

## **Elegant SS 1171**

Chapter 1171: Xeon collision

Supreme device?

Ye Fan was greatly shocked.

According to what the Xieyue Ancient Emperor said, the Supreme was comparable to the Great Emperor, or in other words, he had the Great Emperor-level combat power when he was once brilliant.

A supreme magic weapon, isn't it equivalent to an imperial soldier?

That is to say.

This dagger is similar to imperial soldiers?

good guy.

Ye Fan was directly confused.

Similarly, the commanders of Simba were also shocked, of course they knew the horror of the Supreme Weapon.

Ye Fan even has such a thing, that's worth it.

If it recovers, let alone them, even their \*\*\*\* king will be killed in seconds, and the heaven will be penetrated and collapsed directly.

It is simply unimaginable that the existence of the Supreme Weapon and the Imperial Armament will recover.

Of course.

If you want to revive the supreme weapon or the imperial soldier, let alone the sea of bitterness, there are countless seas of suffering, countless supernatural powers, and countless Taoist palaces.

That's what a saint can do.

"The Supreme Artifact in Ye Fan's hand should have undergone a change. He must have suffered a heavy blow in the long river of time and lost most of the power of the Supreme Artifact, so Ye Fan was able to revive it."

"But even so, it is of infinite value. As long as there are enough resources, it can be repaired by itself, and there will be a chance to be re-promoted to the supreme weapon in the future."

"If my family can get it, then the strength will definitely be improved to a higher level, and it can go to other great worlds."

"That is the supreme weapon of the Black Prison Supreme. The Black Prison Supreme is one of the most evil Supremes. It has set off countless \*\*\*\* storms, created dark turmoil, and killed countless living beings. The heavens and the world are in turmoil. Who dares to take the black The magic weapon of the Supreme Prison, Ye Fan is dying!"

Simba felt that the ancient emperor Xieyue said right before his death. Ye Fan got the magic weapon of the Black Prison Supreme, and he was burdened with huge karma and karma, and he would definitely not die in the future.

Ye Fan stood in the sky.

The evil dagger devoured the primordial spirit of the ancient emperor Xie Yue and returned to the body, which also brought a lot of information to Ye Fan.

For example, the information about the Black Prison Supreme, the information about the Yin Yang Supreme, and many secrets from the ancient times.

At this moment, Ye Fan's spiritual consciousness surged.

I got so much information all at once. Fortunately, Ye Fan's spiritual knowledge is huge, and even a normal cultivator, even a \*\*\*\* emperor and an Asura woman, might not be able to bear it.

While Ye Fan was familiar with the information in his mind, the remaining ten commanders, including Simba and Will, controlled the blood clothes and bombarded the exit crazily.

finally.

The life and death map is broken.

They finally escaped and came to the outer starry sky.

"All battleships ready."

Simba roared, being beaten so embarrassedly that he lost six commanders, which was too great a loss.

Must fight back.

Above the vast starry sky, there are sixteen battleships, which are sixteen behemoths, entrenched in the starry sky.

Under Simba's order, 16 warships launched, turned on the offensive mode, and concentrated a powerful blow.

The attack of sixteen battleships is not simple, it is equivalent to eight-winged angels; plus Simba and the other ten commanders, it can be said that this is a joint strike of twenty-six eight-winged angels.

How terrifying!

Ye Fan didn't know it, he closed his eyes, very interested in the thinking in his mind, very obsessed.

The Ancient Evil Moon Emperor lived for a long time.

In ancient times, he was a well-known powerhouse.

Black Prison Supreme sat down for three thousand ancient emperors. He ranked in the middle and upper reaches. In ancient times, he was a saint, and he was a great saint. He could almost become an invincible saint king.

He also has magic weapons.

It was given to him by the Black Prison Supreme. With the magic weapon, he was able to confront the invincible holy king.

Unfortunately.

When he was fighting against the Yellow Emperor, the magic weapon fell apart and disappeared, and he was suppressed.

In fact, it is not that the Yellow Emperor cannot be killed.

To know.

The Yellow Emperor is the quasi emperor, he is stronger than the Invincible Saint King, how could he not kill the Great Saint of the Dead Zone?

It is not clear why the suppression was carried out in the palace, or whether it was a whim of the Yellow Emperor, or what was planned, it is unknown.

Suddenly.

Ye Fan's body tightened voluntarily and felt threatened.

He opened his eyes.

Just in time, sixteen warships launched an attack, and Simba and other ten commanders also shot.

All the energies converged and turned into a dazzling rainbow that reflected the starry sky, rushing down like lightning.

The channel is shaking, cracking, about to collapse.

Simba wanted to break the passage and obliterate it together with Ye Fan.

As long as it can obliterate Ye Fan, it doesn't matter if the channel is destroyed.

Anyway, if you can get through the first time, you can get through the second time, but it will take a little time.

"Evan!"

The queen exclaimed, that energy Changhong is too strong, too terrifying.

It was as if the whole earth was shaking.

Everyone was worried, what would happen if Ye Fan was bombed and killed, who would stop the Angels.

"die!"

"Ye Fan must die!"

Jiang Wudao was shouting.

He wished Ye Fan was beaten to pieces.

In the passage, watching the energy Changhong rush in, Ye Fan was not only not afraid, but was extremely excited and fighting.

"open!"

His celestial hegemonic body has recovered to the extreme, with many blessings, such as the Great Inflation Technique, Great Blessing Technique, Flesh Inscription and so on.

The aura of the flesh is simply more vast than that of Wang Yang.

Nineteenth-level Celestial Hegemony.

This is the height Ye Fan has reached.

This is why Ye Fan is so strong.

After merging with the earth, his hegemony level rushed to the nineteenth level, which was extremely terrifying.

Even in the ancient times, Ye Fan's age, this realm can reach such a sky-high body, it can be said to be the leader of the younger generation.

Ye Fan went up against the sky and hit the strongest punch.

"boom!"

Shocking explosion.

Countless cracks appeared in the passage, and it began to collapse. The starry sky storm washed out, and Ye Fan had to be strangled.

But Ye Fan stood in the energy storm and the starry sky storm, letting the storm destroy his body.

He wants to use this to take the springboard to the next level.

Heavenly hegemony, not level 10 is a hurdle.

Ye Fan was unable to break through to level 20 and felt regretful that he wanted to try now.

"The Gate of Heaven."

Ye Fan opened the door.

"Xuanyu Heaven Monument."

He grabbed the Heaven Monument and directly suppressed the passage.

However.

Solid is solid, just so that the channel does not collapse.

The cracks in the channel could not be healed, and a steady stream of storms rushed out.

Ye Fan walked in it, heading towards the outer starry sky.

He was under enormous pressure and faced difficulties and obstacles, but he gritted his teeth and moved forward step by step.

How could Simba, Will and the others let them leave unharmed.

So many star warships, how can I let it go.

Ye Fan has long envied that the God Emperor has a battleship, but it is very ancient, and its power is not comparable to the battleship of the Angels.

Sixteen battleships, even if you get half of them.

Extraterrestrial starry sky.

On the main battleship, Simba and other commanders stood.

They can't see through.

"Ye Fan is dead, even if not, he will be seriously injured, but I didn't expect the passage to collapse."

"Why do I feel wrong?"

Will frowned, his broken wings trembled, and said, "I feel a chill in the dark, don't linger, hurry up and withdraw."

A commander said: "Now that Ye Fan is seriously injured or killed by bombing, we don't have to rush to evacuate. Maybe we can come to Zuxing. It's such a shame in the Hui clan."

This is not true.

Simba made a final decision and said: "All warships open the defensive array and wait and see what happens."

Then Simba and the others began to repair the injury.

Time is passing.

Ye Fan has gone through hardships and progressed step by step. It is not easy to reach the extraterritorial starry sky. At the same time, he is also attacking the realm barrier and wants to break through to the 20th level of the sky.

The passage is full of storms.

cover everything.

Simba and the others can't see through it, and the creatures watching the battle on Earth naturally can't see through it, and they don't know what's going on.

"Has Ye Fan fallen?"

This is the question in the mind of every living being.

The empress, the \*\*\*\* emperor, the Shura goddess, and the members of the Tianzun Hall all knew that Ye Fan had not fallen.

Ye Fan is invincible.

He can go to the heavenly world at any time, and this is the safe way out.

Suddenly.

The queen got Ye Fan's message.

"I'm trying to make a breakthrough to prepare for the next attack of the angel race; I have to make another breakthrough next time. The next time the angel race will come, and even the so-called \*\*\*\* king will come, I still need to make a breakthrough."

"Don't worry about me, and you don't have to panic. At this stage, Simba and the others are repairing in the outer starry sky, and they will not return to attack for the time being."

"I have everything."

Ye Fan's words brought tears to the Queen's eyes.

Everything has me.

These four words show Ye Fan's responsibility.

Who can do this.

All beings all over the world would like to thank Ye Fan.

only.

How many people know about it?

People in the secular world don't know this.

Ye Fan is an unsung hero.

Taking a deep breath, the queen spoke, and the voice spread to all directions, "The attack of the angels is temporarily blocked, we have a short period of stability, everyone should not panic."

"Until there is no roof to solve the Angel Clan, all the clans and forces in the world must not fight infighting, and need to share the enemy."

"Who dares to betray, kill without mercy!"

"The witch master, the Buddha master, Jiang Wudao, and the emperor of the alliance betrayed, and everyone got it and executed it."

The words fell, and the queen left.

Three days later.

The Queen and some members of the Tianzun Temple led the army to the Wuzu territory, but found that the territory was empty.

The Emperor of God and the Asura woman also came with some troops.

Looking at the empty territory, the emperor said: "The witch master is really willing, and the emperor doesn't want it."

Asura woman said: "I can't move him if I want him. It's okay for Taihuangtian to stay here. It's not easy to explore. Once the witch master controls Taihuangtian's Tianbao, he can control Taihuangtian."

The emperor said: "The witch master should not have obtained the Tianbao, otherwise there is no need to escape. Manipulating some of Taihuangtian's magic circles is enough to fight against the army."

The queen said: "No matter what, the witch masters are wanted. I don't believe that millions of witches can disappear out of thin air, and they must be hiding somewhere."

"It is not easy for millions of creatures to hide, and it can even be said that it is impossible. Did the witch master also find a small world, or a huge secret realm?"

"It can be calculated, or it can be tracked with a big tracking technique." Tang Ying said, and sent the message to Fang Rui in the heavenly world.

Soon.

Fang Rui replied.

Tang Yingdao: "It can't be calculated, and the big tracking technique can't find their breath of the witch master. It seems that they really disappeared on the earth out of thin air."

Everyone felt incredible.

There is such a thing!

Chapter 1172: Second wave of offense begins

A month later.

The world passage is still the same, full of storms, and outside, the forces of all major ethnic groups have arranged for soldiers to be stationed.

There are 80 million soldiers in a radius of ten thousand miles.

All are waiting.

In the midst of the storm, Ye Fan has not moved forward, he sits cross-legged, the storm is tempering his body, and his spirit is doing a lot of things.

Occasionally practice supernatural powers and secrets, occasionally familiarize yourself with the memory information of Xieyue Ancient Sovereign, and occasionally explore the mysteries of bloodline...

"It's really not easy to break through the 20th-level Celestial Hegemony Body, and there is still an opportunity. This requires opportunity, and it is impossible to force it."

At a certain moment, Ye Fan opened his eyes.

Sigh secretly.

He got up, his eyes were like torches, the storm could no longer hurt him, and he could go to the outer starry sky at any time now.

However, Ye Fan was not reckless.

He couldn't see it from the outside, but he could see it clearly. The outer starry sky and the circles of the sixteen battleships were integrated into one.

Therefore, it is meaningless to go to the outer starry sky. On the contrary, because of the unfamiliar environment in the starry sky, it has a great impact on his combat power.

It's not good when the boat capsizes in the gutter.

Now he needs to play steadily.

Keep practicing.

Waiting for the second wave of the angels to attack, he did not take the initiative to attack, because the earth man needed time.

Another month passed.

this day.

In the main battleship, Simba and other commanders came out, and they all returned to their peak state.

Looking at the world channel that was still the same, Simba said: "It's not the way to go on like this, you need to arrange for the vanguard to go in and see."

"Isn't this cannon fodder to die?"

"There is no way, there must be sacrifice. Will, the soldiers of your lineage should be the vanguard."

"Three, why!"

Will is very dissatisfied and his face is angry.

The thirty-six commanders of the Angel Race all have their own branches, and the internal competition is also very strong.

His line of soldiers as cannon fodder were all dead, and his strength was greatly reduced.

If the branch is weak, the resources won will be less, and if there are no resources how to cultivate, this is a dead cycle.

Simba glanced sideways and said coldly: "Humph, you came first, but you didn't solve Ye Fan, this is your fault, you need to pay some price."

Will said solemnly: "How can I solve Ye Fan, it seems that you can solve it after hearing this."

Simba's face sank.

