan to give them vitality, but they were embarrassed to speak, so they could only return to the secret realm to sleep.

Da Shizu got the vitality, and now his body is not bad, he told Ouyang Jing to deal with the battlefield.

Later, he brought Ye Fan and Gai Jiuyou to the palace treasure house.

The treasure house is an ancient secret house.

The door opened wide, and a shadow shot out, Da Shizu grabbed it, and it was a small beast.

This little beast doesn't have much attack power, but it is very auspicious.

This is Rui Beast.

The auspicious beasts represent auspiciousness. In ancient times, the sect forces would cultivate some auspicious beasts.

Da Shizu threw Rui Beast into the secret mansion again.

The three drove straight in.

Ye Fan saw that there were a lot of resources in the secret palace, but for him now, he needed high-level resources, and those resources used to be useless.

"This is the Soul Diffusion Hook."

Coming to the depths, a secret room, said Gai Jiuyou.

Ye Fan stared at the rusty hook. Although it was ordinary, it was frightening.

Ancient evil weapon.

Great.

Ye Fan was surrounded by yin and yang breath, grabbed the soul-scattering hook, and sure enough, as soon as he started, the evil weapon was revived.

The evil breath will invade into the body.

Fortunately, the yin and yang aura was restrained, and Ye Fan used the Soul Diffusion Hook to really hook the dagger out.

Afterwards, the heart of Qingdi recovered his wound.

The speed of repair visible to the naked eye made Da Shizu and Gai Jiuyou stunned and shocked.

"What is the origin of this ancient evil weapon?"

"I don't know." Da Shizu shook his head, "I got these two ancient evil weapons fifty years ago. The place is very strange, and I am also alive and well."

"where?"

"There is a mysterious place in Shiwan Dashan, you are going to, I will give you the message to you."

Da Shizu passed that part of the memory message to Ye Fan. After receiving the message, Ye Fan decided to check it out in the future.

The place where such a terrifying ancient evil weapon can appear is amazing. This ancient evil weapon is a killer.

Fortunately, he had the power of the bloodline to restrain the ancient evil weapon, and replaced it with someone else, such as Jiang Wudao, who was stabbed, fearing that he would die directly.

"Ye Fan, take one of these two ancient evil weapons."

"Then I'm not welcome."

Ye Fan chose the dagger and put it in the space ring.

Then he continued to browse the treasure house, because Gai Jiyou had promised him before that he could use resources to help him open up a sea of suffering.

Looking at Ye Fan's wanton collection of resources, Da Shizu felt very distressed, but there was no way, who would offend Ye Fan.

Moreover, Ye Fan is also needed to fight against the leader of the Imperial League.

After a long while, the three talents left the secret palace, Ye Fan was considered a good harvest, and the resources to open up the sea of suffering were ready.

"Ye Fan, how long will it take for you to open up the sea of suffering. Don't kill the leader of the Imperial League when you open up, that would be terrible."

"It won't be long, don't worry, I know it in my heart."

"That's good."

"You are going to prepare for the National Day enthronement, I will leave the palace first, and I will show up the same day."

Ye Fan couldn't open up a sea of bitterness in the palace, he was still very wary of these people.

Da Shizu breathed a sigh of relief.

"Finally gone."

"Da Shizu, I am wrong."

"It has nothing to do with you. I understand your good intentions. This can be regarded as a small disaster for our royal family." Da Shizu smiled bitterly, and then ordered: "Little princess ascends the throne and prepares well. In addition, you have the right to deal with it before then. Everything."

"Yes."

Gai Jiuyou bowed.

Da Shizu returned to the sleeping secret realm.

Ouyang Jing and Da Ge Lao arrived, and Gai Jiuyou snorted coldly, dissatisfied with what they had done.

"I won't say anything extra, Ouyang, arrest all the princes and princesses. Before the little princess takes the throne, she can't make any baskets."

"good."

"I hope everything goes well, we do what we should do. Do everything to know our destiny."

Chapter 1120: Open up a sea of bitterness

Ye Fan left the capital and found a treasure mountain in the Great Emperor Zhongzhou. His movement to open up the sea of bitterness must be great, and he must be in the mountain.

After mobilizing all the resources, Ye Fan took a deep breath, a little excited and excited.

"There are so many natural treasures, enough for me to open up a stable sea of bitterness, and to integrate into the world wood in the future."

"let's start."

The power of Ye Fan's bloodline burst out, and his entire body climbed to the peak. Generally speaking, the sea of suffering was in the Dantian place.

First, he broke the pubic area.

This first step is very life-threatening.

Many people can't hold it.

After breaking the pubic area, it is necessary to open up the sea of suffering in the original position. How to open it is different for everyone.

Ye Fan's blood was resurrected, and he also inherited some methods. He wanted to use the power of Yin and Yang to open up a sea of suffering.

"boom!"

Shaking in his body, Ye Fan was controlling this power to bombard his dantian, but his dantian was really too strong.

The ordinary person's Dantian was nine years old in one blow, but Ye Fan's was different. He bombarded the Dantian one after another and was still intact.

