Chapter 1181: Abyssal beast

Ye Fan looked at the outer starry sky.

The scorpion also felt it, and his eyes became extremely sharp.

At this moment, it is very scary to welcome a Taoist palace powerhouse, and Ye Fan can't stop it at all.

Not to mention the drought.

Even if all the powerhouses on earth join forces, it is still unknown.

At this time, Ye Fan thought of the Corpse Emperor.

This guy disappeared after the opening of the sky, I don't know what realm it is now.

If the Corpse Emperor held the Heaven-opening Axe, he might be able to fight the Angel Clan Master, but it was only a guess.

Rumble.

A huge wormhole has appeared in the outer starry sky.

Ye Fan's pupils shrank, he really came, there was no fake, the situation was serious.

The emergence of wormholes has affected the earth.

There was a big earthquake.

At the same time, the breath of the wormhole filled the air, extremely depressing and chilling, and the cultivation world was frying.

The major ethnic groups and various forces were alarmed.

They know that this is the arrival of the Lord of the Angel Clan, and that is the powerhouse of the Taoist Palace.

at the same time.

The empress, the **** emperor, the Asura woman, Jinpeng emperor and other powerhouses all rushed over.

Ye Fan and Ganji entered the world channel.

They stood at the entrance of the passage, staring at the huge wormhole, and they could feel the huge energy fluctuations in the wormhole.

It was supposed to be a giant to drive out.

"Can you break the wormhole and prevent the angel clan master from coming?"

"You can try it."

Drought nodded.

Ye Fan immediately contacted the world of heaven, and the Sunshine appeared. At the same time, Ye Fan asked the queen and the others to come too.

this moment.

All the strong are united in the front, even if there is any grievances, they have to be put aside.

"Start!"

Ye Fan gave an order.

All the powerhouses shot together, and the Sunshine also burst out with amazing energy cannons. All the attacks converged on the Changjiang River and bombarded the wormhole.

However.

These energies impacted the wormhole and did not cause much damage, but only made the wormhole tremble.

now.

In the wormhole, the angel clan master stood on the battleship. He found that the wormhole was unstable, causing the battleship to sway.

"The powerhouse on the Zuxing side is bombarding the wormhole!"

"Hehe, do you think this can stop me, stupid."

"Start the backup storage energy and make every effort to maintain the stability of the wormhole."

The angel clan master issued an order.

The back-up storage energy of the battleship was activated, and the trembling wormhole was restored to calm in an instant.

Seeing this, Ye Fan and the others shot again.

This time the wormhole didn't move.

The gap is too big.

The other party must have an endless supply of energy to maintain the wormhole.

"what to do?"

The queen asked, very worried.

Ye Fan tried to use the Great Seal Technique to seal it, but it didn't help, the effect was minimal, and it didn't work.

The roar in the wormhole became clearer and stronger, indicating that the angel clan master was coming soon.

what to do?

Everyone is very anxious.

at this time.

A heart-pounding force burst out, rushed out of the world channel, and appeared in the outer starry sky.

That power turned into a giant axe.

The giant axe was so big that it seemed to be tens of thousands of feet long. It appeared horizontally in the starry sky, blooming with brilliance, and then the giant axe slashed towards the wormhole fiercely.

"puff!"

The wormhole was split open.

Then.

A bang.

The axe also disappeared.

This scene was so fast that it shocked everyone.

Who will take another shot?

"That's the opening axe, is it the corpse emperor, is the corpse emperor already so powerful?"

Everyone was shocked and excited at the same time.

The Corpse Emperor is so strong that with a single blow, he can split the wormhole to prevent the angel clan master from coming, and his strength must be the realm of the Taoist palace.

Guaranteed.

However, at this time, the corpse emperor's words sounded: "I used the sky-opening axe to split the wormhole with all my strength, and won a one-month relaxation period. I can't continue to shoot, you hurry up."

what!

The Corpse Emperor could not continue to shoot.

why?

Everyone's color changed, as if they had just gained a sense of security, and they disappeared in an instant. The psychological gap can be imagined.

"One month of de-escalation."

Ye Fan muttered to himself, he didn't think much about it, since the Corpse Emperor said that he couldn't take action, it was definitely not fake.

He and Han Yan looked at each other, left immediately, and went to the endless sea to explore.

The powerful gods, such as the God Emperor, the Asura Woman, and the Jinpeng Emperor, also left, and they were all preparing intensively.

some distant starry sky.

A battleship has crashed on the dead planet.

"boom!"

Shocking noise.

The face of the angel clan master was ugly.

The wormhole was actually split open. With such powerful energy, he could also split the wormhole, but it was not easy.

This shows that Zu Xing has a strong person who can compete with him.

"God King, lost the Ancestral Star coordinates, we need to spend a little time to find, and the battleship also needs to be repaired."

"Do it as soon as possible."

The angel clan master's eyes were cold.

He sneered in his heart: This is interesting, how boring it would be to directly crush it.

...

Endless sea.

Ye Fan and Ganji went deep.

They are now capable of diving deep enough.

When they dived 20,000 meters, they encountered some powerful sea beasts. These sea beasts were extremely ancient and had never been seen by the world.

But they are not Ye Fan's opponents.

Continue to dive.

At a distance of 30,000 meters, the strength of the sea beast is even stronger, and it has reached a half-step detachment state.

not enough.

When the avenue is 50,000 meters, they have already reached the end.

That's right, the bottom of the sea.

Here, they felt strong pressure, and Ye Fan also had to revive the sky and perform great body protection.

Drought's body is surrounded by flames.

This is a strange fire, and it can burn in water, and the dry man said that she has recovered the body of the **** of fire.

It is all the credit of his life essence and blood and the heart of Qingdi.

The fire **** body surprised Ye Fan, very powerful, and he even wanted to compare his physical body with Han Yan.

"The current Ancestral Star is too declining and too small; in the ancient times, how could the endless sea be only 50,000 meters deep, which is beyond the depths of saints, and now our little monks have reached the bottom."

The dwarf said mockingly.

Ye Fan said: "The earth is recovering, don't worry. Let's explore it first. I have already sensed a powerful breath rushing towards it like lightning."

"I feel it too."

When the words fell, the dull roar seemed to come from a long time ago, and several behemoths appeared.

These sea beasts are too old.

They are a clan, and the head of the clan has the strength of the supernatural power, which is really incredible.

This is just the tip of the sea.

How many such powerhouses exist in the vast sea.

really.

The sea is the most mysterious and powerful.

It was so in ancient times, and it is so now.

At this time, the Sea Beast Clan Master spoke up, but Ye Fan couldn't understand it, it was an ancient language; but Han Yan understood it and was communicating with this Sea Beast Clan Master.

The Sea Beast Clan Master was also surprised that there were such ancient human beings.

Moreover, the fire **** body of Hanji made him fearful.

At this level, learning the language is really too simple. The scorpion has transmitted the modern language, and the sea beast clan master immediately understands it.

He opened his mouth and said, "You are the daughter of the Red Emperor. It is incredible that you have survived from ancient times to the present."

Ye Fan understood now.

Han Yan said: "Your ancient sea beasts have always lived in the depths of the seabed, not exposed to the world, but you should be able to feel the changes in the ancestors."

The patriarch said: "Indeed, there have been great changes over the years."

Han Yan said: "Now there is a crisis in Zuxing, extraterritorial creatures are going to invade, and the peak of the Taoist Palace is strong."

The patriarch was not surprised, and said: "The peak of the Taoist palace is indeed a pressure for the declining Ancestral Star, but in this vast sea, there are also ancient sea beasts of the Taoist palace."

"real or fake?"

Ye Fan was incredible.

The clan leader said: "Of course it is true, the land is not comparable to the sea, but in terms of area, the sea area is much larger than the land. There are countless ethnic groups in the depths of the sea, and naturally countless strong people are born. However, we sea beasts I have no interest in the land, so I have been living in the sea, and I do not violate the river water with the living beings on the land."

"Did you come down to the bottom of the sea to seek support?"

"I think you are going to return without success. No matter what the ancestors are, the invasion of desire creatures has no effect on our sea beasts."

"We are still living under the sea as always."

This is true.

For the ancient beasts in the deep sea, it doesn't matter who rules the ancestral star.

Ye Fan said: "We are here to seek resources. We need these eight materials. If your family has it, we can make a deal with you."

The clan master glanced.

"These resources are too precious. In ancient times, they were all rare and precious. However, the sea has countless mysteries and infinite resources. These eight kinds of rare treasures exist."

"Can you make a deal?"

"You misunderstood. My clan does not have these rare collections, but I know that there is a clan that has them. You can go and find them to do business. I can lead the way for you."

Ye Fan and Han Yan looked at each other.

They are not fools, they understand what this clan master is trying to do, perhaps using a knife to kill people and taking their hands to deal with another sea beast group.

"are you sure?"

"Yes, there is no doubt about this, I can also tell you clearly that I have a grudge against that ethnic group. You go and make deals with them, if they are willing, it would be great; The treasures of resources are all yours, how about it?"

Ye Fan recalled the words of the corpse emperor, a one-month relaxation period.

This month, he needs to refine the Little Heavenly King Pill, and then condense the Great Golden Pill. The time is very tight.

No time to waste looking for ingredients.

"good."

Evan nodded.

"What is the strength of the other party, is there a powerhouse in the Yudao Palace?"

"No, it's similar to my family. There are several supernatural powers. I won't say much, I'll take you to find out first."

The patriarch took the lead, galloping in the deep sea.

Ye Fan and Han Yu followed closely behind.

I don't know how much distance I flew, and finally stopped, and there were towering mountains in front of me.

The seabed is just as colorful as the land.

There was a dull roar in the mountain range, which seemed to convey a warning that other creatures were not allowed to approach.

"It's here, you can go. If you don't want to trade, you can withdraw, and we will discuss how to destroy them."

"I hope you didn't lie, otherwise, the consequences will be serious." Ye Fan smiled, but with a cold smile.

The sea beast clan leader was shocked.

"Don't worry, I won't lie to you, just go."

"Shh!"

In an instant, Ye Fan and Han Xiao disappeared.

The clan leader was startled again, and felt that he had underestimated Han and Ye Fan.

This method disappears out of thin air without causing any fluctuations, which is really not easy.

Chapter 1182: kill all

Ye Fan and the raven entered the mountains.

Immediately, it was noticed that powerful breaths swept in, wrapping them, and blocking the surroundings.

"who is it!"

ancient language.

The drought was passed on to Ye Fan, and Ye Fan also learned it and could understand it clearly.

Since there are too many undersea groups, the scorpion does not know what kind of sea beast or what group it is.

"Humanity!"

The Sea Beast Lord shook.

For many years, no human has ever come here.

Ye Fan glanced at it with yin and yang eyes, and the strength of this group was not bad, and there were three supernatural powers.

However, Ye Fan is confident that he can handle it.

He said straight to the point: "Fellow Daoist, I don't want to disturb, we are here to make a deal with you."

"Deal, what deal?"

"We need rare treasures from heaven and earth. Take a look at this list. There are eight kinds. If you have you, I hope you can make a deal. Thank you very much."

Ye Fan threw the list over.

The sea beast clan master had insight and said coldly: "How do you know that my clan has these treasures?"

Ye Fan said: "As an ancient ethnic group, you have existed for countless years, and there must be a lot of treasures. I also tried my luck. Daoist, let's make a deal."

The sea beast clan leader said coldly: "If you don't do it, please do it."

The dry man has a very hot temper, and snorted coldly: "Are you sure we are discussing with you?"

Suddenly the sword was drawn.

The sea beast clan leader said coldly: "Why, do you want to take it by force? I want to see how powerful you are."

In an instant.

The entire mountain range rioted, and the ancient great formation opened, covering Ye Fan and the drought.

at the same time.

A big mountain moved, as if it came to life, soared into the sky, and suppressed over Ye Fan and Hanyu.

This is an ancient treasure.

The power of Baoshan's repression was so huge that Ye Fan and Han Xiao were restricted.

The head of the sea clan sneered: "It's ridiculous that you think you are strong enough to fight against my clan."

Ye Fan's face was cold, "It's nothing if you don't want to trade, it's your duty, but I'm in a hurry, so I can only offend. In this world, I won't have any psychological burden. If you don't know your interests, then Only kill you."

The root of the dry scorpion is even more direct, the flames burst, and the sea water in a radius of 100 miles is full of discerning eyes.

Some weak sea beasts were directly burned to ashes.

"Damn."

The clan leader was furious.

"kill!"

He gave an order, and the other two elders of the supernatural power also shot, and the three supernatural powers cooperated with the ancient killing formation.

Ye Fan didn't care.

Because of the 50,000-meter deep sea, there was already pressure, plus Baoshan's suppression, to be honest, their combat power was indeed weakened a bit.

"The Great Way."

Ye Fan roared, the 20th-level Celestial Hegemonic Body recovered to the extreme, and the monstrous blood was shocked to the extreme.

With this punch, the directly hit Baoshan was shaky.

"Vulcan Fist."

Drought is not to be outdone.

The power of her punch was not bad, and the ancient formation trembled as if it was about to crack.

"what!"

The three supernatural power sea beasts turned pale in shock, they did not expect to be so strong.

"Come on, don't hide."

"Kill together."

The clan leader shouted.

The next moment, three sea beasts of the supernatural power state appeared, which were the sea beasts that guided Ye Fan and Han Xiao.