At this time, a big commander rounded up the field and said: "Well, Will, you dispatched 100,000 soldiers in one line, you brought a million soldiers this time, and one tenth of them are the vanguard. It should be no problem."

Will gritted his teeth, knowing that if he continued to make trouble, there would be no result.

Soon.

The 100,000 Angel Pioneer Team has been dispatched all the time. They are wearing battle armors. At this time, the specially made battle armors have extremely strong defensive power.

At the same time, they were aboard a warship.

Although the battleship is not as good as the battleship, it is still very powerful; I can only see that the battleship is slowly approaching the entrance of the passage.

"Ok?"

Ye Fan sensed it, opened his eyes, and smiled immediately: "I actually arranged for cannon fodder to come here, okay, I accept this warship, there should be 100,000 angels, very good, all of them will be suppressed and sent to the heavenly world."

Ye Fan opened the gate of heaven and informed everyone to get ready.

Rumble.

The warship entered the passage and was immediately shattered by the storm.

at this time.

Ye Fan took action, grabbed the warship, blocked the storm, and then threw the warship directly into the heavenly world.

"hold head high."

Long Yin is high-pitched.

The queen is also in the heavenly world, manipulating the golden dragon of luck, and suppressing it with the Nine Dragons Jade Seal in her mouth.

at the same time.

The disaster Tiangong was also suppressed.

The warship and the 100,000 angels couldn't move. These were all four-winged angels, and Will couldn't bear to be the cannon fodder for the six-winged angel.

"Damn, we were captured."

The captain of the vanguard team was furious.

"Congratulations on your answer."

Min Dong and the others laughed.

But what I didn't expect was that there were many dead soldiers in these vanguards, and they blew themselves up without saying a word.

Boom boom boom.

In an instant, half of the 100,000 angels died.

"Bastard!"

When Ye Fan saw this outside, he was furious.

He spit out six golden characters, which are the six-character mantra of Buddhism, and the remaining 40,000 or 50,000 angels almost fainted.

"Great Purdue."

"Purdu Divine Light."

Ye Fan directly saved these angels.

Although the angels have the talent for baptism, the gap is too big. How can these four-winged angels baptize the light of Purdue displayed by Ye Fan? They were quickly transformed, and they were all honest.

After half a day.

The vanguard was like a rock sinking into the sea, and there was no news at all, and Will's heart was bleeding.

"The second batch of vanguards is ready."

"What did you say!"

Will glared at Simba.

The other commanders also had their opinions. This is obviously a death sentence, which is meaningless.

Simba said: "This time, all of our branches of the vanguard will send some, not many, gather a group of six-winged angels. Let's find out."

This made Will annoyed.

Half an hour later, the warship left the warship carrying a thousand seraphs.

"Hahaha, well, the six-winged angel is comparable to a monk in the sea of bitterness. He gave me a thousand at once, and the Tianzun Temple directly became the strongest strength on earth."

Ye Fan was overjoyed.

In the heavenly world, everyone in the Tianzun Hall also burst into laughter.

but.

One thousand six-winged angels, equivalent to one thousand seas of bitterness, it is not easy to suppress.

"There is."

Ye Fan thought of the ancient bronze coffin.

He grabbed the ancient bronze coffin from the heavenly world, opened it, and penetrated deep into his spiritual power. He found that the interior space was huge and dark, which was a kind of torture for these six-winged angels.

It's this effect.

Tormenting them first, exhausting them physically and mentally, and then conquering them is relatively easy.

The six-winged angel was indeed much more alert than the four-winged angel.

After entering the passage, they found something unusual. When they saw a vague figure entrenched in the storm, their expressions changed, guessing that it might be Ye Fan.

It was too late to leave, this area was blocked, and the ancient bronze coffin fell from the sky and was seized.

Even though the ancient coffin is only a normal size, the warship is 800 meters long and wide, but it was easily detained in the ancient coffin.

bang.

Ye Fan closed the lid of the coffin and looked at the outer starry sky in anticipation. Is there anything else?

It is best to have a few eight-winged angels.

After waiting for a long time, there was still no turbulence at all, and the commanders such as Simba were surprised.

"Could it be that Ye Fan didn't die, he was entrenched in the storm and killed my clan's creatures."

"possible."

This conjecture shocked them.

Will said: "I can't delay it anymore, I can't take my face into consideration, I must contact the group immediately and let the first commander and the second commander lead more strong men to come to support."

The other commanders chimed in.

Simba is a little unwilling, but this is the end, there is no other way.

He nodded, and Will went to subpoena immediately.

Time flies, three days later.

There was a huge vibration in the calm extraterritorial starry sky, and it was transmitted to the earth. Ye Fan woke up, he saw the wormhole, and his face darkened.

The reinforcements of the Angels have arrived.

He immediately opened his mouth, and said outside, reminding the 80 million soldiers stationed there, "The Angel Clan reinforcements have arrived, and the second wave of attacks is about to begin."

In a word, all the soldiers stood up suddenly, and the fighting intent condensed into a vast ocean. At the same time, the infinite thought power gathered on Ye Fan, causing his body to squirm uncontrollably.

It seems that there is a sign of a breakthrough.

Ye Fan was overjoyed.

Now he is not in a hurry.

He became a little more confident and felt that he would be able to break through in battle, because the opportunity had come.

The Queen is coming.

The patriarchs of some powerful clans, such as the God Emperor and the Asura Woman, have descended.

The members of Tianzun Temple appeared.

"Boom."

The roar grew louder.

Ye Fan used the big projection technique to project the picture of the outer starry sky into the interior, so that everyone could see it with their own eyes.

This time the wormhole is even bigger, which also shows that the reinforcements are extremely powerful.

Of the thirty-six commanders of the Angel Clan, he killed six of them. I am afraid that this time the remaining thirty will be all together.

This is a terrible force.

Jin Quan learned from Fina that Simba is only the third most handsome, and there are more powerful second and first handsome in front of him.

Especially the first commander, there are already signs of breaking through to the ten-winged angel, and he has gathered a lot of supernatural power seeds, and the Taoist Palace is about to open.

Ye Fan stood in the storm, watching the wormhole closely.

a moment.

The head of a battleship appeared in the wormhole and slowly sailed out. The difference was that this battleship was extraordinarily brilliant, even more brilliant than Simba's battleships.

Ye Fan knew that this should be the battleship of the first commander or the second commander.

After this brilliant general, twelve more warships appeared, making a total of thirteen.

It represents the Thirteen Great Commanders of Lai Lantus.

Thirteen, plus Simba's ten, that is, twenty-three, this does not count as the six commanders killed by Ye Fan.

Among them, there are twenty-nine statues, and there are seven commanders left in the heaven.

Ye Fan thought about it.

Pay close attention to the situation in the outer space.

When Simba and the others saw the brilliant main battleship, their faces were startled; when the thirteen battleships approached them and were juxtaposed, Simba and the others came to the brilliant main battleship.

In the battleship command room, a tall and burly angel walked out. They had eight wings behind them, but if you look closely, you can find that at the bottom, there are a pair of small wings, only the size of a palm.

This shows that the promotion of ten-winged angel has begun, half a step has been taken, and there is still half a step left.

"See Marshal."

Simba and their respectful greetings.

The so-called marshal is naturally the number one marshal. He has a very high status in the angel race, and it is not an exaggeration to say that he is under one person and over ten thousand people.

Rao is a proud Simba, and he is also in awe of the marshal in front of him.

"Simba, what are you to blame?"

The first commander immediately reprimanded Simba, lowered his head, and said, "It's my fault, I didn't expect Ye Fan to be so strong, and damaged eight brothers. I am willing to accept the punishment."

"Don't worry, the King of God will punish you, but not now." The first commander snorted coldly, then looked at the passage.

His eyes seemed to easily penetrate the cover of the storm, saw Ye Fan in it, and even looked at Ye Fan.

The first commander sneered: "Human, you are very good, with such strength, but let's stop here, you will pay the price for what you do. Kill my clan, and I will destroy the entire human clan!"

Chapter 1173: make another breakthrough

The first commander's words were conveyed into the passage, and rippling, all 80 million soldiers heard.

Really arrogant.

The human race soldiers were murderous.

Destroying the human race, what a big tone.

In ancient times, the human race was besieged by ten thousand clans, and it was not destroyed. Instead, in the predicament, a big man came out of the sky and latitude, ascended the throne, turned the tide, suppressed ten thousand clans, and led the human race to extreme glory.

The little angel race, what is it, dares to speak madly.

Ye Fan sneered: "I'm afraid you won't be able to see the destruction of the human race, but I can show you the picture of the heaven being broken."

The first handsome face was cold: "Ye Fan, surrender to me, you will get a new life."

"idiot."

Ye Fan didn't know where this guy's confidence came from.

He doesn't want to talk nonsense, let's make a quick decision, this number one handsome is very good, and he can be his stepping stone.

Rumble.

Ye Fan immediately revived the 19th-level Celestial Hegemonic Body, and his state climbed to its peak.

At this moment, the face of the first handsome man changed.

He saw Ye Fan's strength, but he didn't expect it to be so strong; this was because Simba didn't say this when he spread the news.

The first handsome face became solemn, and he also entered the peak fighting state. His momentum was not weak, and he was on an equal footing with Ye Fan.

"kill!"

"kill!"

Both sides shot at the same time.

They punched each other and flew upside down.

The energy overflowed, the storm in the passage exploded, and finally, I saw the scene in the passage.

Ye Fan and the first commander fought fiercely.

Shocking.

The second wave of the Angel Race lineup is really scary.

On this side of the earth, some ethnic groups are beginning to decline.

How can such a strong lineup be resisted? Can Ye Fan block it? Not necessarily, the number one handsome can be evenly matched with him, and Simba's other handsomes can directly crush him.

The reason why Simba and the others are not moving now is because they are waiting for the command of the first commander; the first commander is fighting against Ye Fan at this moment. Speaking of which, it can be regarded as respect for Ye Fan.

This is respect for the strong.

Otherwise, if a group of commanders join forces, Ye Fan will be in crisis.

Ye Fan knew this in his heart.

Therefore, he must fight quickly, and he must break through to the twentieth level of the Celestial Hegemony in the confrontation with the first commander.

In this way, his strength will skyrocket, enough to deal with this group of handsome.

Boom boom boom.

The battle situation in the channel was extremely fierce and hot.

Both sides are fighting frantically.

The terror of the nineteenth-level Celestial Hegemony was unexpected. The first commander gritted his teeth and roared: "I'm about to knock on the door of the Taoist Palace, and you are just a cultivator in the sea of bitterness. You are also worthy of confrontation with me."

"Give me death."

"kill!"

The first commander's back was shining brightly, as if his wings were covering the sky, he grabbed a scepter from within his body.

Angel clan creatures generally have scepters, which seems to be a standard configuration.

However, the scepter of the first commander is different.

This scepter has the breath of ancient vicissitudes circulating, which must be the magic weapon of the upper roller.

"This is the natal scepter of the holy angel in the ancient times of my family. After I got it, I used the blood sacrifice to refine it for a hundred years, and now it is one with me."

"With this blow, you will surely die."

The first handsome voice was indifferent, he waved his scepter and smashed it down.

The channel shakes.

The monument trembled.

The power of this blow can be imagined.

However, Ye Fan was not afraid. He wanted to use the secret treasure, Fangcunshan and the Demon-destroying pestle could be used to fight it, even the ancient bronze coffin, the disaster palace and the like.

But in the end he gave up.

Ye Fan gritted his teeth, his heart slammed, and he went up against the sky, trying to take the blow with his flesh.

This changed the first handsome man.

He thought that Ye Fan had some terrible trump card, but when he found out that Ye Fan was going to fight this blow with his flesh, he was furious and said it was ashen.

Isn't that contempt and contempt? ,

Damn.

Die die.

The first handsome man burst into a drink, madly driving energy, and the power of the scepter skyrocketed again.

"Ye Fan, die for me."

The scepter bombarded Ye Fan's body and opened Ye Fan's body again in an instant, with dense cracks.

The huge force impacted Ye Fan's body, and Ye Fan felt that his whole body was about to explode.

Ye Fan continued to fall.

Blood stained channel.

The first commander didn't give Ye Fan a chance to breathe, he pursued the victory and hit a heavenly fist.

That fist bombarded Ye Fan, making his injury even more serious, and even almost pierced Ye Fan's body.

"Evan!"

The queen exclaimed.

She didn't understand, Ye Fan was too risky to do this, even if he was looking for a breakthrough, he couldn't be so foolish.

At this moment.

Ye Fan clearly felt the changes in his body. He seemed to be about to break through the last barrier and borrowed the power of the first commander.

This is really using each other as a stepping stone.

"not enough."

Ye Fan roared in his heart.

At this time, the first commander arrived, and he waved his fist frantically, falling on Ye Fan like raindrops, hitting Ye Fan's body like a steel plate shot through by bullets, full of holes.

This scene made the soldiers watching the battle horrified.

Play big.

Ye Fan killed himself.

There is absolutely no possibility of surviving, and there is no hope of a comeback.

