

## **Elegant SS 1191**

Chapter 1191: Failed

All living beings held their breath.

Not only on the earth, but all the creatures on the three warships in the starry sky also looked at the center of the explosion.

It's just that the center of the explosion is a vast expanse of white, and even if you have a different pupil or a pupil technique, you can't see through it.

This state of affairs has continued.

a long time.

Finally, a shadow tore through the mist and rushed out, it was the head of the angel clan.

Immediately afterwards, the commander of Kong Mie also rushed out.

They are embarrassed.

Bleeding all over.

There was a blood hole in the body of the commander Kong Mie, and four of the wings of the angel clan master were broken.

Their breath has decayed.

What about Evan?

After waiting for a while, Ye Fan didn't appear, which made the life on this side of the earth change.

Could it be that...

Ye Fan has fallen!

"Impossible." On the Sunshine Big Mac, the members of Tianzun Hall did not believe the result.

"Xiao Qi, hurry up and calculate."

Fang Rui immediately turned on the brain, and in the crazy calculation, Xia Tongzi also joined in and performed a big deduction technique.

However, nothing can be calculated.

Everything is weird.

In the extraterritorial starry sky, the Angel Patriarch and the Commander Kong Mie were also in shock. At the last moment, Ye Fan didn't know what to use, causing huge trauma to them.

If they hadn't tried their best, they would have been beheaded.

It's really dangerous.

They also didn't know if Ye Fan had fallen, so they didn't dare to act rashly.

They landed on the battleship and began to repair their injuries with all their might.

And in the center of your explosion.

Ye Fan was covered in cracks and was dying of serious injuries, but he still persevered.

At the last moment, the Tianbao jade hairpin and the evil dagger were dispatched, which saved his breath.

Otherwise, it may really fall.

Ye Fan was still pounding, and the big golden core between the eyebrows madly knocked on the door of the Taoist Palace, but the strength was much weaker than before.

The impact that was so powerful before could not be opened, and now it is so weak that it is even more difficult to open.

Ye Fan was a little disappointed.

It still failed in the end.

He opened the eyes of yin and yang, saw through the falsehood, and found that the battleship of the angel clan master and the empty commander was brewing again, ready for your next attack.

Once again, Ye Fan is sure to die,

"Evan."

at this time.

The dry scorpion appeared in this area and found Ye Fan. She found it with Chidi's fire spirit.

As the daughter of the Red Emperor, she is extremely sensitive to fire energy.

"Get out first."

The scorpion grabbed Ye Fan, wrapped in flames, turned into a streamer and rushed into the world channel.

And this was also discovered by the Sad Commander and the Angel Patriarch.

"kill!"

"kill!"

Both sides spoke in unison.

The two warlords once again broke out with Xeon's attack, killing them towards the world passage.

too fast.

Droughts can't escape.

The world channel trembled wildly, and if it wasn't for the suppression of the Heaven Monument, it would have collapsed long ago.

"hateful."

Seeing the rapidly approaching energy beam, the dry scorpion's face was ugly, but there was no way to escape.

The queen and other strong men join forces.

However, their attack was insignificant in front of the energy beams emitted by the two battleships.

"Ye Fan, open the gate of heaven."

shouted the drought.

The angel clan leader snorted coldly: "Idiot talking about a dream, bind me!"

The light shone, and for some reason, Ye Fan felt a little dull and a hindrance.

It was this little time of obstruction that put Ye Fan and Han Yan into a life-and-death crisis.

When life and death were at stake, a portal appeared in front of the two of them. They rushed into the portal, disappeared into the passage, and reappeared within the earth.

Who is taking action?

Ye Fan looked at the gradually dissipating portal, his breath was very familiar, and suddenly he thought, it was Brahma.

"Master Brahmin."

Ye Fan blurted out.

He was definitely making a move. This big guy disappeared after he handed over the map of the emperor's mausoleum to him, and has never appeared.

Now it's out.

But.

Not yet.

Although the Brahmins led Ye Fan and the scorpion into the earth, the two energy beams did not disappear, and they were killed fiercely.

Once they enter the earth and fall, then the 300 million soldiers will probably be killed or injured, and thousands of miles around will be razed to the ground, and the entire earth will have a super earthquake, causing a catastrophe that destroys the sky and destroys the earth.

But Ye Fan's dry scorpion no longer has the strength to fight.

"Shh!"

The sky cracked open, and an axe appeared. It was the Heaven-Opening Axe, and it was the Corpse Emperor.

He's out.

The opening axe slashed fiercely.

In an instant, an energy beam was split, and the ashes disappeared, and there was another energy beam in the doze.

After the Kaitian Axe hit a shot, the light dimmed, and it seemed that there was no more power to fight.

What's next?

Ye Fan guessed that the Brahmin Lord would take action.

as predicted.

The sky and the earth changed, and a fist shattered the sky, smashed into the passage, and bombarded with the energy beam.

This fist light is very strange. After colliding with the energy beam, there is no big explosion, but the energy beam is rapidly disintegrating.

The Angel Clan Master's eyes narrowed: "Great Decomposition Technique!"

Eventually, that energy beam is disintegrated and vanishes into nothingness.

solved.

But no one was happy.

Because it can be seen from the opening of the axe, the Corpse Emperor can no longer shoot; the Brahmin Lord may be the same.

What about next time?

Obviously, the battleship still has energy to attack, and the Angel Patriarch and the Air Commander still have combat power.

Fortunately, Commander Kong Mie and the Angel Clan Master did not continue to order the attack.

They need to repair the injury as soon as possible.

Before that, a little rectification.

The meaning of the situation eased.

Ye Fan immediately opened the gate of heaven and entered it. He grabbed a lot of resources and called Yu Qian'er and his second sister Su Muyu.

Yu Qian'er's medical skills became more and more sophisticated, and Su Muyu's energy began to show.

Fire phoenix bloodline, immortal body, possessing the innate supernatural power of Nirvana rebirth.

You can help him.

"Heaven and Earth Oven."

Ye Fan was in the Wuxu Kunding, and then turned on the heaven and earth oven, frantically polishing his injuries.

During this period, he did not stop and kept pounding the gate of the Taoist Palace.

outside world.

Many powerhouses are still on alert, and 300 million soldiers are on guard, not daring to relax their vigilance.

In fact.

There is nothing wrong with their vigilance. If Commander Kong Mie and the Angel Clan Master launch an attack, they will not be able to stop them, so they can only say psychological comfort.

temple.

That is, the hall below the world passage, the hall where the strong people of all ethnic groups live.

In the conference hall, everyone expressed their opinions and sought ways to break the situation.

"Perhaps there is a way to break the situation." At this time, a clan leader said.

"What way?"

"The Mausoleum of the First Emperor."

The three words shocked the strong present.

The patriarch said: "The opening of the First Emperor's Mausoleum may be able to find a way to fight against the angel patriarch and the commander Kong Mie."

This suggestion received immediate support.

The queen nodded: "What you said is indeed reasonable, but it is not easy to start the imperial mausoleum, I don't know if it will be too late."

The Emperor and Asura said, "No matter what, we have to give it a try. This is the only way now."

Han Yan said: "Then you can go to the southern border, I will stay here, Ye Fan gave me the Conferred God Platform, and I will seal the world passage, which can last for a while."

Everyone act now.

The drought seals the passage of the world, obscuring everything, and the situation inside cannot be seen from outside the domain.

The queen immediately rushed to the southern border.

At this moment.

The southern border is very lively, and there are also many living beings. Because the second level of the First Emperor's Mausoleum was broken, and now the third level is hit, it is one step closer to the opening of the First Emperor's Mausoleum.

this day.

The queen and other powerful men are coming.

The monks in the southern border were shocked.

Then the queen and the others joined forces and quickly broke through the third level, followed by the fourth level, and then the fifth level.

"Not right."

"These levels shouldn't be so easy to break through, and, have you noticed the presence of life?"

"Indeed, it seems familiar."

"Wizard Lord!"

The queen blurted out.

The other powerhouses suddenly realized that it was indeed the breath of the witch master, and there must be the Buddha Lord, the Emperor Alliance Leader, and Jiang Wudao.

They disappeared these days, it turns out that you are here, quietly going to open the Mausoleum of the First Emperor.

good guy.

They deceived everyone.

"Let's break through quickly, don't let the witch masters take the lead."

"Strength."

Everyone is very motivated.

And at the eighth level ahead, the witch master also sensed something.

"what happened?"

"Why is the speed of passing through the level so fast, I will be approaching us quickly."

"What!" The expressions of Lord Buddha, Jiang Wudao, and the leader of the Alliance changed.

The witch master said: "It seems that we have to hurry up, let's all exert our full strength, don't be careful."

They had been careful before.

The Buddha Lord and the Emperor Alliance Leader felt that the Witch Lord would not share the treasures and fortunes of the First Emperor's Mausoleum with them, so they kept their hands secretly, and they united the front.

The witch master is also well aware of it, and is wary of them.

Jiang Wudao also has calculations.

The treasures and fortunes of the First Emperor's Mausoleum are absolutely heaven-defying, who doesn't want to take it all alone.

To know.

The first emperor is called Zulong.

rumor.

The first emperor is the rebirth of a ray of soul of the first ancestor of the dragon clan. He established a unified empire in that era of the end of the law and created great achievements. He is an emperor through the ages.

What level did the first emperor reach?

Nobody knows.

According to historical records, in 210 BC, during his fifth parade, Shi Huang suffered from epilepsy due to overwork. When he fell ill, his head slammed into the bronze ice mirror used to cool off the heat in the car, causing a brain injury. Although the imperial doctor tried his best to rescue him, he eventually passed away due to medical constraints.

This is just an explanation for ordinary people.

The dignified ancestral dragon, unfathomable, how could this disease, how could it be possible to fall to death.

So for the cultivation world, the First Emperor is a mystery.

And this mystery is hidden in the Mausoleum of the First Emperor.

"Go all out,"

The witch master reminded again, the Buddha Lord and the Emperor Alliance Leader nodded, and the four of them screamed, finally blasting the eighth level.

But there are still checkpoints ahead.

Jiang Wudao gritted his teeth: "How many levels are there, it's endless!"

The witch master said: "Nine poles, this should be the last hurdle. After breaking through, you should be able to reach the entrance of the First Emperor's Mausoleum."

Jiang Wudao's eyes bloomed, and he said impatiently, "Let's start quickly, don't waste time."

Chapter 1192: Open the Mausoleum of the First Emperor

The four master witches controlled the Haotian Mirror with all their strength, and they moved forward little by little. The pressure of this ninth level was too strong. If it wasn't for the Haotian Mirror, they would have been suppressed and died.

This is also due to the erosion of the years, which leads to the weakening of power.

Weakened so much can kill the monks in the Taoist palace, so when the Mausoleum of the First Emperor was just built, how powerful these levels were.

This further shows the strength of the first emperor.

It shows that the first emperor did not die so easily.

All the secrets lie ahead.

At the same time, the Queen and the others have come to the eighth level. They are many and powerful, and the Queen used the luck of the summer to chase after them.

"The breath is more intense. It seems that the witch master is in front, and the ninth level should be the last one."

"Don't worry, let's let the witch master and the others break through the ninth level, so that we will have less obstacles to rush through." The emperor smiled.

Jinpeng Huang said: "Yes, let the witch master open the way for us. After the nine levels are cleared, it is the Mausoleum of the First Emperor. It is not so easy to get good luck, so don't worry too much."

The queen said: "I hope the witch master will break through as soon as possible, the situation outside is very tense."

three days later.

One after another vibration came, and the queen said: "It seems that the witch master has broken through."

The emperor said: "Let's do it too."

Rumble.

Everyone worked together, and it didn't take long for them to reach the ninth level, and suddenly felt the terrifying pressure.

"Kowloon Jade Seal."

The queen threw out the jade seal, pulling her luck and blocking the repressive force.

at the same time.

The four witch masters finally came to the Mausoleum of the First Emperor, and in front of them was a huge portal.

This portal is as high as 100 zhang, towering majestically, like the ancient demon god, immortal.

The so-called Mausoleum of the First Emperor is like a giant city.

Lord Buddha said: "Open the door, and quickly step into the mausoleum to search for good fortune."

The witch master said: "It's not easy to open the door, I'll try it first, I hope there won't be any disasters."

To be honest, the four of them were very nervous.

The Mausoleum of the First Emperor may have a lot of arrangements, so you must be very careful, and you may be planted here if you are not careful.

wow.

The Haotian Mirror shines brightly, reflecting the sky and the earth incomparably bright.

However, the divine light bombarded the portal, and the portal did not move at all, which made the four witch masters very uncomfortable.

Rumble.

Jiang Wudao revives the Nine Yang Divine Body, and the nine seas of bitterness pour out their power and madly push the portal.

Still not working.

The Buddha Lord and the Emperor Alliance Leader also used some means, but all of them were ineffective.

trouble.

The witch master's eyes flickered, looking behind him, maybe those people will catch up soon.

Can't wait.

You have to take the lead.

"Shh!"

Suddenly, the witch master spoke.

The icy voice made the Lord Buddha and the others terrified, and they became vigilant.

Jiang Wudao asked, "Master, what are you doing?"

The sorcerer had no words.

He reached out into the Haotian Mirror and grabbed an arm bone in the internal space.

As soon as this arm bone appeared, it gave people a sense of awe.

They want to pay homage to the Lord Buddha.

What arm bone is this?

What kind of arm bones exist?

The witch master said: "This is the arm bone of the invincible that I found in the depths of Taihuangtian."

what!

The invincible is the Holy King.

What is the Holy King?

