Chapter 1411: Ancient Demon

"Lord of the Demons, you are so confident that you want to save them even if you want the devil. I'm very puzzled, what kind of confidence do you have to say such a big thing!"

Li Si sneered, disdainful.

He doesn't care about the Lord of the Demons. He is the Prime Minister of the Great Qin Immortal Kingdom. How can the Lord of the Little Demons be comparable.

Still want to grab food?

It's simply a joke of the world.

Mo Xiantian did not speak, his face gradually became serious, and at the same time, the monstrous demonic energy filled the sky.

Cover the world.

Coercion over the entire southern border region.

"Ok?"

Li Si's eyelids jumped.

The aura displayed by Demon Xiantian was actually skyrocketing wildly, and even his body and appearance had some changes.

"kill!"

Bai Qi didn't care about this, he didn't give Mo Xiantian a chance, and the black big knife in his hand slashed at Mo Xiantian.

However.

This knife was resisted by the surging demonic energy.

"what!"

White was shocked.

Although his knife was not a full-strength strike, it was not bad. He was actually blocked by demonic energy, and the demons didn't even shoot. What was this concept?

"There's something tricky! Can't wait for him to brew, let's go together!" Bai Qi was decisive and called Wang Jian and Meng Tian.

The three were killed and left.

Without the suppression of the three people, the Queen and others on the grinding plate of heaven and earth were also ready to move, and began to brew a breakthrough.

"Boom."

During this time, the demonic energy became more and more turbulent.

horrible.

The entire southern border area was covered with demonic energy, as if the sky had collapsed, and the black cloud overwhelmed the city's nervousness and depression.

"Trinity!"

At this moment, Bai Qi, Meng Tian and Wang Jian shouted, and the three of them turned into streamers, and they joined together.

"die!"

One punch, smash.

How terrifying is this punch.

The ground below exploded and collapsed, and even the magma in the ground erupted.

at the same time.

The Lord of Demons finally opened his eyes.

Two divine lights divide the world.

He reached out his hand and easily crushed the punch, and then he screamed in the sky.

A terrifying shadow appeared, standing on the ground, exuding the majesty of an emperor, making people dare not look directly.

Li Si exclaimed: "Ancient demons!"

"good!"

Demon Xiantian was invincible and confident, smiled and said, "I have already obtained the way to incarnate the ancient demons. Zu Xing is worthy of being Zu Xing, and it has made me have earth-shaking changes."

"You asked me just now, what's the point?"

"So!"

"Now I tell you, the ancient demons are my confidence!"

When Mo Xiantian finished his words, he punched the three of Bai Qi with one punch.

The trinity is very strong, but in the face of Mo Xiantian's punch, the trio's expressions changed.

"kill!"

The three of them screamed in unison.

However, this time, they were defeated.

"puff!"

The three of them spurted blood.

fall down.

Falling into the magma, however, their bodies are strong, and it will not hurt if they fall into the magma for a short time.

Swish!

The three rushed to the sky again.

At this time, Li Si also shot. A brush appeared in his hand, which looked simple and unpretentious. However, when Li Si wrote out of thin air, the world shook.

In the dark.

It seems that a force against the rules is born.

"Human Emperor Pen!"

The devil exclaimed.

Above the millstone of heaven and earth, the queen and others were also extremely shocked.

What is the Royal Pen?

In ancient times, the utensils used by the emperor to write legal decrees were also said to be giant treasures made by the emperor.

The Human Emperor Pen, combined with the Great Law Order, has an extremely terrifying effect.

rumor.

The person who cultivated the Great Law Order to the pinnacle was the Human Sovereign in the ancient times, who was the real follower of the law.

Jinkou Yuyan.

Even, the human emperor pen is called the judge pen.

Can determine life and death.

At this moment, Li Si has finished writing, and finally finished the finishing touch, and stopped drinking:
"The general trend of the world, listen to my orders, suppress the demons, and restore Qingming!"

In an instant.

The turbulent power of heaven and earth and the general trend of heaven and earth are suppressing, attacking from top to bottom, and there is nowhere to escape.

Endless magic collapse.

The body of the ancient demons of the innate demons is trembling; on the grinding disc of heaven and earth, the queen and others are facing a crisis of life and death!

Chapter 1412: Ye Fan returns

Li Si owns the Human Emperor Pen, which Mo Xiantian did not expect.

This is a huge variable.

The demons were all suppressed, the ancient demons were about to collapse, the demonic energy dissipated, and his face was very solemn.

"Li Si, I underestimated you."

"I am the Prime Minister of the Great Qin Dynasty, what right do you have to underestimate me, this is your stupidity, and you will pay the price for your stupidity."

Li Si's words were like pearls, and his voice was like thunder.

Shake the world.

The Human Emperor Pen, under Li Si's waving, drew a circle out of thin air.

"Drawing the ground is a prison!"

Li Si stopped drinking.

Suddenly, a fault appeared in the space around Mo Xiantian, and a mysterious force surrounded him, isolating him from the outside world.

This method is amazing.

"Prime Minister, it's good."

Bai Qi was overjoyed, they no longer paid attention to Mo Xiantian, Li Si was enough to deal with it, and the three killed them again.

Deal with the precarious queen and others.

"it's all over."

Bai Qi opened his mouth leisurely, and at the same time, ordered the Xianguo warriors, together with Wang Jian and Meng Tian, to launch the final lore.

"Destroy it."

The crisis of death has come to everyone's heart.

Rumble.

But at this time.

The sky was torn apart, and a fist shot came from a distant place, knocking all the warriors of the Immortal Kingdom into the air.

"what!"

The sudden change shocked the three of Bai Qi.

Could it be.

Besides Mo Xiantian, who else came to rescue?

Before they could think about it, the second punch arrived, and this punch was even more terrifying than before.

The entire southern region is boiling.

This punch even hit the rioting black flames, and the endless scourge was absorbed by this punch.

The power is getting bigger and bigger.

"What, it can absorb the fist light of the rioting black flame, what a joke, what method is this!"

Meng Tian couldn't believe it.

"boom!"

The three were sent flying.

Immediately afterwards, another claw print appeared in the sky, grabbing at Li Si, fierce and domineering.

"presumptuous!"

Li Si was furious.

However, his face was cold, because he could feel the horror of this paw print.

He has to give it his all.

"The stroke of the pen is shocking!"

Li Si quickly waved the human emperor's brush and drew a sharp sword. This sword seems to be able to open up the world.

The sword strikes the paw print.

"boom!"

The sword collapsed.

The paw prints are also torn apart.

but.

In the paw prints, there was an attack hidden, which knocked Li Si flying.

"puff!"

Li Si vomited blood and was furious.

at the same time.

A palm print slapped Demon Xiantian, directly destroying the power that besieged Demon Xiantian.

The devil was born out of trouble.

"who is it!"

Liz yelled.

The entire Southern Territory trembled, and the monstrous blood swept in, covering the entire Southern Territory, making everyone palpitate.

gradually.

In the blood, a tall and straight and heroic figure came out, standing above the sky, pressing between the sky and the earth.

"Evan!"

"Evan!"

"Evan!"

One after another exclaimed and exploded.

Who can fragrant the island, Ye Fan will appear, it is impossible, the statue has not recovered!

In fact.

Long ago, Li Si was worried about the recovery of the statue of Ye Fan, so he secretly used the Human Emperor Pen to inscribe the ancient sealing formation and sealed the statue.

It is impossible for Meng Qingyi to summon Ye Fan Yuanshen to come.

So.

Who is this Ye Fan?

At this moment, the sisters burst into tears, because they deeply felt that it was Ye Fan!

The real deal.

Not idols, not incarnations, not falsehoods.

Ye Fan, he is back!

He has returned from the underworld, and the king will rule the world!

Chapter 1413: Kamui

Ye Fan was condescending, overlooking everything.

He was extremely angry.

The sisters, the queen and others are in a life-and-death crisis, and these guys are trying to die!

"Evan!"

Bai Qi screamed, trembling all over.

Because, the current Ye Fan feels really terrifying to him.

That blood is simply unreasonable.

besides.

Ye Fan was even more profound, as if he was carrying a world, and he was extremely oppressive.

"Disperse!"

Ye Fan performed the Great Dispelling Technique.

Immediately.

The black flames of the riot were dispersed.

Heaven and Earth Grinding Plate got out of trouble.

And Ye Fan, of course, did not let the rioting black flames go. This is the third-ranked Yihuo, which is very powerful and is of great help to his own fire spirit.

"receive!"

Ye Fan grabbed the tinder of the rioting black flames.

"presumptuous!"

Li Si was furious.

The riotous black flame was once bestowed by the Immortal Emperor, who would dare to take it!

"decay!"

Li Si waved the human imperial pen and performed the Great Law Order.

A power of decay was blessed on Ye Fan, which surprised Ye Fan. He looked at Li Si, and his body trembled immediately.

The blood is soaring.

Crash the power of decay.

"what!"

Liss was shocked.

Ye Fan was so easy to crack the power of the Great Law Order, how far the fleshly body has reached.

"Who are you, Li Si?"

Ye Fan found Li Si's costume and made a judgment.

"Daqin Xianguo is already in the past tense. Of course, I don't mind you looking for it. However, it is unforgivable that you hurt my relatives and friends."