Could it be that Ye Fan ascended to the sky in one step and was directly promoted to the Dao Palace? Only in this way can we counter-kill, other than that, it is useless.

"boom."

Another blow, the strongest kill.

The first commander's scepter pierced through Ye Fan's body, and he smiled grimly, "Ye Fan, you are arrogant and use your flesh to fight against my strongest blow, you are killing yourself."

"I didn't expect it to be so easy, I thought there would be a protracted war, remember, if there is an afterlife, be a good person... No, you can't be a human, because the human race will perish, and the heavens and the world will no longer have a human race. ."

"Die!"

The scepter burst into brilliance, emitting terrifying energy, blasting Ye Fan's body.

At this moment, Ye Fan has reached the final moment, but he still lacks a little energy shock.

At the juncture, the scepter spewed out energy, which was too timely, and it was like giving charcoal in the snow.

Rumble.

Ye Fan madly hit the physical barrier, and his body was like a river overturned, the energy sprayed from the scepter disappeared, and at the same time, a vortex appeared in Ye Fan's body, absorbing the power of the scepter independently.

"what!"

The sudden change shocked the first commander.

But it was too late.

The earth shook, the heavens and the earth roared, and a terrifying breath that made his hair stand on end burst out from Ye Fan's body.

"boom!"

The first commander was shocked.

All eyes fell on Ye Fan, only to see that Ye Fan was surrounded by azure brilliance, and the thick life essence was quickly repairing his body.

In the blink of an eye, everything was back to normal.

Ye Fan opened his eyes.

Two rays of divine light penetrated the void and reached the outer starry sky, making Zimbabweer and the others horrified.

"Twentieth-level Celestial Hegemony."

Ye Fan burst out drinking, shocking his heart and soul.

He smashed it out with one punch, and the first handsome man smashed blood madly. He took a step and seemed to be able to descend directly into the outer starry sky.

But Ye Fan was not in a hurry.

He grabbed the first commander and suppressed this guy. It was of great use and could be used to contain the \*\*\*\* king of the angel race.

"Evan, you!"

The first handsome man was furious.

Ye Fan actually took his power to break through, the 20th-level Celestial Hegemony, good guy, how terrifying.

Even in the ancient times, the 20th-level Celestial Hegemonic Body was considered a strong person. The key point was that Ye Fancai was only in the realm of bitterness.

The clan warriors were also stunned.

Ye Fan really reversed the desperate situation, made a breakthrough, and his injuries were restored as before, and he almost died.

However, Ye Fan was also very heartbroken.

Because of this breakthrough, most of the energy of Qingdi's Heart was consumed, and now the brilliance of Qingdi's Heart has dimmed.

If this continues, it will not be long before all the energy of Qingdi's Heart will be consumed, completely dissipated, and will no longer exist.

Ye Fan didn't think much about it, now his task is to suppress the first commander, he walked in the air, after all.

The first commander to escape is neither a battle nor a battle.

If he fights, he feels he can't beat Ye Fan; if he flees, he will lose all face.

Simba and the others are watching.

bastard!

How could such a thing happen!

The first commander roared in his heart, extremely embarrassed, he roared and took out the secret treasure, which was a pair of wings.

I only saw that the magic weapon of wings instantly merged with the first commander. This is, the first commander became a ten-winged angel.

His breath rose, and his combat power skyrocketed.

"Ye Fan, I didn't want to use this secret treasure, because it's a one-time thing, and it can make me go up a notch for a short time. You forced me, now I'm a ten-winged angel, how can you be my opponent, die? ."

"Fake is always fake."

Ye Fan didn't care, this ten-winged angel was too watery.

The two sides once again launched a frantic fight, and sure enough, the first commander was retreating steadily, and he was not Ye Fan's opponent at all.

Ye Fan is really too strong.

Even the supernatural powers and secret techniques are used, and they are directly and hard-hitting, which is outrageous.

Puff puff.

The first commander was injured one after another, and his breath began to decline.

Now he doesn't care about face anymore, and shouted: "Simba, you all come down and kill the demon together."

Simba smiled inwardly.

I thought I could pretend to be forced, but I was beaten so embarrassingly, shameful.

"Get out."

Of course, after thinking about it, action still requires action.

All the great marshals came down.

Twenty-three commanders surrounded Ye Fan, and at the same time used a combined attack formation.

"Glory to Heaven."

This is the name of this great formation.

It doesn't sound like a killing formation, but in fact it is an ancient peerless killing formation.

Among them, it will be disturbed by the baptism light of the angel race, which is the biggest difficulty.

Ye Fan was enveloped in the light of baptism.

However.

These baptismal lights had no effect on him at all.

It's not a joke to think about the 20th-level Celestial Hegemony, this is Ye Fan's confidence.

"boom!"

He punches.

However, it failed to break through.

The first commander sneered: "Ye Fan, the 20th-level Celestial Hegemony is indeed powerful, but it can't stop us from joining forces. Give it up, you will surely die."

Ye Fan suddenly stopped breathing.

Seeing this, the commanders were in shock, and Simba said, "Ye Fan, are you really going to be captured? You are a talent, you can surrender to us and sign a blood contract."

"I think it's appropriate for your angels to sign a blood contract with me. It should be your honor for the angels to become my slaves."

"court death!"

Ye Fan laughed, he looked at the first commander, and said: "Supernatural power, about to knock on the door of the Taoist palace, very good, but that's all, because, I want to enter supernatural power realm, it's too simple, you can see write."

Chapter 1174: One step to the sky

The first commander was at a loss for a while, and then his pupils shrank; the other commanders were also frightened.

What does Ye Fan mean?

It is easy to enter the supernatural state, he is going to be promoted now?

What a joke.

The Earth powerhouses watching the battle were also frightened.

And Ye Fan has already begun to move, he is not afraid of the first commander and their attacks, and he starts to condense the seeds of supernatural powers wholeheartedly.

As long as the seeds of supernatural powers are condensed, it indicates that they have entered the realm of supernatural powers.

The first commander only condensed one, and Ye Fan, he wanted to condense more.

He has a lot of magical powers.

List it:

Great Seal, Great Devour, Great Khuna, Great Catastrophe, Great Purdue, Great Projection, Great Inflation, Great Law, Great Cutting, Great Poison, Great Teleportation, Great Blessing , Great Extermination, Great Killing, Great Healing, Great Body Protection, Great Invisibility, Great Tracking, Great Reincarnation, Great Blood Contract, Great Prophecy

A total of 21 magical powers.

Among them, Ye Fan did not practice the Great Destruction Technique.

In other words, Ye Fan can condense 20 magical seeds.

The more magical power seeds condensed, the greater the power to knock on the door of the Taoist Palace, and the easier it is to open the Taoist Palace.

However, cultivating more magical powers will drag down the speed of cultivation and consume energy.

So there's some gain and loss in that.

Ye Fan carried the life-and-death map on his back, performed a great body protection technique, and sat cross-legged in the void, holding Fangcun Mountain in his hands.

No matter how the first commander bombarded them, Ye Fan was safe and sound.

At this moment, Ye Fan began to condense the seeds of magical powers.

Originally, he still needed some groping, but since he got some memories of Xie Yue Ancient Sovereign, he has a lot of experience in the practice.

You must know that the Xieyue Ancient Emperor was a great saint in ancient times, and he was a great man on the top. How commanded his cultivation insights were.

Ye Fan was simply enlightened.

Gradually, Ye Fan was surrounded by a mysterious meaning, which seemed to condense the seeds of supernatural powers.

The first commander said angrily, "Why so fast, it must be stopped, and he cannot be successfully condensed."

"All Star Wars will be ready."

"Unleash a Xeon attack."

In the vast starry sky, the first wave of sixteen battleships, plus the thirteen ships brought by the first commander, was twenty-nine battleships.

Their attacks are comparable to those of the eight-winged angel.

That is to say, twenty-nine battleships, plus twenty-three commanders, are equivalent to fifty-one commanders joining forces to attack Ye Fan.

this is too scary.

The scalps of the warriors of the tribes were numb.

The queen was worried, and he summoned infinite luck to fall on Ye Fan to protect Ye Fan at home.

at the same time.

Tianzun Temple also took action.

Blessed by the power of faith of tens of millions of living beings.

There were originally one billion living beings in the heavenly world, but now there are tens of millions of them who have surrendered. In addition to those living beings saved by Buddhism that Ye Fan once rescued in Tianzhu, there are about 30 million living beings.

These are Ye Fan's most devout believers.

Of course.

This is their willingness to believe, not the kind of forced conversion of Buddhism, imprisoned in hell, and captivity.

With the blessing of the power of luck and the power of faith, Ye Fan's defense has been greatly increased.

it's not finished yet.

The Tianzun Temple brought two big treasures. The first is naturally the Wuxu Kunding, which is strong enough and needless to say about its defensive power.

The other one is Fengshentai.

Fengshentai is the treasure of the Fengtian family, and Ye Fan obtained it in the world of the Gods of the Gods.

Now is the first appearance.

It can be said that everything will protect Ye Fan well.

Is this kind of defense, so the number one handsome has changed.

Can it really hit Ye Fan?

This is a question.

Without giving him much thought, the attack began.

Twenty-nine battleships combined to strike, so terrifying; with the full strike of the twenty-three commanders.

The energy gathered is like a vast ocean, turning into a long spear to assassinate Ye Fan.

"Bang!"

The first bombardment of the energy spear was on the map of life and death.

The life and death map exploded.

The spear is weak.

The second bombardment hit the Wuxu Kunding and Fengshentai, and the two treasures flew out backwards, and the power of the spear was weakened again.

Then Fangcunshan and the Demon-subduing pestle flew out.

The power of the spear was weakened for the third time, about half; and the remaining half was bombarded on Ye Fan.

The armor formed by the power of faith shattered.

The shield formed by the power of luck shatters.

Great bodyguard defense shattered.

In the end, the spear with only 30% of its strength stabbed Ye Fan firmly.

puff!

When the blood touched, Ye Fan was pierced in the chest.

"good!"

The first handsome is overjoyed.

However, at the same time, a dazzling brilliance shot into the sky, and a seed could be seen emerging from Ye Fan's body, and then rushed to the eyebrows.

"The Great Sealing Technique Seed."

"become!"

Ye Fan's voice was like thunder, and the real handsome men shook.

It really worked.

The first guy is unbelievable.

It was very difficult for him to condense the seeds of supernatural powers back then. It took him three years. How long did it take Ye Fan?

Simply incomprehensible.

What the \*\*\*\* is this monster.

But what happened next completely made the first commander's self-confidence collapse.

Because the second brilliance was born.

"Seeds of Cataclysm."

"become!"

"Large Khuna Seeds."

"become!"

"Great Devouring Seed."

"become!"

Another three supernatural power seeds were born, extremely dazzling, gathered in Ye Fan's eyebrows.

The four supernatural power seeds are like small suns, and Ye Fan is extremely sacred against the background.

"The Great Teleportation Seed."

"become!"

At the fifth moment, the seeds of magical powers condensed.

The five little suns kept spinning between the eyebrows, and with the condensed seeds of supernatural powers, Ye Fan naturally entered the realm of supernatural powers.

His strength soared.

Every time a supernatural power seed is condensed, the strength will increase.

The first commander only gathered one, and Ye Fan gathered five, and the difference was not even a star.

The world is dead silent.

The angelic creatures were stunned, and so were the soldiers of the tribes.

Ye Fan did what he said, it was really easy to condense the seeds of magical powers, and he condensed five seeds at once.

Oh my god.

It also makes it impossible for people to live.

Ye Fan opened his eyes and stopped condensing. These five supernatural powers are the most profound and the most commonly used in his practice, so condensing is very simple.

His breath was very strong.

With one punch, the formation smashed open, and the twenty-three commanders vomited blood and flew backwards.

This picture is so shocking.

The queen's face was ruddy, and Ye Fan gave him too many surprises. Such a man, well, really wonderful!

The God Emperor and the Asura woman looked at each other, couldn't hide the shock in their eyes.

Once upon a time, Ye Fan was at the same level as them.

But in a short period of time, Ye Fan has reached this point, entered the realm of supernatural powers, and condensed five supernatural power seeds.

It seems that Ye Fan does not intend to stop, and will condense more magical seeds in the future.

"what!"

at this time.

The channel remembered the screams, and the three commanders were bombarded and killed, and everything was swallowed by Ye Fan.

"Twenty more."

Ye Fan grinned, and that icy laughter frightened the commanders.

"The heaven and the earth."

Ye Fan performed the Great Sealing Technique.

After condensing the seeds of supernatural powers, the formidable power of supernatural powers also increased greatly.

"kill!"

Ye Fan was like a wolf entering the flock, and he kept shooting. In a few breaths, the commanders Yoyo were bombarded.

Then three in a row, the scene is extraordinarily cruel and bloody.

The angel race soldier shivered.

The high-ranking handsome, he was bombarded and killed like an ant, he was stronger.

The Earth Soldiers were extremely excited.

"kill!"