The king of saints.

In addition to the existence of the emperor, the holy king is the strongest, so it is known as the invincible.

The arm bone of the invincible, how powerful it must be.

It's just that the endless years have passed, and the arm bone must have lost its power, but it is very hard.

Can this arm bone open the portal?

The witch master said: "Haotian Mirror has developed an ability that can briefly revive a trace of the power of a thing. Later, you all help me, and restore the invincible's arm bone with a trace of divine power, and it will definitely be able to open the door. "

The Buddha Lord Jiang Wudao and the Emperor Alliance Leader were shocked.

The Haotian Mirror actually has such abilities, the witch master is hiding so deeply.

The resuscitation has annihilated a trace of the power of things, which is too scary.

This is the power of time.

It is worthy of being the mirror hanging on the Lingxiao Palace, the residence of the Great Emperor, and it is worthy of being a mirror that monitors the heavens. It has both time and space attributes, which is simply outrageous.

The Lord Buddha and the others are very envious and jealous. The witch Lord actually obtained an imperial object like the Haotian Mirror, and even refined it into the body, which is really terrifying.

"let's start."

The sorcerer gave an order.

The three Buddha Lords immediately injected energy into the Haotian Mirror, only to see that the Haotian Mirror was shining brightly, and the mysterious power washed out to cover the arm bones of the invincible.

Rumble.

In an instant.

The originally dead arm bones trembled, as if they had come to life, and a palpating power filled the air.

now.

At the ninth level, the Queen and the others also sensed this power, and the hair stood on end. They thought they had set off from a certain agency, and they were about to usher in a blow, so they quickly retreated.

This power is really captivating.

The four witch masters knelt down directly, unable to bear the pressure, you must know that this is just the arm bone of the invincible, just a trace of breath on the arm bone.

"boom."

The invincible's arm bone burst out and bombarded the portal. In an instant, the portal appeared cracked and began to crack.

good!

very good!

The sorcerer is overjoyed.

However, the arm bones of the Invincible were also shattered, turning into powder and dissipating.

The witch was very distressed.

But it's worth it.

As long as you can enter the Mausoleum of the First Emperor, you can get more fortunes and treasures, and there are more treasures with stronger arm bones than the invincible. Losing arm bones is nothing.

Click!

Click!

One after another, the entire portal Leon spread like a spider web, more and more and bigger.

Eventually the portal was overwhelmed.

"boom!"

exploded.

At the same time, surging energy swept in.

The witch master exclaimed: "No, this is a tide of energy, too strong, it will wipe out the ashes washed away by the flesh."

As expected of the Mausoleum of the First Emperor, it encountered catastrophe as soon as it was opened.

This energy tide is simply too terrifying, it seems to be a vast ocean, turbulent everywhere, rushing like a tsunami.

The sorcerer hurriedly urged the Haotian Mirror to block it.

Hard to support.

The tide of energy flowed unhindered and rushed to the ninth level. The Queen and the others encountered trouble and also supported them hard.

Continue flushing.

The eighth level, the seventh level...

The monks in the back were miserable.

They didn't have enough strength, and they were directly washed away by ashes, seriously injured and dying.

finally.

The energy tide rushed out and rose into the sky, covering the entire southern border, forming a spectacular and magnificent scene.

In the energy tide, a magnificent city faintly appeared, which was the phantom of the First Emperor's Mausoleum.

This vision lasted for a long time.

It can be said that the whole world has seen it.

Extraterrestrial starry sky.

The Angel Patriarch and Commander Kong Mie also noticed something, but they couldn't see through it, they were communicating.

"Can't wait, who knows if there will be other changes, immediately blast open the seal and go in."

"good."

The angel clan master and the empty commander reached an agreement.

Battleship brewing.

"boom!"

After a while, the energy beam bombarded down, the smashed seal cracked, and the Conferred God Stage trembled.

A huge tremor disturbed the scorpion.

She looked at the world passage, her expression changed, and the seal could not last long.

"It seems that I can only take out that."

Drought made a decision.

She left the temple, not knowing where to go; returned a day later with a huge head.

The head hill is as huge as it is, with a strange shape, no flesh and blood, and has long been decayed, only bones.

It can be guessed that the skeleton of the huge beast.

The scorpion took out a stone, and the stone was very strange, shining with colorful brilliance, crystal clear, and it seemed very unreal.

"Time spar."

"go with!"

The dry scorpion threw the spar in his hand and set it in the eyebrows of the head.

Immediately.

The time spar bloomed with brilliance, and the mysterious power enveloped the head, only to see the head tremble.

Seems to be resurrected.

"boom."

A figure suddenly appeared on the head, which was extremely huge, covering thousands of feet in length and breadth, covering the sky and the sun.

The phantom roared.

It shook the heavens and the earth.

All three hundred million soldiers knelt down, trembling.

Han Yan looked at the phantom of the huge beast, with a dazed expression and some nostalgia. This was the guardian beast of the Chidi Temple in ancient times.

Years of vicissitudes, the beast has long since fallen.

Now, she uses the only time spar to reverse the flow of time and return to the ancient times, showing a trace of the power of the divine beast.

This trace of power is strong enough.

"boom!"

Just then, the seal was broken.

The Angel Patriarch and Commander Kong Mie rushed in, and they grabbed the Conferred God Platform and the Heaven Monument because they saw that it was a treasure.

The treasures of the Fengtian clan and the stele of the ancient heaven are all rare treasures.

But.

The Angel Patriarch and the Commander Kong Mie were stunned because they saw the huge beast.

what is that?

too frightening.

The breath terrified them.

"Roar."

The ancient beast roared.

The roar was earth-shattering, and the Commander Kong Mie and the Angel Clan Master flew out.

next moment.

The divine beast has reached the outer starry sky.

"not good."

The face of the Angel Patriarch and the Commander Kong Mie changed greatly.

The divine beast slapped it down, directly breaking a battleship.

On the battleship, countless creatures died of non-rice cakes.

"No!"

Master Kong Mie's heart is dripping blood.

That's his battleship.

Those were his subordinates who had followed him for many years, and they were just shot to death and vanished into ashes.

The warships suffered massive trauma.

Once the battleship is destroyed, the empty commander cannot leave.

And the other side.

The Angel Patriarch hurriedly ordered the battleship to drive away, but before it was too late, he stretched out his hand and punched it.

The stern of the battleship exploded.

Guiya Zun was so frightened that he took the opportunity to control the battleship to fly wildly, and disappeared into the starry sky in the blink of an eye.

"brute."

The head of the angel clan and the commander of Kong Mie were split.

But they didn't have the courage to fight.

They are also fleeing.

"Roar."

The ancient mythical beast roared and roared, and the moon that was closest to the earth was shaking, and it was shaky.

Seems terrifying.

However, the phantom of the divine beast dimmed, and then exploded with a bang, leaving no scum.

"Ugh."

Drought lamented.

She used the Fengshen Platform again to complete the seal; the Angel Patriarch and the Commander Kong Mie stopped when the beast disappeared, but they were too surprised to continue attacking.

Who knows if there will be another change!

Chapter 1193: Ye Fan's recovery

Han Yan sacrificed the time spar and the only wreckage left by the beast of the Chidi Heavenly Palace, blocking the attack of the angel clan master and the empty commander, making them fearful and dare not act rashly.

It has to be said that the situation has indeed eased a lot.

The Angel Patriarch and the Commander Kong Mie suffered heavy losses. The key was the damage to the battleship, which was a big deal.

Traveling in the starry sky, if there is no battleship, it is really impossible.

They are only in the realm of the Taoist palace, and cannot travel the starry sky with their own strength.

Repairing the battleship requires energy, but the bombardment just now has consumed a lot of energy.

Although there are countless and endless energy sources in the vast starry sky, in the solar system, in the Milky Way Park, the energy sources are very depleted.

The reason is simple, the earth is the ancestral star.

The progenitor absorbed all the energy of the Milky Way, and even the energy of nearby galaxies.

This is because the ancestral star has fallen, and in order to keep the ancestral star immortal, it absorbs the energy of the starry sky independently.

The result is that there is not much energy in the vast starry sky in this area, and naturally it cannot provide supplies to the warships.

trouble.

It is indeed a bit troublesome for the Angel Clan Master and the empty commander.

All they can do now is to recover from the injury as soon as possible, which is the top priority.

But.

They didn't know that the Ghost Fang had escaped; and they went directly to the \*\*\*\* world through the wormhole.

Now Guiya Zun is not so ambitious anymore. Zu Xing is not something he can swallow in the early stage of a Taoist palace. He must report it to the ghost master and ask the ghost master to lead the soldiers to kill.

At that time, you can kill the Angel Patriarch and the Commander Kong Mie, and even if you can't take Zu Xing, you can take the Heaven Realm.

"Boom."

Somewhere in the vast universe, there is darkness here, lingering with endless terror.

Suddenly a wormhole appeared.

The black battleship rushed out, and Ghost Fang Zun quickly descended to the \*\*\*\* world.

As a commander of the ghost clan, his status is still very high, and he came directly to the palace.

"Gui Ya has something to ask for, please allow the King of God."

"You have something to ask for..."

Ghost Yazun stood outside the palace, shouting loudly.

Soon.

A tyrannical breath descended. It was a high-ranking person in the middle stage of the Taoist Palace. He looked at the ghost teeth and said in surprise: "You actually broke through?"

"General Manager, I have something to ask to see the King of God. Quickly report it to me. It is a major event related to the soaring sky of our ghost clan and the \*\*\*\* world."

In front of this venerable master in the middle stage of the Taoist palace is the chief of the palace, who is solely responsible for all the internal affairs of the phantom bow.

Among the huge ghost clan, only the ghost master is the peak of the Taoist palace, followed by the strongest inner chief, and the middle of the Taoist palace.

Intermediate fault.

This is because of lack of resources.

The changes in the cultivation environment in the universe have made cultivation very difficult.

To know.

The strength of the ghost clan in the ancient times was enough to be comparable to the ten most powerful clans.

The top ten most powerful races are only some rankings of Zuxing, and there are many races that are not weak, but are not included in them.

In fact.

Today's ghost clan is stronger than the angel clan.

Because the angels, in addition to the angel clan master, have reached the peak of the Taoist palace, and there is only one ancestor of the early Taoist palace, who has been practicing in seclusion.

Originally, the first commander could be promoted to Taoist realm, but unfortunately, he was miserable.

Ghost Ya became a monk in the Taoist palace, and the chief manager changed his attitude and said, "Come with me."

The two... No, the two ghosts drove straight in.

to the harem.

You can hear a lot of extravagant voices here, from the palace, it is obvious that the ghost master is going through the clouds and rain with his concubine.

"God King, Guiya has something important to ask for, saying that it is related to the prosperity of our clan."

Large header opening.

After a while, a tall and thin young man came out. This is the ghost master. It looks like a few young men in their twenties, with very handsome faces.

The form is no different from that of a human being.

Some ghosts take the path of the incorporeal body, and some take the path of the real body, and the ghost master is the latter.

His body is very strong.

It exudes a soul-stirring breath.

It is unimaginable that this tall, thin body contains terrifying power.

"Ghost teeth, have you broken through?"

"God King, I broke through by luck, but it doesn't matter, the important thing is that the angels are finished."

"What's the meaning?"

"It's such a \*\*\*\* king. I was wandering in the starry sky and found the army of angels, so I followed him all the way. Guess what I found?"

Ghost Fang pretended to be shocked.

"The angels actually found the ancestors."

"what!"

The ghost master and the general manager were alarmed.

Guiya said: "It is absolutely true, it is really Zuxing, the angels have found it, and they want to capture it. However, Zuxing has strong people, beheading a large number of the angels' commanders. Later, the remaining strength of the angels left Zuxing. Xing, I want to go back to heaven to ask for help, but I was intercepted and killed on the way, all of them were destroyed, and they were all wiped out. Angels are abominable IE, their vitality has been greatly damaged, and now they are no match for our ghosts."

"Then, the Angel Clan Master personally took action and descended on Zu Xing. At the same time, he also brought a commander from the Starry Sky Tour Clan, and the peak powerhouses of the two avenues of palaces attacked Zu Xing."

"What was the result?" the ghost master asked expectantly.

"Not bad, they were beaten badly, and Zuxing's creatures still have two hits. But the upper limit is not high. Now that both the angel clan master and the empty commander are injured, and the battleship is damaged, it is a good time for us to take action. "

"God King, please lead your troops to take action immediately, kill the angel clan master, take down the heaven world, take down the ancestor star, our ghost clan will soar into the sky."

"Is this true?"

"God King, how can I deceive you, if I deceive you, my body will die and my soul will be scattered."

The Ghost Fang swears.

The ghost master laughed: "Hahahaha, good, good, God is pitiful, my family can finally rise to the top. After a little bit of heaven, we must win the ancestors."

"Who else knows this secret?"

"No, but I guess that the Starry Sky Touring Clan's empty commander will pass the news to the Starry Sky Touring Clan headquarters, and the Starry Sky Touring Clan will definitely have reinforcements to kill them, and we must leave as soon as possible."

The ghost master immediately said: "Call 30 million soldiers immediately, and the two of you will go out with me."

"Follow the order."

An hour later.

Three giant warships dispatched, left the \*\*\*\* world and entered the wormhole.

...

At this moment.

In the heavenly world, Ye Fan was still attacking with all his strength, and the effect was obvious. He could feel the loosening of the door of the Taoist Palace.

As long as the time is enough, it will definitely break open.

But the point is, is there really enough time?

Ye Fan was very anxious.

He didn't know what was going on outside.