"Hehe, there really is a ghost."

Ye Fan sneered.

The original sea beast clan leader said coldly: "Human, your flesh is the blood food I want, and the dry scorpion, the daughter of the Red Emperor, is also a rare food, you must die."

The last sea beast clan leader said: "Being bullshit, kill it directly."

The six supernatural power sea beasts fought each other.

Ye Fan and Han Yan were not afraid.

Ye Fan sacrificed the Wuxu Kunding, stepped on it, and threw Fangcun Mountain, the treasured mountain was crumbling.

at the same time.

The drought roared and entered a state of battle.

Her image has changed dramatically, as if she has become a monster, fierce and outrageous.

A knife was pulled out of the body.

That's right.

Pulled out abruptly.

It seemed that the sword was one with her.

This is the Vulcan Sword.

The Vulcan body combined with the Vulcan Sabre is extremely powerful, and it directly splits the ancient formation.

Ye Fan disappeared and appeared outside.

"Catastrophe!"

"Everything falls."

"Great Poison Technique!"

"All things perish."

Ye Fan used two great supernatural powers, and the effect was very good. This ethnic group suffered a huge catastrophe.

Countless sea beasts died.

"No!"

The sea beast clan master roared sadly.

"Human, I want you to die."

"It's just you?"

Ye Fan sneered, he didn't even want to take action, he wanted to deal with the six supernatural power sea beasts alone.

Drought did not make a move.

Ye Fan is sharpening himself.

The six great sea beasts of the supernatural powers are indeed extraordinary, and their combination should not be underestimated.

These ancient sea beasts are very powerful, their bodies are very powerful, their defenses are very strong, and they have ancient terrifying methods.

But they met Ye Fan.

In front of Ye Fan, their proud bodies were useless, and they couldn't compare to the 20th-level Celestial Hegemony.

In terms of magical powers, he is also Ye Fan's opponent.

So it can only be suppressed.

"hateful!"

"Why is this human being so powerful and terrifying, what kind of monster. We can't fight, we need to withdraw."

"What a joke, my clan has so many casualties, how can I be reconciled to just withdraw like this."

"Then kill!"

The six great sea beasts of the supernatural powers performed some kind of forbidden secret technique, and they actually fit together, becoming a terrifying big monster.

Roar.

The big monster roared wildly, and its breath rose steadily, as if it had surpassed the realm of supernatural powers.

Ye Fan raised his brows.

Han Yan said: "Let's work together to solve it, and make a quick decision, otherwise it will attract more sea beasts."

"good."

Ye Fan shot out a dark blue fire and lent it to Hanyu, and got another kind of doubt and blessing.

The Vulcan Sabre in his hand shines brightly.

Ye Fan, on the other hand, is merging all the powers, not dragging on the water at all, and deciding the outcome with one blow.

How huge is the spiritual power in the world of his bitter sea.

All the power is surging out, becoming more and more powerful and more terrifying, making the big monster terrified.

"Human, how can your body have so much power, it's impossible, it's absolutely impossible."

"Everything is possible."

The big monster was furious, opened its mouth and spewed out an energy wave, and the sea water in a radius of 100 miles evaporated instantly, forming a vacuum zone.

"puff!"

Han Yan shot and slammed out the Vulcan knife, splitting the energy wave; then she shouted: "Ye Fan!"

Swish!

Ye Fan disappeared in place.

Reappearing in front of the big monster, the blow he was brewing came down again, with all his power.

"boom!"

The big monster's head exploded directly.

The six supernatural sea beasts disintegrated, and four of them died unexpectedly. They were four elders. Two clan masters survived, but they were also seriously injured.

"Burning Heaven Slash."

The dry dagger slashed again, beheading the two clan masters unceremoniously.

Ye Fan performed the Great Devouring Technique.

The spirit of the Devourer's supernatural sea beast.

Drought is also absorbing.

This is simply a great tonic.

Soon they returned to their peak state, all the remaining sea beasts were slaughtered, and they found the resource land.

"Lots of resources."

Ye Fan's eyes lit up, there are really too many resources, and there are many rare treasures in the world.

"Hurry up and enter the bitter sea world, let's go quickly. I feel that there are ancient sea beasts in the realm of Taoism."

Ye Fan was startled, and hurriedly put these resources into the bitter sea world, and then quickly rushed upwards with the drought.

After they left for a while, a shadow appeared here. This was also a sea beast, but it was not big, but it exuded a suffocating aura.

The sea beast of the Taoist palace.

"The breath of human beings is interesting." The sea beast muttered to himself, his black hole-like eyes flashing with lingering light.

"It's time to go out and walk around."

This sea beast is very young. He has limbs and facial features similar to human beings. The difference is that he has a thick tail, and some parts of his body do not hide the black spirit armor.

I don't know if you have watched the anime "Dragon Ball", but if you have, you should know King Frieza.

The shape of this sea beast is somewhat similar to Frieza.

Besides, Ye Fan and Ganji, they rushed out of the sea, breathing the fresh air.

Han Yan said: "Ye Fan, now that all the materials have been gathered, let's refine the Little Heavenly King Pill immediately."

Ye Fan said: "I still need your help."

"no problem."

Ye Fan took the raven into the heavenly world.

This is the first time that the scorpion came.

She was incredulous, "The origin of the world you refine, and you control a small world, it's very good, you can attack and retreat, and you can defend, and you are invincible."

Ye Fan and Han Xian came to the top of a Baoshan Mountain. He took out the Wuxu Kunding and threw all the materials into it.

Huhu.

Both Ganji and Ye Fan burst into flames.

"Heaven and Earth Oven."

At the same time, Ye Fan used this secret technique to assist in refining the medicinal pills.

Han Yan said: "Little Heavenly King Pill is not easy to refine. In fact, only the saints of the Protoss could refine it in ancient times. It stands to reason that the success rate of our refining is zero percent."

Ye Fan's mouth twitched.

Zero percent is too shocking.

Han said: "However, many of the materials are not rare, but similar substitutes, and it should be relatively easy to refine."

Ye Fan said: "Do your best to know the destiny, luck will bless me, if God has eyes, it will let me succeed."

"You do have great luck, and maybe you can really succeed. Ye Fan, if you can stop the angel clan master, it is actually a great merit, and these ancestors will remember it."

"Yes?"

"Of course, if you contribute to Zu Xing, Zu Xing will definitely remember that Zu Xing has life. The more you contribute, the stronger Zu Xing will benefit you in the future, and even give you infinite blessings. "

Ye Fan's heart was surging, but he didn't expect this level of talk.

Han Yan said: "You have to seize this opportunity. In ancient times, some of the best people in the sky wanted to obtain merits, but there was no way. If you make enough contributions and obtain enough merits, you will be recognized by Zuxing and become Zuxing's young supreme. ."

Ye Fan widened his eyes.

Zu Xing Young Supreme, good guy, this is amazing.

In the ancient times, every big world would have a young supreme, who was the most outstanding genius of the young generation of a big world, and was recognized by the origin of the big world.

Young Supreme can mobilize the source power of the big world in which it is located.

If he becomes the young supreme of Zuxing and is recognized by the origin of Zuxing, then really, he is directly invincible.

Unless he made too much more than his realm, he was invincible in Zuxing.

Thinking of this, Ye Fan secretly vowed to protect Zu Xing and protect the earth.

Chapter 1183: Start

The materials are ready, so needless to say, it must be time to refine.

It was not enough to help the scorpion. Ye Fan came to the territory of the Protoss, and at the same time sent a message to the queen, the Asura woman, and the Jinpeng emperor.

At present, these are the few powerful friends around Ye Fan.

Today, the God Emperor, Asura Woman, and Jin Peng Huang are the peak powerhouses of the sea of bitterness, and they are considered to be the head.

The emperor did not expect that Ye Fan could find all the materials for refining the Little Heavenly King Pill in such a short period of time.

In fact, he did not report any hope, but Ye Fan actually succeeded, which is a miracle.

This also shows that Ye Fan's luck is extremely strong.

It might really be possible.

Everyone sat around the Wuxu Kunding, and Ye Fan looked at the Emperor and said, "The Emperor, the Little Heavenly King Pill is the secret medicine of your Protoss. You must have mastered the refining experience. Please give me some advice."

The emperor said: "Yes, although the **** king of the angel race is blocked, but only one month, it is very urgent, I will do my best to help you link up with Xiaotianwang Dan. It's just that no one can be sure whether it will succeed or not, we can only do our best to know. Destiny."

"Then let's get started."

Swish!

She flicked her fingers, and a strange fire burst out.

Ye Fan also played the blue and quiet fire, and the strange fire of the dry scorpion was much more powerful than his, but it was ranked eighth in the strange fire list, Tianyuan war.

The top ten different fires all have mysterious power and effects. Tianyuan war is as its name suggests. It is a flame that is keen on fighting.

rumor.

The Tianyuan War Fire ranked very low at first glance, but the different fires can be ranked through competition.

Tianyuan battled all the way to challenge, and finally rushed to the eighth.

This is a very inspirational fire.

Possessing the Tianyuan war can enhance the combat effectiveness, and at the same time, it will also be short-tempered, which is exactly the same as the temperament of the scorpion.

Without further ado, the refining begins.

The emperor dominates.

The energy resources needed to refine the Little Heavenly King Pill are too large, but fortunately, Ye Fan and the others are all strong.

The Hundred Days Kun Ding spun up.

The emperor kept delivering the materials in accordance with the pill recipe, which was not easy. It was necessary to control the amount and timing of delivery. If there was a slight error, all previous efforts would be lost.

There is only one material, and once it is damaged, it will be completely finished, and there is no time to find the second material.

Rumble.

The heaven and earth oven rises.

Just as they were refining the Little Heavenly King Pill, a vision appeared on the southern border of Daxia.

Sunshine soaring.

Purple Qi is coming from the east.

Many monks thought that the Mausoleum of the First Emperor was about to open, and the cultivation world was in a frenzy. The major ethnic groups were originally concerned about the invasion of extraterritorial creatures, but now they are all rushing to the southern border.

The enchantment that appeared before has been broken, but as Ye Fan said, the enchantment is only the first level, and the location of the enchantment may be very far away from the First Emperor's Mausoleum.

It is not easy to start the imperial mausoleum, and it can even be said that there are countless difficulties and obstacles.

now.

At the third level leading to the Mausoleum of the First Emperor.

A mysterious place.

There are four figures, if Ye Fan is again, he must be able to recognize it, this is the witch master, the Buddha master, the emperor of the alliance and Jiang Wudao who have disappeared for a long time.

Since Ye Fan successfully fought against the invasion of the Angel Clan, the witch master knew that it was over, and they no longer had the strength to compete with Ye Fan.

Moreover, they betrayed Zu Xing and became a street rat, everyone shouted and beat them, and they were hostile to other ethnic groups. It can be said that they attacked in groups.

So have to go.

But where to go?

At that time, the witch master and the others were very anxious and frightened.

Heaven is endless.

The witch master found a treasure of energy in the depths of Taihuangtian and injected it into the Haotian Mirror, which restored some stalwart power to the Haotian Mirror.

The inner world space has been repaired quite a bit.

Therefore, the witch master put all the creatures of the tribe into the Clear Sky Mirror. Although it was crowded, at least they could survive.

Subsequently.

The witch master used the Clear Sky Mirror to inspect and came to the southern border. He successfully found a shortcut, one step faster, and came to the second light card.

Now they have broken through the second light card and came to the third light card, and the vision outside is caused by them.

Jiang Wudao said excitedly: "Hahaha, Master, let's take the first step and seize the opportunity. The outside is still at the second level."

The witch master said with a smile: "Yes, we have the first opportunity. In this way, we can be the first to enter the First Emperor's Mausoleum and gain infinite fortunes and treasures. We can even ascend to the sky in one step, reaching an unmatched state."

The Buddha said: "As long as we enter the First Emperor's Mausoleum, we will soar to the sky and make rapid progress. At that time, Ye Fan is nothing but an ant."

The leader of the alliance said: "Let's hurry up and break through the levels. I don't know how many levels there are in total. I hope there will be no catastrophe."

The witch master held the Haotian Mirror in his hand.

Shining bright light.

Haotianjing's inspection capabilities are too strong, and it can find the flaws in the level and find the safest way forward.

That's why they are safe and sound.

Seven days in the blink of an eye.

"boom!"

With a roar, the witch master and the others broke through to the fourth level, and they were extremely excited.

Haotian Mirror is really too strong.

If this goes on, they will definitely be able to enter the First Emperor's Mausoleum unharmed. I really look forward to it.

However this time.

The witch master has a small plan in his heart.

Along the way, Jiang Wudao didn't say that he was a disciple. The Buddha Lord and the Emperor Alliance Leader didn't do much at all, they all depended on his Clear Sky Mirror.

So why share the treasures of the First Emperor's Mausoleum with the two?

Of course, this is just an idea in my heart. The witch master did not say that at this stage, we still need to unite as one, because there are many unknowns ahead, and one more person is more powerful.

The Buddha Lord and the Emperor Alliance Leader are not fools, and naturally they know whether the witch Lord may share the good fortune with them.

So there is a secret united front between the Buddha Lord and the Emperor Alliance Leader.

Unexpectedly, Jiang Wudao also thought carefully. How good it would be to swallow the First Emperor's Mausoleum alone, then he would definitely become a peak powerhouse, and the earth could no longer satisfy him, so he could go to the stars and go to other big worlds of the government.