"kill!"

"kill!"

Especially the human race soldiers, shouting at the top of their voices.

"The mighty national teacher!"

"The mighty national teacher!"

"The mighty national teacher!"

At this moment, Ye Fan won hearts and respect.

His prestige was at its peak.

Not long after, there were only thirteen great men left.

Twenty-three, to thirteen, ten were killed by bombardment; plus Ye Fan killed six before.

In other words, the thirty-six commanders had already been killed by Ye Fan, almost half of them.

Huge loss.

The first handsome heart is bleeding.

"boom!"

at the same time.

The combined attack of the twenty-nine battleships in the starry sky came, breaking the seal.

"go!"

The first commanders hurriedly fled.

Ye Fan looked at the outer starry sky, took a deep breath, and said with a light smile: "It's time to go out to the earth to see, that starship battleship, I'm very eye-catching."

Great teleportation.

His speed was faster than the teleport of the first commander. With a palm slap, the thirteen commanders screamed and fell on the main battleship.

"Turn on defense."

"quick!"

Twenty-nine battleships were connected together, opening the strongest defense; Ye Fan was facing a vast behemoth.

It's really huge.

The smallest battleships are all hundreds of miles long, and the main battleship is also the battleship of the first commander, and it is even more than three hundred miles long.

What is this concept.

Some small cities in the secular world are just that big.

A warship is like a city.

Twenty-nine cities united, how huge, you can imagine the picture.

The Earth Soldiers were extremely excited.

Ye Fan is now fighting in the starry sky. This is something he never dared to think about before. The angels who fought were huddled in the battleship and dared not come out.

At this moment.

Ye Fan wanted to open the gate of heaven, but found that it was very difficult. There were great restrictions on opening the gate of heaven in this starry sky.

Otherwise, the battleship will be swallowed directly.

"Bomb kill."

The first handsome roared.

The battleship attacked again, Ye Fan blasted the energy cannon with a punch, and he charged towards the battleship alliance like lightning.

Stepping on the Conferred God Platform, the Wuxu Kunding spinning on the top of the head, carrying the picture of life and death on his back, is simply the God of War in the starry sky.

"Fusion."

At this moment, Ye Fan fused all the power, and the most peak blow appeared.

The handsome men are discolored.

Sure enough, the defense was pierced, and a huge hole appeared, which could not be healed.

Ye Fan rushed into it.

"Catastrophe."

Immediately cast the catastrophe technique, a catastrophe occurred in the battleship alliance, and the star storm appeared out of thin air and swept over.

Countless angel soldiers died.

Ye Fan's goal is the main battleship. This battleship is the strongest and must be obtained. In addition, the first commander and the others are all on the main battleship.

If the heaven world comes to invade, then be prepared to be counter-killed.

Chapter 1175: Conquer the main battleship

Ye Fan killed the main battleship.

This frightened the commanders. If Ye Fan was killed, they would die.

Rumble.

In an instant, the first commander made a fierce decision to directly detonate Ye Fan's battleship.

Super big bang.

What a huge explosion it was.

It is conceivable that a battleship the size of a city is directly blasted, and the power it has is terrifying.

The two battleships next to the battleship suffered a huge impact and were directly damaged by 60-70%.

The army of millions of angels on the battleship will be wiped out.

The other two battleships that were affected also suffered heavy losses. In just such a moment, in a split second, the decision made by the first commander ruined the army of about two million angels.

Fierce and brutal.

The eyes of the other commanders were splitting, but there was nothing they could do, because if they didn't do this, how could they organize Ye Fan.

Once Ye Fan killed the main battleship, they would have to die.

Compared with the army, their value is greater.

The low-level angel energy is constantly being born, but these eight-winged angels can't do it. There is no loss of one death.

Ye Fan was caught in a big explosion.

He didn't expect the first handsome man to be so ruthless and decisive that he would bury his clan without blinking an eye.

Not one or two, not one hundred or two hundred, but in millions.

Really cold-blooded.

Ye Fan suffered a lot of trauma. A battleship exploded, which was terrifying. If he hadn't possessed such treasures as the Wuxu Kunding, Fengshentai, Fangcun Mountain, and the strength of the 20th-level Celestial Hegemony, he would have directly was bombed.

"kill!"

Ye Fan tore open the wreckage of the battleship and rushed out; with one punch, the countless angels who were hit were killed.

The power of his bloodline is restless.

The Yin-Yang life-and-death map suddenly expanded, and it appeared horizontally in the starry sky.

not only.

Ye Fan was surrounded by a swallowing vortex, and all the angelic creatures he killed were absorbed by him, repairing their injuries and strengthening themselves.

Boom boom boom.

The sound of explosions was incessant.

Ye Fan slaughtered unscrupulously. These invaders do not need sympathy. Those who are not of our race will have different hearts. Kill them quickly.

Puff puff...

Countless angels fell and became Ye Fan's blood food.

"Seeds of the Great Killing Technique."

"become!"

In the endless slaughter, Ye Fan's big slaughter technique became more and more mature, condensing the seeds of magical powers.

Now the eyebrows have six magical seeds.

Ye Fan is fierce and powerful.

It is clearly felt both on and off the planet.

"The mighty national teacher!"

"The mighty national teacher!"

The warriors of all tribes are shouting.

On the Angel Clan side, morale was low and they were infinitely defeated.

The first commander was furious and detonated three warships again, but this time Ye Fan was prepared and did not cause much damage to him.

He killed the main battleship.

finally came.

"Ye Fan, you murdered so many people of my clan, you should be damned, you will be trapped in karma, and you will not die."

"It's ridiculous, it seems that you kill more than me. You are cruel to your fellow clan. I really admire you."

Ye Fan retorted.

The first commander was furious, but he had a sense of powerlessness; he grabbed the blood robe, which was a magic weapon bestowed by the king of the gods, with a strong defensive power.

The marshals sacrificed their blood clothes to protect themselves.

"Ye Fan, the \*\*\*\* king of our clan is a strong man in the Taoist palace. No matter how strong you are, you are not the opponent of the strong in the Taoist palace. You will be captured immediately, otherwise you will be dead in the end."

"Stop now, there is still a chance to live."

Ye Fan couldn't stop laughing, and said sarcastically: "What the \*\*\*\* is a \*\*\*\* king, what about the Taoist palace, I can deal with it too. If you kill you, maybe I will be able to break through to the Taoist level."

"A idiot talks about a dream."

"Is it a fool's dream? You only know after trying it. If you want to invade Zuxing, you have to be mentally prepared to be killed."

Ye Fan didn't hesitate and started the attack.

Fengshentai cooperates with the Great Sealing Technique, the power is extremely terrifying, the entire main battleship is blocked, and it is impossible to enter and exit.

The first commander shouted: "The magic attack, activate the backup storage energy."

"Boom."

The 20 remaining battleships trembled wildly, and all the backup storage energy was activated, which was injected into the main battleship like crazy.

this moment.

The main battleship was brilliant and seemed to come alive.

A beam of light rushed out from the core of the battleship, and the first commander spread his wings and merged with the beam of light.

Ye Fan guessed that the eardrums, the first commander and the main battleship were integrated into one. Sure enough, the first commander shot.

"Ye Fan, go to hell."

The first commander threw a punch with unparalleled power, making Ye Fan's face dignified; at the same time, the battleship also sent out a terrifying energy cannon.

Ye Fan screamed.

The sea of bitterness is tumbling, and the vast world contains countless energies, which are all accumulated by Ye Fan.

Full blast at the moment.

Ye Fan incarnates like an emperor, with a blurry phantom rising from behind, reaching a height of thousands of feet, and he cannot look directly.

He confronted the fist of the first commander with one hand and the energy cannon of the battleship with the other.

The collision saw that the main battleship was crumbling.

but.

Due to the injection of stored energy, the main battleship must now be strong and not damaged. On the contrary, the other battleships are dimly lit and seem to fall and turn off at any time.

This is because the backup storage energy cannot be used easily. Once used, it will cause great damage to the battleship, and it also indicates that the battleship lacks energy and will soon be unable to operate.

"good chance."

Ye Fan's eyes lit up, the other battleships were silent, there was no defensive array, and even the attack power was very weak, this was a good opportunity to seize.

But Ye Fan's goal is the main battleship, and other battleships need others to complete.

"The queen, the \*\*\*\* emperor, the female honor, Susu entered the world channel and sought the battleship."

Ye Fan's voice transmission.

In an instant, the queen and the golden dragon of luck merged into one, and rushed into the world channel. She did not go to the outer starry sky, but stuck out the dragon's claws at the entrance of the channel and grabbed the nearest battleship.

"Bastard!"

Commanders such as Simba and Will were furious.

Ye Fan manipulated the life-and-death map and covered it, making Simba and the others unable to take action.

As for the remaining angelic army, morale collapsed and collapsed, and there was absolutely no attack power.

"The Gate of Heaven."

Ye Fan opened the portal, but the portal does not appear in the outer starry sky, there are restrictions, and it cannot appear here; the portal appears in the channel.

"Come!"

I only saw that the dragon claw grabbed a battleship and dragged it into the heavenly world; however, there was still a trouble.

That is, after entering the heavenly world, the army of angels on the battleship is troublesome, and there are many seraphs among them, which is quite the realm of bitterness.

"You can't destroy the heavenly world, throw it into the Heavenly Palace of Disaster, and let them toss in the Heavenly Palace."

Ye Fan's voice transmission.

The Nether tribe opened the door of disaster, and the battleship was thrown into the Heavenly Palace.

Just when the queen succeeded in grabbing a battleship, the \*\*\*\* emperor and the goddess Shura also gained something.

They couldn't grab the complete battleship, but they grabbed the slightly damaged battleship, and there were not many angels on it, which was very good.

After getting the battleship, the \*\*\*\* emperor and the female venerable exit the channel, the convergence of understanding is enough, and there is no greed.

The powerhouses of other ethnic groups were envious and envious when they saw the brilliant battleship, but they couldn't make a move, and they didn't dare to make a move.

Because the emperor and the goddess had a good relationship with Ye Fan, they must have obtained the permission of Ye Fan to capture the battleship.

If other powerhouses conspired, once they angered Ye Fan, the consequences would be unimaginable.

"Queen, the occupation is doomed, the angels are doomed to be destroyed, we will withdraw first."

The emperor and the goddess got the battleship, and they must be brought back to the clan as soon as possible, and it is not acceptable to stay here.

Ye Fan crushed the blow and entered the outer starry sky, and there was no problem. They don't have to stay.

"Go."

The Queen responded.

The God Emperor and the Asura woman each left with their battleships.

at the same time.

The queen took the second shot and began to seize the second battleship.

This can make Simba and the others angry enough.

Ye Fan and the first commander were still colliding, and with so much stored energy, the first commander and the main battleship's abilities soared, dragging Ye Fan for a while.

"break!"

The commanders such as Simba and Will joined forces to use the blood clothes to tear a gap in the life-and-death map.

Will kills.

"Empress of the human race, you and Ye Fan are embarrassed, you should be damned, damned."

"It came just fine."

The queen was not afraid at all.

He merged with the golden dragon of luck and luck, and his combat power has greatly increased, which is comparable to a monk in the realm of bitterness. Will is injured, and she can touch it.

as predicted.

Dragon Claw slaps Will away.

The Queen grabbed the second battleship and threw it into the heavenly world, into the Heavenly Palace of Disaster.

"hateful!"

Will was furious.

At this moment, the life and death map was torn open again, and Simba came out.

The queen was surprised.

Simba is much stronger than Will, and belongs to the peak-level powerhouse of the Sea of Bitterness. She is not an opponent.

such a pity.

The queen is very sorry, so many battleships, just get them all.

"Ye Fan, if you can't kill the first commander, then kill Simbawell and the others. Don't delay it for too long, or things will change later."

The Queen reminded her that she felt uneasy.

Ye Fan also knew that it was not good to stay in the outer space for too long, and he was already a little tired.

"boom!"

After confronting the first commander, Ye Fan flew out and killed the other commanders.

Too fast, too sudden.

In an instant, the three commanders were bombarded and killed.

Only ten left.

Ye Fan stared at Simba and Will, their hair stood on end, and they frantically retreated to the main battleship.

"go!"

Ye Fan rolled up the three warships and still channeled to the world.

Queen rejoices.

Lead the three war generals to the Heaven of Calamity.

There were five ships at once.

But Ye Fan was never satisfied. He wanted the main battleship, but he couldn't get it for a while. He was really angry.

"Ye Fan, come back."

The queen called, and she said, "I have a bad premonition, there may be some changes."

"Yes?"

Ye Fan frowned.

He glanced at the main battleship, and finally gave up, deciding to withdraw and repair it first.

Otherwise, it's really urgent, the first commander and him are dead, and the main battleship is detonated to the extreme... Then Ye Fan felt that he was afraid that he would not be able to carry it.

Ye Fan returned to the world channel.

Afterwards, he left the Conferred God Stage at the entrance and exit, and used the Great Sealing Technique to completely block it.