"Work harder."

Ye Fan prayed in his heart.

He was looking for other ways to help, and finally put his spearhead on the Tianbao jade hairpin and the evil dagger.

If these two clans can help him, they will definitely speed up the breakthrough.

But the two clans remained motionless and fell into silence, and he was unable to control them.

Ye Fan manipulated the power of this bloodline and carefully tested the two ancestors, trying to wake them up.

But there was no movement.

But Ye Fan didn't give up, he kept trying and used his spiritual power to communicate.

Finally, the emperor pays off.

Finally got some responses.

It wasn't a Tianbao jade hairpin, it was an evil dagger, and the dagger trembled, sending a danger signal.

Make Ye Fan terrified.

It seems to be telling Ye Fan that you can help you, but the consequences are at your own risk.

Ye Fan was lost in thought.

This evil dagger is a supreme weapon, this is what Xie Yue Ancient Emperor said before his death.

What is the Supreme Device?

It is the magic weapon of the Black Prison Supreme.

Comparable to imperial soldiers.

In fact, Ye Fan has always had headaches and fears. He always felt that the dagger and even the hosta were inside his body, which was a ticking time bomb. One day, it would bring him an indelible disaster, or even obliterate him.

Whether it's a dagger or a hosta, once the power erupts, the current Ye Fan can't stop it at all.

On Earth, Ye Fan might be the strongest.

However, the entire cultivation path is too long. On this long cultivation journey, Ye Fan can be said to be only a beginner, and is really too weak.

Ye Fan stared at the evil dagger, with a faint evil aura lingering on it.

It seems that the world of bitter sea also has such a breath.

When the Sea of Bitterness was opened, it was also the help of the evil dagger, which pierced the impregnable barrier, thus causing the evil aura to merge into the origin of the Sea of Bitterness and wrap around the fragments of the World Tree.

Ye Fan can now see the evil aura circulating in the fragments of the World Tree at the origin of the Sea of Bitterness.

Think before and after.

Ye Fan decided to take a risk.

If the evil dagger really brings disaster to him, then he can't escape, because his world of bitter sea already has an evil breath.

Don't do it again and again.

Give it a try.

The top priority is to break through as soon as possible, so as to turn the tide.

The power of Ye Fan's bloodline affects the evil dagger, the dagger is shaking, it seems to be leaving, and goes to the eyebrows to open the door of the Taoist palace.

But at this moment, the Tianbao jade hairpin also moved, suppressing the dagger, and it seemed that the dagger was not allowed to do so.

"Hosta, it's fine if you don't help, why stop it. This is willing, even if there is any disaster in the future, I, Ye Fan, will bear it."

"You loosen up."

Ye Fan drank deeply.

The hosta's light flickered, and then fell into silence, really no longer stopping the evil dagger.

Swish!

I only saw that the dagger seemed to be extremely excited, and rushed to the eyebrows like lightning, directly piercing the gate of the Taoist Palace.

Click!

The door of the Taoist Palace burst open.

Rumble.

Immediately, Ye Fan was fluttering like a fairy, and it seemed that he was suddenly enlightened. At this moment, his mental power had tripled, his five senses were extremely sensitive, and he knew everything about the changes in the world.

This feeling is really wonderful.

"Boom."

Ye Fan's breath was rising steadily.

It turned into a pillar of God and rose into the sky.

All the creatures in the heavenly world were shocked. All the members of the Tianzun Temple rushed over and were pleasantly surprised.

"Looks like Xiaofan has succeeded, he's good, he's worthy of being my good brother, he's a cow."

"What a strong breath."

"Xiaofan will definitely be able to kill the Angel Patriarch and Commander Kong Mie this time."

"We can always trust Xiaofan, this kid can always create miracles."

Everyone was flushed and excited.

The top powerhouse of the Taoist Palace finally appeared in the Tianzun Hall.

Such a strong man can be said to be a strong man in today's universe.

Ye Fan can be alone.

boom!

boom!

boom!

The breath skyrocketed one after another, getting stronger and stronger, Ye Fan opened his eyes and screamed.

The whole heavenly world is shaking.

at the same time.

A phantom shadow erupted behind Ye Fan, which was a vision, showing that Ye Fan's hegemony body re-entered and upgraded.

"Twenty-sixth grade!"

"Twenty-seventh grade!"

"Twenty-eighth!"

...

Chapter 1194: Invincible

"Twenty-ninth grade!"

Finally, it stopped.

This is already the current limit. Ye Fan's qi and blood cover thousands of miles, like an invincible \*\*\*\* of war, which makes people want to worship.

The believers in the heavenly world were extremely devout, and they all paid their respects; even the stubborn people who didn't believe in Ye Fan before, all surrendered at this moment.

At this moment, the entire heavenly world is finally unified.

The power of infinite faith spread and blessed Ye Fan, making Ye Fan unprecedentedly powerful.

gradually.

All the breaths converged, and the power of faith poured into Ye Fan's body all the time, and was stored by Ye Fan in the world of bitterness.

He looked inwardly at his own body.

Very powerful and perfect.

The 29th-level Celestial Hegemonic Body was really beyond Ye Fan's expectations. He didn't expect that he would have such benefits when he broke through to the Taoist palace realm.

only.

Ye Fan found that in the palace between the eyebrows, evil daggers were entrenched.

That's right.

Before, he and the jade hairpin were in the origin of the bloodline, but now the dagger occupies the Taoist palace.

This made Ye Fan very worried.

Dao Palace is broken, the damage is simply too great, it may directly cause the sea of spiritual consciousness to explode, instantly die, and there is no possibility of survival.

Does it mean that now his life is controlled by the evil dagger?

Once the dagger dies, he can directly shatter the Dao Palace!

Is this the price he needs to pay!

Ye Fan sighed in his heart.

Tianbao jade hairpin stopped him and understood.

But the matter has come to this point, there is no way to change it, and he can't force the dagger out of the Taoist palace.

If it is forced out, for fear that the dagger will riot and shatter the Taoist Palace, the gain will outweigh the loss.

Ye Fan thinks on the optimistic side, maybe the dagger will be refined by him and become a part of him, then it will be fine.

Although the dagger is a supreme weapon, it has lost its former glory, and it is not certain who controls who.

In the Taoist Palace, in addition to the dagger, there is also a huge golden core that floats under the dagger.

The Taoist realm can also condense the seeds of supernatural powers, and then integrate into the golden elixir to enhance the power of the golden elixir, so that the next realm of condensing Nascent Soul will be much stronger.

"call."

After checking everything in his body, Ye Fan let out a long breath and landed.

"Xiaofan."

"Boss."

The crowd came up.

Ye Fan said with a smile: "Live up to expectations, I succeeded in breaking through. Now, I can kill the Angel Patriarch and the Commander Kong Mie just with my physical body."

hiss.

Everyone sucked in a breath of cold air.

The single-grade physical body is so powerful, that Ye Fan's total combat power surpasses the peak of the Taoist palace.

Isn't it possible to fight against the legendary Nascent Soul boss?

very scary!

Really too evil.

The higher the realm, the more difficult it is to fight by leaps and bounds. Ye Fan is better. Just after breaking through to the early stage of the Taoist Palace, he can kill the peak monks of the Taoist Palace, which makes no sense.

People are more popular than dead people.

Ye Fan glanced at him and asked, "What about the queen and the others?"

Tang Yingdao: "The Queen and the others went to the First Emperor's Mausoleum to open the First Emperor's Mausoleum. They felt that there must be a way to deal with the Angel Patriarch and the Commander Kong Mie in the First Emperor's Mausoleum. "

Ye Fan nodded: "Indeed, the First Emperor's Mausoleum is a way."

Min Dong said: "Boss, now your strength is enough to kill the Angel Patriarch and the Commander Kong Mie, then do it as soon as possible. Then go to the First Emperor's Mausoleum, and you can't let others take the fortune."

"Hahaha, let's go out and see."

Ye Fan is unmatched in self-confidence.

Open the gates of heaven, and everyone appears before the temple.

Drought appeared immediately.

Feeling Ye Fan's restrained and tyrannical breath, she was shocked and said with a smile: "You have succeeded. It seems that not only has your realm broken through, but your physical body has also improved a lot."

Ye Fan said: "Indeed, now I can kill those two young people with a pair of iron fists."

Hearing this, Han Yu realized that he was still speaking conservatively.

"Twenty-ninth-level Celestial Hegemonic Body?"

"good."

"That's good, let's fight quickly."

Ye Fan looked at the world passage, and with a big move, Fengshentai returned to the world of bitterness in the body.

A flick of the finger.

The seal is broken.

He saw the outer starry sky.

He found that the battleships of the Angel Clan Master and Commander Kong Mie were damaged, and asked, "What happened, they were attacked?"

The dry scorpion said the passage through sound transmission.

"The time spar, a good thing, can revive the glory of ancient things, it's really terrible."

Ye Fan silently used his right index finger. He still remembered that he had fused a Great Emperor's phalanx.

Qi Baixian also has a Great Emperor's phalanx.

But.

Over the years, it has not brought him much benefit.

Now that the dry scorpion is talking about the time spar, Ye Fan is thinking, can the time spar be used to restore the power of the emperor's phalanx?

Oh my God, how terrifying.

Not to mention a phalanx, even a single piece of hair has the power of a stalwart, which can kill countless living beings.

Once the emperor's phalanx recovered, Ye Fan felt that he could pierce a planet with one finger.

Don't talk about this, it's too far.

Ye Fan shook his head and restrained his thoughts. He stepped out and came to the outer starry sky.

"come out!"

Two words, like Jiutian Xuanlei.

The bombed battleship shook.

The Angel Patriarch and the Commander Kong Mie were shocked and rushed out, staring at their eyes, their pupils shrunk.

"You, broke through!"

This is bad news.

Without a breakthrough before, Ye Fan was able to fight against them. Now that they have been promoted to the Dao Palace realm, their combat power has turned upside down, and their injuries have not recovered yet.

Ye Fan said coldly, "I'll take you on your way."

"Insanity."

The empty commander shouted angrily.

"Ye Fan, even if you make a breakthrough and your strength has soared, after all, it is only the early stage of the Taoist palace, you think you can deal with the peaks of our two Taoist palaces."

"Peak Dao Palace, is it strong?"

"you!"

Master Kong Mie blushed.

The Angel Clan Master said coldly: "Don't talk nonsense, while he has just broken through and is not stable, kill him immediately."

The empty commander nodded.

"Battleship preparations, start-up reserve energy storage, brewing with full force, at all costs."

"Boom."

The two battleships also recovered.

At this moment, Ye Fan is equivalent to facing the peak powerhouses of the four Taoist palaces, but Ye Fan is very calm.

Terribly peaceful.

The calmness made the Angel Patriarch and the Commander Kong Mie a little less confident.

"Pretend to be a ghost."

The head of the angel clan's eyes were splitting, and he shouted: "Kill kill kill, kill kill kill!"

Rumble.

Four lore comes.

"open!"

In an instant, Ye Fan revived the Heavenly Tyrant Body.

Twenty-ninth grade.

How terrible.

The power of qi and blood directly shattered the beams shot by the two battleships.

The Angel Patriarch and the Commander Kong Mie's pupils shrank, and their faces changed greatly; Ye Fan's fists were like a rainbow, and they exploded their lore.

"boom!"

"Boom boom boom..."

Big bang in the sky.

Ye Fan tore open the energy prelude, as if the gods had descended, making the angel clan master and the commander Kong Mie horrified.

"Now do you think I can take you on your way?"

"how is this possible!"

Angel Patriarch is unbelievable.

"Why did your body suddenly soar so much, it's impossible, what kind of monster are you?"

"Leave these words to ask me in the next life."

Ye Fan punched out.

That extreme power made the head of the angel clan numb, feeling that once he was hit, he would definitely be pierced through the flesh.

The empty commander turned around and ran.

He landed on the battleship and shouted, "Quickly evacuate, quick, quick."

"Want to go!"

"Where do you think Zu Xing is, you can come and leave if you want, you have to leave something behind."

"Leave your lives."

With Ye Fan's bloodline magical powers, the yin-yang life-and-death map became even more terrifying and powerful, covering the starry sky.

obscured the battleship.

"burst."

Ye Fan punched the battleship and blasted the defensive formation. Many creatures on the battleship were affected and died.

"Six secret techniques."

"Beast Seal!"

"Hungry Ghost Seal!"

"Hell Seal!"

The three big seals fell down, causing the battleship to be riddled with holes and crashing down to the moon, which is the closest to the earth.

The empty commander was shocked and angry.

The battleship was damaged, and he couldn't escape if he wanted to.

"Angel clan master, let's join forces, be sure to kill this son, don't keep your hands and hide, do your best."

Now the empty commander can only unite with the angel clan master.

The Angel Patriarch also knew the seriousness of the matter.

Both sides started to fight.

Ye Fan saw that they were burning the blood of his life, and sneered: "It's useless, no matter how hard you try, how can you be strong."

"kill!"

In the face of the desperate attack, Ye Fan did not even blink his brows, and he broke through all methods with one force.

Yin Yang Dao Fist.

"boom!"

The Angel Patriarch and Commander Kong Mie were blasted away, their bodies were pierced, and they were seriously injured.

"Come."

Ye Fan performed the grand arrest technique.

The Angel Clan Master fled to the battleship, and Commander Kong Mie also followed.

The angel clan leader said: "Open the wormhole to escape, it will take a little time, you can hold it."

"How can I delay!"

"Sacrifice your battleship, hurry up, don't hesitate, your battleship is severely damaged, and you are destined to be unable to leave."