The four of them are pregnant with ghosts.

Extraterrestrial starry sky.

Behind the moon, a wormhole slowly emerged, and the black battleship slowly came out, silently and very strangely.

This is the battleship on Ghost Fang Zun.

"Ok?"

Seeing that Zu Xing was calm and there was no war, Guiya Zun's face changed and he was in a state of uncertainty.

"what happened?"

"As for the Angel Clan Master, it stands to reason that they should arrive before us. Is it possible..."

"Has it been resolved by Ye Fan?"

The Ghost Fang was alarmed.

If so, then Ye Fan is too strong.

The angel clan master at the peak of the Taoist Palace was resolved so quickly, and it was easier to kill him. Although he broke through, it was only at the early stage of the Taoist Palace.

"Your Highness, what should I do now?"

"Wait and watch."

There is no good way for Guiya Zun, and he can only order to hide behind the moon, so that the earth cannot observe it.

Look at the world channel.

Without Ye Fan's protection, Guiya Zun was very moved, and wanted to rush in and come directly.

But he didn't dare to gamble.

Who knows if it's a trap?

Did Ye Fan deliberately lie in ambush, and once he entered the world passage, he would attack.

Guiya Zun decided to wait for a while to see.

Maybe the angel clan master encountered something on the way, and he came late; if he didn't come, maybe it was really solved by Ye Fan, then he would not die stupidly, he must report to the clan, the ghost The clan army will come to kill, and the ghost master will take action in person.

What Guiya Zun did not expect was that at this moment, on a deserted planet, the Angel Clan Master encountered trouble.

Before, the Corpse Emperor used the Sky-Opening Axe to split the wormhole with all his strength, causing them to fall on this barren planet.

Damaged warships need to be repaired, wormholes need to be reworked, and coordinates need to be found.

It all takes time.

But the house leak happened to be raining overnight, and they encountered the starry sky.

What is Star Trek?

This is a group that does not have its own big world. They are mixed with fish and dragons. They wander in the starry sky, burning, killing, looting, and doing all kinds of evil.

The Starry Sky Tourers are an incomparably huge group.

Or it can't be called an ethnic group, it is a force, and there are countless other racial creatures.

Some of these creatures are the most wanted criminals in the universe, and they have no choice but to join the Starry Sky Tourer.

Some are creatures who are keen to fight in the starry sky. Joining the starry sky tour group can fight infinitely.

And more...

I heard that it is the top powerhouse in some big worlds.

They are the senior members of the Starry Sky Tour Clan.

Use the Starry Sky Travelers to burn, kill and loot to obtain resources, and then secretly send them to their own ethnic group or the big world they are in.

In short.

Star Trek is very complicated.

Any big world or any ethnic group is very afraid and does not want to encounter them.

But the angel clan master happened to meet.

"Hahaha, angel race, delicious blood food, brothers, kill kill kill, get these angels skinned and cramped."

"Women stay and enjoy."

"Wooooooo."

It was a piece of black, and there were tens of millions of others, and they were just slaughtered.

Killed from all sides of the planet.

This kind of star war, the picture is really unreal, even a sci-fi movie can't be made, it's really shocking and grand.

"A group of ants."

The face of the angel clan leader was icy cold.

He erupted with extremely strong murderous aura, punched out with one punch, and directly penetrated the vacuum area of tens of thousands of miles, killing millions of creatures.

"So strong!"

"Dao Palace Realm Powerhouse!"

"Attention please!"

"Ask the commander to make a move! Ask the master to make a move!"

These weak Starry Sky Creatures shouted.

boom!

The Angel Clan Master ignored it, and punched wildly, killing countless creatures with each punch. This starry sky was filled with countless blood and mutilation.

"presumptuous."

Suddenly, an angry rant exploded.

Shake the sky.

The main color of the angel family changed.

Cracks appeared in the starry sky, and a battleship emerged. This battleship had a strange shape, but it had a big flag three thousand feet high.

The flag has a devil pattern painted on it.

This is the symbol of Starry Sky.

In front of the battleship, under the banner, there was a burly creature, the commander of this group of Starry Sky Tourers.

The peak powerhouse of the Taoist Palace.

"Congratulations to Master Kongzai."

Countless starry sky wandering creatures visited the void in the void.

Among the starry sky travel clan, only the commander at the peak of the Taoist palace can bestow the word "empty".

That is to say, if you meet a great commander in the sky, it must be the peak of the Taoist palace.

The last time is also the peak of the Taoist Palace.

Commander Kong Mie's eyes were as deep as black holes, looking at the barren planet, "Angel Race, it's very good."

Chapter 1184: star wars

The face of the angel clan master was ugly.

I didn't expect to encounter a commander at the peak of the Taoist Palace. This is troublesome, even if the angel clan master is confident that he can defeat it, because he is the master of the world, the master of the world.

The so-called world master is blessed by the power of the world in which he lives, and when necessary, he can call on the source power of the heaven world across the endless starry sky.

Of course, the farther from the heavenly realm, the more difficult it is to mobilize.

The Angel Clan Master has already sensed it and can mobilize some. He is confident that he can defeat the empty commander, but it is only a victory, and it is unrealistic to want to kill.

At their level, if they want to leave, they can't stop them from the same realm.

"I am the Lord of the Angel Clan, is it a bit too much for my fellow Daoist to offend and attack this seat?"

"Oh?"

Commander Kongzai came to be interested.

"The Lord of the Angel Clan? Haha, has the Angel Clan fallen to this level. The Clan Lord is only at the peak of the Taoist Palace. It's really unbearable."

"You die!"

The angel clan master is too lazy to talk nonsense.

Humiliating him, as the head of a clan and a world, if he swallows his voice, his thoughts will be incomprehensible, and it will have a great impact on his practice.

Seeing the angel clan master take action, the commander Kong Mie laughed: "I haven't had the right to fight for a long time. I am very interested in encountering the angel clan master today. If I can suppress you, then I can enslave the heaven world, maybe I can. Let me go one step further and break through to the next realm."

The Angel Clan Master's face was grim.

"The Fist of Heaven."

"Star Tide."

Commander Kong Mie's move is very powerful, it can mobilize the power of the stars, surging like the tides of the sea.

This move made the Angel Patriarch cautious.

This empty commander is not easy, and it is not easy to defeat.

"No need to test, let's go all out." Commander Kong Mie sneered, his breath skyrocketed, and he entered the peak fighting state.

"Woooooo."

The entire starry sky set off a blood-colored storm.

However, these filthy blood-colored storms could not get close to the Angel Patriarch, because he was filled with the power of baptism.

"The power of baptism, I hate it."

"kill!"

The empty commander strikes with all his strength.

The Angel Patriarch was not careless and felt threatened, and he also entered the peak fighting state.

"boom."

An extremely hot breath burst out.

His pale golden wings trembled, and a vague ancient phantom rose up behind him.

Commander Kong Mie was shocked: "Seraph, no, it's just a bastard, not a pure Seraph."

Hybrid?

These two words stimulated the nerves of the Angel Patriarch.

He roared wildly, mobilizing the source power of the heavenly world, and the heavenly world was shaking at this time.

"what happened?"

The second most handsome horror.

The other commanders and children of the royal family all gathered.

"The power of the source has been mobilized, and it must be the clan master. Is that Ye Fan so powerful that he actually forced the clan master to mobilize the power of the source!"

"It is very dangerous. The mobilization of the power of the source may expose the coordinates of our heavenly world."

They looked up and looked at the ancestral scepter that runs through the heavenly world.

The power of the origin of the heavenly world entered the ancestral scepter, and then the scepter was like a launch pad, launching the origin power.

Crossing the starry sky, blessing on the angel clan master.

Along the way, you may pass other big worlds, and those who are strong in the world may find the paradise world.

This is a hidden danger.

Therefore, generally speaking, the world master will not easily mobilize the power of the world's source.

Now the coordinates of the heaven world are only the master of the ghost clan in the **** world; but they also know the coordinates of the **** world.

Therefore, the two worlds are tacit, and neither will reveal the other's world coordinates, or the other will definitely reveal their own.

"I hope God King can win, come to Zuxing, and take Zuxing, then we will have a second base."

"Why do I have a bad feeling."

"Bullshit!"

The second handsome man was angry.

Although he said so, he was also very uneasy in his heart.

At this time, the second handsome thought of Alice, she has a very strong talent, and she is evolving towards the path of a pure blazing angel, going farther than the king of gods.

Once it succeeds and becomes a real blazing angel, it will soar into the sky and can protect the heavenly world.

Alice has to be nurtured well.

the other side.

The angel patriarch who was blessed by the power of the source seemed to have become incomparably stalwart and holy, and even the phantom of the ancient ancestor of the blazing angel behind him became clear.

Master Kong Mie's face was solemn.

"Dirty sins, all baptized, all killed."

You have to wave the scepter in the hands of the angel clan master, the endless brilliance permeates, that is the power of baptism.

moment.

Those weak Starry Sky Creatures screamed, and in the brilliance of the baptism, they disappeared directly into ashes.

It's nothing.

The strongest baptismal power, turned into a long spear, slashed towards Commander Kong Mie like lightning, and nailed him to the starry sky.

"Good come."

The empty commander has no fear.

The Xingkong Youzu is fighting, he has experienced countless wars, how can he be afraid.

"Starry Sky Abyss."

I only saw that the hands of the commander Kong Mie were pulled violently, as if torn apart the starry sky, and a dark crack appeared, like an endless abyss.

The spear pierced into it.

"Bang!"

The abyss exploded.

The battleships were all damaged, and the empty commander did not suffer much trauma. He snorted coldly, appeared in front of the Angel Clan Master, and fought.

This fierce battle.

The two powerhouses at the peak of the Taoist Palace fought each other.

This realm can also be regarded as a small powerhouse in the ancient times. In today's declining cosmos environment, the peak of the Taoist Palace realm can be regarded as a rare powerhouse.

Definitely.

boom! bang bang...

The war was terrible. Some desolate planets were affected, explosions occurred, and thousands of holes were hit.

"Angel Patriarch, are you on this level? That really disappoints me."

The empty commander sneered.

"as you wish."

The angel clan master's voice was cold, and his back was as dazzling as the sun in an instant, and he seemed to merge with the phantom behind him.

"Ancestor Holy Fist."

"boom!"

This punch came too fast, too powerful, and the air-killing commander split his entire body, flew thousands of miles upside down, and smashed into a barren planet.

"Big guy!"

The starry sky wandering creature exclaimed.

The next moment, Commander Kong Mie rushed out. He was dripping with blood, but he gave off a weird grin.

"Okay, that's it, is this interesting?"

Commander Kong Mie wiped the blood from his mouth and grabbed a large knife, exuding an evil aura.

The face of the Angel Clan Master changed.

"This breath..."

"From the black prison restricted area."

Commander Kong Mie sneered: "You still have some knowledge, this big sword is indeed a magic soldier from the restricted area of the black prison. You probably don't know it yet, our star traveler has taken refuge in the supreme inner black prison."

"what!"

The angels were shocked.

The Supreme Being of the Universe, when he was once brilliant, he possessed the power of the Great Emperor. In order to survive, he buried himself in the restricted area of the starry sky.

Black Prison Supreme is a very terrifying universe Supreme.

Immortal prestige.

In the ancient times, the three thousand ancient emperors under the Supreme Lord of the Black Prison were all at the level of great gods.

Three thousand saints, how terrifying this is.

You must know that there is only one great sage in the general power, and there are three thousand under the supreme commander of the black prison.

Because of this strength, in the ancient times, the Black Prison Supreme launched a dark turmoil.

This caused countless damage to Zu Xing.

There are even rumors that the Great Emperor of the Human Race has disappeared, and there is the manipulation of the Black Prison Supreme behind the chaos of Zuxing.

Heavenly Court collapsed, and the Black Prison Supreme also shot.

All in all, compared to the low-key hiding of other cosmos Supremes, the Black Prison Supremes are terrifying and domineering.

The Starry Sky Travelers have taken refuge in the Black Prison Supreme, and this backing is too great.

"This big sword is the magic soldier of the ancient emperor who once sat down with the Supreme Black Prison, and his face was stained with countless blood. Now it is my magic soldier."

"Can your baptism power baptize?"

The direction of the empty commander and the sword, the evil atmosphere permeates.

The Angel Patriarch retreated.

The power of baptism is blocked, and it does block a part, but it cannot be baptized completely.

"kill."

Commander Kong Mie came fiercely and slashed with the big knife in his hand.

The sovereign staff of the angel race attacked.

But found that the scepter was chopped and trembled, as if a crack was about to appear.

Such a strong sword.

"Hahaha, Birdman, I'm going to cut off your wings one by one to make skewers."

"you wanna die!"

The angels were furious.

He mobilized the power of the source again, and smashed the empty commander into the air with one punch.

Then he entered the battleship.

Rumble.

The battleship started, cut through the starry sky, and disappeared.

"Want to escape?"

The empty commander sneered.

He also landed on the battleship and ordered: "Follow me, even if you reach the end of the universe, you can't let it go."

One after the other, you chase after me.

The Angel Clan Master looked worried.

"God king, this aimless speeding will get lost in the universe. Once the energy is exhausted, we are finished."

Subordinates are very worried.

The Angel Clan Master asked, "Have the ancestral star coordinates been found?"