Even if the first commander bombarded, it would take a while to break open.

Ye Fan entered the heavenly world.

The world is quiet inside and out.

The warriors of various races began to leave gradually, because the angel race had been fragmented and there was no threat.

In the outer starry sky, the light of the main battleship gradually dimmed.

The first man fell.

His blood spurted wildly, his eyes were bloodshot, this battle was really too tragic, too tragic, too tragic...

Chapter 1176: A heaven, a hell

This time, he came to the twenty-nine commanders, and Ye Fan killed nineteen of them, leaving only ten of them.

The army of angels lost millions.

The battleship lost seven.

This loss... the first commander was in a panic, and the king of gods definitely couldn't spare him.

"Boss, what should I do?"

Simba is also cowardly, and now he is relying on the first handsome.

Will said: "Let's retreat, go back to repair and make a comeback. Anyway, we know the coordinates of the ancestors and can come over at any time. Now stay, wait for Ye Fan to repair and attack again, we can't bear it. The backup storage energy has been consumed. more than half."

The other commanders chimed in.

They were afraid of being killed by Ye Fan.

The nineteen commanders, their brothers and sisters who lived together day and night were bombarded and killed by Ye Fan.

Simply inhumane.

The first commander took a deep breath, his eyes were complicated, and he finally sighed, "Go back, please go out."

"Ye Fan must die."

"As long as I can kill Ye Fan, even if it takes my life."

The first handsome man is full of hatred.

The main battleship wrapped the remaining battleships, opened the wormhole, slowly entered it, and disappeared into the vast starry sky.

"have they gone?"

Ye Fan was a little regretful when he saw the situation of the outer starry sky. He thought that he would continue to \*\*\*\* the main battleship after it was repaired.

He looked back at the queen and asked, "Your intuition is not right, they retreated directly."

The queen hummed: "Whoever says that intuition is accurate, it's just a hunch of the possibility, and it's always good to be careful. Let's go to the Heavenly Disaster Palace to suppress those angels and find out the battleship."

Fang Rui came and said excitedly: "Xiaofan, I will study the battleship thoroughly, then we can build the battleship ourselves. The premise is that there are enough complete materials."

Ye Fan was very satisfied with this trophy.

He took everyone to the Temple of Calamity.

There are five battleships, and the army of angels is about 3 million, of which there are 8,000 seraphs, which is equivalent to 8,000 monks in the sea of suffering.

Amazing.

But Ye Fan was able to suppress it with ease.

He is now in the supernatural power realm, and he has condensed six supernatural power seeds, how powerful.

Ye Fan slaughtered a group of stubborn scumbags, to be precise, beheaded millions of angels, and blood flowed into rivers.

The souls of the remaining 2 million angels who were directly descended were all evacuated, no longer dared to be presumptuous, and all of them were crawling on the ground, honestly.

Ye Fan didn't talk to them either.

"You want to live, a way, become my slaves, and sign a blood contract."

"Shh."

Ye Fan performed the Great Blood Contract.

A huge blood book was in the air, and the angel army forced out the blood essence of life into the blood book, and immediately established a connection.

"See Master!"

An army of two million angels surrendered.

The great blood contract, the establishment of a blood contract, is something that the angels cannot baptize themselves.

Now these angels are Ye Fan's most loyal servants.

After establishing the connection, Ye Fan also clearly felt the combat power of these angels.

Eight thousand six-winged angels, beheaded hundreds of them, but also added the one thousand six-winged angels in the warship that Ye Fan captured at the beginning.

That is to say, there are more than 9,000 Seraphim.

There are 800,000 four-winged angels.

The rest are two-winged angels, the weakest, more than one million.

This is a huge force.

In today's earth, Ye Fan arranged for an army of angels to attack and sweep everything.

No one can stop it.

"Go, let's study the battleship." Ye Fan led everyone into the battleship.

In the vast starry sky.

After the angels left, the starry sky gradually returned to calm.

A battleship suddenly appeared on the previous battlefield. This battleship was extremely strange, pitch-black, and seemed to be integrated with the starry sky, making it difficult to find.

Above the battleship, there is a terrifying aura.

The headed creature sneered: "The angels are really trash, and they were beaten away."

Other powerful creatures laughed.

"Master, what should we do, attack Zuxing?"

"Not urgent."

The handsome shook his head.

"Those remnants want to go back to heaven, how can we let them do so, we and heaven are deadly enemies, and we must kill them all."

"Open the wormhole, let's chase the past."

"Yes!"

Wormholes are open again.

The black air battleship rushed in like lightning and disappeared; at the same time, it was unknown where in the starry sky.

The battleships of the Angel Race are slowly galloping.

The first handsome they are all healing.

suddenly.

A strong murderous aura shrouded, followed by several explosions, and the main battleship swayed.

"not good."

The first commander sensed something, rushed out, and saw several battleships being bombed.

His pupils contracted.

Could it be that Ye Fan chased him here?

impossible.

The fallen Ancestral Star should no longer have the ability to travel between the stars. How could it be possible to hunt down.

"what happened."

Simba and the others also rushed over.

The whole army is ready for war.

The first handsome's eyes shot two divine lights, and he glanced at the starry sky; at this moment, a black breath filled the air.

"This breath!"

The first handsome face changed greatly.

"Hell Realm."

"Ghost clan!"

Commanders such as Simba, Will, and even all the angel army changed their faces, their faces terrified.

how so.

How could this interstellar route encounter the ghosts of the \*\*\*\* world!

impossible.

The first handsome face was extremely ugly, and the weather was uncertain.

Heaven and \*\*\*\* are mortal enemies.

Their angel clan and ghost clan have fought for countless years, and no one can do anything about it.

Now they are being sniped by the ghost clan, and they are in danger.

In the heyday before, the first commander was not afraid at all, but now everyone is seriously injured, and the army has no morale, how to fight the ghost clan.

"chatter."

The gloomy laughter echoed in the starry sky.

A huge black battleship slowly emerged. This battleship was one-third larger than the main battleship of the first commander.

A commander of the Ghost Clan stood proudly in front of the battleship, overlooking the bottom, and said with a smile: "Everyone of the Angel Clan, how are you?"

"Ghost clan!"

The first handsome man was hoarse.

"What do you mean, you want to kill me, etc.? Are you going to tear up the treaty? My clan \*\*\*\* king and your clan \*\*\*\* king signed a truce agreement. If you dare to take action against us, that is to start a war!"

"Hahaha."

The commander of the ghost clan sneered and said jokingly: "I cut you off and blamed Ye Fan, what has it to do with my ghost clan."

"what!"

The first handsome pupil shrank.

"You also know where Zu Xing is, or are we fighting Ye Fan, you have been paying attention?"

"Yes, from the beginning to the end, it's really tragic. It's not ashamed to be killed by a human boy."

The commander of the ghost clan was extremely contemptuous.

"You should thank me for not falling into the trap, otherwise, Ye Fan and I will join forces to kill you all."

"What exactly do you want?"

"If you are willing to surrender to our ghost clan and sign a great blood contract, you can live; otherwise, you can only be sorry and send you on your way."

"kill!"

The first commander took the initiative to attack.

Surrender to ghosts?

how is this possible.

The two races are a feud, and it is impossible to surrender to each other.

Even if killed.

War is imminent.

The commander of the ghost clan snorted coldly, he smashed the first commander with a punch, and then started the black battleship.

"boom!"

Black energy bombarded.

Except for the main battleship, all other battleships were blown up, and countless army of angels died.

The first handsome man shed blood and tears.

"Arrangement!"

The commander of the ghost clan stopped drinking.

Immediately, dozens of black shadows were dispatched behind him, surrounding the main battleship, and in this vast starry sky, a lore-killing formation was arranged.

"Ghost Immortal Array!"

The first man was terrified.

This is one of the most powerful formations of the ghost clan, and it is said that it can summon the legendary ghosts to descend.

The commander of the ghost clan stood proudly in front of the battleship, with his hands open, his body seemed illusory.

Ghost clan, this is a mysterious clan.

It's not like in movies and TV shows, ghosts don't have bodies, on the contrary, ghosts' bodies are very powerful and extremely strange.

The bodies of ghosts can be transformed from reality to reality.

This is their talent.

Some ghost clan creatures like incorporeal bodies, and some ghost clans like solid bodies. At this moment, this commander uses an incorporeal body.

He also specializes in cultivating incorporeal bodies.

His body was illusory, but he had powerful strength, and he shouted: "Please come down."

With a cry, the starry sky shook.

I only saw a blurry phantom slowly emerging in the large formation.

The main battleship, which was suppressed as soon as it appeared, was crumbling, and the first commander and the others shivered.

"goodbye."

The ghost chief sneered.

Ghost Immortal fell, pressing on the main battleship, and the indestructible battleship appeared numerous cracks, and then fell apart.

"puff."

The first commander was blown away.

In an instant, the commander of the ghost clan appeared in front of him, without any hesitation, cut off his head.

Horribly, he quickly devoured the corpse.

"What a strong spirit."

This commander of the ghost clan sighed, so uncomfortable, his strength seemed to have improved a lot, and his aura was even stronger.

The first man has fallen.

Simba and Will are desperate.

Without the slightest doubt, they were also beheaded and their entire army annihilated.

"It's all mine."

The ghost chief is very domineering.

Devouring all the chiefs of the angel race, a strong aura erupted in his body.

He howled.

Shake the sky.

The four supernatural power seeds in the eyebrows bloomed with strong brilliance, knocking on the door of the Taoist Palace, only to hear a loud noise, and the door broke open.

"boom!"

The commander of the ghost clan screamed.

At this moment, he was promoted to the powerhouse of the Taoist Palace.

"See Lord Guizun."

On the black battleship, all the ghost creatures knelt down on one knee and turned pale.

Among the ghost clan, the promotion to the realm of the Taoist Palace can be called Ghost Zun.

"Sir, where are we going now? Kill Zu Xing? With your strength, it is enough to kill Ye Fan and come to Zu Xing."

"Not urgent."

Ghost Zun shook his head and sneered: "I have already seen that Ye Fan is not simple. Although Zu Xing has declined, it is still Zu Xing after all. It should not be underestimated. I don't need to take the lead."

"what do you mean?"

"Hahaha, this group of wastes from the Angels will be wiped out, and there will definitely be awareness on the side of Heaven. The God King of the Angels will definitely kill Zu Xing, so let him and Ye Fan fight to the death. At the last moment, the deity comes and beheaded. Wouldn't it be beautiful to kill Ye Fan and the \*\*\*\* king of the angel race and come to Zuxing!"

"Master is wise!"

Chapter 1177: Supernatural Seed Great Golden Elixir

The vast universe, slowly starry sky.

There are countless mysteries.

In a certain star field, there is a bright big world, the heaven world.

From the outside, the heaven world looks like a disc, with a huge scepter standing in the center.

It is said that it is the scepter of the ancestor of the angel race.

Standing immortal in heaven.

now.

In the central agency of the heaven world, explosions appeared one after another in a secret room.

The Seraphim guarding the secret room was alarmed.

They opened the secret room, and then it became petrified, followed by a thick panic.

This secret room preserves the life tablets of the thirty-six commanders and the descendants of the royal family of angels.

What is the life card?

It is a brand created by a special secret method using a strand of life essence and blood and a strand of spiritual consciousness.

Once the body dies, the brand name will be broken.

What did the guardian angel see at this moment?

Twenty-nine of the thirty-six Great Commander's Life Tablets were broken. What does this mean?

Twenty-nine great marshals have fallen.

Including the first commander.

"impossible!"

The guardian angel who came to his senses screamed with disbelief on his face.

"There must be something wrong."

"How can the marshals fall, and there are still twenty-nine statues, impossible, absolutely impossible."

"Report quickly."

The guard angel panicked and reported the news to the past.

After more than ten seconds, seven rays of light descended. These are the only remaining seven commanders of the angel race. The head of the eyebrows also have magical seeds blooming.

This is the second handsome.

"No!"

Seeing the life card that was shattered on the ground, the seven commanders cried out in grief, their eyes cracking.

The atmosphere became extremely depressing.

"Roar."

The second handsome roared.

The entire hall shook wildly.

"who is it!"

"Who killed the twenty-nine commanders of our clan is unforgivable, the blood and sea of hatred, my clan will never die."

Huge losses, huge losses.

Not only twenty-nine commanders, but also an army of 18 million angels, and twenty-nine warships.

All gone.

The angel race can be said to be severely damaged.

"puff."

The second handsome man was extremely angry, and he spat out a mouthful of blood: "Zu Xing, it's the creature on Zu Xing's side!"

The other commanders said murderously: "Prepare for battle and kill Zu Xing."

"kill!"

"kill!"

However, at this moment, the second handsome man calmed down.

The first commander and the others were wiped out, and they killed him, no doubt as a gift.

Now only let the king of gods take action.

But the King of God is in retreat, reborn for Saint Alice, and can't come out for a while.

what to do?

The second commander didn't say a word, teleported away, and came to the place where the king of gods retreated.

