Chapter 1391: self redemption

"This son is extraordinary, is it the one who was chosen in the underworld, the one who can lead the underworld to glory?"

The high priest was surprised.

He came to the ancient coffin again, looked at Ye Fan Yuanying, and wanted to see through.

But.

Ye Fan's reason is not a big secret.

"Boy, if you want to redeem yourself, you can only follow the cultivation path of our skeleton tribe. I ask you to create a skeleton body."

The high priest grabbed countless resources.

Those are the treasures of heaven and earth that have been accumulated for countless years in the Underworld Temple, even the dragon tendons of the ancient dragon race, even the blood of the phoenix, and many, many treasures against the sky.

Temple of the Underworld.

Day and night, there was a roar.

That is the figure of the high priest forging the skeleton.

Ah Dou and the nine commanders came several times, and after learning the reason, they stopped asking more.

time flies.

A year in the blink of an eye.

This year, Ye Fan's Nascent Soul gradually grew, and in the nurture of countless resources, the remaining trace of spiritual consciousness has also turned into a vast ocean.

only.

Ye Fan has not recovered yet.

On this day, A Dou was successfully promoted and became a powerhouse in the God Transformation Realm. He excitedly came to the Underworld Temple.

"Grandpa, look, I've become a God Transformation powerhouse, and now I can go to the source to try."

"it is good."

The high priest nodded.

Ah Dou glanced at it and said, "The skeleton body is about to be built, tsk tsk, Grandpa, you are so willing to use countless treasures of heaven and earth. This skeleton body is too terrifying, indestructible, I see, nine masters. Together, we can't beat it."

The high priest said: "This Ye Fan, my intuition tells me, is very unusual. If I do this, it can be regarded as a good relationship with him, which may be of great benefit to my family in the future."

"It's just that after a year, his spiritual consciousness has recovered, and it has grown like a vast ocean. The power of Nascent Soul is also very terrifying, but there is no recovery."

"I don't know why."

Ah Dou didn't understand either, so he urged, "Grandpa, bring the Five Origins first."

"Let's go."

The high priest left with Adou.

The nine commanders waited anxiously.

Roar for half an hour.

When they returned, Ah Dou was very frustrated. Seeing this, the commanders sighed, knowing that Ah Dou also failed.

"High Priest, could it be that this is really this creature named Ye Fan? But, he is a human being."

"Make him a skeleton body, isn't it our skeleton race creature?"

Commander, Adou: "..."

"Hahaha, grandpa, it has to be you! High!"

"Don't bother me, get out."

The high priest blasted them away, and now the skeleton body building has come to an end.

last step.

is to activate.

Now, this skeleton body is dead, and it needs to cast a secret technique, condense the soul fire, and smash the body.

And the soul fire is naturally Ye Fan's Nascent Soul.

because.

The high priest needed to refine Nascent Soul into the skull and head, and at the same time, he had to find ways to awaken Ye Fan's spiritual consciousness.

This is actually the hardest.

A little mistake, and it will be doomed.

"Boy, I don't know why you can't recover, but are you really willing to die like this? Joining my skeleton race is the only way for you to redeem yourself."

"let's begin."

The high priest cast a secret technique, grabbed Ye Fan Yuanying, and began to refine it into the skeleton body.

And Ye Fan.

In other words, Ye Fan's spiritual consciousness seemed to be trapped in himself.

In the dark space, Ye Fan moved forward. He wanted to get out of this dark world, but this darkness was endless.

One year, but Ye Fan felt that a hundred years had passed.

He is so lonely.

even about to collapse.

If not, he has obsessions, he still has sisters, and the queen, and Yue Linglong...

There are many, many dearest and dearest people.

How could he die!

"I want to get out of this dark space, in the sky and the ground, no one can control me!"

"My God! Lord Yan!"

"You can't take me away!"

Ye Fan kept reciting the names of his lovers, kept moving forward, one step at a time, even if he was extremely tired, but he knew that he could not stop.

Maybe, as long as you stop, there will be no cure.

I don't know how long it took.

Ye Fan was about to run out of fuel, and his footsteps became slow, like an old man who was dying, like an old man who was dying.

He wants to stop.

He is so sleepy.

I really want to fall to the ground and get some sleep.

At this moment.

He has already begun to be confused, his consciousness has begun to blur, and there is only a trace of obsession, supporting, instinctively, to move on.

"Xiaofan!"

"Xiaofan!"

Suddenly, when Ye Fan heard the call, he trembled and regained some energy.

"Who is calling my name!"

Ye Fan was ecstatic.

In this dark space, he felt that countless years had passed, and at this moment, a voice finally appeared.

"Xiaofan."

This time, the voice was exceptionally clear.

"elder sister!"

"Miss!"

Ye Fan recognized it.

This is the voice of the eldest sister Meng Qingyi, the call of the eldest sister.

this moment.

Ye Fan seemed to have tears in his eyes.

For a moment.

All tiredness is gone.

Has infinite fighting spirit.

"Xiaofan, where are you?"

"elder sister!"

Ye Fan shouted.

In response, hoarse.

How much he wanted to talk to his sister, he ran wildly, running towards the front endlessly.

"elder sister!"

At this moment, Ye Fan's body shone with light, as if somewhere, the power of destiny had descended.

let him.

In this moment, there is redemption.

"elder sister!"

Ye Fan kept running and shouting.

The light of his body is getting bigger and bigger, more and more dazzling, more and more brilliant.

Lighten the dark space gradually.

gradually.

Bright as day.

Brilliant.

Outside.

The high priest was so frightened that a terrifying spiritual force erupted, sending him flying.

This spiritual power has reached the level of divine transformation.

"elder sister!"

With a cry, Ye Fan recovered.

The high priest hurriedly said: "Boy, calm down immediately, now is the key, just the last step."

"what?"

Ye Fan Yuanying opened his eyes.

He looked around, found the high priest, and saw that he was merging with the skeleton body.

"What the hell!"

"Boy, don't be ignorant, your self-sacrifice, only Nascent Soul is left, I want you to redeem yourself. I used countless treasures of heaven and earth to create a skeleton body and merge with you. This is a great kindness. "

"Depend on!"

Ye Fan shouted.

"Who wants a skeleton body!"

"Why, don't want a skeleton body, can you grow a body with Nascent Soul! You go to seize the house? Indeed, the underworld is not only the skeleton race, there are also some flesh and blood creatures, but, then, are you still yourself!"

Ye Fan was speechless.

Indeed, after seizing the house, seizing the body of other creatures is not his own at all.

His celestial hegemony was completely gone.

"Listen to what you mean, the skeleton body has a mystery?"

"That's natural."

The high priest was very proud and said: "Since it is called self-salvation, it must be able to restore your original appearance. However, this is very difficult, and you need to find an opportunity. I can only help you build a skeleton body. I can not help you."

"If one day, you can flesh and bones, then your family will be reborn. Everything you once was will also be restored, everything you are now will be blessed, and you will reach a new level, powerful and unimaginable, If it's not good, it can break through the bottleneck of God Transformation."

Ye Fan was excited.

I didn't expect the skeleton body, and such mysterious.

A chance to restore everything it once was.

In this way, Ye Fan of course chooses the skeleton body, even if there is even the slightest hope, he will try it.

Celestial hegemony, yin and yang blood, etc., these are reluctant to Ye Fan and must be brought back.

"Fusion!"

Rumble.

In an instant, the rays of light were bright.

The skeleton's body was revived, and Ye Fan was completely integrated with it. This body was not gloomy, its thoughts were bright and holy, and it exuded majesty and aloofness.

Ye Fan saw that on all the bones in the body, there were some small patterns, including dragon patterns, phoenix patterns...

Dense, flickering.

The high priest said: "The reason why the lines appear is because the corresponding heaven and earth treasures, such as your arm, are made of keel and dragon tendons."

Ye Fan suddenly realized.

He moved for a while, except that there was no flesh and blood, the rest was no different.

It's really an amazing experience.

Ye Fan felt that now he was comparable to the powerhouses of God Transformation, and even in the early days of God Transformation, he could directly kill him.

It's so arrogant!

It's so arrogant!

No way, the high priest made the skeleton body too terrifying and indestructible.

At the same time, Ye Fan's mental power has also reached the level of God Transformation. With comprehensive combat power, Ye Fan is confident that he can kill the initial stage of God Transformation.

"That's right, supernatural powers!"

Ye Fan used supernatural powers such as the big cutting technique, and found that he could still use it.

It is also possible to perform unique skills such as Daoquan, because although there is no flesh and blood, bones can store energy.

That is to say.

Except for Ye Fan's lack of Celestial Hegemony, Yin and Yang blood, and many magic weapons, nothing else has changed.

Good good!

Ye Fan was overjoyed.

"High Priest, the grace of re-creation is something Ye Fan will never forget."

"I will help you, but also for our underworld, for the skeleton race. Come with me and see if you can get the recognition of the origin of the world."

The high priest did not wait for Ye Fan to react, and brought Ye Fan directly to the origin.

The origin of the underworld.

Ye Fan found that there was something wrong with the origin of the underworld, which seemed to be turned into nothingness.

"Let's try it and see if it can be recognized?"

The high priest was nervous.

Because this is the last hope.

Must be successful.

Ye Fan rushed to the origin of the world, and he actually discovered that this origin gave birth to some emotions, complex emotions.

It's incredible.

The origin of the world, if emotions are born, and wisdom is naturally born, what kind of situation is that?

Ye Fan found that the emotions in the source were very chaotic.

Immediately. ,

The origin of the world is surging.

Those emotions seemed to resist.

"There is movement."

The high priest fights.

Ye Fan shouted: "High priest, help me with all your strength!"

"it is good!"

Although the high priest is old, he is a peak god, how powerful, and the monstrous energy is gathered.

Rumble.

The power of the Great Dispel and Great Purification has skyrocketed.

I only saw that in the source, those negative emotions gradually disappeared.

Soon.

All vanished, and the source was returned to normal.

at the same time.

Ye Fan entered the source.

He greedily absorbed the power of the source, Nascent Soul continued to strengthen, his spiritual power soared again, and even his skeleton body was covered with a layer of mystery.

"when!"

Suddenly, it seemed like the sound of the avenue.

The whole underworld trembled.

The high priest knelt down on one knee and paid homage: "Congratulations to Emperor Ming, thousands of years!"

Chapter 1392: Emperor Ye Fan

At this moment.

Ye Fan seemed to be enlightened.

ear.

All are Dao Xianyin.

His whole person seems to have been sublimated, fluttering like a fairy, and at the same time, all the information of the whole world has been sent in.

Emperor Ming!

Lord of the Underworld!

He is the Emperor of the Underworld, forever!

"boom."

In an instant, Ye Fan's skeleton body burst into flames, and his whole person became extremely sacred and majestic. In the flames, his body evolved again.

The high priest was surprised and delighted.

He knew, it was successful, it was really successful.

Ye Fan was the son of destiny who led the underworld to glory.

"Do you want to give birth to flesh and blood?"

Ye Fan was looking forward to it.

but.

The final result was that he thought too much, and he did not give birth to flesh and blood, but his body was strengthened again, and at the same time, he established a connection with the origin of the underworld.

Sure enough, the road to self-redemption is not easy.

Ye Fan retracted his thoughts.

He did not expect that he would pick up the great creation.

Become the Lord of the Underworld.

The underworld, this is a big world, and it is not comparable to the heavenly world.

As the lord of the underworld and the emperor of the underworld, Ye Fan can already feel the power of faith.

outside world.

All over the world, Ye Fan's figure appeared, indicating the birth of Emperor Ming.

Countless living beings visit.

The endless power of belief gathered together, making Ye Fan feel stronger than ever before.

he thinks.

Now that he is facing the Lord of Platinum, he can directly blow it up and smash him to death.

Even in the face of the ghost master, there is still the power to fight.

a long time.

Everything is at peace.

"High priest, thank you, the grace of re-creation and the great creation of this day, I, Ye Fan, remember it in my heart."

"This is what you should get. You are the son of destiny in the underworld. I hope you can lead the underworld and the skeleton race to glory, break the cage, and escape."

Evan nodded.

Becoming the Emperor of the Underworld, he has already understood all the information of the underworld, knew the underworld, and was suppressed.

became a prison.

The creatures in the underworld cannot leave.

It's incredible.

Ye Fan thought that there is an entrance to the underworld under the dragon veins. Could it be that it was a method planted by the first emperor to suppress the underworld under the dragon veins.

Not only how.

What Ye Fan has to do now is mainly to redeem himself and find a way to leave the underworld.

Go back to the Temple of Hades.

Ah Dou, the nine commanders, and the leaders of other ethnic groups all arrived.

A piece of black.

Ye Fan found that there were dozens of powerful people in the realm of God Transformation.

Gee!

It's terrifying.

In the **** world in charge of the ghost clan, it seems that there is only one ghost master, a god-turning powerhouse. Even if there are still ancestors to hide, there are three or four in the sky.

Can the underworld.

There are dozens of them.

This is the gap. It is indeed a big world that once ranked in the top ten, and it is so terrifying.

"See Emperor Ming!"

All the strong, pay homage together.

At this point, Ye Fan was very surprised. The underworld was unprecedentedly united. He thought that there would be strong people who would not obey him.

"Everyone, please get up."