"found it."

"Then open the wormhole, and let's go to the ancestral star to bring disaster to the east."

"It takes time."

"I'm here to hold off Commander Kongzai, you guys hurry up and prepare."

"As ordered."

The battleship stopped.

The angel clan master went out.

Commander Kong Mie said: "Why don't you escape, do you know that you can't escape?"

The Angel Clan Master said coldly: "It's just a broken knife. If you want to kill me, you can't do it."

"How do you know if you don't try."

"kill!"

"kill!"

In an instant, the two sides fought together again.

But the angel clan master didn't fight recklessly, he was delaying time; an hour later, the wormhole finally emerged.

Commander Kong Mie sneered: "You want to jump away through the wormhole? It's useless, I can follow along, you can never escape."

"Come with me if you have one."

The angel clan master smashed the commander into the air with a punch, landed on the battleship, and then the battleship rushed into the wormhole.

"Follow."

Commander Kong Mie was not afraid and followed closely behind.

Rumble.

In the wormhole, they did not take action, because the wormhole was destroyed and the wormhole collapsed, and they were all in trouble.

Commander Kong Mie did not know that this was Zu Xing.

But the angel clan master is secretly calculating, how can he use a knife to kill people, let the commander Kong Mie and Ye Fan fight, he will take advantage of the fisherman!

Chapter 1185: you're done

The ancestral planet Earth Protoss territory.

Everyone is in full swing refining the Little Heavenly King Pill.

Suddenly.

Ye Fan made a small mistake, and suddenly the Kunding trembled, and the **** emperor's face darkened and shouted: "Hurry up, don't fall short."

It took a while for Kun Ding to calm down.

Han Yan looked sideways and asked, "Ye Fan, what's wrong with you?"

In Ye Fan's realm, there was a sudden error, which was unreasonable, and he felt Ye Fan's mood swings just now.

"I have a bad feeling."

Ye Fan frowned.

At that moment, he seemed to have a feeling of the end of the world, which was very unusual, and it might be the effect of the Great Prophecy.

Could it be that the crisis came from the Angel Patriarch?

Or other ethnic groups?

Ye Fan's face was very solemn, but the emperor said: "The soldiers will block the water and cover the soil. At this stage, concentrate on refining the Little Heavenly King Pill. We have already reached this point, and it would be a pity if we fall short."

"Indeed, everyone is attentive."

Queen admonished.

She looked at Ye Fan, and she could feel Ye Fan's pressure.

He alone shoulders the heavy responsibility of surrounding the Ancestral Planet Earth.

It wasn't necessary for him.

The reason for doing this is entirely the responsibility of being a strong man.

Someone has to face it.

Ye Fan put aside his distractions and concentrated on refining the Little Heavenly King Pill with everyone. The refining process is actually nearing the end.

There has been no problem.

If this goes on, the refining success is guaranteed.

as predicted.

Three days later, as the dazzling brilliance burst out from the Kun Ding, a strong medicinal fragrance permeated out.

The aroma is mesmerizing.

Even the **** emperor and the others are sucking greedily, the pores all over the body seem to open, and they are extremely eager.

but.

Although the medicinal fragrance is charming, the Little Heavenly King is useless to them.

This is to help condense the supernatural power seeds, the big golden pill. They didn't even condense the supernatural power seeds. Even if they swallowed the little heavenly king pill, it would not help. On the contrary, it had a bad effect and destroyed the body.

"Wow."

Immediately after.

A brilliance burst out from the Kun Ding, very warm, like a spring breeze.

After a while, the light gradually disappeared.

The emperor waved his hand, and two golden medicinal pills rushed out of the Kun Ding, the size of walnuts, but the two were different.

One of them is moist in color, incomparably exquisite, and has a strong medicinal fragrance;

The emperor said: "Except for two, but this one should be a waste product, and it is useless. This one is quite good, the quality is medium, you can try it, Ye Fan."

Ye Fan looked at Han Yan, because she also condensed the seeds of supernatural powers, there are fifteen kinds of them, which is very evil.

However, Hanyu said that in the ancient times, she had condensed eighty-nine supernatural power seeds, and the great golden elixir condensed at that time was terrifying.

Not anymore.

Because although he recovered, he lost some memories and could only condense fifteen kinds of magical seeds.

"I don't need it, I only need time to cultivate, and I can condense the golden elixir by myself."

"Then I'm welcome."

Ye Fan grabbed the two Little Heavenly King Pills, rolled up the Wuxu Kunding, and opened the gate of heaven and walked into it.

At the same time he left a sentence.

"I used a big prophecy to predict a corner of the future, which is very cruel. It seems that there is not only a strong enemy of the angel clan master, everyone needs to make more preparations, unite the front as soon as possible, and unite all forces that can be united. ."

The gates of heaven are closed.

The emperor and the others were shocked.

Not only the angel clan master is a strong man, are there other world creatures looking for it, or did the heavenly world find a helper?

No matter what the reason is, it is very terrifying for the ancestors of the planet.

The Queen said: "What do you think?"

The emperor said: "As Ye Fan said, we need a united front, and not only us, but also other ethnic groups and forces from all sides, and unite all forces that can be united."

The Asura woman said: "Yes, this is not only our battle, but the battle of all living beings on the entire earth."

Jinpeng Huangdao: "The Queen's method, we support it, unite all forces as soon as possible, and make full preparations."

"good."

The queen nodded.

Everyone quickly prepared to suffer, and Ye Fan began to practice in a quiet place in the heavenly world.

He got the memories of the ancient emperor Xie Yue, and he had some experience in condensing the Great Golden Elixir.

With Xiaotianwangdan, Ye Fan has some confidence.

"let's start."

Ye Fan took a deep breath.

He closed his eyes, and twenty magical power seeds flashed between his eyebrows, beating wildly.

The power of blood burst out.

Pulling the seeds of supernatural powers, it seems to want them to merge, but they are mutually exclusive.

When he was repelled, it caused a riot, which made Ye Fan frown and his face twitched.

It feels like the eyebrows are about to split, the sea of spiritual consciousness is about to explode, and the brain is about to turn into nothingness.

The more you want them to merge, the greater the damage to Ye Fan's brain, which is the most terrifying.

This is also the biggest obstacle to condensing the Great Golden Elixir.

Without a strong body and spirit, it is impossible to see the violent force caused by the collision of these supernatural power seeds.

"Boom."

Ye Fan's hegemony recovered independently.

The blood vessels are also awakened.

The power of yin and yang was used frantically, and at the same time, the fire spirit, wood spirit, earth spirit, and yin and yang energy were all killed, and it seemed that they were going to give the seeds of supernatural power a disgrace.

This is just great.

It was as if a war broke out between Ye Fan's eyebrows, which directly caused his eyebrows to split open and blood spurted out.

It's dangerous.

A little careless, the soul will fly away.

Ye Fan did not give up.

He worked hard to repair the wound between his eyebrows, and at the same time tried his best to suppress the violent violence, but he did not stop the riots of the supernatural power seeds.

These seeds are like naughty children. It's good to be tired from playing. If they are forcibly suppressed, there will be trouble later. Who knows when it will explode.

At that time, Daluo Jinxian couldn't save Ye Fan.

Ye Fan sticks to his heart.

His mental strength was also sharpened.

He tried to fuse all the magical power seeds again and again, but failed, and the crack between his eyebrows became bigger and bigger.

"Little Heavenly King Dan."

Ye Fan opened his mouth and a little Heavenly King Pill entered his belly.

This is that junk.

To be precise, it is a defective product, and the effect is not as good as the other one, but in the final analysis, he is the little king of heaven.

This little Heavenly King Pill entered the body and melted immediately, and the mysterious medicinal power rushed straight to the eyebrows, wrapping around twenty magical seeds.

The original rioting magical seed became quieter.

It's amazing.

This little Tian Wang Dan is like a teacher, calling out these naughty students.

Ye Fan is overjoyed, if the defective product can help him successfully condense the big golden elixir, it would be great, so that one can be saved, which will definitely be useful in the future.

Unfortunately.

This dream was in vain.

After swallowing the defective product, it did help, but it was not enough for Ye Fan to successfully condense the golden elixir.

In order to speed up, Ye Fan stopped being sloppy and directly swallowed another Little Heavenly King Pill.

Good things are good things.

In an instant, Ye Fan's body trembled, and the little Heavenly King Dan seemed like a gentleman, like a beautiful woman.

Rushing to the center of the eyebrows, the originally restless supernatural power seeds were all like old-fashioned critics, all rushing towards the Little Heavenly King Pill.

Of course.

Ye Fan knew that this was the seed of supernatural powers who wanted to compete for the Little Heavenly King Pill to obtain energy.

There are also strong and weak seeds of supernatural powers. The more energy you get, the stronger it will naturally become, and it will occupy a dominant position.

"open!"

Ye Fan stopped drinking.

When all the magical power seeds rushed towards Xiaotianwang Dan, the pill exploded directly.

The strange medicinal power is like a thin thread, connecting all the magical power seeds in series.

The supernatural power seed is struggling frantically.

This made Ye Fan miserable, and the wound between his eyebrows split even more, but Ye Fan was very happy and didn't care about the injury at all.

Under the influence of the Little Heavenly King Pill, he felt that he had some confidence in practicing the Great Golden Pill.

Rumble.

The power of the bloodline turned into a big hand, grabbed all the magical seeds, and mixed them together.

At this moment, the Divine Ability Seed is struggling much less than before.

Although it still failed this time, it was better than before.

that's enough.

Ye Fan tried again and again, I don't know how many times he tried, his eyebrows were completely cracked, blood spurted, very terrifying.

It's like being pierced by a dagger.

Ye Fan has become a blood man.

But the result is that half of the magical power seeds have been fused together, and a small golden core appeared, circling in front of the eyebrows.

Has been successful in general.

Then the next half will be far away, no, it will be successful immediately.

Ye Fan was very excited.

He can expect that after he condenses the magical seed big golden pill, his strength will once again improve by leaps and bounds, and he can even directly knock on the door of the Taoist Palace and become a powerful Taoist palace.

The percussion power of the supernatural power seed is weak, but the big golden pill is terrifying.

This is definitely not as simple as adding up twenty supernatural power seeds, this is a qualitative leap.

"Strength."

Ye Fan secretly said in his heart, and continued to fuse the remaining half of the magical power seeds.

However this day.

Crisis comes.

In the outer starry sky, a wormhole appeared, and it was still a larger wormhole than before.

Sen Leng's breath pervades the ancestral planet Earth.

The creatures felt heart palpitations.

At the location of the World Passage, a huge palace was built.

The queen, the **** emperor, the Asura woman, the Jinpeng emperor, etc., all the powerhouses gathered here.

It has been thirty days since Ye Fan retreated.

After all, the Corpse Emperor said that the one-month relaxation period was actually much longer.

It also gave the Queen enough time to unite all forces.

The general trend.

Even if some ethnic groups are unwilling, they dare not sing the opposite.

Many ethnic groups and powerhouses from all sides gathered in this hall, and they were all shocked at this moment.

Because they all felt the terrifying breath from the outer starry sky.

Swish swish.

All the strong fly out.

The queen, headed by them, stood at the entrance to the world, staring at the outer starry sky, staring at the dark and gorgeous wormhole.

Half an hour later, a battleship slowly sailed out of the wormhole. At the head of the battleship, a ten-winged angel attracted the attention of all creatures.

Ten-winged angel.

Lord of Angels.

The peak powerhouse of the Taoist Palace.

But it wasn't over yet. What shocked the Queen and the others was that there was another battleship behind the Angel Race battleship, and in front of that battleship stood a burly and angry statue.

That breath is not weaker than the angel clan master.

"Starry Sky Tourer."

The God Emperor and the Asura female honored in unison, exclaimed in unison, and their faces changed greatly.

Chapter 1186: catastrophe strikes

The carded flag of the Starry Sky Touring Clan battleship was immediately recognized by the God Emperor and the Asura Woman.

The four words of Starry Sky Tour Clan sounded.

The powerhouses of other ethnic groups also reacted, and they all changed, and even panicked.

Two Dao Palace peak powerhouses!

The angel clan master called for help, how could this fight.

this moment.

The queen and the others finally knew that Ye Fan's hunch was correct, it was indeed a catastrophe.

"How is Ye Fan?" The Emperor asked.

"It seems that it will take a while, but it didn't work out," the Queen said. "Now, we can only rely on us."

Big but worried.

Not to mention whether there are other Dao Palace realm powerhouses, as well as the countless soldiers, just the existence of two Dao Palace realm peaks is enough to crush them.

Even if you gather all your strength, you can't fight it.

"Boom."

The gate of heaven opened, the Giant Sunshine slowly sailed out, and the powerhouses of the Tianzun Temple stood on the battleship.

Headed by Tang Ying, he has been promoted to the realm of suffering.

"Don't give up and don't be discouraged, all of you will be able to fight against extraterrestrial creatures. No matter what, we need to protect our homeland, don't we?"

Tang Ying's words spread all over the world.

Yes.

No matter what, you must protect your homeland, this is the blood in your bones.

"war!"

"war!"

"war!"

Countless soldiers... There are about 300 million, which is 80% of the soldiers of all ethnic groups.

Like a sea of smoke.

The scene was spectacular to the extreme.