Swish swish.

The other six great marshals followed.

Not only that.

The children of the royal family also got the news, and they all came to the place of retreat with great fear and anger.

Crash.

They all knelt down and shouted: "God King, my family is facing a crisis, please get out of the customs quickly."

no respond.

The second handsome and they continued to bow down.

shouting.

time and time again...

day by day...

at this time.

The Ancestral Planet Earth is beginning the Great Leap Forward.

The opening of the world channel has a disadvantage, that is, that extraterritorial creatures can invade, and it has an advantage, that is, the speed of the earth's cultivation environment will be accelerated.

If it is said to be three times the recovery speed directly, it is now five times.

And it's still growing slowly.

Fang Rui speculates that the environment can recover ten times faster in three to five years.

What is this concept?

It is possible that it can really be restored to its ancient glory.

Not only the environment, but the earth itself seems to have changed a bit; these days, big earthquakes are happening all over the world.

Although a lot of disasters have been caused, it is shocking that in the earthquakes, the life planet seems to be expanding.

Modern science measures the diameter of the earth to be 12,742 kilometers.

Today, the diameter of the earth has increased by 15,000 kilometers.

The diameter has increased by more than 2,000 kilometers.

Don't underestimate this number, it's terrifying when converted to surface area.

It's a good thing that the earth is expanding.

In the future, the earth will be much larger than it is today, which is inevitable.

This is Zuxing.

It has been in decline for countless years, and now it is about to be reborn.

The earth has changed, and ordinary human beings have received extreme benefits. Some viral plagues have disappeared, and some diseases have been cured inexplicably.

Newborns, in particular, have a very strong physique.

As for the cultivation world, strong men are springing up like bamboo shoots after a rain, and there are more and more evildoers every day.

However.

No matter how powerful genius monsters appear, their goal is the same, that is Ye Fan.

Great summer teacher.

Lord of Heaven.

Invincible existence.

Where is Evan?

Nature is in the heavenly world.

He has been closed for a long time.

Since the angels were driven away, he and Fang Rui and others looked at the battleship and entered the retreat stage.

now.

Between his eyebrows, the eighteen seeds of magical powers flashed brilliantly, and if outsiders saw it, they would feel extremely terrifying.

As strong as the number one handsome of the Angel Clan, and only condensed one magical seed, Ye Fan actually condensed eighteen, which is simply appalling.

But it's not over yet.

Ye Fan is still continuing.

"boom!"

The nineteenth supernatural power seed is formed.

three days later.

The twentieth supernatural power seed is formed.

Ye Fan opened his eyes.

it's over.

He has mastered 21 kinds of magical powers in total, except for the Great Extermination Technique, which he has not practiced, and has cultivated all the others.

Now all the seeds of supernatural power have been condensed.

Ye Fan felt that he was extremely powerful.

Now if he encounters the first commander, he can kill him directly without giving them a chance to turn the tide.

Twenty magical seeds were attacking the gate of the Taoist palace all the time, but the gate of the Taoist palace remained motionless.

This is what Ye Fan expected.

Every step he took was very difficult. The door of the Taoist Palace was definitely stronger than that of ordinary monks. It was difficult to knock on the door of the Taoist Palace.

Not enough now.

Ye Fan is not in a hurry.

Because he has a method in his mind, as long as he succeeds, it is enough to smash the door of the Taoist palace.

This secret method comes from the memory of the ancient emperor Xie Yue.

"Magic Seed Golden Elixir."

Ye Fan muttered to himself, the secret method emerged in his mind, he was studying, and he was very shocked.

It is said that in ancient times, some celestial talents condensed a lot of supernatural power seeds. However, these seeds were very scattered, so a great wise person refined all supernatural power seeds into one, and a star was a golden pill.

That is the Great Golden Elixir of Divine Power Seeds.

Once it is made into a golden pill, it is enough to smash the door of any Taoist palace, and at the same time, it will be far stronger than the monks of the same realm.

"Be sure to become a big golden pill."

Ye Fan secretly swore.

However, it is not easy to make gold pills, and there are not many successful people in the ancient times.

Need a lot of natural resources to assist.

At this stage, Ye Fan has a lot of resources, but there are not many real treasures.

Ye Fan is out.

He walked in the sky, inspecting the entire heavenly world.

He is satisfied.

The army of angels trains in an orderly manner.

The soldiers of the Tianzun Temple are also training, which has been expanded to 10 million, plus the army of angels, and the ability warriors.

Now Tianzun Hall has nearly 20 million soldiers.

This is a terrifying number.

"Xiaofan."

Fang Rui sensed Ye Fan.

She is now very strong mentally, and has been completely detached, and her light brain has developed some more.

She has thoroughly researched the starship battleship of the Angels, and started to upgrade it. She will definitely integrate the seven starship battleships into one super giant.

"Seventh sister, how's the Starry Sky Giant?"

"How can it be so fast."

Fang Rui rolled her eyes, and then said: "But it's too soon. As long as it succeeds, the Big Mac is stronger than the main battleship of the first commander."

"good!"

Ye Fan was excited.

"Xiaofan, during your retreat, the outside world has changed a lot, go out and have a look."

"I think so too."

Ye Fan left the heavenly world.

As soon as I came out, I immediately found that the environment was much better, and the essence and spiritual energy of heaven and earth were very abundant.

Ye Fan performed a great stealth technique.

walk between heaven and earth.

He walked through some cities in the secular world, and even went back to Changning to take a look.

He went all the way west.

Finally came to the western border, crossed countless yellow sands, and entered the river of life and death.

Ye Fan came to the void.

The strength was not enough before, but now he feels that the strength is almost the same, and Ye Fan wants to see the face of the imperial concubine.

He entered the Yin-Yang Lake and opened the ancient coffin to enter it.

Familiar with the road.

When he saw that the vortex of yin and yang had shrunk a lot, Ye Fan said: "I'm afraid it will be exhausted within three years, and I don't know what will happen after it is exhausted? Will the imperial concubine wake up?"

Ye Fan entered the vortex.

It is close to the imperial concubine, but has a very strong repulsive force.

"open."

Ye Fan's eyes were like electricity, and the power of his body surged out, tearing apart the barrier.

"Boom."

this moment.

Variation occurred.

The phoenix robe on the imperial concubine trembled, and a great repulsive force blocked Ye Fan, pushing Ye Fan away.

However, since Ye Fan came, he definitely didn't want to return without success.

"Heavenly hegemony."

Ye Fan sighed, the 20th-level celestial hegemony body recovered, and at the same time, the world of bitterness surged in his body, sending countless spiritual powers.

puff!

Finally, under Ye Fan's full strength, the repulsive force was torn apart, and Ye Fan approached the imperial concubine.

"excuse me."

Ye Fan whispered softly, then grabbed in front of the imperial concubine, crushing the chaotic air that lingered.

puff.

Chaos Qi really exploded.

next second.

The face of the princess appeared.

In an instant.

Ye Fan contracted in pain, his back was hairy, and his whole body was as stiff as petrified, unable to move.

this this this...

"how is this possible!"

Ye Fan exclaimed.

The appearance of the imperial concubine is exactly the same as that of the eldest sister Meng Qingyi, which is incredible.

At that moment, Ye Fan thought it was the eldest sister lying here.

He used his yin and yang eyes to examine it carefully, and found nothing tricky. This was indeed the face of the imperial concubine.

Ye Fan was destined to remain calm.

The imperial concubine is very beautiful, it is an indescribable beauty.

Noble and sacred.

Not to be desecrated.

Ye Fan held his breath, reached out and carefully touched the face of the imperial concubine.

Suddenly, a mysterious force attacked.

"puff!"

Ye Fan was knocked out of the vortex of origin and vomited blood.

He is very afraid, whether the imperial concubine is dead or alive, why does she look exactly the same as the eldest sister.

This made him unable to calm down.

Will something bad happen.

Miss can't have an accident.

At this moment, Ye Fan was a little wary of the imperial concubine. He left the ancient coffin, grabbed the ancient coffin, and then performed the Great Sealing Technique.

He put the ancient coffin into the bitter sea world.

Although the sea of bitterness is still very young, it is a world after all. Now Ye Fan can't take in living beings, but he can put other things, and the ancient coffin is naturally no problem.

Chapter 1178: Big sister wakes up

Ye Fan didn't think about it.

He tried to control the Tianbao jade hairpin, and wanted to move the entire void into the heavenly world.

It is true that he can shake the void sky a little bit, but he cannot move into the heavenly world, so Ye Fan can only give up.

But in nothingness, he found a treasure, a battle armor.

The refining of this armor is as thin as a cicada's wings, it is very convenient, and its defense power is amazing.

It took Ye Fan a little time to refine it, and after wearing it, it seemed to be integrated with the body, and it could be mobilized with just one thought.

In the yin and yang lake, Ye Fan also left a gate to heaven.

In this way, he won't have to spend a lot of time when he comes to Wutian, and he will come directly from the heavenly world in an instant.

When Ye Fan entered the heavenly world, he immediately received a message from Fang Rui, saying that the eldest sister was awake.

Ye Fan was shocked.

The eldest sister has been in a coma for so long, and now she suddenly wakes up?

Is it because he dispatched the imperial concubine?

Is there really some kind of connection between the eldest sister and the emperor?

Ye Fan came to Phoenix Pavilion.

Newly built here are the residences of the sisters, Luo Hong, Yu Qian'er, the Elf Queen and other female relatives.

"Miss."

Ye Fan came to the boudoir.

Seeing Meng Qingyi, she couldn't help hugging each other.

"Big sister, you finally woke up after so long, we are worried to death. Are you all right?"

"I'm fine, it just feels like I had a long dream, but I don't remember what it was."

"Anyway, it's fine."

Ye Fan checked the eldest sister's physical condition, and she was indeed very healthy, and her physique was very strong.

Ye Fan was not surprised by this.

The other sisters all have physiques, and the eldest sister definitely has them, but they haven't awakened yet. The harder it is to awaken, the more powerful their physiques are.

Ye Fan didn't say anything about the imperial concubine.

Let's keep this secret for now.

Meng Qingyi had been asleep for so long, and she didn't know many things. Ye Fan, Su Muyu and others accompanied her and narrated many things.

at the same time.

Ye Fan obtained a lot of resources to build a body for Meng Qingyi; now he has a lot of means, which can completely make people go to the sky in one step.

After seven days.

Meng Qingyi's improvement has been completed, and her physical strength is already comparable to that of a martial arts overlord.

this day.

Fang Rui also heard good news that the Starry Sky Giant has been built.

In the heavenly world, a huge starship battleship is in the air, so majestic.

Like an ancient beast.

Moreover, Ye Fan could feel the power of Big Mac.

He asked, "Seventh sister, how powerful is it?"

Fang Rui said proudly: "You can deal with the number one commander of the Angel Clan, knowing that the number one commander cannot defeat the Big Mac."

"Really cow?"

"Of course, the star warship is originally from the technology group. I have a brain, and I have upgraded the warship to improve the shortcomings. This giant is a veritable air fortress."

"I'll take you in to see."

Under the leadership of Fang Rui, everyone visited the entire starship battleship, which was breathtaking.

With this giant, you can even travel to the stars.

Fang Rui said: "Xiaofan, give it a name, this is the first starship battleship we have, and it is of great commemorative significance."

"name."

Ye Fan muttered to himself.

He recalled everything in the past and smiled: "The place where we started is the Sunshine Welfare Institute, let's call it the Sunshine."

"Sunshine, yes."

Fang Rui waved her hand, and the word "Sunshine" could be on the body of the battleship, and then she said excitedly, "Would you like to try it?"

Everyone got excited.

Ye Fan smiled and said, "Just try it. Go to the starry sky for a spin, but don't fly too far. If you don't come back, you will be finished."

Rumble.

The Sunshine sailed out of the gate of heaven and entered the world channel, slowly moving towards the starry sky.

Some monks were shocked when they saw this.

Ye Fan stood proudly in front of the Sunshine and slowly entered the starry sky. Looking back, the Blue Star of Life seemed extremely sacred.

"Is this the starry sky?"

Everyone is very surprised, after all, it is the first time to enter the starry sky, and the first time to see the living planet in the starry sky.

Sunshine orbits the Earth.

Ye Fan is sensing the starry sky.

In this vast starry sky, there is also energy that can provide cultivation, but the conditions are very harsh.

"Xiaofan, let's go to the moon to see."

"Can."

The Earth and the Moon are not far, of course, for Sunshine.

Sunshine will reach the moon in half an hour.

"Boom."

Sunshine landed.

Ye Fan took everyone off the battleship. Due to the different gravity of the moon and the earth, the others couldn't adapt for a while.

But Ye Fan is fine.

He took out Fangcun Mountain, suspended it above everyone's head, and suppressed it, making everyone feel the same as the earth.

"This is the moon, pitted and desolate."

"It is said that the moon is only half-faced to the earth, and there is nothing on the other side. Do we want to take a look?"

"good idea."

Everyone was curious.

However.