"I, Ye Fan, promised again that I will exhaust all methods to lead everyone out of the cage, and at the same time, lead the underworld to lead the clans to glory; in addition, I also hope that the clans will unite as one."

"Follow the orders of the Emperor Ming."

At this time, the high priest said: "Every ethnic group, immediately build a statue of the Emperor of the Underworld and dedicate the power of faith."

"Respect the order of the High Priest."

"and many more."

The strong men of all races are about to leave.

Suddenly, Ye Fan stopped, and then, he performed a great blessing technique, and the power of blessing poured out.

For a moment.

The square is boiling.

The power of blessing has made many strong men break through, and even a few seized the opportunity and even started to be promoted to God Transformation.

but.

It is not easy to be promoted to the realm of God Transformation.

The so-called transformation of the gods is to say that Yuanying is Yuanshen.

This is also why, the Lord of Platinum was blown up, he did not have Yuan Ying, but he did have Yuan Shen.

Yuanshen, to a certain extent, can be called the manifestation of the soul.

In ancient mythology, there is a saying that the soul leaves the body, in fact, it is the essence of the soul.

Yuan Ying Hua Yuan Shen needs to be well prepared.

Ye Fan waved his hand.

The strong men of all races left quickly.

The entire Underworld, because of the birth of the Underworld Emperor, began to twist into a rope, and the continuous power of belief gathered together.

"Adou, how did you leave the underworld back then?" Ye Fan asked.

A Dou shook his head, "I don't know, maybe some mechanism was dispatched, and it was inexplicably sucked into the black hole."

Ye Fan said: "Okay, you all go to work, I want to walk around and see the whole underworld."

The underworld is vast.

It was too long to travel all over the underworld, so Ye Fan could only find some special places, such as some terrifying restricted areas in the underworld.

this day.

Ye Fan came to the Styx.

This is the largest and longest river in the underworld. It stretches for an unknown number of miles. The river is extremely calm and has no buoyancy.

Even if a feather falls on it, it will sink.

The River Styx has a source.

It came out of a deep cave.

This cave is very scary.

It is said that even if it is in the realm of a god-turning powerhouse, it is a near-death experience.

Ye Fan entered the cave.

Drive straight in.

As the lord of the underworld, the resistance he received was very small, and he reached the bottom of the cave in a short time.

There is huge space here.

"Ming Emperor."

Suddenly, a vicissitudes of life sounded, and then two scarlet eyes appeared.

Those eyes were extreme.

Ye Fan said: "Come out."

The mysterious monster did appear. It was a monster with red hair all over its body.

"I didn't expect that the Emperor Ming appeared again, or it's a good thing for the underworld."

"What is the Emperor Ming doing here? I have always lived here and rarely go out."

Ye Fan looked at the red-haired monster. It was very powerful, and it turned into a god, similar to that of a high priest.

"I'm looking for a way to leave the underworld, so come here to see, do you have any way?"

"The Emperor Ming is joking. If I had a way to leave the underworld, I would have left long ago."

"Right."

"Well, if I find a way to leave the underworld and need help, you can listen to my orders at any time."

The red-haired monster's eyes flickered, and finally nodded.

"If possible, you can convey the news to the taboos in your other restricted areas, so that they can also obey the edict at any time. If you have any opinions, tell me, and I will go there in person."

"it is good."

Ye Fan left.

At this time, the green-haired monster appeared all the time.

In this cave, there are actually two monsters, a couple.

"The Emperor Ming is too weak, we can completely suppress it," said the green-haired monster.

"not that simple."

The red-haired monster shook his head and said, "He controls the origin of the underworld, and he has gathered countless powers of belief, and his combat power can rise steadily. Moreover, the old monster of the high priest is very terrifying, so it's better not to provoke it."

"Convey it to other restricted areas, there must be some who are not afraid of death, let them show off. Let's watch a good show."

Many restricted areas in the underworld have all received news.

Some restricted areas were silent.

Some restricted areas riot.

"I'm not even a peak god, and I'm worthy of being the emperor of the underworld, and I want to drive this seat. It's really courting death!"

"I don't agree!"

Forbidden area Yingou Mountain.

A different voice sounded.

then.

this day.

Ye Fan led the army of skeletons, and all the nine commanders and Adou also arrived, descending on Yingou Mountain.

The underworld was shocked.

The clans watched and the taboos in the major restricted areas also emerged.

What the **** is this doing?

Could it be.

Want to level the Yingou Mountain?

In fact, it was true, Ye Fan didn't talk nonsense, and together with the nine commanders and Adou, killed the taboo existence.

Even if it is the peak of the gods.

The nine commanders are all in the late stage of God Transformation.

Together, they have the power to transform into a god.

And Ye Fan, although Yuan Ying has not turned into Yuan Shen, but his combat power is not bad, and the power of the source of the world and the power of belief should not be underestimated.

The taboo exists in the unwilling roar, the spirit and soul of the beaten are all destroyed, and the body is dead.

Yingou Mountain was razed to the ground.

On top of the ruins, a statue of Ye Fan was built!

Grass!

There are many taboos and curses, this Emperor Ming is really a murderer.

Build idols on the ruins of Gutter Mountain!

After this battle, many restricted areas are also honest. Although this Emperor Ming is not enough, he is really ruthless.

and.

Don't play cards according to common sense.

How could the Emperor Ming bring the army and join forces to deal with the restricted area, and he is really not afraid of losing face at all.

In fact, this is why Ye Fan wants to stand up.

Those taboo existences are just around the corner, and he wants to make those guys calm down.

The battle was still pretty good.

There are many taboos that have news, and I am willing to obey the edict when the time comes.

Ye Fan continued to walk in the underworld, trying hard to find and sense...

Time flows like water.

Another year.

On this day, in the Underworld Temple, an earth-shattering ray of light rushed beyond the clouds, illuminating a radius of 3,000 miles.

Ye Fan, Yuan Ying transformed into Yuan Shen.

He has officially entered the ranks of the God Transformation powerhouses, and at the same time, his comprehensive combat power has also climbed to the late stage of God Transformation.

Ye Fan and one of the nine commanders fought against each other, and they were evenly matched.

The increase in strength did not make Ye Fan much happy, because he had no clues or clues.

Is it really going to be trapped in the underworld for a lifetime?

Ye Fan didn't want to.

Earth, and his loved ones!

do not know.

How are the sisters.

...

Earth.

In more than two years, there has been a great expansion, and the power of the dragon veins of the First Emperor's Mausoleum has spread.

Activated many small dragon veins in the earth.

So ever.

Some strong clans have caught the dragon veins.

Good luck.

Meng Qingyi and the others also made breakthroughs one after another. Now, they have all reached the pinnacle of breaking the void.

Cultivation can be described as extremely fast.

this day.

Wine Sword Immortal turned into a god.

The sword energy is 30,000 miles across, and the light is cold in the whole world.

In fact.

Before him, Empress Suzaku and Empress Qingluan had already transformed into gods, it had been a year.

because.

Su Muyu has purified a lot of blood for the two empresses. Now, the concentration of phoenix blood in the two empresses is as high as 50%.

The bottleneck is now.

It takes Su Muyu to break through to help the two empresses continue to purify their blood.

Along with the cultivation, the talents of the powerful clans such as the Protoss, Shura, Jinpeng, etc. gradually unfolded.

start to rise.

The Protoss, the first ethnic group in the ancient times, how could it be ordinary.

The further back, the talent and strength of the Protoss will be revealed to the fullest.

Even before the two goddesses, the **** emperor was promoted to a god. Not only that, but there were also several commanders of the **** race who were promoted to a god.

The same is true of Queen Shura.

...

In more than two years, the earth has undergone earth-shaking changes.

A thriving.

It seems that he has completely forgotten the cruel situation that the four world coalition forces killed two years ago.

Since two years ago, Bai Qi and Hei Monkey were moved away by the ghost master, and there has been no news.

did not return.

Of course, the ghost master, the Wuji sword master, and the master of the vast sea did not come to the earth again.

Not sure what's going on?

Whether they perished together, or what happened, is unknown.

Another year.

On this day, the gate of heaven opened wide, and Meng Qingyi and others, Jiujianxian, Lady Suzaku, Lady Qingluan and others all came to the World Passage.

Here, there is a statue of Ye Fan.

Two years ago today was the day when Ye Fan sacrificed himself, died generously, and sacrificed his life for righteousness.

Everyone came to pay homage.

Chapter 1393: Cultivating Yuanshen

"Xiaofan, everyone is here to see you."

The sisters knelt in front of the statue, burning incense and burning paper, and they all burst into tears.

Even after more than two years, they are still mourning.

Meng Qingyi looked at the statue. For the past two years, she has been exploring the mysteries of fate, cooperating with the seven-star chart, looking for clues about Ye Fan.

But nothing gained.

However, Meng Qingyi always felt that Ye Fan was not dead, he must be somewhere.

"Seven-star chart."

Meng Qingyi escaped the fate plate and muttered to herself, "If Xiaofan is not dead, please take me to find it. Isn't the power of fate the greatest mystery, why can't we find Dao Xiaofan!"

Rumble.

At this moment, the seven-star fate plate rushed out of a brilliance and submerged into the statue.

but.

The brilliance was colorless, invisible, and silent, and no one noticed it.

However.

The idol trembled.

"what happened?"

Everyone was shocked, and the statue trembled.

Who, so bold, dared to destroy Ye Fan's idol!

The sisters were instantly murderous.

Fang Rui's eyes bloomed, and the terrifying spiritual power spread for thousands of miles, and no creature was found.

"No!"

Fang Rui shook her head.

Everyone was more confused.

Suddenly, Meng Qingyi said, "It must have been Xiaofan's reminder that the **** statue appeared, and then tell us that he is not dead."

"Really, ma'am!"

Han Bing and others were both surprised and delighted.

Jiu Jianxian and the others looked at each other, shook their heads and sighed, they didn't believe it, they just thought that Meng Qingyi and the girls were deceiving themselves.

In fact.

Ye Fan, who was far away in the underworld, got a touch of induction, as if there was a stream of energy, blessing him, and at the same time, connected to an object.

It's just that he can't study.

"It seems that the primordial spirit needs to be cultivated to be more powerful in order to study what is going on."

"If you want to practice the invincible primordial spirit, you can only practice the legendary Great Desolation Swallowing the Heavens." The high priest came over.

"The Great Wilderness Swallowing the Heavens? Do you have one?"

"Since it's a legend, of course I don't have one."

Ye Fan was speechless.

The high priest said: "You have been walking in the underworld for so long, can you find a way to break the shackles?"

Ye Fan shook his head.

The high priest sighed: "Perhaps, this is the unbreakable cage."

"No, there must be a way out."

"Didn't Ah Dou leave?"

"Wait a second, don't worry, I have confidence, because, I seem to have established a connection with something, and this connection, my intuition tells me, comes from the outside world."

"really?"

The high priest's soul sparked wildly.

Ye Fan said: "Yes, but my Yuanshen is not strong enough now, and I can't find that kind of connection again. What can you do to cultivate Yuanshen's secret method?"

The high priest said: "Every ethnic group has the practice of the Yuan Mystery Method. My Skeleton Clan's cultivation of the Yuan Mystery Method is not bad, but compared with the legendary Great Wilderness Swallowing the Sky, it's like mud."

"Don't say that the Great Wilderness is swallowing the sky. If you don't have anything, talk about it."

"Then go to the soul sea. The soul emperor's primordial spirit is particularly powerful, and it can be said that he is the first primordial spirit in the underworld."

"Soul Sea!"

Ye Fan muttered to himself and opened the space channel.

He is the Emperor of the Underworld, and over the past year, he has gradually learned some methods. Long-term space shuttle can be carried out.

"Come with me."

Ye Fan called the high priest.

The space shuttle for a quarter of an hour, and finally, they reached the soul sea.

This is the north of the extreme north of the underworld, the edge of the underworld, and few creatures come here.

The high priest has also come here every hundred years.

Rumble.

The sea of souls began to surge at this moment, and then, a broad avenue appeared, accompanied by vigorous and low words: "The Emperor of the Underworld and the High Priest are coming, making my sea of souls radiant, please!"

Ye Fan and the high priest looked at each other and entered the soul sea.

In the soul sea, there is no cave.

In a secret realm, Ye Fan finally saw the so-called Soul Emperor, but there was no entity, just a touch of Yuanshen.

only.

Soul Sovereign's Primordial Spirit is indeed powerful, almost substantive.

"Ming Huang, High Priest, what do you mean when you come here?" The Soul Emperor did not radiate first, but turned into a human form, like a spring breeze.

"Soul Sovereign, I won't beat around the bush, I want your Primordial Spirit cultivation method."

"Oh?"

The Soul Emperor's eyes flickered.

Ye Fan said: "Indeed, it's a little immoral to ask for your secret method of housekeeping, but this is related to our leaving the underworld."

"what!"

The Soul Emperor was shocked.

The high priest said: "The Emperor Ming is originally from the outside world, so there is no need to lie to you about this. Now, the Emperor Ming has established a connection with the outside world, but the primordial spirit is not strong enough to find the connection, so I came here to ask you for Yuan. God's practice method."

"I see."

Soul Sovereign's face was still, and he couldn't see what it meant.

Ye Fan said: "Of course, I won't ask for nothing, we can exchange. Whatever you want, it doesn't matter."