Master Kong Mie's heart is dripping blood.

But there is no way.

If you want to live, you can only be so brave.

"sorry."

Commander Kong Mie's eyes flickered fiercely, and he grabbed the battleship and threw it at Ye Fan.

"Blast me!"

The huge battleship exploded.

at the same time.

Wormhole opened.

"go!"

The Angel Clan Lord shouted.

The battleship rushed towards the wormhole, and half of it had already entered. However, at this time, a huge handprint appeared in the center of the explosion and grabbed it.

"Stay."

Ye Fan's voice was beyond doubt.

The tail of the battleship was caught, and the main angel of the angel race changed.

"what!"

The commander-in-chief of Kong Mie was attacked and screamed, and then he seemed to explode.

Ye Fan performed the Great Sealing Technique.

Commander Kong Mie was the commander of the Starry Sky Tour Clan. He knew a lot and had great value. It would be a pity to die like this.

That is, when Ye Fan captured Marshal Kongzai, the angel clan master smashed the handprint, and the battleship rushed into the wormhole.

"Avenue Fire Fist."

Ye Fan punched into the wormhole, and then the wormhole collapsed, but the angel clan master escaped.

Ugh.

Ye Fan is a little sorry.

But although the angel clan master escaped, the collapse of the wormhole will definitely bring him a huge blow, and maybe he will die unexpectedly.

His eyes fell on Commander Kong Mie, who had lost his prestige at this moment and trembled: "Ye Fan, spare my life, I am willing to surrender to you."

Ye Fan sneered: "Submit to me, very good, sign a blood contract."

"what!"

Master Kong Mie's eyes widened.

Great blood contract, signing a blood contract, then he is Ye Fan's servant, Ye Fan can kill him with a single thought, and he will always be a humble servant.

"Evan..."

"I knew you didn't want to."

Ye Fan slapped Commander Kong Mie unconscious, and then returned to the world tunnel.

"The mighty national teacher!"

"The mighty national teacher!"

"The mighty national teacher!"

Three hundred million soldiers shouted.

Ye Fan's strength and power made them worship, and all the soldiers were shouting.

Chapter 1195: guess

Ye Fan felt stronger than ever.

The worship of so many soldiers is also a kind of power, no wonder those big men want to rule the power, because it will make themselves stronger.

As the saying goes, the strong stay strong.

When he came to the world of heaven, Ye Fan suppressed the commander Kong Mie under the stage of Fengshen.

For him now, Commander Kong Mie can't make much waves, not to mention that he is still seriously injured.

"Xiaofan, you are really amazing. You have pacified the invasion from outside the territory, and you have accumulated great merit."

"Yeah, the more merits you accumulate, one day you will be recognized by Zu Xing and become Zu Xing Supreme."

Zu Xing Supreme, this is indeed what Ye Fan thought.

But this cannot be forced.

"The extraterritorial invasion is only temporarily pacified, because you will have strong enemies to kill you in the future."

"The angel clan master will definitely not give up if he escapes, and may even leak the coordinates of the ancestor star, and other big world powerhouses will come."

"So you can't slack off."

Everyone's faces tightened. Yes, the angels have suffered heavy losses and must retaliate. It is very likely that the coordinates of the ancestors will be leaked to your other big worlds.

At that time, the alliance and arrival of many powerful enemies in the great world will be even more terrifying.

It is possible that the Yuan Ying boss will come.

"Xiaofan, we have to go to the First Emperor's Mausoleum as soon as possible, seek the treasure of good fortune, and improve our strength as much as possible."

"That's right, Xiaofan, if you can be promoted to the Nascent Soul Realm, then you will be safe. Even in the ancient times, the Nascent Soul Realm cultivator could be regarded as a powerhouse."

"The reason why a cultivator in the Yuan Ying realm is called a big guy is because he has cultivated his primordial spirit. If the primordial spirit is not destroyed, then he will not die."

It is true that the Primordial Spirit of the Primordial Soul cultivator is very powerful, and the legendary soul out of the body is the so-called Primordial Spirit.

As long as the primordial spirit is immortal and the flesh is found within a certain period of time, it can be reborn.

"A vision has already appeared in the southern border, and it is suspected that the Mausoleum of the First Emperor has opened." Tang Ying said.

"Then we have to go."

Ye Fan was also looking forward to and curious.

The Mausoleum of the First Emperor, the mausoleum of the emperor through the ages, this is the last powerful man who opened up the world in the era of the end of the law.

What secrets does his mausoleum hide?

"Xiaofan, Commander Kong Mie's suppression here won't cause trouble."

"It doesn't matter, he can't move. Even if there is a riot, I can sense it immediately and come over and kill him."

Ye Fan thought about it, grabbed a big mountain, cut it into a stone tablet, and engraved a few words on it:

Dare to move, you will die.

The four words gave people a strong murderous aura.

Ye Fan inserted the stone tablet in front of the Conferred God Altar, and once the Commander Kongzai woke up, he would definitely be able to see it.

Does he dare to move?

Everyone marveled at Ye Fan's domineering.

"let's go."

The Sunshine Big Mac started, and the speed was super fast, and it reached the southern border in three hours.

at the same time.

Commander Kong Mie woke up and found that Ye Fan was no longer there. He was about to struggle, but suddenly he saw the stone tablet standing in front of him with four \*\*\*\* characters on it.

"boom!"

These four words contain the true meaning of killing.

Commander Kong Mie was in a trance, his spiritual consciousness was hit hard, injured, and his seven orifices bleed.

"Ye Fan, you are too deceiving!"

When the empty commander was killed.

This stone tablet is the ultimate humiliation to him.

But.....

Commander Kong Mie didn't dare to move, he really didn't dare to move.

"Ye Fan, if I can escape, I will definitely return this shame to you thousands of times, and I will tear you to pieces."

Master Kong Mie's eyes were full of resentment.

Then he closed his eyes, and his body changed, as if he was using some kind of forbidden secret technique.

"Ye Fan, you think you can suppress me with this seal, but I don't know that I have countless means."

"I want to send a message to the headquarters, and let the headquarters send countless strong men to kill them. When the time comes, the Nascent Soul bosses will all be generals. I want to see how you deal with them."

"However, Zu Xing is too far away from the headquarters. I don't know if it can be successfully communicated. It will take time to slow down. Before that, I will be honest, so as not to be killed by Ye Fan."

The empty commander fell silent.

Secretly cast the secret technique of communication, a faint light rushed out of the heavenly world and entered the vast starry sky.

The light of this message is flying in the starry sky, and it is very hidden, but I don't know how long it will take to reach the headquarters of the starry sky.

Southern Xinjiang.

The appearance of the Sunshine Big Mac immediately disturbed all the monks in the outside world.

"Heavenly Palace is here."

"What a terrifying battleship. With this battleship alone, the Hall of Heavenly Venerate is unmatched, and the Mausoleum of the First Emperor will be taken down by the Hall of Heavenly Venerate."

"That's not necessarily the case. Other ethnic groups are not weak when combined."

"Look, there must be a good show."

The monks all dispersed.

These are all weak creatures, they can only watch the fun, because they can't even enter the Tomb of the First Emperor.

On the battleship, Ye Fan's eyes burst into divine light, which is spiritual power. He drove straight in, and soon found the Mausoleum of the First Emperor, which is the huge city.

Ye Fan was shocked.

He is now in the realm of the Taoist Palace, how powerful his spiritual power is, and he can see through the illusion at a glance.

"You are in many dangers in the First Emperor's Mausoleum. For the time being, follow me in the realm of the sea of bitterness, and the rest will wait for news here."

At present, there are also monks in the bitter sea realm of Tianzun Hall, Tang Ying, Nalan Ruo, and Zhong Ling.

Others are mostly detached.

As for swallowing the sky-tailed beast, the star-moon jade rabbit, and the golden beast, they did not stay in the Tianzun Temple, and they were not included.

So the three women followed Ye Fan and left the battleship.

Although the nine levels were broken through, there was still a strong resistance, but this was nothing to other monks, not to Ye Fan.

He moved forward like lightning and arrived in front of the First Emperor's Mausoleum in a short time.

"What a majestic portal."

Looking at the towering gate, the three women were amazed.

Ye Fan frowned and said, "The gate of the First Emperor's Mausoleum is so strong that it was smashed. How could this be done?"

Tang Ying said, "Xiaofan, can you break it?"

Ye Fan squeezed the gravel on the ground. It was very hard. He speculated and shook his head: "It's difficult."

Nalan Ruo said: "It seems that you can't be careless."

"Yeah, you can't underestimate the cultivators in the world." Ye Fan was in good shape, waiting for the battle, cautiously, and walked into the Mausoleum of the First Emperor with his three daughters.

boom.

In an instant, it seemed that he had entered a different world, but when he looked back, he felt that there was nothing.

This strange feeling made Ye Fan vigilant.

Ye Fan spread his spiritual power, but found that he was greatly hindered. In the Mausoleum of the First Emperor, a spiritual power stronger than him could only spread a distance of 300 meters.

This is too restrictive.

"call."

Ye Fan stomped his feet and wanted to soar into the sky, but found that he couldn't; he couldn't do it when he reached a height of twenty meters, as if there was an insurmountable pressure on his head to suppress him.

"boom!"

Ye Fan hit the ground with a punch.

The earth is intact.

The three girls took a deep breath, and Zhong Ling said, "What a sturdy Tomb of the First Emperor."

Ye Fan said: "This further shows that the First Emperor's Mausoleum is not simple. Perhaps the entire mausoleum is an invincible magic weapon. We are all in the magic weapon."

This guess is bold, but not impossible.

"Be careful, you follow me."

Ye Fan found that the huge Shihuang Mausoleum was quiet, and many powerful people such as the queen and the \*\*\*\* emperor must have come in, but he could not hear any news.

The mausoleum is simply a city.

The building is antique.

Ye Fan said: "This so-called Mausoleum of the First Emperor is not the capital, right?"

"what!"

"You mean, this mausoleum is Xianyang."

"Yes, look at these buildings, there are actually inns, pawnshops, and shops. What are the emperor's tombs for? I suspect that this is Xianyang, and it is very simple to verify my conjecture. That is to move forward. If you can see The imperial palace, it means that this is the capital Xianyang."

Ye Fan paused and said, "It's just that at present, I'm afraid I can't walk in the entire mausoleum. Because I can only wander around the outside of the mausoleum, I don't have enough strength to enter the center."

Zhong Ling said: "Xiaofan, don't care if this is the capital Xianyang, let's hurry up and search for the magic weapon of good fortune."

Ye Fan said with a smile: "If it is really the capital of Xianyang, then all the good fortune and treasures should be in the central palace, and there are no good fortune treasures in other areas. Of course, it is not ruled out that they are buried. Look for it, the right should be long knowledge."

Walking on the street, it seems that you can feel the desolate atmosphere, which is the trace of the years.

Vaguely, Ye Fan heard something that went straight to the depths of his soul.

Immediately after.

The dark wind roared, and the situation changed.

"Be careful."

Ye Fan used a great body protection technique and pulled the three girls to his side.

The gloomy wind is getting bigger and bigger, and the howling is endless.

"what!"

Suddenly, Zhong Ling screamed.

"Xiaofan, where are you looking, what the \*\*\*\* is it?"

Zhong Ling pointed to a certain place.

I only saw that inside the building, strange creatures actually walked out.

These creatures are very rigid, seemingly soulless, wearing armor and colorful.

Appears to be a soldier.

More than a dozen soldiers were uniform and approached Ye Fan and the others.

"Terracotta Warriors?"

Ye Fan was surprised.

This may indeed be the Terracotta Warriors, because there is no difference, but now it seems to be alive.

This is incredible.

In this lesson, the Terracotta Warriors attacked, and the halberd in their hands stabbed.

Ye Fan fired a dozen punches like lightning, hitting their halberds.

Unexpectedly.

The halberd didn't break, the soldiers were just repelled.

And Ye Fan's fists were dripping with blood.

So strong and sharp!

Ye Fan's Ministry of War was surprised. You must know that this is a soldier made at the end of the law. It can be said to be a puppet. Even if it has gone through so many years and lost its power, it must be indestructible.

"boom."

At this moment, Ye Fan's fighting spirit is boiling.

He resuscitated the sky hegemony, level 29, and bombarded with all the power.

The space trembled in a radius of 100 meters.

A group of soldiers were blasted away, but they were not damaged and still intact.

They stood up, and the mechanical version continued to kill the four of Ye Fan.

And presumably before, the speed of the soldiers is even faster.

Ye Fan kept bombarding, but he couldn't defeat these soldiers, but the more he hit, the stronger these soldiers became.

"Ye Fan, you can't fight anymore, keep fighting, these soldiers will be invincible."

"Xiaofan, stop, let's retreat."

Indeed, Ye Fan also discovered this problem, and continued to fight, the soldiers became stronger and stronger, and he was really invincible.

Chapter 1196: kill

"go!"

He rolled up the three daughters, performed a big teleportation technique, and left like lightning.

Soldiers pursue.

The speed was not inferior to Ye Fan at all.

"not good."

Suddenly, Ye Fan was horrified.

That group of soldiers actually caught up with him, and more than a dozen halberds came from all directions and attacked from tricky angles, making him feel unstoppable.

Can be sudden.

The halberd stopped.

Ye Fan also stopped and turned to look at the group of sluggish soldiers, only to see that the group of soldiers put away their halberds, turned and left in a neat and uniform manner, wandering on the street.

Nalan Ruo said: "I understand, they can only patrol that street."

Ye Fan nodded: "It should be the case, each team of soldiers has their own territory, and each street should have a group of soldiers."