What is the concept of the shouting of 300 million people, it is really shocking, the fighting spirit soaring to the sky, condensed, turned into a long dragon, rushed into the world channel, and swept into the extraterritorial starry sky.

"Ok?"

Angel Patriarch and Master Kong Mie's eyelids jumped, and they were shocked by this fighting spirit and murderous aura.

"Where?"

"This planet is so beautiful!"

Master Kongzai's eyes were dazed.

Somewhere, he felt something was wrong, as if he had thought of something but couldn't catch it.

This planet seems familiar, I seem to have seen it somewhere.

where?

The empty commander was puzzled.

"Zu Xing."

The Angel Clan Master spit out two words.

boom!

Suddenly, Commander Kong Mie was shocked, his face solidified, yes, yes, Zu Xing, it is Zu Xing.

This planet is exactly the same as Ancestral Star, but it is much smaller than Ancestral Star. It is a reduced version of Ancestral Star.

how is this possible!

The empty commander is unbelievable.

In the distant past, Zuxing was the center of the three thousand worlds and a place of pilgrimage.

Other big world creatures cannot easily enter, unless they are approved, they can enter the ancestor star through a special world channel.

It was only later that the cultivation environment in the universe changed, and jihad and chaos broke out in Zuxing, and it began to decline.

Gradually lost contact with all the big worlds.

At first, there were still powerhouses in the big world looking for in the starry sky, but there was no trace or news for countless years.

Since then, gradually, they all think that the ancestors have been destroyed and disappeared.

did not expect...

Today, he saw Zu Xing here.

This is really Zuxing.

The empty commander did not question.

Because it is said that the ancestor star is the root of all development, the three thousand worlds are all born from the ancestor star.

All creatures in the universe have an inexplicable emotion towards Zu Xing, as if a child saw his mother.

At this moment, Master Kong Mie has a hint of this feeling.

This is Zuxing.

Absolutely.

"Ha ha ha ha."

Commander Kong Mie looked up to the sky and laughed, but he burst into tears. This laughter was complicated and contained a lot of emotions.

"I didn't expect that I could see Ancestral Star and find Ancestral Star in his lifetime. It's a pity that the once glorious Ancestral Star has not fallen to this point, such a small planet."

He looked at the Angel Clan Master and said, "Have you found Zu Xing long ago?"

"good."

The Angel Clan Lord nodded.

How smart is the commander Kong Mie, sarcastically: "It seems that your family has suffered huge losses here, and you have come in person."

"Zu Xing has not fallen like this, I don't know what strong people are. The world channel is open, who are those creatures?"

The empty commander saw the queen and the others.

"Humanity!"

"Human Race!"

"God Race!"

"Shura clan!"

"..."

Commander Kong Mie said one by one, and was very shocked. These ancient and powerful ethnic groups were all in Zuxing.

only.

too weak.

Just the realm of bitterness.

The morale of the hundreds of millions of soldiers was good, but they were also weak and pitiful.

Is this the power of Zuxing?

Commander Kongzai is very suspicious.

This kind of power is not enough to cause the Angels to suffer huge losses. It seems that Zu Xing still has hidden powers.

Don't act rashly.

Commander Kong Mie looked at the Angel Clan Master and said coldly, "You brought me to see Zu Xing, what do you mean? Do you want to join forces with me?"

The face of the angel clan leader changed.

He originally wanted to use a knife to kill people, use the hands of the commander Kong Mie to kill Ye Fan, and then take advantage of the fisherman.

But after thinking hard, there is no good idea.

If that's the case, let's make it public, first kill Ye Fan with Commander Kong Mie, capture Zuxing, and then try to find a way to get rid of Commander Kong Mie.

"I brought you to see Zu Xing, it is a great blessing for you, and you owe me a great favor."

The words of the angel clan master made the brows of the commander Kong Mie wrinkle. He didn't say anything and continued to listen.

"Next, it's time for you to pay back the favor."

"Go ahead."

"Enter Zuxing and destroy those creatures. We will lead Zuxing. As for who can control Zuxing, we will see the real chapter under our hands."

The empty commander was thoughtful.

What the Angel Patriarch said made sense, but let him fight Zu Xing alone, he didn't have that list.

Even if the ancestor star has fallen to the extreme, but after all, the ancestor star.

In that piece of land, countless powerhouses have risen, and there have also been human emperors.

Who knows if there are old antiques, old monsters hidden.

"I can take the lead, but if I have to deal with it alone, it's tantamount to a dream."

"Can."

Angel Patriarch agrees.

Commander Kong Mie took a deep breath and calmed down his excited heart. Since he took the lead, it was a test.

He did not act immediately, but looked at the queen and them from afar, and at the same time secretly spread his spiritual power, and wanted to enter the ancestor star to investigate.

at this time.

Behind the distant moon.

Guiya Zun saw everything, his face was gloomy and uncertain, and the appearance of a commander of the Starry Sky Tour Clan exceeded expectations, this is not good news.

Ye Fan alone can't deal with the two peak powerhouses of the Taoist palace.

Then, how can he take advantage of the fisherman?

He is only in the early stage of the Taoist Palace, where is the opponent of the peak.

what to do?

Guiya Zun thought secretly.

In the end, Guiya Zun decided to help a group of Zu Xing when necessary. Maybe there will be unexpected results, and even get the favor of the ancestors?

...

Master Kong Mie frowned.

Because his spiritual power cannot enter Zuxing to detect, Zuxing has a mysterious power that is repelling.

It is indeed worthy of being an ancestor.

Commander Kong Mie was more careful, he said: "Zu Xing life, I am the commander of Xing Xing You Clan Kong Mie, let your strongest speak out."

Words come in.

Shake the world.

The queen is dressed in a phoenix robe, and her mother is in the world. She is the monarch of Daxia, and she has to stand up at this moment.

Commander Kong Mie raised his brows: "Little human girl, are you the strongest? You haven't even been promoted to the sea of bitterness, and you haven't touched the threshold of the cultivation world, so step back and don't make jokes about this handsome."

The queen's face was grim.

Naked contempt and contempt.

But no way.

She is at the peak of the Taoist Palace and is qualified to look down on her.

The queen said: "The angels invaded our world, and they killed 29 commanders and killed more than 10 million soldiers. Now that the angels are pulling your Starry Sky Tourers into this muddy water, you are sure not to be trapped. ?"

The empty boss was surprised.

He thought of the huge losses of the Angel Clan, but he did not expect such a miserable situation. Thirty-nine statues were beheaded.

Of course.

Commander Kong Mie did not expect that the commanders of the angel race were all in the realm of bitterness. He thought that the commander of the angel race had to be in the early stage of Taoism.

Twenty-nine Taoist palaces were beheaded, and more than 10 million soldiers fell. Even for the huge starry sky traveler, it was a big loss.

It's worthy of being an ancestor.

Commander Kong Mie sighed again, he was a little more careful, and said: "Ancestral Star breeds three thousand worlds, and all beings in the universe are part of the Ancestral Star. Why do you occupy the Ancestral Star and not let me wait to enter."

The queen couldn't refute it for a while.

The emperor said: "The rules set by the emperor, outsiders are not allowed to enter Zuxing without authorization."

Commander Kong Mie snorted coldly: "The Great Emperor of the Human Race doesn't know how long ago he existed, and his decree does not count now. All creatures from outside the domain can enter the Ancestral Star, which is a must."

"Presumptuous, you dare to blaspheme the emperor."

All the powerhouses roared in anger.

Master Kong Mie's heart skipped a beat, and he was really a little cowardly.

Great Emperor, that really jumped out of the Three Realms, not in the Five Elements, and God couldn't control him.

It is said that even if the emperor disappears, the blasphemous emperor will encounter some punishment in the dark.

The emperor cannot be humiliated!

Commander Kong Mie changed the subject and said, "Don't drive too much with me, I just want to meet the strongest Zuxing and let him come out and talk to me."

"You wait."

The queen drank coldly.

Then with a wave of his hand, luck obscured the world passage.

Strange to say.

The luck is obscured, and even the powerhouses at the peak of the Taoist Palace can't see through.

This is the power of the Great Summer Luck.

The Queen said: "If you can delay for a while, you can delay it for a while. Now, it seems that this commander of the empty destroyer still doesn't understand the situation."

God Sovereign said: "That's the only way. I hope Ye Fan is quicker, otherwise there is a shot at the peak of the two avenues of the palace, and we can't stop it at all."

time flies.

Three hours passed, and the commander Kong Mie was impatient, and he punched out the air, sending the air to Hung's ashes.

"What about people!"

The empty commander drank heavily.

The queen said: "What's the hurry, how easy is it for the strongest Zuxing to show up, and it needs to be reported."

This also makes sense.

But the angel clan master said: "Don't be deceived by them, they are delaying time. The strongest should be the Ye Fan who brought huge losses to our clan. It is possible that Ye Fan is cultivating now and is at a critical juncture."

Master Kong Mie's face froze.

The head of the angel clan said, "Let's do it, then Ye Fan is only a supernatural powerhouse at most, and it is nothing to kill dozens of our clan's chiefs in the sea of suffering."

"You angels are in the realm of bitterness?"

"Grass, such a waste? Say it earlier." Commander Kong Mie was so angry that he entered a state of battle.

Without any scruples, one step out, a big earthquake occurred on the earth.

"You group of weak ants actually deceived this commander, so let's all die."

Chapter 1187: Destroy the Commander Kong Mie and the Angel Patriarch!

The empty commander made his move.

As soon as the shot is made, it is suffocating. The absolute strength of the peak of the Taoist Palace is completely crushed.

"All help me."

In an instant, the queen and the golden dragon of luck were merged into one, and the jade seal of the nine dragons rose into the sky, turning into a huge mountain.

Divine Emperor, Shura Nvzun, Jinpeng Huang and other bitter sea powerhouses took the lead to inject energy into the Nine Dragons Jade Seal.

only see.

The mountain-like Nine-Dragon Jade Seal has once again expanded tenfold, and it is so majestic and majestic that it stretches across the sky.

"Golden Dragon of Luck."

Master Kongzao raised his eyebrows.

"This human woman turns out to be a monarch, and the line of Taoism where she belongs has already given birth to a golden dragon of luck. It's very good, very good. If you can conquer this human woman, you will be able to bless you with luck and help me practice, which has great benefits."

Master Kongmi was very happy.

The queen turned into a golden dragon for luck, controlled the Nine Dragons Jade Seal, and launched an attack.

The empty commander was very disdainful.

A group of ants in the realm of the sea of bitterness, still trying to compete with his existence at the peak of the Taoist palace realm, is simply a dream, ridiculous, and extremely stupid.

He's ready to crush.

Crush these creatures with the toughest stance, let them know their fear, and let them surrender honestly.

but.

Master Kong Mie also has a careful eye.

It is impossible for him to go all out. After all, the angel clan master is still there, and he will definitely stab him in the back.

When necessary, the angel clan master must be pulled in.

Wanting to make me a foolish delusion.

While calculating, the commander Kongzai threw a punch, showing the strength of the powerhouse at the peak of the Taoist Palace to the fullest.

"boom."

With one blow, the Nine Dragons Jade Seal was sent flying.

The Queen's blood spurted wildly.

The Luck Golden Dragon wailed, as if suffering from trauma, and the Queen was forced to separate from the Luck Golden Dragon.

lost!

All living beings feel extremely heavy.

This is the gathering of their power, and they can't resist the blow of the empty commander.

Is this the peak powerhouse of the Taoist Palace?

too strong.

Can't match it at all.

what to do?

A gloom and panic haunted the hearts of all living beings.

Master Kong Mie didn't expect it to be so simple. He felt that Zu Xing was too overestimated. Now Zu Xing is really in decline.

Really tragic.

Sadly.

The commander of Kong Mie said arrogantly: "You wait and don't kill, otherwise, you will be wiped out."

Simple and eloquent words came in.

Horror of warriors of all tribes.

Morale was hit all of a sudden and became very low.

This is a bad phenomenon.

"Come again!"

The queen gritted her teeth and looked at the Big Mac Sunshine.

The battleship repaired by Fang Rui now has the power to bombard the monks in the supernatural power realm.

They are all blessed with all their strength, and they may be able to fight against the empty commander.

As for killing Marshal Kong Mie, it is impossible, they all know in their hearts that it is just medicine to delay time, buy time for Ye Fan, and wait for Ye Fan to recover.

"Boom."

Sunshine Big Mac started.

A spirit gathering array opened, instantly forming a huge vortex, inhaling the spiritual energy of heaven and earth crazily.

Tang Ying shouted: "Energy blessing, hurry up!"

Crash.

Once again, all the powers of the strong gathered on the Sunshine, and at the same time Tang Ying and others performed the Great Expansion Technique and Great Blessing Technique.

The energy skyrocketed again.

At this moment, the Sunshine number is radiant and dazzling, like a sun, illuminating the whole world.

The human beings in the secular world in the distant regions all felt that they were very frightened and overwhelmed.

In fact.

At this stage, the cultivation world has begun to spread into the secular world.

With more and more strong people, the cultivation world can't hide it. There was no strong person before, and it was possible to make small troubles and hide it.

But now that the war has started in outer space, it is no longer possible to hide you from the secular world.

At this stage, things in the cultivation world have begun to spread to a small scale in the secular world, and the human race will definitely be unified in the future.

No matter which country it is, it will eventually form a unified human kingdom, and it is impossible to be scattered as it is now.