This made Ye Fan very painful.

"Boom boom boom..."

Ye Fan frantically controlled the power bombardment, gritted his teeth, and finally, after thousands of bombardments, cracks appeared in his dantian.

Ye Fan burst into anger.

In the end he smashed Dan Tian away, and his whole body trembled uncontrollably.

After the pubic field is broken, one needs to leave to open up a sea of suffering.

"Come and come."

Ye Fan shouted in his heart, the power of yin and yang turned into a giant axe, and its target was the place where the dantian was originally located.

The public area was broken, and that piece seemed to be turned into chaotic ruins.

What we need to do now is to split the chaotic ruins.

"boom!"

The giant axe chopped down and landed on the chaotic ruins, Ye Fan spit out a mouthful of blood with a wow.

Damn it!

Ye Fan cried secretly, this was also painful.

The chaotic ruins are even more rigid than Dantian, it seems that opening up a sea of suffering is not easy.

With every bombardment, Ye Fan would spit out blood.

Moreover, Ye Fan didn't know that every time he chopped it, the world would shake, and this mountain range would be alarmed.

The big beast came looking for the sound.

There are also some alien creatures.

All the different races were born, not only the Kunlun Mountains and the Northern Wilderness, but there were alien creatures in various places throughout the summer.

Ye Fan was immersed in the development, and didn't know the situation outside.

Not long.

Many creatures arrived at the place where he was. The first thing they saw was that huge resources, all of them heated up.

However, when he saw Ye Fan, all the creatures were horrified.

With silver hair in white clothes, it's Ye Fan!

Ye Fan is opening up a sea of bitterness!

The original enthusiasm was instantly extinguished, who would dare to hit Ye Fan's idea? Isn't this looking for death?

But there are always some bold.

"Ye Fan opened up a sea of hardships, and subject to restrictions, we can grab some resources."

"Indeed, wealth is in danger."

"Is it safe? This is a bet on my life, I am very worried."

The pinnacle overlord hesitated.

at this time.

Ye Fan's body trembled, and another breath of blood spewed out, his breath wilted.

"what's the situation?"

"Has Ye Fan's development failed?"

What are the facts?

In fact, Ye Fan somewhat underestimated the difficulty of opening up the sea of suffering. With the constant bombardment of the giant axe, the chaotic ruins did not split, but instead caused himself to be internally injured.

"what should I do now?"

Ye Fan was in a difficult situation.

He mobilized all the power in his body to carry out the bombardment, but he still didn't move.

"Is the sea of bitterness so difficult to open up the sky? It seems that the stronger the physical body, the harder it is to open up the sea of bitterness."

Ye Fan was very upset.

He withdrew from the state and found many creatures around him, his face sank.

Suddenly, these creatures stood upright and fled frantically.

Ye Fan put the resources into the space ring.

He did not return to the capital.

He also has to follow the method of opening up the sea of suffering.

"By the way, the ancient evil weapon."

Ye Fan took out the dagger, this ancient evil weapon could easily pierce his body, could it also split the chaotic ruins in his body?

It's just that it's dangerous.

But in order to open up a sea of bitterness and to fight against the leader of the Imperial League, Ye Fan felt that he had to take a risk.

He entered the state again.

"puff!"

The dagger was inserted into the body by him.

Suddenly.

The evil breath erupted.

Ye Fan's face changed drastically, and he madly controlled the Yin-Yang Qi and Yin-Yang power to suppress it, but he was unable to do what he wanted.

This evil aura was incomparably violent, spreading teeth and claws, trying to wipe out Ye Fan's body.

"hateful."

Ye Fan gritted his teeth.

He worked hard to force the dagger and evil aura to the chaotic ruins. Although it was difficult, he was indeed advancing a little bit.

Hula la.

The Qingdi's heart bloomed with brilliance, conveying vitality to Ye Fan's body.

at the same time.

Resources are also being swallowed by Ye Fan.

Every aspect was helping Ye Fan, and finally, after suffering for an hour, the dagger and evil aura came to the chaotic ruins.

"Drive me!"

The force of yin and yang manipulated this dagger and slammed towards the chaotic ruins.

The result excited Ye Fan.

It's really open!

This dagger was so good that it really cut through the chaotic ruins, and the ruins began to evolve toward the state of the sea of bitterness.

However, Ye Fan discovered again that the evil aura had melted into the sea of bitterness.

This made Ye Fan's eyelids jump wildly.

This is not a good thing, will there be any changes?

"When I return to Kunlun, let the Elf Queen purify me. The evil aura stays in the sea of bitterness, which is a time bomb."

Ye Fan observes the evolution of the sea of suffering.

It's like a chaos that evolves into a small world.

It's as if Ye Fan was opening up the world just now.

This observation has changed the mood.

Ye Fan's bitter sea evolves very slowly. I don't know why, it seems that there is a strong resistance.

Seven days later.

The bitter sea finally evolved.

A ray of light rushed out of Ye Fan's body and rushed to the sky, where it lasted for a long time.