"Originally, for the sake of the sages, I thought I would spare you, but now, I have changed my mind."

"All suppression!"

Ye Fan finally got serious, he stepped out in one step, the sky fell apart, and the Ninety-Nine Heavenly Hegemony was fully recovered.

The sky and the ground seemed to be unable to withstand the power of his flesh, the space was torn apart, and cracks appeared.

The earth also exploded, and the magma spewed.

"The Gate of Heaven!"

Ye Fan opened the door and shouted, "My magic weapon, come back quickly!"

Rumble.

From the heavenly world, there were streaks of brilliance.

Tianbao hosta!

Tianbaoyu wishful!

Holy King Order!

Creation scriptures!

Wait for the treasure, all return to Ye Fan's body.

As for the magic soldiers such as Kaitian Axe and Wuxu Kunding, Ye Fan did not summon them and left them to the Queen.

"Buzz!"

Creation scriptures resonate.

"Creation Fist!"

Ye Fan bombarded with a punch.

Breaking through the space, the faces of the three of Bai Qi changed greatly. The power of this punch was really terrifying.

"return!"

Liz shouted.

The three in white returned to him, and the four seemed to be performing some kind of forbidden technique.

Unfortunately.

With this punch, Ye Fan's target was not them, but the warriors of the Immortal Kingdom.

"Bang bang bang."

For a time, the Immortal Nation War will be fought in an extremely wasteful and miserable manner, but after countless years of subtle forging, their fleshly bodies have become incomparably hard.

Although he was injured, his body did not collapse.

"Large Arrest!"

"Great Sealing Technique!"

Ye Fan was rude, these Immortal Kingdom wars took his fancy and grabbed them all.

"court death!"

Li Si was furious and his eyes were splitting.

Immortal Kingdom Warrior, that is their biggest blade at present, and no one can take it away.

"kill!"

"Dragon Prisoner Array!"

"Dragon pulse help me!"

Li Si shouted, under the palace, the dragon pulsed out a dazzling light and injected it into the core of the great formation.

In an instant.

The great formation was radiant, and the power quickly climbed, shrouding Ye Fan.

Li Si roared: "Ye Fan, this dragon trapping formation is a peerless formation in ancient times. Although the killing power is insufficient, the siege ability is absolutely terrifying. Even if you want to destroy it, it is not easy. During this period, we are enough to kill the queen and them!"

Ye Fan's face changed.

He waved his fist, blessed with supernatural powers such as the Great Inflation Technique and the Great Blessing Technique, and his strength rose again.

"boom!"

With a single blow, the sleepy dragon formation swayed wildly, as if it were about to collapse at any time.

Li Si's eyelids jumped wildly.

The three Bai Qi immediately killed the queen and the others.

but.

At this moment, the Queen and the others escaped their predicament, the rioting black flames were also wounded and hidden, and the warriors of the Immortal Kingdom were also injured. There were only three people in Bai Qi, and the Queen and the others were not afraid.

"Heaven and Earth Grinding Plate!"

"Erase everything!"

"Open Heaven Axe!"

"Spirit of Longmai!"

"Killing Divine Light!"

"Twilight of the Gods!"

"Sword twenty-eight!"

"..."

All the strong, all cast lore.

The three of Bai Qi were furious and did not dare to confront each other, so they could only retreat.

at the same time.

There was a change in the sleepy dragon formation, and a primordial spirit rushed out. Yes, the sleepy dragon formation did not suppress the primordial spirit strongly.

Ye Fan's Primordial Spirit is a peak spirit, and it is not difficult to rush out.

"boom!"

Yuanshen attack.

For a time, the entire battlefield was covered by spiritual power.

Li Si shouted: "Ye Fan, let's compare to see whose Primordial Spirit is stronger."

The two primordial spirits collided.

Bai Qi sneered: "Ye Fan, this idiot, even compared to the prime minister's primordial spirit. The prime minister's primordial spirit was praised by the Immortal Emperor. Although the primordial spirit has weakened a lot over the years, it is not comparable to Ye Fan. Even if Ye Fan Yuanshen is at the peak level of God Transformation, he is not the prime minister's opponent!"

Li Si is extremely confident.

His Primordial Spirit collided with Ye Fan's Primordial Spirit directly and fiercely.

He was going to make Ye Fanyuan's divine outfit sloppy.

Simultaneously.

Swallow all Ye Fan Yuanshen and replenish himself, perhaps, so that he can break through the bottleneck.

In the face of Li Si Yuanshen's mad rush, Ye Fan's Yuanshen did not flinch, and his Yuanshen radiated brilliance.

Emerald green light permeates.

can be seen.

In the heartless center of Ye Fanyuanshen, there is a small sapling flickering.

World tree seedlings.

Ye Fan transferred the seedlings to the core of Yuanshen, which is equivalent to adding a layer of invincibility to Yuanshen.

"What aura? What is that! Why, it makes my primordial spirit tremble!"

Li Si was shocked.

However, at this moment, he has no way out, and Ye Fan will not let him leave.

boom!

The two primordial spirits just collided.

"Xiao Miao, just now, give me crazy absorption!" Ye Fan shouted excitedly.

His Primordial Spirit captured Li Siyuanshen.

Afterwards, the root system of the World Tree seedling was shot into Li Si Yuanshen and began to frantically absorb the power of Yuanshen.

"what!"

Li Si screamed.

"What the hell! Get out of here!"

Li Si struggled desperately.

But it didn't help, because Ye Fan used the Great Entanglement Technique, which sealed it tightly, and held Li Siyuan to death, and he couldn't get rid of it at all.

"Ah ah ah ah..."

Liss is getting more and more painful.

The power of the primordial spirit was output frantically, and his breath began to weaken, which made Li Si panic.

If this goes on, he will surely die.

"Evan!"

"I really underestimate you, but don't think that you can kill me like this!"

"You're not good enough!"

"The Primordial Spirit Decomposition Dafa!"

Just listening to the scream, with a bang, Li Siyuan's spirit collapsed, turning into tiny particles, and got out of trouble.

All these tiny particles did not enter Li Si's body.

Liss trembled.

His body shook violently and his face turned pale, because his Primordial Spirit was injured.

When the Yuanshen decomposes Dafa, there is obviously a certain amount of self-harm. This is a kind of secret method of last resort.

"boom!"

But Ye Fan didn't give Li Si a chance to breathe.

The fist has come.

"puff!"

Ye Fan was shot flying, blood spurting wildly.

"Prime Minister!"

The three of them screamed in surprise.

He wanted to go back to rescue, but was entangled by the queen and the others, unable to escape.

Ye Fan Yuanshen turned around and attacked the trapped dragon formation.

Inside and out.

"Crack!"

Without the slightest doubt, the formation was directly shattered.

Yuanshen returns.

Ye Fan opened his eyes, completely tore the broken trapped dragon formation, and then grabbed the warrior general of the Immortal Kingdom.

"The emperor said he wanted to suppress you, then he would definitely do it. You can't escape from my palm."

"The power of the world."

This is the way Ye Fanxin learned to use the world tree seedlings to unleash the power of the world.

This is an extremely heavy force.

Has a very good repressive effect.

Sure enough, the warriors of the Immortal Kingdom roared. They couldn't bear the pressure and fell from the air.

"The Gate of Heaven!"

And Ye Fan opened the gate of heaven below them, and they fell directly into the world of heaven.

"Do not!"

Liz roared.

The Human Emperor Pen erupted with ferocity, knocking down the gate of the kingdom of heaven.

However.

In a short period of time, a thousand immortal warriors fell into the heavenly world.

A thousand!

Li Si's heart was bleeding.

"Ye Fan, I want you to die! I want you to die without a burial place!"

"Come!"

Li Si grabbed it with a big hand, tore the space apart, and grabbed an ancient bronze coffin from the dragon veins under the palace.

Ye Fan narrowed his eyes.

"Recover!"

"Li Xin!"

An altar appeared at Li Si's feet, and a strange force hit the ancient bronze coffin.

The ancient coffin, which had been silent for countless years, began to emit a heart-like Tian Dong.

"Boom!"

"Dong dong!"

This beating sound is inexplicably startling.

next moment.

The ancient coffin trembled, the coffin lid clicked, a gap appeared, and a monstrous black gas rushed out.

Submerge the battlefield and smear the sky.

In the dark, there seemed to be a sigh, which came out from the ancient coffin; then, black air surged, and a tall and mighty creature walked out.

Holding a mace.

Broken armor.

Full of white hair.

Like a devil.

Chapter 1414: Devil Li Xin

Li Xin recovered.

Different from Bai Qi, Meng Tian, and Wang Jian, Li Xin seems to be very ethereal.

There is an unreal feeling.

Ye Fan was expressionless, and said coldly: "Even if all the generals in Daqin recover, what will happen! Now, it's not your era anymore, you guys have been eliminated!"

Li Si said angrily: "Ye Fan, you are so outspoken that you dare to say that we have been eliminated. It's ridiculous. We have gone through the ages, and we are recovering at this time, and there is God's will in the dark. In this era, we will naturally dominate!"

"You dominate? You really look up to yourself! A group of chickens and dogs, let's go together and save time."

Ye Fan performed the Great Clone Technique.

Two identical Ye Fans appeared, inheriting 80% of Ye Fan's combat power.

"Shh!"

The two clones attacked Bai Qi, Meng Tian and Wang Jian.