At this moment, Ye Fan sensed some strange auras, he grabbed them out of thin air and caught those auras.

"This is not the breath of the angel race."

Ye Fan's expression changed.

What does this mean?

It shows that there are other creatures in the angel race around the earth.

Maybe he fought against the angel race before, and other creatures were paying attention in secret.

This is not good news.

This shows that the coordinates of the ancestor planet Earth are completely exposed.

Now the angel race is invading, and maybe other big worlds will one day.

Everyone realizes this.

"It's troublesome."

"Yeah, if Zu Xing is discovered by many big worlds, the invasion will be continuous and difficult to stop."

"I don't know which other big world knows the coordinates of the ancestor star besides the heaven world."

Ye Fan looked at the vast starry sky, and the pressure increased greatly.

Being able to hide caused neither the angels nor him to find out. The creatures of this ethnic group are very strong, and they may be stronger than the angels.

Once invaded, the consequences are unimaginable.

"Let's go back."

Ye Fan prevents everyone from exploring another unknown side of the moon, who knows what is hiding there.

Perhaps there are creatures from other great worlds hiding.

Don't overdo it yet.

The troubles of the Angels have not been completely resolved. The first commander and the others have returned, and the next time will be the arrival of the Angels.

That is the powerhouse of the Taoist palace.

Ye Fan felt the pressure, he needed to break through, condense the golden pill, and knock on the door of the Taoist Palace.

"Boom."

Sunshine left.

Not long after they left, several illusory creatures appeared, they were ghost creatures, and they used incorporeal bodies.

"Nearly found out."

"Speaking of which, the giant battleship is really majestic. It would be great if we could get it."

"Don't worry, the commander has broken through to the realm of the Taoist Palace and become a ghost, killing Ye Fan is easy."

"We just need to stare at Zu Xing, this is our mission, don't care about the rest."

"Right."

...

Sunshine returns to the heavenly world.

Ye Fan immediately came to the palace and told the queen about this matter, but there was no good way.

Under such great pressure, Ye Fan worked harder. He continued to practice and worked hard to become a great golden elixir.

And in heaven.

With the second marshal and the others who kept shouting and calling day and night, finally, the place of retreat shook.

"boom!"

A terrifying breath permeated.

This breath is too strong.

In front of this kind of existence, the strength of the second most handsome is nothing but an ant.

The king of angels.

He didn't show up and was still in retreat, and his voice came out: "What's disturbing me?"

The second commander said: "God King, something big happened, didn't we discover the coordinates of the ancestor star before, Will, Simba, and the first commander rushed over in three batches, a total of twenty-nine commanders, all of them... "

"Shh!"

A figure rushed out of the retreat.

The sound was very loud, and the light spread out, revealing the figure.

This is a ten-winged angel.

Not only that, his wings turned out to be pale gold, what does this mean? Explain blood attribution.

Rumor has it that in a long time ago, there were blazing angels among the angel race. They were the most powerful angels. They were full of golden light and flames, and their wings were golden.

The Lord of the Angel Clan already has signs of the evolution of super blazing angels.

"What happened to them?"

"God King, they...they all perished." The second commander crawls on the ground, his hair is full of grief and grief.

"The fate cards are all broken."

Even the aloof patriarch was swaying at the moment, as if struck by lightning.

Twenty-nine commanders fell, and the angels couldn't bear this loss.

Previously, he signed a truce with the lord of the ghost clan in the \*\*\*\* world. Once the ghost clan knew that they had lost twenty-nine eight-winged angel commanders, and only seven remained, the lord of the ghost clan would definitely tear up the treaty and bring the army with him. kill.

"how so!"

The King of God was furious, and the sky was torn apart.

The whole heaven is shaking.

The second commander said in horror: "The news that Zimbabweer came back said that there was a ruthless man on Zu Xing's side, and they couldn't deal with it; so the first commander went to support, but they all fell."

"God King, please call the shots."

"God King, please lead us to kill Zuxing."

"God King..."

Shouting one after another, heartbreaking.

The Angel Clan Master was not impulsive, but very calm, but his tone was extremely cold, "Although Zu Xing has declined, it must be extraordinary. This time it is our carelessness. It is necessary to fight Zu Xing, but now is not the time. Alice's transformation is transforming, and it will take a while."

After the words fell, the king of gods returned to the place of retreat.

The second handsome they looked at each other.

Is this gone?

The King of God had no instructions at all.

Closed place.

The King of God looked at Alice on the altar. She was transforming. Wings had grown on her back, and she was still golden.

"Seraph."

"I didn't expect that Alice could transform into a seraph, but it's not complete. It still needs to evolve slowly, but it's much purer than me."

"Good good."

The King of God was overjoyed, with a strange light flashing in his eyes, and he didn't know what he was thinking.

a month later.

Alice successfully transformed.

Three pairs of wings appeared behind him, which were seraphs. One of them was golden, the other was your white, and the next one was pale gold.

"Master."

Alice wakes up, grateful.

The King of God smiled and said: "Alice, very good, you have lived up to my expectations, not only became a pure angel, but also evolved towards the most powerful blazing angel path, very good."

Chapter 1179: Little Tian Wang Dan

"Master..."

"No." The head of the angel clan interrupted Alice's words and said amiably: "You are no longer you before, you are an angel now, and you are still evolving towards a seraph, you were created by me, I should be Your father, you are my daughter, and you are the most honorable princess and saint of the angel race."

Alice was stunned for a moment, and then said with a bow: "My son, see your father."

"Hahaha, don't be too polite."

The angel clan master laughed, held Alice's hand, and said, "You don't need to worry about other things, just practice hard, and evolve into a pure blazing angel as soon as possible. The king is going out, and the heaven world is up to you to take care of."

Alice said, "Father, where are you going?"

"My clan suffered a great disaster. Twenty-nine of the thirty-six commanders were beheaded, and countless clan members were lost. The king is going to behead the culprit."

"You have a good rest."

The angel clan master left the retreat place, he came to the central hall, and the second commander and the others all came.

"God King, when will you leave?"

"You don't have to go."

The face of the angel clan leader was cold, and he said solemnly: "It's useless for you to go, stay to guard the heaven world, and at the same time open the world defense formation to prevent the \*\*\*\* world from killing you."

The second handsome man thought about it and felt the same way.

They all left, the heaven world was empty, and if the \*\*\*\* world attacked, the heaven world would be gone.

At that time, Zu Xing can't win, then they will be homeless and become lonely ghosts.

Angel Clan Master said: "I will go to Zuxing to see, if I can win Zuxing, it is best; even if I can't, I must kill the culprit."

The second commander said, "The King of God, according to the previous news, is a strong human named Ye Fan."

"Evan!"

The Angel Clan Lord nodded.

"I have written down that this human being will die, and I will use his blood to pay homage to the heroes of my clan who died in battle."

"I'll leave now."

"You wait to guard the heaven world, don't let it go. In addition, Alice has woken up, for my daughter, for the princess, for the saint, and is evolving in the direction of the blazing angel, going farther than me."

"what."

The second most handsome men were shocked.

The wings of the God King have turned pale golden, and Alice has evolved farther than the God King, how terrifying.

Seraphs are the most powerful type of angels.

The ancestor of the ancient angel race is the Seraph.

But since the ancient times, the Seraph has never appeared again; it is rumored that if he can become a pure Seraph, he will be recognized by the Ancestral Scepter.

What is the Primordial Scepter?

That is the scepter that runs through the entire heavenly world.

You can see clearly even in the starry sky in the world.

If it can be recognized by the Ancestral Scepter, then the achievements will be limitless, and it will definitely become invincible in the future.

"All Alice's needs need to be met, so that she can practice with peace of mind, and you can teach her when necessary."

"As ordered."

After the explanation, the angel clan master came to the forbidden area, where the treasures of the angel clan since ancient times were buried.

However, most of them cannot be used.

Because although the angel clan master is a monk in the Taoist palace, he is still too weak in the face of the magic weapon handed down from ancient times.

Can withstand the erosion of the years, from ancient times to the present, it must be a powerful magic weapon, most of which are saints and magic soldiers.

The gap between the Taoist palace and the saint is immeasurable.

Countless Taoist monks, hundreds of millions, billions, tens of billions, hundreds of billions, and trillions, are also ants to saints, and killing them is just a flick of a finger.

That being said, you should understand the difference.

Therefore, the Angel Clan Master chose a moment and took away a rope, a magic needle and a ball.

With three treasures and his own cultivation level, the Angel Patriarch is confident that he can cope with difficulties.

"I'm going too."

The angels left the heavenly world on a battleship.

As the lord of the clan, his battleship is so magnificent, three times larger than the main battleship of the previous commander.

Of course, it is impossible for the battleship to be the only angel clan master himself, and millions of angels.

These angels are not an army, but workers who maintain the battleship.

"Congratulations to the King of God."

The second handsome they shouted.

The battleship vanished.

"I hope that the king of the gods will go well, if the king of the gods..." The second commander did not dare to continue.

Once the god-king encounters an accident, then their ethnic group will really decline completely.

When the ghost clan in the \*\*\*\* world got the news, they were bound to attack in a big way. They couldn't stop it at all and wanted to fall.

Their heaven world and \*\*\*\* world are mortal enemies, and they both know the coordinates of their respective worlds.

In this vast universe and vast starry sky, it is impossible to find the world without world coordinates.

Except for saints.

Only a saint, a thought can travel through the infinite universe and search for the world.

And the existence of the emperor level, that is, the endless star field is shuttled in one thought.

Pull away.

anyway.

When the angel clan master left on the battleship, it was on a dead planet 90 million miles away from the heaven.

There is a black warship parked on it.

Although 90 million miles is really too short for the vast starry sky, here, the black battleship secretly monitors the movements of the heavenly world.

"Your honor, the battleship of the angel clan master has left, and it seems to be killing Zuxing."

The subordinates report to Ghost Zun.

This is the commander of the ghost tribe who killed the first commander of the angel tribe. He was promoted to the realm of the Taoist palace and became a ghost master, known as the ghost tooth.

"Your Highness, if you attack the Heaven Realm now, you will surely turn the world upside down, and maybe you will be able to take the Heaven Realm."

"not that simple."

Guiya Zun shook his head and said lightly: "Every big world has a great formation to protect the world, and it is not easy to break through the great formation."

The subordinate said: "Then report it to the clan, and the clan will deal with it?"

Guiya Zun said: "No, I will take the heaven. Now let's go to Zuxing to see the contest between the angel clan master and Ye Fan. When they both lose, I will suppress them and swallow them up to take advantage of the fisherman. Maybe I can improve again and become a peak powerhouse of the Taoist Palace."

A group of subordinates were secretly shocked.

The ambition of the ghost tooth is so big.

You must know that the master of the ghost clan is the peak powerhouse of the Taoist palace.

One mountain cannot tolerate two tigers.

If Guiya Zun also becomes the peak of the Taoist Palace, it is bound to challenge the position of the ghost master.

"You are from my lineage. If I become a ghost master, you will be indispensable. If anyone betrays me, don't blame the deity for being ruthless and not showing mercy."

"Crash."

All the subordinates knelt down and shouted in unison, "Your Highness, we swear our allegiance to the death, and hope that Your Highness will soon become the peak of the Taoist Palace and take the position of the Ghost Lord."

"Hahaha."

The Ghost Fang laughed loudly.

"Start the battleship and head to Zuxing, I'm really looking forward to it."

...

on the earth.

Ye Fan was a little uneasy.

Unable to concentrate on practice.

He found the Emperor of God and the Asura Maiden, sat down and talked, telling them that they wanted to condense the great golden elixir of supernatural power seeds.

The God Emperor and the Asura Mistress were not surprised.

Ye Fan is so evil, he must take this path.

"I have been restless in recent days, and I always feel that there will be a catastrophe. I guess that it may be the \*\*\*\* king of the angel family who has left and will come soon. It must be a strong Taoist palace, and maybe even the peak of the Taoist palace."

Ye Fan Miansen was worried.

The emperor nodded and said, "This is indeed a catastrophe."

Asura woman said: "You must condense into a great golden pill to fight against him. If you can knock on the door of the Taoist door and enter the room to become a monk in the Taoist palace, then it is safe."

"So I came to ask for advice. I don't know if you have any ways to help me condense the Great Golden Elixir?"

Ye Fan's eyes lit up.

The Protoss and the Asuras are one of the strongest ethnic groups, especially the Protoss, the first ethnic group in the heavens and the world, and there must be many secret techniques.

"There must be a way."

"God Emperor, please tell me, if it is feasible, I will give you a reward, it will not be in vain."

Ye Fan said expectantly.

God Emperor said: "My God Clan has a secret recipe called Little Heavenly King Pill. This is a secret recipe prepared by my God Clan for the arrogant sons of the gods in ancient times. Refining the Little Heavenly King Pill can help condense the great golden pill of supernatural power seeds, but It's not guaranteed to be successful, it's just a 30% increase in the success rate."

"Thirty percent, that's a lot. God Emperor, I want this secret technique. What do you need, but it doesn't matter."