Soul Sovereign pondered: "Underworld Sovereign, I also want to leave the underworld. Here, I can't break through again. I can give you the cultivation method of Yuanshen, but you have to do me a favor."

"Tell me."

"In the depths of the soul sea, there is a secret palace. I have been researching it for many years, but I have not been able to open it. I hope that the Emperor Ming and the high priest will help me take a look and see if they can open it."

Ye Fan became vigilant.

But the high priest said: "This is a small matter, it is not too late, let's go now. Emperor Ming, what do you think?"

"Can."

"Hahaha, cool, come with me."

Soul Emperor took the lead.

Ye Fan followed behind and said, "High priest, are you not afraid of traps?"

The high priest said: "I once took the Soul Emperor to the source, and asked the Soul Emperor to try to see if it could be recognized, but the Soul Emperor failed."

"I'm saying this to tell you that the Soul Emperor knows the importance of your father. If you kill you, then the underworld may undergo a major change, or even collapse. The Soul Emperor is a smart person and knows what to do."

"In addition, I secretly calculated that there is no bad omen."

Ye Fan was thoughtful.

He secretly used the big deduction technique and the big prophecy technique, but he didn't calculate anything, but he was always cautious.

In silence, Ye Fan performed the big avatar technique.

The main body becomes invisible, and the clone follows the action of the high priest.

An hour later.

Came to the secret palace that the Soul Emperor said.

"That's it, I can't open this portal, you have a look. There must be a great fortune opportunity in this. I can share it with you." The Soul Emperor smiled: "Don't worry about cheating, I have been living in the soul sea, I hardly ever walk around, there is no negative news about me in the entire underworld, you can trust me."

The clone falls before the portal.

Touch Portal.

Ye Fan's body naturally felt the same way.

The portal is simple. If you want to open it, it will definitely not work. The magic weapon that Ye Fan can use now is the supreme dagger.

Clone shot, the supreme dagger stabbed on the portal, and all of a sudden, the dagger shines brightly.

A strange force erupted.

This power made both the Soul Emperor and the High Priest pale, and they couldn't help but retreat, daring not to be contaminated.

This is forbidden power.

It was the forbidden power that was once absorbed in the Immortal Mountain Burying Soul Ridge. Ye Fan found that this forbidden power was very destructive to the primordial spirit.

It is no wonder that the Soul Emperor is afraid.

"Or not!"

Ye Fan was very disappointed, the supreme dagger could not open the door.

Then he's really out of luck.

There are no other magic weapons on him, only some supernatural powers.

But just when Ye Fan was about to give up, he heard, with a click, the supreme dagger stabbed into the restricted area.

"Come here!"

Ye Fan called the Soul Sovereign and the High Priest over and said, "My magic weapon pierced the portal, maybe I can break the portal open. Is there any resource to use, more energy can be injected into the dagger to make it more powerful."

The Soul Emperor was overjoyed, and with a wave of his hand, countless spirit stones appeared.

Burn in an instant.

The surging energy infuses the Supreme Dagger.

The light is getting brighter and brighter, the penetration is getting deeper and deeper, and at the same time, cracks appear on the portal.

Click!

Click!

Cracks are gradually increasing.

three days later.

The entire portal was covered with cracks, and Ye Fan, the Soul Emperor and the High Priest stopped drinking and shot together.

"boom!"

Finally, the door was blasted open.

In an instant.

An aura that made the soul tremble came to the face, but it was not a crisis, but an incomparable familiarity.

"Oh my God!"

The Soul Emperor exclaimed and screamed.

The secret palace is not large, and the interior is actually full of sparkling stones.

This is the soul spar!

It can improve the strength of the primordial spirit and assist in the cultivation of the soul spar of the primordial spirit.

Soul spar is extremely precious, but there are so many here, a rough estimate is at least 10 million.

What a concept!

Great wealth and good fortune.

Ye Fan was quick-witted and took away half of it immediately, which made the Soul Emperor very dissatisfied.

High Priest channel: "Soul Emperor, if it wasn't for the Underworld Emperor's magic weapon, this secret palace would not be able to be opened. The Underworld Emperor takes it away normally, it's reasonable for you, isn't it?"

Soul Sovereign gritted his teeth and nodded, "That's right, the remaining 70% of me, High Priest, you take 30%, no problem."

"Okay, I don't care."

The high priest got 30% of the soul spar, and threw them all to Ye Fan.

At this moment, Ye Fan had nearly seven million soul spar, and he was very grateful to the high priest.

"Soul Sovereign, Primordial Spirit cultivation method, I hope you can keep your promise. This is related to our ability to break the cage. I think, you don't want to be trapped here for the rest of your life. In the underworld, the peak of spiritual transformation is the end, and you shouldn't stop at Here it is."

Originally, the Soul Emperor was very hesitant.

However, the words of the high priest made him extremely shaken.

yes.

In the underworld, the pinnacle of divine transformation is the end.

Even if he gets so many soul spar, I am afraid that he will not be able to improve, only to break the cage.

"Ming Huang, I hope that if you can leave the underworld, you will not forget me."

"It's natural."

With a wave of the Soul Emperor, the cultivation method was passed on to Ye Fan. In addition to the cultivation method, there were some insights from the Soul Emperor's cultivation of the Primordial Spirit.

"Thank you!"

Ye Fan was very excited.

After saying goodbye to the Soul Emperor and returning to the Underworld Temple, Ye Fan immediately began to practice.

"The soul emperor's primordial spirit cultivation method is indeed extraordinary. It is much stronger than the skeleton clan. I hope that with the soul spar, my primordial spirit can grow as soon as possible and sense the connection as soon as possible!"

Chapter 1394: Comeback, shining Seraph!

The earth is thriving.

Set off a training frenzy.

In fact, more than two years ago, the four worlds came, the sun retreated, and the planet exploded, which had already affected the mundane world.

The queen called together the heads of the world's nations.

Expand the meeting.

The final decision was to gradually inform the secular world, and to convey the cultivation method.

Ancestral star is a whole.

The queen and other powerful people have decided to spread the cultivation to the whole world. Zu Xing is a whole, it is just that Da Xia is taking the cultivation path, and it is really buried.

but.

The promotion of cultivation is undoubtedly a crazy invasion of the secular world, which will lead to changes in the worldview of countless human beings.

Therefore, don't be too hasty.

The Queen summoned the Protoss and other powerful tribes, as well as the sisters of the Tianzun Temple, as representatives, to form an alliance.

This alliance is mainly to discuss important matters.

Just like parliament.

Gradually, some ethnic groups living in Daxia began to migrate all over the world.

Spread the practice method to the world.

at the same time.

The Tianzun Temple also issued a global call to select talents to join the Tianzun Temple, and they will be fully cultivated by the Tianzun Temple.

Although there are yellow, white, and black people in the whole world, they are all human in essence.

The human race needs great unity.

because.

More and more ethnic groups are born, and the number of human races is actually not many. The total number of human beings in the world is currently only 10 billion.

But.

There are three billion creatures that Ye Fan brought from the ring world alone.

There are more and more indigenous peoples and more trees.

Although.

In terms of the number of a single ethnic group, the human race is still the first; however, the total number of all ethnic groups on the earth is probably already hundreds of billions.

Over the years, the earth has undergone tremendous changes, and it is no longer the blue star it once was.

Compared with the past, the earth is now a thousand times larger, and it is still expanding.

anyway.

On this day, the Queen and others explored the First Emperor's Mausoleum again, and they wanted to enter the palace.

However, for more than two years, they have tried every means to no avail.

"Eldest sister, are you telling the truth, is there a way to find Xiaofan in the palace?"

"That's the only clue I've found."

Meng Qingyi was very determined.

For the past two years, he has been studying the mystery of fate day and night, and finally, he has found some clues that point to the palace.

She always believed that Ye Fan was not dead.

Although she had no evidence and didn't know how to say it, her intuition told her that it was right!

only.

The palace gate has been unable to open.

This made them very depressed.

Just when the sisters were studying the portal of the palace, outside the earth, in the starry sky, a starry sky storm broke out.

all of a sudden.

Heaven and earth flickered.

at the same time.

There are many warships on the starry sky, which are menacing and murderous.

"not good!"

The emperor's face changed.

Immediately call the Queen.

soon.

Before World Pass. Countless strong people gathered.

"Did the ghost master kill you!"

"So, Bai Qi and the Heaven and Earth Demon Ape were beheaded!"

This is bad news.

All the powerhouses looked serious.

Judging from the scale of the warships in the extraterritorial starry sky, this time is even worse than the last time the four worlds coalition forces.

But the difference is.

Nowadays, there are already god-turning-level powerhouses on the earth, and not one or two.

Everyone has some confidence.

"Boom."

Starry sky storm, madly raging.

finally.

A blazing light swept away the starry sky storm.

The starry sky is illuminated.

"That is!"

Everyone was shocked.

because.

They saw a familiar guy.

"Angel Race!"

Yes, an angel.

Not ghosts.

This is what all the strong people have not imagined.

Memories are long gone.

The Angel Clan was the first to descend on Zuxing, but it was repelled, and the Angel Clan suffered heavy losses, and the Angel Clan Master fled in embarrassment.

Now making a comeback.

only.

The terrifying scorching light just now did not burst out from the angel clan master.

Look around.

On the splendid main battleship of Nanda Gundam, an incomparably beautiful woman, holding a scepter, is sacred and majestic.

Like Ye Fan, she has silver hair, and behind her, there are twelve wings, and they are golden.

Seraph!

It turned out to be the legendary Seraph.

This is the most powerful bloodline of the angel race.

rumor.

The ancestor of the angel family is the Seraph.

And now, the blazing angel appeared again, and the queen and the others found that the blazing angel was still an acquaintance.

"Alice!"

The gates of heaven opened, and Gulot rushed out.

The backbone members of the Tianzun Hall were destroyed, but Gulot was not there at the time and escaped.

He finally saw the person he missed day and night.

But.

It's already been a different person.

Alice, who has become a Seraph, can be said to be no longer a human being.

and.

Judging from the aura emanating, it is unimaginably powerful, and the realm of transforming gods did not run away, even in the middle and late stages.

And he Grotte...

Now, the combat power is only comparable to the Void Realm.

Worlds apart.

Golot was very sentimental.

And seeing Gulot, Alice's eyes also flickered, but soon, it became deep, and Gujing had no waves.

"Shh!"

The Angel Clan Master stepped out of the battleship and looked at the Queen's people through the World Passage.

"I didn't expect it, we can make a comeback, and the power is nothing more than thinking about it."

"Hahaha, because, Alice, has evolved into a pure-blooded seraph."

"Under her leadership, our angels have been fighting east and west in recent years, destroying many big worlds, and enslaving countless creatures. They are growing stronger day by day."

"This time, let's kill, there are ten powerful gods, and Queen Alice is even more powerful in the late stage of gods, and the combat power is comparable to the peak of gods!"

"You, three or two small fish and shrimp, how can you fight us!"

The angel clan master is extremely arrogant.

Back then, how embarrassed he was, he was severely injured and fled for his life, and countless clansmen were beheaded.

This tone, he endured until now.

Finally released today.

He is going to kill!

Kill everything.

"All attack, destroy everything." The Angel Clan Master roared frantically, giving orders, and immediately, countless battleships started.

Simultaneously.

On the battleship, countless soldiers shot.

This includes the powerhouses at the level of gods.

a time.

The monstrous catastrophe spread across the earth.

"Go!"

The queen drank.

She took the lead in mobilizing the luck of the summer, and integrating with the golden dragon of luck.

Subsequently.

The **** emperor and other powerful people of all ethnic groups, as well as Jiu Jianxian, Empress Suzaku, Empress Qingluan, and sisters all shot.

All the warriors of all tribes also shot.

not only.

And battleships.

In the past two years, Fang Rui's technology has continued to develop, and the technology of cash has also followed.

Can create more advanced warships.

Changes in the earth have led to the emergence of rare metal resources that have never appeared before, and there is no shortage of manufacturing materials.

"Boom."

Ten thousand warships emerged.

Most of them belong to Tianzun Temple, and the rest belong to various clans, because each clan also collected a lot of rare materials and handed them over to Tianzun Temple to build.

So many warships, none of them are weak.

The Angel Patriarch was very surprised.

The great collision of Kuang Century broke out at this moment.

Just in the outer space.

"boom!"

How terrifying that is.

It can be said.

This is the strongest collision between the two sides.

On the Angel Race side, many warships collapsed and countless soldiers fell; on the Earth side, the situation is not optimistic.

10,000 warships, more than 2,000 collapsed, and more than 3,000 suffered varying degrees of damage.

As for the soldiers of all ethnic groups, countless people were killed.

In the first collision, both sides suffered heavy losses.

But the patriarch of the angels grinned: "How much power do you have to lose, and I have a lot more."

"kill!"

The second wave of collisions is about to begin.

Gulot was very sad when he saw the **** purgatory on earth. He looked at Alice and shouted, "Alice, you were once a person from the earth. Are you going to destroy the earth?"

At this moment.

On the throne of the main battleship, Alice finally spoke, expressionless, the goddess aloof.

"I'm a blazing angel, and you can catch me if you wait, otherwise, the killing will be turned upside down."

"Zu Xing will not be destroyed, but you can!"

Alice is indifferent.

Grotto was heartbroken.