On the other hand, Ye Fan had his eyes on Li Si and Li Xin.

"Creation Fist!"

Ye Fan punched Li Si.

"Underworld Emperor Fist!"

Another punch hit Li Xin.

One against two.

Li Si was furious, this was a blatant humiliation.

How could he bear it.

Just when he was about to fight back, Li Xin said, "Prime Minister, I'm here."

A deep and penetrating sound.

Li Xin took a step forward.

Shrink to size.

The physical body is hard against the Ming Emperor's fist, and the long mace smashes the good fortune fist and kills it in front of Ye Fan.

"boom!"

He also punches.

Ye Fan's pupils contracted, and he found that this punch could not be avoided.

There is such a thing!

You know, how powerful Ye Fan is now, needless to say, the ninety-ninth-level Celestial Hegemony, the realm of the peak of the gods, the primordial spirit is also the peak state.

It is the peak of the whole.

It can be said that in the realm of the peak of the gods, Ye Fan is confident and invincible at the same level.

But now.

Li Xin's punch, he couldn't dodge.

Shocked him.

But it was only a shock, and Ye Fan's reaction was not slow in the slightest.

"The Great Emperor's Fist."

"boom!"

fist bump.

Fly upside down.

Ye Fan was shocked again, Li Xin's strength was very powerful, and he was on a par with him.

"interesting!"

"Li Xin, the one who recovers in the end is really the strongest. However, if you only have this level, you can't stop me."

Ye Fan sneered.

Qi and blood were monstrous, and in the qi and blood, a picture scroll with an aura of destruction slowly emerged from the palm of his hand.

Bloodline Supernatural Powers: Yin-Yang Life and Death Diagram.

Self-salvation, breaking and standing, now Ye Fan's yin and yang bloodline has become stronger.

The power of the bloodline supernatural power naturally soared.

The huge picture of life and death, exuding glorious heavenly power, covered the audience and blocked the light.

At this moment, Ye Fan seems to be the master of this world.

"Yin-yang lock!"

Ye Fan performed the Blood Vessel Secret Technique.

Li Xin raised his brows and said, "You are very good. This kind of supernatural power is very powerful. Unfortunately, to me, it is nothing."

only see.

Li Xin opened his mouth and let out a white breath.

That white gas turned into a galaxy like a galaxy, actually dividing the life and death map of yin and yang.

"what!"

Ye Fan was shocked.

The next moment, the power of the yin and yang lock was also smashed by Li Xin with one palm. Li Xin shot, and the long mace in his hand smashed down.

The space is shattered inch by inch.

The power of this mace is indescribable.

Whether it is Bai Qi's black sword, Wang Jian's halberd, or Meng Tian's spear, they are all treasures.

Ye Fan suspected that it was an imperial object.

It was tailor-made for them by the Great Qin Immortal Emperor.

Li Xin's trump card is no exception.

But Ye Fan is not afraid. In terms of treasures, he has a lot of them. He called out, "Open Heaven Axe, come!"

"Shh!"

The Kaitian Axe turned into a streamer, disappeared from the Queen's hands, and appeared in front of Ye Fan.

Ye Fan clenched the Heavenly Axe tightly.

There is resonance.

For so long, Ye Fan and Kaitian Axe have fought side by side countless times, and they have gradually built up their senses.

"kill!"

Kaitian axe VS long mace.

After the collision, Li Xin and Ye Fan vomited blood and flew backwards. The energy was first compressed, and finally exploded with a lightning-like expansion.

Just like nuclear fusion is instantly transformed into nuclear fission.

How terrifying this energy release is, it is self-evident that Ye Fan and Li Xin attacked again, blood spurting wildly.

However.

In the blink of an eye, they had a big fight together.

Compete in the flesh!

Compete weapons!

Compete with supernatural powers!

Ye Fan and Li Xin could be said to have a full-scale outbreak, and the battle was shattered, and they were shot directly from the southern border.

This battle has attracted the ideas of countless creatures.

It is terror.

From the southern border, they reached Kunlun. In the depths of the Kunlun Mountains, Ye Fan and Li Xin were unscrupulous and had no more scruples.

"The power of the underworld, invite!"

"Help me!"

At this moment, Ye Fan became the Emperor of the Underworld.

Carry the underworld.

The breath is like hell.

"Underworld!"

Li Xin's eyes narrowed.

"Ye Fan, you are really beyond my expectations. I admit that you are very enchanting, but it still won't work."

"Unblock!"

"The devil in your body, come back to life, I will transform into a demon and destroy everything."

Li Xin sang.

On his body, a maroon brilliance burst out, and at the same time, Li Xin's appearance also began to change.

Gradually became hideous.

There were many imprints on the face, more and more, spreading all over the body, like a curse, terrifying.

Immediately after.

Li Xin's back split, and two bone spurs rushed out and began to grow wildly, crisscrossing each other and turning into a pair of bone wings.

Ye Fan was stunned.

What a monster! What a secret technique this is!

Demons?

What's the meaning!

In the distance, Li Si and the others looked solemn, only they knew it, because this was Li Xin's second form.

The reason why Li Xin is strong is because he has two forms.

The first form is normal.

The second form, the demon form, began to become bloodthirsty and keen to kill, and the combat power skyrocketed.

"Roar!"

Li Xin screamed.

The long mace in his hand turned red, like a slaughtering sword, killing everything.

to this point.

There is no need for crap.

Ye Fan used the power of the world to suppress the past; however, to his shock, Li Xin split the power of the world abruptly.

"Who can stop me!"

"die!"

The long mace strikes.

Ye Fan controlled the opening axe and slashed it.

But it turned out that he was smashed and fell, and Li Xin fell from the sky, killing him quickly.

"puff!"

Ye Fan couldn't avoid it.

Blood bloomed on the shoulders.

"interesting!"

Ye Fan sneered, he looked at Li Xin, his fighting spirit was vigorous, he put away the axe, and killed Li Xin with his bare hands.

Big Twist!

Great Freeze!

Great Seal!

Great Silence Technique!

Great poison!

...

Dozens of avenues and magical powers, working together, are terrifying, sweeping away.

But.

Li Xin opened his mouth and spit out a series of mouthfuls, destroying all the powers of these avenues.

And this time.

Ye Fan was no longer in his sight.

"careful!"

Li Si exclaimed.

It turned out that Ye Fan didn't expect those supernatural powers to deal with Li Xin, but instead, he used a great invisibility technique and appeared directly above Li Xin's head.

"boom!"

This punch hit Li Xin's head firmly, = it contains the power of creation, the power of yin and yang, the power of the world...

and many other forces.

This punch is strong enough.

Li Xin screamed, the seven orifices bleed, and fell into the underground magma...

Chapter 1415: Foreign aid please?

"it is good!"

The big guy above the grinding wheel of heaven and earth was hooked when he saw this scene.

Li Xin must have been seriously injured.

Ye Fan's punch was very powerful, and it was still bombarding his mind.

but.

Li Xin is also really scary.

Because, as another strong man, Ye Fan's punch can directly blow his head.

Even Bai Qi, Meng Tian and Wang Jian may have their lives in danger, but Li Xin's head not only didn't explode, it didn't even crack, just bleeding from the seven orifices.

This also shows that Li Xin is physically terrifying.

The body of the devil is extraordinary.

"Buzz!"

Ye Fan opened his eyes of yin and yang.

Now the eyes of the sky have begun to show their true power. Two rays of divine light burst out, dividing the magma and looking for Li Xin.

And Li Xin.

But rushed out ten miles away.

A fiery red brilliance split the sky, the mountains and rivers rolled back, and magma burst out.

"boom!"

Ye Fan suddenly turned around.

One punch.

Guanghua collapsed, and Ye Fan also fell.

Stepped on the ground.

"Li Xin, your demon form is nothing more than that, which makes me a little disappointed."

"Roar!"

Li Xin growled.

The long mace in his hand suddenly opened a crack, which seemed to be a portal.

"The devil is coming!"

Li Xin called, this is a great summoning technique.

I saw that there were whispers in the portal, shocking the heart and soul.

Subsequently.

A huge claw stretched out, followed by a second claw, and then a hideous head appeared.

A demon descends.

This demon is also the pinnacle of God Transformation.

it's not finished yet.

The second, the third, the fourth...

Nine demons at the peak of the gods are coming!

Furious.

The queen and their faces changed greatly.

Li Si laughed: "In those days, the Immortal Sovereign conquered the Devil Realm and sealed the origin of the Devil Realm in Li Xin's body. This is also the reason why Li Xin can incarnate a devil, and it also allows Li Xin to open the door of the devil and summon the devil."

"Evan!"

"The demon of the peak of the nine gods is coming, how do you fight! You say, how do you fight!"

Li Si sneered.

It seems that I have seen the picture of Ye Fan being suppressed.

And Ye Fan looked at the nine demons and said with a smile: "Yes, yes, the devil world, interesting!"

"Nine gods of the peak of the gods, right? Since you are looking for foreign aid, that's fine, you also look at my foreign aid!"

"Underworld powerhouse!"

"Get me out!"

Ye Fan shouted and turned into the Emperor of the Underworld.

Showing the power of the slow heaven, and the unique power and breath of the ruler of the underworld, sweeping the world.

"Boom!"