Tang Yingdao: "The queen and they will not have an accident, right?"

Ye Fan was indeed a little worried.

Now I don't know why the soldiers are activated. If this factor is not found, then when the soldiers appear in all the streets, there is really no escape.

"Don't look for good fortune, let's find the queen and them to join, there are many people and great power."

"good."

What Ye Fan didn't know was that the Queen and the others encountered a huge crisis.

There are four streets criss-crossed, and each street has a pair of soldiers.

The Queen and the others could not break out of the siege.

At this moment, the Emperor God and Emperor Jinpeng have been injured, and the Empress Shura and the Empress are relatively better.

But the situation is not optimistic.

"What the hell, the more you fight, the stronger you are. I don't know how to activate it. What should I do now?"

"Queen, Jiulong Yuxi seems to have restraint on these soldiers."

"indeed."

The Queen looked at the Nine Dragons Jade Seal suspended above everyone's heads. If it weren't for the Jade Seal, they would have been in trouble long ago.

This jade seal is inherited.

It is the inheritance of the Daxia dynasties. The first emperor also used the Nine Dragons Jade Seal, so he could restrain these soldiers.

In fact.

What the Queen didn't know was that the Nine Dragons Jade Seal could completely suppress or even subdue these soldiers.

Because the soldiers are loyal to the emperor, and the jade seal actually represents the emperor.

But.

The Queen's strength is not enough.

Well, even with the addition of the God Emperor, the Asura Woman, and the Jinpeng Emperor, Yuxi can only restrain these soldiers a little.

"The first emperor's mausoleum is too restrictive, and it can't fly in the sky, and the spread of spiritual power is hindered, so I can only bite the bullet and rush out."

"Everyone get ready."

"go!"

The queen leads the way.

Controlling the Nine Dragons Jade Seal to push the soldiers back, they took the opportunity to charge like lightning.

However, the soldiers were caught up in an instant.

"Damn."

The queen gritted her teeth. Here, there is another limitation. She can't mobilize the power of luck, which is very uncomfortable.

The God Emperor, Jinpeng Emperor and Shura Maiden attacked with all their strength.

Can have little effect.

These warriors are not bad, and they get stronger and stronger with each battle. They are simply invincible and cannot be solved at all.

"puff."

Suddenly, a halberd pierced the shoulders of the Asura woman, and blood spurted out.

God Emperor Thunder was furious.

His eyes were about to split, and he screamed and smashed the soldier hundreds of meters away, but it was still undamaged.

The soldiers jumped up and rushed back like lightning.

"Ruined."

The Queen is desperate.

At the juncture, a generation of handprints slapped and slapped all the soldiers away.

A man with white clothes and silver hair appeared.

"Evan!"

"Evan!"

"Evan!"

The crowd exclaimed.

Who would have thought that at this juncture, Ye Fan actually appeared, which was simply too unexpected.

The queen said excitedly, "Ye Fan, I knew you would succeed."

"Great Healing."

Ye Fan treated everyone for some injuries.

Then he quickly punched, and the group of soldiers that came to be shot flew hundreds of meters again.

"Ye Fan, you are so strong now!" The emperor and the others were shocked and couldn't believe it.

To know that the four of them were unable to compete, Ye Fan smashed them all with a simple fist.

How horrible.

Ye Fan said: "Now is not the time to talk about this, let's go first."

The Queen said: "The Nine Dragons Jade Seal can restrain the soldiers, you give it a try, I will hand over the control to you."

Not everyone can use the jade seal.

The queen temporarily handed over the control of the jade seal to Ye Fan, and the next moment, Ye Fan seemed to be an emperor.

He hooked up with Yuxi, injected with monstrous energy, and Yuxi radiated brilliant light, forcing all the soldiers who rushed over to retreat.

Not only forced back, but also suppressed.

Getting soldiers to move is difficult.

The queen was overjoyed: "Ye Fan, you are too powerful. With the jade seal, we can travel unimpeded in the First Emperor's Mausoleum."

Ye Fan did not expect such a good thing.

He took everyone away from this street, came to the street without soldiers, and asked how the First Emperor's Mausoleum opened.

The queen said them one by one.

"Wizard Lord."

"I didn't expect them to be here. The witch master owns the Clear Sky Mirror, and maybe it can be unimpeded."

Ye Fan was thoughtful.

The queen said: "In this case, we have to hurry up and not let the witch master and the others conspire to steal the treasure of creation."

Ye Fan said: "Don't worry, the First Emperor's Mausoleum is so big, I guess it is suspected to be the capital Xianyang, and there are not many treasures of good fortune in the peripheral area, mainly the Central Palace."

"The capital city of Xianyang... Well, indeed, there is a possibility." The Emperor and the others also felt that it was reasonable.

"Now I want to understand why these soldiers activated the recovery. If we don't understand this, soldiers will appear in all the streets. Even if we have the jade seal, we can't say that it is 100% smooth."

"You must know that all the ordinary soldiers appearing now; there must be generals with soldiers. Once there are generals, it will be troublesome."

Everyone's faces were serious, and what Ye Fan said was right.

Ye Fan looked at the soldiers who were patrolling on the opposite side, and decided to catch one to find out.

Suddenly.

The wrath of the wind.

Ye Fan's expression changed, and it was like this again. Could it be that what he said, the generals of the soldiers were about to appear?

"Look, heaven."

Everyone looked up and found a bright red moon hanging over the Mausoleum of the First Emperor.

The red moon is in the sky.

This is so weird.

The whole world turned bloody.

The clapboard rack is weird.

The soldiers patrolling on the street stopped, didn't move, and stood so tightly that they never seemed to move.

Immediately after.

Everyone thought of noisy sounds. These sounds included a lot, including shouting, chatting, beating gongs and drums, setting off firecrackers, and...

So there are voices.

as if...

It seems that the entire city has come alive, and there are many creatures living there.

this moment.

Everyone was horrified, and even Ye Fan's hair stood on end.

This is horrible.

I didn't see anything, but the lively and noisy voice echoed in my ears.

It seems that there are a lot of people around them, but they can't see it.

Zhong Ling held Ye Fan's arm in fear.

"Get out first."

In the end, Ye Fan said two words.

Everyone agreed, they didn't want to stay here any longer, it was really infiltrative.

They go out the door.

The next moment, looking back, I can't see anything, I can't see the red moon, I can't see the soldiers, I can't see those ancient buildings.

Not only them, but the powerhouses who entered the First Emperor's Mausoleum before also shot one after another. Most of them were wounded, and some were seriously injured and dying.

Some remain in the First Emperor's Mausoleum forever.

"It's terrifying. Where is there any treasure here? It's simply a forbidden area of terror."

Some strong people have a mental breakdown.

The Mausoleum of the First Emperor does reveal strangeness, but the more it does, the more it shows that it has a big secret.

"I didn't see the four of them." The queen reminded, which means that the witch may still be among them.

Are they not afraid?

Or, the Haotian Mirror is enough to protect them.

However, Ye Fan thought about it and said: "If Haotian Mirror can really protect them and let them travel unimpeded, it is also their creation, and we don't need to take it too seriously."

"Let's go out first."

Everyone left the Mausoleum of the First Emperor and came to the giant battleship.

Ye Fan intends to keep Big Mac here.

Leave a gate of heaven in the battleship, so that you can come through the gate of heaven at any time, without having to travel around.

"Ye Fan, your physical body must have improved a lot. How many levels are you now?"

"Twenty-ninth grade."

Rao was mentally prepared, and the emperor and the others were also shocked.

The Queen said: "The 29th-level Celestial Hegemony Body, plus the Dao Palace realm, is enough to deal with Commander Kong Mie and the Angel Patriarch."

Tang Ying said with a smile: "Queen, Xiaofan has been resolved. The head of the Angel Clan was seriously injured and fled, and Commander Kong Mie was suppressed."

"Yes!"

Everyone smiled at each other.

Finally, the extraterritorial invasion has been solved, and it can be stable and peaceful.

"Boom."

Suddenly.

There was a big earthquake all over the earth.

Ye Fan's pupils shrank, looking towards the sky, his eyes seemed to penetrate the atmosphere and saw the outer starry sky.

"let's go!"

Ye Fan rolled up everyone to enter the gate of heaven, and appeared in the temple from the world of heaven.

In the temple, Ye Fan also left a gate to the kingdom of heaven, because the drought was here, she did not go to the first emperor's mausoleum, she was practicing, and it seemed that she wanted to break through.

At this moment, Han Yan looked at the outer starry sky with a solemn expression.

"You are here."

Ye Fan and the others appeared.

The extraterritorial starry sky has set off a huge starry sky storm at this moment.

A huge wormhole emerged.

In the wormhole, a heart-pounding power fluctuation is conveyed. That is a more terrifying power than the angel clan master and the empty commander.

who is it?

Could it be that so soon, there will be invasions from other big worlds?

gradually.

A warship emerged from the wormhole.

The battleship was too big, three times bigger than the Big Mac Sunshine, and there were tens of millions of soldiers on the battleship.

at the same time.

Followed by two battleships, these two battleships are about the same size as the Sunshine, and there are also tens of millions of soldiers on them.

On the main battleship, the ghost master, the chief general and the ghost teeth stand.

"God King, we are here, the blue planet is the ancestor star."

"Zu Xing?"

The ghost master muttered to himself.

"What a beautiful planet, it is worthy of being an ancestor, I can see the infinite vitality, but it is not inspired."

"I also felt some strange powers, Zu Xing is really unusual."

The ghost is very excited.

At this moment, the emperor also recognized who came, he said: "That is a ghost clan creature."

"Ghost clan?!"

Ye Fan and the others were shocked.

Since ancient times, Daxia has said about ghosts and gods. I didn't expect that there are really ghosts.

Chapter 1197: ghost master

Ye Fan stared at the three battleships in the outer starry sky. To be precise, all the focus was on the existence at the peak of the palace, which was obviously the master of the ghost clan.

at the same time.

The eyes of the master of the ghost clan also penetrated the world channel and fell on Ye Fan, very surprised.

"What a strong body."

The ghost master was shocked.

He is walking on the physical road, and attaches great importance to the polishing of the physical body. His physical body is very strong, so his perception is very keen.

"What a domineering atmosphere." The chief executive also exclaimed.

"God King, that is Ye Fan, who is the hegemonic body of the sky." Ghost Yazun said.

"The sky is tyrannical, and the creatures of the tyrants."

The ghost master was shocked again.

But at the same time there is great excitement.

"Heavenly Tyrant Body, very good, if I swallow such a powerful physique, my fleshly body will skyrocket a lot, and maybe I will break through to the realm of Nascent Soul."

"Apart from Ye Fan, the bloodlines of the living creatures around him are also very good, that is the Shura clan, that is the \*\*\*\* clan, and the golden-winged Dapeng..."

"Okay, it's all my blood."

The ghost master was extremely excited, and his whole body trembled with excitement.

Guiya reminded: "God King, don't be careless. The two masters of the Kong Mie and the Angel Clan Master are at the peak of the Taoist palace. One was seriously injured and escaped, and the other was captured. Ye Fan is amazing."

The ghost master said: "Indeed, this Ye Fan is amazing, but this king is not comparable to that of an angel clan master."

Ghost Fang was shocked.

Could it be that the Divine King is already showing signs of breaking through the realm of Nascent Soul?

Still have some powerful cards.

timely.

The ghost master took a step, left the battleship, and appeared directly at the entrance of the passage.

He was condescending, overlooking Ye Fan, and said lightly: "I am the master of the ghost clan, and I never thought that I would be able to come to Zuxing in my lifetime."

Ye Fan snorted coldly, "You also want to follow in the footsteps of the Angels?"

"Don't take me and the angel clan master, I think this king is not comparable to that waste. Ye Fan, come on, you are the strongest in Zuxing, then killing you is enough."

"I also want to experience the methods of the ghost clan."

Ye Fan disappeared in place, and it was already an extraterritorial starry sky when he reappeared.

He confronted the ghost master from a distance.

The Queen and the others are not worried. Ye Fan can deal with the peak of the two Taoist palaces, Angel's autonomy and Kong Mie, and naturally he can deal with ghost masters.

What they are worried about is that when the ghosts come, will there be other groups in the big world to kill.

If you come to a group of Dao Palace peaks, it will be troublesome.

If there is a Nascent Soul realm boss, it will be a disaster.

In theory, Ye Fan's combat power surpassed the peak of the Dao Palace realm, but in fact, in the face of the Nascent Soul realm boss, he still had to run away.

The war has begun.

At the level of Ye Fan and the ghost master, he didn't bother to test, and directly entered the strongest fighting state.

The display of the 29th-level Celestial Hegemony Body made the ghost master's pupils shrink. He didn't expect Ye Fan's Hegemony Body level to reach this level.

However, the ghost master was only briefly shocked.

It also opens up the physique.

"Woooooo."

For a time, ghosts cry and howl.

Boundless black energy rose from behind the ghost master, and there seemed to be countless ghosts roaring in it.

It's a pity that his physical body is still not comparable to the 29th-level Celestial Overlord, but it doesn't matter, the ghost master is very confident, Ye Fan is only in the early stage of the Taoist Palace, and he is the peak.

The difference is not even a star.

"kill!"

"kill!"

The two sides collided instantly.

The ghost master flew upside down, with severe pain all over his body, and Ye Fan also flew upside down but not far away.

He disappeared in an instant.

Appearing again in front of the ghost master, he punched the head with a fierce punch, smashing the ghost master's head.

So ferocious!

It's so frenetic!

Ghost Fang and the chief executive were terrified.