The current Alice is no longer the previous Alice, or in other words, she has changed to a different person... No, it can't be called a person, she is a seraph.

A complete seraph.

"boom!"

The second wave of collisions erupted.

then.

The third wave, the fourth wave...

The losses on both sides are widening.

The more the collision, the more the earth can't bear it.

The tribes are miserable.

"What should we do? If we go on like this, we will be dragged to death. This time, it is even more terrifying than the arrival of the four major worlds before. There are more than a dozen powerhouses at the level of God Transformation."

"Although, the number can be compared; however, they have too many warships and soldiers. Fifty thousand search warships, and there are still more than 20,000. Our warships have almost been destroyed."

"This time there is no Ye Fan!"

Everyone's heart skipped a beat.

yes.

This time, there is no Ye Fan.

Before, it was Ye Fan who turned the tide, but now, Ye Fan is gone, it is all up to them.

A grief spread.

Only at this time did the clans know that, invisibly, Ye Fan had become the leader of the world.

Now that Ye Fan is missing, they have no bottom in their hearts.

"Stop."

at this time.

Alice spoke, she stood up from the throne, walked in the sky, came to the entrance of the world passage, and looked at all the creatures inside indifferently.

"Don't make fearless sacrifices, you can't stop it. If I want, I can suppress all of you in an instant."

"Insanity!"

"Arrogant? No, it's your ignorance. You can't understand my power. I'm a pure-blooded seraph."

When the words fell, Alice turned her eyes and looked at the sun in the endless distance.

this moment.

Her whole body was radiant with light, and behind her rose a huge, tall angel phantom.

That is the ancestor of angels.

"Come!"

Alice waved her scepter, the shadow behind her, waved her arm, and grabbed the sun in the endless distance.

Immediately after.

I saw a terrible scene, the blazing sun was caught by Alice.

Chapter 1395: The primordial spirit is possessed, and the idol shows its power!

Rumble.

The hot sun was caught by Alice, too close to the earth, and the temperature of the whole earth rose sharply.

However.

Alice didn't notice it.

This is Seraph.

All flames cannot affect her.

Furthermore, being able to easily catch the sun shows that Alice has the power of a pinnacle god.

horrible!

fear!

The Queen and others were all silent.

Alice smiled and said: "Now, do you know the gap. Stand back, don't resist, I can give you a way to live. After all, I don't want the earth to become empty."

Some groups are beginning to falter.

The queen said, "Alice, we can allow you to come, but there is one condition."

"Say!"

"That is, kill the angel clan master!"

The Queen's request has been recognized by all ethnic groups.

The Angel Patriarch was so crazy just now, even if Alice could let them go, the Angel Patriarch would not be able to.

By the time.

The tribes will usher in a great disaster.

Really **** rivers.

Therefore, the angel clan master must die.

Alice frowned beautifully.

And the angel clan master, Lei Ting was furious: "You ants, you still want to kill me, courting death!"

"Alice, these guys are stubborn, don't talk nonsense with them, kill them all. Save us troubles in the future."

"Ugh."

Alice sighed.

"If it wasn't for the clan master, I wouldn't be able to transform into a blazing angel, and it would be impossible for me to become such a strong man. Therefore, it is absolutely impossible for you to kill him."

The Angel Patriarch was overjoyed and very proud.

Alice said: "You are stubborn, so I'm sorry. Go ahead and kill them all!"

Said lightly.

What apathy!

Gulot's heart froze.

"kill!"

At this moment, the Angel Patriarch led more than a dozen god-transforming powerhouses to take the lead and enter the World Passage.

And the rear.

Tens of thousands of warships swooped in.

The power is unstoppable.

The tribes were terrified.

Empress, God Emperor, Asura Queen, Jinpeng Emperor and other powerhouses made all-out efforts, however, they were unable to withstand the charge of the Angel Clan Master.

"Death!"

The long spear in the hand of the angel clan lord was thrown out to crucify the queen in the void.

at the same time.

Other god-turning powerhouses and battleships joined forces to block the rescue of powerhouses such as the God-Emperor.

"not good!"

The Queen's discoloration.

Because, the spear of the angel clan master has obviously been brewing for a long time, and the long spear is also an ancient treasure of the angel clan, and its power is unparalleled.

"Open Heaven Axe!"

However, the queen also has magic weapons.

Ye Fan's magic weapon, the Sky Axe, was in her hands. At this moment, she used it to split the spear into the air.

"puff!"

However, the shock was still gushing blood.

Without waiting for the Queen to catch her breath, the second shot of the Angel Clan Master had already killed the Queen by surprise.

The blow just now consumed most of her energy, but now she is in a hurry, how can she resist.

"Man'er!"

The sisters exclaimed.

But they were blocked and could not last long; even if they could make a move, it was too late.

The queen looked desperate.

Is it.

Are you really going to die here?

At this moment, Ye Fan's figure appeared in the Queen's mind, and Ye Fan's appearance seemed to appear in front of her.

The queen burst into tears.

She has too many regrets, she didn't even give her body to Ye Fan.

"die!"

The angel clan roared.

"boom!"

Life and death are at stake.

In the distance, Ye Fan's 10,000-foot-tall statue burst out with terrifying brilliance, spreading for thousands of miles.

"puff!"

The angel clan master was taken special care of.

The endless brilliance shock made the Angel Clan Master scream, and the spear in his hand exploded directly.

"Ahhhh!"

The Angel Patriarch was covered in blood, and the ten wings behind him were all broken.

In an instant, he was seriously injured.

This sudden and strange scene shocked everyone, and the world was quiet.

Countless eyes fell on the statue of Ye Fan.

The **** statue that stood on the ground was trembling non-stop, and then, it moved.

Take a step.

"boom!"

Taking this step, the earth shook.

Subsequently.

One punch, hit.

So weird!

The brains of all living beings are blank.

The statue of Ye Fan actually came to life, is this true or false, dream!

"Do not!"

However, the main area of the Angel Clan was also madly fleeing for their lives, because this punch was aimed at him.

Deadly Threat.

Invincible.

The angel clan master fled frantically to the outer starry sky, however, the world passage was blocked.

"Do not!"

"Alice, save me! Save me!"

At this moment.

Alice also knew that it was not good, and immediately shot.

But.

Too late.

This punch is like a broken bamboo, and even though the Angel Clan Master displays countless trump cards, all of them are like paper.

"puff!"

The angel clan master was smashed.

Ashes.

However, the statue did not stop, and moved again, stepping towards the world passage, while waving his fists and smashing at other god-turning powerhouses.

"what!"

More than a dozen god-turning powerhouses were terrified.

The angel clan master was crushed and killed. They were not even as good as the angel clan master. How could they have the courage to fight.

But the channel is blocked.

Can't escape.

"Sir, forgive me..."

"puff!"

There is no doubt, instant bombing.

There is a god-turning powerhouse that has fallen, and there are no bones left.

Immediately after.

The third, the fourth, the fifth...

finally!

After the eighth god-turning powerhouse was bombed and killed, Alice finally broke the blockade.

"come out!"

She shot out rays of light, entangling the remaining five powerhouses, trying to pull them out.

But.

The idol is unrelenting.

Grabbing the five god-turning powerhouses with one hand and slapping Alice with the other.

"presumptuous!"

Alice groaned.

She felt desecrated, but she was equally shocked.

Why is this **** statue so powerful, and what kind of magic weapon is it?

However, when he looked at the face of the deity, his pupils contracted.

"Evan!"

Alice was startled.

However, it recovered instantly.

"Pretend to be a ghost!"

"open!"

The blood of the Seraph was fully recovered, and behind the back, the phantom of the ancestor of the angel rose.

Alice's scepter smashed down.

"boom!"

The fist of the idol, touching the scepter, the world channel began to shatter.

next moment.

Alice was blown away.

The five god-turning powerhouses also fell into the hands of the **** statue.

"Do not!"

"Queen save me!"

However, no matter how they shouted, it was of no avail.

"puff!"

Five guys were directly crushed.

Yuanshen rushed out.

Primordial spirit is immortal, immortal and immortal.

This is the power of the powerhouse.

However, the five primordial spirits were the same as the previous eight primordial spirits, and the world was absorbed by the gods.

In a few minutes, the thirteen god-transforming powerhouses, plus the angel clan master, all fell.

The creatures of various races are directly petrified.

How powerful is this!

Even the outer starry sky was agitated.

"hateful!"

Alice was frustrated and irritated.

Once, when she was still on the earth, Ye Fan was very powerful, and he ran across the world.

And now, he is comparable to the peak of the gods, but he is not Ye Fan's opponent.

A statue of Ye Fan can compete with him.

When Ye Fan's body came, wouldn't he be suppressed directly!

"why!"

Alice was not reconciled.

How did she know that Ye Fan had "fallen", and anger appeared on her calm face.

"kill!"

finally.

Pride triumphs over reason.

Alice decided to break the statue, even if it is not Ye Fan's opponent, should even the statue of Ye Fan be afraid.

Then she is not a blazing angel!

"Ye Fan, if you insult me, I will make you pay the price. Seraph Super Fist!"

Alice's arm glowed with a fiery light that was hotter than the sun.

This punch.

Can burn everything.

However.

The idol did not flinch, but stepped forward step by step, stepping on the fragmented passage, with a posture of killing the outer starry sky.

at the entrance and exit of the passage.

The idol stopped, waved his fist, and punched Alice.

A huge explosion.

Once again the channel is damaged and appears to be about to collapse.

"Come again!"

Alice is almost crazy.

Secret knowledge emerges one after another, and the super power of the Seraph bloodline is indeed terrifying.

However.

The idols all resisted.

only.

No one saw it.

Cracks have appeared inside the statue.

"Shh!"

Suddenly, the idol turned around and grabbed the opening axe.

The queen did not refuse, and threw the opening axe directly. The idol grabbed the opening axe and slashed towards Alice fiercely.

now.

Alice was shocked.

She waved the scepter in her hand, collided with the opening axe, was split thousands of miles, and smashed several star warships.

"Ahhh!"

Alice screamed.

Hair disheveled.

At this moment, where is the sacredness and nobility of the past, her face gradually turned hideous.

"Ye Fan, you can't be forgiven!"

"Damn you!"

Alice roared, her eyes gradually turned red, and a monstrous fiery light surged.

The most terrifying thing is.

Alice, actually grabbed the sun.

"what!"

All races were shocked.

"What is he going to do! No way, smash the sun on the earth, my God!"

"This lunatic!"

Countless creatures were terrified.

The sun was indeed manipulated by Alice and smashed into the earth. For a time, a terrible disaster was set off in the whole world.

On this side of the world passage, no one escaped.

Because it is not necessary.

If the idols can resist, everyone will be safe; if they can't resist, then a devastating disaster will break out, and they can't escape at all.

So, just leave it open.

"Belief!"

The queen suddenly shouted.

"This is the statue of Ye Fan. Ye Fan shows his spirit and wishes us to defend against the enemy. Give me faith in Ye Fan in the sky and the ground."

"Convey the power of faith."

"That's the only thing we can do."

In fact, the Queen has not finished speaking.

Countless creatures knelt down and bowed down.

Because, all the clans were convinced by Ye Fan.

When he was alive, he died generously, sacrificed his life for righteousness, and surrounded his homeland; after he fell, there was still a backhand, and the gods appeared to save the suffering.

"Emperor Ye!"

"Emperor Ye!"

All creatures cry.

Pious worship.

At this moment, the power of faith turned into a torrent and rushed into the statue, making the statue that was about to collapse back to its perfect state.

even.

Inside the statue, Ye Fan's primordial spirit was nourished and recovered.

That's right.

The reason why the statue appeared was naturally the possession of Ye Fanyuan's spirit.

Chapter 1396: big change

In the underworld, Ye Fan used the soul spar to frantically cultivate his primordial spirit, and finally raised his primordial spirit to a certain level.

Primordial spirit and spiritual power are linked.

Now the strength of Ye Fan's Yuanshen is extremely frightening, and his spiritual power has reached the level of the late stage of God Transformation.

So naturally I found a connection.

Through the clue of fate, Ye Fanyuan Shen left the underworld and attached himself to the statue.

This is the reason why the idols came alive.

Just fighting over and over again consumed Ye Fan's Yuanshen energy a lot, but at this moment, the endless power of faith was instilled.

Let Ye Fan recover a lot.

Watching Alice smash the sun down, Ye Fan was extremely solemn. After all, he was only a primordial spirit, not a real body.

Taking a rash shot and bombarding the sun will cause extremely terrifying results.

If the sun explodes, it will really affect the entire earth, even if the earth is now even bigger than the sun.

Critical juncture.

Ye Fan stared at the moon.

This guy, no matter what changes, will always keep a certain distance from the earth and sit firmly on Mount Tai.

If you think about it with your feet, you know that the moon is not ordinary.

Ye Fan roared, grabbed the moon, his spiritual power turned into a torrent, wrapped the moon, and wanted to pull the moon over.

But.

The moon didn't move.

"The lips are dead and the teeth are cold. This is the last chance. No matter what you are, now, listen to my orders."

"In the name of Emperor Ming, I order you to be driven by me."

"Come!"

Ye Fan's mental thoughts exploded.

Finally, the dust-covered moon finally trembled at this moment, and then, it was pulled over by Ye Fan like lightning.

The battle of the moon and the sun.