I only saw that the space burst, and the huge super battleship slowly emerged, and above the battleship, stood a terrifying powerhouse.

The high priest of the skeleton tribe, the five skeleton chiefs, the soul emperor and other peak-level powerhouses of the gods.

Fifty-eight! !

That's right, fifty-eight gods are at their peak, and they won't be mentioned in the later stages of the gods, and they don't need to appear.

"See Emperor Ming!"

Fifty-eight gods are at their peak, and they all shouted together.

Loud.

How majestic that is!

The powerful people in heaven and earth, Ye Fan, Li Xin and the nine demons, seem so insignificant.

Li Xin was stunned!

Li Si is stunned!

Bai Qi, Wang Jian and Meng Tian were also stunned!

Even the empress and the others are also petrified, stunned and speechless!

Ye Fan smiled and said, "Li Si, Li Xin, how do you feel, how about the foreign aid I invited?"

"Li Xin controls the demon world, right? I'm sorry, I control the underworld."

"Whether it is in ancient times or now, the underworld is much stronger than the demon world."

"I'll give you the opportunity to continue summoning demons and have a group battle at the peak of God Transformation."

Li Si's face was ugly.

He glanced at Li Xin. At present, Li Xin obviously can only summon nine peak demons.

Although some demons in the late, middle, and early stages of God Transformation can still be summoned, they are useless.

because.

On the battleship, under Ye Fan's command, there are still many late stage gods!

How to fight this?

Li Si couldn't believe that Ye Fan actually controlled the underworld.

To know.

When the Immortal Sovereign suppressed the underworld, the ruler of the underworld desperately sealed the underworld, so that the underworld could not be controlled.

How did Ye Fan control it!

"Since, don't continue to summon demons, let's start, and have a good fight."

Ye Fan gave an order.

Immediately, the commander of the Skeleton Clan took the lead, leading many of the peak gods to kill the nine demons and Li Xin.

The high priest, on the other hand, was eyeing Li Si.

The other several peaks of the gods were killing the three of them.

It can be said.

Total suppression.

There is absolutely no doubt.

"The Gate of Heaven!"

Ye Fan opened the door again and grabbed the warriors of the Immortal Kingdom. He was greedy for these warriors.

Finding a way to conquer it is a huge battle force.

Although he is the Emperor of the Underworld, the powerhouses who come to the earth, except for the skeleton race, will follow him, and the other powerhouses should go their separate ways.

Will not follow, but will obey orders.

after all.

He has always been the Emperor of the Underworld.

Their clansmen are still in the underworld, and their lifeline is controlled by Ye Fan.

Therefore, Ye Fan did not get carried away, and what should be won must be won without ambiguity.

"stop!"

Li Si's eyes were split.

Seeing that the Immortal Kingdom Warlord was suppressed and taken away, his heart was bleeding.

But to no avail.

With the High Priest there, Li Si had no skills at all.

"Roar!"

At this moment.

A demon was suppressed.

Followed by the second, the third...

When the fifth demon was suppressed, Li Xin roared with a grim expression, "Blow me up!"

boom!

A demon blew itself up.

Earth-shattering.

However, it doesn't matter much, because the number gap is so large.

Dozens of God Transformation peaks were shot, and the energy of the explosion was directly destroyed, unable to hurt them at all.

boom!

boom!

boom!

In the end, the three demons blew themselves up at the same time, causing some strong men to turn pale and start to retreat.

"go!"

Li Xin broke away from the demon form and returned to normal. He forced the high priest to retreat and helped Li Si get out of trouble.

And Li Si, waving the Human Sovereign's pen, knocked the peak powerhouse of the incarnation of the three Bai Qi into the air.

They tore the void and fled towards the First Emperor's Mausoleum.

"Chase!"

Ye Fan ordered.

The high priest's methods were mysterious and unpredictable, and a space channel was directly established. The skeleton chief led many peak powerhouses to hunt down the past.

at the same time.

Ye Fan has also collected all the fresh fruits.

It is a great harvest.

"Let's go too!"

Everyone entered the super battleship and launched a space jump.

However, under the outbreak of the Human Emperor Pen, Li Si and the others arrived at the Mausoleum of the First Emperor and entered the palace.

"boom!"

They just entered.

The skeleton clan chief and other powerhouses came, and fifty-seven peaks of the gods were shot in unison.

Why is there no seventeen, because the high priest is on the super battleship and has no generals.

Fifty-seven statues of the peak of the gods joined forces to fight the imperial palace without stopping the demon emperor, but it did not shatter.

Li Si said coldly: "This is the Palace of the Immortal Kingdom, not to mention the peak of the gods, even if the gods who are a few big realms shoot, they can't break it. Don't waste your efforts!"

Super battleship appears.

Ye Fan was condescending and said coldly, "You think you'll be completely safe if you hide in it!"

Li Si sneered: "Ye Fan, you think you can break open the palace, you can give it a try."

"Ye Fan, don't be complacent, we are all ancients, and our cultivation bottleneck is very small. As long as we have enough time, we will improve endlessly. Just wait, wait for us to break through the realm of God Transformation and reach a new height. Killing you is like slaughtering pigs and dogs!"

"Noisy!"

Ye Fan stopped drinking, and the power of the dragon's veins erupted in his body. At the same time, he began to connect with the old dragon's veins under the palace.

This kind of secret method of hooking the dragon veins was taught by the ancient dragon veins of Taixutian.

Very advanced.

Sure enough, under the palace, the dragon veins trembled, and the power of the dragon veins surged involuntarily.

The palace shook violently.

"what!"

Li Si was shocked.

Ye Fan smiled and said, "If you can't attack from the outside, then it will collapse from the inside. Li Si, take a good look!"

"Explode!"

"The power of dragon veins!"

The palace is torn apart.

Building collapsed.

"Do not!"

Li Si exclaimed.

He spat out a mouthful of blood, landed on the Human Sovereign's pen, and threw it into the air, shouting, "The might of the Human Sovereign, suppress everything!"

hum!

The Human Sovereign's brush was radiant, exuding a trace of indescribable coercion, suppressing all the surging power of the dragon's veins.

"Oh?"

Ye Fan was surprised.

But, as expected.

Human emperor pen, can not be simple.

"I'd like to see how much heritage you have, so that the emperor's pen has been revived. When the emperor's pen is silent, it will be your death."

Ye Fan's face was cold.

He directly built a gate to heaven here, and at the same time, he grabbed the Eye of God created by Fang Rui.

Monitor everything here.

Chapter 1416: Five elements of vitality

Ye Fan summoned everyone to enter the heavenly world.

The First Emperor's Mausoleum became quiet here.

Even the lava stopped spewing, everything was calm, and there seemed to be no major battle.

The Eye of God hangs high above the sky, monitoring the Mausoleum of the First Emperor and even the entire southern border.

"hateful!"

White was burning with anger.

"What did Ye Fan take us for, prisoners, he even arranged for the Eye of God to watch over us!"

Li Sidao: "It's okay, let Ye Fan chatter for a while. There are a lot of secrets in the tomb of the Immortal Emperor. We need to dig it out. It won't be long before we can fully surpass Ye Fan."

"Li Xin, are you alright?"

"It doesn't matter." Li Xin shook his head, his face turned pale, although he could incarnate into a demon, he did some damage to himself.

He is human after all.

Li Xin said solemnly: "Ye Fan should not be underestimated, we cannot slack off, let's break through as soon as possible."

Several people walked towards the depths of the palace.

...

Heavenly World.

Ye Fan convened everyone to learn about everything that happened on earth. As for his deeds in the underworld, Ye Fan picked out some painless things to say.

When the strong people of the major ethnic groups left, and only his own people were left, Ye Fan confessed.

Everyone was excited when they learned that Ye Fan was the emperor of the underworld and controlled the underworld.

This is equivalent to having a perfect back path.

"This time, my harvest is very huge. I have obtained the Five Elements Divine Art. The next task is to find a way to complete the Five Elements and cultivate the Five Elements Divine Body."

"This is hard!"

"It is indeed very difficult. The Five Elements Divine Body is extremely terrifying, and it is impossible to even think about manipulating the power of the Five Elements. As far as I know, throughout the past and present, no one has cultivated into the Five Elements Divine Body."

Ye Fan was a little excited.

Throughout the ages, it is true that no one has cultivated the Five Elements Divine Body.

On the other hand, even if all of them are collected, the success rate is very small.

At this stage.

Celestial Hegemony is at level ninety-ninth, and it is too difficult to pass the level.

Ye Fan felt that the heavenly hegemony seemed to have come to an end...

But this is clearly not possible.

This is only the realm of God Transformation. There are many realms above. If the Heavenly Tyrant Body only has this level, then in the ancient times, it is impossible for the Tyrants to become one of the ten most powerful races.

Ye Fan guessed that his hegemony technique might not be complete.

Since the hegemony body has reached its end temporarily, it can only cultivate the Five Elements Divine Body, which is also the main task and goal set by Ye Fan.

The resources brought from the underworld will be distributed to everyone; especially the soul spar, which is the best treasure to improve the primordial spirit.

Subsequently.

Ye Fan had a chat with the high priest.

The Skeletons will surely follow him, but they want to look around when they first come to Earth's ancestral planet.

Of course Ye Fan wouldn't stop him.

Not only the high priest and the skeleton chief, but also the strong men of other ethnic groups left one after another.