The 30 million ghost soldiers on the three battleships also held their breath.

They had never seen such a big battle.

"Ye Fan, your body is not invincible, it's just a 29th-level celestial body, you can't kill me."

"boom."

The ghost master was also a ruthless man, and he was still using his body to fight Ye Fan, and he was sent flying again.

Ye Fan chased after the victory.

He entered a state of slaughter, his silver hair flowing with a faint red halo.

The killing is really surging.

Zhenhai's true meaning and Kaishan's true meaning are also breaking out.

The true meaning of martial arts, Ye Fan hasn't used it for a long time, because he can't keep up with his cultivation speed.

But since entering the Dao Palace, his love and hatred of spiritual power and his understanding of the true meaning of martial arts have also greatly improved.

As a result, the power of the true meaning of these martial arts has also been greatly enhanced.

"boom."

The ghost master was smashed into the air again.

This time he was hit hard and spurted out blood, which made the ghosts startled and shouted in unison.

On the Earth's side, the 300 million soldiers also shouted.

"The mighty national teacher!"

"The mighty national teacher!"

"The mighty national teacher!"

Ye Fan roared wildly, knowing that he was exhausted again and again in one go.

He opened the bloodline power.

The power of yin and yang combined with the power of the Dao Fist and the power of the body slashing technique bombarded the ghost master.

At this moment, the ghost master felt a huge threat.

"Yin and Yang blood."

"How is that possible, are you a descendant of the Supreme Being, absolutely impossible."

The ghost master was finally alarmed.

The Supreme Being of Yin and Yang is so terrifying, it is the Supreme Being of the universe, extremely mysterious.

Immortal existence.

If Ye Fan was a descendant of the Supreme Being of Yin and Yang, he would never dare to move, because it would bring about a catastrophe.

"Shangqiongbi falls to Huangquan."

The ghost master shouted, his eyes turned, and he seemed to see through everything, which shocked Ye Fan, his eyelids jumped wildly, and he had to retreat.

"I see."

The ghost master saw some clues.

"Ye Fan, your yin and yang bloodlines were implanted in the day after tomorrow, and you are not a descendant of the supreme yin and yang."

"Who implanted you with yin and yang blood."

"This requires going to the restricted area of the Yin-Yang Supreme in the depths of the universe, and obtaining the seeds of the Yin-Yang Avenue, in order to successfully allow you to have the Yin-Yang bloodline, who has such great energy."

"who is it!"

The ghost master was stunned.

Ye Fan didn't expect his bloodline to have such mysteries. His bloodline was not born, but was implanted the day after tomorrow.

Who is unknown.

Ye Fan said nothing and continued to shoot.

The ghost master shouted: "Ye Fan, you thought that showing the blood of yin and yang would make me jealous, then your wishful thinking was wrong."

"You gave me a big surprise. The Heavenly Tyrant Body and the Yin-Yang bloodline, as long as I swallow you, I will be able to break through and enter the Nascent Soul realm."

"So you have to die."

The ghost master's breath suddenly rose.

No longer competing with Ye Fan, the breath of the peak of the Taoist Palace burst out.

Ye Fan finally knew why the ghost master was so confident.

From the perspective of breath, the ghost master is indeed stronger than the angel autonomous and the empty commander.

It is also the peak of the Taoist Palace, and there are high and low strengths.

The ghost master roared violently, his body became a little bigger, and the black air surged from the sky, wrapping Ye Fan.

"Yin Yang Life and Death Diagram."

Ye Fan used his bloodline magical powers.

The picture of life and death appeared, wiping out the black qi and ghosts, which shocked the ghost master again and was caught off guard.

"The Yin Soldier borrows the way."

The ghost roared fiercely.

I only saw that in the starry sky, a hole suddenly appeared, and a dense number of Yin soldiers rushed out.

Ye Fan's scalp was numb.

"Avenue Fire Fist."

"Burning the sky and cooking the sea."

Alien Fire is the nemesis of these evil spirits.

The countless Yin soldiers were burned clean in an instant.

"You still have a strange fire."

The ghost master gritted his teeth, why did Ye Fan have so many tricks, Yi Huo was one of the elements that restrained his ghost master.

hateful.

The ghost master's face became solemn.

Ye Fan sneered: "Master of the dignified ghost clan, is this the only means? Then you can't compare to the autonomy of an angel."

"court death!"

The ghost master was furious.

The \*\*\*\* world and the heaven world are enemies, the angels and the ghosts have a feud, and he is the most angry that he is compared with the bird people.

"Ye Fan, you are killing yourself."

The ghost master is hidden in the black air.

Suddenly.

Ye Fan alerted Zhao Dasheng and immediately moved away. The place just now exploded.

Invisible attack?

interesting.

"Great body protection!"

Ye Fan has magical powers to protect his body, and at the same time, his yin and yang eyes swept across, seeing through the clues.

"Heart Killing Curse."

Ye Fan performed a secret technique.

Precision strike.

The ghost master groaned, his brain buzzing.

The Heart Killing Spell is a secret technique of the Great Emperor, which is specially used to restrain aliens. Ye Fan is getting stronger and stronger now that he understands the terribleness of this secret technique.

How can the Great Emperor's secret technique be simple? There are many mysteries that Ye Fan had never noticed before.

Now that he has been promoted to the realm of the Taoist Palace, his spiritual power has skyrocketed a lot, and the power of the Heart Killing Curse has really exerted a trace.

"Great Purdue."

"Submit to me."

Ye Fan suddenly shot out a dazzling Buddha light, which evaporated more than half of the boundless black gas.

The ghost master was stunned.

This is the magical power of the ancient Buddhist family, and Ye Fan can actually do it.

Damn.

How much means does this kid have.

Ghosts belong to yin, and all elements such as yang and gang are very annoying, and ancient Buddhism is one of them.

In ancient times, there was a war between ghosts and Buddhists.

"The Rosary of Resentment."

"kill!"

The ghost master spit out a bead, scattered the Buddha's light, killed Ye Fan, and exploded near Ye Fan.

Immediately, countless resentments erupted, entangling Ye Fan, making Ye Fan feel very uncomfortable, and his breath began to decline.

"Ye Fan, this is the resentment I have accumulated for a hundred years. Once it is entangled, it will be troublesome to burn with a different fire, unless you have the legendary great purification technique."

"However, in the ancient times, the elves were tragically wiped out by the witches, and the Great Purification Technique disappeared."

"Ye Fan, what are you going to do this time?"

The ghost master was triumphant.

He is very confident, and being haunted by those terrifying resentments, Ye Fan is definitely in trouble, and it is definitely not easy.

Different fire can indeed burn resentment, but it takes time, and he can take the opportunity to shoot.

"Great Purification Technique!"

at this time.

Ye Fan's voice was like thunder, and the powerful purifying power spread, instantly purifying all the resentment.

The ghost master's face froze.

The ghosts were all terrified.

The great purification technique, Ye Fan actually knew this magical power, which was also one of the ways to restrain the ghost clan.

"impossible."

The ghost master screamed in disbelief.

"Nothing is impossible."

Ye Fan sneered.

The Great Purification, which the Elf Queen had already passed on to him.

Definitely.

The elf queen is under his care, the elf family is growing, and he is fighting against foreign invasions, the elf queen will definitely contribute, and naturally pass the great purification technique to Ye Fan.

The Great Purification has many effects.

Can take out all negative effects.

It's scary.

This is why, in the ancient times, the witch race started a war, and they wanted to be the first to destroy the elves, just to prevent the emergence of the Great Purification Technique.

Otherwise, the witch master's great curse technique and other means will not be used indiscriminately, and all of them can be purified by the elves.

With the Great Purification Technique, Ye Fan is more relaxed against the ghost master. He joked:  
"Ghost master, go on, let me see what else you can do."

Chapter 1198: Ten Temples Yama

The ghost master gradually calmed down.

It is worthy of being the strongest of Ancestral Star. He has many means, and he has learned the great purification technique.

This is not good news.

"Ye Fan, I admit that you are strong, beyond my expectations, but..."

"You're still going to die."

"Yes?"

Ye Fan said with a smile: "It's not enough to just rely on one mouth, let's show some real skills. Or, if you want to use a battleship, no problem, I will fight against it all by myself."

The ghost master said coldly: "I don't need to use a battleship, I can kill you. You should be optimistic about my methods."

"Boom."

The starry sky trembled, and a depressing breath filled the air, making Ye Fan wait for it.

He was never careless.

This is the master of the ghost clan, and he must be extraordinary.

He clearly knew that he could fight against the two powerhouses at the peak of the Taoist palace, but the ghost master was still killed, which showed that the ghost master was confident.

There must be some terrible cards.

"Wooooooo."

A monstrous black air burst out.

In that black air, something seemed to be brewing.

a moment.

The ghost master suddenly screamed, grabbed into the black air, and caught a huge pitch-black stick.

The stick was strange in shape, engraved with countless strange patterns, and also had these ten holes.

"That is!"

On the battleship, ghost teeth horror.

The chief general's face was full of awe.

"Ten Hall Yama."

Ghost Teeth said tremblingly.

"Yes, it is the Ten Temple Yama, Lord God King has been recognized by the Yama of the Times."

Large header opening.

At this moment, Guiya knew why the ghost master was so confident.

Ten Temple Yama, that is the supreme instrument of the ghost clan. It is rumored that it was built by the ancestor of the ghost clan.

Has infinite power.

The ghost master has been recognized by the Ten Temple Yama, which means that a trace of power can be used.

Even if it was just a trace, it was extremely terrifying, killing Ye Fan's little trail palace cultivator, as if there were no ants.

"not good."

Drought recognizes it.

She voiced: "Ye Fan be careful, the ghost master is holding the supreme magic weapon of the ghost clan, named Ten Temple Yama, built by the ancestor of the ghost clan."

"Ten Temple Yama?"

Ye Fan muttered to himself.

Han Yu continued to explain: "Have you seen the ten holes in the Ten Hall Yama, each hole contains powerful ghosts and gods."

Ye Fan moved and asked, "Could it be that it is King Qin Guang, King Chu Jiang, King Song, King Wuguan, King Yama, King Biancheng, King Taishan, King City, King Pingping, and King Zhuan Lun."

Han Yan said: "Yes, it is indeed the name. The ten ghosts and gods are sealed in the Ten Temples of Yama. Each ghost and \*\*\*\* has an unpredictable divine power."

"It's just that the ten ghosts and gods in the Ten Halls of Yama are still alive. If they are alive, I don't know that the ghost masters can be summoned."

"What if you are summoned?"

"Then you will die. To be exact, we are all going to die. Ancient ghosts and gods, even saints, can't compete, we are really too weak."

Ye Fan's face was serious.

He did not believe that ghost masters could summon ancient ghosts and gods.

The Taoist realm summons ancient ghosts and gods, what a joke, it is not worthy, and is not qualified to summon.

"Ghost Lord, is it scary to take out these ten temples, Yama, there is a way for you to summon ancient ghosts and gods."

"You are very knowledgeable."

The ghost master snorted coldly, held the Ten Temple Yama, and said in awe: "This is the supreme magic weapon of my family. Even if you don't summon ancient ghosts and gods, you can be crushed to death."

"you sure?"

Ye Fan summoned the Wuxu Kunding.

The ghost master is also well-informed, and said in surprise: "This is half of the Qiankun Emperor's magic soldier Qiankun Cauldron. Is this a Kun Cauldron or a Gan Cauldron?"

"Hundred Days Kunding."

Ye Fan didn't hide it.

The ghost master's face was ugly.

"Look again."

Ye Fan dispelled Fangcun Mountain and the pestle, exuding a strong Buddha light, which made the ghost master very uncomfortable.

"Buddhist treasure."

"Damn, do you have the inheritance of the ancient Buddhist family, how is it possible!"

The ghost is really going crazy.

Ye Fan has so many tricks, how come there are so many magic weapons.

"Don't worry if it's impossible, tell me now if the Tenth Palace Yama can kill me."

The ghost master gritted his teeth.

Ten Temple Yama is strong enough, but Wuxu Kunding can compete with it, plus Fangcunshan and Subduing Demon pestle, I'm afraid she can't stand it.

"Ye Fan, this is what you forced me to do."

Suddenly, the ghost master's words became extremely cold.

This made Ye Fan's heart skip a beat. Before he could react, Ye Fan spit his blood on the Tenth Hall Yama, and then raised it, roaring, "I am the Lord of the Ghost Clan, please invite Tenth Hall Yama to Kaifeng."

"boom."

In an instant, the Ten Temple Yama burst out with a black divine light reflecting the starry sky.

Ye Fan was shocked.

The dry man's face changed wildly.

how come.

The ghost master can really summon ghosts and gods from ancient times.

"Ye Fan, hurry back."

Drought sound transmission.

However, at this moment, Ye Fan was unable to leave.

Because the black divine light rushing out of the Ten Temple Yama shrouded this starry sky, it had an extremely terrifying repressive force.

Ye Fan's actions were blocked.

At the same time, the ghost master shouted: "Come out, King Qin Guang!"

"boom."

The first hole of Yama in the Ten Halls rushed out of a black shadow, and then showed it, turning into a figure standing in the sky.

That is King Qin Guang.

Ancient ghosts.

Ye Fan was stunned. He thought it was a ferocious monster, but it was not.

As soon as King Qin Guang appeared, all the ghost clan creatures knelt down and worshipped, and the ghost master also knelt down on one knee.

"King Qin Guang please take action."

The ghost screams.

I only saw that King Qin Guang lowered his head and looked at Ye Fan. For a moment, Ye Fan was in a trance.

too strong.