If this is in the past, there is absolutely no doubt that the moon will be crushed, but now, all living beings have expectations.

The moon is extraordinary.

Maybe it can really resist the sun!

What a magnificent picture this is, how terrifying and domineering it is to use the planet to fight against it.

"Can it be successful?"

The Queen and others were nervous.

If it fails, the consequences are unimaginable.

"Ye Fan, you can't stop me, you all have to die, all of you have to die!"

Alice went all out, and the sun madly suppressed it.

Compared with the sun, the moon is much smaller, but at this moment, the moon blooms with peerless brilliance.

In an instant.

The moon seems to be extraordinarily huge, several times larger than the sun, and the outer domain is vast.

"what!"

Alice exclaimed.

She found that the moon was actually swallowing the sun, which was incredible.

"It really isn't easy."

"The moon, what is it? It won't be the emperor's hand."

Ye Fan was amazed.

He didn't stop. When the moon devoured the sun, he took one step, walked out of the passage, and walked towards the outer starry sky.

"boom!"

A punch hit Alice.

"Evan!"

Alice shouted, furious, and she also waved her fist: "Heaven God Fist!"

The two sides have fought countless times in the stars.

finally.

A click.

The statue is broken.

Countless cracks appeared in one arm, and then exploded.

Alice was very embarrassed, but she couldn't stop laughing: "Ye Fan, you are defeated!"

"yes?"

"This is just one of my idols. Are you sure it's me who lost? Alice, I happen to have a mount, so it's you."

Ye Fan's voice was fierce.

Alice was so shocked that she realized that it was the statue of Ye Fan, and almost forgot about it.

Without any hesitation, Alice retreated violently, returned to the main battleship, and shouted: "Ye Fan, I will come again, the moment you stop me from coming again, is your death!"

"Want to escape?"

Ye Fan smashed many battleships with one punch.

However, the main battleship was indeed powerful, opened the wormhole, Alice controlled the battleship, led the remaining troops, and entered the wormhole.

Disappear.

Ye Fan breathed a sigh of relief, finally scared Alice away, and continued to fight, and the idol exploded.

If his primordial spirit is exposed, it will be a huge blow.

If the primordial spirit is annihilated, Ye Fan will die completely, and no miracle will happen again.

The moon is still devouring the sun, very slowly, Ye Fan ignored it and returned to the earth.

Statue ascribed to.

"Emperor Ye!"

Spirits of all races pay homage.

The queen, sisters and others cried with joy, they knew that Ye Fan was not dead.

Really not dead!

"Man'er, let the clans retreat." Ye Fan sent a voice transmission, and the queen ordered to retreat.

The tribes just left.

In the end, it's just me.

"Xiaofan!"

The sisters were in tears.

They were so happy, so happy.

"Sister, I've made you worry. I'm not dead, but now, I can't come back. This is my primordial spirit attached to the statue."

"I'm in the underworld now, and I'm looking for a way to redeem myself. Through the connection of fate, my primordial spirit can lean over the statue."

Wine Sword Immortal said: "Underworld, where is it?"

Ye Fan said: "I don't know, I was also brought into the underworld by the skeleton monster in the Mausoleum of the First Emperor. He said that the entrance to the underworld is in the dragon veins in

the palace. However, you should not be able to open the palace door. I don't know if the altar can still be used. Use, I'll tell you the location, if you have a chance, you can go look for it and try your luck."

The location of the altar is passed on to everyone.

Later, Ye Fan warned: "My primordial spirit has a limited time, and I must return to the underworld immediately, otherwise there will be major problems. Sister, you can contact me through the clues of fate, but there may be a delay, I don't know if it will be in time. reply to you."

Meng Qingyi said: "I understand, I will continue to work **** the Dao of Destiny to ensure that I can talk to you in time."

Su Muyu said, "Xiaofan, when will you be back?"

Ye Fan smiled bitterly: "I don't know, the underworld is a cage, and there is no way to leave. Therefore, I hope you can think about it outside."

"There is one more thing, that is to repair the statue, using stronger materials, I can only rely on the statue to come, such as having a powerful body."

Fang Rui said: "Xiaofan, leave this to me, I will make the statue perfectly perfect. The next time you come possessed, you will feel very real."

"Well."

"Goodbye, everyone works hard to cultivate. Next time I come, I hope you will all be promoted to the realm of God Transformation. By the way, I will pass on you to practice the Yuan Mystery Method."

"Okay, I have to leave."

The statue returned to death.

Ye Fan Yuanshen left.

Meng Qingyi said, "We split up and went to the First Emperor's Mausoleum to find the altar, trying to find a way to start entering the palace, while searching for the treasures of heaven and earth to rebuild the statue."

Everyone gets busy.

at the same time.

Underworld, Underworld.

"call!"

Ye Fan's Yuanshen returned to the skeleton body, and the fire of his soul bloomed. He was very happy.

Primordial spirit can return to the earth, so far, it is a breakthrough point.

Next.

Ye Fan decided to continue cultivating the primordial spirit and increase the strength of the primordial spirit to the level of worship, which is comparable to the peak of the gods.

time flies.

Two years have passed in the underworld and the earth.

these two years.

more and more prosperous.

There are not only a handful of god-turning powerhouses, they are already quite impressive, quite a few.

two years.

The statue of Ye Fan was finally built.

Using countless natural materials and earth treasures, under the design of Fang Rui's advanced technology, it is extremely perfect.

and.

It exudes a warm light, it seems to be a real person, not a **** statue, reflecting thousands of miles around.

every day.

All living beings come to worship.

In the statue, there is an endless power of faith.

The First Emperor's Mausoleum.

The altar has long been found and has been researched, but there is no harvest and no recovery.

For the past two years, it has been very quiet and there has been no foreign invasion.

Very stable.

And the moon has completely devoured the sun, turning into the size of the sun once, blooming with peerless brilliance.

In the past two years, so much has changed.

Cultivation began to spread.

And the Tianzun Temple, the world's search for geniuses, also has a huge harvest. Now, there are one million newcomers in the Tianzun Temple, all of them are good cultivation geniuses.

The rookie camp is in charge of Tang Ying.

Once, she was the frontier commander in Daxia and knew how to manage these million geniuses.

As for the other powerhouses, they take turns to teach them and train them, and they must be the mainstay of the Tianzun Temple in the future.

"Gulot, how are you?"

"Sister Ying, this assessment is very good, and 100,000 people have already entered the realm of Dao Palace."

"Only one hundred thousand?"

Tang Ying was a little dissatisfied.

Gulot said with a wry smile: "One hundred thousand is already very good, after all, it's only two years."

Tang Yingdao: "At this stage, Nascent Soul is a mid-tier address, and under Nascent Soul are all ants. Increase investment in resources and cultivate crazily, and you can't stop for a moment. Now it is an arms race, and all major groups are madly cultivating strength. "

"clear."

Glott nodded.

Tang Ying added: "Tomorrow, 3,000 star warships will be delivered. You arrange to select some scientific and technological talents to adapt to the operation of warships, and such talents should also be cultivated."

"besides....."

Tang Ying ordered one by one.

The Tianzun Temple must be fully developed now, and every item cannot be left behind.

this day.

Daxia was shocked.

because.

There was a big movement in the East China Sea.

soon.

The powerhouses of all races have come, and the Tianzun Temple is no exception.

Han Bing, Tang Ying, Peony, Sword Immortal, Lady Suzaku and Lady Qingluan have all arrived.

The East China Sea is turbulent, and the water waves are surging.

not only.

And this powerful force spreads, exuding a palpating breath.

"Did you see anything?"

"It's Xianshan!"

Jiujianxian and other powerhouses who came out of Xianshan were very moved. Could it be that Xianshan is going to be unsealed?

This is good news.

because.

Nowadays, there are many gods in the outside world, and the immortal mountain is unblocked, and there is no big wave.

on the contrary.

There are countless resources in the immortal mountain, which can become a resource land.

It can even be said that when the immortal mountain is unblocked, the forces in it will have a catastrophe.

because.

The external powerhouses will pour in, directly causing a **** storm.

In front of the treasure of resources, no one can be calm, and those powerful gods will not pay attention.

"Is it really going to be unsealed?"

Empress Qingluan's face changed.

I only saw that in the depths of the East China Sea, a brilliance rose into the sky, and at this moment, it illuminated the whole world.

A muffled sound.

It seems to be the sound of Xianshan's shattering shackles.

The breath of countless creatures erupted.

This indicates that the abbot Xianshan will be completely unblocked!

Chapter 1397: Xianshan unblocked

Abbot Immortal Mountain.

internal.

It was boiling at the moment.

Countless creatures are looking forward to it, this cage will finally collapse, and they will finally be free.

Especially the hinterland of Xianshan.

Countless forces are ready.

The taboos in the major restricted areas have all awakened, waiting for the last moment to take out this to lower.

No matter what the cost.

Because, they don't know whether the unblocking of Xianshan is permanent or a moment.

That is to say.

At the moment of unblocking, many strong people will display their cards and leave Xianshan madly.

Those who have the ability to bring their families and mouths will definitely bring their families and mouths, and those who are incapable can only go it alone.

"boom!"

Finally, it started.

Qingtian Dynasty.

In front of the central hall of the palace, the ancient emperor Qingtian shouted loudly, and the entire country trembled.

It turned out to be the dragon pulse.

"Get up!"

The Qingtian Ancient Emperor roared, all the powerhouses took action, countless spiritual stones were burning, and monstrous energy was erupting.

The whole country flew up.

Under the capital, is the dragon veins, carrying the dragon veins and flying up, leaving the world of Xianshan.

Not only the Qingtian Dynasty.

Immortal Demon Cave, Beidou Sect, Snake Head and other forces have all started to migrate.

And more, it is the powerhouse of loose cultivation, the existence of taboos, and the powerhouse of the hidden world.

Densely packed, rushing to the outside world.

East China Sea coast.

When the powerhouses of the various clans saw that the immortal mountain was unsealed, they immediately took action, and the powerhouses in the realm of the gods took the lead.

So ever.

A strange scene occurred.

Those who want to enter Xianshan and those who escape Xianshan meet.

Both sides thought they were enemies.

War is imminent.

However, Xianshan does not have a strong person in the realm of God Transformation. In an instant, there were countless casualties and **** storms.

"here!"

Empress Qingluan shouted.

"Qingluan!"

The Qingtian Ancient Emperor was extremely surprised.

Jiujianxian, the two goddesses, and Peony, the four powerhouses in the realm of God Transformation rushed over and protected the men and horses of Beidou Sect, Qingtian Ancient Emperor, Xianmo Cave, Tongtian Palace, and Snake Head.

They are the powerhouses of the Tianzun Temple.

All the clans are also sensible, and where they dare to provoke Jiujianxian and the others, they have not dealt with the forces of Xianmodong.

"You have all turned into gods!"

The leaders of Qi Xianzhi, Qingtian Ancient Emperor and other forces were shocked.

Jiujian Xiandao: "Xianshan is unblocked and will not be blocked, so you don't have to be so panic."

Peony said: "You all enter the battleship."

A dozen warships came.

The creatures that Qi Xianzhi and the others brought out entered the battleship, and then Jiu Jianxian asked Qi Xianzhi and the others to return to their own power masters and embrace their own power territory.

After all, when the various clans enter the Immortal Mountain, they must be divided up. Therefore, they must cling to the power territory in order to have a steady stream of resources.

Fortunately, the Tianzun Temple is a good sign.

Immortal Devil Cave, Beidou Sect, Qingtian Dynasty, Tongtian Temple, and Snake Head Organization were under the care of Tianzun Hall, and no one dared to move.

"Fellow!"

At this moment, the ancestor of the Lei family came.

The master of Wanbaozhai.

Wanbaozhai can have a lot of resources, and naturally it cannot be divided up by various clans. Originally, Peony and the others also went to Wanbaozhai, but now the ancestor of the Lei family has found them, and the feelings are good.

"They are all friends, and they will definitely protect you. If you immediately announce that you will join the Tianzun Temple, then no one will dare to move Wanbaozhai."

The ancestor of the Lei family did not know what the Tianzun Temple was, but the situation was critical now. In order to prevent Wanbaozhai from falling apart, he could only announce it immediately.

All the clansmen who were preparing for the eldest sister Wanbaozhai were very angry and dissatisfied when they heard the news.

Tianzun Temple is really overbearing.

certainly.

There are also some creatures who don't care and loot several other branches of Wanbaozhai.

However.

They were soon beheaded by Wine Sword Immortal, and, even their tribe, suffered disaster.

So far.

The tribes did not dare to move anymore.

a month later.

Gradually stabilized, and Xianshan was no longer in chaos.

only.

reshuffle the card.

Many ethnic groups have divided up the Immortal Mountains, such as the Protoss, the Shura Clan, etc., and they all have huge resources in the Immortal Mountains.

Heavenly World.

Central Hall.

Qi Xianzhi and others are all there.

After a brief understanding of the earth, they were very amazed, and at the same time, they also knew Ye Fan's deeds and were in awe.

That's right.

Once in Xianshan, they were still on the same level as Ye Fan, even more powerful than Ye Fan.

However.

Now, they are nothing.

Two years ago, Ye Fan's combat power was comparable to the peak of God, but now Ye Fan is terrifying.

One look can kill them.

but.

Qi Xianzhi and others were very confident.