Go and see this magnificent Ancestral Star World.

certainly.

Ye Fan also urged thousands of times not to disturb the secular world, and not to kill people, otherwise, he would punish him.

Arrange everything.

Ye Fan plunged into the secret room and began to retreat and practice.

He also gathered some treasures of the Five Elements attribute, where did Wanbaozhai send them.

It can assist in the practice of the Five Elements Divine Art.

Time flickers.

A month later, Ye Fan suddenly spit out a mouthful of blood.

Disordered breath.

"not good!"

Ye Fan was shocked, and immediately cast a big dispelling technique to expel the chaotic and violent five elements of vitality in his body.

"what happened?"

Ye Fan didn't understand.

He cultivated according to the five elements of magic, and cultivated the five elements of vitality. Shouldn't it be mutual generation and mutual restraint, the cycle is stable, how can there be riots?

Almost went crazy!

Ye Fan continued to try, but still, he knew that he couldn't practice blindly, there would be problems.

He finds the scorpion.

The drought at this time has already rushed to the peak of God Transformation.

A month ago, it was only the late stage of God Transformation, and this speed really made Ye Fan stunned.

At the same time, Ye Fan was also vigilant.

Not for the drought.

But it was because Li Si and the others were ancients, just like the scorpion. In that era, they were all high-ranking figures.

Down now.

If it is rebuilt, the bottleneck will be very small, and the breakthrough will be very fast.

So come on.

Li Si and the others may really be the first to break through the realm of God Transformation and enter the world of display.

Above the gods is the Hunyuan realm.

This realm is not much different from the realm of incarnation, it can be said to be an enhanced version of the realm of transformation.

It's just that I started to touch some laws and profound meanings.

Because after Hunyuan is the realm of enlightenment, you start to understand the Dao. Before you reach it, you need to understand the law and proceed step by step.

From divine transformation to Hunyuan, because the changes are not very big, the bottleneck is not too high. For ancients like Hanji and Li Si, breakthroughs will be relatively easy.

Ye Fan was a little stressed.

"You came to me because you cultivated a fork from the Five Elements Divine Art, didn't you?"

"You really expected things like God, and you did come up with a fork." Ye Fan was surprised, he didn't talk nonsense, and repeated it directly in front of Han Yan.

Immediately.

Five elements of vitality riot.

Ye Fan stopped immediately.

"Do you have any clues, what's going on? The five elements of vitality, shouldn't they be mutually reinforcing?"

"The five elements are indeed mutually reinforcing, but the carrier is not up to the standard."

"The carrier is not up to standard?"

Ye Fan was stunned for a while, and then he understood: "You mean, my physical body is not enough to carry the vitality of the five elements."

"That's right."

"No way, I'm a 99th-level Celestial Hegemonic Body. I can't hold the Five Elements vitality?"

"It has nothing to do with the level of the hegemony body, it has nothing to do with the essence of the physical body. Simply put, the five elements of vitality are rotated to create the five elements of divine power. This divine power is the fundamental element of many things between heaven and earth. Therefore, it requires an extremely heavy carrier to withstand. ."

"Even if your Celestial Hegemonic Body breaks through level 100 and temporarily resists the movement of the five elements, the power of the five elements will still crush you."

"Is there a way to break it?"

"Yes, you've used it before, that's the soil. This is the essence of the mother of the earth. It can make your body as thick as the earth, with great virtue! Your body has absorbed the soil before, but it's too little. Not enough."

Ye Fan had a headache: "That is to say, we need to find the soil, where can we find it?"

Han Yan shrugged: "I don't know about that. Take your time. If the Five Elements Divine Body is so easy to cultivate and succeed, then there will be no one born in the past. You don't have too high expectations for yourself."

Evan nodded.

Han Yan said: "Let's discuss it with me, my Vulcan body is gradually showing its power, let's see how far I can fight with yours."

"my pleasure."

The two collided immediately.

The body of the **** of fire is extremely hot, and the fire is surrounded by flames.

That flame is different from the different fire, but it is not weaker than the different fire!

"I have refined the source of Jiuyang Divine Body, and your fiery breath is useless to me."

"open!"

Ye Fan screamed.

A fiery light rose from behind, and at the same time, nine sun visions appeared.

The temperature rose sharply.

Nong Ye Fan was like the tenth sun, which was extraordinarily bright. He punched out and shattered the sky.

"Sun Fist!"

"Vulcan Fist!"

Drought is not to be outdone.

As the emperor's daughter, a person from a long time ago, she mastered many ancient arts and methods.

and.

The punch of the dry scorpion is actually mixed with some laws and profound meanings.

"law?"

"Have you broken through to the Primordial Realm?"

Ye Fan was shocked.

Han Yan shook his head and said, "No, it's just that as an ancient person, although I'm not in the Primordial Realm, I can use some of it."

"No, Li Si and the others fought against me before, why didn't they use it."

"Li Si and the others are still a little short."

Drought is extremely proud.

Ye Fan was stunned, and was relieved immediately, Han Xian is the daughter of the emperor, the daughter of the red emperor.

Although Li Si and the others were the prime ministers and princes of Daqin Xianguo, they could not be with the emperor after all.

The ones who can be with Han Yan must be the children of the Great Qin Immortal Emperor, such as the Prince Fusu!

"Come again!"

Ye Fan's fighting spirit is roaring.

This battle was dark and dark.

Eventually the two were exhausted.

Although the dry scorpion masters ancient methods and ancient techniques, it is still a little weaker after all.

no way.

The current Ye Fan can be said to be invincible in the divine realm.

Ninety-ninth-level Celestial Overlord Body, Nine Yang Divine Body, Yin and Yang Bloodline, Underworld Power, World Power...

For other geniuses, it is enough to get one kind of cowhide, and Ye Fan has them all.

How terrifying this is.

Just as Hanji said, the further back you go, the stronger Ye Fan is, and the strong foundation heralds higher achievements in the future!

Chapter 1417: old dragon confided

Finding Xi Rang is a difficult problem. Before finding Xi Rang, Ye Fan could only suspend his practice of the Five Elements, which messed up his plan.

What he thought was that they must cultivate into the Five Elements Divine Body before Li Si and the others broke through to the Primordial Realm.

In this way, he is confident that he can fight against Li Si and the others.

But now the plan is in vain.

Ye Fan is under a lot of pressure, but Xiyang has no clues, so he can't find it at all?

In terms of realm, Ye Fan encountered a bottleneck.

In the past few years, he has made rapid progress, and he must settle down well, otherwise his foundation will be vain.

The hegemonic body, realm, and primordial spirit could not improve for the time being, and Ye Fan's focus began to shift, cultivating supernatural powers and secrets, and at the same time, discovering treasures of good fortune.

He came to Taixutian again.

He thought of Ye Chen.

This cousin, it seems that he has never been born, and he does not know how he is cultivating in Chaos Mountain.

"Boy, you are here!"

Just entering Taixutian, before reaching Chaos Mountain, Ye Fan thought of the old voice in his ears.

It is the ancient dragon vein of Taixutian.

He came to the depths and saw the ancient dragon veins. He found that a few years later, the vitality of the dragon veins had passed away again.

"Old Dragon, it seems that your time limit is approaching! It shouldn't be, Zu Xing is recovering, the cultivation environment is getting better and better, as a dragon vein, it will also be nourished, and it should be gradually restored!"

"You are talking about ordinary dragon veins, but I am different. I am the dragon vein of Taixutian. The brokenness of Taixutian indicates that I am doomed to perish, but I have survived for countless years."

The old dragon sighed.

Ye Fan said: "How can I restore Taixutian?"

"Restoring Taixutian? Hahaha, boy, you are so loud. If you want to restore Taixutian, you must rebuild the heaven. You are a small spiritual cultivator, don't think about it!"

It is indeed impossible to rebuild the heaven.

Even a saint can't do it, maybe, only the legendary emperor-level existence can do it.

Ye Fan regretted: "It seems that I really can't save you!"

"Boy, is the imperial concubine still awake? I think, before I completely perish, take a look at the imperial concubine."

The voice of the old dragon revealed reminiscence.

Ye Fan said: "The imperial concubine is still sleeping, if you want to see it, you can."

Rumble.

Ye Fan opened the gate of heaven and grabbed the ancient coffin.

"The imperial concubine slept in the ancient coffin. It was strange and the space was very large. There was also this source of yin and yang. The imperial concubine was nourished by the source of yin and yang, and her body was intact. However, I could not see the face of the imperial concubine. What does the concubine look like?"

"nonsense!"

"You are a small god, and you want to blaspheme the emperor, that's death!"

The old dragon snorted coldly.

Immediately, he said in a trembling voice: "This is the bronze coffin of the third generation. I recognize it. It was built by the emperor for himself back then. Unexpectedly, he gave it to the emperor's concubine."

"The emperor has a deep love for his concubine."

"Unfortunately....."

Ye Fan said: "What a pity?"

Lao Long sighed: "It's a pity that there is no child born between the Great Emperor and the Emperor Concubine, and the Empress and Empress do not allow it."

"Empress?"

"Yes, that's the main palace. She has always been jealous of the emperor's deep affection for the emperor's concubine, and has always targeted the emperor's concubine. In order to accept the concubine, the emperor can only agree to the emperor's conditions, and cannot have a marriage with the emperor's concubine!"