Dantian transformed into a sea of bitterness, but now it is empty in the sea of bitterness.

What Ye Fan has to do next is to absorb the essence of heaven and earth and turn it into spiritual power, so that his body can adapt to the high-level energy of spiritual power.

All resources are consumed cleanly.

Ye Fan used the power of yin and yang to touch the sea of bitterness and found that the sea of bitterness was extremely strong. The only flaw in the beauty was that the sea of bitterness was surrounded by evil auras.

But the evil aura did not cause chaos, and existed quietly in the sea of suffering.

In order to check and balance, Ye Fan can only mobilize the yin and yang breath into the sea of bitterness.

"The ancient evil weapon is really powerful."

"It's still early, go to Shiwan Dashan to take a look, by the way, condense spiritual power and adapt to this high-level energy."

Ye Fan left.

One day later he appeared in Shiwandashan.

He did not go to the mysterious area that Da Shizu told him the first time, but came to Tongyou Valley.

If Nalan is here, he wants to see him.

"Who is here."

"Ye Fan."

Naha almost fell from the air.

"Ye Fan?!"

Taking a closer look, it was indeed Ye Fan. The overlord hurriedly clasped his fists and said respectfully:
"Yehuang, why are you here?"

"Is Nalanruo here?"

"The Valley Master is retreating."

"Nalan has become the Valley Lord? That's good." Ye Fan nodded, ignoring the overlord, and wandered into Tongyou Valley.

Under the great tracking technique, he found Nalanruo in a retreat.

Walked in.

What surprised Ye Fan was that if Nalan was on the verge of detachment, he seemed to have found the extreme, just a little bit closer to the last.

"It's better to come early than to come by coincidence."

Ye Fan decided to help out.

This was very easy for him, because even if he didn't take action, Nalanruo would be detached, he just let the time advance a bit.

after one day.

"boom!"

An extremely strong spiritual force enveloped the entire Tongyou Valley, and everyone knew that Nalan Ruo was detached.

All knelt down on one knee, greeting Nalanruo respectfully.

Ye Fan and Nalanruo walked out together, and Nalanruo said, "I'll go out."

Leaving Tongyougu.

Nalanruo said with emotion: "Since the disaster in the base, I was taken away by the master, and I have been practicing with great concentration. I also heard that you are not dead, but there is no time to see you."

"Isn't I coming to see you."

"Where are you going?"

"Going to a mysterious place is dangerous. Are you sure you want to come with me?"

"I just got detached and I need to verify my strength. Together, we also have a care."

"Well."

Ye Fan grabbed Nalanruo's hand, cast a large shift technique, flashed a few times before disappearing.

When he reappeared, he was already in the mysterious zone that Da Shizu said.

"This is an entrance to a secret realm."

Ye Fan noticed a similar evil aura, Nalanruo was hairy, and said: My instinct tells me it's scary inside. "

"That is inevitable, the evil weapon was born, it was once normal. Or would you just wait for me outside?"

"No, I want to see it too."

"I really can't do anything with you." Ye Fan smiled, opened the secret realm entrance, and walked in with Nalanruo.

The sky was spinning around.

The scene in front of him has changed drastically. It seems to be a boundless hell, full of evil, cold and terrifying.

"Big body protection technique."

Ye Fan took Nalanruo, the brilliance of the great body protection technique enveloped the two, and at the same time took out the great power pearl and the Jidao Ling, and made all preparations.

The evil aura here is not strong, and there is no pressure, but it is clear that as it gradually deepens, the evil aura will become stronger.

"Where is this, there is no creature, it's lifeless."

Nalanruo was cold all over.

Ye Fan's Yin-Yang Eyes can only see a hundred meters in radius, and can't see through from farther away.

Suddenly.

Ye Fan felt the space ring trembling, it was the dagger, and he took it out.

Suddenly.

The evil aura gathered, rushing into the dagger crazily, the dagger was absorbing the evil aura, and Ye Fan felt that the power of the dagger was increasing.

This is no joke.

Once the dagger is so powerful that she can't control it, who knows what will happen.

"Suppression."

Ye Fan used the great seal technique and then wrapped the dagger with the yin and yang aura, which prevented the evil aura from being absorbed.

The two moved forward cautiously, but before they found the central area, they were blocked by the powerful evil aura and power.

"Ye Fan, let's withdraw, I feel that there is a big horror ahead, which is not something we can resist."

"go."

Ye Fan also had a foreboding.

at this time.

There was movement in the strong evil aura, and then a weird black hand grabbed them at them.

Nalan was horrified.

"Yin Yang Fist."

Ye Fan raised his hand with a blow, but he never thought that without breaking the black hand, he immediately knew that it was difficult and could not stand the enemy.

He hugged Nalanruo and fled outside madly.

At the same time, it used the power of different fires to set off a sea of flames; however, nothing could stop the black hand.

In a hurry, Ye Fan thought of the dagger, he took the dagger out, turned around and stabbed the black hand fiercely.

really.

The black hand was pierced and disappeared suddenly.

At the same time, there was a weird cry in the far depths.