Can't compete at all.

King Qin Guang seemed to be real, not illusory, he said, "Yin and Yang blood."

Ye Fan couldn't move.

Even if he resisted, he avoided the detection of King Qin Guang.

King Qin Guang's eyes shifted, and he came to Ye Fan's eyebrows and Taoist Palace, and in an instant, a change occurred.

This starry sky changed color and was full of terrifying evil spirits.

A dagger rushed out of Ye Fandao Palace, ups and downs in the air, and confronted King Qin Guang.

King Qin Guang was surprised and said: "Supreme Artifact, such a familiar breath, the supreme artifact of the Black Prison Supreme."

"A human news, a supreme weapon with Yin-Yang bloodline and Black Prison Supreme, and it is related to the two Supremes, which is interesting."

"Unfortunately, since I was summoned, I naturally made a move for the ghosts."

King Qin Guang had no mercy.

He slowly raised his hand...

Ye Fan felt the danger of death, but he couldn't resist it. This feeling of powerlessness made him very uncomfortable.

At this time, King Qin Guang pointed a finger.

This finger is amazing.

Ye Fan felt that he could kill him a thousand times.

It was at this time that the evil dagger radiated brilliantly and seemed to feel provoked.

burst out.

"boom!"

The dagger collided with King Qin Guang's finger, and there was a big explosion, and both Ye Fan and the ghost master were sent thousands of miles away.

The center of the explosion was vast, and nothing could be seen.

Ye Fan fell into the world passage.

The queen, the scorpion and the others came.

"Evan, are you alright?"

"Can't die."

Ye Fan's injury was not serious. He looked at the outer starry sky. Now the main thing is the fight between Dagger and King Qin Guang.

Once the dagger fails and King Qin Guang shoots again, there is really no way to survive.

"That's it."

For a moment, there was a sigh in the starry sky. King Qin Guang walked out of the explosion zone, glanced at Ye Fan, and then disappeared into the Ten Halls of Yama.

And the dagger also returned to Ye Fan's eyebrows and Taoist palace like lightning.

Ye Fan found that the dagger seemed to be injured and fell into silence, and Ye Fan was still very grateful.

If it weren't for the dagger, he would be dead.

In fact, the dagger has helped him a lot along the way.

Ye Fan mobilized energy to nourish the dagger.

Having said that, the dagger is much better than the Tianbao jade hairpin. This thing is motionless and has no effect until now.

the other side.

King Qin Guang returned to the Tenth Hall Yama, and at the same time left a sentence for the ghost master.

"God King, what's going on?"

The chief executive and Guiya asked incomprehensibly.

The ghost master's face changed.

Just now, King Qin Guang told him that Ye Fan should not provoke him, it involves a lot, even if he kills Ye Fan, he will bear huge karma, and the ghost clan will be wiped out in the future.

For the words of King Qin Guang, the ghost master naturally has no doubts.

But just leaving like this, the ghost master is very unwilling.

He came to the world passage again, stared at Ye Fan, and said, "Zu Xing, a very beautiful planet, I don't want to destroy it. Ye Fan, discuss it and let some of my clansmen settle in Zu Xing."

Ye Fan was lost in thought.

The ghost master said: "Zu Xing gave birth to the heavens and the world. In a sense, we are also the children of Zu Xing, but we are just wandering in the big world outside."

"Ye Fan, the great world will take him, Zu Xing cannot be alone. There will be more great world groups to kill in the future."

"Let's take a good fate and let some of my clansmen settle in Zuxing, and I can make them not make trouble."

"If you agree, then I will retreat immediately; if you don't agree, then we can only continue to fight."

"Negotiate it, and I'll give you the event."

After the words fell, the ghost master returned to the battleship.

Ye Fan and others also came to the temple.

"What's everyone's opinion?"

"The ghost master's words are indeed reasonable. I suggest that you can agree, but you can't let too many ghosts settle in, at most one million creatures, and the strongest combat power can only be in the realm of the sea of suffering, not the realm of the Taoist palace." The emperor said.

Powerhouses such as Shura Nvzun and Jinpeng Huang also agreed.

Ye Fan looked at the queen.

The latter said: "In order to be safe and stable, you can agree. As the emperor said, he will limit the number and strength of the station."

Ye Fan looked at the dry scorpion again.

"Obviously, the ghost master is not confident that he can defeat you, so he will settle for the next best thing."

"You mean keep fighting?"

Han Yan shook his head, "No, that's not what you mean, the choice is yours. You can fight or not fight, but what I want to say is that there is one thing that the ghost master is right. The more big world races come to kill, even if the ghost race is driven away today, it doesn't make much sense. I think it is possible to negotiate with the ghost master to gain some benefits from the ghost race."

Ye Fan pondered for a moment, then nodded: "Okay, I'll chat with the ghost master. The ghost master must know the coordinates of the heaven."

Everyone was suddenly shocked.

Evan means...

Chapter 1199: Ghost Prince

"The angels invaded our ancestors, and they will use their own way to repay their own lives. The angels have suffered heavy losses, and the angel master is no longer a threat. I want to take the heaven."

Ye Fan's tone was cold.

The others gasped, Ye Fan was ruthless, but what he said made sense.

only.

There are no heavenly coordinates.

The ghosts know it.

Everyone was a little excited, it seemed that they were going to travel in the stars, what a \*\*\*\* thing it would be.

"Let's go and negotiate."

"Not urgent."

Ye Fan shook his head and let the ghost master hang out for a few days before rubbing his arrogance.

Three days in a flash.

For the past three days, Ye Fan was deeply studying the Great Purification Technique.

This magical power is really too strong.

There are countless mysteries.

No wonder the elves are fragrant buns, and many ethnic groups want to win.

With the help of the Elf Queen, Ye Fan's understanding and knowledge of the Great Purification Technique increased rapidly.

this day.

He came to the outer starry sky.

In the main battleship, the ghost master sensed that he came out of the sky and asked, "Ye Fan, how is the discussion?"

Ye Fan said: "There is no result in the fight. Indeed, some creatures from your ethnic group can be allowed to settle in Zuxing."

Ghost master sales agent: "Okay, Ye Fan, your decision is very wise. It will undoubtedly hurt both sides, and we will not be able to seek benefits."

"Don't be too happy too soon."

"Oh?"

The ghost master was not surprised, and asked, "Tell me what conditions do you have, I hope you don't go too far."

Ye Fan said: "First, we need a batch of resources,"

"That's reasonable."

The ghost master was very generous, and with a wave of his hand, three space rings flew out.

Ye Fan grabbed it.

The ghost master said: "The resources in these three space rings are enough and rich, and there are many good treasures, which should be able to satisfy you."

Ye Fan's mental power probed, and the three space rings were not small, much larger than the ring on his finger.

About three hundred feet in length and breadth.

In other words, a space of 1,000 meters in length, width and height is incredible.

"very good."

Ye Fan was satisfied.

The ghost said: "What else?"

"Only a maximum of one million ghosts are allowed to settle in, and the strongest can only be the realm of the sea of bitterness."

"no problem."

"The third point, I need the head of the angel clan master."

"what?"

The ghost master was stunned for a moment, and then his face sank, "Ye Fan, this request is too much, and the words are arrogant."

Ye Fan said: "Your strength and trump card can completely kill the angel clan master. He has been seriously injured and fled, and he must not be healed yet. You know the coordinates of the heaven world, you can kill it, you are a world feud, kill the angel clan. The Lord is good for you too."

The ghost master snorted coldly: "Then I can't be used as a spearman by you, and I can't kill the angel clan master. His life is yours, and you need to take it yourself."

"Okay, give me the coordinates of heaven."

The ghost master was stunned.

Immediately understood, Ye Fan's real purpose was this, turning a corner.

He smiled and said, "Ye Fan, you are so ambitious that you are going to go to heaven to kill the angel clan master. You want to take over the entire heaven."

"You should be very happy to destroy the Angel Clan Master, shouldn't you?" Ye Fan said with a smile.

"It's really heartwarming."

"No, it's a ghost."

"Hahaha."

The ghost master laughed, "Ye Fan, since that's the case, I will give you the coordinates of the heaven world, I hope you can achieve what you want, kill the angel clan master, destroy the angel clan, and take the heaven world."

Swish!

A memory fragment flew out.

Ye Fan grabbed it, swept away his mental power, and knew the coordinates of the heaven.

Enter the coordinates into the system of the star warship, and it will automatically open the jumping wormhole and rush to the heaven.

But going to heaven is not in a hurry.

Now in the past, the ghost master will definitely attack Zuxing, and it is impossible for the ghost master to take advantage of the loophole.

"Ye Fan, the three conditions are enough, there can be no more. Now I will send millions of ghost soldiers to come, you must not stop it, and you must promise not to attack my clan within a year."

"Can."

Ye Fan knew that the ghost master would say this, otherwise, millions of ghost soldiers would come to Zuxing, and he could be wiped out in a blink of an eye, which was meaningless.

A one-year relaxation period is enough for the ghost soldiers to gain a firm foothold.

Ye Fan and the ghost master made an oath of heaven.

Soon.

Among the three battleships, a small battleship slowly moved towards the world passage.

"I need to check to see if it is a million ghost soldiers, and whether it is hidden."

"Ye Fan, you are really shrewd, you want to take the opportunity to learn about the battleship." The ghost master snorted coldly, but did not stop him.

Ye Fan landed on the battleship, his spiritual power spread, and he inspected the entire battleship.

at the same time.

I also learned about the millions of ghost soldiers.

What a powerful ghost.

Millions of soldiers are very strong, and the commander at the head is a young ghost young man. His appearance is very serious and he has a tyrannical aura. He should be the son of the ghost master.

As Ye Fan thought, this is the prince of the ghost clan, who is already at the peak of the sea of bitterness, and can enter the realm of supernatural powers at any time, or the prince of the ghost clan deliberately suppressed it, otherwise the seeds of supernatural powers would have been condensed.

In addition to the prince of the ghost clan, there are also two deputy commanders of the late stage of the sea of bitterness, and the three realms of the sea of bitterness are considered the head group on the current Ancestral Planet Earth.

"go in."

"You will be safe within a year, but you must be honest and abide by Zu Xing's rules. Zu Xing also has many ordinary human beings in the secular world. Don't disturb them, otherwise they will be killed."

The prince of the ghost clan gave Ye Fan a deep look, then with a wave of his hand, the battleship galloped into the world passage.

Queen they are not careless.

Watching the huge warship fly out of the passage, the real general is on Earth.

"This is Zu Xing."

The prince of the ghost clan closed his eyes and tried to feel, "The cultivation environment is not as good as the \*\*\*\* world, but... it is a little unusual. It seems that cultivation can be better here."

"Prince, what should I do now?"

"Leave here, look for a feng shui treasure land as a territory, and then get to know Zu Xing as soon as possible, recuperate, and practice hard."

"Yes."

The prince of the ghost clan looked back at the ghost master of the outer starry sky, and then ordered the battleship to leave.

In the starry sky, Ye Fan said: "Ghost Lord, you are willing to let your son enter Zuxing, so you are not afraid of accidents."

The ghost master said: "My son's talent is not inferior to yours, and he will definitely be able to make a career in Zuxing. Ye Fan, I will leave for now, but I will still come. When I break through to the realm of Nascent Soul, I will definitely come. I hope you can handle it then."

"I am waiting."

Ye Fan's eyes lit up.

He could see that the ghost master's breakthrough to the Nascent Soul realm would not be too far away, he still couldn't slack off, and he still needed to work hard.

Rumble.

The wormhole appeared, and the two warships started.

Ghost Lord they left.

The starry sky finally fell into peace, but Ye Fan stood there for a long time and was very emotional.

He bears a great responsibility.

Ye Fan thought about it a lot, and he felt that it was necessary to find the Corpse Emperor and the Brahmin Lord to see what they were studying.

At this point, he didn't want to be a \*\*\*\* and was kept in the dark.

There is also the matter of the parents, and the family of the old master, all of which require an outcome.

So long!

Ye Fan took a deep breath, feeling inexplicably tired.

Since the beginning of the Great World, the ancient tribes began to be born, and until now, he has been fighting.

Either fighting or cultivating, I have gone through countless lives and deaths to get to where I am today.

Ye Fan burst into tears inexplicably.

Looking back, he is not alone, he has relatives and friends to accompany him all the way.

He is lucky.

Ye Fan returned to Earth, and he didn't care about other things. Where the Prince of the Ghost Race went, the Queen would arrange for someone to watch.

Now Ye Fan needs a good rest.

He is a little tired.

A month later, the Mausoleum of the First Emperor.

Evan appeared.

In addition to him, there is also a strong man, the peak of the Taoist Palace, is the commander of Kong Mie.

This month, Ye Fan did not sit idle. He personally tortured Commander Kong Mie, causing him to collapse directly. He signed a blood contract and surrendered to Ye Fan.

The commander-in-chief of Kong Mie surrendered, and Ye Fan knew a lot of things, and he had to travel to the starry sky.

Such as the Black Prison Supreme.

Because the Starry Sky Travelers are now following the Black Prison Supreme, their headquarters is in the restricted area of the Black Prison.

One more thing.

Commander Kong Mie sent the message, I wonder if it would reach the Starry Sky Youzu headquarters.

Knowing this, Ye Fan couldn't wait to shoot the commander in the air, but he held back.

Zu Xing is too far away from the restricted area of the Black Prison, and the message sent by the commander of Kong Mie is 99% likely to dissipate in the starry sky.

But most likely, it was intercepted by some powerhouses halfway through, letting some big worlds know the coordinates of the ancestor star.