Ye Fan said in surprise: "A friend like this? The emperor is invincible, and he is on an equal footing with the way of heaven. Can the emperor control him?"

Lao Long said: "You don't understand, the Great Emperor started from scratch when he was young, and his background was not good. And the Empress's family was strong enough. The Great Emperor received a lot of help from the Empress when he was young, and even was rescued many times. be grateful."

"If it wasn't for the chaos of the emperor's family, the emperor must have a deep love for the emperor. It's a pity that the emperor's family has too much ambition, causing chaos in the court, causing a split between the emperor and the emperor."

"Then, the emperor met the emperor's concubine and the concubine..."

Speaking of which, the old dragon stopped.

Ye Fan understood, and sure enough, every family had a hard-to-read scripture, and the emperor was no exception.

"By the way, can the emperor and the emperor have children?"

"certainly."

"Isn't the emperor still alive?" Ye Fan asked, because the Chidi could seal the seal and wake up later generations.

You know, the Red Emperor is only a quasi-emperor.

And the great emperor, that is the real emperor-level existence, the first person and the strongest throughout the ages.

His means must be more powerful than Chidi.

Will he also seal his own children so that they can recover in the future?

Isn't that the princess!

Even, will the emperor still be alive!

Ye Fan's scalp was numb.

The old dragon said with a smile: "Emperor, the vitality is extraordinarily tenacious, and it is not so easy to die. Perhaps, it is really sealed somewhere, waiting for the right time to revive!"

"Kid, let me remind you. If the emperor really appears, you have to be careful. Everything you got about the heaven and the emperor must be returned to the emperor."

"Why!"

Ye Fan drank coldly.

Lao Long said: "Because, that is what belongs to the emperor. Everything in the heaven and the emperor's artifacts will belong to the emperor. Don't think about competing with the emperor. You are not enough, far from enough! The emperor, the body is flowing With the blood of the Great Emperor, above everything else, although you are a monster, you are still far behind the Emperor!"

Ye Fan's face was solemn.

Unexpectedly, there were inexplicably more powerful enemies.

That's right!

is the enemy!

It is impossible for Ye Fan to give everything he got to the so-called emperor. He does not trust anyone and will not submit to anyone.

What about the emperor!

Now, it's not their time!

The back waves of the Yangtze River push the front waves! !

"Stop talking about this, open the ancient coffin, I want to see the emperor's concubine."

"Think beautifully!"

Ye Fan threw the bronze coffin of the third generation into the world of heaven and closed the gate of heaven.

The old dragon said angrily, "What are you doing!"

"I suddenly don't want to show you, goodbye." Ye Fan was a little annoyed, this old dragon, what he said was not pleasing.

"Boy, come back to me!"

The old dragon shouted angrily.

However, Ye Fan didn't look back.

"return!"

"Ah, ah, boy, if you dare to disobey me, believe it or not, I will kill you!"

"Even if my strength is already negligible, it's still possible to kill you a small goddess ant."

The old dragon made a threat.

And Ye Fan has disappeared, but his sneer came, "You can give it a try and see if you can kill me. I, Ye Fan, have been in the world for so many years, I am scared!"

"hateful!"

The old dragon growled.

Tai Xutian trembled.

However, three seconds later, calm was restored.

The old dragon's madness will speed up the flow of life and the death, and he can't do that.

Rao was very angry and could only suppress it.

"If the emperor recovers, knowing that the emperor is still there, he will definitely deal with it. If you don't hand over the emperor, then you and the emperor will be mortal enemies."

"Kid, remember, don't hand over the imperial concubine. When the imperial concubine recovers, you will be blessed."

"For the emperor's sake, I will help you!"

"Remember my words!"

After speaking, the old dragon fell into a deep sleep.

On the Chaos Mountain side, Ye Fan could hear Lao Long's words clearly, which was indeed a problem.

Empress Dowager, of course he would not hand it over.

Ye Fan has always believed that as long as the imperial concubine recovers, he will definitely be able to get the great fortune of heaven, and even get a huge backer.

That is to say.

He and the emperor must be mortal enemies!

"very good!"

"I really hope the emperor still exists. I really want to see what level the emperor is!"

Ye Fan has high fighting spirit.

He has confidence in himself, as long as he cultivates the Five Elements Divine Body, then he will definitely not be worse than the emperor.

"Let's take a look at Ye Chen first."

Ye Fan entered Chaos Mountain.

Now, he is the pinnacle of God Transformation, and he is the pinnacle in all aspects. Chaos Qi does not cause much harm or resistance to him.

He easily came to the foot of Chaos Mountain.

But.

Ye Chen was not found.

"Great Tracking Technique!"

Ye Fan used his magical powers and noticed that there was Ye Chen's aura inside Chaos Mountain.

Obviously, Ye Chen's strength has soared, and he can already enter Chaos Mountain to practice.

"I don't know if his Primordial Body has evolved into a Chaos Body!"

"Really looking forward to it!"

Chapter 1418: Beneath Chaos Mountain

Ye Fan entered Chaos Mountain.

Following Ye Chen's trail.

However, the deeper he went, the more pressure he got. It didn't take long for Rao to be at Ye Fan's level, but he couldn't handle it, and his body couldn't stop shaking.

"As expected of Chaos Mountain, the Great Emperor threw it out to kill the strongest."

"It seems that Ye Chen's Primordial Body has evolved. Even if he fails to evolve into Chaos, it is not much worse. Therefore, he can go deeper into Chaos Mountain, which is less hindered than I am."

Ye Fan's conjecture was indeed correct.

Ye Chen's Primordial Body has evolved a part, which has also led him to adapt to the Chaos Qi, and the pressure is gradually decreasing.

If Ye Chen successfully evolved into a chaotic body, it would be enough to travel unimpeded in most places in Chaos Mountain.

When Ye Chen could not be found, Ye Fan began to cultivate himself.

Chaos Mountain has abundant resources, and it is not that he cannot absorb Chaos Qi, but refining is relatively troublesome.

But now that Ye Fan had time, he simply found a good place, sat cross-legged, and began to swallow the Chaos Qi.

"Woooooo!"

Great phagocytosis cast.

A small vortex appeared, frantically swallowing Chaos Qi and entering Ye Fan's body.

Ye Fan kept refining.

But at this time.

Ye Fan found that the cup of refining chaotic energy actually made his body very comfortable.

To know.

Ye Fan practiced the magic of the Five Elements, but his body was a little uncomfortable because he didn't have the soil to breathe.

That is the five elements of vitality that remain in the flesh and bones of the body.

But now.

This uncomfortable feeling is gradually weakening, and it seems that the chaotic energy can be offset, or merged.

At this moment, Ye Fan's mind flashed.

While breathing out Chaos Qi, he began to practice the Five Elements Divine Art. After a while, the Five Elements Yuan Qi was born.

Violence inside.

"Come!"

Ye Fan shouted, pulling the chaotic energy and covering the five elements of vitality.

as predicted.

The sense of rioting abated.

The Five Elements Yuan Qi seems to have encountered a boss, was suppressed, and forcibly merged. In other words, the chaotic energy is a lubricant.

Ye Fan was very happy.

It's really a mistake, chaotic energy can promote the coordination of the five elements of vitality.

"Boom!"

In Ye Fan's body, the river and the sea were turned upside down.

This is not a riot, but a monstrous aura emanating from Sui Sui after the five elements of vitality begin to generate and restrain each other, coordinate and operate in harmony.

Five elements, how amazing.

now.

Ye Fan is a superficial master.

only.

not enough.

Now it is only the five elements of vitality, Ye Fan needs to cultivate the five elements of divine power, and use the five elements of divine power to nourish the physical body, so as to cultivate the five elements of the divine body.

Time flickers.

Three months have passed, and during this time, Ye Fan has been practicing.

He is now extremely proficient in mastering the vitality of the five elements, and the sea of suffering is full of vitality for the five elements.

not only.

Ye Fan also used the five elements of vitality to create a unique skill - the five elements of Shenquan.

Call it out, it's dark.

Powerful.

Nourishing the vitality of the five elements, Ye Fan's physical body is also strengthening, and his flesh and bones have been improved a lot.

Now, he has reached a bottleneck.

Continuing to accumulate the five elements of vitality is of little use, he needs to convert the five elements of vitality into the five elements of divine power.

Ye Fan was a little unsure.

"Boy, stop and continue to practice, you will explode and die."

Suddenly, the old dragon's voice sounded in Ye Fan's ears.

Ye Fan asked, "Why?"

Lao Long said: "Chaos energy can reconcile the vitality of the five elements, but it cannot reconcile the divine power of the five elements. If you transform into divine power, your body will not be able to withstand it, and you will explode and die."

"How to crack?"

"Xi soil, only by integrating enough interest soil to increase the body's heaviness, can it be able to withstand the five elements of divine power. Then, try to cultivate the five elements of the divine body. This physique, even the great emperor of that year was very appreciated, but unfortunately, in my memory, In, no living being can succeed."

"Throughout the ages, no one has succeeded in the long years? Is it impossible to gather the five elements of magic, or can't find the soil?"

"neither."

Lao Long directly vetoed.

"The Five Elements Divine Art is difficult to gather together, but the hope is not small; although Xiyang is difficult to find, many ethnic groups have survived. This is not a problem. The reason why there is no successful case is because the Five Elements Divine Experience has been hit by heaven."