"Don't rush."

The God Emperor waved his hand and said, "I can give you the recipe for the Little Heavenly King Pill, but what about the materials? The materials for refining the Little Heavenly King Pill were very difficult to find in ancient times, let alone the Earth today."

Ye Fan frowned.

This is indeed a difficult, even impossible task.

God Sovereign said: "I'll give you the pill recipe, maybe you have some way to find enough materials."

A thought entered Ye Fan's mind.

Xiaotianwangdan's Dan Fang learned that Ye Fan was deeply in his mind.

After the analysis, Ye Fan couldn't help admiring that the ancestors of the Protoss were really wise, and they were able to create such a miraculous pill recipe.

Just as the emperor said, the ingredients needed for the pill recipe are numb, and Ye Fan has never heard of many ingredients.

How to find this?

There is absolutely no way.

"Ugh."

Ye Fan could only give up temporarily, he asked, "God Emperor, what kind of reward do you want?"

The emperor said: "I hope Miss Fang Rui will make some improvements and repairs for me and the queen's battleship."

Ye Fan suddenly realized.

The God Emperor and the Asura Woman each obtained a starship battleship, but some of them were damaged, and they could not be repaired.

As for improvement, it is impossible.

"No problem, it's a trivial matter. I'll go to the clan with you to pull the battleship into the heavenly world, and I'll give it to you when the improvements are repaired."

Ye Fan went to the lands of the Protoss and Shura, and sent the two battleships into the heavenly world.

Improvement and repair work is officially underway.

this day.

Ye Fan came to a golden area, which is the territory of the Golden-winged Dapeng clan.

The Jinpeng family was born.

Jinpenghuang is also a strong person in the realm of bitterness.

"Boss."

Jinquan appeared.

At the same time, a majestic voice sounded, "The visit of the national teacher has made the land of our clan flourish, please come quickly."

in a blink.

Ye Fan and Jin Quan landed in the central hall of the ancestral land, and he saw a big Jinpeng bigger than Jin Quan, with a more vigorous breath.

That is Jinpenghuang.

Lao Tzu is Lao Tzu after all, even if Jin Quan's bloodline returns to his ancestors, his strength is still inferior to Jin Penghuang.

"National teacher, I met for the first time, and I have long admired the name. I am grateful to you for taking care of me."

"Penghuang is polite."

Chapter 1180: in full swing

"The national teacher should have something to do, but it doesn't matter, I will definitely not refuse if I can help."

"Does Penghuang know about Little Heavenly King Pill?"

"Little Heavenly King Pill?!" Jin Penghuang was shocked, "This is the secret method of the Protoss, which is used to help Heaven's Chosen to condense the Great Golden Pill, the seed of supernatural power. Could it be that you, the national teacher..."

"Yes, I'm pursuing this step now."

"Great."

Jinpeng Huang praised.

Jin Quan clicked his tongue and said, "Boss, how many magical seeds have you gathered now?"

Ye Fan didn't hide it and said, "Twenty."

"hiss."

Emperor Jinpeng, Jinquan, and even the other golden-winged Dapengs in the hall took a deep breath.

Twenty supernatural power seeds, good guy, it's really a fork.

Even in ancient times it is outstanding.

Not to mention the success of condensing so much, just cultivating twenty kinds of Dao supernatural powers is amazing enough.

"The Emperor of God has given me the pill recipe of the Little Heavenly King Pill, and now what I lack is the material."

Emperor Jinpeng suddenly realized that Ye Chen had come to ask for the materials for alchemy.

"Nongguo Shi, I haven't seen the recipe of Xiaotianwang Dan, but as a precious secret method of the Protoss, it is definitely not simple, and the refining materials must be extremely rare. I don't know if there is anything you want in my family's collection. Show me the list of materials."

With a wave of Ye Fan's hand, the list appeared in front of Emperor Jinpeng.

It's okay to expose the list of materials, the main thing is the refining method, as long as this is not leaked, there is no problem.

Jinpeng Huang said: "Sure enough, they are all rare treasures."

Ye Fan said: "There are ninety-nine kinds of rare treasures in total, most of which may not exist on Earth now, but the emperor said that they can be replaced by rare treasures with similar medicinal properties. Now the gods and the Asuras have given me twenty kinds, and there are still seventy. I need to find nine kinds, I wonder if Penghuang can help me solve a few?"

"Good talk, good talk."

Jin Penghuang's eyes flickered, he opened the treasure trove, caught twelve kinds of rare treasures, and said, "National teacher, look at these."

Twelve kinds of rare pearls shone with mesmerizing halo, and at the same time filled with a faint fragrance.

Jinpenghuang explained one by one, corresponding to the twelve raw materials in the list.

Ye Fan was overjoyed, "Thank you Penghuang."

Jinpeng Huang said: "Yes, the national teacher needs to condense the great golden pill, so as to prevent the arrival of the Lord of the Angel Clan."

Ye Fan said: "Indeed, I have a hunch that the angel clan master is coming soon, and he is suspected to be the peak powerhouse of the Taoist palace."

"The peak of the Taoist Palace, this is not a joke, the national teacher should make a foolproof plan."  
Jinpeng Huang reminded.

"I'll go to other ethnic groups to see."

Ye Fan left in a hurry.

There are now sixty-seven materials left.

He walked through various clans and various forces, and he gained something. In just three days, he gathered a total of 83 kinds, and now there are 16 kinds that have no clue.

"Great Prophecy!"

Ye Fan used this magical power to predict a corner of the future.

What did he see?

devastated, the end of the world.

Catastrophe happened in the vast starry sky.

this is too scary.

Ye Fan's face was solemn and he muttered to himself: "Although a corner of the future is predicted, it is not impossible to change. Everything is possible. The future is full of uncertainty. In the prophecy, catastrophe broke out in the starry sky, maybe you are not only the angel clan master coming, and there may even be other ethnic groups coming."

Ye Fan's pressure increased greatly.

Material!

There are sixteen remaining, which must be collected as soon as possible.

These materials are not raw materials, they are all replaced by similar ones, and the effect of the refined Little Heaven King Pill must also be discounted.

It may only increase the success rate by 10%.

But for Ye Fan, 10% is enough, he just needs an opportunity to lead him into the hall, and then he can rely on himself.

This is Ye Fan's confidence.

What he lacks now is a guide, and Xiaotianwang Dan is his guide. As for the success rate, he doesn't care at all.

But he has traveled all over the world and has nowhere to go. How to find the remaining sixteen species?

this day.

Ye Fan came to the palace, entered the sea of clouds of luck, and the queen also came to see the drought.

Ever since the last time Hanyu opened the Yellow Emperor's inheritance site, he was seriously injured by the ancient emperor Xie Yue and returned to a deep sleep, and he has never woken up again.

For the drought, Ye Fan was very grateful.

If it hadn't been brought back by the drought, he would have been dead; and there was no one in the angel race who could stop him, and he would surely come, and the life of the earth would be wiped out.

It can be said that the drought is the real hero behind the scenes.

Just unknown.

Who said that a hero is the one who stands in the light!

Ye Fan forced out the blood essence of his life, three drops, how terrifying the energy contained in it, and entered the light group.

Immediately, the light group burst out with vitality.

"The heart of the Qing Emperor."

Ye Fan took out the heart of Qingdi.

The queen said: "Ye Fan, this is what you use to repair your body. It is of great use in battles. Do you want to give it to the scorpion?"

Ye Fan said: "Yes, I am the only one who suffers from drought. I have to exchange her kindness for her. Moreover, the catastrophe is coming, and the recovery of the drought will be a big help for me."

"The heart of the Qing Emperor consumes too much, and the life force contained in it is not much, so give it to the dry scorpion."

"Shh!"

The heart of Qingdi rushed into the light group.

Rumble.

In an instant, a strong and surging life force burst out, and an extremely fiery breath spread.

"Om."

The entire light group burst into flames.

The drought succumbed to the flames, and then Guo Yan turned into a behemoth, a big man in bright red armor.

A soft whistle.

The flames exploded, and the drought revived.

Her long fiery red hair danced wildly, a flame mark appeared between her eyebrows, and her two fangs grew a little longer.

"Evan."

"it's me."

Evan nodded.

The dry scorpion stopped breathing, slowly landed, and said, "Thank you for the life force you sent."

"Don't say that, you brought me peace, and now I'm repaying your kindness. The world channel is opened, the angels attack, and they are repelled by me, and the angel master will come soon."

Han Yan said: "I didn't expect you to be able to achieve this level. It's very good. I think you are in the supernatural state now."

"Indeed, I want to condense the great golden pill, the seed of supernatural power, and master the pill recipe of the \*\*\*\* race's little heavenly king pill, but there are still sixteen kinds of materials missing, do you have any ideas?"

"What realm are you now? If it is also in the supernatural power realm, then we can share the refining of the Little Heavenly King Pill."

"I don't need these, my realm will gradually improve step by step, I don't need to practice."

A word from the dry man made Ye Fan feel ashamed.

indeed.

In the ancient times, the drought must have been very powerful. Like the ancient Xieyue emperor, they fell into the realm now, as long as they have enough time to recover, they do not need to practice as hard as they do.

Han said: "Have you explored the inheritance of the Yellow Emperor?"

Ye Fan said: "It's really not there, I thought you got all the treasures of the Yellow Emperor's inheritance."

Han said: "No, I just got the soil. Let's go, take a look at the Yellow Emperor's heritage. The most important thing is to find the Yellow Emperor's Earth Magic. You have practiced the Red Emperor Fire Magic, Qingdi Wood Magic, and the Earth Magic. Three types have been collected. In the future, if you find the White Emperor Gold Magic and the Black Emperor Water Magic, then you will collect all the Five Elements Magic, and you can practice the Five Elements Divine Physique. This is the most top-level Divine Physique."

Ye Fan said: "I understand this, but it's still a long time ago. Now the focus is to find the materials and refine the Little Heavenly King Pill."

They came to the inheritance place of the Yellow Emperor.

In fact, it is the area where the World Passage is located, and there are many monks exploring here.

"There are many strong people who have explored, maybe they have discovered treasures." Ye Fan said.

"Will not."

Drought shook his head.

"The inheritance left by the five emperors is not available to ordinary people. The five elements generate and restrain each other, wood generates fire, and fire generates earth. We can sense the earth's spirit by exerting the spirit of fire."

"good."

Ye Fan followed the dry scorpion and did the same.

The Vulcan Qi turned into one after another and washed out, disappearing in the entire inheritance.

Soon.

Ye Fan sensed something, and the drought disappeared faster, and Ye Fan didn't want to be outdone, and disappeared in place.

Other practitioners couldn't find them at all because Ye Fan used the great invisibility technique.

They discovered a certain underground palace in the heritage site.

Has a boundary.

It's also simple for Ganji and Ye Fan.

After getting through, the rich earthy spirit rushed to the face, and Ye Fan absorbed it all, which was very beneficial.

In this inheritance underground palace, there are many good things, the first is the cultivation method of the Yellow Emperor's earth magic, Ye Fan immediately began to practice.

Get started quickly, without any ambiguity.

Vaguely, Ye Fan sensed that there was a cycle in his body, but two links were missing. Even if two links were missing, the current cycle had strengthened his physical body a lot.

It's amazing.

Find the remaining two divine arts, collect the five elements divine arts, and complete the five elements cycle. I don't know how much enhancement it will bring to the physical body.

Ye Fan is looking forward to it.

"Come here."

The underground palace is very large, with a secret room.

There is actually a huge skeleton here, and on the finger on the skeleton, there is a ring.

space ring.

Ye Fan's mental power probed in, and found that the space inside had been rotten to the ground, and countless resources had been destroyed, but there were still a lot left.

"Crash."

Ye Fan took out all the remaining resources and began to look for materials with the scorpion.

The emperor pays off.

I found eight, which is really a pleasant surprise.

"There are still eight left."

Ye Fan thought about it.

The scorpion looked at the skeleton in the secret room.

"Isn't this the Yellow Emperor's skeleton?"

"That's impossible, but it must have something to do with the Yellow Emperor, maybe even the heir of the Yellow Emperor. Time is an invisible sword, and no one can hold it."

"Why can you live from ancient times to the present?"

"I paid a great price, which is equivalent to being reborn from the ashes. My father Chidi also made a lot of preparations, but it is not 100% able to recover. It is possible that I will sleep underground forever, but fortunately, I recovered. already."

After Han Yu finished speaking, he was a little regretful: "I thought there were some treasures in the inheritance, but unfortunately, there are no magic soldiers in the cultivation method and some resources."

Leave the heritage site.

Ye Fan has a headache, where are you going now?

There are eight materials left.

"Go to the sea to find it."

Drought gave a way.

"Since ancient times, the sea area has been vast and mysterious, and there are many terrifying existences in the deep sea. It may be possible to find materials."

"That's all."

Ye Fan nodded, and suddenly his heart contracted, and there was something in the dark.

He looked out of the channel, towards the outer starry sky.

come yet?