Most of the ethnic groups are still in Daxia now, and they will definitely expand outward when resources are tight in the future.

Those countries without cultivators will soon fall.

Therefore, the human race must establish a unique country, which is the inevitable result of development, and the unified country is the dominant position of Daxia, there is no doubt about this.

anyway.

The Sunshine gathered enough energy to brew a powerful energy cannon.

central control room.

As the leader, Fang Rui was very nervous, because she spent countless efforts to upgrade the Sunshine, and today was the first time she showed her abilities.

Hope you don't disappoint.

"emission."

Fang Rui gave an order.

An energy cannon as brilliant as the sun was fired, passing through the world passage, causing the passage to tremble.

Instantly killed the outer starry sky.

Commander Kong Mie's face was serious, because he felt the power of this energy cannon, and he had to be careful with it.

"Tips for carving insects."

"Break it for me."

The commander of Kong Mie roared wildly, and punched the energy breaker, causing the starry sky to shake.

boom!

The energy cannon exploded, and Commander Kong Mie changed his expression because he discovered that there were some special powers in the energy cannon.

These powers are going to obliterate her flesh.

"Success."

Fang Rui was very excited.

The energy cannon contained the power of Yuan Magnetic Body Slashing Technique, which of course did not come from Ye Fan, but from Yuan Magnetic Emperor.

The Yuan magnetic beast family was brought out by Ye Fan, and it has grown and grown over the years.

Magnetic Emperor Yuan was also already a strong man in the sea of bitterness.

The power of Yuan Magnetic is unparalleled.

Contained in the energy cannon, to deal with the empty commander, although it is not enough to obliterate his physical body, it must be a little troublesome.

In addition, the energy cannon also contains the power of the Great Poison Technique.

Master Kong Mie was torn apart by the power of Yuan Magnetic, and the power of the Great Poison Technique entered the body along the wound, which exploded in an instant, causing his complexion to darken.

"Damn."

The commander-in-chief was furious.

It is really outrageous for him to be injured by the design of a group of ants.

"Birdman, don't shoot yet."

The empty commander retreated and returned to his battleship, seemingly not planning to take action.

He began to solve the power of Yuan Magnetic Divine Power and the poisonous power of One in the Body.

the other side.

The Angel Clan Master felt regretful that the ancestral star creatures did not bring a substantial blow to Commander Kong Mie, which really made him a little misguided.

Really his trash.

Is Zu Xing so rubbish?

Ye Fan, is it possible that only Ye Fan can be on the table in the entire Zuxing?

The face of the angel clan master was ugly.

If this is really the case, the dozens of marshals and tens of millions of soldiers in his own ethnic group have been destroyed by Ye Fan.

Now that the empty commander is retreating, the angel clan master decided to take action, and he could not give the creatures such as Zu Xing time to relax.

Changes later.

To be crushed.

The angels trembled their wings, and the speed was extremely fast. They appeared in the world channel in an instant, and they were about to descend on the ancestors.

Jinpenghuang's pupils shrank.

This speed, he can not match.

In other words, this is not speed, but space magic, teleportation.

The angelic group does possess some spatial supernatural powers.

"Hurry up and stop."

The queen stopped drinking and merged with the golden dragon of luck again. This time, she did not use the Nine Dragons Jade Seal, but took out a sword.

scold.

As soon as the sword came out, it exuded a rich divine brilliance, as if an emperor had descended.

The Angel Patriarch felt a sudden shock from this aura, and stopped, astonished.

"What kind of sword is that?"

The angel clan master's eyes flickered.

On the extraterrestrial starship battleship, Commander Kong Mie also felt it, opened his eyes, and said in surprise, "Could it be, Human Emperor Sword?"

Human Emperor Sword!

The three words made the Angel Patriarch tremble.

After the Antiquity Period is the Middle Ages. This period was very chaotic, and many ethnic groups saw only constant wars.

The emperor of the human race disappeared, the heavenly court collapsed, and the human race suddenly suffered huge losses. At the same time, it was also attacked by other ethnic groups, causing it to weaken.

However, during this period, another big figure appeared in the human race.

Rise in chaos.

He beheaded some strong ethnic groups who violated and oppressed the human race, and killed other ethnic groups with fear.

Later, he was called the emperor.

The reason why it is called the emperor, not the emperors, is because after the ancient times, the environment has changed greatly, and it is almost impossible to become an emperor.

The human emperor's magic weapon is the human emperor sword.

Middle Ages.

As soon as the Human Sovereign Sword came out, it must have been a **** scull.

Is that the Emperor Sword?

The Angel Clan Master shot instantly, left the world passage, and returned to the starry sky.

He didn't dare to gamble.

If it was the Emperor Sword, it would be terrifying.

Even 1/10,000 of the power is enough to kill him. The Human Emperor Sword is a human emperor's magic weapon, and it is born with the effect of restraining foreign races.

The Angel Clan Master just felt that the breath of the sword was suppressing him, which made him really believe that it was the Emperor Sword.

The commander-in-chief was also shocked.

If the woman used the Human Emperor Sword just now, I'm afraid he would capsize in the gutter.

but.

Although that woman is a monarch and controls the golden dragon of luck, it is not enough to wield the Emperor Sword.

This is inevitable.

How noble is the Human Sovereign Sword, even if it is placed in front of it, no one can hold it.

Even the head of the Angel Clan, Master Kong Mie, couldn't pick it up.

Only saints can shake a little.

remember.

It is only slightly shaken, but it may not be able to pick it up.

But the woman took control.

How can this be.

Is that woman the reincarnation of a human emperor?

impossible.

There is no reincarnation in this world.

The great emperors are gone, and the great emperors cannot be reincarnated.

In the long era, countless strong people, countless great powers, have disappeared in the long river of time.

How can there be reincarnation?

If so, why is the Supreme Being of the universe still lingering, and why is he not reborn in reincarnation?

Is that woman a queen?

Not right either.

In the Middle Ages, the emperor had no descendants.

The appearance of the Human Sovereign Sword made the patriarch of the angels and the commander of Kong Mie very afraid, and they did not dare to act rashly for a while.

behind the moon.

The Ghost Fang was also frightened.

Human Emperor Sword.

Oh my God.

Not only that, but the blow of the Big Mac Sunshine against the empty commander just now made him horrified.

If you deal with him, he will be seriously injured even if he does not die.

Guiya Zun is very fortunate that he did not directly attack Zu Xing, but was borrowing a knife to kill.

Chapter 1188: Human Emperor Sword

Is this the Emperor Sword?

Definitely is.

It's just that the Queen's control is very difficult.

This is the only thing left to her by the late emperor. As early as many years ago, it was refined into her body, and her life essence and blood nourished day and night.

After so many years, I finally established a connection with the Human Emperor Sword.

It's just a trace.

It is really difficult to completely control the Emperor Sword.

Although the Human Emperor Sword is not an imperial soldier, it is not far behind. It can be said that it is a quasi-imperial soldier.

The Queen's manipulation of the Human Sovereign Sword consumes too much, and it is even more difficult to use the power of the Human Sovereign Sword.

She can only be used to intimidate now.

Or simply rely on the sharpness of the Human Emperor Sword to slash.

Fortunately, the Angel Patriarch and the Commander Kong Mie were intimidated, which would undoubtedly delay them for some time.

The Human Sovereign Sword is placed horizontally at the entrance and exit of the passage.

It's like a **** of war, one husband is the gatekeeper and ten thousand husbands can't open it.

The God Emperor and the others were also shocked. They did not expect that the Queen actually possessed the Human Emperor Sword, which disappeared in the Middle Ages.

How can it not be shocking to appear now.

The Human Sovereign Sword stunned the Angel Clan Master and Commander Kong Mie, and the other powerhouses did not stop and gathered their strength again to enter the Sunshine Giant.

The second wave of energy cannons is brewing.

At this moment.

In the heavenly world, Ye Fan's cultivation is coming to an end, and the twenty magical seeds are about to be fused.

It can be seen that the big golden core between his eyebrows exudes a splendid brilliance, and it contains the power of twenty supernatural powers, how huge.

Besides.

In front of the big golden core, the ethereal gate of the Taoist palace also appeared.

What is the Taoist Palace?

This sounds complicated, to put it simply, it is the Mansion of Life.

where life is.

Knocking on the door of the Taoist Palace indicates that he will be able to control some of his own destiny and become a real little powerhouse in cultivation.

Since then, it's gone against the sky.

After the door of the Taoist Palace is knocked open, the spiritual power will skyrocket, and after the Taoist Palace, it will be amazing.

It is necessary to shape the primordial spirit in the Taoist palace.

Primordial spirits are generally in the form of babies.

Because the realm after the Dao Palace realm is also called the Nascent Soul realm.

When you reach this level, you are a boss.

Commonly known as Yuan Ying boss.

In ancient times, those who were able to cultivate Nascent Soul were considered strong, and those who were strong in Nascent Soul could wander in the starry sky for a short period of time without resorting to a starship battleship.

Of course it's short.

If you want to roam the starry sky at will, you have to become a saint.

in addition.

There is another advantage of condensing the supernatural power seed big golden pill, that is, it can condense the primordial spirit faster and more smoothly, because the primordial soul can be cultivated on the basis of the big golden pill.

Moreover, the Nascent Soul fused with the Great Golden Elixir is much stronger than the Nascent Soul without the Great Golden Elixir.

It can be seen that the power and importance of the Great Golden Elixir, the seed of supernatural powers.

In ancient times, the favored sons of heaven will do their best to condense the great golden elixir, no matter what the cost.

It can be said that being able to make a great golden pill is a sign of genius, otherwise it is garbage.

anyway.

Ye Fan's big golden pill has been completed.

Hovering between the eyebrows, it is brilliant, ready to knock on the door of the Taoist Palace at any time.

However, Ye Fan felt the stiffness of the door of his Taoist palace, and it was not easy to knock it open.

At this stage, Ye Fan has not recovered yet.

Because although Dajindan has been completed, there are still some follow-up work.

And outside.

The angel clan master and the empty commander have reached an alliance.

In the face of the Human Emperor Sword, they can no longer fight alone, they must attack together.

"It seems that the woman is just bluffing and can only control the Emperor's Sword, but she can't exert her power.

"I feel the same way."

"Let's do it, if you can get the Human Emperor Sword, it's really a great blessing."

The Angel Patriarch and the Commander Kong Mie were both very passionate.

In an instant.

They're out.

Heavenly Fist.

Starburst.

The two unique skills were killed, and the world channel trembled wildly, as if it could not bear it and was about to collapse.

Even the mystical forces around the earth rioted.

The mysterious power burst, weakening the power of the two unique skills, which has never been seen before.

"Ancestral Star's self-protection mechanism?"

"It is rumored that this is the emperor's method. I didn't expect that the endless years have passed, and it has not disappeared. As expected of the emperor, it is really terrifying."

"Anyway, blow everything up."

The angel clan master entered the peak fighting state, the pale golden wings trembled, and the phantom of the ancient ancestor of the blazing angel rose from behind.

The scepter in his hand is transformed into a thousand zhang, as if it can smash a planet.

The empty commander was not to be outdone.

His eyes shone with divine light, like two or two scarlet blood-colored stars, and monstrous flames rose from his body, and fangs grew out of the corners of his mouth.

"alienation!"

Angel clan master place.

The Xingkong Youzu mastered a secret method of alienation, which can improve a lot of combat power, but only the core members can.

This is the case with the empty commander.

"kill!"

Commander Kong Mie screamed, and the ancient emperor's sword in his hand slashed; at the same time, the Angel Clan Master stopped drinking and smashed his scepter down.

Rumble.

Earth trembled wildly.

There are big earthquakes all over the world, like a comet hitting the earth, it seems like the end of the world.

Human beings in the secular world are terrified.

"boom."

The brewing blow of the Sunshine finally fired, and at the same time, the Queen shot the Human Emperor Sword into the energy cannon.

scold.

The energy cannon containing the Human Emperor Sword has become extremely sharp, directly cutting off the secret skills of Commander Kong Mie and the Angel Patriarch.

But at the same time, the energy of the energy cannon is also exhausted.

The Emperor Sword stayed.

"not good."

Queen Li Assen has changed a lot.

Commander Kong Mie and the Angel Patriarch were extremely excited. They grabbed the Human Emperor Sword, and neither let anyone else.

"Go away!"

"It's you who should get out!"

It was still in an alliance just now, but now it is time to fight.

no way.

The Emperor Sword is too precious.

must get.

But suddenly, a black handprint appeared, grabbed the Emperor Sword and pulled it away, causing the Commander Kong Mie and the Angel Patriarch to be stunned for a second.

Immediately, the thunder was furious.

"who is it!"

Of course, it is the ghost tooth.

He wanted to continue to endure, but the temptation of the Human Emperor Sword was too great, so he finally chose to take action.

"Hahaha, I got the Human Sovereign Sword, and I can leave. Zu Xing and the others can't take it for a while. When I refine the Human Sovereign Sword, the gods will kill the gods and Buddhas."

The Ghost Fang returned to the black battleship.

The wormhole has been opened.

"Want to go!"

The Angel Patriarch and the Commander Kongzai were furious.

The mantis catches the cicada and the oriole is behind.

There are still creatures watching in the dark.

"Ghost clan!"

The face of the angel clan master was ugly.

The angels and the ghosts are a feud. At this moment, he found out that the ghosts were conspiring to steal the Emperor Sword, and he exploded in anger.