Ye Fan was horrified.

Lao Longdao: "Under the way of heaven, it is not allowed to jump out of the three realms and not in the five elements. This is a challenge to the way of heaven. We monks, practicing against the sky, are also provoking the way of heaven."

"Right now, you are still weak, and it doesn't matter. When you become a **** in the future, you will encounter a catastrophe. Moreover, after the god, every realm will encounter catastrophe, and the way of heaven will be obliterated. Only through the sky again and again Only by robbery can we reach the top."

"The Five Elements Divine Body, controlling the Law of the Five Elements, and even the Great Dao of the Five Elements, is a drastic risk factor for Heavenly Dao, and it is not allowed to appear. In the long history, many young Supremes have cultivated to the last step, only a little bit away, Heavenly Dao came to kill the calamity, The body is dead and the Tao is gone, and the ashes are gone."

"Not only the Five Elements Divine Body, but the Heavenly Hegemony Body you cultivate will also encounter huge calamities, and the yin and yang blood will also suffer calamities. As long as it is a factor beyond ordinary people, it will be regarded as a thorn in the eyes of Heaven and will be taken special care of in the future."

"You are really good now. The Heavenly Tyrant Body, the Yin-Yang Bloodline, and the Nine-Yang Divine Physique, and now you have to cultivate the Five Elements Divine Physique. Boy, how will you survive the calamity in the future? Have you thought about it?"

"A journey of cultivation does not mean that the more things you condense, the stronger you are. Some supreme powers, such as the first swordsman in the ancient times, are just a mortal body, only practicing swordsmanship, reaching the peak soon, and even once and the emperor. Confrontation. The emperors are very much appreciated."

"I advise you to stop cultivating the Five Elements Divine Body so that you will not be obliterated by the robbery in the future. It is not good if you have too much heart!"

Ye Fan was silent.

Heavenly Tribulation said, of course he knew.

but.

It's impossible for him to renounce his martial arts now.

Isn't it just a calamity, there will always be a way, the soldiers will come to block the water and cover it with soil, it's still early, so why do you think so much.

"I have my own plans."

Evan responded.

Lao Long snorted coldly: "What a brat who is over his own strength. In the long history of history, there are more evildoers than you. Why do you think that you can succeed."

"Can you handle it?"

"Hahaha, well, it's crazy. Since that's the case, I'll show you a clear path. Back then, when the heavenly court collapsed and the imperial concubine encountered a crisis, the emperor took action, threw Chaos Mountain, and killed the strongest. One of the strongest was It is the Holy King of Earth Demon, the Lord of the Earth Demon Clan back then."

"The Holy King of Earth Demon?"

"Earth Demons, living under the earth, they will collect countless rare and precious soils in the world, which can assist in cultivation. The Earth Demon Saint King must be integrated with the soil. If you can go under the Chaos Mountain, find the Earth Demon Saint King, there is a certain chance of getting the soil."

"Of course, there is only a slight possibility, because Xiyang is alive. After so many years, it is very likely that he has left."

"Kid, I hope you can get the soil and cultivate the Five Elements Divine Body. I want to see, in the future, how you will face the heavens and the disaster!"

Chapter 1419: Great Fortune

Under the Chaos Mountain, the Holy King of Earth Demon.

Finally got a clue.

However, if he wants to go under Chaos Mountain, Ye Fan can't do it now. It is impossible to dig through Chaos Mountain.

Ye Fan did not leave.

He continued to walk in the Chaos Mountains.

Since he cultivated the five elements of vitality and nourished his physical body, his physical body became stronger again, and his ability to resist pressure naturally improved a lot.

However, after all, it was only on the periphery of Chaos Mountain, and he did not find Ye Chen.

But it wasn't a fruitless journey.

Ye Fan found a lot of magical medicines, some of which were very useful for him to forge his body.

"Hey, what's the scent?"

Ye Fan moved his nose.

This scent can be described as refreshing and pleasant, and all the pores in the body are relaxed.

not only.

Ye Fan found that the vitality of the five elements in his body became more and more balanced.

Incredible.

Ye Fan chased away, and gradually, he saw some light, flickering.

Close at hand, but it seems, and far away.

"Shrunk to an inch."

Ye Fan performed a secret technique.

To catch that ray of light, it is always a little distance away.

"Large Arrest!"

Ye Fan made a handprint.

However, he couldn't catch the halo, it seemed that the halo, without any restrictions, was otherworldly.

interesting.

This makes Ye Fan even more excited, he is definitely a big baby.

Ye Fan continued to chase.

What he couldn't even imagine was that before he knew it, he was a little awake and seemed to be lost.

And when Ye Fan suddenly felt like a dream and woke up, he finally realized that something was wrong, he came to a strange and strange place.

it's here.

The endless grass is dark and deep, and the wind is howling.

Is this Chaos Mountain?

Ye Fan was shocked and entered a state of battle.

"call."

Suddenly, the light appeared again.

in the distance.

Ye Fan thought about it and decided to take a look.

This time.

The light didn't seem to move, just there, waiting for Ye Fan's arrival.

as predicted.

Ye Fan came to the light, and he finally saw what it was.

This is a flower!

Swaying with mysterious brilliance, just looking at it makes people feel comfortable.

"Is this the legendary, turbid flower that was born in chaos."

Ye Fan was shocked.

It is said that when the universe was born, there was chaos, and then there was the skin of the ancient
**** Kaitian.

The clear is the sky, and the turbid is the earth.

In order to connect the heaven and the earth, the turbid flower was born in Sui, which is the medium
bridge connecting the heaven and the earth.

Ye Fan watched carefully.

It is more and more certain, because the turbid flower is very unique, with a nearly transparent color on
one side, while the other side is also very turbid.

This is obviously a sign of turbid flowers.

"It really made a lot of money. I didn't expect that I could not meet the turbid flower. This is a great
creation."

The effects of the turbid flower are endless. All in all, if swallowed, it can be fully enhanced.

Ye Fan guessed that maybe he could break through to the Primordial Realm.

"What's this?"

Ye Fan suddenly noticed that there was some strange soil under the turbid flowers, and he was excited.

"Retire!"

"My God, so much soil!"

Ye Fan couldn't help laughing.

What do you really want, not only get the turbid flowers, but also get enough soil.

Now it seems that there is no need to go under Chaos Mountain at all.

"That's right, the turbid flower is born and chaotic, growing on the soil!"

"I'm really lucky."

Ye Fan didn't hesitate, he immediately began to practice here.

Rumble.

The Five Elements Divine Art works.

The five elements of vitality are madly blending, compressing, qualitatively changing, and transforming in the direction of the divine power of the five elements.

Simultaneously.

Ye Fan also began to absorb the soil.

Immediately.

Flesh erupts.

He began to absorb the power of Xi soil and merged with Xi soil, and Ye Fan entered a state of rapid progress.

Time flows like water.

half year later.

Ye Fan opened his eyes, and two divine lights pierced through the void.

"what!"

He howled wildly.

The vast expanse of grass exploded wildly, all overturned.

The space is filled with the divine power of the Five Elements.

"Five Elements Divine Fist!"

Ye Fan punched and smashed it out.

"boom!"

Blast the space.

In the distance, thousands of miles around, ashes disappeared, leaving a huge deep pit.

In the deep pit, there are also these five elements of divine power that are violent, and ordinary monks will be strangled to pieces when they enter.

Hu Hu Hu.

Ye Fan let out a long breath.

finally.

He succeeded.

The Five Elements Primordial Qi was successfully transformed into the Five Elements Divine Power; the fleshy body also fused enough soil to become thick and sturdy, and withstand the Five Elements Divine Power.

Now Ye Fan.

Although the realm has not improved, and the sky is not a breakthrough, but it must be half a year ago, the power is not a single star.

Now.

If facing Li Si, Li Xin, Bai Qi, Meng Tian and Wang Jian, Ye Fan is confident that he can suppress them with one hand.

Let them, there is no room for turning over.

"readily!"

Evan laughed.

He looked at the turbid flower and was considering whether to swallow it, but finally, Ye Fan decided to wait.

The turbid flower, this heaven-defying baby, is definitely not simple.

Although his physical body has strengthened a lot, he may not be able to hold the energy of the turbid flower.

Ye Fan carefully put away the turbid flowers, naturally there are not many left, and Ye Fan naturally dug them all.

This is good stuff.

Later, he can continue to absorb and continue to strengthen the flesh.

At this moment.

Ye Fan found a problem, how to leave this mysterious and strange place?

He could only move forward aimlessly.

Strange to say.

It didn't take long for him to leave the grass, and he returned on the same road, but he could no longer enter the grass.

"Secret realm?"

Ye Fan couldn't understand.

But now he was too lazy to think about it, he hurriedly left Chaos Mountain.

He came to the depths of Taixutian and shouted, "Old Dragon, wake me up!"

Rumble.

The old dragon revives.

Ye Fan said proudly: "Look, I have cultivated the power of the Five Elements, and I have integrated enough interest!"

"Ok?"

The old dragon was shocked.

"Impossible, where did you get the soil? It's impossible for ants like you to enter the Chaos Mountain. Even if you become a real god, it will be very difficult."

"I am the son of luck. In Chaos Mountain, I found the turbid flower and got the soil."