They were imprisoned in the Immortal Mountain World, and now that they are no longer fettered, they are confident that they can quickly advance to the realm of God Transformation.

as predicted.

Only three months later, Qi Xianzhi was the first to be promoted to God Transformation. His talent was already strong, and it was reasonable to have this kind of efficiency.

Immediately after.

It took the Qingtian Ancient Emperor five months to become a God.

The same goes for Qingluo, the master of Tongtian Palace.

As for the ancestor of the Lei family, it is very difficult. He is already old and has little potential left. If he wants to be promoted to a god, he needs some nourishment and precipitation.

"I suggest to explore the other two immortal mountains. Among the three immortal mountains, Abbot Immortal Mountain is the weakest, and the two immortal mountains of Penglai and Yingzhou are more mysterious and powerful."

"Of course, the dangers will also escalate, but at the same time there will be more opportunities."

This proposal was approved by everyone.

Nowadays, all races are competing to seek more resources, so it is necessary to seize the opportunity.

do not forget.

There is another treasure, that is, the Heavenly Book of Conferred Gods.

Fengshenbang can break the barrier of Xianshan Mountain and enter it, but it is currently unknown whether it can break the barrier of Penglai or Yingzhou Xianshan Mountain.

One more thing.

The Heavenly Book of Conferred Gods List does not recognize the Lord.

then.

Ye Fan did not kill Wu Lingjun.

Although he didn't recognize the master, there are several powerful gods who can be used now, but the effect will be much weaker.

only.

Unexpectedly, on this day, there was movement in the outer starry sky.

This made the tribes nervous.

Could it be.

Another big world came to invade?

"Boom."

In the wormhole, a battleship slowly sailed out, and at the same time, there was a tyrannical breath.

Above the battleship, there are two figures.

"Kill God for nothing!"

"Heaven and Earth Demon Ape!"

Everyone breathed a sigh of relief.

It's not a different world, but these two beings are back, which is a great blessing.

However.

Fang Rui found that something was wrong. Her scientific and technological light brain made crazy calculations and found a huge crisis.

"There is a catastrophe!"

"Prepare!"

Fang Rui exclaimed.

now.

On the battleship, the killing **** Bai Qi suddenly smiled strangely, and then the black big knife in his hand slashed down.

"boom!"

The sword light passed directly through the world passage and descended into the interior of the earth, and immediately, tens of millions of creatures died.

"Do not!"

The strong men of all races roared sadly.

at the same time.

The powerhouse of the transformation of God made a move, and he did not dare to attack why the killing God Baiqi would attack, anyway, the arrow was already on the string and had to be sent.

And this life.

The Heaven and Earth Demon Ape jumped, turned into a hundred zhang size, roared, and smashed the Equalling Stick in his hand.

After not seeing him for a few years, the Heaven and Earth Demon Ape turned out to be a powerhouse in the late stage of God Transformation.

This stick, how terrifying, has the power of peaking gods.

Many powerhouses joined forces and resisted this stick at the time, but they all swelled with blood and it was very uncomfortable.

"Bai Qi! Heaven and Earth Demon Ape! You are crazy! Why are you attacking us!"

The queen angered.

However, Bai Qi and Heaven and Earth Demon Ape didn't speak, they continued to shoot, like machines.

Fang Rui said: "They had a problem, maybe they were controlled by something."

"Then what?"

"Great Purification Technique!"

Fang Rui thought of a breakthrough point.

only.

Neither of them can do a great purification technique.

This is because when Ye Fan got the Great Purification Technique from the Elf Queen, he promised not to spread it.

"Look for the Elf Queen."

Soon, the Elf Queen was forced to open for business.

The Tianzun Temple is nominally led by Fang Rui, because she is smart enough with technology and smart enough to manage the Tianzun Temple in an orderly manner.

The smart Fang Rui also knew the importance of the elves.

The great purification technique has infinite magical effects.

The elves don't like to practice, they just want to live a life of indifference to the world, a beautiful treasure land in the heavenly world.

A few tribes live there.

However, Fang Rui did not agree, so the author cultivated with the elf queen, and coveted the most valuable resources, as well as the guidance of Jiujiangxian, Peony, and the selfless dedication of the two empresses.

But ah.

Although he has not become a God Transformation powerhouse, he is still at the peak of Void Breaking.

but.

The elf queen may not even be able to fight in the middle stage of breaking the void. If people don't want to fight, they may turn around and run when they are in danger.

Pulled out at the moment, a little dazed.

"Queen, I need you to use the Great Purification Technique to purify Killer Baiqi and Heaven and Earth Demon Ape. They should be controlled by something."

"what?"

The Elf Queen shook her head and said, "I can't do it. Bai Qi and the Heaven and Earth Demon Ape are so powerful, I'm just breaking the Void Realm, how can I do it?"

Fang Rui said: "Queen, believe in yourself, you can do it. You are the head of the family, you can't be cowardly and shrinking. Now, everyone needs you."

The elf queen blushed when she was said.

"let me try."

She looked at the outer starry sky, frowned and said, "No, the power of my Great Purification Technique can't resist Bai Qi and the Heaven and Earth Demon Ape. The distance is too far, and there are still aftermath of the battle, and it cannot be completed. Unless, you guys Send me there, but I'm quite scared."

Everyone looked at each other.

Sending the queen close to the battleship, isn't that meat buns beating the dogs, and they won't come back?

A single finger can destroy the Elf Queen.

How to do it?

Jiujianxian wiped the magic sword, his eyes were piercing, and he said: "All the gods and powerhouses will go to the starry sky, and hold Bai Qi and the heaven and earth demon ape. Queen, you can find a way to bring the queen to approach safely."

That's all there is to it now.

"Hahaha, this is my first battle to achieve God Transformation Realm. I didn't expect that the opponent is such a powerful existence, so refreshing!"

Qi Xianzhi and Qingtian Ancient Emperor laughed.

On the Tianzun Temple side, all the powerhouses of the gods were dispatched, and the powerhouses of the gods, Shura and other powerful tribes were also dispatched.

There is almost no hiding.

At a glance, good guy, there are more than 100 god-turning powerhouses, and it is not easy to do things.

And among them.

The **** emperor, the lord of the **** race, is already in the middle stage of **** transformation, and it seems that he will break through to the later stage soon.

The speed of this cultivation is really shocking.

"A group of ants!"

Facing the cooperation of millions of gods, Bai Qi's face was full of disdain, and the black big knife in his hand captured the soul and slashed simply and rudely.

The high body of the Heaven and Earth Demon Ape, holding the Heaven-Equalling Stick, also smashed wildly.

Big bang in the sky.

"I come."

At this time, Jin Quan, the young master of the Jinpeng clan, appeared, and he said, "Come on my back, my speed is faster than yours."

The queen nodded.

She jumped up with the elf queen, then cast a great invisibility and disappeared.

In fact.

Jin Quan had already appeared in the outer starry sky with them on his back, and was cautiously approaching Bai Qi and the Heaven and Earth Demon Ape.

Chapter 1398: a wisp of mist

Star Wars, changing rapidly.

Unprecedented.

It is indeed terrifying that the God Emperor and other millions of God Transformation powerhouses join forces, but the killing God Baiqi and the Heaven and Earth Demon Ape are also extremely terrifying. The two sides are in a stalemate for a while.

Jin Quan, on the other hand, took the queen and the elf queen carefully towards Bai Qi and the Demon Ape of Heaven and Earth.

This is really dangerous.

Once discovered, Bai Qi slashed over, and the Queen and the others couldn't resist.

The God Emperor and the others were simply too late.

It's a total bet.

The most important thing is that at present, it is not known whether the Great Purification Technique will work or not, because this is all speculation.

If it doesn't work and angers Bai Qi and the Heaven and Earth Demon Ape, the consequences will be unimaginable.

"Queen, don't be afraid, you are the head of the clan, take action bravely."

The queen kept comforting.

The elf queen is indeed a little timid and afraid, but she also knows that she has a heavy responsibility.

Can't back down.

Gradually, getting closer, getting closer.

Fortunately, the war fluctuated very violently, and Bai Qi and the Heaven and Earth Demon Ape focused all their energy on dealing with the Emperor and the others, and did not notice Jin Quan approaching from the side.

"Queen, no, I have reached the limit. The aftermath of the battle ahead is too strong and will tear us to pieces."

Jinquan voice transmission.

Now, they are almost a hundred miles away from Bai Qi and the Heaven and Earth Demon Ape.

This distance is very far for ordinary people in the secular world, but for these cultivators, it is relatively close.

The queen asked: "Can you perform a great purification technique at a distance of 100 miles and bless Bai Qi and Heaven and Earth Demon Ape?"

The elf queen felt it for a while and nodded: "Yes, yes, but the aftermath of the battle has a great impact. The aftermath of the battle must disappear, or it should be reduced by 70 to 80%, otherwise, the power of purification will come to Bai Qi and the heaven and earth magic ape. On the body, there is very little left that is weakened, and it can't play any role."

How could the aftermath of the battle disappear.

Weakening seventy or eighty percent...

The queen can only pass the news to the emperor to see if the emperor can do anything.

Qingluo, the master of Tongtian Palace who came out of Xianshan, suggested: "My magic weapon, the Heavenly Mixing Furnace, can be used to suppress the aftermath for a short period of time. Together, we should be able to maintain it for a second."

The queen was overjoyed: "One second, enough, please."

"Boom."

The chaotic furnace appeared.

Hundreds of god-turning powerhouses joined forces to drive, my God, it seems that the haunted furnace has been transformed thousands of times.

"Good baby!"

Bai Qi's eyes narrowed, his face heavy.

The Heaven and Earth Demon Ape roared, and the Qi Tian Stick slammed into the Huntian Furnace.

"when!"

The Huntian Furnace collided with the Qitian Stick, and the Heaven and Earth Demon Ape was blown away.

joke.

Now, the Huntian Furnace is being driven by more than a hundred god-turning powerhouses. How can the heaven and earth demon ape be able to resist.

"kill!"

Bai Qi went mad, and a strange mist was lingering between his eyebrows, causing him to enter a state of madness and slaughter.

The combat power can still rise.

"not good!"

The emperor and other powerhouses were shocked.

Palace Master Qingluo shouted: "Hurry up, don't delay any longer."

I only saw that with the efforts of all the powerhouses, the Huntian Furnace slowly turned over, and then it was buckled upside down.

moment.

Suppress Heaven and Earth Demon Ape and Bai Qi.

"It's now."

The queen drinks.

The elf queen has also been brewed. The queen mobilizes the power of Xia's luck to assist the elf queen.

The power of the Great Purification Technique turned into a rainbow, one second was enough, and it fell perfectly on Bai Qi and the Heaven and Earth Demon Ape.

"Purge!"

The queen drank.

That surging power of purification had an effect.

Bai Qi and the Heaven and Earth Demon Ape shook their bodies, their aura instantly decayed by 30%, and at the same time, the Huntian Furnace slammed down.

"puff!"

"puff!"

Bai Qi and the Heaven and Earth Demon Ape spurted blood, their bodies split open, and their injuries were not light.

"what!"

In the state of injury, they are even more unable to block the power of purification.

The elf queen also invested her blood and performed a great purification technique, even dedicating some of his pure and bright spiritual body source.

This makes the power of purification extremely terrifying.

otherwise.

In the realm of the elf queen, even with the assistance of the queen, the power of the Great Purification Technique will not have a great effect on Bai Qi at the peak of God Transformation and Heaven and Earth Demon Ape in the later stage of God Transformation.

It's different now.

Bai Qi and Heaven and Earth Demon Ape screamed.

The power of purification is fighting against the mist between their eyebrows, to purify the mist.

"Come in!"

The Huntian Furnace was started again, and Bai Qi and the Heaven and Earth Demon Ape were loaded into it.

"Fengshentai!"

Afterwards, the sisters threw Ye Fan's magic weapon Fengshentai into the starry sky, which was the treasure of the Fengtian family in ancient times.

The Huntian Furnace has no cover, and at this moment, the Conferred God Stage becomes the cover, pressing on the Huntian Furnace to ensure that Bai Qi and the Heaven and Earth Demon Ape will not escape.

"Great Sealing Technique!"

The queen performed this magical power.

She definitely will.

It wasn't that Ye Fan passed it on to her. On the contrary, Ye Fan's Great Sealing Technique was bestowed by the Emperor Yingzhao back then.

As the daughter of a human emperor, the empress would of course be able to use great sealing techniques.

It's just that his cultivation is not as good as Ye Fan's.

But at this moment, it can also play a sufficiently effective role, and the sealing effect has been strengthened a lot.

"Hooohoo."

Then, Empress Suzaku and Empress Qingluan spit out the divine fire of their life and landed on the bottom of the Huntian Furnace.

"Everyone, practice!"

Qingluo Palace Lord shouted.

All the god-turning powerhouses use the divine fire of their own destiny to transmit energy frantically, so that the Huntian furnace can smelt Baiqi and Heaven and Earth Demon Ape.

"what!"

The chaotic furnace vibrates wildly.

The pressure of the emperor and the others has increased greatly, and some of the powerful gods even sprayed blood.

Bai Qi and the Heaven and Earth Demon Ape went crazy and bombarded wildly in the Hundred Heaven Furnace.

only.

Now they don't have the ferocity they used to have.

The combat power is rapidly weakening.