"The ultimate killing."

He waved his scepter and hit the wormhole.

boom!

Wormhole appeared Leon.

"not good."

The Ghost Fang was shocked.

It seemed that he could not leave the wormhole, and he immediately controlled the black battleship to gallop.

However.

Where is his battleship where the battleships of the Angel Clan Master and the Air Destroyer are powerful, and the two battleships immediately attacked.

The battleship on Guiya Zun was shaky after being beaten.

Damn.

The Ghost Fang is terribly aggrieved.

"to die,"

The empty commander chopped down with a knife.

The defense formation of the black battleship was split open, the battleship body was damaged, and a huge gap appeared.

Guiya Zun knew that he couldn't take the Human Emperor Sword with him, and was very annoyed. He didn't say that he didn't get the Human Emperor Sword, and even exposed the trace.

"Shh."

He threw the Human Sovereign Sword towards the World Passage.

Commander Kong Mie and the Angel Clan Master immediately chased after him, or the Angel Clan Master was faster, leading him to have spatial supernatural powers.

Teleport directly.

The queen reached out her handprint and grabbed the Human Emperor Sword, but the Angel Patriarch sneered: "You can't do it, let it go!"

Scepter smashed out.

The handprint exploded.

At the moment when the main angels caught the Human Emperor Sword, a portal appeared at the exit of the passage, a fist shot out, and the attacking angels were caught off guard.

The angel clan master was sent flying.

Not only that, but he encountered some troubles. Like the former Commander Kong Mie, his body was dyed with the power of the Primordial Magnetic Body Slashing Technique and the power of the Great Poison Technique.

Compared with the previous Yuan Magneto's dealing with the empty commander, the power of the body cutting technique and the great poison technique that the angel clan master endured this time was much more terrifying.

Because it was Ye Fan who performed it.

At the gate of heaven, Ye Fan walked out, grabbed the Emperor Sword, and instantly felt like he was about to fall.

Because the Emperor Sword is too heavy.

Ye Fan tried his best, but he couldn't catch it, so he could only throw the Emperor Sword to the Queen.

The queen collects the human emperor sword.

"Ye Fan, you're finally out."

"Yes, it's not too late."

Evan nodded.

His appearance reassured all the powerhouses, it seemed that as long as Ye Fan appeared, he would definitely be able to defeat everything.

They didn't expect that Ye Fan had become the backbone.

The gates of heaven have disappeared.

Ye Fan beat the snow in white clothes, danced wildly with silver hair, turned his back to 300 million soldiers, stood at the exit of the world passage, and looked at the two peak powerhouses in the starry sky.

"baptism!"

The Angel Clan Master sighed.

He spent a lot of effort, and finally played with the power of the Great Poison Technique and the Power of the Slashing Technique.

It's just that the body still suffered some trauma.

The sky is silent.

The commander of Kong Mie looked at Ye Fan, while the head of the angel clan was murderous and said coldly: "You are Ye Fan, and you killed the twenty-nine commanders of my family?"

"it's me."

Ye Fan was very calm.

The angel clan master frowned, and Ye Fan's calmness made him start to doubt himself.

Could it be that Ye Fan can deal with the peak powerhouses of the Taoist Palace on his own?

What is Ye Fan's realm?

The Angel Patriarch and Commander Kong Mie couldn't see through, which shocked them, secretly saying that Ye Fan was indeed extraordinary.

"The peak powerhouse of the Taoist Palace is rare. I want to compete with the two of them."

"Who will come first?"

"Or, you go together."

hiss.

All 300 million soldiers on Earth gasped.

good guy.

Ye Fan is too crazy.

The queen and the others looked at each other, surprised, Ye Fan was not an arrogant person, so he must have some certainty and self-confidence.

Is it.

After Ye Fan condensed the great golden pill, he directly knocked on the door of the Taoist palace and became a monk in the Taoist palace?

But even so, he is only in the early stage of the Taoist Palace, and the Angel Patriarch and the Commander Kong Mie are the peak of the Taoist Palace.

There are a few grades in the middle.

The leapfrog battle exists, but as the realm improves, the higher the realm, the more difficult the leapfrog battle.

Many strong people do not believe that Ye Fan can defeat two with one.

But Ye Fan surprised them and took the initiative, without waiting for the reply from the Angel Patriarch and the Commander Kong Mie.

Too strong!

Too domineering!

This is Ye Fan, the national teacher of Daxia, the master of the Tianzun Palace, and Yinyin is the first person in Zuxing.

Chapter 1189: Violently messed up

Ye Fan's domineering and tyrannical attitude impressed the soldiers and the strong on Earth, and also made the face of the Angel Patriarch and the Commander Kong Mie solemn.

The unknown is the most terrifying.

They couldn't see through Ye Fan, which made them feel clueless.

"come on."

Ye Fan stepped out and came to the outer starry sky.

No nonsense at all.

Immediately punched and bombarded the Angel Clan Master and the Commander Kong Mie, it was really going to be one against two.

"presumptuous!"

The Angel Patriarch and the Commander Kong Mie were furious.

They also punched.

fist bump.

The three-square grid flew out.

Ye Fan laughed: "Cheer up, come again."

He appeared in front of the Angel Clan Master like lightning, slammed it in the head, and fought against the Angel Clan Master a few times; then he disappeared, and with the great teleportation technique, he appeared in front of the Master Kong Mie, and he was with the Master Kong Mie again. Fight a few tricks.

Going back and forth like this, Ye Fan was very busy.

The Angel Patriarch and the Commander Kong Mie were furious, which was simply humiliating them.

"roll!"

The Angel Clan Master knocked Ye Fan back with a punch.

"The farce should end."

His voice was cold.

Because Ye Fan beheaded twenty-nine commanders under his command, the angels suffered heavy losses.

The angels are going to kill Ye Fan.

Rumble.

The breath is rising.

The real battle has only begun now, and it was just a warm-up.

At the same time, Commander Kong Mie also became serious.

The two powerhouses at the peak of the Taoist palace showed their aura to the fullest and pressed them. For Ye Fan, it was like making the two planets collide head-on.

Very heavy and grand.

But Ye Fan was not afraid, but was extremely excited.

"Heavenly hegemony."

"Twenty-five!"

"Turn on!"

Ye Fan roared, and in an instant, his blood was soaring to the sky, and he instantly seemed to be transformed into a humanoid tyrannosaurus.

The domineering and fierce aura made the Angel Patriarch and the Commander Kong Mie discolored.

"Heavenly Overlord!"

They were shocked.

Ye Fan actually trained the Heavenly Hegemony Body, and he was still the 25th-level Heavenly Hegemony Body. He was a creature of the bully clan.

Queen and they are also incredible.

Before, Ye Fan was only level 20 Celestial Hegemony, but after condensing the big golden pill, he even rushed to level 25 Celestial Hegemony.

This absolute leap in water quality has a strong improvement, no wonder it is so confident.

In terms of physicality, Ye Fan is indeed very confident.

Even in the face of the powerhouses at the peak of the Taoist Palace, he is not in vain, because the 25th-level Celestial Hegemony is really too powerful.

Condensed the big golden pill and brought him the benefits.

Ye Fan felt that he could smash everything with one punch now. He was carrying a lot of blood, and he was as ferocious as an ancient beast.

"kill!"

Ye Fan shot.

The fist light was as bright as the sun, and it played a long match in the starry sky.

His fists are too heavy.

The Angel Patriarch and the Commander Kong Mie had solemn expressions on their faces.

"The 25th-level Celestial Hegemony is indeed powerful, but it is not enough to deal with us. At least the 29th-level Celestial Hegemony, you are still a little worse."

"Not always."

Ye Fan sneered and opened up.

Fighting in the starry sky with every punch, the Angel Patriarch and Commander Kong Mie were sore all over.

"The 29th-level Celestial Hegemonic Body does correspond to the cultivator at the peak of the Taoist palace, but you must know that it is the peak of the Taoist palace like a genius and evildoer."

"Are you genius monsters?"

"Not really."

Ye Fan's words were full of ridicule.

Although the Angel Patriarch and the Commander Kong Mie are the peak monks of the Taoist Palace, they are still a bit worse than the real evildoers and Heaven's Chosen.

Unless the angel clan master evolves into a seraph.

That could be called a monster.

Not enough now.

Not to mention the Commander Kong Mie, in fact, he is not as good as the Angel Clan Master in terms of potential.

"The 25th-level Celestial Hegemonic Body is enough to deal with you."

"Insanity!"

The angel clan master turned into two blazing angels, with pale golden wings like an invincible defense, and rammed into Ye Fan frantically, which seemed to show that Ye Fan's level 25 celestial physique was not enough.

Ye Fan was indeed hit with all kinds of meat and eight elements.

He wanted to fight back, but the angel clan master was smart, so he didn't fight him head-to-head, and used his teleportation supernatural powers to appear and disappear.

The empty commander is a frontal attack.

The ancient emperor's sword in his hand kept slashing down, and each knife was enough to kill the monk in the supernatural state.

"Bang bang bang..."

Ye Fan smashed all the sword lights with a flesh fist.

He casts great bodyguards.

At the same time, there is also the ancient treasure armor, which was found in the void.

It worked at the moment.

Ye Fan didn't use Wuxu Kunding, Fengshentai, Fangcunshan and other treasures, he didn't need it.

"kill!"

Ye Fan's blood was restless.

"A picture of life and death."

The huge picture scroll suddenly appeared, scaring the Angel Patriarch and the Commander Kong Mie to jump.

next moment.

The power of yin and yang poured out.

"Reverse chaos yin and yang."

Ye Fan shouted.

Everything has yin and yang, and if yin and yang are reversed, there will definitely be problems with the body.

as predicted.

The Angel Patriarch and the Commander Kong Mie shook their bodies, and except for some accidents, they even spat out blood.

"Repression."

"baptism."

However, they were at the peak of the Taoist palace, and immediately wiped out the power of yin and yang.

"Destroyed."

at the same time.

The life and death map is crushed, with a lot of magical powers, as well as the power of Yuan Magnetic Body Slashing Technique.

The Angel Patriarch and Commander Kong Mie were evil, they didn't dare to resist, they quickly retreated.

However.

Ye Fan has long been eyeing the empty commander, punched with all his strength, and bombarded it out.

Empty big handsome horror.

"court death."

He was angry, screamed, and chopped down with the big knife in his hand.

Ye Fan was cut to the ground.

His jaws were cracked.

"As expected of the peak of the Taoist Palace, it is difficult to deal with." Ye Fan secretly said in his heart.

"boom."

Although he was chopped off, Ye Fan still punched, and this punch contained the power of Jindan.

The so-called Jindan power is the combination of the powers of the twenty supernatural powers. It is not a simple addition, but a qualitative leap.

The fusion of these magical powers has greatly increased the power, which is immeasurable.

Fighting the empty commander, the blood spurted wildly.

"What kind of boxing is this?"

The empty commander was shocked.

"With one punch, dozens of magical powers, how can you display so many magical powers in an instant, absolutely impossible."

The words of the commander Kong Mie caused the angel clan master to think, and he immediately said in shock: "Ye Fan, you have glued the magic seed big golden pill!"

The empty commander suddenly realized.

Yes indeed.

Only by condensing the supernatural power seed big golden elixir, and using the power of the golden elixir, can so many supernatural power effects be achieved in an instant.

This guy is so evil.

Commander Kong Mie and the Angel Patriarch were shocked, their faces were gloomy and uncertain, how powerful the golden pills condensed with dozens of magical seeds.

In ancient times, it was a monster.

"Kill Ye Fan and seek the golden pill."

The angel clan master stopped drinking.

The Great Golden Elixir is really precious, especially because it contains dozens of magical powers.

Once you get the big golden pill to swallow.

It is equivalent to immediately obtaining all of Ye Fan's magical powers, and it is empowering to learn directly.

It was really tempting for the Angel Patriarch and the Commander Kong Mie.

Human Sovereign Sword, Great Golden Elixir...

must get!

Their eyes became blood red, and a dangerous aura filled the starry sky.

obviously.

They are going for real shopping.

Ye Fan felt a lot of pressure, and he knew the gap with the peak of the Taoist Palace.

However, this gap is not insurmountable.

"Ye Fan, hand over the big golden elixir, so that you can stay alive." The head of the angel clan said coldly.

"Hand over the Emperor Sword."

The commander-in-chief also said in a commanding manner.

Ye Fan sneered and took the initiative to attack, he really poured out all the means.

The strength displayed makes the earth soldiers surrender.

They also admire the queen.

Guiya Zun was frightened, and the strength shown by Ye Fan was enough to kill him.

Luckily, I didn't act rashly.

But now Guiya Zun is in a very embarrassing situation. He is stared at by the battleship of the angel clan master and the empty commander. He can't escape with the battleship at all?

As for fishing in troubled waters, I'm afraid there is no hope.

Whether it is the commander of Kong Mie, the head of the angel clan, or Ye Fan, or even a human woman with a human emperor sword, it is enough to cause great harm to him.

hateful.

Guiya Zun was extremely annoyed.

How did it become like this, shouldn't it be played according to her script?

"puff!"

at this time.

A figure fell in the starry sky, that was Ye Fan, who was injured by the angel clan master and the commander Kong Mie.

"Ye Fan, the gap between realms is insurmountable. You are still in the supernatural power realm. It's already very evil to be able to achieve this level, but that's it."