Saying that, Ye Fan showed the turbid flowers.

The old dragon was even more shocked.

Immediately, there was a long silence.

Ye Fan snorted coldly: "Wait, watch me cultivate the Five Elements Divine Body and come to slap you in the face."

"Farewell!"

Ye Fan left.

The old dragon sighed leisurely: "Boy, I wish you good luck."

...

Ye Fan returned to the heavenly world.

He found Hanyu, who was shocked when he saw that Ye Fan had cultivated the power of the five elements.

"The turbid flower?"

The dry man smacked his tongue, "You are really rich in luck. You have obtained all these treasures in the world. In addition, you are correct that you didn't swallow them. Even a **** who swallows the turbid flowers will explode and die. "

"What, the gods can't swallow the turbid flower? Could it be that you need a saint level to do it."

"That's true. However, you are obviously still young, you are not fully mature, and your power is limited. The realm of the gods should be swallowed. But now, I advise you not to try, lest you encounter unexpected events, and no one can save you. ."

"Gods!" Ye Fan had a headache. "Beyond the transformation of God is Hunyuan, above Hunyuan is enlightenment, and above enlightenment is the realm of gods. It's still very far away, when will it be a head."

Han Yan said with a smile: "There are also high and low levels of gods: gods, kings, emperors, gods, and above them, there are saints, such as powerful saints, extraordinary saints, and invincible saints! On top of that, there are emperors. There is a level of existence! There is a long way to go to cultivate!!"

Chapter 1420: Attack on the First Emperor's Mausoleum

Cultivation is a long way to go.

indeed so.

Ye Fan dispelled his impetuous emotions and asked again: "Now, I have gathered the divine power of the five elements, and the next step is to cultivate the divine body of the five elements, but I have no specific way, could it be that I rely entirely on the divine power of the five elements to nourish the flesh, when will this be a head? ?"

Han Yan said: "In fact, in the realm of transformation, there is no way to cultivate the Five Elements Divine Body, and you still lack the Five Elements Law. In other words, at least you have to wait for you to advance to the Primordial Realm, control the Five Elements Law, and cooperate with the Five Elements divine power to create the Five Elements. God body."

"In fact, the possibility of successful cultivation in the Hunyuan Realm is very small. The Law of the Five Elements is weak after all, and above the Law is the Dao. If you are promoted to the Realm of Enlightenment, comprehend the Dao of the Five Elements, and rely on the power of the Dao, the success rate will be great. In addition, I also recommend that you collect the treasures of the five elements, which have a lot of auxiliary functions."

"Now, you have mastered a kind of heaven and earth treasure with the attributes of the Five Elements, that is your Qihuo; with the help of Qihuo, your fire magic will be cultivated faster, and the fire power will become stronger and stronger, gradually surpassing other attribute power."

"You can't feel anything now, but once the fire power is too much stronger than the other four attributes, it will cause the five elements to become unbalanced and your body will change."

Ye Fan's eyelids twitched and he said, "So, I need to find the other four attributes of heaven and earth treasures now?"

"That's right."

"It's really troublesome!"

Ye Fan smiled bitterly.

It also gave him some goals, though.

"Oh, by the way, I almost forgot. You control the World Tree. This is the top treasure of the wood attribute. It can assist in cultivating the divine power of wood. What you need to look for now are the three attributes of water, gold, and earth."

"No, there are so many, I also have a soil-type treasure, that is Xi soil."

"Do you still have stock?"

"A little."

Ye Fan revealed Xi soil.

Han Yan smiled and said: "It's a great creation, your luck is really strong. Indeed, the soil is the first treasure of the soil attribute; the world tree is the first treasure of the wood attribute; the strange fire, the age can not be called the fire attribute. First, however, you now have control over the rioting black flame, the azure blue fire and the ghostly bone fire, the three kinds of abnormal fire, I suggest you continue to collect the abnormal fire."

"If so, you can still get the first treasure of metal and water properties, then the first treasure of five properties will greatly increase the probability of you cultivating the Five Elements Divine Body."

"after all."

"Since ancient times, if nothing else, at least no one has gotten the seedlings of the World Tree."

"That's your advantage."

"Yours is different."

"Ye Fan, I'm optimistic about you!"

Han Yan's eyes were shining. In fact, she didn't have much confidence in Ye Fan's cultivation of the Five Elements Divine Body before.

But now, she has changed her mind.

perhaps.

Ye Fan can really create miracles.

And Ye Fan is also very excited, and now it is only water and metallic.

"Do you have any idea?"

Ye Fan asked Han Xiao, she should know what the first magic treasure of water and metal properties is.

Han Yu pondered: "You should know the innate spiritual treasure, such as the Kaitian Axe is the innate spiritual treasure. There is a kind of innate spiritual treasure called the Buddha Pagoda."

"Buddha Tower?"

"Yes, the Buddha Pagoda is made of chaotic mother gold, and it can be said to be the first treasure of metal. In addition, there is floating water in the Buddha Pagoda, which claims to be able to drown all living beings, and the Buddha is all over the heavens and the world."

"According to the records of ancient books, in the Middle Ages, there were ruthless people who made troubles, held the pagoda, and wanted to sacrifice blood to the people to attack the road and advance to the realm of the emperor."

"Later, the Supreme Being in the restricted area of the universe, the Supreme Being of Yin and Yang, sacrificed his own life and death map of the magic soldiers, wrapped the Buddha Tower, and banished the Buddha Tower. Only then did the catastrophe of the common people be settled."

"The purpose of this, first, is to tell you that the source of floating water, even if it is not the first treasure of the water attribute, is similar; that is, as long as you get the Buddha Pagoda, the metal and water attribute treasures can be at the same time."

"However, as early as the Middle Ages, the Buddha Pagoda was exiled by the Supreme Being of Yin and Yang using the life and death map."

"Forever drifting in the vast universe."

"You want to get it, the odds are zero."

Ye Fan's face was full of black lines, "Since that's the case, you say this is useless."

Han Yan smiled and said: "Although, the possibility is zero; but, let me let you know. Maybe you have a lot of luck, the son of heaven, got the Buddha Pagoda."

"Be realistic."

Ye Fan shook his head, he also had self-knowledge.

The Buddha Pagoda was exiled by the Supreme Being of Yin and Yang, floating in the vast universe, endless years, and I do not know where it has drifted.

How did he find it!

Besides, even if he was lucky enough to meet the Buddha Pagoda, he would not be able to conquer it.

Innate Lingbao, Ye Fan was unable to surrender.

The reason why he was able to use Kaitian Axe was not because he surrendered Kaitian Axe, as if Kaitian Axe recognized him.

Unless he can get the approval of the Buddha Tower.

Ye Fan cleared his mind and didn't think about it. He said, "Follow me to visit Shi Huang's Mausoleum. Perhaps, Shi Huang's Mausoleum has treasures. After all, it was the former capital of Daqin Xianguo, with many secrets and countless treasures."

"That's exactly what I mean," said Han Yan.

Rumble.

The two came to the southern border.

The Mausoleum of the First Emperor was quiet, and the Eye of God had been monitoring everything.

"Li Si and the others must be planning something, we have to be careful."

"Even if it is in the Primordial Realm, I still have the power to fight."

"Five Elements Divine Fist!"

Ye Fan is unequivocal, raising his hand is a punch, extremely fierce.

Fist light bombarded on the palace walls of the palace.

Rumble.

The earth shakes.

Li Si, who was cultivating in the palace, was alarmed, walked out of the retreat, saw Ye Fan, and was furious.

"Evan!"

Li Si stopped drinking.

"You're killing yourself, you dare to come here to disturb us, do you really think you're cool?"

"I don't know if it's cool or not, but today, I'm going to penetrate the First Emperor's Mausoleum."

"Not ashamed to speak."

"Ha ha."

Ye Fan's body trembled, and all of a sudden, five colors of light shot up into the sky.

Li Si's pupils shrank: "Five Elements Divine Power! You actually cultivated the Five Elements Divine Power, what are you going to do? Could it be that you have to cultivate the Five Elements Divine Body."

"Hahaha, Ye Fan, you are really over your head. Since ancient times, no one has successfully cultivated the Five Elements Divine Body. You are so arrogant."

"I hope you continue to cultivate, even if you are about to succeed, you will eventually fall into the catastrophe."

Ye Fan said: "You want me to continue cultivating, then please give me the treasures of metal and water attributes. I need assistance in cultivating the Five Elements Divine Body, hurry up."

Li Si snorted coldly, "You think I'm a fool!"

"You said give it or not?"

"No!"

"you sure?"

Ye Fan opened the gate of heaven.

Then he said coldly: "I will order all the strong men in the world to attack the Mausoleum of the First Emperor!"

"what!"

Li Si's face darkened.

Calling on all the powerhouses in the world, Li Si has no doubt that now Ye Fan has this kind of energy.

Li Si didn't know what the consequences would be when so many powerful men attacked the First Emperor's Mausoleum.

Although he felt that the palace was invincible, he was afraid of accidents.

After all, so many years have passed.

It is no longer the Daqin era, and things are different.

"Ye Fan, don't deceive people too much!"

"To give or not to give!"

At this moment, Bai Qi and others also came.

They were surprised when they saw Li Si's face twitching, because, in their impression, the Prime Minister had always been shocked and his face was as calm as a lake, but now he is so rude.