"what!"

Finally, the first one who couldn't bear it was the Demon Ape of Heaven and Earth. The power of purification evolved the mist between his eyebrows by two-thirds, and there was still a little left.

And this time.

Heaven and Earth Demon Ape also regained some sobriety.

"help me!"

He screamed, as if terrified.

The refining power of the Huntian Furnace is indeed terrifying, and with the power of purification, finally, the wisp of mist that remains of the Demonic Ape of Heaven and Earth will be extinguished.

Heaven and Earth Demon Ape quieted down.

He finally regained his original sanity, but he was seriously injured, especially the Yuanshen trauma, which was very serious.

And Bai Qi is still crazy.

"wake up!"

The Heaven and Earth Demon Ape took action against Bai Qi, but showed no mercy. The Qi Tian stick smashed on Bai Qi's body, causing Bai Qi's blood to spurt wildly, and his aura once again declined a bit.

have to say.

Killing God is terrifying.

In this way, it lasted for a real three days and three nights, and finally stopped, but the mist between the eyebrows has not disappeared.

The Heaven and Earth Demon Ape came out of the Huntian Furnace.

Added refining lineup.

Seven days later, finally, the wisp of mist was eliminated, and Bai Qi also woke up and regained his senses.

However, everyone still dared not let it go.

After all, Bai Qi is too strong, who knows if he is pretending.

Three more days passed.

I'm sure it's all right, Bai Qi is also seriously injured, everyone guesses to calm down the Heavenly Furnace and touch the seal.

Bai Qi came out proud.

A crisis, finally resolved.

back to earth.

In the palace, all the powerhouses who transform into gods have come, and they need to know why Bai Qi and the heaven and earth demon ape have become like that.

"It's that wisp of mist!"

Bai Qi said that his face was pale, and his Yuanshen suffered heavy losses, just like the Demon Ape of Heaven and Earth.

He continued: "Back then, we were pulled into the black hole by the ghost master, the master of the vast sea, and the master of the Wuji sword, and transferred to the **** world."

"Where is the ghost master's territory, there are many arrangements, and in the **** world, the ghost master can mobilize the power of the world, and the combat power has skyrocketed, and the heaven and earth magic ape and I can only retreat."

"It's just, I didn't expect that there was a problem in the **** world. A strange breath came in from the outside world, and all the vitality disappeared everywhere. This caused the **** world to encounter a great disaster."

"The Heaven and Earth Demon Ape and I originally wanted to leave, **** a super battleship, and return to the ancestors, but the strange aura came too fast, covering the entire **** world, and all were trapped."

"Gradually, we found that the strange atmosphere was terrifying."

"We and the ghost masters have evolved from opponents to cooperative allies, jointly dealing with the strange atmosphere and opening up a way of life. It's a pity..."

White sighed.

Heaven and Earth Demon Ape replied: "It is very difficult to open up a way of life. During this period, the living beings in the **** world died and dressed up, and the **** world was directly abolished; and later, we were invaded by the mist."

"That mist is the strange breath in the strange breath. It can be said to be the evolution of the strange breath. After being contaminated, we learned the original mind, as if we were manipulated. Invaded by the mist."

"As for why we came to Zuxing, we don't know, we can't remember it, it seems that there is such a mission somewhere. We don't know where the ghost masters went."

"But what is certain is that the strange aura has not stopped, it is continuing to spread, and many great worlds have suffered disasters."

Everyone was astonished.

That strange aura was so terrifying that Bai Qi, Heaven and Earth Demon Ape, Ghost Lord and other powerhouses could not compete.

The strange atmosphere is still spreading, will it spread to the earth one day?

this is a problem.

have to guard against.

Bai Qi said: "My primordial spirit has been severely damaged. Next, I need to repair my primordial spirit and say goodbye."

"and many more."

Meng Qingyi stopped Bai Qi.

She asked, "You are buried in an ancient bronze coffin, in the dragon veins of the First Emperor's Mausoleum. I want to ask you if there is a way to enter the palace."

Bai Qi said: "I don't know much about the Mausoleum of the First Emperor you mentioned. I'm going to see it now. If you want, you can come with me."

Fang Rui said: "Before this, let's chat with Xiaofan, maybe he can know something."

"Ye Fan... is he still alive?"

Bai Qi vaguely remembered.

Someone sacrificed himself, using the blood of yin and yang and the power of good fortune, to open the ancient bronze coffin.

That's because it's the so-called Ye Fan.

Self-sacrifice, how can there be a way to live?

Before the sisters brought Bai Qi up to the statue, the powerhouses such as the Heaven and Earth Demon Ape, the Queen, and the God Emperor also came.

Meng Qingyi opened the seven-star chart.

At this moment, Ye Fan, who was in the underworld, received the induction, his primordial spirit came out of the body, and through the connection of fate, he possessed the body on the statue.

"Bai Qi. Heaven and Earth Demon Ape!"

Ye Fan was surprised.

These two actually came back, so there is a strong guarantee for the safety of the earth.

only.

Ye Fan saw that they had suffered trauma, especially the Yuanshen, and the injury was very serious.

"What happened?"

"Xiao Fan, it's like this..." Meng Qingyi told Bai Qi and the Demon Ape of Heaven and Earth before, and conveyed it to Ye Fan as is.

After listening, Ye Fan was amazed.

"Spooky atmosphere?!"

"Gloomy fog?!"

Ye Fan couldn't figure it out, he said, "If you can trust me, can you let me talk about your primordial spirit."

Heaven and Earth Demon Ape has no opinion, he has helped Ye Fan many times, presumably Ye Fan will not harm him.

He opened his heart and said, "Come on."

The power of Ye Fanyuan's spirit descended.

Bai Qi was shocked: "The strength of the primordial spirit is so strong, it is already comparable to the peak of the gods. How did you cultivate, you kid, where are you now!"

Chapter 1399: red hair reappears

Bai Qi was shocked, as were the Emperor and the others.

They only knew that Ye Fan's Yuanshen was very powerful, but they didn't expect it to be so powerful that it was comparable to the peak of God Transformation.

good guy!

Ye Fan is still Ye Fan!

Even if they don't have a body, they still can't catch up.

The emperor and other powerhouses smiled wryly.

Having said that, the power of Ye Fan's Yuanshen entered the body of the Heaven and Earth Demon Ape and began to thoroughly investigate his Yuanshen.

Simultaneously.

Using the power of his Yuanshen to repair the broken Yuanshen of the Heaven and Earth Demon Ape, which made the Heaven and Earth Demon Ape grateful, and the injury recovered quickly.

"what?"

After a carpet-like search, Ye Fan finally found something suspicious, and when he tried his best to investigate, he was shocked.

"Red hair!"

Ye Fan was shocked.

This reminded him of what happened many years ago, related to the Xiang family in Kunlun.

Among the primordial spirits of the devil and ape, there are hundreds of hidden red hairs that are not worth one.

This is horrible.

Ye Fan was numb, but fortunately, the power of the Great Purification Technique purifies all the strangeness of these red hairs. Although these red hairs are now rooted in the depths of the primordial spirit of the Heaven and Earth Demon Ape, they should not hurt anymore.

but.

Ye Fan still used the big dispelling technique to dispel all the red hairs.

Rumble.

The surging power of Yuanshen entered the body of the Heaven and Earth Demon Ape, and his Yuanshen was quickly repairing.

Finally, healed.

Heaven and Earth Demon Ape is incredible, but more grateful: "Ye Fan, thank you very much."

"This is what should be done. You helped me a lot before. By the way, I have found a clue, everyone."

The red hair appeared in front of everyone.

Ye Fan said: "The mist you mentioned is indeed a factor, but the most important thing is the red hair, which is the culprit."

"Red hair?"

Everyone was puzzled.

"This red hair has been completely purified, so it is very common, but don't underestimate it. Many years ago, when the earth had not changed, and the tribes had not been born, I saw the red hair in Uncle Kunlun."

"Everyone must be careful. The head of the Kunlun Xiang family, Xiang Rulong, knows red hair very well. His father was infected with red hair, thus sealing himself in the fierce land."

"If you want to study red hair, go to Xiang Rulong, but be careful. Don't get it."

Ye Fan urged thousands of words.

Now, he is in the underworld and can't go to Kunlun to find Xiang Rulong to study the red hair.

do not know either.

What happened to Xiang Rulong's father?

Ye Fan was a little worried that if Xiang Rulong's father mutated, it would be a disaster.

It must be investigated as soon as possible.

"Bring the elf queen, go to Xiang Rulong, and learn about Hongmao as much as possible. I have a hunch that the future of Hongmao is the main trouble we are facing."

"clear."

"Bai Qi, I didn't expect that I would release you, and the ancient bronze coffin will bury you. I found four ancient coffins in the dragon veins. Besides you, who else is buried in them."

"Wang Jian, Meng Tian and Li Xin."

"Hey, they are all famous generals in Great Qin. It seems that this is the first emperor's method. Bai Qi, I want me to ask, what kind of existence the first emperor is, can you tell me!"

Everyone pricked up their ears.

Especially the human beings like sisters, they know the history of Daxia very well, the first emperor, the first emperor through the ages.

What kind of person is he!

It's a mystery.

Bai Qi was silent for a long time, then he said: "Your Majesty, is an unsurpassed existence, there is no one before and no one will come. Your Majesty, it is very likely that it has been detached."

Everyone shook.

Ye Fan said: "Transcendence? What do you mean by detachment. Could it be that it is the achievement of the Great Emperor?"

Bai Qi shook his head and said: "I don't know, I only know that His Majesty is mysterious and unpredictable, with the energy of the sky and the latitude, he forged the immortal kingdom, the Qin Dynasty in the secular world is just a projection, nothing. The real Qin Dynasty, that It is the supreme immortal country!"

"Supreme Immortal Kingdom!"

Four words, like thunder.

what is it?

Can't figure it out, can't figure it out.

However, the Qin Dynasty in the secular world is just the projection of the fairyland, which Ye Fan believes.

"Since it is an immortal country, why are you and Meng Tian buried in the dragon veins?"

"I don't know, my memory seems to be sealed a lot. I vaguely remember that the entire immortal country was buried by His Majesty. It seems that His Majesty is looking for a way to liberate except for the problem."

"Release after detachment." Ye Fan muttered to himself, unable to understand, perhaps, his realm was too low.

"Stop talking about this, I'll repair your primordial spirit for you."

"Is your Primordial Spirit power enough? Heavy consumption of Primordial Spirit's strength will do you great harm."

"It's okay, I'm in the underworld, and I have a lot of soul spar, so I don't have to worry about consuming the power of the primordial spirit."

"Underworld?"

Bai Qi's eyes flashed, but he didn't speak.

The power of the primordial spirit is surging, and it is much more troublesome to restore the primordial spirit of Baiqi than to help the heaven and earth demon ape repair the primordial spirit.

Because Bai Qi is now at the pinnacle of God Transformation, and the trauma of his Primordial Spirit is also greater than that of the Heaven and Earth Demon Ape, he naturally needs more Primordial Spirit power.

after one day.

Ye Fan said wearily: "It's over, I'm exhausted, I need to return to the underworld immediately. By the way, Bai Qi, in the dragon veins under the palace, I pass the entrance to the underworld, you can find a way to open the palace, maybe, I can Back to Earth."

White nodded.

The light of the idol dimmed, and Ye Fan left.

Meng Qingyi said: "Now we are splitting up. Let's go to Kunlun to find Xiang's family. Bai Qi, you and Heaven and Earth Demon Ape will go to the First Emperor's Mausoleum. I hope you can break the gate of the palace."

Compared to Heaven and Earth Demon Ape, Meng Qingyi still doesn't trust Bai Qi.

Therefore, instead of letting my sister follow Bai Qi to the First Emperor's Mausoleum, let the Heaven and Earth Demon Ape go.

Heaven and Earth Demon Ape is the late stage of God Transformation.

Even if Bai Qi wanted to deal with him, the Heaven and Earth Demon Ape would have the ability to fight and escape.

"Can."

Heaven and Earth Demon Ape nodded, knowing what Meng Qingyi was thinking, and he was naturally willing to hang out with Ye Fan's people after receiving Ye Fan's favor.

Bai Qi was silent and said nothing.

He left with the Heaven and Earth Demon Ape.

"Then we will withdraw first, if you need anything, then contact us." The emperor and other powerhouses left.

Meng Qingyi and others rushed to Kunlun.

The changes of the earth have led to huge changes in Kunlun. The resources here are extremely rich, and they are not inferior to Xianshan.

And there are countless opportunities for creation.

Back then, the families and forces that initially had territory in Kunlun received a wave of big dividends and basically all took off.

Such as Xiangjia.

When the Xiang family walked, the way of body training.

Body training requires nothing more than two things, the first is the body training method, and the second is resources.

Both of these items are lacking.

Many years ago, the Xiang family discovered a secret mansion of a sage in ancient times.

What is the God of the World?

Under normal circumstances, practitioners can only practice one body training method, while the body of the world can practice countless body training methods.

The effects of countless body training methods can be blessed on the body.

Extreme horror.

It is precisely because of this that there are a lot of body training methods in the secret palace of the saints of all realms.

This solves the problem of the body refining method for the Xiang family.

As for resources, it goes without saying that Kunlun's resources are endless, and the Xiang family has dozens of resource treasures in their hands.