"You can capture it without dying, this is your last chance."

The response was an unparalleled fist.

The scepter in the hand of the angel clan master waved, breaking the fist, and said contemptuously: "No, no, I really think you can deal with the peak existence of our two great palaces, you want to defy the sky."

Ye Fan stood in the sky, covered in blood.

But his eyes were burning.

His breath has not declined, and he is still at his peak.

This shocked and puzzled the Angel Patriarch and Commander Kong Mie. They were all consumed, why did Ye Fan fight for so long, as if nothing happened.

This kid has a secret.

The reason why Ye Fan is not tired and not decayed is because his body is strong, and secondly, the sea of suffering is vast, and it contains many times more energy than ordinary monks.

The battle is over.

The atmosphere was eerie.

The Queen and the others could see that Ye Fan was in an embarrassing situation. He could beat him but he couldn't. Of course, it was not easy for the Angel Clan Master to kill Ye Fan.

Ye Fan can completely retreat into the heavenly world.

But in this way, Zuxing Earth is about to suffer a catastrophe, and Ye Fan doesn't want to see this result.

As Hanji said before, he wants to build merits and make great contributions to the ancestral planet.

It is possible to become Zuxing Supreme in the future.

"Shh!"

Just when Ye Fan was thinking about how to deal with Commander Kong Mie and the Angel Patriarch, an extremely hot breath rushed to the outer starry sky.

Vulcan knife!

Ye Fan's eyes lit up, it was a dry scorpion.

The sudden killing made the angel clan master and their eyelids jump, Zu Xing still has the strong?

boom.

Commander Kong Mie scattered the Vulcan Sword.

The scorpion appeared beside Ye Fan, standing side by side, her breath fluctuated.

Ye Fan felt very strange.

It seems that the dry scorpion has entered the realm of the Taoist palace.

"Have you been promoted?"

"good."

Drought nodded.

Ye Fan frowned and said, "Why don't you condense the great golden elixir of supernatural power seeds, so rushing to promotion is not good for your future cultivation path."

Han Yan said: "Who said that the big golden elixir has to be condensed now? The Taoist palace can also be used. After you have condensed the great golden elixir, you can still continue to condense the seeds of supernatural powers, and then merge into the great golden elixir. However, it is buried in the

breakthrough Taoist palace. After the realm reaches the Nascent Soul realm, it will not work, and the golden core will be fixed at that time."

Ye Fan Mao paused.

The promotion of Hanyu to the Dao Palace Realm is a great help, at least it can hold back one guy.

"I want to kill the angel clan master. I have a hunch that he can take back the heavenly world."

Chapter 1190: Carry it all alone!

"Haven't you already refined the origin of the heavenly world?" Han Yun said through sound transmission.

"That's true, but Heavenly Kingdom is a place where the angels have kept believers in captivity. They have been in control for countless years. I always feel that if there is a backhand, even if the Angelic Clan Master can't take it away, it may bring disaster to the Heavenly Kingdom."

Han Yan pondered: "That's right, it's better to be cautious."

"Then you hold off Commander Kong Mie, and I'll deal with the Angel Clan Master."

"It's fine for me to hold on to Commander Kong Mie, but how sure are you that you can kill the Angel Clan Master?"

"To be honest, I'm not sure."

Han Xian rolled his eyes, but still chose to give Ye Fan a chance.

Flames rose all over her body, and she stepped out in front of Commander Kong Mie, and the Vulcan Sword slashed down.

Commander Kong Mie squinted his eyes, and the ancient emperor's sword met him.

Two peerless swords were bombarded, but the Vulcan Sword was superior, which was actually quite reasonable.

You must know that the Vulcan Sword is the natal magic weapon of the dry scorpion. It was sacrificed by the Red Emperor in ancient times, and it is a very powerful magic soldier.

Although the level of the ancient emperor's treasured sword is not bad, it is still not as good as the Vulcan sword.

The empty commander was split into the air.

The dry scorpion chased after the victory. Although she was only in the early stage of the Taoist palace, she was the daughter of the Red Emperor. Her bloodline was extremely strong, and she came from ancient times, with many magical methods and methods.

It is not a problem to deal with the empty commander.

Ye Fan looked at the Angel Clan Master, took a deep breath, and shot, he had to deal with this birdman, otherwise he would feel uneasy.

"interesting."

Feeling Ye Fan's strong hostility and murderous aura, the Angel Clan Master sneered.

He grabbed the empty hand.

Ye Fan suddenly felt that something bound him, and the mysterious force was about to invade his body.

"Great body protection."

"It's useless, and the great body protection can't stop the baptism of sin that I cast."

"Ye Fan, you have caused countless sins, you deserve to die, you will be baptized and wiped out."

"The ancestors help me."

The Angel Patriarch raised his scepter high and spurted blood, as if offering sacrifices, shouting frantically.

In the dark.

What power came, through the scepter, enveloped Ye Fan.

only see.

The originally invisible big net began to clean up, wrapping Ye Fan around like a seed.

"Eradicate sin, baptize everything, and be mine."

The face of the angel clan master was indifferent.

Ye Fan felt that everything in his body was ashes as the baptism, and all the energy would be conspired by the master of the angel race.

He roared wildly, and his strength exploded to the extreme.

Although he broke free a little, he couldn't break free completely, Ye Fan roared again and again.

Seeing that Ye Fan was in trouble, Han Yan decided to take action, but Commander Kong Mie stopped her and said with a sneer, "You still dare to take care of others when you fight with me, you should think about yourself."

"Go away."

He was furious and attacked Commander Kong Mie frantically, wanting to repel him, but Commander Kong Mie pestered her, making her unable to support Ye Fan.

The angel clan master stared at Ye Fan coldly, and said with contempt: "It's ridiculous that the little prodigy cultivator wants to deal with me too. Ye Fan, the world of the kingdom of heaven has been snatched away by doting conspiracy, you can open the door of the kingdom of heaven, do whatever you want, and watch history Refining the origin of the heavenly world, I have to say that you are really powerful, I have spent countless efforts to refine it, can you tell me how to refine it?"

"Yes, but you must die."

"It doesn't matter if you don't say it, do you think you can completely control the heavenly world?"

Ye Fan's heart skipped a beat.

There is indeed a trick.

He deliberately snorted: "I have mastered the origin of the world, I am the master!"

"Hahaha."

The Angel Clan Master sneered.

"The world of the kingdom of heaven has been controlled by my family for countless years, how can there be no backhand, let's take a look."

The angel clan master said something, and the scepter in his hand glowed.

slammed down.

There was an opening in the starry sky, and the breath conveyed in it was obviously the breath of the heavenly world.

Ye Fan's color changed.

The angel clan master can open the door to the world of heaven, how is it possible, how can he do whatever he wants.

"Are you suspicious?"

"But I won't tell you."

The Angel Patriarch laughed and saw Ye Fan's shriveled appearance, very refreshing.

Ye Fan sneered: "It's just an illusion. If you could open the portal to the world of heaven at will, you would have entered it long ago."

The Angel Clan Master coldly snorted: "That's because for me, nothing is in a hurry."

"Yes?"

Ye Fan narrowed his eyes.

"I refine the origin of the heavenly world, I am the master, or I am the origin."

"The reason why you were able to open the gate of heaven should be that you used me."

"That is to say, you have to be by my side and have a connection with me to open, right?"

Ye Fan's words changed the main character of the angel clan.

"boom!"

With a loud bang, Ye Fan broke free.

as predicted.

The gap disappeared.

Everything coincides with what Ye Fan guessed.

The face of the angel clan master was ugly.

Ye Fan smiled and said, "Okay, I've figured it out, and I don't have any worries. Now, let's kill you."

"Just you?"

"Yes, don't you just rely on the realm of Taoism, which is higher than mine? If so, then I will ascend to the sky in one step."

Ye Fan's words resounded through the starry sky and conveyed to the world.

All the creatures were shocked.

What does it mean?

Han Yan's eyes lit up, could it be that Ye Fan...

"boom!"

A dazzling light bloomed between Ye Fan's eyebrows, which was the great golden pill of supernatural power seeds, knocking on the door of the Taoist palace frantically.

boom!

boom!

boom boom boom...

Every percussion conveyed a dull sound, earth-shattering.

The Angel Clan Master widened his eyes.

Ye Fan is so bold?

Just in front of him attacking the Dao Palace?

Who is not looking for a safe place to attack, Ye Fan is simply dying.

"ill."

The Angel Patriarch was speechless.

He wouldn't just wait for Ye Fan to break through, and immediately launched the killing.

Seeing this, the queen shouted: "Shoot and buy time for Ye Fan."

Rumble.

The Sunshine Giant's brewing attack burst out, and with the Human Emperor Sword, the Angel Patriarch could only retreat.

There is no way, the Emperor Sword is too sharp, once it is careless, it will be pierced, and there will be unpredictable damage.

"boom!"

boom boom boom...

Ye Fan roared wildly, his eyebrows split open.

He wants to enter the realm of the Taoist Palace with a strong attitude, kill enemies from outside the domain, and become the first powerhouse of Zuxing.

No one can stop him.

Ye Fan was breaking through, but he didn't lose his combat effectiveness. He was still bombarding the angel clan master.

At this moment, he used the magic weapon.

With the Wuxu Kunding on his head, his feet on the Conferred God Platform, he held Fangcun Mountain in one hand, and a pestle in the other, carrying a life-and-death map on his back.

This picture is really scary.

Rao is also shocked by the angel clan master, and he does not have so many magic weapons.

The angel clan master was well-informed, immediately recognized it, and exclaimed: "The Fengshentai of the Fengtian clan, the Wuxu Kunding, the treasures of the Buddhist family, Fangcun Mountain and the Demon-destroying pestle, how can you have these invincible magic soldiers."

Ye Fan said nothing.

What you have to do now is to break through in the battle, be absolutely strong, and be invincible.

The face of the angel clan master was ugly.

Ye Fan's purpose is very clear. If he doesn't stop Ye Fan, he will get out of control. The bigger he is, the stronger he will be. Finally, he can really break through the Dao Palace. At that time, it is really dangerous.

"kill!"

The angel clan master gave an order, and the battleship started.

This is his battleship.

Naturally, it is also the strongest battleship of the Angel Race, comparable to the peak of the Taoist Palace, but it will consume countless energy just to launch it once.

Before the wormhole was broken, the warship was damaged and needed to be repaired. In addition to opening the wormhole again, a lot of energy had been consumed; if Ye Fan could not be killed now, then the warship would lose most of its energy. one question.

So Ye Fan must die.

It must come to the ancestors to plunder the energy.

the other side.

The commander-in-chief also ordered.

His battleship also started to start, ready to bombard and kill the drought.

The situation became crisis.

Ye Fan was very anxious, he shouted: "Han, you go back, I will deal with it."

Drought's eyes flickered.

Ye Fan said: "It's useless for you to participate. It's better to preserve your strength. If I fall, you will be able to hold up the facade of Zuxing."

Drought is very sensible.

What Evan said was indeed true.

"Shh!"

The Fengshentai was thrown out by Ye Fan and handed it over to Han Yan, who said, "It contains great sealing power. If I fall, a letter of God's Platform will be the foundation, and the world passage will be sealed, which can be delayed for a while."

The drought swept away the Fengshentai and entered the world passage. When she looked back, she was very moved, and said through a voice: "If you really can't do it, just go to the heavenly world to hide, there is no need to fight recklessly. You have done enough, you don't need to give it's too much of a burden on myself."

Ye Fan didn't respond.

It had come to this point that she couldn't bear to back down.

The head of the angel clan and the commander of Kong Mie were shocked by Ye Fan's courage. Such an evildoer can completely save himself and sacrifice others, but Ye Fan has to carry it all alone.

It must be said that this spirit is admirable.

The angel clan master sneered: "The human race is so ridiculous, so-called love is nothing. Ye Fan, you should leave, but if you choose to bear it alone, you will have to pay the price of your life."

Ye Fan is like the sun, shining to the extreme, he said coldly: "The reason why the human race can be immortal and prosperous, and the emergence of great emperors, emperors, and countless strong people is because they pay enough attention to emotion."

Commander Kong Mie snorted coldly: "It's ridiculous, the law of the jungle for the weak to eat, don't kill yourself."

Ye Fan don't talk nonsense.

With all his strength, you dispatched the Wuxu Kunding, Fangcun and the Demon-subduing pestle, ready to give it a go.

Success or failure is here.

"Boom."

The two battleships had already reached their peak, and the terrifying energy fluctuations made Ye Fan's level 25 celestial body tremble.

The Angel Patriarch and Commander Kong Mie ordered almost at the same time: "Kill me!"

boom!

boom!

The battleship delivered a powerful blow.

Break through the sky.

Raising prices left and right will kill people.

"Kunding!"

Ye Fan worked hard to revive Wuxu Kunding and smashed into an energy cannon.

"Fangcun Mountain."

Smash Fangcun Mountain to the other one.

But instead of flinching, he made his move, using the demon-subduing pestle to smash the head of the angel clan master.

At the same time, the life and death map was suppressed.

In an instant.

The starry sky turned into a vast expanse of white, and nothing could be seen, and then the earth shook. This extreme collision was really suffocating.

All the souls and hearts are mentioned in the throat.

what result?

Ye Fan is alive or dead, is there any breakthrough?

It's also about their life and death.