It's a big threat anyway.

The fact has already happened, and only soldiers can come to cover the water and earth.

Now Commander Kong Mie is surrendered, he is his most loyal servant, and he is still at the peak of the Taoist Palace, so he is reluctant to kill him.

"Master, what a terrifying place, I feel terrifying from the depths of my soul."

Master Kong Mie's cold hair stood upright.

Ye Fan's expression was solemn. For more than a month, the First Emperor's Mausoleum seemed to be more terrifying than before, and he could feel it.

Enter the portal.

When you come to the mausoleum, you can see the red moon when you look up.

Ye Fan hadn't come over this month, but he still knew about the situation of the First Emperor's Mausoleum.

The red moon does not appear all the time, it appears at midnight and disappears at noon, for a total of 12 hours.

The monks who came in to explore also found that after the red moon appeared, the soldiers did not move. Although there was a terrifying noise, it was not too dangerous, and they could enter the ancient buildings to find treasures.

The red moon may be a kind of protection for the explorers who come in.

Is it really so?

Ye Fan was very suspicious and did not dare to be careless.

The scarlet blood moon, like a pair of eyes, is watching everything.

Thinking of this, Ye Fan was horrified.

"These soldiers are still strong."

Commander Kong Mie bombarded the motionless soldiers on the street, but he couldn't smash it, and the tiger's mouth cracked.

Ye Fan said: "Don't move these soldiers, in case something goes wrong, we try to go as deep as possible."

Along the way, Ye Fan also saw some monks who were exploring.

After walking a long way, Ye Fan saw the enchantment, he bombarded it with a punch, and the enchantment remained motionless.

Commander Kong Mie said: "Master, do you need the Nascent Soul realm to break this barrier? Let's move on. Only this part of the First Emperor's Mausoleum is currently open."

Ye Fan was expressionless. Looking at the barrier, he suddenly had an idea. He took the commander Kong Mie and left quickly, and then came to the palace and saw the queen.

this day.

Above the palace, the sea of qiyun clouds surged, and the golden dragon of qiyun roared, sending out Ye Fan's words:

"The Corpse Emperor, come to the palace to see you."

Chapter 1200: Meet the Corpse King

Ye Fan felt that it was time to meet the Corpse Emperor.

Now he is qualified to sit down with the Corpse Emperor and have a good talk.

"The Corpse Emperor, come to the palace to see you."

This sentence conveys the entire cultivation world, all over the world.

every corner.

The cultivation world was shocked, Ye Fan made an appointment to meet the Corpse Emperor, is there any big move?

Palace of Longevity.

The queen said: "Ye Fan, if you shout like this, will the corpse emperor come back?"

Ye Fan said: "It will come."

"So sure?"

"The Corpse Emperor doesn't know what he's doing, but he can't get out. He needs me to deal with foreign invasions. If I don't come, I'll just give up."

The queen was stunned, and then laughed lightly.

Just as Ye Fan thought, a day later, a figure appeared in the palace and landed in front of the Hall of Longevity.

Swish!

Swish!

The queen and Ye Fan appeared.

This creature that was obscured by the hazy aura and couldn't see the real thing was the Corpse Emperor.

It is the corpse emperor who opened the sky.

Ye Fan felt some oppression and was secretly frightened. The Corpse Emperor is so strong, I am afraid it is the peak of the Taoist Palace.

"The Corpse King."

"Evan."

Both sides opened their mouths.

Ye Fan said: "Don't show your true colors?"

Corpse Emperor said: "Everything is false."

Such profound words.

Ye Fan didn't ask for it, he said, "I made an appointment with you because I want to have a chat with you."

"my pleasure."

In the Hall of Longevity, the three sat down.

Ye Fan said straight to the point, "Your strength can completely resist foreign invasion, why don't you show up, what are you doing?"

"This is complicated."

The Corpse Emperor was silent for a few seconds, then said, "Let's put it this way, I found an ancient path of the stars."

"Starry Sky Road?"

"Yes, it is a dead starry road, which has been decayed and broken, but it shows that the ancestors' exploration."

Ye Fan and the queen looked at each other, confused.

Corpse Emperor Road: "The so-called Starry Sky Road is to leave Zuxing to find other worlds."

Ye Fan frowned: "It's unreasonable, to go to other big worlds, you have to take the ancient road of the starry sky? Isn't it a warship to travel the starry sky?"

"You are talking about the time when Ancestral Star has not yet fallen, and the ancient starry sky, I conclude that after the decline of Ancestral Star and self-blocking, the cultivators among them dig out the ancient starry sky in order to seek a way out, and want to leave the cage of Ancestral Star. ."

"So, the Starry Sky Road is of great significance. It is the path that our ancestors took."

Ye Fan was shocked: "You have to follow the footsteps of your ancestors."

Corpse Emperor said: "I want to explore to see what is at the end of the ancient road, and whether the ancestors have found a way out."

"Where have you been?"

The Corpse King shook his head.

"Although the ancient starry sky road is dead, it is very scary. I just wandered around the entrance. There is a thick chaotic gas obstruction, which needs to be split."

"I see."

Ye Fan nodded, and then said strangely: "Just to split the Chaos Qi and advance, you can rest assured that I will block the invasion from outside the territory, if I can't bear it."

Corpse Emperor said: "It is also destined to be unbearable. In fact, in the future, other great world creatures will definitely settle in Zuxing, and they can't stop it."

The Queen said: "What should we do then?"

Corpse Emperor said: "It doesn't matter, this is the general trend, but at this stage, for the stability of Zuxing, we need to block foreign invasions. Also, Zuxing still needs a relaxation period. The current Zuxing is still too small and needs self-recovery."

"but....."

"but what?"

"The mysterious power lingering around the planet of the ancestor star is the barrier planted by the great emperor in ancient times and the softness of the power of the ancestor star's self-protection mechanism. It is very complicated. This force protects the ancestor star but also hinders the recovery of the ancestor star, like a big net, lock the ancestor star. If you want the ancestor star to recover faster, you need to tear up a large net."

Ye Fan said: "You have an axe that can split the big net."

"It's not that simple." The Corpse Emperor shook his head, "If you want to split the big net, you need an opportunity, and this opportunity is in the Mausoleum of the First Emperor."

"Speaking of the Mausoleum of the First Emperor, it is very strange, the red moon is in the sky, and the invincible soldiers, what do you know?"

"The Mausoleum of the First Emperor has a big secret. I found some clues on the ancient road of the starry sky. It is very likely that the first emperor did not die, but went to find a way out and embarked on the ancient road of the starry sky."

This was a big guess, and Ye Fan and the queen were alarmed.

The Corpse Emperor guided: "The Mausoleum of the First Emperor has opened the outer area at the right time, which is nothing. The real Lianghai is the inner area, and it is still early."

"Hongyue, I don't know either; that soldier is interesting, the most extreme performance of the Great Puppet Technique. In fact, the Nine Dragons Jade Seal can suppress the material and control the soldier, but now you are too weak to do it."

"Ye Fan, what else do you ask?"

"What kind of tricks is the Brahmin Lord doing?" Ye Fan asked, this is also a big man.

Corpse Emperor said: "That guy seems to be fighting with the descendants of the ancient Tianzong."

"Ancient Tianzong, the seventy-two ancient sects ranked first, is the successor born?"

"I was born long ago, and I haven't shown up."

The Corpse Emperor paused and said: "If you have a chance, you can collect all seventy-two Holy King decrees. It is said that there will be a big secret when all the Holy King's decrees are gathered. Of course, this is very difficult, as long as you know it."

"Do I need to leave?"

The corpse king got up.

With a wave of his hand, the hall was filled with a heavy and sharp aura.

Ye Fan protects the queen.

In midair, a giant axe surrendered.

"Open Heaven Axe."

Ye Fan's eyes flickered.

Corpse Emperor said: "There are many innate spiritual treasures, and Kaitian Axe is one of them. In fact, the picture of life and death is also innate spiritual treasure."

"A picture of life and death?"

"Yes, it is rumored that the map of life and death is controlled by the Supreme Being of Yin and Yang. If you can get the innate spiritual treasure of the map of life and death, the power of the bloodline supernatural power will skyrocket."

"Don't be kidding, the map of life and death is mastered by the Supreme Yin and Yang, even the emperor can't get it, how can I do it."

"There are rumors that at the end of the ancient times, the life and death map flew out of the forbidden area of yin and yang, wrapped in something and disappeared into the vast universe; for this reason, it also caused countless strong people to wander the starry sky to search, but to no avail."

"If your luck is strong enough, you may be able to encounter a life-and-death map, or a life-and-death map will fall in the ancestral star, everything is possible."

"The opening axe will be borrowed from you first."

The Corpse Emperor seemed to understand what Ye Fan was thinking, and he would use the Sky-opening Axe to split the barrier that started the Emperor's Mausoleum.

"Then I'm welcome."

Ye Fan grabbed the opening axe, and instantly, he felt the power of the stalwart, oppressing him and making his body tremble.

Rumble.

The Heavenly Hegemonic Body is turned on.

Ye Fan rushed out of the Hall of Longevity, holding the Heaven-opening Axe tightly in both hands, and let out a roar.

this moment.

He is like a \*\*\*\* of war.

"scold."

Ye Fan's silver hair danced wildly, the sky's hegemonic body recovered to the extreme, his blood was soaring, he held the axe high, and slammed it down.

That axe light ripped apart the sky and rushed into the distance.

Astonished countless creatures.

Rush into the world channel, rushed to the outer starry sky.

"What a powerful magic weapon."

Ye Fan looked at the opening axe, which was extremely heavy and made him overjoyed. This was the magic weapon he needed.

Breakthrough all methods.

Ye Fan felt that with the Heaven-Opening Axe, he could kill any creature, and no one could stop him.

At this moment, Ye Fan wanted to swallow the Heavenly Axe all by himself.

only.

As an innate spiritual treasure, the Kaitian Axe cannot be refined and can only be used.

Otherwise, the Corpse Emperor would have already been refined.

Ye Fan landed, and the corpse said: "The artifact spirit in the opening axe has not recovered, otherwise the Taoist monks will not be able to use them at all, and they will not even be able to approach. This is an invincible magic weapon that can only be used by saints and even higher beings."

"That's it, I'm leaving. Ye Fan, I'll give you a piece of advice. You can't rely on the supreme weapon of the Black Prison Supreme. You need to give it up this morning, otherwise you will have a catastrophe in the future."

After the corpse emperor finished speaking, he left without breaking the air.

Ye Fan frowned, the Corpse Emperor was talking about an evil dagger, no doubt about that.

He also knew that the dagger entrenched in the Taoist palace was a ticking time bomb, but there was no way he could drive it away. In addition, the dagger had helped him many times, and Ye Fan also needed it at this stage.

Let's talk about it later.

Ye Fan didn't think about it anymore.

Now that he got the opening axe, Ye Fan came to the First Emperor's Mausoleum again, and came to the enchantment.

"call!"

He took a deep breath.

Afterwards, it exploded in an all-round way, and all the power in the sea of bitterness was injected into the opening axe.

boom!

The opening day axe shines brightly.

Light burst out.

The entire southern border trembled, and a beam of light shot into the sky, lingering for a long time, alarming countless creatures.

On the spot, Ye Fan shouted and slammed down.

The opening axe slashed on the barrier fiercely, only to see the light of the knot flickering frantically, becoming more and more dazzling.

"Open it for me!"

Ye Fan kept roaring, and all the energy was delivered.

Kaitian Axe seemed to be struggling with the barrier, and the area of Shihuang Mausoleum trembled.

In an instant.

The red moon disappeared.

Soldiers move.

Rumble.

The soldiers from this street came at lightning speed, but Ye Fan couldn't resist at all.

"Vulcan Sword."

At a critical juncture, the drought appeared.

A knife smashed the soldiers into the air.

"Dry."

"Ye Fan, you continue, I'll hold these soldiers." The voice of the dry scorpion was iron.

Ye Fan found that the drought had broken through.

Has become a Taoist monk.

good good.

Another big boost.

"kill!"

Commander Kong Mie also came and dealt with the soldiers together with Han Yan.

Ye Fan used the Great Blessing Technique and the Great Inflation Technique, his strength soared again, and his bloodlines were all recovered.

It is strange to say that the power of yin and yang was injected into the opening axe, and the power of the opening sky axe was found to have skyrocketed.

"Crack!"

A crack appeared in the barrier.

good!

Ye Fan was overjoyed, he was insisting madly, and he would be able to break the barrier soon.

"Open it for me!"

a moment.

There are enough cracks, and Ye Fan rudely smashed the opening axe to the ground, which indicates that the enchantment was split into a big hole.

done.

Ye Fan gasped.

at the same time.

When a crisis came, Ye Fan's hair stood on end, and without thinking, he immediately blocked it with the opening axe.

"boom!"

A ray of divine light came and knocked Ye Fan into the air.

"Haotian Divine Light."

"Wizard Lord, it's you!"

Ye Fan was furious.

At this juncture, the witch master actually came out to make trouble.

This blow was very heavy, and he consumed 80% to 90%. At this moment, he was hit by the full-strength blow brewed by the witch master, and blood spurted wildly.

"Ye Fan, you are the one who died."

The witch master had a grim face, holding the Haotian Mirror and descending with the Buddha Lord, the Emperor Alliance Leader, and Jiang Wudao.

Without giving Ye Fan a chance to breathe, the four of them dealt a ferocious blow again.

"The rabble, native chickens and dogs."

Ye Fan held the opening axe and was extremely confident. At this moment, let's send the witch master and the others on their way.