There is nothing missing, and the Xiang family has to take off.

"Congratulations to the Patriarch for being promoted to God Transformation and becoming the top powerhouse in the world!"

this day.

Everyone in the Xiang family gathered to congratulate the head of the family, Xiang Rulong, for entering the realm of transformation into a god.

Xiang Rulong sat on the throne.

His body exudes a faint brilliance, and those brilliance keeps changing.

This is because Xiang Rulong obtained the source of meaning left by the saints of all realms and cultivated the divine body of ten thousand realms.

certainly.

His current Myriad World Divine Physique is incomplete and flawed, but by cultivating various body refining methods, the flaws will be gradually compensated.

Today, Xiang Rulong has practiced ninety-nine body training methods.

His body is extremely strong.

Xiang Rulong is confident that although he stops the water in the early stage of the incarnation, he can completely compete with the mid-incarnation.

"Ninety-nine kinds of body training methods are not as good as Ye Fan's body training method. I dream of the heavenly hegemony, and I don't know if Ye Fan has kept the hegemony formula. Another day, I will go to the Tianzun Hall and ask. , if I can, I will get it at a huge price."

Xiang Rulong's eyes were cold.

At this moment, he raised his brows and felt a tyrannical breath.

"Where is the divine coming to my Xiang family!"

Xiang Rulong's fleshly aura exploded, and his blood was monstrous.

This surprised Jiujianxian, Empress Suzaku, Empress Qingluan, and Peony.

"Tianzun Palace is here."

"Tianzun Temple!" Xiang Rulong was startled, and immediately smiled: "It turned out to be a friend of Tianzun Temple, it really makes my Xiang family flourish, please!"

The crowd descended.

Meng Qingyi now gradually has a leadership style, she said in surprise: "You have been promoted to the realm of God Transformation, and the physical body is so powerful, the dual cultivation of the physical body is amazing!"

Xiang Rulong said, "Today is my happy day. Come on, sit down and have a drink together."

Meng Qingyi shook her head and said, "We're here because we have an urgent matter. We also ask Patriarch Xiang to move. Let's have a good chat."

Xiang Rulong nodded and said, "Come to Houshan."

Everyone flashed and appeared in the back mountain thousands of miles away.

"what's up?"

"This, you should know it."

"Red hair!"

Xiang Rulong exclaimed.

Meng Qingyi said: "You really know each other, Xiaofan asked me to come to you. I hope you can help us study the red hair."

"Study the red hair, what a joke, Ye Fan should know that the red hair is terrible, when my father..."

Xiang Rulong didn't say any more, showing sadness on his face.

Meng Qingyi said, "Sorry for touching your sadness. However, this matter is indeed very important. You should know that Bai Qi and the Heaven and Earth Demon Ape came back and successfully resolved them. The reason why they are crazy is because of this red hair."

Xiang Rulong was surprised.

Jiujian Immortal said: "Since the red hair has appeared, it can't be ignored, otherwise there may be a terrifying disaster. Since your Xiang family is related to the red hair, you should not shirk it for yourself and for the sake of the ancestors and the clan, and, also, It's not for you to take risks, it's just to help us research."

Xiang Rulong sighed, "I'm not trying to shirk it, it's just that in order to study the red hair, one must enter the fierce land. No one knows what will happen. There may be nine deaths, or even ten deaths."

Chapter 1400: Deep into the haunted cave

Xiang Rulong has always been afraid of the Fierce Cave, which made him stronger over the years, and he never went to the Fierce Cave to find his father.

but now.

When Meng Qingyi and others came, he changed his mind. There are more people and more power. If we go to explore together, our safety is also somewhat guaranteed.

"It's okay to go to the Fierce Cave, but I hope I can bring the Elf Queen with me. If it is really contaminated with red hair, the Great Purification Technique should be useful."

"sure."

A day later, the Queen of Elf and the Master of Tongtian Palace, Qingluo, came over.

This magic weapon is very powerful.

In conjunction with the divine fire of Empress Suzaku, who is a Qingluan Empress, the power is greatly increased, and when encountering a crisis, it can also have an additional powerful means of coping.

A group of people set off.

Under the leadership of Xiang Rulong, he came to the location of the Fierce Cave, where a strong enchantment was born.

However, Meng Qingyi took out the Boundary Shuttle.

"Great body protection!"

Peony used this magical power to cover everyone, and then the Boundary Shuttle began to break through.

Although it took some effort, it was still easy.

After entering the vicious cave, everyone clearly felt the chill, the icy cold that the alien species penetrated deep into the bone marrow and even the depths of the soul.

"boom!"

"boom!"

Empress Suzaku and Empress Qingluan were surrounded by the divine fire of their own destiny, dispelling the chills on everyone.

Xiang Rulong said: "Everyone must be careful, red hair is strange and unpredictable, once it is contaminated, the consequences will be disastrous."

Meng Qingyi said, "You haven't come in to investigate for so many years?"

"No, although I really want to find my father, but, I am ashamed to say, I am very secretive about Hongmao."

"I wonder if your father is still alive?"

Xiang Rulong was a little sentimental. The reason why his father was stained with red hair back then was because of him, and he had to seal himself in the evil cave.

As a son, Xiang Rulong did not fulfill his responsibilities.

This time, when he came to the cave to explore, Xiang Rulong could be considered to have fulfilled his long-cherished wish. Gradually, he became brave and took the lead.

The cave is very deep.

As it went deeper, the temperature gradually decreased, and the gloomy atmosphere became more and more intense.

Meng Qingyi said, "This gloomy aura is somewhat different from the white mist that surrounds the heaven and earth."

Fang Rui said: "Big sister, it's too early to say, go to the bottom and take a look, I'm calculating, there are some clues, it's probably a homologous product."

Right now.

Fang Rui was shocked, her face changed, and she said, "Everyone, be careful, I heard some strange roars."

"Have it?"

Everyone is suspicious.

Jiujianxian and other god-transforming powerhouses did not hear it.

but.

They believed Fang Rui's words.

Because, although Fang Rui is not in the realm of gods, her mental power has reached the level of gods, which is stronger than Jiujianxian and the others. With the help of technology, she can hear roars that they can't hear. Reasonable.

"It is certain that there are creatures in the depths of the cave, I don't know what kind of existence."

Fang Rui muttered to herself.

Everyone looked at Xiang Rulong, as if to say, that creature could not be your father.

Xiang Rulong was a little anxious.

Everyone speeded up, and there was no danger along the way, and finally came to the bottom of the ominous cave.

It's very spacious here.

Very dark.

"Roar."

This time, everyone heard the roar.

Fang Rui said: "It came from here, let's follow it and see."

However, at the level of the ominous cave, the gloomy aura is very strong, and that kind of chill can invade the bone marrow and damage the body.

Great bodyguards can't stand it.

"Hundred Heavenly Furnace."

Qingluo Palace Master was very direct, and he revived the Huntian Furnace, buckled it upside down, and enveloped everyone.

And Empress Suzaku and Empress Qingluan also each fired a trace of the divine fire of their own destiny into the Huntian Furnace.

"Wooooooo."

In an instant, the interior of the Huntian Furnace was burning, and the fiery power descended, dispelling the chill and blocking the gloomy aura.

Following the roar, Xiang Rulong's speed was as fast as possible, because he seemed to sense something.

what is determined.

"Father!"

Xiang Rulong shouted.

He couldn't help shouting because, at this moment, he had completely discerned that it was his father's breath.

Although his father's breath has changed a lot over the years, he is still his father, and there is still the lingering familiarity.

"Roar!"

It seemed that he heard Xiang Rulong's cry, and a roar exploded, which was deafening.

The dark world trembled.

"Look!"

Suddenly, the gloomy aura in front exploded, revealing the scene over there.

Everyone's pupils contracted.

I only saw a huge cross with a strange creature nailed. The creature was very large, up to ten feet tall, and covered with red hair... No, to be precise, the stone tablet had countless sharp red hairs pierced through the body, and it looked like It's like growing out of the body.

If people with intensive phobia are here, they will definitely react to stress and even vomit.

because.

Now Meng Qingyi and the others have goosebumps all over their bodies and their scalps are numb.

"Father!"

Xiang Rulong is unbelievable.

Is this his father?

How did it become like this?

However, it was indeed his father's breath, and Xiang Rulong knew that he couldn't be wrong.

He got it.

It must be that the father was contaminated with too much red hair and directly alienated into this red-haired monster.

"Do not!"

Xiang Rulong was grief-stricken and burst into tears.

It was hard for him to imagine what kind of torture his father had suffered over the years!

Meng Qingyi looked at the densely packed red hairs, holding back her nausea, and said, "Once so many red hairs swept out and appeared in the outside world, the consequences would be unimaginable."

Empress Suzaku said: "Let's get started. Looking at it now, it seems that this monster is not sober enough. If it recovers completely, there will be a fierce battle."

"Shut up!"

Xiang Rulong glared angrily and shouted, "My father is not a monster!"

Lady Suzaku frowned and said nothing.

Meng Qingyi said: "Xiang Rulong, calm down. What we need to do now is to use the Great Purification Technique and the refining ability of the Huntian Furnace to destroy the red hair. In this way, maybe your father can return to his original appearance."

Xiang Rulong trembled and woke up.

"Yes, you're right, get rid of the red hair. Be sure to rescue my father."

"start to act."

With the elf queen as the core, everyone conveyed enough energy to the queen, and performed a great purification technique.

"Crash."

The power of purification came and drowned the red-haired monster. In an instant, the red-haired monster recovered and let out a hoarse and sharp howl.

Simultaneously.

The dense red hair on his body seemed to feel threatened and swayed wildly.

A cloud of mist was forced out from Hong Mai.

"Sure enough, it is a product of the same origin. That mist is similar to the mist of the Heaven and Earth Demon Ape's white eyebrows."

"Hundred Heavenly Furnace!"

The two goddesses exerted their natural fire with all their strength, cooperated with the Huntian Furnace, absorbed the forced out mist, and then forcibly burned them.

"Roar!"

The red-haired monster growled.

The cross, trembling and breaking down at any moment.

The entire cave is shaking.

"Fengshentai!"

"Repression!"

The queen threw out the Conferred God Platform and performed a great seal technique to suppress the red-haired monster.

Everyone is doing their best.

More and more mists rushed out of the red-haired monster's body, but they were all absorbed and burned by the Huntian Furnace.

At the same time, some red hairs also fell off the monsters. After being purified, these red hairs completely lost their strange power.

Everyone is doing their best.

It's just that the Koi Queen can't take it anymore, and the purification this time is much more difficult than the previous purification of the world's magic monkey and Bai Qi.

Therefore, the elf queen once again used her own pure and bright spiritual body source. The queen's face was pale and she couldn't bear it.

"The power of primordial spirit!"

Jiujianxian, the two empresses, Peony and even Xiang Rulong conveyed the power of their own primordial spirit to bless the Queen, which gradually restored and stabilized the Queen's sea of spiritual consciousness that was about to collapse.

Simultaneously.

The queen and her sisters took out many magical medicines and injected them into the queen's body, turning them into the most pure tender two to supplement their consumption.

"Roar!"

Suddenly, the red-haired monster flew away from the Conferred God Platform, tore the restraint, and the cross exploded.

"puff!"

Everyone was bleeding.

"Hold on!"

Meng Qingyi everyone, the seven-star fate plate in his hand was spinning, and the power of fate was impacted.

The red-haired monster suffered trauma.

The arrogance has been weakened a lot.

The red hair is still falling off, and now, all the red hair on the monster's head has fallen off, revealing its face.

Actually, it was really back to normal.

"Father!"

Xiang Rulong burst into tears and was very happy. If this goes on, his father can really recover.

However.

The mutation happened again.

At the foot of the red-haired monster, the towering hill slammed away, and an altar appeared.

Above the altar, a terrifying mist erupted, covering the red-haired monster. At the same time, the mist spread and swept toward everyone.

"not good!"

"Stop it, or we're all screwed."

The complexion of the Qingluo Palace Master changed greatly, and the Huntian Furnace showed enough power to absorb the mist and burn it clean.

"It can't be fixed like this."

"Go!"

Peony held the open sky axe and slashed towards the red-haired monster fiercely.

What I didn't expect was that such a tyrannical blow only left a scar on the red-haired monster without opening the blood.

Really incredible.

The flesh of the red-haired monster is simply invincible.

"Come again!"

Peony didn't stop, and continued to swing the opening axe.

"Sword, twenty-six!"

Jiujianxian also performed invincible swordsmanship.

The two goddesses' natural fires were also fired, and the terrifying flames drowned the red-haired monsters.

The arrival of so many attacks has indeed brought disaster to the red-haired monster, suppressing the mist that spewed from the altar.

At the same time, the red hair on his body also fell off more and more.

"it is good!"

Xiang Rulong was excited.

However, the light from the altar seemed to have injected a lot of energy into the red-haired monster, causing him to become violent again.

"roll!"

One word, rock-shattering.

The red-haired monster waved his fist, smashed the axe into the sky, and slapped the sword technique out.

He roared up to the sky, and blew the **** out of the furnace.

"puff!"

Finally, the elf queen couldn't stand it and vomited blood and fell into a coma on the spot.

Everyone was seriously injured.

And the red-haired monster, with blood-red eyes, stood on the altar and looked at everyone coldly...
